DEPARTMENT OF TRANSPORTATION DIRECTOR'S REPORT

The Commission set Tuesday, July 27, 1976, as the date for the next regular meeting.

Attention was given again to the Six Year Highway Program. (Continued from page 1572) Mr. Burco said that staff has considered the public input from the meetings as well as Federal legislation which was received recently before the preliminary plan was issued. There was a major change in the 1976 Federal Highway Act that allowed the States to do major preservation-type work (maintenance) on a variety of systems that were covered by Federal Aid. As a result of this, staff has looked at the first two years of the program in terms of what might be done if the Department allocated one-third to one-half of the funds available for primary and secondary systems to this preservation-type activity which would be resurfacing, critical bridge replacements, etc. These types of projects were not in the initial Six Year Plan developed last year because they were not legal. He said that they do represent an extremely high priority for the preservation of the existing system. Mr. Burco indicated that staff's feeling that the Department is entirely confident in the firm's ability to maintain the firm's maintenance program.

the fol see list of projects approved in files. ok

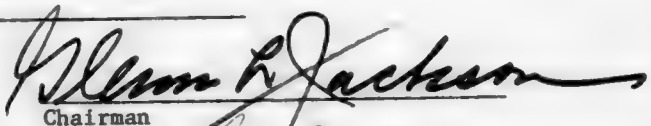

1) (yellow buffed colored booklet)

2

- 3) Deferred action on projects listed for the fiscal years 1979-1982 and later, because revenue projections based on current revenue sources indicate that the program cannot be financed.
- 4) Authorized preliminary engineering necessary to advance other projects for 1979-1982 following presentation of proposed new funding programs for highway construction projects to the 1977 Legislature.

(Copy of the Six Year Highway Improvement Program July 1, 1976, to June 30, 1982, dated June 29, 1976, on file in the Commission's files, Salem.)

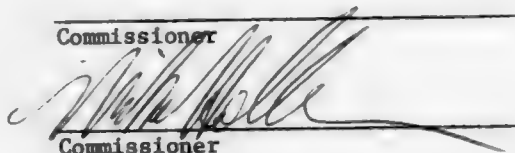

The Chairman adjourned the meeting at 11:35 a.m.

TO: Oregon Transportation Commission
SUBJECT: Report of Actions Taken Under Delegated Authority

By duly adopted delegation order you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I report the following for your official records:

On behalf of the Commission and under its authority delegated to me to make formal offers to purchase real property in preparation for condemnation, I approved making the following:

DRAIN-ANLAUF SECTION, UMPQUA HIGHWAY - DOUGLAS COUNTY

R-48968 - William C. Wooley et ux. 0.32 acre for permit of entry for bridge construction. Offer \$3,750.00.

GRANTS PASS-NEW HOPE ROAD SECTION, JACKSONVILLE HIGHWAY - JOSEPHINE COUNTY

R-40515 - Ivan C. Butcher et al. Parcel 1: 0.11 acre for right of way purposes; Parcel 2: 0.07 acre for permanent easement for irrigation facilities, power lines and slopes. Offer \$7,000.00.

R-40520 - Eleanor James Frank et al. Parcel 1: 0.06 acre for right of way purposes; Parcel 2: 0.05 acre for permanent easement for slopes and irrigation facility. Offer \$2,600.00.

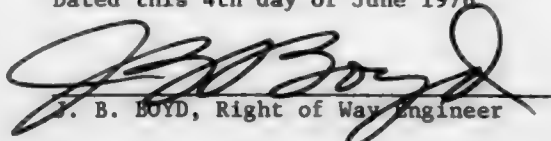

R-40522 - Gordon E. Caldwell et al. Parcel 1: 0.14 acre for right of way purposes; Parcel 2: 0.03 acre for permanent easement for slopes and utilities. Offer \$3,600.00.

R-41429 - Sidney Frank et al. Parcel 1: 0.01 acre for right of way purposes; Parcel 2: 0.02 acre for permanent easement for slopes, irrigation facilities and power lines. Offer \$550.00.

WEST PORTLAND PARK AND RIDE SECTION, PACIFIC HIGHWAY - MULTNOMAH COUNTY

R-48535 - Ackerley Communications, Inc. 8600 sq. ft. for sign interest. Offer \$4,000.00.

J. B. BOYD, Right of Way Engineer

June 21, 1976

EXHIBIT E
MINUTES OF JUN 29 1976

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

The Administrator and State Highway Engineer, acting under delegated authority from the Oregon Transportation Commission, authorized Mr. Boyd in his official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, he approved the actions listed below and reports this action for your official records:

- (1) Sale of 0.05 acres excess property on the Park Street-Tolman Creek Road Section of the Green Springs Highway in Jackson County for a minimum consideration of \$550.00. File 46263. Approved on May 19, 1976, by Mr. Boyd.
- (2) Sale of 5.17 acres excess property on the Dayton-Amity Section of the Pacific Highway West in Yamhill County for a minimum consideration of \$2,600.00. File 3287. Approved on June 2, 1976, by Mr. Boyd.
- (3) Sale of 1.9 acres excess property on the Hermiston-Hinkle Section of the Hermiston Highway in Umatilla County to the Hermiston School District for a minimum consideration of \$1,900.00. File 31460 (L-3684). Approved on June 2, 1976, by Mr. Boyd.
- (4) Sale of 3.9 acres excess property on the Hermiston-Hinkle Section of the Hermiston Highway in Umatilla County for a minimum consideration of \$3,900.00. File 31461. Approved on June 2, 1976, by Mr. Boyd.
- (5) A Quitclaim deed to Sandra Beebe, Adeline Knife, and Lucille Melson releasing any interest the State might have in their property by virtue of a possible overlap in description of the Delmar-China Camp Section of the Coos Bay-Roseburg Highway in Coos County. File 14226. Approved on June 3, 1976, by Mr. Boyd.
- (6) Sale of 7.88 acres excess property in three parcels for a minimum consideration of \$7,880.00. These parcels are on the abandoned location of the Hermiston-Hinkle Section of the Hermiston Highway in Umatilla County. File 31459 (L-3691). Approved on June 4, 1976, by Mr. Boyd.
- (7) Sale of 1440 square foot parcel of excess land from a stockpile site to the Charleston Sanitary District for the appraised value of \$600.00. The property is south of the south end of the South Slough Bridge. File 6751. Approved on June 4, 1976, by Mr. Boyd.

EXHIBIT E
MINUTES OF JUN 29 1976

- (8) Agreement with Wildish Land Company regarding use and protection of haulroads to be used by the public for access to swimming holes on the middle fork of the Willamette River in Lane County. File 17053-5-6. Approved on June 9, 1976, by Mr. Boyd.
- (9) Sale of 19.95 acres of excess property on the Gervais-Hayesville Section of the Pacific Highway in Marion County for a minimum consideration of \$12,000.00. File 20889. Approved on June 18, 1976, by Mr. Boyd.
- (10) Sale of 1.84 acres excess property on the Sutton Lake-Florence Section of the Oregon Coast Highway in Lane County for a minimum consideration of \$13,000.00. File 46999. Originally approved by Commission at \$16,000.00 on March 1, 1974. Reappraised when property did not sell. Approved on June 18, 1976, by Mr. Boyd.
- (11) Sale of 1.43 acres excess property on the former route of the Athena-Washington State Line Section of the Oregon-Washington Highway to Umatilla County for highway related purposes for one-half the appraised value of \$575.00. File S-245. Approved on June 18, 1976, by Mr. Boyd.
- (12) Sale of 10.82 acres excess property on the Hermiston-Hinkle Section of the Hermiston Highway in Umatilla County for a minimum consideration of \$1,625.00. Files 31461 and 31467. Approved on June 18, 1976, by Mr. Boyd.
- (13) Construction and maintenance agreement with the Oregon Electric Railway Company for the construction of signals and gates at the crossing of Cornelius Pass Road and the right of way of the railroad. Approved on June 18, 1976, by Mr. Boyd.

G
MINUTES OF JUN 29 1976

REPORT OF CASES FILED BY AND AGAINST DEPARTMENT OF TRANSPORTATION

L-7341 M. Donald Walters, et al. v. J. David Jensen, et al, and State of Oregon: This is a suit to foreclose some property owned by Mr. Jensen. The State Highway Division has obtained a judgment against Mr. Jensen for damage to state park property and the judgment is a lien on the property that is subject to foreclosure.

The file has been referred to the Attorney General's office for handling. (Coos County)

L-7346 John R. Bouse v. Western Management Association, Inc., et al, and State of Oregon: This lawsuit arises out of an accident that occurred on November 15, 1974. The plaintiff's vehicle high centered itself on a sewer manhole which protruded above the surface of the ground. Investigation by the Highway Division personnel indicates that the manhole is not located on any property under the control of the Highway Division. Nevertheless, the Division has been named as a party defendant. The amount of the lawsuit is \$103,634.25.

The matter has been referred to the State's insurance carrier for the defense of the State. (Property in Beaverton, Washington County)

L-7347 Gwendolyn L. Bouse v. Western Management Association, Inc., et al, and State of Oregon: This lawsuit arises out of the same fact situation as recited for L-7346. The amount of the lawsuit is \$152,558.88.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7348 Jonathan R. Bouse v. Western Management Association, Inc., et al, and State of Oregon: This lawsuit arises out of the same fact situation as recited for L-7346. The amount of the lawsuit is \$5,000.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7349 Laura A. Bouse v. Western Management Association, Inc., et al, and State of Oregon: This case arises out of the same fact situation as recited in L-7346. The amount of the lawsuit is \$7,500.

The matter has been referred to the State's insurance carrier for the defense of the State.

EXHIBIT G
MINUTES OF JUN 29 1976

L-7350 Jesse Cooper, et ux v. State, et al: This involves damages in the amount of \$15,000. The damages are alleged to be to the plaintiff's residence and resulted from blasting damages by the contractors, J. C. Compton Co., G. D. Dennis & Sons, Inc. and John B. Gilliland Construction, Inc. The damages allegedly occurred prior to May 27, 1970. (Mt. Hood Loop Highway No. 26, Clackamas County) Contract 7343

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7351 M. C. Lininger & Sons, Inc. v. State: This is a suit for Breach of Contract and arises out of Contract No. 7709. The plaintiff was the prime contractor and the subcontractor on the job that supplied certain materials to the plaintiff was Vern Hoadlin Construction Co., Inc. There were liquidated damages involved in the final payment of the contract and the prime contractor reduced payment to the subcontractor in the amount of the liquidated damages. The subcontractor has sued the prime contractor (M. C. Lininger & Sons) for the amount of the liquidated damages (\$19,050) and the prime contractor has in turn sued the State for the same amount.

The matter has been referred to the Attorney General's office for the defense of the State. (Jackson County, Pacific Highway)

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
JULY 27, 1976

July 27, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
B. Gordon Coleman, Member
Michael P. Hollern, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Jack Sollis, Assistant Counsel
H. S. Coulter, State Highway Engineer
E. S. Hunter, Deputy State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Paul E. Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the meeting of June 29, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2648," which resolution by this reference is made a part hereof and filed in the Commission's files.

Upon the recommendation of Mr. Boyd, the Commission adopted a special "Condemnation Resolution No. 2649," concerning the John Day Scenic Waterway in Wheeler County. Mr. Talbot mentioned this is in connection with the Commission's denial for a request from Forrest Solomon to construct a bridge over the John Day River. He said the State would like authority to condemn the piece of property on one side of the river which would deny access to the bridge. (File No. 49300; Owner, R. E. and O. M. Willis.)

Mr. Sollis asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Sollis presented a quarterly report of property damage claims for the period of April 1 through June 30, 1976. During this period, \$42,474.20 was collected.

The Commission considered a request from State Senator Vern Cook concerning the termination of the 55 mile-per-hour speed limit in Oregon. Mr. Sollis stated that the present law as enacted by the 1975 Legislature would allow trucks and buses to go 60 miles per hour if the energy conservation speed limit was lifted and if this were to occur, the Commission would be in violation of the Federal law requiring a 55 mile-per-hour speed limit and subject to losing Federal Funds. The Commission voted unanimously to continue support of the fuel conservation 55 mile-per-hour speed limit in Oregon.

Attention was given to a request from Jack W. Stamper to place a mobile home as a residence within the Rogue River Scenic Waterway in Curry County. Mr. Talbot said the proposed site is located on the right bank just downstream from the Coon Rock Bridge approximately 30 feet above the river and approximately 400 feet back from the bank. It is partially screened by vegetation but is not topographically screened and would be visible from upstream. He stated that a conventional home on this site would probably be acceptable under the Commission's policy, but a mobile home is not consistent with the Commission's rules and regulations. Upon the recommendation of Mr. Talbot, the Commission denied approval of Mr. Stamper's request.

Mr. Coulter reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders:

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| State Highway Engineer | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |
| Highway Controller | Exhibit H |
| Location Engineer | Exhibit I |

The Commission approved Mr. Coulter's request to increase the project authorizations on the following contracts:

- (1) Copeland Paving, Inc., Contract No. 8221, on the Jacksonville Highway in Jackson County, for \$16,416.74 (7.9%). The overrun was due to flagging, aggregate base, asphalt concrete and moving power poles.
- (2) Paul Brothers, Inc., Contract No. 8198, Siskiyou Safety Rest Area, Pacific Highway in Jackson County, for \$24,546.58 (5.9%). The main increase was due to exploring the cause and repair of a sinkhole which appeared on the ground surface at the south end of the project in an existing lawn area.

Consideration was given to a request from the Oregon State Federation of Garden Clubs, Inc. to install a Blue Star Memorial Marker in a suitable location in the southbound Santiam Rest Area, Pacific Highway, in Marion County. Mr. Coulter mentioned that similar markers have been installed in the past in various rest areas throughout the State. The marker and its support would be furnished by the Federation of Garden Clubs and the installation and future maintenance of the sign would be the responsibility of the State. The Commission approved the installation as recommended by Mr. Coulter.

The Commission considered requests from the Cities of La Grande, Portland, Tualatin and Clackamas County for Federal Aid Urban System projects. Mr. Coulter mentioned that these projects have been investigated and are eligible for funding under the Federal Aid Urban System Program. Following Mr. Coulter's recommendation, the Commission approved the following projects and authorized him to sign the agreements when prepared:

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total Cost</u> | <u>Federal Funds</u> | <u>State's Share</u> |
|---------------------|--|-------------------|----------------------|----------------------|
| La Grande | N. Cherry St.-
Wallowa Lake Hwy.

| Clackamas Co. | Bell Ave.-82nd Ave.
King Rd., FAU 9714 | 42,000 | 32,760 | 4,620 |
| Clackamas Co. | 2nd St. (Milwaukie)-
Arlington St. (Glad-
stone) River Rd.,
9671 | 837,000 | 652,860 | 92,070 |
| | TOTALS | \$1,607,000 | \$1,253,460 | \$176,770 |

Mr. Coulter reported that the necessary hearings and survey work had been completed on five sections of State highways and he recommended approval of the highway corridor and design surveys. The Commission accepted his recommendation by adopting the following "Highway Corridor and Design Resolutions Nos. 420 and 421," which resolutions by this reference are made a part hereof and filed in the Commission's files, Salem:

- (1) Middle Br. Rd.-Ritter Cr. Section,
Baker-Copperfield Highway in Baker County.
No public hearing was required. (See
"Highway Corridor and Design Resolution
No. 420.")
- (2) Clem Rd.-Speece Section, John Day
Highway in Gilliam County. No public
hearing was required. (See "Highway
Corridor and Design Resolution No. 420.")
- (3) Warren-Scappoose Section, Columbia River
Highway in Columbia County. A corridor
and design hearing was held May 24, 1972,
in St. Helens. (See "Highway Corridor
and Design Resolution No. 421.")
- (4) Spray-Kimberly Section, M.P. 93.3-M.P. 95.5
Unit on the John Day Highway in Wheeler
County. No public hearing was required.
(See "Highway Corridor and Design
Resolution No. 420.")
- (5) Spray-Kimberly Section, M.P. 99.7-M.P. 101.3
Unit on the John Day Highway in Wheeler
County. No public hearing was required.
(See "Highway Corridor and Design
Resolution No. 420.")

The Commission considered approving the distribution of the fiscal year 1977 Federal Aid Urban System funds to urbanized and small urban areas of the State. Mr. Coulter said the allocation has been computed in accordance with the Federal requirements and a formula developed in cooperation with the League of Oregon Cities. Mr. Coulter recommended the State continue its policy of providing one-half of the required match funds for local agency projects. The total match funds are estimated at \$1,866,000 of which the State's share would be approximately \$933,000. The Commission approved the following Federal allocation as recommended by Mr. Coulter:

FISCAL YEAR 1977 URBAN SYSTEM ALLOCATION
July, 1976

| | |
|---|--------------------|
| Oregon's Fiscal Year 1977 Urban System Apportionment | \$6,755,508 |
| Less 1-1/2% HPR Funds | \$101,333 |
| Less 1/2% PR Funds | \$ 33,777 |
| | <u>(135,110)</u> |
| Total | \$6,620,398 |
| *Less Allocation of Funds Attributable to Portland Urbanized Area (Over 200,000 Population) | <u>(3,848,604)</u> |
| Funds Available to Balance of State | \$2,771,794 |

| <u>Urban Area</u> | <u>Federal Population</u> | <u>Percent of Total</u> | <u>Fund Allocation</u> |
|----------------------|---------------------------|-------------------------|------------------------|
| Eugene | 139,255 | 25.4107 | \$ 704,332 |
| Salem | 93,041 | 16.9777 | 470,587 |
| 25 Small Urban Areas | <u>315,722</u> | <u>57.6116</u> | <u>1,596,875</u> |
| Total | 548,018 | 100.0000 | \$2,771,794 |

*City of Portland's Fair and Equitable Allocation of Portland Urbanized Area Allocation:

| | | |
|------------------------------------|---------|------------|
| City of Portland Population | 382,619 | = 50.8967% |
| Portland Urbanized Area Population | 751,756 | |

$$50.8967\% \times \$3,848,604 = \$1,958,812$$

| Totals | 357,594 | 100.0000 | \$1,596,875 |

Note: Above funds allocated to small urban areas on per capita basis using latest State population figures as proposed by League of Oregon Cities.

Attention was given to an agreement with the Banks School District for the installation of an overhead school crossing sign and flashing beacon on the Nehalem Highway at Banks High School in Washington County. Mr. Coulter pointed out that the State will prepare all plans and perform the work. The estimated installation cost is \$2,500 to be shared equally by the State and School District. The State's share is to be charged to Region Minor Betterment Funds. The State is to maintain the installation and the School District is to pay for the power. The Commission approved the agreement as recommended by Mr. Coulter.

Mr. Coulter introduced to the Commission Joshua S. Sawyer, Resident Highway Engineer at The Dalles, and Ralph C. Dimick, Highway Maintenance Supervisor at Milwaukie. Mr. Coulter said both gentlemen recently completed 40 years of service with the Division. The Chairman thanked them for their participation in the development of the Oregon Transportation System. (Mrs. Sawyer and Mrs. Dimick were also present.)

The Commission considered an agreement with the State of Alaska, Department of Highways, for the Oregon Highway Division to test their traffic signal control equipment. Mr. Coulter mentioned that the agreement is for a period of one year, commencing July 15, 1976. The maximum amount to be paid to the State of Oregon is \$45,000 in any one contract period and will be paid at a rate of \$15 per hour for actual work done. Following his favorable recommendation, the Commission approved the agreement.

AERONAUTICS DIVISION

Upon the recommendation of Mr. Burket, the Commission approved delegating to its Chairman the authority to approve financial aid to the municipalities program grants not to exceed \$20,000 each for the Ashland, Madras and Pendleton Airports. The Commission also gave their authority for its Chairman to approve a grant not to exceed \$4,000 for a Lane County Planning Grant study to determine if there is a need for an additional general aviation airport in the Eugene-Springfield area.

MASS TRANSIT DIVISION

Consideration was given to the expenditure of up to \$60,000 from the Small Area Matching Grant Fund for the purchase of two buses for use in smaller communities. Mr. Moore pointed out the funding would come from the \$96,000 of State General Funds appropriated by the 1975 Legislature. It is anticipated that the two buses would be used by communities such as Albany, Roseburg and the Rogue Valley Transportation District while their Federal grants are being processed. The original \$96,000 was for the purpose of matching Federal funds to buy buses for smaller communities or participation in experimental projects. Upon Mr. Moore's recommendation, the Commission authorized the expenditure.

Following Mr. Moore's recommendation, the Commission approved an agreement with the City of Roseburg for an experimental bus project at a cost of \$14,025 State funds from the Small Area Matching Grant Fund.

MOTOR VEHICLES DIVISION

Mr. Ott reported their offices have been extra busy since July 1 issuing the new photo driver licenses. He mentioned their office hours of service were extended to 6 p.m. to handle the large volume of business. He said temporary help has been hired during this rush period. There has been some letters received from the public complaining of waiting in line an hour or so to get their licenses; however, the volume of complaints have been remarkably small and the majority of people have been very tolerant.

Mr. Ott also reported the fuel tax revenue for the first six months of 1976 has increased approximately \$200,000 over the same period in 1973 which was the previous high.

DEPARTMENT OF TRANSPORTATION DIRECTOR'S REPORT

The Commission set Tuesday, August 24, 1976, as the date for the next regular meeting.

The Commission considered matching on an 80-20 basis the apportionment of Federal Aid Funds for the fiscal year 1977 for metropolitan planning for Oregon in the amount of \$214,719. Mr. Burco mentioned that the Federal Highway Administration has previously approved the formula which was prepared by Oregon. Fifty percent of the funds will be divided equally between the three urbanized areas and the remaining 50 percent will be distributed on the basis of SMSA population. Following his recommendation, the Commission approved the apportionment as follows:

Table I shows the latest SMSA population figures prepared by Portland State University as of July 1, 1975.

TABLE I

| <u>Area</u> | <u>SMSA Population</u>
<u>(July 1, 1975)</u> | <u>Proportion</u> |
|--------------------|---|-------------------|
| Portland | \$ 941,700 | 67.7% |
| Salem | 207,500 | 14.9% |
| Eugene-Springfield | 241,800 | 17.4% |
| Total | \$1,391,000 | 100.0% |

Table II indicates the allocation of the three urbanized areas based upon the approved distribution formula.

TABLE II

| <u>Area</u> | <u>Base</u> | <u>Distr. on
Population</u> | <u>Total
Federal
Funds</u> | <u>State
Match</u> | <u>Total</u> |
|------------------------|------------------|---------------------------------|------------------------------------|------------------------|------------------|
| Portland | \$ 35,786.50 | \$ 72,682.38 | \$108,468.88 | \$27,117.22 | \$135,586.10 |
| Salem | 35,786.50 | \$ 15,996.57 | 51,783.07 | 12,945.77 | 64,728.84 |
| Eugene-
Springfield | <u>35,786.50</u> | <u>18,680.55</u> | <u>54,467.05</u> | <u>13,616.76</u> | <u>68,083.81</u> |
| Total | \$107,359.50 | \$107,359.50 | \$214,719.00 | \$53,679.75 | \$268,398.75 |

The Commission also authorized the Highway Engineer to sign the agreements between the urbanized areas and the Highway Division.

Chairman Jackson introduced Peter J. Brix, who was recently appointed by Governor Straub to the Transportation Commission. Mr. Brix replaces Robert Mitchell whose term expired June 30, 1976.

The Chairman adjourned the meeting at 10:35 a.m.

EXHIBIT A
MINUTES OF 7-27-76

TO: Oregon Transportation Commission
SUBJECT: Report of Actions Taken Under Delegated Authority

On May 27, 1976, bids were taken on three rock production projects - Grass Valley, Ukiah and Meacham. Horton Brothers, Inc., Brookings, Oregon, were the low bidders on all three projects and received award of the contract and documents for execution.

On June 22, Horton Brothers met with E. S. Hunter to advise that they had discovered an error in their bid and either wished to correct that error or be relieved of all three contracts. After consultation with Chief Counsel, they were advised by letter that the contract documents must be executed no later than July 8, 1976, or their bid bonds would be forfeited.

On July 8, Horton Brothers' attorney advised Walt Barrie that they were going to proceed with the Ukiah and Meacham projects as bid. R. J. Taggart Construction Company, Salem, (second low bidder on the Grass Valley Project) has agreed to accept that contract as bid at \$64,900.

Horton Brothers, Inc.'s bid bond on the Grass Valley Project will be retained until Taggart completes the project and damages can be ascertained.

On July 8, Chairman Jackson approved award of the Grass Valley Project to the second low bidder, R. J. Taggart Construction Company.

- 2) Agreement with City of Medford providing for State participation in construction of the Medford Loop Bikeway in Jackson County. The City is to be responsible for all preliminary engineering, right of way and construction of the project. State participation will be 67% of the actual total cost or \$20,000 whichever is the lesser. State funds are to be provided from monies which have been set aside for construction of pedestrian-bicycle paths. The project was originally proposed for construction in fiscal year 1976 however the City has been given additional time to formulate a more acceptable plan. The project will be funded at the same level in the 1977 fiscal year. (County City Unit)
- 3) Agreement with Josephine County covering improvement of the Oregon Caves Highway-Holland Loop Road intersection. The project was initiated by the Region 3 office utilizing Minor Betterment Funds. The County is to obtain the necessary right of way, perform the grading and furnish the base rock. The State will haul and place the base rock, pave, sign and stripe the project. It is proposed that State and County forces will accomplish the entire project. (County City Unit)
- 4) Agreement with Oregon State University for an archeological study within the boundaries of Port Orford Heads Wayside State Park in Curry County during the months of July and August 1976. Funding will come from University at \$5,661 and State Parks \$3,986. (Parks Branch)
- 5) Agreement with Union Pacific Railroad Company and Southern Pacific Transportation Company for a 30-year lease beginning July 1976 for rental of the upper deck of the Steel Bridge in Portland, Multnomah County. Annual rental is \$156,750. State is obligated to pay \$121,202 as its share of the cost of rewiring the bridge to handle alternating current. Rental fee is subject to renegotiation every 5 years. Lease may be terminated on 18-month notice by State. Separate agreement provides that the extension agreements for the old contract will terminate on July 1, 1976, the effective date of the new contract.

- (7) Service Contract Number 76-015 with Southern Pacific Transportation Company for the installation of grade crossing protection devices at Crossing No. CK-765,40, Main Street, Toledo, Lincoln County. Approved and signed June 11, 1976. (16-12)
- (8) Service contract with Southern Pacific Transportation Commission for the installation of grade crossing protection devices at the crossing of S. 2nd Street and the Cascade Mainlines in Springfield, Lane County. Approved June 28, 1976. (16-12)
- (9) Signalization agreement with Oregon Electric Railway Company (Burlington Northern Railroad) for grade crossing protection devices at crossing of NW Cornell Road and the Beaverton-Eugene Branch near Merle, Washington County. Approved and signed June 29, 1976. (16-12)
- (10) Exchange of 1.66 acres excess property on the Warren-Scappoose Section of the Lower Columbia River Highway for right of way needed for this project. Exchange to be based upon value of \$6,475.00 as established by appraisal. Approved June 30, 1976. (16-43)
- (11) R/W Services Agreement with Jackson County to expand the Medford-Jackson County Airport. Approved and signed July 7, 1976. Project 51. (16-69)
- (12) R/W Services Agreement with Clackamas County for providing services in connection with the acquisition of right of way for the Johnson Creek Boulevard-Bell Avenue. Approved and signed July 8, 1976. Project 49. (16-69)
- (13) Agreement for exchange of property on the Judkins Point-Goshen Section of the Pacific Highway in Lane County between State and Pape'. Respective values of properties to be negotiated after two appraisals are obtained. Said property is located south of Walnut Street between Franklin Boulevard and Fifteenth Avenue in Eugene. File 27727, L-3755. Approved and signed July 12, 1976. (16-43)
- (14) Agreement with the O.W.R. & N. for establishing procedures and general conditions for the installation of grade crossing protection devices throughout the system. Approved and signed May 28, 1976. (16-12) This agreement shall supersede and cancel that certain prior agreement dated May 14, 1976, approved May 17, 1976. (RR 818)
- (15) A quitclaim deed to the City of Salem releasing any interest the State might have in its property by virtue of a quitclaim deed to the State from Capitol Toyota, Inc. 25th Street-Lancaster Drive Section of Mission Street. City Project. File 48520. Approved and signed July 2, 1976. (16-49)

- (16) Construction and maintenance agreement (signalization) with Oregon Electric Railway Company (Burlington Northern Inc.) for the installation of grade crossing protection devices at Crossing No. 3E-033.50, SW Bonita Road in Tigard, Washington County. Approved and signed June 29, 1976. (16-12)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7355 Ann Marie Benedict v. State Highway Division, et al: The plaintiff was a passenger in a vehicle driven by Clarence Benedict and alleges that a Highway Division employee, Patrick Vanderzanden, drove a Highway Division vehicle in a negligent manner causing a collision on January 8, 1975. The plaintiff is seeking \$150,000 damages. (Wilson River Highway, Tillamook County)

EXHIBIT G
MINUTES OF
7-27-76

The matter has been referred to the State's insurance carrier for the defense of the State and the State Highway Division employee.

L-7356 Clarence John Benedict v. State Highway Division, et al: This case arises out of the same circumstances as L-7355 except that the plaintiff was the driver of the vehicle that collided with the Highway Division vehicle. The plaintiff is seeking \$30,000 in damages.

The matter has been referred to the State's insurance carrier for the defense of the State and the State Highway Division employee.

L-7357 Darrell Hamel, et al. v. State Highway Division: This is a suit in inverse condemnation arising out of blasting damages between the dates of May 1, 1973 and October 1, 1974, adjacent to I-205 in Multnomah County. The plaintiff is seeking \$10,000 in damages to his property and \$5,000 attorney fees.

The matter has been referred to the Attorney General's office for the defense of the State.

L-7363 Oak Knoll Corporation v. Ross Bros. Construction, Inc. and State of Oregon: This is an action at law for damage to real property in the amount of \$40,000. The plaintiff has named the State and Ross Bros. Construction, Inc. The lawsuit arises out of construction carried out under Contract No. 7799 on the Park Street Section of the Pacific Highway. The defendant alleges that during the construction of the project the contractor failed to conduct the work properly in front of defendant's restaurant and as a result thereof, the restaurant suffered a loss of profits in the amount of \$39,100. The plaintiff also alleges that he had to repair its air conditioning system and provide additional labor to keep the premises clear of dust, dirt and debris in the amount of \$900.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7364 Joseph Cubic v. State of Oregon: This case involves an Order to Show Cause why the Highway Division should not be compelled to go to binding arbitration on a personnel matter between Joseph Cubic, an employee of the Highway Division. The matter has gone through the grievance procedure up to the point where it has been reviewed by the Personnel Division of the Executive Department and now Mr. Cubic is attempting to have the matter disposed of by binding arbitration.

The matter has been referred to the Attorney General's office for handling.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
AUGUST 24, 1976

August 24, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
R. L. Schroeder, Assistant State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Paul E. Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

(Mr. Brix was officially sworn in as Commissioner by Governor Straub in his office before the meeting at 9 a.m. Mr. Jackson was reappointed as Chairman of the Commission for the next four years.)

The Commission approved the minutes of the meeting of July 27, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2650," which resolution by this reference is made a part hereof and filed in the Commission's files.

In reply to the Chairman's inquiry, Mr. Boyd said the signs on 80N between Portland and Troutdale in Multnomah County are all in commercial or industrial zones.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

In answer to the Chairman's question, Mr. Talbot estimated there will be 30,000,000 park visitors in the State this year. Mr. Talbot stated there are approximately 10 beach access points on the program to complete. The program is practically accomplished and the beaches are for the most part available to the public.

Commissioner Walsh inquired about the Greenway hearings. Mr. Talbot reported that the hearings are scheduled in Salem, August 24; Portland, August 25; and Eugene, August 26, 1976, and that he would consult with the Commission after the meeting to determine if any of the Commissioners can attend the hearings. He mentioned a considerable amount of time was spent working with local officials on the boundary and on the issue of what should be ultimately purchased for the greenway. The Counties will most likely present their views on the proposed boundaries at the hearings this week.

Mr. Coulter reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders:

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| State Highway Engineer | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer and Assistant | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |

The Commission approved Mr. Coulter's request to increase the project authorizations on the following contracts:

- (1) Gibbons and Reed Company, Contract No. 8273, on the Chemawa Road-Hayesville Interchange of the Pacific Highway East in Marion County, for \$367,193.86 (22.3%). The main reason for the overrun was the necessity of redesigning the entire storm drainage system.

- (2) Rogue River Paving Co., Inc., Contract No. 8330, on the Hayes Hill-California State Line of the Redwood Highway in Josephine County, for \$409,074.42 (32.2%). This project is one of four Title X "Job Opportunities Program" projects currently under way. The progress of these projects have been carefully monitored as to their combined cost and when it was determined that all the available Title X funding would not be utilized, it was too late to contract any such new projects. This has resulted in a price agreement extending the overlay and shoulder paving by 4.57 miles on the southerly end extending it to the California line.

The Chairman asked Mr. Klaboe and Mr. Coulter to investigate the upgrading of the southerly portion of the Redwood Highway (US 199) in Josephine County. (The southerly portion of the Redwood Highway is being upgraded to the California State line as indicated above.)

Consideration was given to the replacement of the pier protection dolphins at the Yaquina Bay Bridge in Newport in Lincoln County. Mr. Coulter stated that the dolphins are deteriorating and no longer perform the function of protecting the pier. He recommended replacing the dolphins at an estimated cost of \$60,000 and to add the Federal Aid project to the Six Year Construction Program. The Commission accepted his recommendation.

Upon the recommendation of Mr. Coulter, the Commission confirmed the appointment of William Healy to the Travel Advisory Committee to fill out the remainder of Keith Petrie's term, who resigned, until November 1979.

The Commission considered continuing participation in the Pacific Northwest Travel Association. Mr. Coulter stated that the programs of the Association have resulted in a great deal of favorable publicity for vacation travel in Oregon and he recommended renewal of the annual membership in the amount of \$4,000. The Commission accepted his recommendation.

The Commission considered requests from the Counties of Lane and Marion for Urban System projects. Mr. Coulter stated that these projects have been investigated and are eligible for funding under the Federal Aid Urban System Program. The Commission approved the following projects as recommended by Mr. Coulter and authorized him to sign the agreements when prepared:

| <u>Jurisdiction</u> | <u>Section</u> | <u>Total
Cost</u> | <u>Federal
Funds</u> | <u>State's
Share</u> |
|---------------------|--|-----------------------|--------------------------|--------------------------|
| Lane County | E. 17th Ave.-I-5 Intchge.
Glenwood Blvd., FAU 1185
(construct two lane
section in Eugene) | \$355,000 | \$237,900 | \$19,365 |
| Marion County | Chemawa Rd.-Claxter Rd.
Verda Lane, FAU 1685
(construct bikeway on
Verda Lane in Salem) | 35,000 | 30,100 | 2,450 |
| | | \$390,000 | \$268,000 | \$21,815 |

- 1644 -

August 24, 1976

Consideration was given to adopting a resolution abandoning 1.1 mile of old highway alignment to Clackamas County in the Middle Unit, Zigzag-Rhododendron Section of the Mt. Hood Highway. Mr. Coulter mentioned that this segment of old alignment is no longer needed for highway purposes. Following his favorable recommendation, the Commission adopted "Abandonment Resolution No. 559," which resolution by this reference is made a part hereof and filed in the Commission's files, Salem.

Attention was given to an agreement with the City of Ashland for the installation of traffic signals at the intersection of the Rogue Valley Highway (Siskiyou Boulevard) and Mountain Avenue in Jackson County. Mr. Coulter stated the agreement provides that the State will prepare all plans, specifications and perform the work and the City will pay for all power. The estimated cost is \$40,000, which will be funded by Federal Aid Urban Funds, \$31,200 Federal funds and \$8,800 State funds. Upon his favorable recommendation, the Commission approved the agreement.

Consideration was given to an agreement with the City of Ontario for the improvement of the traffic signal at the intersection of S.W. 4th Avenue (Olds Ferry-Ontario Highway) and S.W. 4th Street in Malheur County to add fire pre-emption capabilities. Mr. Coulter said the State will make the adjustment with its own forces and the City will pay for the total cost which is estimated to be \$2,500. The City will also be responsible for the power consumption and all maintenance. The Commission approved the agreement as recommended by Mr. Coulter.

Attention was given to approving a sign with the legend "U-TURNS PERMITTED". Mr. Coulter stated that the 1975 Legislature, in revising the Oregon Motor Vehicle Laws, included in ORS 487.395 the prohibition of U-turns within an intersection where traffic is controlled by an electrical signal. An opinion from the Attorney General stated that the Oregon Transportation Commission and local authorities with respect to highways within their respective jurisdictions may permit U-turns at specified intersections by posting them with appropriate signs. Mr. Coulter also mentioned there are a number of signalized intersections throughout the State where the U-turn prohibition causes severe traffic problems and at which U-turns do not create a traffic hazard. He recommended that a sign with the legend "U-TURNS PERMITTED" be approved and that the Commission delegate to the State Highway Engineer the authority to adopt rules through the Administrative Procedures Act which will establish the standards for allowing U-turns at signalized intersections at specified locations on the State highway system. The Commission accepted his recommendation and adopted an amendment to Delegation Order No. 16 as follows:

AMENDMENT TO
DELEGATION ORDER NO. 16

Subparagraph

70. Adopt rules and regulations establishing standards for allowing U-turns at signalized intersections on the State highway system.

The Commission considered approving the distribution of the fiscal year 1977 Federal Aid Secondary Funds to the individual counties of the State. Mr. Coulter said the allocation has been computed in accordance with the formula developed by the Association of Oregon Counties, using the official 1970 U.S. Rural Census and the January 1, 1976, rural county road mileages. The Commission approved the following allocation as recommended by Mr. Coulter:

FISCAL YEAR 1977 FAS ALLOCATION TO COUNTIES
August, 1976

| <u>COUNTY</u> | <u>FEDERAL FUNDS</u> | <u>TOTAL FUNDS</u>
<u>Including State's and</u>
<u>Counties' Match Money</u>
<u>(Rounded to Thousands)</u> |

| TOTAL | \$3,141,119 | \$3,652,000 |

SUMMARY - ENTIRE STATE FISCAL YEAR 1977 COUNTY FAS FUNDS

Total Federal Funds for Construction

| | |
|--|-------------|
| (50% of Oregon apportionment less planning survey funds) | \$3,141,000 |
| Plus estimated required match money - State Funds | 255,500 |
| " " " " - County Funds | 255,500 |
| TOTAL COUNTY FAS FUNDS | \$3,652,000 |

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population and 15% on rural county road mileage) proposed by Association of Oregon Counties and approved by Transportation Commission. Federal funds are estimated to represent approximately 86% of total county road FAS funds with State and County funds estimated to be approximately 7% each.

No report.

MASS TRANSIT DIVISION

No report.

MOTOR VEHICLES DIVISION

Mr. Ott reported the driver's photo-license congestion appears to be leveling off in most of the offices except for the Beaverton office which is still overcrowded. The Tigard City Council turned down several locations for an office in their city. He said that he is working with Laurence Sprecher with the Department of General Services to find a suitable location in Washington County.

DEPARTMENT OF TRANSPORTATION
Director's Report

The Commission set Tuesday, September 28, 1976, as the date for their next regular meeting.

The Commission approved the 1977-79 Department of Transportation budget request in the amount of \$449,494,380 as recommended by Mr. Burco. The Commission also approved a budget request of \$2,605,000 for Parks Acquisition and Construction and \$500,000 for Tourist Advertising to be funded from State General Funds. (Copy of budget on file in Commission Files, Salem.)

Mr. Burco said he would like to defer the next two items on the agenda until later and hear the delegations at this time. (See next page.)

DELEGATIONS

The Warm Springs Tribal Council appeared before the Commission concerning the need for improving highway conditions through the Warm Springs Reservation on U.S. 26 in Jefferson and Wasco Counties. The following individuals were present: Zane Jackson, Olney Patt, Nelson Wallulatum, Jim Cornett, Rudy Clements, Harlow Nasewytewa, Bob Nash, Don Schmith, Ray Rangila, Amos Simtustus, Sr., Orin Johnson, Nick Kalama and Wilbur Johnson, Sr. Mr. Zane Jackson introduced Mr. Olney Patt.

Mr. Patt said since the original agreement was finalized on Highway 26 through the Reservation, they have become more aware of the problems developing on the highway. When the highway was designed in the early 1940's, it was done without thought of future heavy traffic. He expressed his concern for the safety of their children using the school buses. Mr. Patt asked for improvement of the highway in the agency area and east to the Deschutes River Bridge. He also asked that a line of communication be established between the Tribal Council and the Highway Division until the problem is resolved.

Ray Rangila pointed out that the accident rate has approximately doubled since 1972. He mentioned a new administration building is presently under construction and a small shopping center is to be constructed in 1977 in the Warm Springs community. He indicated the need for left-turn refuges and the widening of the Deschutes River Bridge.

Copies of correspondence were presented to the Commission by Mr. Patt and Mr. Rangila that had been collected during the past three years between the Tribal Council and the Highway Division. (Copies on file in the Commission's files, Salem.)

Don Schmith mentioned the two hazardous intersections and narrow roadway west of the Deschutes River Bridge. He said their group is willing to work with the Highway Division in planning access points from the Reservation to U.S. 26.

Bob Nash, Attorney, mentioned that this highway is a year-round bottleneck at Warm Springs with the recreational vehicles, campers, log trucks, school buses, winter skiers and the ordinary traffic. He invited the Commission to visit their area to see the dangerous conditions that exist on this heavily-traveled highway.

The Chairman informed the delegation that the Commission is aware of their needs, and Mr. Coulter and staff will work with the Tribal Council and assist in correcting some of these problems as funds are available.

Mr. S. K. Tworoger, representing the Lincoln City Chamber of Commerce, came before the Commission concerning the improvement of Highway 18 through the Coast Range in Polk and Lincoln Counties. He stated this highway is one of the heaviest traveled highways in the State and there is a need to construct turnouts to ease the traffic congestion. He also mentioned that there are no projects listed on this highway in the Six Year Program. The Chairman told Mr. Tworoger that a survey would be made on this highway to see if turnout lanes could be constructed.

The Chairman recessed the meeting at 10:40 a.m. for a briefing on maintenance and lunch.

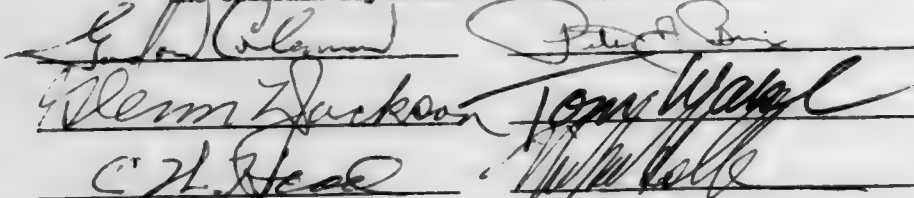

The Chairman reconvened the meeting at 2 p.m.

Director's Report (Continued)

The Commission approved a consultant agreement with Arthur Young and Company for services relating to the development of selected portions of the Oregon Statewide Transportation Plan for the two-to-six year planning period and manpower planning and development, expenditure plan development, and workplan organization and management in support of the Department organizational plan. The cost is not to exceed \$45,000 and approximately 40% will be paid by the Federal Government. The Chairman was authorized to sign the agreement on behalf of the Commission.

The Commission also approved a consultant agreement with Dr. Barry R. Phegan and Dr. Ritva Kaje' for services in the field of long-range planning and management strategies and techniques at a cost of \$15,000 of which 70% will be paid by the Federal Government. The Chairman was authorized to sign the agreement on behalf of the Commission.

The Chairman adjourned the meeting at 2:05 p.m.

The block contains five handwritten signatures, each written over a horizontal line. From left to right, the signatures appear to be: "G. H. Head", "W. H. Jackson", "J. H. [unclear]", "J. H. [unclear]", and "J. H. [unclear]". The signatures are written in dark ink and are somewhat stylized.

A
MINUTES OF 8-24-76

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, I approved the following action and report this for your official records:

- 1) On July 19, 1976, approved the award of contract for the Ukiah Rock Production Project to R. J. Taggart, second low bidder at the May 27, 1976, bid letting in the amount of \$85,595. (Contract No. 8371). (Contract had been awarded to Horton Bros., but they could not obtain corporate surety performance bond.)
- 2) Meacham Rock Production Project in Umatilla and Union Counties which had been awarded to Horton Bros., Inc., Contract No. 8372, on June 4, 1976, the project will be readvertised as the contractor could not obtain a corporate surety performance bond.

Glenn L. Jackson, Chairman
Oregon Transportation Commission
Dated this 24 day of July, 1976

For additional information, see pages 1584 and 1615.

- 1) On July 26, 1976, established a 45 MPH speed zone on the Pacific Highway West in the King City Area, Washington County, from M.P. 10.75 (south city limits of Tigard) to M.P. 12.71 (0.12 mile south of S. W. Tualatin Road). See Speed Zone Order No. 730. Rescinds Speed Zone Resolution No. 627 dated 3-6-73.
- 2) On August 3, 1976, established a 35 MPH speed zone on the Modoc Point Highway in the community of Modoc Point, Klamath County, from M.P. 12.58 (0.31 mile north of The Dalles-California Highway) to M.P. 12.89 (The Dalles-California Highway). See Speed Zone Order No. 731. Rescinds Speed Zone Resolution No. 409 dated 10-10-63.
- 3) On August 12, 1976, established a construction speed zone of 40 MPH from Airport Road (M.P. 0.61) to Lancaster Drive (M.P. 1.91) on the North Santiam Highway No. 162 in Marion County. Speed zoning is to be in effect only on those sections where signs are in place and only for the duration of the construction project.
- 4) On August 17, 1976, established a 45 MPH speed zone on Goshen-Divide Highway in Lane County from M.P. 16.73 (350 feet north of Dugan Road) to M.P. 17.16 (0.17 mile north of Latham Road). Rescinds Speed Zone Resolution No. 383 dated 1-22-63. (See Speed Zone Order No. 732)

REPORT OF ACTIONS UNDER DELEGATED AUTHORITY BY
STATE HIGHWAY ENGINEER

On behalf of the Commission and under its authority delegated to me to award contracts when conditions have been fulfilled, I awarded the following contracts:

- 1) Powder River (Phillips) Bridge on FAS 01-109 in Baker County. Bids received July 29, 1976. Contract No. 8400 awarded August 13, 1976, to Hamilton Construction Co., Springfield, at \$113,608.
- 2) Paving on the Campbell Street-Auburn Avenue (Baker) Section of FAU 4860 in Baker County. Bids received July 29, 1976. Contract No. 8401 awarded August 6, 1976, to Baker Redi-Mix, Inc., Baker, at \$102,247.50.
- 3) Frazier Creek Bridge on FAS 205 in Benton County. Bids received July 29, 1976. Contract No. 8402 awarded August 18, 1976, to Hamilton Construction Co., Springfield, at \$37,025.
- 4) Traffic signal installation on the Empire-Coos Bay Highway at Woodland Drive in Coos Bay, Coos County. Bids received July 29, 1976. Contract No. 8403 awarded August 6, 1976, to Hansen Electric Company, Coos Bay, at \$20,228.
- 5) Hunter Creek Bridge on FAS 08-109 in Curry County. Bids received July 29, 1976. Contract No. 8404 awarded August 6, 1976, to Weaver Construction Co., Union, at \$125,347.
- 6) Work on the Thomas Creek and Cox Creek Bridges on FAS 19-107 in Lake County. Bids received July 29, 1976. Contract No. 8408 awarded August 13, 1976, to Ross Bros. Construction, Inc., Salem, at \$106,074.50.
- 7) Roadside improvement on the Goshen-Cottage Grove Section of the Pacific Highway in Lane County. Bids received July 29, 1976. Contract No. 8409 awarded August 6, 1976, to Anderson's Erosion Control, Junction City, at \$86,775.50.
- 8) Paving on the Logsden-Rock Creek Section of FAS 150 in Lincoln County. Bids received July 29, 1976. Contract No. 8411 awarded August 17, 1976, to Morse Bros., Inc., Lebanon, at \$76,167.50.

C
8-24-76

- 9) Facilities in the Boardman Safety Rest Area on the Columbia River Highway in Morrow County. Bids received July 29, 1976. Contract No. 8412 awarded August 6, 1976, to F. A. Hodgson & Sons, North Powder, at \$157,083.
- 10) Work on the Burnside Bridge-Hawthorne Bridge Section of the Pacific Highway West in Multnomah County. Bids received July 29, 1976. Contract No. 8413 awarded August 6, 1976, to Peter Kiewit Sons' Co., Vancouver, Washington, at \$1,298,195.
- 11) Work on S.W. 6th Avenue and Dehaven Street in Milton-Freewater, Umatilla County. Bids received July 29, 1976. Contract No. 8414 awarded August 17, 1976, to Baldwin & Sutherland, Inc., Walla Walla, Washington, at \$99,876.
- 12) Work on the N.W. Croeni Road-N.W. Cornell Road Section of FAS 632 in Washington County. Bids received July 29, 1976. Contract No. 8415 awarded August 16, 1976, to Cascade Construction Company, Inc., Portland, at \$269,334.20.
- 13) Traffic signal revision on the Beaverton-Hillsdale Highway at Scholls Highway and Oleson Road in Washington County. Bids received July 29, 1976. Contract No. 8416 awarded August 6, 1976, to Hansen Electric Company, Coos Bay, at \$64,547.

MINUTES OF 8-24-76

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7366 Marland Graham v. State, et al: This case arises out of an accident that happened on July 17, 1975, in which the plaintiff was operating a motor vehicle on Highway 30, approximately 18 miles west of Astoria, in Clatsop County. The accident involved the plaintiff's vehicle, a log truck and a Highway Division dumbo truck. The amount of the lawsuit is \$75,412.00.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7367 Ruth A. Graham v. State, et al: This case arises out of the same occurrence as reported in L-7366 and the amount of the lawsuit is \$82,227.68.

The matter has been referred to the State's insurance carrier for the defense of the State.

L-7369 Grover H. Poe and James W. Jamison v. State: This is a complaint for declaratory relief and a quiet title. This lawsuit involves title to a parcel of real property adjacent to state highway right of way in the City of Gladstone. The plaintiffs claim ownership to a portion of the property that the Highway Division acquired by virtue of the vacation of a public street (old S.E. 82nd. Avenue).

The matter has been referred to the Attorney General's office for handling.

M I N U T E S

of the

OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING

held on

SEPTEMBER 10, 1976

September 10, 1976
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 11:30 a.m. in Room 140 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State 24 hours prior to the meeting. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Peter J. Brix, Member, Portland
Michael P. Hollern, Member, Bend
H. S. Coulter, State Highway Engineer, Enterprise
R. L. Schroeder, Assistant State Highway Engineer, Salem
Jack Sollis, Assistant Counsel, Salem
John J. Earley, Public Information Officer, Salem
C. W. Head, Manager, Commission Services, Salem

Mr. Coulter said the meeting was called to consider the termination of the Landscape Artists' Contract No. 8037, roadside improvement, Beaverton Interchange on the Beaverton-Tigard Highway in Washington County. He called on Jack Sollis to explain the problem.

Mr. Sollis referred to Mr. Coulter's letter dated September 9, 1976, to the Commission concerning this contract. (Copy on file in the Commission's files, Salem.) He said the contract in the amount of \$95,356 was awarded to Landscape Artists on July 8, 1974, and was completed on December 31, 1974.

In addition to the original planting work, under the provisions of Section 682.42 of the Standard Specifications, the contractor was to maintain the landscape area during an establishment period which would have carried through the fall of 1975. The normal retainage of 5 percent was withheld and an additional 10 percent retainage withheld on the planting items. The amount due the contractor at this time is \$10,995.86.

Mr. Sollis pointed out that the contractor was advised in April of 1975 that there was heavy weed growth in the contract area and was asked when he would begin his maintenance work. The contractor informed the State the latter part of April that he planned to chemically control the weeds as soon as the weather permitted. The contractor did very little work during the summer months to control the weed problem. Mr. Sollis mentioned in September of 1975 a letter was sent to the contractor's surety, Balboa Insurance Company, advising of the contractor's failure to do the required work and asking the surety to take whatever action was necessary to bring the project to completion. The contractor started work again on November 12, 1975, and continued until January 21, 1976.

On February 11, 1976, the Resident Engineer told the contractor again to finish the work. After no response, several attempts were made to contact the contractor but were unsuccessful. On April 13, 1976, a letter was sent to Balboa Insurance Company requesting that they take over the job and complete it as quickly as possible. There was nothing done by the bonding company. On July 19, 1976, a meeting was held with James Case, attorney for the bonding company.

Then on August 16, 1976, Mr. Case, representing Balboa Insurance Company, denied any liability on the part of the bonding company to complete the job and indicated that the surety would not accept any liability. In response to the Chairman's inquiry, Mr. Sollis said in terminating the contract this will not relieve the bonding company or the contractor of any liability for the costs the State incurs in completing the contract. Mr. Coulter recommended termination of the contract by letter and if no response is received, to let another contract to complete the work remaining under the first contract.

All three Commissioners accepted his recommendation to terminate the contract by issuing a notice to the contractor and surety as provided by Section 108.11 of the Standard Specifications and seven days after the written notice to officially terminate the contract, take possession of the premises and complete the contract by whatever means appears to be most expedient. (Letter sent to contractor and surety September 10, 1976, terminating the contract on September 20, 1976.)

The meeting adjourned at 11:36 a.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
SEPTEMBER 28, 1976

September 28, 1976
Salem, Oregon

The Oregon Transportation Commission held their regular meeting at 10 a.m. in Room 122 of the State Highway Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
R. L. Schroeder, Assistant State Highway Engineer
J. B. Boyd, Right of Way Engineer
Dave Talbot, State Parks Superintendent
Paul E. Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission approved the minutes of the meetings of August 24 and September 10, 1976.

HIGHWAY DIVISION

A list of properties needed for highways and other uses was presented by Mr. Boyd. He requested the Commission to declare by resolution the necessity of said properties for the public use to which they are to be put and to authorize him to attempt to agree with the owners of said properties as to price. After careful consideration, the Commission granted authority to condemn the properties if negotiations are not successful and thereupon adopted "Condemnation Resolution No. 2651," which resolution by this reference is made a part hereof and filed in the Commission's files.

Consideration was given to approving a petition for street improvement of S.E. 53rd Street between S.E. Franklin and S.E. Tibbetts Street in the City of Portland. Mr. Boyd stated that this street is badly in need of improvement and it is estimated to cost the State \$3,500. The State owns 33 percent of the frontage; the remaining frontage, 39 percent have signed the petition in favor of the improvement and 28 percent either abstained or refused to sign. He said it was proper in this case to sign the petition in agreement with the majority of the private holders as it will enhance

the neighborhood and the properties owned by the State. Following his recommendation, the Commission approved the petition and authorized Mr. Boyd to sign it.

Mr. Barrie asked if there were any questions in connection with the informational reports previously submitted to the Commission on cases tried, cases settled and institution of legal proceedings filed against the Department of Transportation since the last Commission meeting. There were no questions. (See Exhibit G on file in the Commission's files, Salem.)

Mr. Barrie reported that the Lone Tree Bar State Park property within the Willamette River Greenway was settled for \$315,000 and another settlement involving part of the Fremont Bridge controversy in the amount of \$429,000. A case in the amount of a million and a half is going to be tried involving the Lone Tree Bar State Park in Yamhill County on October 7, 1976. In response to the Chairman's inquiry, he said the trial has not been set on the Drake-Willamette controversy.

Attention was given to a request from Robert L. Rice to place a mobile home within the Rogue River Scenic Waterway on the left bank of the river in river mile 84 near Everton Riffle in Josephine County. Mr. Talbot mentioned that the site is approximately 400 feet from the river and while presently screened by trees and vegetation, it would not be topographically screened as required by present rules. Also, placement of a mobile home at this location would be contrary to the Commission's rules and regulations. The Commission denied Mr. Rice's request as recommended by Mr. Talbot.

Mr. Talbot reported that staff is still working on the Willamette River Greenway. Public hearings have been held and the boundary has been reduced. He said there is an 88,000 acre Greenway today and staff's proposal is to reduce it to 51,600 acres and after numerous meetings it is now down to 49,500 acres. The Governor's Committee is meeting and going over these problems on a mile-per-mile basis along the river. He mentioned there have been 177 meetings with local officials on the Greenway since the first of this year. Mr. Talbot indicated staff is not ready to ask for any formal action at this time.

Mr. Coulter reported on actions taken under delegated authority received for filing with the Commission records. These reports show the actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders:

(Listed on next page.)

| | |
|--|-----------|
| Chairman of Oregon Transportation Commission | Exhibit A |
| Vice Chairman of Transportation Commission (no report) | Exhibit B |
| State Highway Engineer and Assistant | Exhibit C |
| Director of Permits (no report) | Exhibit D |
| Right of Way Engineer | Exhibit E |
| State Parks Superintendent (no report) | Exhibit F |
| Chief Counsel | Exhibit G |
| Controller | Exhibit H |
| Program Management Engineer | Exhibit I |

The Commission approved Mr. Coulter's request to increase the project authorization on the following contract:

Baker Redi-Mix, Inc., Contract No. 8331, Middle Bridge Road-Ritter Creek Section of the Baker-Copperfield Highway in Baker County for \$33,590.66 (6.87%). The reasons for their increase are for correcting soft subgrade areas in stage construction surfacings and for shoulder rock replacement after heavy rains washed away some of it after the paving was done.

Attention was given to the annual assessment of \$6,200 to the AASHTO Materials Reference Laboratory for the 1976-77 fiscal year. Mr. Coulter mentioned that the Reference Laboratory works in the fields of aggregate, soils and bituminous materials, and its function is to tour highway department laboratories to check testing procedures and to calibrate testing machines. It has provided a service in standardizing procedures and machinery through the National Bureau of Standards. Upon the recommendation of Mr. Coulter, the Commission approved the annual assessment.

Consideration was given to authorizing the State Highway Engineer to hold a public hearing under the Administrative Procedure Act concerning the adoption of maintenance signing standards. Mr. Coulter said it is necessary to establish standards for traffic control for these particular types of maintenance operations which are not covered by the Manual on Uniform Traffic Control Devices. He recommended that the Highway Engineer be authorized to proceed with a hearing and after the hearing bring the proposal back to the Commission for formal adoption. The Commission accepted his recommendation.

Mr. Coulter presented a report and recommendation covering the program of street work in cities having a population of less than 5,000 under the \$250,000 fund appropriated by law for the year 1977. He mentioned that 53 applications had been received and all carefully analyzed. There were 13 projects selected for approval as being most meritorious and are all that can be covered by funds available. The Commission approved the projects in the following cities and authorized the Highway Engineer to sign the agreements when prepared: (Specific details shown on each project in Commission's files, Salem.)

Attention was given to a request from the City of Salem to install a traffic signal at the intersection of the Salem-Dayton Highway (Wallace Road) at 7th Avenue, Polk County. Mr. Coulter said the intersection meets the requirements of the standard traffic signal warrants and will be made at no cost to the State. The power and maintenance costs will be shared by the City and State. The Commission approved the signal installation as recommended by Mr. Mr. Coulter.

Consideration was given to a supplemental agreement with the University of Oregon, Museum of Natural History, to investigate archaeological sites on Highway Division projects. Mr. Coulter said the supplement will amend the agreement by extending the annual expenditure limitation with regard to archaeological salvage work. The total cost of the blanket contract shall not exceed \$30,000, and the total annual cost of the blanket contract for major salvage work shall not exceed \$45,000. He mentioned that this archaeological work is a requirement before Federal funds can be released for construction, and this work is eligible for Federal participation under normal preliminary and construction engineering. Following his favorable recommendation, the Commission approved the supplemental agreement.

AERONAUTICS DIVISION

Attention was given to a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$111,127 for an Airport Development Aid Program Project for the Cottage Grove State Airport in Lane County. Mr. Burket stated that this project covers the construction and marking a taxiway and an aircraft parking apron. The present aircraft parking area is very small and inadequate for the usage the airport receives. The project will also provide thirteen additional spaces for aircraft parking. Following his favorable recommendation, the Commission adopted the resolution and authorized the Director to sign the resolution.

Consideration was given to the approval of financial aid to municipalities grants to Medford-Jackson County Airport in the amount of \$50,000 as a portion of its local share of a \$1,217,550 project for land acquisition and to Hermiston in the amount of \$14,300 as a portion of a \$583,069 project for runway and taxiway expansion, overlay and powerline removal. Mr. Burket said this action constitutes an emergency waiver of the application and approval procedures outlined in the financial aid to municipalities manual. The Commission approved the financial aid as recommended by Mr. Burket.

Mr. Burket reported that Chairman Jackson, under delegated authority on September 27, 1976, approved a financial aid to municipalities program grant to the City of Ashland in Jackson County in the amount of \$4,900 to match the City's share of a State-Local project and \$13,100 to the Madras City-County Airport in Jefferson County to be used as a portion of the local sponsor's share of an airport development aid program project.

MASS TRANSIT DIVISION

No report.

MOTOR VEHICLES DIVISION

Upon the favorable recommendation of Mr. Ott, the Commission approved submitting the following requests to the Emergency Board for approval:

- 1) Senate Bill I (revision of Oregon's Traffic Code) - increase expenditure limitation to cover additional staff and expenses. Total cost \$63,424.
- 2) Postage Costs - due to higher postal rates, increase expenditure authority of \$76,400 until the end of the biennium.
- 3) Multnomah County Fuel Tax - request for two positions and other costs to administer the 1¢ per gallon gas tax levied by Multnomah County. Cost \$20,910. (If the Statewide gas tax increase is approved on 11-2-76, this request will be cancelled.)

(continued on next page)

- 4) Federal Fund Expenditures - increase of \$2,000 in the Division's federal funds expenditure limitation. Funds for the statistician in the fatal accident reporting system.

(Copy of detailed report on file in Commission's files, Salem.)

DEPARTMENT OF TRANSPORTATION
DIRECTOR'S REPORT

The Commission set Tuesday, October 26, 1976, as the date for the next regular meeting.

Mr. Burco said he would like to defer Mr. Bothman's status report on the Interstate transfer projects and organization in the Portland Metropolitan Area until three o'clock in the afternoon. See pages 1689 through 1691.

Mr. Burco called on Larry Rulien to give a status report on the Draft Management Plan for managing and organizing the Department's affairs for the next several years. Mr. Rulien stated that the first of September 1976 two teams were put together to conceptualize what this plan should include and to suggest goals and objectives. He introduced the following team members: Dave Talbot, George Bell, Fred Miller, L. B. Day, Denny Moore, Bob Royer, Scott Coulter, Bob Schroeder, Lloyd Henion, Bob Blensly and himself, Larry Rulien. He said these two groups did formulate the following goals:

- a) To gain legislative support for the Department's recommended transportation program.
- b) To create a climate for a positive response by the Legislature and the public towards the Department's financial deficiencies.
- c) To lay out the programs and recommendations in a framework that will identify tradeoffs and retain flexibility in project selection.

He said the objectives are to develop a plan for the Department of Transportation including policy, administration, highway, transit, aeronautics, parks, motor vehicles, financial and manpower elements; utilize the resources of the Department and its Divisions to the fullest extent practical and keep the Department employees informed of the process and the progress of the plan development. A management team was formed to produce a draft of this plan by October 11. Mr. Rulien introduced the following members of the team: Bob Blensly, Lloyd Henion, Dave Moomaw, Bob Royer, Ron Schaadt, Dave Talbot, L. B. Day (not present), and himself, Larry Rulien. He handed to the Commission copies of the Oregon Transportation Plan draft form. (Copies on file in the Commission's files, Salem.) He indicated that this is not an all inclusive outline, but it represents the thoughts that have been accumulated to date. There are a lot of technical activities that will be included in the draft around the

first of November. The first task forces are working on deferred maintenance, operational improvement types of programs and classifying the types of work on the existing programs such as the Six Year Program, the \$150 million bond project list that was derived and prioritized by the COG's. He said this plan, when finalized by the Department and approved by the Commission, would be submitted to the 1977 Legislature.

DELEGATIONS

A delegation of approximately 22 persons from Philomath appeared before the Commission concerning the traffic problems on US20-ORE34 (Corvallis-Newport Highway) in their City in Benton County. Mayor Martin Hoffman stated that Philomath is the gateway to the Pacific Ocean and that their City is growing and the traffic is increasing.

Neal Peterson, City Engineer, inquired about the \$150 million bond program. Chairman Jackson informed him that \$25 million of bonds has been sold, but the Department is now in a financial situation where it is impossible to service the issuance of additional bonds. Mr. Peterson said the City has been working on the traffic problem with the Highway Division personnel for some time, and they are most anxious to improve the present conditions. He presented a copy of the Benton Bulletin dated September 23, 1976, with a front-page story with pictures showing the traffic condition on Main Street in Philomath. (Copy on file in the Commission's files, Salem.) He also mentioned that Main Street (US20) carries approximately 12,000 vehicles a day.

Bonnie Craft presented approximately 357 questionnaires that have been completed and signed by individuals in Philomath concerning the pedestrian and traffic safety in crossing Main Street. (Questionnaires on file in the Commission's files, Salem.) She said between the State, the School Board and the City that a solution should be worked out to improve the hazardous conditions that exist on Main Street.

James Nyman, City Councilman representing Hobin Lumber Company, mentioned that they have approximately 125 employees that use Main Street and it is difficult for their trucks to get on and off during the day.

State Senator Bob Marx said he supports the City's attempt to get a traffic signal on Main Street. He called attention to the truck traffic and the safety for the school children and senior citizens that have to cross the highway.

Gloria Merrill mentioned that she talked to approximately 200 residents in Philomath and most of them live on the north side of the highway and their primary concern was for some type of traffic control so they could get across the street on foot or in a vehicle.

Joe Enos, Councilman, pointed out that the only way to solve the traffic problem would be to construct a one-way couplet.

Sandra Ihrig said she was recently on patrol duty assisting the children crossing Main Street and now realizes the dangerous situation that exists. She urged that the questionnaires that were turned in be read to get the feeling of the people in Philomath.

In reply to the Chairman's inquiry, Mr. Coulter said that a study was underway involving a Citizen's Advisory Committee as to a possible bypass or couplet system. He mentioned that a traffic signal investigation had been made at two of the intersections in Philomath and neither met the warrants. The Chairman asked Mr. Coulter to reinvestigate the situation in Philomath and to advise the City.

A delegation from Medford and Jackson County came before the Commission to request amendment of the Six Year Highway Improvement Program to include the reconstruction of West Main Street (Jacksonville Highway) between Elm Street and Oak Grove School in Jackson County and improvement of the Central-Riverside Avenue couplet (Rogue Valley Highway) in the City of Medford.

Hugh Jennings pointed out that the Medford City Council, the Jackson County Board of Commissioners and the Greater Medford Chamber of Commerce as well as other interested citizens of Jackson County are in full agreement that the Jacksonville Highway has the highest priority in the County at this time. He presented as exhibits traffic volume, accident data and collision diagrams. (Copies on file in the Commission's files, Salem.)

Monte Stamper, City Councilman, urged improvement of West Main. He said the Central and Riverside couplet also needs improvement as traffic volumes now exceed 30,000 vehicles per day and this section has a high accident rate. The traffic signals are surplus World War II signals from Camp White which are inadequate.

Tam Moore, County Commissioner, presented a letter to the Commission regarding the Elm Street-Oak Grove School Section of Highway 238. He said the Board is most anxious to get this project going now that the City and County are in agreement on this project.

Jack Hoffbuhr, President of Greater Medford Chamber of Commerce, indicated that the Chamber joins with the City and County to urge the Commission to do what is necessary to commence the Elm Street to Oak Grove Road project as quickly as possible.

The Chairman informed the group that the section had been on the Highway Division's construction schedule in the past but was not implemented due to disagreement at the local level. He mentioned that nothing can be done at this time as the Department is short of funds, but an effort will be made to work these jobs into the program when money is available.

The Chairman adjourned the meeting at 11:15 a.m., and stated the meeting will reconvene at 3 p.m.

The Chairman reconvened the meeting at 3:30 p.m.

Mr. Robert Bothman, Assistant State Highway Engineer, assisted by Ted Spence and Don Adams, from the Metro Office, reported on the Interstate transfer projects and organization in Portland and the metropolitan area. He introduced Tom King, General Manager of Tri-Met; Jerry Drake, Tri-Met Consultant; and Steve McCarthy, Tri-Met Assistant General Manager. Packets were presented to the Commission containing the following material: Report on Interstate Transfer Projects, Revised Organization and Work Program for CRAG Transportation Systems Planning, Banfield Transportation Improvements, Sunset Transportation Improvements, Banfield Freeway HOV Lane Project Report and Metropolitan Organizational Chart. (Copies on file in the Commission's files, Salem.)

Mr. Bothman reported the Interstate Transfer Committee representatives of ODOT, Tri-Met, CRAG and the City of Portland are working to establish criteria and develop mechanisms to get the projects moving. The Interim Transportation Plan covers the urbanized area of Portland. Projects being developed must show up in this plan. He said the proposals may be initiated by local jurisdictions and agencies. The group developed three priorities. The first priority would be projects in the southeast Portland area, the area impacted by the Mt. Hood Freeway. The second priority is the Transit Corridor projects: Sunset, Banfield and Oregon City. The third priority would be a series of projects throughout the entire region. He mentioned the committee went through CRAG to local jurisdictions and requested that projects be submitted up to the September 15, 1976, cutoff date. These proposals go to the TTAC of the Transportation Committee at CRAG who, with local jurisdictions, set priorities.

The next step is the CRAG Board. The State has submitted a series of projects as follows: seven new signals, four left-turn projects, two traffic system intertie projects, two minor widening projects, continuous left-turn projects, four overlay projects, three bridge replacement projects and two widening projects. Local match is the criteria for advancing projects. The policy is that local match will come from local jurisdictions. He said the projects have gone in with no local match identified so the projects sit until they can be identified. The policy of staff is to support local match to the continuing highway program. The first thing the State has to do is to match those monies that do lapse.

Mr. Bothman said two actions will go to the CRAG Board this week. The first will be to reserve \$183,000,000 of the total funds which is \$153,000,000 of the Federal Funds for the three corridor projects. The second is approval of a technical study grant of \$535,000 submitted by Tri-Met. The Board will also consider nine other projects and they have a local match pretty well identified which cost is \$4,000,000. He said activities of CRAG planning,

Tri-Met planning, I-205 and Banfield Project are interrelated. They all have to have decisions made at various points that will keep the others going. He cited examples of this in the Light Rail Transit Study and work on the Banfield.

In response to Chairman Jackson's question, Mr. Bothman said that the decision-making process would not slow down completion of I-205.

Mr. Spence reviewed the CRAG system planning and Interim Transportation Plan. He then talked about problems with the Interim Transportation Plan and conceptual work on a revised work program draft.

Mr. King said Tri-Met has intensified their efforts to come up with a best transit input to serve the region. Jerry Drake discussed the three high priority corridors. He explained how planning oriented to light rail transit decisions ties directly into the Banfield corridor decision, and also the other two corridors and CRAG long-term planning.

Mr. Bothman mentioned the Inter-Agency Coordinating Committee feels they should move ahead on the Banfield. He discussed alternatives with HOV lanes and busways and stations.

In response to Commissioner Walsh, he said the key right-of-way problem is the railroad. In response to questions on light-rail planning on the Banfield, he said the only delay would be if, in April 1977, Multnomah County Study recommends an immediate move to light rail. Mr. Bothman feels the State should keep moving the way it is with what it has.

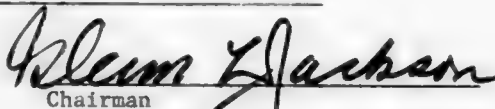

Mr. Bothman presented to the Commission a reorganizational chart of his office and mentioned Ed Hardt's region office will be responsible for all construction. He said his office is doing all the planning and design.

Chairman Jackson asked Mr. Bothman if the HOV lane experiment on the Banfield is at a point where a conclusion can be drawn. Mr. Bothman said the project is successful. There was considerable discussion concerning the hours of the HOV lanes and the number restriction of persons in the vehicle using the HOV lanes. Mr. Brix said he would like to see taxis using the HOV lanes. Mr. Bothman said he will report the Commission's feelings to the Advisory Committee.

The Commission approved the appointment of Mr. Burco to the CRAG Board and Mr. Spence to the Technical Committee at CRAG and Mr. Bothman maintaining the committee on the Banfield Project.

Mr. Burco reported that the Department of Transportation is eligible for a \$110,000 grant with no State match required from the Federal Railroad Administration for a West Coast Corridor Study that is part of a three-State effort. He does not believe, however, that the contract can be completed for the amount of money involved. He gave three alternatives: one is to sign the contract and hope Oregon, California and Washington would be successful in moderating the FRA's demands; another is not to sign the contract until a try has been made to negotiate a new work program; the third is to withdraw from the study. Mr. Burco suggested the second alternative of renegotiating with FRA and keeping open the question of doing the study internally. After further discussion the Commission instructed Mr. Burco to write to the Federal Railroad Administration asking them to renegotiate an agreement around a new work program. If the FRA does not agree, Oregon will not participate in the study. The FRA would have 30 days to reply so that action can be taken at the next Commission meeting.

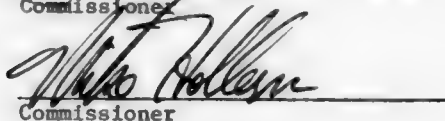

The Chairman adjourned the meeting at 5 p.m.

TO: Oregon Transportation Commission
SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the two consultant agreements below and report this for your official records:

- 1) Approved on August 17, 1976, an agreement between The Pihas, Schmidt, Westerdahl Company and the Department of Transportation to provide services to create and develop a public information program relating to the Willamette River Greenway. Purpose of the agreement is to inform the public of the present status and future plans for the State's Willamette River Greenway Program and of the role each Oregonian must play in its formation and development. Cost not to exceed \$20,000.
- 2) Approved on August 27, 1976, an agreement with Meade Telfair, Consultant, and the Department of Transportation to assess the system level marketing problems on the Banfield Freeway Project in Multnomah County.

MINUTES OF 9-28-76
REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7368 State of Oregon, by and through its Department of Transportation, Highway Division v. Darrell Ogren and Allen Hahn: This is a suit brought to recover \$3,200 which the defendants owe to DOT pursuant to a lease agreement. (Marion County) The matter has been referred to the Attorney General's office for the defense of the State.

L-7370 Dail P. Yates v. State, et al: This case arises out of an accident that occurred on November 18, 1974, on State Highway 224 in Clackamas County and involves a collision between a log truck and a Highway Division scoopmobile. The allegations of negligence relate to the scoopmobile being improperly placed on the highway and the lack of warning signs indicating work in progress on the highway. The amount of the lawsuit is \$8,470 and the matter has been referred to the State's insurance carrier for the defense of the State.

L-7371 Donald Zerr v. State: This action arises out of an accident that occurred on August 20, 1974, in Chamboed Rest Stop on Interstate 5, Multnomah County, when the plaintiff slipped on some wet grass in a rest area and was injured. The allegations of negligence relate to excessive watering and failure to warn the public of the slippery condition of the grass. The amount of the lawsuit is \$48,000. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7372 Clarence R. Grant v. Kenneth Stevens and State, et al: This lawsuit arises out of an accident that occurred on May 27, 1975, on Oregon Route 42 at a point approximately 5.3 miles west of Camas Valley in Coos County and involves a collision between the vehicle operated by the plaintiff and the vehicle operated by one of the defendants, B. P. & S. Logging Company, causing personal injury to the plaintiff. The allegation of negligence against the State are failure to place flagmen at the end of the work area and failing to place adequate signing warning traffic that they were approaching a work area. The amount of the lawsuit is \$40,000. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7373 Eugene Jackson, et al v. William T. Coleman, et al and State: This is a lawsuit in Federal Court seeking equitable and declaratory relief and damages against the Secretary of Transportation, the Federal Highway Administration, the Federal Highway Administrator, the Regional Engineer, and also Mr. Burco, Mr. Klaboe and Mr. Coulter. This lawsuit concerns itself with certain alleged failures on behalf of the State of

9-28-76

Oregon to properly utilize federal funds available for the developing of minority business enterprise participation in state highway contracts within the State of Oregon. The suit asks for a preliminary injunction restraining the State from entering into any new agreements involving Federal Supportive Services Funds and also seeks damages for the failure to follow an affirmative action plan that they believe is required. The matter has been referred to the Attorney General's office for the defense of the State.

L-7374 State of Oregon v. Sam Sarich: Defendant is the owner of real property on which three signs not in conformance with the Oregon Motorist Information Act are located. Defendant has refused to allow the Highway Division's authorized agent to remove the signs. (Marion County) The matter has been referred to the Department of Justice for handling.

L-7375 Margaret Stauch v. State: This case involves an accident that occurred on August 8, 1975. The plaintiff alleges that she fell on a raised portion of asphalt in the pedestrian crosswalk on "E" Street in Grants Pass. This crosswalk is a part of the State Highway system. The lawsuit is in the amount of \$20,519.63 and has been referred to the State's insurance carrier for the defense of the State.

L-7376 Merle J. Chase, et ux v. State: This is an inverse condemnation case involving a parcel of land located at 645 East "B" Street in Rainier, Oregon, in Columbia County. The plaintiff alleges that the construction of the Columbia River Highway caused his land to settle and slide down the hill and it is unsafe for residential use. The plaintiff is seeking \$29,500 for the property. The matter has been referred to the Department of Justice for the defense of the State.

L-7377 Elaine Johnson v. Walter Hall and the Highway Division, Department of Transportation: This lawsuit arises out of an accident that occurred on September 20, 1974, in which the vehicle driven by the plaintiff and the vehicle driven by Walter Hall collided. The plaintiff alleges that at the time of the collision Walter Hall was acting in his capacity of an employ of the Highway Division. She also alleges that he was negligent in the driving of his vehicle and was responsible for the accident. A report from the field indicates that he was on his way home from work driving his private vehicle and was not within the scope of his employment. The lawsuit is in the amount of \$25,212.75. The matter has been referred to the State's insurance carrier for the defense of the State. This accident occurred on Highway 97 in Deschutes County.

of the

OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING

held on

October 14, 1976

October 14, 1976
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 10 a.m. in Room 140 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State 24 hours prior to the meeting. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
B. Gordon Coleman, Member, Eugene
Michael P. Hollern, Member, Bend
Tom Walsh, Member, Portland
Robert A. Burco, Director of Transportation, Salem
F. B. Klaboe, Chief of Operations, Salem
Walt Barrie, Chief Counsel, Salem
H. S. Coulter, State Highway Engineer, Salem
R. N. Bothman, Assistant State Highway Engineer, Portland
George Bell, Special Assistant for Public Affairs, Salem
Harold L. Grover, Manager of Organization and Manpower
Services Branch, Salem
John J. Earley, Public Information Officer, Salem
C. W. Head, Manager, Commission Services, Salem

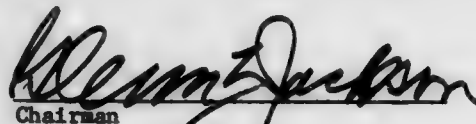

Following Mr. Burco's recommendation, the Commission approved personnel changes as follows:

- 1) Harold L. Grover as Administrator of the Motor Vehicles Division replacing Chester Ott who will be retiring in the near future;
- 2) Edward L. Hardt as Special Assistant for Transportation Policy Research and Special Studies for approximately nine months, replacing Fred Miller who was recently named Director of the Department of Energy;
- 3) Walter Hart as Region 1 Engineer for approximately nine months;
- 4) Robert Hamilton as Liaison Engineer for approximately nine months; and
- 5) Max Klotz as Special Assistant for Intergovernmental Affairs for approximately nine months.

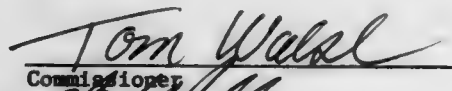

Mr. Bothman stated the Banfield HOV operations have been reviewed and he recommended to reduce one hour for both east and westbound lanes. Westbound lanes will be operational from 6:30 a.m. to 9:30 a.m., and the eastbound lanes from 3:30 p.m. to 6:30 p.m., Monday through Friday. He said this has the consensus of the

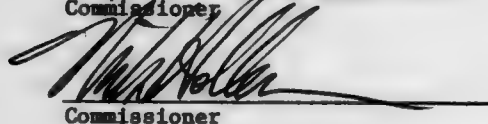

Advisory Committee which included administrative-type decisions from the City of Portland, Tri-Met, DEQ and Oregon State Police. Mr. Bothman said this change will not affect the objectives of the HOV lane operation. The Commission accepted his recommendation to reduce the operational hours of the HOV lanes on the Banfield Freeway in Portland from four hours to three hours.

The meeting adjourned at 11:06 a.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
October 26, 1976

October 26, 1976
Salem, Oregon

The Oregon Transportation Commission held their meeting in Room 122 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
Paul E. Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
Dave Talbot, State Parks Superintendent
C. W. Head, Manager, Commission Services

There were other staff members present including representatives from the news media.

There was a brief informational session held prior to the formal meeting. The Commission reviewed a list of material that is now being mailed to them and indicated that they did not wish to receive the following items:

- 1) Apparent low bidders as read at bid opening.
- 2) Schedule of Contract Lettings.
- 3) Accident and Summary July 1, 1975 to June 30, 1976 (Compiled by Employee Safety).
- 4) 1977-79 Budget. (Commissioner Brix indicated he would like copies of the budget.)
- 5) Minutes of Oregon Recreation Trails Advisory Council. (Commissioner Hollern said he would like to continue to receive these minutes.)
- 6) Public hearing transcripts. (The Commission would like to be notified of the public hearings and where the transcripts are filed.)

Concerning the Report on Status of Construction Projects, the Commission requested that this report be published quarterly rather than monthly.

The Commission said they would like to continue to receive the financial report which is prepared by Merl Whiteman, Fiscal Officer, DOT.

The Commission asked that the delegated authority reports along with the agenda and the consent calendar material be mailed to them one week prior to the meeting.

The Chairman then called the formal regular meeting to order at 10 a.m.

The Commission unanimously approved the following items on the consent calendar except the scenic waterway requests. The Commission considered the scenic waterway requests later in the meeting (see page 1731) and asked that these requests not be listed on the consent calendar so that each request could be discussed by Mr. Talbot at the meeting with the Commission.

- 1) Minutes of the meetings of September 28 and October 14, 1976.
- 2) Request from Wallowa County for a FAS-C Project to determine the most feasible route for possible relocation of the Upper Innaha River Road through the Freeze-out Gorge Section. Estimated cost \$26,000. Federal Funds \$22,360. State's share \$1,820.
- 3) Requests for the following FAUS projects:
 - a. City of Baker - improve sections of Auburn and Washington Avenues. Total cost \$102,500. Federal Funds \$88,150. State's share \$7,175.
 - b. Clackamas County - widen S.E. 82nd Drive between Lawnfield Road and the Clackamas Highway. Total Cost \$288,000. Federal Funds \$247,680. State's share \$20,160.
 - c. Multnomah County - widen E. Burnside Road from Stark Street to Bull Run Road. Total cost \$2,585,000. Federal Funds \$2,223,100. State's share \$180,950.
 - d. Multnomah County - construct an off-ramp from the Sellwood Bridge to Macadam Avenue. Total cost \$370,000. Federal Funds \$318,200. State's share \$25,900.
- 4) Modifying the agreement with United Senior Citizens of Bend to allow some revisions in the management of the experimental transportation project being conducted in the Bend area.

5) The following surveys:

- a. Rock Creek Bridge Section, Willamina-Sheridan Highway, Yamhill County. (Highway Corridor & Design Resolution No. 422 on file in Commission's files, Salem.)
- b. Price Road-Goldfish Farm Road Section, Santiam Highway, Linn County. (Highway Corridor & Design Resolution No. 423 on file in Commission's files, Salem.)
- 6) A 9.6% overrun on the authorization of the Jordan Valley-Jordan Creek Section of the I.O.N. Highway in Malheur County due to extension of project limits and unanticipated items. A \$103,084 increase in authorization. (Contract No. 8245 - Hall International, Inc.)
- 7) A petition to the City of Portland requesting improvement of S.E. 51st Avenue and S.E. Tibbetts Street within the Mt. Hood Freeway Corridor in Multnomah County and authorized the Right of Way Engineer to sign.
- 8) Resolution declaring necessity of certain real property for public purposes and authorizing condemnation. (Condemnation Resolution No. 2652 on file in Commission's files, Salem.)
- 9) Resolution accepting Amendment No. 1 to the Grant Offer from the Federal Aviation Administration for the Powers State Airport in Coos County for an Airport Development Aid Program Project that increases the total grant amount from \$16,575 to \$18,232.50 and authorized the Director to sign the resolution. (Aeronautics Miscellaneous Resolution No. 10A on file in Commission's files, Salem.)

Written delegated authority reports were given to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Burco introduced Max Klotz, Special Assistant for Intergovernmental Affairs. He said Mr. Klotz's responsibilities will be to work on national legislation through some of the existing organizations that the Department participates in nationally. Also, to seek out coalitions with other States on various positions and working with the various administrators. He will be monitoring the Department's legislative activity and working with the various Divisions to follow the bills that effect their Division. Mr. Klotz stated that he would be contacting each Commissioner in the near future to get their thoughts on the various matters on what they feel are important and how he can assist them.

Mr. Burco introduced Ed Hardt, Special Assistant for Transportation Policy Research and Special Studies. He mentioned Mr. Hardt's responsibilities are with the policy staff and with the internal advisory committee, and with the Commission's input on policy and plans develop policy positions that are presented to the Legislature and that are represented in the national councils.

Mr. Burco pointed out that Bob Hamilton was appointed to replace Ralph Sipprell, Liaison Engineer for the Highway Division, and that he will also retain his position as head of the Highway Permits Section.

Mr. Burco reported that two workshops had been held recently, one with the Director's staff and administrators and the other with the principal administrators in the Highway Division and some members of the Director's staff.

The following committees were formed:

- 1) Priority Committee - To review how ODOT's priorities should be set, who should set them, how staffing levels should be set and how to deal with the bottlenecks that may occur.
- 2) Project Scheduling Committee - To determine who should put projects on and off the schedule, how project changes should be communicated, how to track project development and how to relate the schedule to manpower needs.
- 3) Staff/Line Committee - Try to more sharply define authority and responsibilities of staff and line personnel.
- 4) Unity Committee - To explore practices and procedures that inhibit a closer relationship between the Highway Division and ODOT.

Mr. Burco said each of these committees involved participants in the workshop to work on problems that were identified as key to the organization. These committees will be reporting back next month. There was a mixed feeling, he said, on the part of the staff whether or not these exercises were of any value. Also, if the contribution of the consultants was or was not valuable. Some of the activities, exercises and concepts that were developed the first couple of days in each case were valuable in not only setting up workshops but in setting up some long-range understanding of issues. Mr. Burco mentioned that he was generally pleased with the results of the workshops. He said he felt the second workshop was highly productive, one worth the time and money that was expended.

Mr. Burco reported on the Arthur Young and Company consultant contract which the Commission approved several months ago. He said the firm had representatives at the first staff workshop and is assisting the Department in terms of development of a plan. The consultants will also assist the Department in preparing for the next legislative session and in manpower and financial planning.

Ed Stewart, head of the consulting firm's Portland office, was present and gave a brief report of their activities the past two months. He said they have been working with the management of the Department of Transportation, assisting in the development of a manpower plan and defining what the plan is going to be. He indicated their firm has been participating in discussions with the Department's management in the overall subject of what the ten-year document should contain and how to organize the Department's resources to get the job done in a short period of time. Mr. Stewart mentioned that a final manpower document will be produced by his firm in six to eight weeks. A financial backup package with a detailed definition will be available within a couple of weeks.

Mr. Burco indicated the Department would like to ask for a presentation by the consultants at the November 23 Commission meeting on manpower planning and the financial package.

The Commission confirmed Thursday, November 4, 1976, for their special meeting at the State Office Building in Portland to discuss the budget and the Willamette River Greenway. The Commission set Tuesday, November 23, 1976, as the date for their next regular monthly meeting in Salem.

Ed Hardt handed to the Commission a schedule of review of the policy document. (Copy on file in the Commission's files, Salem.)

Mr. Burco said staff will be making a recommendation to the Commission at its November 23 meeting on a transportation plan. He suggested some kind of a working session in the early part of December for a markup of the plan and a policy document. The Chairman suggested that action be postponed on this matter until the November 4 meeting in Portland.

There was discussion concerning the schedule (flow chart) of the policy document. It was decided that the policy document will be given to the Commission on November 1 and hold a limited discussion at the November 4 meeting. It will be left open for comment and will be followed by a telephone meeting. The document will then be circulated to other State agencies. The Commission asked that this document not be released until they have had time to review it. This document will be discussed further at the November 23 Commission meeting.

LEGAL

No report.

OPERATIONS

Mr. Royer reported on the Federal Railroad Administration West Coast Corridor Study contract which the Commission discussed and acted on at its September 28, 1976 meeting. He said Mr. Burco wrote the Railroad Administration telling them the Department would like to renegotiate the contract around a new work program. This was followed up by a telephone conversation with the Administration and agreed that approximately \$13,500 that has been expended by the Mass Transit Division will be available for Federal Railroad funding, providing they verify that the work is done. It was agreed the Department will provide a Project Coordinator for Oregon at the expense of the FRA, but they would hire a consultant to do the work. The Department will meet with the Administration in the near future to clarify the goals between the Department's coordinator, the Federal Railroad Administration and the consultant. Mr. Royer pointed out that the Department will proceed to recover the \$13,500 that has been expended by the Mass Transit Division in their study. In response to Commissioner Walsh's inquiry, Mr. Royer replied that Don Byard would be the Project Coordinator.

Mr. Coulter introduced Walt Hart, Bridge Engineer, who will be the Region 1 Engineer while Ed Hardt is in Salem.

Mr. Coulter mentioned that under Oregon law the Commission has the authority to lengthen or shorten the use of studded snow tires and the statutory date for the use of studded tires is from November 1 through April 30. Due to the snow in the mountain passes and the opening of the elk season, Mr. Coulter recommended that the use of snow tires be effective today, October 26, 1976. The Commission accepted his recommendation.

Mr. Coulter introduced Bob Hamilton, Highway Division Permit Engineer, who will also be handling the Highway Division's liaison activities with the State Legislature.

Mr. Talbot presented for the Commission's consideration Notifications of Intent by property owners to make various types of improvements along the Rogue River Scenic Waterway. He indicated that the requests have been carefully investigated as to their compliance with the Scenic Waterways Act. The Commission acted on the following Notifications of Intent for reasons as stated in Mr. Talbot's letters to the Commission insofar as their authority under the Scenic Waterways Act is concerned:

- 1) Approved a request from Fran Urban to construct a single family residence upstream from the Robertson Bridge on the left bank of the river in river mile 84 in Josephine County.
- 2) Approved a request from Carol Henneman to construct a single family residence just downstream from the Robertson Bridge on the left bank of the river in river mile 83 in Josephine County.
- 3) Approved a request from Texasgulf Western, Inc., for preliminary exploration drilling in the area of the Alameda Mine in Josephine County.

AERONAUTICS DIVISION

No report.

Mr. Burco announced that Paul Burket was recently elected President of the National Association of State Aviation Officials at its 45th Annual Conference held in Norfolk, Virginia.

Mr. Moore gave a status report on the Roseburg MTD experimental project. He mentioned the project started this month with two vans donated by automobile dealers in the community and drivers funded through a CETA Program, approximately \$14,000 of State funds and the rest in local funds. It operates in five routes hourly, has a 35¢ fare or a \$10 monthly pass, and has an average ridership of 161 passengers per day.

MOTOR VEHICLES DIVISION

No report.

The Chairman recessed the meeting for ten minutes. The meeting reconvened at 11:15 a.m.

Mr. Burco called on Larry Rulien to present the Transportation Plan. (A draft of the plan entitled "The Decade Ahead" was previously mailed to the Commission.) Mr. Rulien referred to the various charts displayed on the walls, some of which were a result of some of the task forces efforts, the goals and objectives of the planning document and the highway element of the plan.

The Chairman mentioned the only position that the Commission can take on this matter is a recommendation for a level of construction and maintenance that serves the State and the 2,250,000 registered vehicles. The plan means very little if there are no funds to support it. He indicated the Department has a two part plan: an adequate system and a system based upon the availability of funds if those funds are not forthcoming. The Chairman said he would propose that the Department ask the Legislature to consider legislation that will restore the adequacy of the highway system to serve the needs of the State regardless of the outcome of Ballot Measure No. 8 on November 2, 1976.

Jack Rowland covered the functional classification of highway as it relates to classifying all the public roads in the State and as it relates to realigning the Federal Aid System.

Bob Blensly discussed the perceived needs to build a highway program. He said it was felt desirable to place the construction activities into four categories: preserving of existing pavement and structures, operational preservation, reconstruction and new construction. The task force came up with a total (without the interstate system) of 17% of the Six Year Program devoted to preservation of pavement and structures; 6% operational preservation, 74% reconstruction and 3% new construction.

Martha Hansen of the Deferred Maintenance Task Force reported on the reassessment of the continuation of the system in terms of pavement and how many overlays are needed. She referred to a chart covering the District Engineers' survey of the assessment of the condition of the roads in their districts. (See afternoon session, page 1733 for continuation.)

Chairman Jackson recessed the meeting at 11:55 for lunch. (The Commission and staff had lunch in the Blue Room, State Capitol, with the Public Utility Commissioner's staff.)

The meeting reconvened at 1:40 p.m.

DELEGATION

Sid Tworoger, Fred Friedli and Marv Windred of Lincoln City appeared before the Commission urging improvement of Highway 18 (Salmon River Highway) in Polk and Lincoln Counties. Mr. Tworoger, owner of Surf Tides, mentioned this highway is heavily traveled and needs improvement. He told the Commission the Chamber of Commerce and the Oregon Coast Association are in favor of the one-cent gas tax.

Mr. Friedli, owner of Rinehart Realty, Inc., requested improvement of Highway 18 from the junction of Highway 22 leading into Lincoln City. He mentioned there are no turnouts for the vehicles and the highway is very dangerous due to the heavy volume of traffic through the corridor which causes numerous accidents.

Marv Windred, stationery store owner, also asked for improvement of the highway.

The Chairman informed the delegation that the Highway Engineer has had this matter under investigation and it is not known at this time what should or can be done until the investigation is completed.

Larry Rulien continued with the plan and introduced Jim Valentine who has been working on the structures. Mr. Rulien then introduced Bud George, Traffic Engineer, who is handling the operational preservation projects.

Bud George reported on the safety and the capacity preservation projects which involve a statewide list of traffic signals, channelization, left-turn refuges and rock fall areas. He mentioned a need for the replacement of old-type traffic signals which are worn out. The backlog of requests is now for about 65 traffic signals with an estimated cost of about 2½ million dollars.

The Chairman announced that the remainder of the meeting would be a work session.

Larry Rulien handed to the Commission a sheet entitled "Decade Summary by Response" showing six responses of Highway programs with attachments of detailed information for each of the six responses. (Copy on file in the Commission's files, Salem.) A brief description of each response is as follows:

- Response 1: No New Revenue (based on existing revenue sources without Ballot Measure No. 8).
- Response 2: Continued Full Federal Aid Program (based on additional revenue sufficient to match Federal Aid and carry out an adequate maintenance program).
- Response 3: Prevent Further System Deterioration (based on sufficient additional revenue to overlay 350 miles per year and emphasize operational projects).
- Response 4: Catch-up on Deterioration (based on sufficient increased revenue to pick up the backlog of deteriorated pavements, structures and operations and then hold the line through the decade).
- Response 5: Undertake Some New Construction (based on sufficient additional revenue to catch up on the deteriorated condition of the system and undertake about 40 miles of new construction).

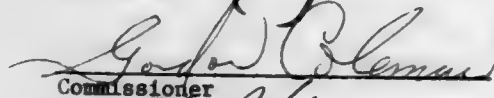

Response 6: Undertake More New Construction and Reconstruction (based on sufficient additional revenue to catch up on the deteriorated condition of the new system, undertake about 80 miles of new construction and place an emphasis on modernizing outdated or obsolete, or overly congested sections of highways, by reconstruction).

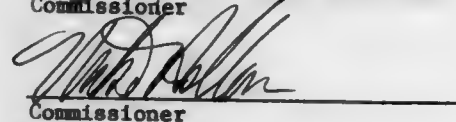

There was considerable discussion among the Commissioners and staff concerning the programs listed under the various responses. The Chairman said the key interstate problem today is to finish I-205 and the second is to get the basic system back in shape. I-505 and I-82N are not critical and should be removed from Responses 2, 3, 4 and 5, and leave them in Response 6. The Chairman said to submit a plan that will provide for the State an adequate base highway system and to make a realistic approach which would be somewhere between Responses 4 and 6.

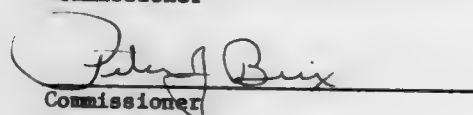

It was decided to present the budget to the Commission at their special meeting in Portland on November 4 and the plan at its regular meeting on November 23.

The Chairman adjourned the meeting at 2:45 p.m.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7378 Ernest Anderson v. State of Oregon, et al: This lawsuit arises out of an accident that occurred on September 26, 1974 between a vehicle driven by plaintiff and a vehicle driven by Earl Warren. Plaintiff alleges that the Highway Division employee followed too close and did not maintain proper control and was driving at an excessive speed. The amount of the lawsuit is \$10,362.20. The matter has been referred to the State's insurance carrier for the defense of the State. (South Sixth Street and Altamont Street, City of Klamath Falls, Klamath County)

EXHIBIT _____ G
Minutes of INTEROFFICE MEMO
10-26-76

TO: OREGON TRANSPORTATION COMMISSION
FROM: *Dennis H. Moore*
Mr. Dennis H. Moore, Administrator
Mass Transit Division

DATE: October 14, 1976

SUBJECT: Report of Actions Taken Under Delegated Authority

On behalf of the Commission and under its authority delegated to me to approve and sign contracts, I have taken the following actions since my last report to you on September 17, 1975.

- A contract with the Urban Mass Transportation Administration to administer and disburse \$248,300 of federal funds for the purchase of capital equipment to be used in transporting elderly and handicapped persons. Local match of 20 percent is specified for a total budget of \$310,375. (October 22, 1975)
- Under the above federal program for Elderly and Handicapped Capital Equipment Grants, agreements have been signed to purchase 25 vehicles and auxiliary equipment such as wheel-chair lifts and radio dispatching systems with the following sixteen organizations:
 - North Lincoln Council on Aging, Inc., Lincoln City (April 7, 1976)
 - Senior Citizens Area Transit, Inc., Grants Pass (August 16, 1976)
 - Sunrise Enterprises, Roseburg (April 8, 1976)
 - Senior Activity Center, North Bend (May 10, 1976)
 - Columbia County Council of Senior Citizens (April 9, 1976)
 - Special Mobility Services for Clackamas County (June 21, 1976)
 - Special Mobility Services for Washington County (June 21, 1976)
 - Mid-Willamette Valley Council on Aging, Salem (May 14, 1976)
 - Metro Mobility, Inc., Gresham (August 18, 1976)
 - Treasure Valley Opportunities, Ontario (July 1, 1976)
 - Waverly Children's Home, Portland (April 12, 1976)
 - Shangri-la, Inc., Salem (June 16, 1976)
 - Columbia Gorge Rehabilitation Center, Hood River (April 22, 1976)
 - New Day Enterprises, La Grande (April 9, 1976)
 - Yamhill County Council on Aging (May 22, 1976)
 - Willamette Valley Rehabilitation Center, Inc., Lebanon (May 17, 1976)
- Four agreements for the administration and implementation of two-year rural transportation demonstration programs funded by the Federal Highway Administration with the following local organizations (which provide all matching funds):
 - Forest Grove Senior Center, Inc. - \$92,370 federal (July 1, 1976) funds, total grant budget \$143,060

City of Reedsport, federal funds - \$40,800, (July 12, 1976)
total grant budget, \$47,002

Metro Mobility, Inc., Gresham, federal funds (July 5, 1976)
\$100,000, total grant budget, \$154,266

Clackamas County, federal funds - \$112,000 (July 13, 1976)
total grant budget, \$182,414

- A contract with Lane Transit District to provide local match of \$275,000 for the legislatively authorized purchase of buses. (May 6, '76)
- A contract with the Tri-County Metropolitan Transportation District (Tri-Met) to provide local match of \$677,000 for the legislatively authorized purchase of buses. (May 12, 1976)
- An agreement with the Public Utility Commissioner for execution of a portion of the legislatively authorized Willamette Valley Rail Study work program at a maximum cost of \$6,800. (May 28, 1976)
- A contract with the Urban Mass Transportation Administration for \$40,000 to continue a Technical Resource Program for transit planning assistance to smaller communities. (July 28, 1976)
- An amendatory agreement with the Rogue Valley Transportation District allowing for the return of unobligated funds under a prior contract should the District be found to have been organized improperly. (December 15, 1975)
- A contract (acting as the recipient) with the Urban Mass Transportation Administration to receive and disburse \$465,925 of federal operating assistance funds to the Lane Transit District (the grantee). (May 12, 1976)
- A contract (acting as the recipient) with the Urban Mass Transportation Administration to receive and disburse \$318,845 of federal operating assistance funds to the City of Salem (the grantee). (July 20, 1976)

The following contracts were signed after approval by either the Commission or the Chairman:

-- Small Area Experimental Projects:

City of Ontario, \$3,962 (April 28, 1976)
United Senior Citizens of Bend, \$6,680 (July 9, 1976)
City of Roseburg, \$14,025 (August 4, 1976)

Oregon Transportation Commission
October 14, 1976

10-26-76

Page Three

- An agreement with Arthur's Reporting service for written transcripts of the public hearings required by the Rural Highway Public Transportation Demonstration Program at a maximum cost of \$1,500. (December 10, 1975)

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
November 4, 1976

November 4, 1976
Portland, Oregon

The Oregon Transportation Commission held a special meeting at 9 a.m. in Room 36 of the Portland State Office Building. Notice of the special meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
H. S. Coulter, State Highway Engineer
David Talbot, State Parks Superintendent
Walt Barrie, Chief Counsel
C. W. Head, Manager, Commission Services

There were others present including DOT staff members and representatives from the news media.

The Commission and staff discussed the defeat of Ballot Measure No. 8 which would have increased gas taxes one cent per gallon and weight mile taxes paid by trucks and buses by 26 percent.

Mr. Burco handed to the Commission a colored map of the State showing the outcome of Ballot Measure 8 by counties. He pointed out that the Portland and Salem metropolitan areas, Deschutes and Clatsop Counties were all over 50 percent in favor of the measure. There was a weaker support in Douglas County and other portions of Southern and Eastern Oregon. The Chairman said it appears that the voters are under the impression that a portion of their highway dollars are going to mass transit and other nonrelated highway funding. He said the Department's major objective should be to appeal to the Legislature to relieve the Department's budget of nonrelated highway activities in order that these funds be used for construction and maintenance.

Mr. Coulter mentioned that copies of four alternate highway budgets had been mailed to the Commission for their review. He presented to the Commission copies of the budget which lists 1973-75 actual expenses, the estimated expenses for 1975-77, 1977-79 base budget with no additional revenues and the base budget with State Police transfer. (Copy of budget on file in the Commission's files, Salem.)

Mr. Coulter went through the seven-page budget which shows the consolidated summary of revenues and disbursements, construction and real property purchasing, maintenance of highways, bridges and related activities. There was considerable discussion between the Commission and staff as Mr. Coulter was explaining the various categories in the budget.

The Commission adopted the budget for the 1977-79 biennium without any consideration to a change in the allocation formula, and to ask the Legislature through the Executive Department to fund the State Police programs relating to public safety and energy conservation with General Funds. The amount of these programs is estimated to be \$22.7 million which would be transferred from the Highway Fund and is shown as a transfer in the 1977-79 biennium Highway budget. In addition to the above, the Chairman said the Department will ask the Legislature that the amount of \$500,000 in the budget for out of state advertising be charged to the General Funds and that the Legislature will be asked to determine a policy of whether or not the Department is in the tourist business or out of it. He said if the State is going to compete with other Western States in tourism, more funds will be needed. Also, the Department will ask for \$2,000,000 for acquisition and the development of the State Parks program to be taken from the General Fund.

Ed Hardt handed to the Commission copies of the latest draft document entitled Oregon Transportation Commission Policies, 1976. He referred to two policy areas on pages 35 and 40 under the Transportation Services Coordination and the Department's role with the private sector. Discussion sheets have been added to these pages for the Commission's review as there is some amount of controversy. Following discussion of several portions of the document, it was decided to place this item on the November 23rd agenda.

Larry Rulien gave a brief report concerning the various plan proposals for the 1977 Legislature. The Chairman said the outcome of Ballot Measure 8 does not change anything insofar as these responses are concerned. He mentioned a program is needed to put the highway system into a condition to serve the needs of the State. This program was developed around alternate 5 because it was felt that that gave Oregon the type of system that would serve the present and growing needs year by year.

It was the Commission's feeling that the Department should proceed as part of its report to the Legislature with a recommendation that indicates the amount of money that it is going to take to do the type of job that gives the State an adequate highway system.

The Chairman reconvened the meeting at 10:30 a.m. after a 10 minute recess.

Mr. Talbot presented to the Commission copies of a proposal for the Willamette River Greenway dated November 1976 and gave a brief background of the plan. He said the temporary boundary that is in effect now is 88,000 acres. After reviewing the boundary as it is on the ground today, working closely with local government, citizen groups, Governor's Committee, staff came back with a proposal of approximately 51,000 acres. As a result of public hearings, other public input and the Governor's Committee, it is now reduced to 49,982 acres within the Greenway.

Mr. Talbot mentioned the Governor's Committee has reviewed the boundary mile by mile and pointed out that the law directs the Department of Transportation to submit a plan or segment to the Land Conservation and Development Commission. The proposal today is to forward to LCDC 10 segments of the Greenway proposal for their processing and try to resolve the conflicts between the two plans. He then handed to the Commission copies of letters from the following 10 units of government and commented on each letter: Columbia County and City of St. Helens, Multnomah County, excluding City of Portland, City of Milwaukie, City of Gladstone, Yamhill County, excluding City of Dundee, City of Salem, Benton County, excluding City of Corvallis and North Albany, Lane County, including City of Eugene but excluding Cities of Springfield and Cottage Grove. (Letters on file in the Commission's files, Salem.)

Ms. Adrienne Brockman of the Governor's Committee on the Willamette River Greenway was present. She said the Committee has held work sessions, public meetings and have reviewed all the aerial photographs and that they are asking the Commission to support sending the 10 segments to LCDC so they can begin the hearing process. Ms. Brockman mentioned that there were members of the Committee who do not support various segments of the boundary, but they will represent themselves today.

Chairman Jackson complimented the Committee on the amount of time and effort that they have put into the Greenway plan.

Morris Majors, Yamhill County Commissioner, was present and said the County is about 90 to 95 percent in agreement with the Greenway Committee relating to the boundaries in Yamhill County.

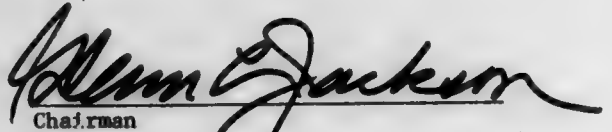

Dave Talbot said Gladstone City Councilwoman, Cherie Sutton, was scheduled to appear but was not in the audience.

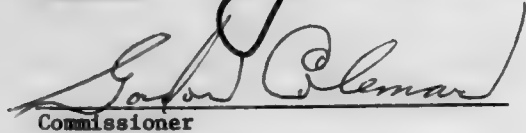

Mrs. George Van Leeuwen, also present, asked the Commission to very carefully consider George Van Leeuwen's minority report in the decisions they make. (Copy of Mr. Van Leeuwen's minority report in the Commission's files, Salem.) She also said on behalf of the Green Rights Association that there are a number of local governments who feel they have not received cooperation from the State Parks Branch as required by law and this would be the major objection of this Association of the State going ahead and adopting the staff's proposed boundary rather than the local governments proposed boundary in many of the areas.

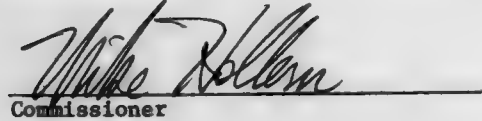

Commissioner Brix said he would like to receive the Port of Portland's input concerning the Port lands.

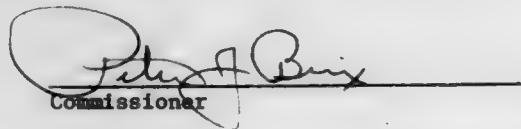

The Commission gave their approval for the Department to transmit the segments as mentioned above to the Land Conservation and Development Commission without any recommendation.

The Chairman adjourned the meeting at 11 a.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
November 23, 1976

November 23, 1976
Salem, Oregon

The Oregon Transportation Commission held their formal meeting at 10 a.m. in Room 122 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
David Talbot, State Parks Superintendent
Paul E. Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
C. W. Head, Manager, Commission Services

There were other staff members present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meetings of October 26 and November 4, 1976.
- 2) Abandoning the following ten claims for damages to State Highway facilities and vehicles totaling \$7,409.32. (Claims do not warrant further action toward collection.)

| <u>CAO No.</u> | <u>Name</u> | <u>Amount</u> | <u>Damage</u> |
|----------------|-----------------------------------|---------------|--------------------------|
| 75-410 | Eugene M. Shalberg | \$ 544.41 | Guardrail |
| 75-421 | Raymond L. George | 533.53 | Guardrail |
| 76-4 | Edwin E. Stewart | 703.48 | Rock Wall |
| 76-31 | Richie Dean Thornton | 437.91 | Cleanup of spilled wheat |
| 76-40 | Morris D. Macomber | 1,384.06 | Sign |
| 76-45 | Greg L. Wildman | 700.45 | Guardrail |
| 76-131 | Wildish Construction Company | 334.63 | Fence |
| 76-136 | Pamela K. Laton | 704.31 | Impact attenuator |
| 76-177 | Moses Mayfield | 385.95 | Guardrail |
| 76-212 | Manuel Mena and Yolanda Rodriguez | 1,680.59 | Snake River Bridge |

- 3) Request from the Public Utility Commissioner for a sign with the legend "DO NOT STOP ON TRACKS". (Signs will tend to eliminate the hazard caused by vehicles stopping on railroad tracks when the tracks parallel a major arterial.)
- 4) Survey for the Comstock-Anlauf Section of the Pacific Highway in Douglas County. (Highway Corridor and Design Resolution No. 424 which resolution is on file in the Commission's files, Salem.)
- 5) Placing on the Six Year Program for a future bid opening the West Fremont Interchange Ramp and Connections of the Stadium Freeway in Multnomah County. Project will consist of safety improvements to the existing westbound ramp connection from I-405 to N.W. Vaughn Street and rehabilitation of N.W. 22nd Avenue between N.W. Vaughn and N.W. Thurman.
- 6) Agreement with Klamath County covering the traffic signal at the intersection of Shasta Way and the Klamath Falls-Malin Highway. County will care for future power consumption and State will be responsible for maintenance of signal.
- 7) Agreement with City of Ashland covering the traffic signals at the intersections of the Rogue Valley Highway at Wightman Street and the Green Springs Highway. State to be responsible for maintenance and City to pay for power costs.
- 8) Resolution declaring necessity of certain real property for public purposes and authorizing condemnation. (Condemnation Resolution No. 2653 on file in the Commission's files, Salem.)
- 9) Increase in project authorization in the amount of \$83,372.10 on Contract No. 8072, Memaloose Safety Rest Area, Columbia River Highway, Wasco County. (Waybo, Inc.)
- 10) Two requests for Urban System Projects as follows:
 - a. Preliminary engineering project to prepare final plans for construction of a four-lane section on 158th Avenue and Jenkins Road (Cornell Road-Murray Boulevard), Washington County. Federal Funds \$104,060. State's share \$8,470.
 - b. Progress Interchange Offramp to Scholls Ferry Road at the Beaverton-Tigard Highway, Washington County. Federal Funds \$301,000. State's share \$49,000.

11) Request for a Federal Aid Secondary Project and a request to cancel a previously approved project as follows:

- a. Replacement of a deficient bridge spanning the Applegate River on Fish Hatchery Road in Josephine County. Federal Funds \$454,080. State's share \$36,960.
- b. Cancellation of a previously approved project on Cornelius Pass Road from Croeni Road northerly to the Multnomah County Line in Washington County.

12) Financial aid to municipalities program grants to three cities as follows:

- a. City of Pendleton - paint for airport marking \$1,240
- b. City of Corvallis - 50% of sponsor's portion of an airport master plan \$2,341
- c. Port of Hood River - 50% of sponsor's portion of an airport master plan \$1,242

13) Resolution accepting Amendment No. 1 to the Grant Offer from the Federal Aviation Administration for the Independence State Airport for an Airport Development Aid Program Project No. 7-41-0027-01 that increases the total grant amount from \$100,779 to \$110,856.90 and authorizing Director to sign resolution. (Aeronautics Miscellaneous Resolution No. 8A on file in the Commission's files, Salem.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

Chairman of Oregon Transportation Commission
State Highway Engineer and Deputy
Right of Way Engineer and Assistant
Chief Counsel
Controller

Mt. Hood Freeway Properties

DIRECTOR'S REPORT

Mr. Burco recalled that the Commission at their November 4, 1976, special meeting made a request to the Governor that \$22,000,000 for the State Police be transferred from the Highway Fund to General Funding. Also, the Commission had reaffirmed the request for some limited amount of General Funding for the Parks program for construction and acquisition and the request for some partial funding of the tourism program out of the General Funds.

He said that during the past several weeks the staff has worked with the Governor's Office and the Executive Department in terms of budget reviews. He indicated the Governor's budget will be released on December 1, 1976. The Governor was favorable towards a partial funding of the State Police out of the General Fund. It was Mr. Burco's understanding that there would be some General Funding support for Parks, the tourism program and for the State Police.

George Bell reported on the gas tax Ballot Measure 8 which was defeated 52 percent to 48 percent at the November 2 election. He handed to the Commission colored maps of the State showing the outcome of the voting, a summary of voting pattern analysis, regional voting analysis and a comparison of yes vote percentages between selected County - City pairs. (Copies of reports on file in the Commission's files, Salem.) Mr. Bell pointed out that the metropolitan areas and the Willamette Valley were in support of the measure. He said the cities voted for the tax, but the counties voted against it.

Chairman Jackson presented to Gerald K. Drummond, President of the Tri-Met Board of Directors, and Steve McCarthy, Assistant General Manager of Tri-Met, a check in the amount of \$677,000 from the State General Funds. Mr. Moore stated the 1975 Legislature had made appropriations for public transportation purposes to provide for additional equipment. He said these funds will assist Tri-Met in paying for 100 new buses. The check is part of the State Mass Transit Division's program to provide part of the local match for capital grants from the Federal government. He indicated this is the first year such a program has been implemented for mass transit on the State level.

Max Klotz mentioned the following bills have been submitted to the Executive Department and have been approved by the Legislative Interim Committee on Intergovernmental Affairs, which will be presented to the next Legislature:

(Continued on next page)

- 1) Increases aviation gasoline tax from two cents to three cents per gallon and reduces the gas tax refund from one cent to three cents per gallon.
- 2) Reduces the tax refund on the purchase of aircraft fuel by two cents rather than one cent per gallon.
- 3) Increases aircraft registration fees, sets registration fees on value of aircraft rather than one fee for all.
- 4) Authorizes the Department of Transportation to contract for nonexperimental public transportation services.
- 5) Changes Mass Transit Division name to Public Transit Division.

Mr. Klotz said three committees have been established: Administration and Housekeeping, Finance and Policy to work on the proposed legislation that has not yet been submitted to the Executive Department. (List of committee members and description of bills by Divisions are on file in the Commission's files, Salem.)

Mr. Burco referred to the Transportation Commission Policy Document which was previously submitted to the Commission in draft form. He mentioned that Ed Hardt will be presenting it again today for a review and that staff is asking for Commission approval to release the document as a draft to circulate to other agencies for their critical review.

Mr. Hardt introduced the Policy Review and Writing Team that had done the work on this policy document.

Mr. Hardt read the policies from the November 1, 1976 draft to the Commission with discussions on the following pages of the document:

- 1) PAGE 23: Concerning the "development of the energy conservation program," Chairman Jackson said that the Department should cooperate but not activate an energy conservation program.

Mr. Burco said the Commission had also raised a question whether the Commission should be concerned over the "financial difficulties of local areas" as indicated on page 23.

- 2) PAGE 30:

Policy: The Department will respond to requests from public agencies and private organizations for assistance in providing alternatives to increased highway construction, high fuel consumption and the lack of transportation for the mobility disadvantaged citizen.

The Chairman said due to the financial limitations facing the Department, this should be amended to read "The Department will attempt to respond to requests from. . . ."

3) PAGE 34:

Policy: The Department's facilities, services and activities will respect the environment, socio-economic integrity of communities and the desires of communities as incorporated in comprehensive land use plans.

The Chairman said the policy statement should be revised somewhat to emphasize the fact that the Commission has a basic responsibility in the field of transportation that cannot be subjugated by localized situations that might have a direct effect on the overall State plan.

4) PAGES 36 and 37:

Policy: The concept of assessing user fees in proportion to cost responsibility will be continued for highways and be applied to other modes where feasible. User fees collected from a particular mode (highways or aeronautics) will be expended primarily for the benefit of the users of that mode.

Policy: The Department will continue to finance the construction, improvement, maintenance and operation of transportation facilities primarily from user fees. Where user fees are insufficient to accomplish the tasks of the Department, the Department will consider increasing fees or reducing service.

The Chairman indicated the policy should be revised so it is not confining highway user fees strictly to highway construction or maintenance as the funds go to other programs, such as parks, bicycle trails, etc., as mandated by the Legislature.

5) PAGE 40:

Policy: Competition in the market place should prevail as the principal economic regulator of transportation, however, it is recognized that some needed services cannot provide a reasonable return on investment and some government assistance may be needed. In these instances the operator should first be encouraged and assisted in using available means to increase his return before resorting to more substantive assistance. The operator has a responsibility to match these efforts by efforts of his own to improve service.

There was considerable discussion concerning the wording of this policy and the Commission asked that this policy be removed for the time being.

The Commission approved releasing the document as a draft, after the above changes have been made, and to circulate to other State agencies. Mr. Burco stated the final document will be presented to the Commission for their approval on December 21, 1976, for delivery to the Legislature in January, 1977.

Larry Rulien gave a brief update of the plan document which contains a variety of program levels broken down by Responses 1 through 6. (Copies of the document were given to the Commission, and a copy is on file in the Commission's files, Salem.) He said a statewide map showing the condition of the pavements, structures and operational type of improvements for each county is now being prepared and will be a part of the policy document to be presented at the December Commission meeting.

Mr. Klaboe mentioned that the Department still has an obligation to show what the cost of taking care of the State Highway System will be and should be and are looking at new ways of financing the highway needs. He said the deficit over the next four years is approximately \$585,000,000 for the recommended Response 5 (close to Response 5) that the Commission previously chose. As an example, one of the alternates as a method of financing a portion might be a two-cent gas tax increase, a ten-cent cubic inch displacement-type tax plus an equivalent weight-mile tax increase. He pointed out a package of this type over a four-year period compared to \$585,000,000 would give \$134,000,000 which is a long way short of the needs on a system even with that type of package.

Mr. Klaboe commented on the Jones Bill which was introduced and then died at the end of the last Session of Congress. If presented again and passed, it would make the primary Federal allocation approximately two and a half times more than it is at present. This would give Oregon approximately \$105,000,000 more in a four-year period which is still a long way short of the \$585,000,000. He mentioned another plan if the Federal Government would let the States that are primarily finished with their Interstate Program to use some of the interstate funds on their primary and secondary systems. Still another possibility of additional money would be to take some portion of that increased gas tax and dedicate it legislatively to a bond issue. Alternate financing proposals will be covered later.

PUBLIC COMMENTS

Henry Wolf, Leo McLachlan, Robert McWilliams and Vic Miller, all of Lincoln City Twenty Miracle Miles Chamber of Commerce, appeared before the Commission concerning improvement of Highway 18 (Salmon River Highway in Polk and Lincoln Counties). Mr. Wolf asked for more passing lanes and some straightening of the highway. He also asked that Highway 18 not be forgotten insofar as maintenance is concerned. He mentioned the traffic volume has increased approximately 41 percent over the last ten years. He also asked if the Department has had time to consider Mr. Tworoger's request which is basically the same as his request. Mr. Coulter said the Department is looking at some possible improvements along the Salmon River Highway. Some of these are involved with the Van Duzer Corridor and this area will have to be looked at very carefully.

Chairman Jackson told the delegation that the Department would take a good look to see what can be done to improve the highway.

The Commission set Tuesday, December 21, 1976, as the date for their next regular meeting. The Commission decided to hold a work session in Room 108, State Office Building, in Portland from 10 a.m. to 2 p.m. on Wednesday, December 8, 1976, to discuss policy and planning. The Commission meeting date to be held in the City of Bend was changed to April 19, 1977.

Mr. Burco stated that the Federal Rail Act of 1976 regulations have been finally adopted by the Federal Rail Administration, and the Department needs to have a Rail-Freight study developed by March 1977 to qualify for \$187,004 of Federal Rail Planning Funds. He said in order to do this and have Legislative approval, the Commission's endorsement is needed of a planning effort so it can be forwarded to the Emergency Board next month.

Paul Norris described the Federal regulations and handed to the Commission a packet containing the following materials:

- 1) Extract from ORS 184.618. Duties of Commission and Divisions in preparing and implementing State Transportation Policy
- 2) Letter from ICC to Governor Straub dated March 16, 1976.
- 3) Letter from Governor Straub to ICC dated April 1, 1976.
- 4) Memorandum summarizing certain sections of Railroad Revitalization and Regulatory Reform Act of 1976.
- 5) Summary of rail line abandonments in Oregon.
- 6) Memorandum on transportation in the Mid-Columbia.
- 7) Memorandum regarding meeting with Jay Glatt, Department of Agriculture.

(Copies on file in the Commission's files, Salem.)

In reply to the Chairman's inquiry, Bob Rynerson said there are approximately 3200 miles of railroad feeder lines in the State.

Commissioner Brix asked how many other States are participating in the subsidy. Paul Norris indicated that 50 to 60 percent of the Western states are actively involved at the present time.

The Commission gave their approval to submit the proposal to the Emergency Board to apply for Federal Funds totaling \$187,004 for a Rail-Freight Study.

Walt Barrie said an Executive Session will be held at 1:30 p.m. today in Room 135 to discuss specific litigation.

OPERATIONS

Consideration was given to advance the Four Corners-Woodburn Section Project of the Hillsboro-Silverton Highway in Marion County from 1980 to 1977 on the Six Year Construction Program. Mr. Klaboe said that during construction of the Hayesville-Woodburn Section of I-5, 54,000 tons of asphaltic concrete was salvaged. This material was stockpiled in anticipation of an experimental recycling program. The material can be used on the Four Corners-Woodburn Project in the interest of conservation and to improve the State's knowledge of this type of operation. He said the State will receive \$50,000 of Special Federal Aid Experimental Project Funds for this recycling project. The estimated cost of the project is \$919,000 of which \$121,000 would be State match. The Commission approved the above modification of the program as recommended by Mr. Klaboe.

Attention was given to reduce the toll charge for bicycles and motorcycles on the Astoria Bridge in Clatsop County from \$1 to 50 cents. Mr. Coulter mentioned in view of the high importance given to energy conservation and the environment, it appears that bicycle riding should be encouraged. Neither of these two-wheel vehicles cause much wear or maintenance problems on the bridge. This reduction would also bring this toll charge in line with other toll charges across the Columbia River. Following his favorable recommendation, the Commission approved reducing the toll to 50 cents effective this date. (Received concurrence from State of Wash. 2-17-77)

Mr. Coulter presented a plaque to the Commission from the Portland School District in appreciation for the State's participation in the Binnsmead Middle School in connection with the acquisition of the Barlow School, East Portland Freeway in Multnomah County.

The Chairman recessed the meeting at 11:55 a.m. for lunch. (The Commission and staff had lunch in the Blue Room, State Capitol, with Governor Robert Straub.)

EXECUTIVE SESSION

The Commission held an Executive Session at 1:30 p.m. in Mr. Burco's office, Room 135, Transportation Building in Salem, to discuss some litigation which involves approximately 245 acres of land in Yamhill County.

Present were Commissioners Glenn L. Jackson, B. Gordon Coleman, and Michael P. Hollern; Robert Burco, Fred Klaboe, Walt Barrie, David Talbot, Scott Coulter, Cecil Head and other staff members.

Mr. Barrie stated that this property is being taken for the Lone Tree Bar State Park, which was one of the five authorized areas that could specifically be taken as parks by the same law which provided for the Greenway. He mentioned that this case, State vs. Blake, has been going on a long time. The State dismissed the case at one time, authorized it again and it has just recently been completed. A jury verdict awarded \$650,000 for the property which the State must pay to the Blakes.

Mr. Barrie said the Blakes were asking approximately one and a half million dollars for the property. The State's appraisal was \$350,000. As is usually the case, Mr. Barrie continued, a jury will split the value and it appears that has happened in this particular case. He mentioned that he has discussed the case with the State's two attorneys that tried the case, and Mr. Talbot to consider whether to appeal. He felt there are some errors which the court committed which would give the State at least a 50-50 chance for reversal.

In addition to the \$650,000, Mr. Barrie said there are costs for attorney fees, expert witness fees, etc., that the defendants have submitted to the court but which have not yet been approved by the court, totaling \$295,000. The total verdict with costs added is \$945,000. If the State doesn't appeal and pays the judgment and costs, it would probably be around \$900,000, assuming the State is moderately successful in persuading the court to reduce the costs requested by defendants. If the State does appeal the case, it would have some leverage for settling at a lower figure than the Jury award because the State's assignment of error would be sufficient to cause the defendants some concern over the possibility of losing the appeal.

Mr. Barrie pointed out that the State offered \$515,000 before the case was tried. If the verdict had been under this amount, the State would not have had to pay attorney fees and costs. If the State were to appeal and make a new offer, it would have to be more than the original offer because the defendants have now won the case in the lower court. The defendants would thus obviously not accept the State's original offer so an offer of around \$600-\$650,000 might be acceptable to the defendants if the State appeals but prior to argument and decision of the court. If accepted, that figure would include attorneys fees and costs.

Mr. Barrie mentioned that another item to consider is that the Bureau of Outdoor Recreation provides half of the total funding for projects of this type but only based upon the State's high appraisal or a court award, and not a settlement. Mr. Barrie also pointed out that the Bureau of Outdoor Recreation does not participate in court costs.

Mr. Talbot pointed out the property on an aerial photo map. There was considerable discussion concerning the elevation of the land in regards to the construction of buildings and access to the proposed park.

In reply to Commissioner Hollern's question, Mr. Barrie said the State has 30 days after judgment to appeal. There are briefs to be filed and a time for oral arguments would be set by the court. It would probably take nine months before the State would have a decision on the case.

Mr. Barrie then summarized four options available in this case:

- 1) Not appeal and pay the jury award of \$650,000 plus between \$200,000 and \$295,000 in court costs depending on the success of State attorneys in getting a reduction in costs. At least \$900,000 is anticipated as a probable total sum. Subtracting BOR's participation (1/2 the judgment or \$325,000) leaves the State with approximately \$575,000 to \$620,000 to pay.
- 2) Appeal but settle the case prior to court arguments and/or a decision. Mr. Barrie thought a reasonable offer at this stage would be the jury award of \$650,000, but that would include all costs as well. BOR would then pay \$175,000 (1/2 the State's high appraisal) and the State would end up paying \$475,000.
- 3) Appeal and lose the case. Not a great deal lost. Anticipated additional costs of appeal to be tacked on the amount to be paid under Option No. 1 would be around 10,000.
- 4) Appeal and win. State could reduce its settlement offer to no more than \$600,000 prior to a new jury trial. If this were accepted, the State would pay \$425,000 after BOR participation.

Mr. Barrie further stated that if the case were won on appeal and retired because a settlement could not be agreed upon, he could not predict what a new jury verdict might be.

The Commission favored appealing the case subject to the Governor's approval.

The Chairman adjourned the Executive Session at 2 p.m.

The Chairman reconvened the formal meeting at 2:05 p.m. in Room 122, Transportation Building.

The Commission considered two agreements to create a memorial park on the Oregon Coast at Tillamook Head in Clatsop County. Mr. Talbot said it is a complex project with a lady wanting to donate \$1,000,000 to create a memorial park for her brother. It is a complicated three-way trade which includes purchase of some private property and, finally, the delicate matter of gaining local approval in a community that is very critical of taking further land off their tax base. Mr. John Woods, State Forester, was present and described the property from a map.

Mr. Talbot indicated the appraisal process is almost complete. There will then be general concurrence for the three-way exchange between State Parks, Crown Zellerbach and State Forestry. There is a general agreement and a security agreement pledging \$500,000. When the project is completed, a third agreement

would be put together setting up a trust for the balance of the estate. From the State's standpoint, the agreement is arranged in such a way as to protect the State to the fullest extent possible from the possibility of the State buying some land and not being reimbursed. Mr. Talbot said the agreement calls for a completion date of January 1, 1977, however, her attorney was present and indicated she would be willing for an extension to the agreement. Following Mr. Talbot's recommendation, the Commission approved the agreements. See memo 6/14/76.

Attention was given to an agreement with Benjamin Franklin Federal Savings and Loan Association of Portland through its subsidiary, Willamette Factors, Inc., covering the donation of a scenic easement on that portion of the Charbonneau development which lies within the Greenway boundary in Clackamas County. Mr. Talbot mentioned that the staff has carefully reviewed the Charbonneau plan, which has been approved by the City of Wilsonville, and feel that it is consistent with the Greenway values. The easement will assure that the natural river bank will be maintained, substantially screening the new community from the view of the river. The Commission approved the agreement as recommended by Mr. Talbot.

Upon the recommendation of Mr. Talbot, the Commission approved the following appointments to the State Parks and Recreation Advisory Committee: Frank Gilchrist, new member, four-year term; Bob Frazier, new member, one and one-half term ending on April 17, 1978, replacing Bud Forrester; and L. L. "Stub" Stewart, reappointed, four-year term. Mr. Talbot also mentioned that Alfred E. "Cap" Collier would be assuming status of an Honorary Member of the Committee.

Mr. Burket presented to the Commission material pertaining to the regulation of air commerce in Oregon. (Copy on file in the Commission's files, Salem.) Mr. Burket said since passage of Senate Bill 240 on July 22, 1973, there has developed a situation which demands clarification and adoption of better policies and rules. Three applications now pending before the Public Utility Commissioner have brought sharply into focus the need for such improvements. The Department of Transportation and the Aeronautics Division staff have worked closely with the Public Utility Commissioner's staff in developing the concepts contained in the Air Commerce Regulation Policy and Rules.

Mr. Burket reviewed the document and specifically pointed out the five new definitions and the proposed general policy statement as outlined on pages 7 and 8.

The Commission accepted Mr. Burket's recommendation to support the policy positions as outlined in the PUC memorandum dated November 18, 1976.

Mr. Moore reported on the elderly and handicapped capital grant program. He mentioned that it is sponsored by the Federal Urban Mass Transportation Administration and it provides 80 percent capital grants to non-profit corporations and associations which provide transportation services to elderly and handicapped persons. The State received \$248,000 in the 1975-76 fiscal year and there were 16 non-profit organizations which submitted grants and have been approved. Twenty different vehicles have been received and 19 have been distributed. He indicated the last fiscal year funds will buy 24 vehicles for 16 organizations. (Several pictures of vehicles were on display.)

Mr. Moore said it is anticipated that this program will continue until 1979 and be funded at a level of approximately \$250,000 a year in Oregon. He pointed out the State is maintaining ownership of the equipment except where a local government wants to assume ownership.

The Commission considered a request for the Department (Motor Vehicle Division) to go to the Emergency Board to request an expenditure limitation increase in the amount of \$159,038 to provide for the additional expenses of implementing the photo-driver's license program. Mr. Ott indicated that the additional expenses are still less than the additional revenue generated by the program. The Commission approved the request as recommended by Mr. Ott.

The Chairman adjourned the meeting at 2:35 p.m.

The Commission then held an informal session in Mr. Burco's office, Room 135, Transportation Building. An informal session was also held between 8:30 a.m. and 10 a.m. in Room 135.

11-23-76

REPORT OF ACTIONS UNDER DELEGATED AUTHORITY BY
STATE HIGHWAY ENGINEER

On behalf of the Commission and under its authority delegated to me to award contracts when conditions have been fulfilled, I awarded the following contracts:

- 1) S.W. Lee Street-S. E. Fogarty Street Section in Newport on FAU 6850 in Lincoln County. Bids received October 21, 1976. Contract No. 8448 awarded November 8, 1976, to Road and Driveway Co., Newport, at \$89,890.50.
- 2) Dolphin replacement on the Yaquina Bay Bridge on the Oregon Coast Highway in Lincoln County. Bids received October 21, 1976. Contract No. 8449 awarded October 27, 1976, to Willamette-Western Corporation, Portland, at \$85,300.
- 3) North Fork Cold Springs (M.P. 1.2) Bridge Section of FAS 30-110 in Umatilla County. Bids received October 21, 1976. Contract No. 8450 awarded November 10, 1976, to Douglas S. Coats Construction, Bend, at \$57,640.
- 4) Slope improvement and rock barrier work on Minam-Enterprise (M.P. 34.5, M.P. 37.5 and M.P. 57.2) Section of the Wallowa Lake Highway in Wallowa County. Bids received October 21, 1976. Contract No. 8451 awarded October 27, 1976, to D Mc D Corporation, La Grande, at \$95,385.
- 5) Grading and paving on Hillsboro-Beaverton (bus turnout) Section on the Tualatin Valley Highway in Washington County. Bids received October 21, 1976. Contract No. 8452 awarded October 27, 1976, to Gibbons and Reed Company, Portland, at \$46,343.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7391 Donald Sturges v. Allan A. Salo, Murland F. Graham, Roy Dague and The State of Oregon: This case arises out of an accident that occurred on July 17, 1975, on Highway 30 in Clatsop County. The accident involved plaintiff's truck and a truck operated by Mr. Salo, a Highway Division employee. The alleged negligence of the Highway Division employee is driving at an extensive speed, failing to keep his vehicle under control, and failing to maintain a proper lookout. The matter has been referred to the State's insurance carrier for the defense of the state employee. The amount of the lawsuit is \$15,238.

L-7405 Edith V. Herlin, personal representative of estate of Jeanne Van Osdol v. Matt Patterson, Jack Walker and Richard N. Alsbury: This is a wrongful death lawsuit and arises out of an accident that occurred on November 19, 1973, on Highway 30 at or near milepost 92.5 in Clatsop County. Plaintiff was a passenger in a vehicle which collided with a vehicle driven by the defendant Patterson. The other two defendants, Jack Walker and Richard Alsbury, are Highway Division employees and the alleged negligence on their part is the failure to sand the John Day Bridge prior to the time of the accident. The amount of the lawsuit is \$750,000 and the matter has been referred to the State's insurance carrier for the defense of the State.

L-7406 Dale Stevenson, Personal Representative for the Estate of Brenda Fern Stevenson, deceased, v. State of Oregon and James Linder: This lawsuit arises out of an accident in which the plaintiff's decedent was a guest passenger in a vehicle which collided with a vehicle operated by the other defendant, James Linder. The accident occurred at the intersection of Redwood Avenue and the Redwood Highway in Josephine County. The alleged negligence of the State is the failure to correct known malfunctions of the traffic signal at the intersection and the failure to repair and maintain the traffic signal in a proper working condition. The lawsuit is in the amount of \$250,000. The matter has been referred to the Attorney General's Office for the defense of the State.

L-7407 State of Oregon v. Dennis Van Wald: This is a suit seeking an Injunction which would require the defendant to remove a water line crossing Banks-Vernonia Linear Park which presents a safety hazard. This suit is in Washington County.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On Nov. 26, 19 76 \$ 2,801,113.46 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of October, 19 76.
(List of apportionments on file in Commission Files, Salem.)

On Nov. 30, 19 76 \$ 1,680,668.08 (12 percent of the Highway Fund) was distributed to the cities for the month of October, 19 76.
(List of apportionments on file in Commission Files, Salem.)

Dated this 15th day of Nov., 19 76

John Earley

MINUTES
of the
OREGON TRANSPORTATION COMMISSION WORKSHOP MEETING
held on
December 8, 1976

December 8, 1976
Portland, Oregon

The Oregon Transportation Commission held a workshop at 10 a.m. in Room 108 of the Portland State Office Building. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
Dennis Moore, Administrator of Mass Transit
David Talbot, State Parks Superintendent
Fran Neavoll, Commission Services

There were others present including DOT staff members and representatives from the news media.

Mr. Klaboe handed to the Commission a report covering proposed legislation regarding revision of Highway Use Taxes and Fees. (Copy on file in the Commission's files, Salem.) He presented to the Commission three proposed bills for the 1977 Legislature as follows:

TRUCK PARITY TAX: 1) Farm trucks of over 28,000 pounds will pay standard weight-mile tax fees. 2) The bill restricts the flat fee options to operators having four or fewer vehicles. Operators having more than four vehicles would be required to pay under the mileage tax rate table. 3) Revises weight-mile flat rate tax tables applicable to diesel engine trucks to provide a more proportionate share of road user taxes in comparison to gasoline engine trucks. This Bill No. 1 would bring all the trucks including the flat fees on log and dump trucks and on farm vehicles over 28,000 pounds up to parity with the 1967 one-cent gas tax (the weight mile for trucks and fees for logging trucks were not increased in 1967).

GENERAL TAX INCREASE: (Two-cent gas tax, ten-cent cubic inch displacement on new cars purchased and appropriate increase in motor carrier fees.) Bill No. 2 would take all the taxes created by the first bill and existing taxes and lifts them all up together with cost responsibility as the prime factor on the basis of a two-cent increase in gas tax and ten-cent CID tax.

VARIABLE FUEL TAX: (Combining a variable gas tax with a CID tax on new cars.) Bill No. 3 would superimpose on both truck taxes and the motor vehicle user a variable fuel tax based on the cost of living index.

Mr. Klaboe explained the three bills in detail and referred to certain pages and charts listed in the report. There was considerable discussion concerning the comparison of motor vehicle fees paid on the two and three axle farm trucks in Oregon, Washington, California and Idaho as listed on page 38 of the report. The Commission voted in favor of the proposed bills as presented by Mr. Klaboe with the exception that a flat rate tax be added as an option for the farm trucks. Commissioner Hollern abstained from voting on the first two proposals because of a possible conflict of interest.

Mr. Burco reported that he and Mr. Klaboe met yesterday with Judge Elder of Wasco County, head of the Parks and Transportation Committee of the Association of Counties. He mentioned the Judge is also Oregon's representative in the National Association Transportation Committee. Mr. Penhollow of the Association of Oregon Counties' staff was also at the meeting. There was concern that some other Counties like Multnomah are looking to the fact that the gas tax passed in their County and may be interested in proposing a new gas tax themselves. Mr. Burco said these gentlemen assured him that if there was evidence that there was support in the Legislature for substantial new taxes at the State level that the Counties would certainly be behind the Department.

Mr. Barrie updated the Commission and staff on the administrative rules and procedures for lobbying registration and reporting. He referred to ORS Chapter 171. An individual who spends more than 16 hours in a calendar quarter lobbying, excluding travel time, must register with the Ethics Commission. Under 16 hours, no registration is required. He recommended that the Commission sign the certification and designation forms independently and Mr. Burco sign the registration form for the staff employees. Persons registering in December 1976 must file an annual statement as of January 31, 1977. If one registers in 1977, the filing can wait until January 1978. It was decided that Mr. Jackson and Mr. Burco should register now and the other Commissioners and staff in January 1977.

Mr. Barrie pointed out that the expenditure reports would have to be filed monthly while the Legislature was in session if any money is spent. He indicated that he would notify the Commissioners when to file the various forms.

Mr. Burco reported that Fred Klaboe, Scott Coulter, Ed Hardt and himself attended the AASHTO National meeting recently at Birmingham, Alabama. He mentioned a special committee for this meeting prepared a variety of tax measures for consideration by all the State Transportation officials as far as becoming Federal policy about Federal financing of highways and other transportation systems. There was concern that the Federal Government is into too many programs. One approach dealing with that problem is to ask the Federal Government to get out of everything except the Interstate System and then pass back to the States something like two cents of the four-cent Federal gas tax. The wording in the proposal, however, was only if the States themselves then enact a comparable two-cent tax. He mentioned other

alternatives had to do with modal-trust funds or combined trust funds. Mr. Burco stated that he has spent some time with Senator Jason Boe, who is Vice Chairman of the National Conference of State Legislators, and exchanged information with him about the positions of several other States. He also mentioned that he had lunch with all the transportation staffs of the Oregon Congressional Delegation in Washington, D.C., and met with the transportation people on President-elect Carter's transition team to express these points of view.

Mr. Burco commented on the status of the State Transportation Plan Document. He said a lot of refinement has gone into the highway alternatives in the past few weeks. The alternatives are in the report to make points to the Legislature and the public about policy differences between the balance of the money that is used on the Interstate System or if it is the primary or secondary. He said they are in the report to show what it would cost to bring the entire system up to good condition if the money was just spent on rehabilitation.

George Bell said he is editing the document and will send it to Larry Rulien for retyping and it will be ready by the December 21st Commission meeting.

Larry Rulien mentioned that his group has been working with Mr. Coulter and staff and he didn't think that they would have any problem in mapping what is a good and reasonable representation of a recommended program consistent with the financial package for four years.

Commissioner Hollern indicated that he would like to have the document prior to the Commission meeting so he would have time to review it.

Dennis Moore reported on the Willamette Valley Passenger Rail Study. (Copies of the Summary of Findings were mailed to the Commission on December 3; copies of the Summary and the Final Report dated December 7, 1976, are on file in the Commission's files, Salem.) He said the Emergency Board initiated this study in 1976. The Emergency Board allocated \$20,000 for the study which was to address legal and economic feasibility, along with an assessment of current physical facilities and operations. This \$20,000 of General Funds was later supplemented with \$13,500 of Federal Railroad Administration Funds available for the West Coast Corridor Study. He called on David Paoli, Chief Planner of the Transit Division, to explain what has been developed.

Mr. Paoli referred to a map pointing out the three corridor options:

- a) The Southern Pacific Mainline
- b) The Oregon Electric Alternative
- c) The Interstate 5 Alternative

He covered the following items as outlined in the summary:

- a) Stations (8 station stops between Portland and Springfield)
- b) Speeds (Cruise speeds in the 70 to 100 MPH range)
- c) Vehicles
- d) Existing track usage
- e) Institutional restraints on train operation
- f) Ridership (Years 1980-1990-2000)
- g) Financial results of operation (Years 1980-1990-2000)
- h) Capital costs
- i) Funding sources
- j) Management alternatives

Mr. Moore said the report represents study findings only and no recommendations concerning "best" alternatives are given. The Commission authorized release of the report which will be presented to the 1977 Legislature.

The Chairman recessed the meeting at 12:15 p.m. for lunch and reconvened at 12:45 p.m.

Bill Sabo of Arthur Young Company commented on the various items in the tax package which the Commission approved earlier today. He mentioned that he has been working with the DOT staff discussing the tax alternatives and the technical economic aspects. He said he had examined all of the tax proposals as to impartiality of any particular group. He discussed the proposed CID tax, the weight tax and EPA ratings. He emphasized a need for adequacy in the future taxes giving consideration to what might happen in the future concerning the fuel situation or if the people buy smaller cars, can all of these taxes be adjusted to meet the total need?

Mr. Sabo indicated that they have been checking with other States on the types of taxes that they have. He mentioned the State of Hawaii adopted a ten-cent cubic inch displacement (CID) tax which is to be implemented on January 1, 1978. He commented further on an increase in the registration tax which is low in Oregon at the present time. He said this tax would have a severe effect on individuals in the lower income groups and the elderly. The use of General Funds is becoming more prevalent around the country. Mr. Sabo said his company would prepare a supportive tax alternatives document for use with the proposed tax measures.

Dean Ritchhart of Arthur Young Company reported on the manpower planning studies. He said the systems and the methods that have been used by the Department in the past (projected requirements) have been very sound. He continued by saying that their company had been asked to analyze the system and make sure it is sound but flexible for the future. He said they are analyzing the present systems for budgeting and planning. He stated that their company will be preparing a recommended manpower plan for the next couple of years which will be sent to the Legislature in support of this planning document that in essence says that the company will be recommending certain key features of the system for the Department to implement. He mentioned the report will be ready by December 21 for inclusion in the entire package.

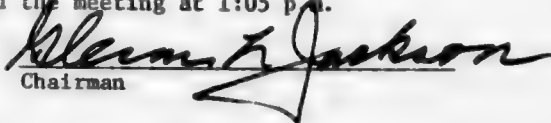

The Commission indicated that they want sufficient time to thoroughly analyze the proposed changes in these reports before they take action. The Commission decided to take action on the planning document at their January 18, 1977 meeting instead of at their December 21, 1976 meeting.

Don Streun reported that in anticipation of needing this kind of program, the Department has been developing a manpower planning capability within the staff over the past two years. He said as positions became vacant they were redefined. He commented on the establishment of an internal staff structure, the internal audit program, development of procedures for staffing requirements and organizational productivity. This program will be extended to cover all of the Divisions within the Department. The organization analysis that has gone on in the past has been documented, cataloged and can be used to fold into the organizational studies that the Arthur Young Company would be recommending. He mentioned that the training and career development program is really complex. He said it will be difficult to develop a career program for the people but the Department is working with the Executive Department and labor unions to achieve as much flexibility as possible.

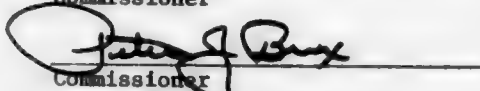

The Chairman said the Department needs to reestablish some organizational morale in terms of opportunity and the environment in which the employee works. All of these things have to be evaluated. He pointed out that the Department must still in the future be in a position to attract desirable people. He said there have been periods when it was almost impossible to hire an engineer and it will happen again. He felt when the Department asks people to come into the transportation field, it should be as attractive as possible. He said there is a need to get some stability in where the Department is going so that the people that are now working can be reassured and in our recruiting, offer something other than uncertainty which has been the byword for a year or so.

Chairman Jackson announced that Chester Ott, Administrator of Motor Vehicles, retirement dinner is to be held on Friday, January 7, 1977 in Portland.

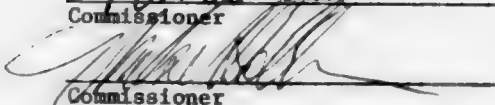

The Chairman adjourned the meeting at 1:05 p.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
December 21, 1976

December 21, 1976
Salem, Oregon

The Oregon Transportation Commission held their formal meeting at 10 a.m. in Room 122 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Jack Sollis, Assistant Chief Counsel
H. S. Coulter, State Highway Engineer
Roger Ritchey, Deputy Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Chester Ott, Administrator of Motor Vehicles
David Talbot, State Parks Superintendent
C. W. Head, Manager, Commission Services

There were other staff members present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meeting of November 23, 1976.
- 2) Resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2654" on file in Commission's files, Salem.)
- 3) Installation of a traffic signal at N.E. 27th Avenue and Lombard Streets in the City of Portland. City to pay for installation, maintenance and power.
- 4) Agreement with Clackamas County for installation of a traffic signal at the intersection of Pacific Highway East (McLoughlin Boulevard) and Park Avenue. State to pay for total cost of project estimated at \$45,000 to be charged to a Federal Title II program, Section 209. State to maintain signals and County to pay for power used.
- 5) Resolution accepting Amendment No. 1 to the Grant Offer from the Federal Aviation Administration for the Lebanon State Airport for an Airport Development Aid Program Project No. 7-41-0033-01 that increases

the total grant amount from \$249,900 to \$274,890 and authorizing Director to sign the resolution. ("Aeronautics Miscellaneous Resolution No. 1A" on file in Commission's files, Salem.)

- 6) Request from the City of Baker to cancel a street improvement project on two Urban System Routes. (Oak Street-Birch Street Section of Auburn Avenue and Balm Street-Birch Street Section of Washington Avenue.)
- 7) Increases in project authorizations on the following contracts:
 - a. Contract No. 8246, Bellevue St.-Mission St. (Salem) Section, FAU 1555 (12th and 13th Streets), Marion County, in the amount of \$38,484.85. (Ross Bros. Construction, Inc.)
 - b. Contract No. 8444, Beaverton Interchange, Beaverton-Tigard Highway, Washington County, in the amount of \$18,205.50. (Harmony Gardens, Inc.)
 - c. Contract No. 8311, Cabin Creek Safety Rest Area, Pacific Highway, Douglas County, in the amount of \$34,516.28. (Kelly F. White Co.)
- 8) Route description for ORE99W in Portland as follows: (Multnomah County)
 - a. Over the Pacific Highway West from its junction with the Pacific Highway (I-5) near the north city limits of Tigard, southerly via Tigard, Newberg, McMinnville and Corvallis to its junction with the Albany-Junction City Highway (ORE99E) at Junction City (common with US20 and ORE34 for a short section in Corvallis).

Route description of ORE10 to provide route continuity as follows:

- a. Over the Beaverton-Hillsdale Highway from its junction with the Tualatin Valley Highway (ORE8) in Beaverton, easterly via Hillsdale to its junction with the Pacific Highway West in Portland; thence northerly over the Pacific Highway West to its junction with the Mt. Hood Highway (US26) in Portland.
- 9) Revised CRAG Unified Work Program for fiscal year 1976-77 for transportation planning in the CRAG region (Clackamas, Multnomah and Washington Counties), agreeing to provide up to \$9,350 in additional match.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| Right of Way Engineer and Assistant | Exhibit C |
| Chief Counsel | Exhibit D |

DIRECTOR'S REPORT

Mr. Burco announced that the policy document was circulated to other State agencies since the November Commission meeting, and the Department has received some input from some of these agencies. He said that Dick Howsley of the Rogue Valley Council of Governments wishes to comment on the document but is unable to be at the meeting until later this morning. There are some individuals from State agencies in Salem that are present and would like to speak. Mr. Burco suggested that no action be taken on this matter until everyone who wishes to speak has had an opportunity to do so.

Mr. Ed Hardt reported that 3 of the 19 policies have been modified and one deleted as requested by the Commission at their November meeting. He said after discussion with the State Police and Traffic Safety Commission, it is proposed to add one policy relating to transportation safety. This policy statement is now being written and will be available later. He mentioned the Intergovernmental Relations Division and the Land Conservation and Development Commission were concerned about land use planning and how it fits into the transportation plan. These agencies found out that the policy the Department prepared did not recognize the role of State Transportation planning and the mandate in Senate Bill 100. Mr. Hardt read the revised policy. He said the Land Conservation and Development Commission asked the Department to emphasize in its action statement a development of a memorandum of understanding between the Department and theirs which is now being prepared. He mentioned that the Department of Human Resources suggested that the Department of Transportation emphasize in one of its State Park policies that it will provide adequate attention to the elimination of architectural barriers in the State Park facilities. He indicated this is also being done.

Mr. Mike Burton, Acting Administrator of Intergovernmental Relations, said that his Division reviewed the preliminary proposed Transportation Commission policies and indicated that they support the efforts of the Commission to adopt the Commission's policies. He mentioned that they have met with DOT staff and have viewed their concerns. He asked that more emphasis be given on coordination on DOT plans and local planning. All governments must know what facilities DOT plans along with planning and location in order to do effective planning. He said DOT should stress creation of criteria for distributing money and projects so all governments will have the ability to identify how and why decisions have been made.

He mentioned that individual communities lack the overall view to coordinate rail, bus, air and other services. He asked for a 45-60 day delay in adopting the policies to allow for local review.

Mr. Burton said his Division recommends adoption only on an interim basis of the plan until the Transportation Commission's meeting in January. In the interim period, he stated his Division will work with the League of Oregon Cities, Association of Oregon Counties and Council of Governments to try to obtain local comment on the policies and make these comments available to the Commission prior to final adoption.

Chairman Jackson informed Mr. Burton that if the Inter-governmental Relations Division will take the responsibility for circulation and exposure to the subdivisions of government, the Commission will delay action on the policy document.

Mr. John Gustafson, Deputy Director of the Land Conservation and Development Commission, mentioned their greatest concern was a policy on community impact of transportation. He indicated support of the revised draft of this policy which they recently received. Mr. Gustafson said that they hope there will be an opportunity for agencies of governments to review final drafts before final adoption. He suggested that a schedule be developed so the two Commissions can meet and discuss mutual areas of interest.

Mr. George Bell reported on the second draft of "The Decade Ahead" which covers the program alternatives for the Department of Transportation. (Copies presented to the Commission and a copy is on file in the Commission's files, Salem.) He said that most of the editing is completed and the document will soon be completed. Additional charts and tables will be added and there will be a letter of transmittal and at the end of the document several pages will be added looking to the future. He reviewed the various chapters in the draft covering all divisions within the Department. Mr. Bell stated that Chapter 3 covers the program that each of the Divisions is recommending to the next Legislature. He indicated that the report has a balance to it and it moves in a logical progressive way.

Mr. Larry Rulien reported on the recommended program element on the plan and referred to page 2-11, Summary of Expenditures By Response (1 through 6). He pointed out that there has been considerable amount of work in trying to make a determination on what an appropriate responsible pavement preservation program should be. The miles in the pavement preservation have been revised downward to reflect the best judgment of the most expert people in DOT as to what the Department should really be tending to proposed overlays on Response No. 6 to still have a good program for pavement maintenance. Mr. Rulien presented to the Commission a map of the state entitled Functional Highway Classification Based on Future Usage (5 to 10 years) relating to the pavement overlay program. He also handed to the Commission two packets of maps showing operational preservation program, spot improved projects, structure preservation program and bridge replacement and betterment by counties. (Copies on file in the Commission's files, Salem.)

Mr. Coulter mentioned that the recommended program for a four-year time frame draft isn't ready at this time. It will be displayed in a form similar to the material that Larry Rulien has just presented. He commented on Chapter 3 of the document relating to highways.

The Chairman inquired if the State of Washington had cleared up their problem relating to I-82. Mr. Klaboe replied that Washington has cleared it up. He mentioned that Mr. Bulley, Director of Highways in Washington, recently asked when Oregon is going to proceed on I-82.

The Commission decided to hold a work session on Friday, January 7, 1977, at 2:30 p.m. in Room 108, State Office Building, in Portland to discuss the plan, "The Decade Ahead."

Mr. Burco mentioned that he had met with Mr. Bill Penhollow of the Association of Oregon Counties and several other leaders among the county engineers of the State and they indicated an interest in doing a similar planning study as the Department of Transportation. Mr. Penhollow was present and said that following the Commission's November meeting that he generated a lot of interest in developing information along with the Department of Transportation information for presentation to the Legislature and the public identifying the degree of need of road improvement at the state and county level. He mentioned that they have been working with the county engineers and roadmasters in trying to develop a plan. Mr. Penhollow asked for the Department's assistance and cooperation, its expertise and knowledge of developing a study.

Chairman Jackson commented that the counties, cities and the state are in the same situation. At the legislative level and as a result of the last election there was not a coordinated approach in trying to point out these projected needs. The needs are not apparent when one drives the city, county and state highways. He pointed out that this is an educational job, and must get the public to realize these needs.

Mr. Max Klotz presented to the Commission a folder containing a summary of the three proposed legislative bills. (Copies on file in the Commission's files, Salem.) He said one additional bill has been added which would give the State Police and Highway Weighmasters authority to stop the drivers of vehicles to warn them that their load appears to be in danger of falling off onto the highway which would create a hazard to the traveling public. Under the present law these vehicles cannot be stopped until the load has actually fallen on the highway.

Mr. Klaboe commented on the elimination of the seasonal permit operation for agriculture commodity carriers which is a part of House Bill 2142.

The Commission set Tuesday, January 18, 1977, for their next regular meeting.

Mr. Klaboe reported on the Federal Economic Stimulation Bill. He mentioned that the State of Oregon submitted 586 applications for funding under this Bill totaling \$460,000,000. The Department of Transportation submitted applications for 48 highway projects for \$55,000,000, 7 park projects for \$1.2 million and 5 airport projects for a little over \$800,000. The entire State has been granted \$29,000,000. He pointed out the applications are now in the Federal Computer System and a decision will be published in the Federal Register tomorrow, December 22nd.

The Commission considered the acceptance of a settlement of a law suit filed against the Department concerning the Donald Drake-Willamette Western Contract Nos. 7310, 7311 and 7312, East Fremont Interchange, Stadium Freeway, Multnomah County. Mr. Coulter said the contractor claims damages arising out of corrective work as the result of an apparent failure of the paint system to adequately protect the bridge and for resultant delays. He said the State's legal counsel decided that because of the complexities of the project and the State's liability for portions of the contractor's allegations, the State would likely be held liable in court for damages incurred by the contractor. As a result of extensive reviews of all records and negotiations in which Attorney General Lee Johnson participated, a settlement in the amount of \$791,000 was agreed to. The Federal Highway Administration has concurred and they will participate in this settlement. Following his favorable recommendation, the Commission approved the settlement.

Chairman Jackson presented 40-year service award pins to the following employees in the Highway Division: Willard Scofield, Senior Resident Engineer; Gail A. Williamson, Office Manager, Equipment Headquarters; and Arnold Kahler, Payroll Supervisor. The Chairman thanked the employees for their dedication and long terms of service.

Consideration was given to the adoption of a permanent administrative rule amending the rule on Uniform Traffic Control Devices for Streets and Highways covering minimum standards for signing of maintenance operations on State highways. Mr. Coulter pointed out that a hearing was held on November 15, 1976, and no objections were received. This matter was also discussed with the County and City Officials organizations and the Federal Highway Administration, and there were no objections. Following his recommendation, the Commission adopted the rule. (Copy of rule filed with the Secretary of State on December 27, 1976, and published in his Bulletin on January 15, 1977.)

Mr. Coulter presented to the Commission a second place award plaque for highway litter-prevention programs sponsored cooperatively by the Federal Highway Administration and Keep America Beautiful, Inc.

Attention was given to a request from Robert L. Chars to place a mobile home on Lot 200, Section 11, Township 35 South,

Range 7 West, within the Rogue River Scenic Waterway in Josephine County. Mr. Talbot mentioned that placement of a mobile home on this site would be in direct conflict with the Commission's rules and regulations regarding this area. The Commission denied Mr. Chars' request as recommended by Mr. Talbot.

Mr. Moore reported that his Division has been notified of the availability of \$2.2 million nationally from the Urban Mass Transportation Administration (UMTA) for fiscal year 1977 for a transit planning, training and management assistance program on a one-year discretionary basis. He said a letter of intent was sent to apply for \$58,278 of these funds. If UMTA finds the initial ideas satisfactory, Mr. Moore said he will request Commission's authority to apply by means of the regular grant application process. (Letter of intent contained five elements. See Mr. Moore's letter of December 4, 1976, to the Commission for further information.)

Mr. Moore said that the Department has just been advised of direct availability and actual allocation of \$12,000 from the Energy Department to do a Vanpool Study and a Special Events Transportation Study. He indicated that his Division will proceed on these two items.

Chairman Jackson announced that this is Chester Ott's last Commission meeting as he will be retiring the end of December. The Chairman complimented Mr. Ott for his excellent work as the Administrator of the Motor Vehicles Division.

Dick Howsley, Director of the Rogue Valley Council of Governments, called attention to two goals of the policy document. First, provide for a participatory transportation planning process which is sensitive to the public, the private sector and all levels of government. Second, to insure timely and meaningful involvement from other units of government and the public in the planning and development of facilities and services. He said that they had not been provided a copy of this policy document and it is useful for their group to have some input and comment on the policies of the Commission. Mr. Howsley read a letter from the Rogue Valley Council of Governments Board of Directors dated December 20, 1976, expressing their concern on the proposed staff Department of Transportation policy "Community Impact of Transportation". The letter also proposed the following policy statement: (Letter on file in the Commission's files, Salem.)

PROPOSED POLICY CHANGE

The Department will work with local agencies in the preparation of land use plans in order to coordinate transportation and land use planning and, thereby, minimize undesirable social, economic and environmental impacts of transportation facilities. Completed land use plans by local units of government which have been acknowledged by LCDC will be observed by the Department. (Consistent with its resources and statewide responsibilities. This is a proposed Department Staff rider for the above policy. However, it would have the effect of a contradiction to the policy statement.)

Chairman Jackson informed Mr. Howsley that the Inter-governmental Relations Division has taken the responsibility to circulate the policy document to the local jurisdictions, councils of government, etc., to get some input prior to the Commission's January meeting.

Chairman Jackson recessed the meeting at 11:40 a.m. for lunch. (The Commission and staff had lunch in the Blue Room of the State Capitol with Lloyd Anderson and staff, Port of Portland.)

PUBLIC COMMENTS

Mr. John McIntyre, Director of Public Works, Clackamas County; Alfred Simonson, City Manager of Oregon City; Representative Roger Martin and Senator Richard G. Groener appeared before the Commission concerning highway improvements in Clackamas County. Mr. McIntyre mentioned that they wish to discuss the Oregon City Bypass, Oswego-Succor Creek Bridge, Highway 212 (Clackamas Highway) and the Goods Bridge on Highway 170. He recalled that the Kerr Road in Clackamas County was one of the highest priority projects and that FAUS Funds were set aside for this road, however, Clackamas County has had problems getting the environmental impact statement completed.

Mr. McIntyre mentioned that the County met recently with Multnomah County, outlined their program and asked that they join with Clackamas County and the City of Lake Oswego in drafting a letter to CRAG requesting the transfer of those funds from the Kerr Road to the Oswego-Succor Creek Bridge. Multnomah County and Lake Oswego have agreed to do this, however Multnomah County has placed a stipulation on this transfer that they do not want to commit to a project that is going to cost in excess of \$1.9 million which is the amount previously allocated to Kerr Road. He indicated that the bridge could be constructed for \$1.9 million and he could see no reason why CRAG would object as they originally allocated the money to Multnomah and Clackamas Counties. He asked the Commission to provide funding (match monies) for the Oswego-Succor Creek Bridge.

Representative Roger Martin stated that this was his third appearance before the Commission concerning this bridge. He pointed out that the bridge is very narrow and antiquated. He presented two photographs of the bridge which show dangerous traffic conditions that exist. (Photographs on file in the Commission's files, Salem.) He mentioned in 1968 a Lake Oswego Bypass was discussed but was shelved because of a high price tag. Representative Martin indicated the Lake Oswego Chamber of Commerce is behind the project and also the Mayor-elect of Lake Oswego.

Chairman Jackson stated that it was unfortunate that this was changed to urban highway classification. He said the Department will take a good look at this project especially from the viewpoint of support at the CRAG level.

Mr. McIntyre reviewed the history of the Oregon City Bypass. He said CRAG is now looking at taking the two projects which were previously approved for State Bond Funds (Powell Boulevard and 72nd Avenue-217 Interchange), and funding those with the Mt. Hood Withdrawal Funds and use the excess and the bond funds as match. This would give about \$1.5 million that could be used for the Oregon City Bypass. Mr. McIntyre mentioned that CRAG has adopted a policy that the preliminary engineering should not be funded using State Bond Funds as the match. He was hopeful that the Department would join Clackamas County and Oregon City in putting up the match. He indicated that the County is willing to assist in putting up the match for the preliminary engineering figure of \$200,000.

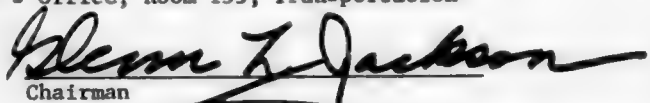

Senator Groener said that traffic congestion on the Oregon City Hill is very heavy. One of the most rapidly developing areas in the State is out the Molalla Highway-Beaver Creek. He said the traffic from that area funnels into Oregon City and north into the metropolitan area which creates a real bottleneck. The Senator felt that the Oregon City Bypass is a much needed project.

Mr. McIntyre commented on the Highway 212 Project. He said the County supports the scaled-down concept that is now being advocated and is asking for the State to restore the match funds which it had there previously. Mr. McIntyre asked that the State consider the transfer of approximately seven miles of the State highway system into Clackamas County (Highway 170) from Canby south to the Marquam Highway in return for Highway 212 that is now signed from I-205 through Damascus and Boring to Highway 26.

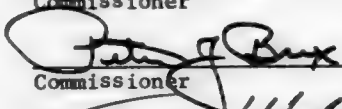

Chairman Jackson said the Commission will support these projects at the CRAG level and will look at the funding which will depend on the outcome of the action by the next Legislature.

The Chairman adjourned the meeting at 2:20 p.m.

The Commission held a work session on manpower planning and financial analysis in Mr. Burco's office, Room 135, Transportation Building.

SUBJECT: Report of Actions Taken Under Delegated Authority

(1) Options or Other Documents Relating to Property Acquisition

| <u>Number</u> | <u>Name</u> | <u>Consideration</u> |
|---------------|--------------------------------|----------------------|
| 48749 | Harper, Melvin C. & Pearl E. | \$ 14,400.00 |
| 48842 | Sawyers, Ralph A. & Donna R. | 350.00 |
| 49240 | City of Burns (Cemetery) | 300.00 |
| 49339 | Thomson, Walter G. & Minnie J. | 9,000.00 |
| | 4 Transactions | <u>\$ 24,050.00</u> |

(2) Master Crossing Agreement with the United States Bureau of Reclamation covering the Klamath Project in Southern Klamath County for providing basic guidelines for the crossing of each others facilities. Mr. Coulter to sign the agreement. Misc. C & A 5943.

(3) Supplemental agreement to the existing agreement between the Highway Division, the Travel Information Council and Travel InfoCentres of Oregon. The agreement provides for a slight change in the method of payment by InfoCentres to the Travel Information Council. It provides that the payment shall be 5% of the first \$500,000 and then 10% of the next \$500,000 and then 15% over \$1,000,000. The original contract was somewhat ambiguous in reference to these particular provisions and therefore this clarification was made. (Legal Department)

(4) Agreement with Public Utility Commissioner covering use of land, construction and maintenance of Farewell Bend (Ontario) Port of Entry on the Old Oregon Trail in Malheur County. (Permit Section)

(5) Letter-form agreement with Deschutes County for improvement of The Dalles-California Highway at N. W. Davidson Road. This project is eligible for 90% Federal Aid funding under Section 209 of Title II, Highway Safety Act of 1973. Total estimated cost for the work is \$20,000. The County and State will each provide 5% (\$1,000) of the 10% (\$2,000) matching funds. (County-City Unit)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approve all actions listed above and report this for your official records.

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On November 10, 1976, approved a supplemental throughway agreement with Multnomah County covering construction and maintenance along the remaining portion of I-205 (Columbia River-Foster Road Section, East Portland Freeway, Multnomah County). This fulfills the agreement requirements for construction from Foster Road to the Columbia River.

Dated this 17 day of Nov, 1976.

12-21-76

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following items and report this action for your official records:

- 1) Agreement with City of Corvallis covering acquisition of approximately 85 acres north of and adjacent to Willamette Park which is in the extreme southeast corner of the City of Corvallis in connection with the Willamette River Greenway. Federal funds \$56,875. State funds \$28,687. City funds \$28,188. Approved November 24, 1976.
- 2) Agreement with Polk County to furnish plans and specifications for all bridges and culverts without cost to County in connection with the Economic Development Administration Public Works Grant. Approved on October 29, 1976.
- 3) Prohibited parking on south side of the 24th Avenue Frontage Road to the Pacific Highway from Henderson Avenue (M.P. F191.68) to a point 150 feet west of Henderson Avenue (M.P. F191.71) in Lane County. Approved November 30, 1976.
- 4) Approved the installation of a "YIELD" sign (R1-2) and a "YIELD AHEAD" sign (W3-2) on the northbound offramp of I-5 at the North Shady Interchange (Highway 1, M.P. 120.50) with the Oakland-Shady Highway (Highway 234, M.P. 20.76) in Douglas County. Approved November 30, 1976.
- 5) Approved the installation of sign entitled "U-TURN PERMITTED" at the intersection of the Beaverton-Tigard Highway at Bangy Road in Clackamas County when the intersection is signalized. Approved December 6, 1976.
- 6) Prohibited parking on the south side of the Alsea Highway in Benton County from a point 300 feet west of Third Street (M.P. 39.90) to Third Street (M.P. 39.96). Approved December 10, 1976.

B

12-21-76

- 7) Adopted as a permanent administrative rule on December 9, 1976, the following:

The State Highway Engineer may, in his discretion, designate specific signalized intersections in which U-turns shall be permitted if the following criteria are met:

- a. The turning radii are adequate.
- b. The signal operation consists of three or more phases.
- c. A turning movement is possible with a reasonable degree of safety.
- d. A traffic engineering investigation shows a need for the U-turn movement.

(This rule was adopted as a temporary rule by H. S. Coulter, State Highway Engineer, on September 3, 1976.)

- 8) On November 26, 1976, awarded Contract No. 8454 to Horton Bros., Inc., Brookings, at \$84,840.75 for a utility building in Harris Beach State Park in Curry County. Bids received November 18, 1976.
- 9) On November 16, 1976, awarded Contract No. 8446 to M. C. Lininger & Sons, Inc., Medford, at \$234,150 for work on the South Unit, Forest Boundary-Colahan Road Section of Squaw Flat Road in Klamath County. Bids received October 21, 1976.

H. S. Coulter, State Highway Engineer
Dated this 13th day of December, 1976

C

December 1976

12-21-76

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Right of Way Engineer (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Right of Way Services Agreement with the City of Lake Oswego in acquiring right of way for the S.W. Madrona Street-S.W. Jean Road Section of S.W. Lower Boones Ferry Road in Clackamas County. Approved October 20, 1976. Misc. C & A 5953. (16-69).
- (2) Sale of 9,327 square feet excess property on the LaGrande-I-80N Section of the Wallowa Lake Highway in Union County for a minimum consideration of \$22,250.00. Approved November 24, 1976. Files 46853 and 46854. (16-43).
- (3) Sale of 3,088 square feet excess property on the LaGrande-I-80N Section of the Wallowa Lake Highway in Union County for a minimum consideration of \$2,500.00. Approved November 26, 1976. File 46850. (16-43).
- (4) Service Contract with the Southern Pacific Transportation Company for installation of grade crossing protection devices at S.W. 170th Avenue at Huber in Washington County. Approved November 26, 1976. Agreement RR 854. (16-12).
- (5) Termination Agreement with the Union Pacific Railroad Company covering a haulroad crossing at Cascade Locks in Hood River County. Approved November 26, 1976. Agreement RR 358. (16-12).
- (6) Right of Way Services Agreement with the Port of St. Helens in connection with the expansion of the Scappoose Airport in Columbia County. Approved November 29, 1976. Misc C & A 5954. (16-69).
- (7) Sale of 3.45 acres excess property for a minimum consideration of \$20,700.00, plus even exchange of 0.52 acre parcel of equal value, on the Wilsonville Interchange Section of the Pacific Highway in Clackamas County to the City of Wilsonville. Approved November 29, 1976. Files 22382 and 22383. (16-43).
- (8) Sale of 3.56 acres excess property on the Silver Lake-Chalk Cliff Section of the Fremont Highway in Lake County for a minimum consideration of \$275.00. Approved November 30, 1976. File 6780. (16-43).

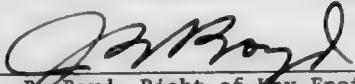

December 1976

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Assistant Right of Way Engineer in the absence of the Right of Way Engineer (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Sale of 9.03 acres excess property on the Oakridge Section of the Willamette Highway in Lane County for a minimum consideration of \$16,500.00 to the City of Oakridge in exchange for 4.53 acres City property valued at \$16,400.00 and needed for a maintenance site. Approved November 19, 1976. Files 10665, 11701, 49401. (16-43).
- (2) Sale of 0.62 acre excess property on the Goshen-Divide Section of the Pacific Highway in Lane County for a minimum consideration of \$3,500.00, which is one half of the appraised value, to the City of Cottage Grove. Subject to highway related use only. Approved December 7, 1976. File 21427. (16-43).
- (3) Release of slope easement, except rights in and to lateral support of adjoining highway, to Time Oil Company, on the Toledo Section of the Corvallis-Newport Highway in Lincoln County. Approved December 10, 1976. File 36782. (16-43).

Dated this 14 day of December 1976

John R. Oakes, Assistant Right of Way
Engineer

TO: Oregon Transportation Commission
SUBJECT: Report of Actions Taken Under Delegated Authority

C
12-21-76

Under delegated authority from the Oregon Transportation Commission authorizing the making of formal offers to purchase real property in preparation for condemnation (Delegation Order No. 16; Sub. 46), subdelegated to the Assistant Right of Way Engineer in the absence of the Right of Way Engineer (Administrative Order No. 18). I approved making the following offers in accordance with this authority for and on behalf of the Commission:

DOUGHERTY SLOUGH-TILLAMOOK SECTION, OREGON COAST HIGHWAY -
TILLAMOOK COUNTY

R-49296 - Roy H. Peterson et ux. 350 square feet for right of way purposes including its use for a connection to Hadley Road. Offer \$350.00.

GRANTS PASS-NEW HOPE ROAD SECTION, JACKSONVILLE HIGHWAY - JOSEPHINE
COUNTY

R-40493 - Lyle G. Haley et al. 0.05 acre for right of way purposes. Offer \$2,000.00.

HERMISTON-STANFIELD JUNCTION SECTION, UMATILLA-STANFIELD HIGHWAY -
UMATILLA COUNTY

R-49119 - John Whitesell. 0.68 acre for right of way purposes. Offer \$2,725.00.

R-49120 - Roger S. Bounds. 0.98 acre for right of way purposes. Offer \$5,000.00.

JUNCTION CITY-AIRPORT ROAD SECTION, PACIFIC WEST HIGHWAY - LANE
COUNTY

R-48415 - Charles O. Jennings et al. 1.9 acre for right of way purposes. Offer \$3,500.00.

TYGH VALLEY STATE WAYSIDE

R-47652 - Kenneth C. Webb et al. 10.0 acres for parks. Offer \$13,500.00.

WARREN-SCAPPOOSE SECTION, COLUMBIA RIVER HIGHWAY - COLUMBIA
COUNTY

R-48779 - Stanley C. Wagner. 1.0 acre for right of way purposes including its use for a connection to Slavens Road. Offer \$2,475.00.

Dated this 21st day of October 1976.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7408 Charlene K. Dawell v. Joan Monica Howe and State: This lawsuit arises out of an accident that occurred on October 5, 1975, in which the plaintiff was a paying passenger in a vehicle operated by the defendant Joan Monica Howe. The car left the main-traveled portion of the highway which was under construction and overturned. Alleged negligence of the State is the failing to post warning signs on the highway, failing to place fog lines or other lane markers on the road surface, failure to properly supervise the work of the contractor, failing to inspect the area under construction and failing to correct existing hazardous conditions. That matter has been referred to the Attorney General's office for the defense of the State. (Multnomah County)

L-7409 State of Oregon v. Safeway Stores, Inc.: This is an injunction proceeding which was filed in Clackamas County to enjoin Safeway from paving a portion of State-owned surplus property. At the preliminary hearing the court refused our injunction and allowed Safeway to proceed. The court required Safeway to post a \$5,000 bond to insure that the paving would be removed if our title is sustained. Our title to the disputed area will be determined in Poe and Jamison v. State of Oregon, L-7369. That case will be tried in January or February of 1977.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION WORKSHOP MEETING
held on
January 7, 1977

January 7, 1977
Portland, Oregon

The Oregon Transportation Commission held a workshop at 2:30 p.m. in Room 108 of the Portland State Office Building. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
H. S. Coulter, State Highway Engineer
L. W. Rulien, Program Management and Scheduling Engineer
Ed Hardt, Special Assistant for Transportation Policy
Research and Special Studies
Max Klotz, Special Assistant for Intergovernmental
Affairs
C. W. Head, Manager, Commission Services

There were others present including DOT staff members and a representative from the news media.

Mr. Burco presented to the Commission two draft reports by Arthur Young & Company on manpower planning and financial analysis for their review. (Copies on file in the Commission's files, Salem.) He said a third report on detailed manpower will be available in about a week.

Mr. Burco reported that the first part of next week there will be a recommendation by the Legislative Fiscal Office that the Legislature experiment with two agencies of the State for zero base budgeting. It was his understanding that the two agencies will be the Department of Transportation and a teaching hospital in Portland. Mr. Burco said that he would forward this report to the Commission just as soon as it is available.

Mr. Ed. Hardt mentioned the Intergovernmental Relations Division has mailed the policy document to all the COG's and to various cities. He said they will be collecting these responses and returning them to the Department.

Mr. Burco mentioned that he is pleased with the analysis of the six levels of the highway program that was developed. He did indicate that the document does need additional internal work on the wording and organization. He said the staff would go back and work on the document and have it ready for the February Commission meeting.

Mr. Rulien distributed to the Commission copies of a "Summary of Expenditures by Response During the 1977-1987 Decade". (Copy on file in the Commission's files, Salem.)

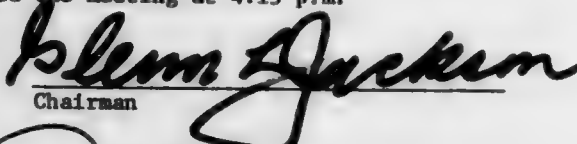

Mr. Coulter commented on the four-year recommended highway program. There was considerable discussion concerning the program, proposed projects and the various responses.

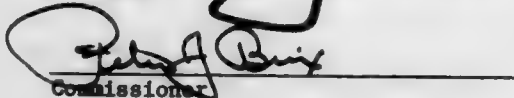

The Commission indicated that they want the program prepared and presented in a manner that everyone can understand. Mr. Burco said that the staff is ready to make other analysis upon request from the Legislature.

Chairman Jackson asked if everyone understood that the Department is now going to a practical approach to its problem on the basis of the four year program working toward Response 5.

Mr. Len Bergstein of the Governor's staff was present and handed to the Commission an outline of the Governor's Legislative Program. (Copy on file in the Commission's files, Salem.) He said the Legislators are waiting to see who will be on Ways and Means and the various committees. He indicated that the Governor would like to continue to meet with the Commission at lunch and the Governor's Office is very excited about the work that the Commission is doing. Mr. Bergstein informed the Commission that when they are in the Capitol Building to feel free to stop by his office.

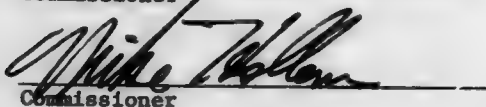

The Chairman adjourned the meeting at 4:15 p.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
January 18, 1977

January 18, 1977

Salem, Oregon

The Oregon Transportation Commission held their formal meeting at 10 a.m. in Room 122 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
Paul E. Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harold Grover, Administrator of Motor Vehicles
David Talbot, State Parks Superintendent
Max Klotz, Special Assistant for Intergovernmental Affairs
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Klotz:

- 1) Minutes of the workshop of December 8 and the meeting of December 21, 1976.
- 2) Resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2655" is on file in the Commission's files, Salem.)
- 3) Two requests for projects under the Special Bridge Replacement Program as follows:
 - a. City of La Grande, 2nd Street Viaduct; total cost \$57,000; Federal Funds \$42,750; City's share \$14,250.
 - b. City of Klamath Falls, "A" Canal Bridge; total cost \$7,000; Federal Funds \$5,250; City's share \$1,750.

(Granted authority to enter into project agreements following negotiations.)

- 4) Resolution transferring approximately 1,600 feet of frontage road (Park Street-Watkins Avenue Section) along the Pacific Highway West in Tigard to the City. City has requested this frontage road for city street purposes. ("Abandonment Resolution No. 560" on file in the Commission's files, Salem.)
- 5) Resolution transferring the old alignment in the Elk River-Port Orford Section on the Oregon Coast Highway to Curry County and the City of Port Orford. (Approximately 1.25 mile of old alignment will be transferred to the County along with a new connection between the old and new alignment. Approximately .2 mile will be transferred to the City including a new connection with the new alignment.) ("Abandonment Resolution No. 543" on file in the Commission's files, Salem.)
- 6) Agreement with the City of Roseburg for the City to borrow two buses owned by the Mass Transit Division. Agreement provides for a 3-month lending period with renewable options, provisions for maintenance, storage, insurance, etc.
- 7) Policy for State Bicycle Fund Expenditure as follows:

After necessary expenditures for salaries and other administrative costs including expenses of the Advisory Committee on Bicycles, the moneys identified under ORS 366.514 for the footpath and bicycle trail program shall be expended under the following system of priorities:

First priority shall be given to the construction of bikeway projects in compliance with the provisions of ORS 366.514.

Second priority shall be given to adequate maintenance of those existing bikeways for which the State is responsible.

Third priority shall be given to the construction of independent bikeway projects on state-owned right-of-way.

Fourth priority shall be given to the financial assistance of other governmental agency bikeway projects.

The current Transportation Commission policy for 50 percent financial assistance to local governmental agencies for the development of comprehensive bicycle route planning shall remain unchanged.

Mr. Klotz mentioned that Mr. Coulter had sent to the Commission an informational report concerning the Public Works Employment Act. The report stated that under Title I of the Act, \$925,709 had been allocated to the Department for an overlay project on the Hide Creek-Philomath Section of the Alsea Highway in Benton County.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Ed Hardt stated that written comments have been received concerning the policy document from Umpqua Regional Council of Governments, Clatsop and Tillamook Intergovernmental Council, the Oregon Association of Railway Passengers, Lane Council of Governments, Cities of Central Point and Salem and the Mid-Columbia Economic Development District. He mentioned the policies were presented yesterday to the Joint Transportation Committee of the Association of Oregon Counties and the League of Oregon Cities. Mr. Hardt indicated that most of the comments were in the form of questions as to how the policies of the Commission are going to affect the local governmental operations. There were no objections to any of the policies. He said the local governments want to become more actively involved in the planning process and several groups expressed a desire to become more directly involved in the project selection process especially with respect to the Highway Division. Mr. Hardt commented on some of the significant changes as a result of the policy review as follows:

Page 11 (policy concerning deterioration of facilities and services). Adding to an action statement "in concert with local officials" that local officials will work with the staff in the process of taking local roads off the highway system.

Page 15 adding an action statement in the area of the needs of local government and their concerns for project selection. "Emphasize participation by local officials in the development of the Department's policies, programs and plans which may affect their jurisdictions."

Page 23 changing a statement regarding energy conservation strategies not to limit those strategies to vanpooling and carpooling.

Adding a policy on transportation safety. (Mr. Hardt read the policy.)

Page 40 (policy on parks and recreation). Adding a background statement that says that part of the development of the Parks program will be based on the LCDC Statewide goals and guidelines.

Page 42 adding to an action statement that the work will be done in cooperation with local government.

Page 27 adding an action statement in the area of community impacts of transportation services to support an amendment to ORS 197.300 to permit State agencies to petition for review of actions concerning a local government plan which conflicts with a State agency plan.

Mr. Bill Penhollow, Association of Oregon Counties, commented briefly on the second city-county meeting. He said the group generally supported and commended the Commission for setting forth these policies in written form. He mentioned that their group is interested in trying to develop a process which they can gain greater involvement in the decisions that the Department is developing.

Mr. Penhollow suggested that the Transportation Commission establish a local government advisory committee to meet with the Commission's staff to deal with policy matters that have an impact on local governments.

Mr. Michael Burton, Intergovernmental Relations Division, stated the local governments recognize the need to have statewide plans that are drawn up in the context of the State's ability to meet goals and requirements for a statewide transportation system. Mr. Burton also recommended the establishment of an advisory committee to the Transportation Commission to help jointly meet some of those needs. He urged the Commission and the DOT staff to actively seek the input of local governments. He expressed his appreciation to Mr. Burco and staff for the excellent cooperation that they gave to his Division during the past month.

Chairman Jackson pointed out that the policy program has been going on in varying degrees for a number of years. In the past he said the Department was dealing almost entirely with construction measures and now it is dealing with a scarcity of funds that enables it to meet the needs of the traveling public in all areas. He said the Department is looking at the need for closer cooperation in trying to solve these problems more than it ever did in the course of transportation history of the State.

Following Mr. Burco's recommendation, Commissioner Walsh moved that the policy document be adopted for submission to the State Legislature. Commissioner Hollern seconded the motion. The Commission unanimously adopted the policy document.

Mr. Larry Rulien handed to the Commission copies of the "Transportation in Transition Planning Overview". (Document contains part of the formerly entitled "The Decade Ahead".) (Copy on file in the Commission's files, Salem.) He said the document is organized into three sections which contains general planning information, the highway system, definitions, needs and programs and a summary of environmental concerns. The intent of the use of the document, which contains considerable basic data and information, would be a resource in dealing with the Legislative subcommittees and others.

Mr. Rulien said the staff is continuing to work on the companion document "Transportation in Transition A Look Ahead" incorporating the changes previously directed by the Commission and will have it completed in time for the Commission to take action at its February meeting.

Mr. Burco reported that he and Mr. Burket will begin a backgrounding process for the House Transportation Committee this afternoon. He said the committee will also tour the Motor Vehicles Division today. On January 20 and February 1 there will be hearings with the Senate and House Transportation Committees. He mentioned the House Committee has inquired about a tour to see the deteriorating pavements, bridges and aviation matters.

Mr. Don Streun reported on the Governor's program which was implemented in 1976 for improving the effectiveness of management in State government. He said the committees were formed and the Governor will most likely introduce legislation to carry out the recommendations of these committees. Mr. Streun indicated that management development and collective bargaining would be included in the Governor's package. He commented on numerous other items that will be considered by the Legislature.

The Commission set Tuesday, February 15, 1977, for their next regular meeting.

The Commission considered adding the South Umpqua River Overflow Channel Project on the Coos Bay-Roseburg Highway in Douglas County to the Six Year Construction Program in the fiscal year 1977. Mr. Klaboe said during the construction of this project the State was unsuccessful in accomplishing some necessary work on the overflow channel of the South Umpqua River near Winston by extra work. The total estimated cost for the right of way and construction is \$50,000. Upon his favorable recommendation, the Commission approved adding this Federal Aid Primary Project to the Six Year Construction Program.

The Chairman inquired about the backlog of traffic signals in the critical areas throughout the State. Mr. Coulter indicated that a preliminary review has been made and he was waiting for a better definition of the manpower-type resources that would be necessary to undertake. He said he would look into the possibility of the local units of government participating in the cost of traffic signal improvements.

Mr. Walt Hart reported to the Commission on the construction method and procedure of the proposed Interstate 205 Columbia River Bridge between Clark County, Washington and Multnomah County, Oregon. Charts were displayed of the project and slides were shown of the bridge corridor. Mr. Hart described the project as follows:

The first contract will consist of 17 river piers and filling on Government Island. Estimated cost is \$33,000,000. Bids to be received in April 1977. Projected completion 1979.

The second contract covers the erection of 10 spans (Washington approaches). Contract will be advertised and administered by State of Washington. Estimated cost is \$25,000,000. Projected completion 1980.

Third contract is the north span superstructure. Precast sections will be hoisted by Gantry to the bridge piers, 145 feet in height, estimated cost \$75,000,000. Estimated advertisement date 1978. Estimated completion 1981. (Type of construction was pioneered in Europe and has had limited use in the United States.)

Fourth contract is the south channel crossing, 45 feet high, estimated cost \$35,000,000. Estimated bid date 1978. Completion 1981.

Fifth contract is paving, signing and lighting. Estimated cost is \$7,000,000. Estimated bid date 1980. Completion 1981.

Mr. Hart indicated the target date for completion of the entire project is the end of 1981 or 1982. The total estimated cost is \$175,000,000; the State of Washington's share is \$50,000,000 and \$125,000,000 for Oregon. He said the project will consist of twin structures, four lanes to a structure, with a bicycle path in the center. The project will be 11,600 feet in length - approximately two miles.

The Chairman asked what the employment factors will be for the project. Mr. Hart mentioned that he did not have the manpower figures but they would be projected and released.

Mr. Coulter gave a brief outline of the legislative matters in the Highway Division. He mentioned that Mr. Hamilton, Legislative Liaison Representative, analyzes the bills as they are introduced and then consults with him. Action on the bills are either an analysis and report as to what involvement the Division should have in it or the necessity of preparing some formal testimony for the Legislative Committees or the possibility of an expert to monitor the bill. Mr. Hamilton coordinates his analysis with Mr. Klotz. Mr. Coulter indicated there may be a major change in the Workmen's Compensation bill that would affect State personnel but basically would affect highway contractors.

The Commission considered a request from Dr. Robert Egan to construct a small cabin on Lot 201, Township 37 South, Range 9 West, Section 8 within the Illinois River Scenic Waterway in Josephine County. Mr. Talbot pointed out that construction at this location, in the accessible natural river area, would be inconsistent with the Commission's rules and regulations. The Commission denied the request as recommended by Mr. Talbot.

Mr. Talbot said the Parks and Recreation Branch has completed a review of the existing fee structure of Oregon State Parks and has determined that fees charged for many services provided to the public should be increased to help cover costs of operation. Following his recommendation, the Commission authorized the Department to schedule public hearings and begin the process under the Administrative Procedure Act.

Mr. Talbot stated their activities in the Legislature will be to try to get some General Fund money for some capital improvements. There are numerous scenic waterway bills, completion of the South Slough Sanctuary Project, transfer of the Natural Area Preserves Advisory Group function to the Parks agency and there's a proposal for the State to buy the Sea Lion Caves and many others. He mentioned the Parks Advisory Committee will be reviewing these matters.

Mr. Burket commented on the Airport Development Aid Program under the new Federal law that was passed last year. He also commented on the commuter air service. Mr. Burket mentioned he is appearing before the House Transportation Committee later in the day concerning the Division's programs, functioning and activities.

Upon inquiry of Chairman Jackson, there was discussion whether or not there is any validity to attempt to exercise some control over the interstate commerce carriers that are providing intrastate service in the State, such as time schedules. Mr. Burket mentioned that the State of Texas has an Aeronautics Commission which has the authority and responsibility for regulating air commerce in the State. The Chairman said under the present Federal law there is no way in which the State can force an interstate carrier that is providing intrastate service to provide the type of service that will accommodate the needs of the local people. He suggested that this matter be presented to the Legislature as the Transportation Commission and the Public Utility Commissioner does not have authority to regulate schedules.

Chairman Jackson recessed the meeting at 11:50 a.m.
(The Commission and staff had lunch with Senators Charles Hanlon and Robert Smith and Representatives Pat Whiting and Max Simpson.)

The meeting reconvened at 1:35 p.m.

PUBLIC COMMENTS

A delegation from the City of Corvallis appeared before the Commission concerning the continuation of the reconnaissance study for the Corvallis Bypass. Present were: Mayor Donald L. Walker, Senator Clifford W. Trow, Representative Tony Van Vliet, C. Dean Smith, Inge C. McNeese, George F. Stevens, Terry Barker, G. McAdams, Douglas Parker, Alan Berg, Frank Triska and Bill Monroe.

Mayor Walker said that their group feels very strongly that the livability of their City must be kept as well as the viability of their downtown business district. He mentioned that they have tried to keep trucks off of Third and Fourth Streets without success. The traffic volume on these two streets and on Second and Fifth Streets is approximately 38,000 vehicles daily. He commented on the air quality standards for carbon monoxide levels and the DEQ standards for noise.

Mayor Walker recalled that in 1952 when Corvallis' population was 18,000, there was a need for a bypass. Hearings were held by the State in 1970 regarding the First Street Bypass and due to citizen objection, the project was abandoned by the State. He said the City was told that if the community could get together they would have a better chance of having a bypass. Since then there has been a community goals study and citizen input from throughout the City. He indicated the citizens of Corvallis now are very strongly in favor of the southern section east of the Willamette River for a bypass.

The Mayor referred to a letter the City received from the State saying the \$100,000 that was to be used for the bypass reconnaissance study is to be used for other highway projects. He said the reconnaissance bypass study, their top priority, was the only thing the City asked for out of the \$150 million State Bond Fund. Considering the present population and the estimated future growth, he asked that the reconnaissance study be continued at the earliest possible time.

Chairman Jackson stated that commitments made by staff and the fact that \$100,000 was included in the Six Year Plan as adopted by the Commission is a valid point that the State does have a commitment. He said the State's problem in the consideration of the Eastside Bypass is the cost estimate of \$50 million, which for the foreseeable future, there is no way in which it could be funded. The Chairman mentioned that the Department recognizes that many alternatives have been studied to try to find a solution to a very critical need in Corvallis. Chairman Jackson said the Department will proceed in attempting to follow-up on alternatives that are within its financial ability.

Senator Clifford Trow said the City of Corvallis needs the State's help now with the traffic problem through its business district. He mentioned the reconnaissance study is very vital and hopefully it will provide such facts as in the areas of traffic volume projections, environmental impacts, cost benefit analysis and the eastside-westside and no build options facing the City.

Representative Tony Van Vliet encouraged the Commission to give serious thought of keeping the full hundred thousand dollars in if possible for a complete study of all alternatives.

Mr. George Stevens, representing Oregon State University and the Chamber of Commerce, also asked for the utilization of the resources that were established for the study and to get it under-way as soon as possible.

Mr. Lee Bercot, Legislative Aide from Salem, and Mr. Stan Wells, Student at Oregon State University, came before the Commission with a petition to repeal the 55 mile per hour speed limit. (Petition on file in the Commission's files, Salem.) Mr. Bercot said their purpose today is to come under the Administrative Procedures Act in the manner of the repeal of the rule 10TC28(1) which fixes a maximum speed of 55 miles per hour on all highways within the State. He pointed out that there is no fuel shortage and that no fuel shortage is imminent in the foreseeable future. Mr. Bercot handed to the Commission a document containing six pages of arguments which he then commented on in the matter of the repeal of the maximum speed limit. (Document on file in the Commission's files, Salem.) He asked the Commission under the Administrative Procedures Act to initiate rule making procedures to repeal 10TC28(1) which fixes the maximum speed limit of 55 miles an hour on all highways within the State. He also asked the Commission to respond within 30 days (petition received January 4, 1977) and requested the Commission to act within that time.

Chairman Jackson asked Mr. Bercot to waive the period of time between February 4 and the next Commission meeting which is set for February 15 in order that this matter may be researched.

Mr. Bercot indicated that he and his co-petitioner have determined they are not going to waive the 30-day period because they feel the data that is available to the Commission to base their decision is summarized in his arguments and it is also data available from the Department's Research and Planning Section.

After further discussion, the Chairman told Mr. Bercot that he would have an answer by February 4, 1977. (See page 1839 for Commission action.) (Also see pages 1839a and 1839b)

Mr. Moore handed to the Commission copies of the Annual Report entitled "Public Transportation in Oregon" for the year ending June 30, 1976. (Copy on file in the Commission's files, Salem.)

He commented on the following Legislative bills:

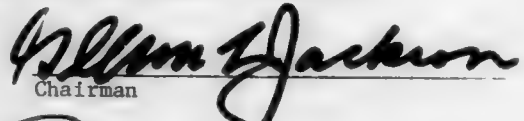

- 1) Senate Bill 5538 which is the budget bill of the Division. He stated that the Mass Transit Division is a general funded agency.
- 2) Senate Bill 16 is referred to as the Intercity Public Transportation Contract Authority Measure. The

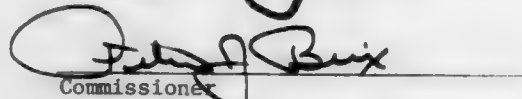

Director has established a staff task force to come up with standards and criteria essentially to meet the provisions of Section 13 which says "for the purpose of aiding in the development of public transportation system, the Department shall establish criteria as standards for the evaluation of transportation projects to be considered under this Act."

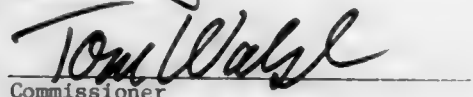

- 3) House Bill 2045 changing the name of the Mass Transit Division to the Public Transit Division.
- 4) House Bill 2043 if passed will expedite the formation of the transit district in the Salem metropolitan area.

There was further discussion concerning gas consumption and the 55 mile per hour speed limit. Mr. Barrie mentioned there is a national speed limit that was passed and is still in effect; the basis for its passage was to conserve fuel. Chairman Jackson said that in view of Mr. Bercot's presentation earlier and since the Commission had ruled recently upon sustaining the policy level of a 55 mile per hour speed limit in the State that possibly the Commission is in a position to pass judgment on this request at this time. It was moved by Commissioner Hollern and seconded by Commissioner Walsh that the Commission instruct Counsel to prepare findings to retain the 55 mile per hour speed limit. Motion passed unanimously. (See pages 1839a and 1839b)

Prior to adjournment at 2:20 p.m., the Chairman announced that there will be an Executive Session in the Director's Office immediately following this meeting which will be confined to personnel matters and qualifies under the law as a nonpublic meeting.

BEFORE THE OREGON TRANSPORTATION COMMISSION

Petition of Stanley Wells }
and Lee Bercot for the }
repeal of Rule 10 TC 28 (1) }

Findings and Order Denying Petition

Petitioners filed their petition on January 4, 1977 pursuant to ORS 183.390. At petitioners' request oral testimony was received by the Commission at its regularly scheduled meeting on January 18, 1977. The Commission considered the oral testimony given by Mr. Bercot on behalf of himself and Mr. Wells as well as petitioners' written arguments requesting repeal of the above entitled rule.

Petitioners argue that there is no need to conserve fuel because there is no current or imminent fuel shortage and that, therefore, this Commission must, pursuant to ORS 487.475 (1), repeal Rule 10 TC 28 (1) which fixes a maximum speed of 55 miles per hour on all highways within the State of Oregon.

The sole evidence submitted to this Commission by petitioners was that there has been a steadily rising increase in the consumption of motor vehicle fuel in Oregon since the Arab oil embargo in early 1974.

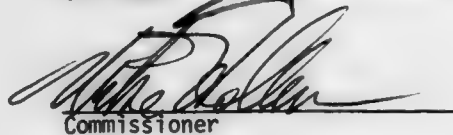

It is the opinion of the Commission that the present rate of consumption of fuel in Oregon does not address the issue of whether or not there is a current or imminent fuel shortage. We consider the question of a fuel shortage or its imminence to be a national and international problem and one which we believe to be critical still. The Commission looks for guidance on this vital issue not to whether Oregonians can fill their fuel tanks without difficulty but, rather, what is the national policy and what is the international climate. Federal law now provides a national 55 mile per hour maximum speed limit. 23 USC Sec. 154 (a). That law was enacted in order to conserve fuel. That is a national

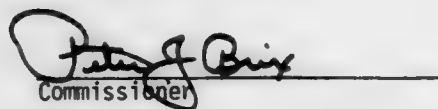

policy. This Commission considers such action by the United States government to be heavily persuasive in determining the Commission's own policy at the state level. We also take notice of the factors influencing federal policy, primarily this country's heavy dependence on the importation of foreign oil, the historical fact of the 1974 embargo, and the current propensity for crises of a similar nature.

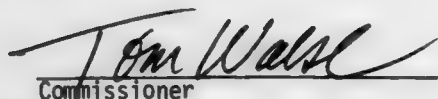

Based upon the above findings and considerations it is hereby
ORDERED, that the petition to repeal Rule 10 TC 28 (1) is hereby denied.

January 18, 1977

Chairman

Commissioner

Commissioner

Commissioner

Commissioner B. Gordon Coleman did not attend the meeting at which this matter was heard and took no part in this decision.

January 18, 1977
Salem, Oregon

An Executive Session of the Oregon Transportation Commission was held at 2:35 p.m. in Room 135 of the Transportation Building in Salem, Oregon. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Member
Peter J. Brix, Member
Tom Walsh, Member
Robert A. Burco, Director
C. W. Head, Manager, Commission Services
Fran Neavoll, Commission Services

Chairman Jackson announced earlier in the afternoon at the Commission's regular meeting that pursuant to ORS 192.660(b) an Executive Session would be held in the Director's Office concerning personnel matters.

The Chairman adjourned the meeting at 3:30 p.m.

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the actions listed below and report this action for your official records:

- 1) Option from Frank W. and Mary Rita Kellett for the NE Sandy Boulevard-NE Glisan Street Section of the East Portland Freeway in Multnomah County. Consideration \$44,000. Approved December 13, 1976. File 49291.
- 2) Approved on December 15, 1976, two addendums to two separate agreements with Public Utility Commissioner covering the establishment and maintenance of a Port of Entry at Ashland, Jackson County, and a Port of Entry at Farewell Bend, Old Oregon Trail, Malheur County. Addendums cover amendment to paragraph VI to delete the first sentence of the existing agreements which says "This contract and any amendments thereto will not be effective until approved by the Executive Department." This statement is not necessary.

EXHIBIT D
MINUTES OF 1-18-77

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority
(Confirmation)

By your duly adopted delegation order, you authorized the State Highway Engineer to exercise certain authority on behalf of the Oregon Transportation Commission. The State Highway Engineer in Administrative Order No. 9 subdelegated to the Location Engineer to approve and execute Consents to Annexations. Pursuant to that authority and acting in accordance therewith, I approved and executed the following Consent and report this action for your official records:

On December 3, 1976, approved and executed a Consent to Annexation to the City of Phoenix covering all that real property belonging to it (comprising that certain area of Pacific Highway in D.L.C. #42, Township 38 South, Range 1 West, W.M., Jackson County.)

Frank E. Terpin
Location Engineer
Dated this 14 day of December, 1976

EXHIBIT E
MINUTES OF 1-18-77

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On December 23, 1976, \$ 2,500,075.03 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of November, 1976.
(List of apportionments on file in Commission Files, Salem.)

On December 30, 1976, \$ 1,479,211.68 (12 percent of the Highway Fund) was distributed to the cities for the month of November, 1976.
(List of apportionments on file in Commission Files, Salem.)

Dated this 20th day of December, 1976

V. E. Skoog
V. E. Skoog, Controller
Highway Division

EXHIBIT
MINUTES OF

February 9, 1977
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 1:30 p.m. in Room 129 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State 24 hours prior to the meeting. The following persons were on the telephone at the locations given:

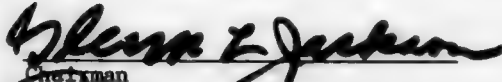

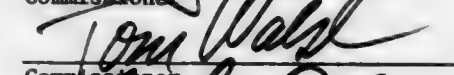

B. Gordon Coleman, Member, Eugene
Peter J. Brix, Member, Portland
Tom Walsh, Member, Hermiston
H. S. Coulter, State Highway Engineer, Salem
E. S. Hunter, Deputy State Highway Engineer, Salem
John J. Earley, Public Information Officer, Salem
C. W. Head, Manager, Commission Services, Salem

Mr. Coulter stated that this meeting was called for the Commission to consider acceptance of a grant of \$925,709 under the Local Public Works Capital Development and Investment Act of 1976 (Public Law 94-369) from the Economic Development Administration, U. S. Department of Commerce. He said the deadline for acceptance of this grant is February 14, 1977.

Mr. Coulter mentioned that this money is to be used for the asphaltic concrete surfacing overlay of the Hide Creek-Philomath Section of the Alsea Highway in Benton County.

Following Commissioner Walsh's motion, the Commission unanimously accepted the grant; designated H. S. Coulter, State Highway Engineer, as the accepting official for the Oregon Department of Transportation; designated C. T. Keasey, Construction Engineer, as project coordinator; and granted authority to contract the Hide Creek-Philomath Section project.

There being no further business to come before the Commission at this time, the meeting was adjourned at 1:35 p.m.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
February 15, 1977

February 15, 1977
Salem, Oregon

The Oregon Transportation Commission held their formal meeting at 10 a.m. in Room 122 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harold Grover, Administrator of Motor Vehicles
David Talbot, State Parks Superintendent
Max Klotz, Special Assistant for Intergovernmental Affairs
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Klotz:

- 1) Minutes of the workshop of January 7, the meeting of January 18, and the telephone meeting of February 9, 1977.
- 2) Resolution declaring necessity of certain real property for public purposes and authorizing condemnation.
("Condemnation Resolution No. 2656" on file in Commission's files, Salem.)
- 3) Increase in project authorization on the following contract:
 - a. Contract No. 8423 with Baker Redi-Mix, City Streets in Richland, Baker County, in the amount of \$13,264.82. (22.25% overrun)
- 4) Payment of annual membership dues in the amount of \$5,050.39 to the American Association of State Highway and Transportation Officials for the year 1977.

- 5) Agreement with City of Klamath Falls for traffic signals at the intersection of the Klamath Falls-Lakeview Highway and Shasta Way in Klamath County. State to pay for maintenance and City to pay cost of power consumption.
- 6) Agreement with Payless Drug Stores Northwest, Inc., Safeway Stores, Inc., and the City of Newport for installation of traffic signals at the intersection of the Oregon Coast Highway and N.E. 20th Street in Lincoln County. Estimated cost of project is \$40,000; Payless and Safeway each pay 25% to a maximum \$10,000; City pays 50% and the remainder if exceeds \$40,000. State to maintain signal and City is responsible for power costs.
- 7) Agreement with City of Bend covering the installation of a traffic signal at the intersection of The Dalles-California Highway at First Street, Deschutes County. State to pay total estimated cost of \$40,000 to be funded with Federal-aid Primary Funds. State to maintain signal and City to pay for power costs.
- 8) Two requests from Multnomah County for Urban System Projects as follows:

- a. Reconditioning and resurfacing approximately 158,000 square feet of the Burnside Bridge at a cost of \$350,000. Federal Funds \$301,000 and County's share \$49,000.
- b. Widen and improve a 1.0 mile segment of S.E. 72nd Avenue (S.E. Duke St.-S.E. Clatsop Street Section) at a cost of \$460,000. Federal Funds \$395,600 and County's share \$64,400.

Funding of above two projects will be from transferring approximately \$696,600 of Interstate Transfer Funds, withdrawn from the Mt. Hood Freeway, to the Urban System. County will provide all the match funds for these projects.

- 9) Three requests from the Cities for Urban System Projects as follows:
 - a. Signalize the intersection of Koosbay Boulevard and the Oregon Coast Highway in City of Coos Bay. Estimated cost \$50,000. Federal Funds \$43,000. State's cost \$7,000.
 - b. Widen and improve Atwater Street between Main Street and Clay Street in City of Monmouth. Estimated cost \$60,000. Federal Funds \$51,600; State's cost \$4,200. City's cost \$4,200.

- c. Signalization at the intersection of Virginia Avenue and Harrison Avenue in North Bend.
Estimated cost \$40,000. Federal Funds \$34,400;
State's share \$5,600.
- 10) Allocated funds in the amount of \$10,000 in the Parks Budget for financial assistance to coastal communities for beach lifesaving services and authorize payment to the City of Seaside and City of Cannon Beach for this program.
- 11) Commitment of \$25,000 of small area grant program funds for the purpose of matching Federal funds for three buses in the Albany area. Authorized Administrator to sign agreement.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Burco referred to the document, "Transportation in Transition: A Look Ahead" which was handed to the Commission. (Copy on file in the Commission's files, Salem.) He explained that the document is a short-term program plan, which was developed during the past six months as a step toward a longer range, comprehensive, multimodal transportation system for the State. He said this document would be an accompaniment to the policy document. The appendix includes the bills for funding the highway system and aeronautics. The document also includes county maps of the highway program that would be supported by the revenue measures that the Commission has recommended to the Governor and to the Legislature.

Mr. Burco pointed out that the subject matter of the document is a program-by-program discussion of Highway, Aeronautics, Public Transit, Parks and Recreation and Motor Vehicles Divisions. He also called attention to a new section, "A Longer View Ahead."

Mr. Bob Blensly said it is planned to insert photographs of deteriorated highways and bridges and of park development. He indicated if the document is approved today copies would be available in approximately two weeks.

Chairman Jackson inquired if it was necessary to reprint the report. Mr. Burco felt that reprinting was necessary as it is planned to have a wide circulation of this report throughout the State to communicate the needs of the Department to the public.

The Chairman recessed the meeting for ten minutes to give the Commission an opportunity to review the document.

When the meeting reconvened, Mr. Burco highlighted the following issues:

- 1) Deterioration of the existing highway system
- 2) Inadequacy of transportation funding
- 3) Cost responsibility and allocation of resources
- 4) Absence of intercity public transit authority
- 5) Refinancing of parks and recreation programs
- 6) Public understanding of complex program issues
- 7) Transportation systems efficiency
- 8) Manpower stability and professional development

The Commission unanimously approved the document, "Transportation in Transition: A Look Ahead" for distribution to the Legislature, subdivisions of government and interested parties throughout the State.

Mr. Don Streun briefed the Commission on the zero-base budget directives from the Ways and Means Committee. He said by April 1, 1977, the Office of the Director and the Motor Vehicles Division will submit budgets that show a reduction of 8% as one budget and another as 25% from the Governor's recommended budget dealing in State funds only. Then as a part of this process, Mr. Streun said the restoration of these reductions will be shown and in what priority order does the State make the restoration in both the 8% and 25%. This will be done by cost centers within the Office of the Director and the Motor Vehicles Division and then it would be done throughout the Department. He mentioned the Highway Division will have to submit the same budget by April 15, 1977. The total Department reduction at 8% would be \$20,300,000 and at the 25% level would be \$63,000,000. Mr. Streun said the Legislative directive calls for approval of the Commission for the reductions and approval of the Commission for the priority of the restoration of these reductions.

He said that Mr. Burco has suggested that a Commission workshop be held to review these budgets. It was decided to hold a workshop in Portland at the Portland State Office Building at 1 p.m. on February 17, 1977, for the Commissioners that can attend. A similar workshop will be held in Salem on March 2, 1977. The budget will be presented to the Commission at their next meeting for approval.

The Commission considered reappointments of Glen Ferris, Portland; Paul Niskanen, Portland; and Fred A. Stickel, Portland, to the Travel Advisory Committee. Mr. George Bell said these reappointments have the approval of the Advisory Committee. The Committee also recommended the expansion of the size of the Committee on a temporary basis from 15 to 17. Ann Lyman, Salem; James B. Beddingfield, Coos Bay; and George Henderson, Portland, were recommended by the Committee for appointments as new members and have the approval of the Governor's office. Following Mr. Bell's favorable recommendation, the Commission approved the above actions.

Mr. Burco reported that staff has appeared twice before the Senate Transportation Committee to give background briefings on the overall directives of the Department and its program. He mentioned that the staff has appeared at three hearings of the House Transportation Committee at their request giving them a detailed background on the overall progress of the Department and a case-by-case description of the activities of all Divisions. Copies of the policy document and planning overview were distributed to both Committees.

Mr. Burco mentioned that two meetings have been held with the Ways and Means Subcommittee No. 6 at their request. He said that he had extended an invitation to this Committee to join the Commission for lunch at their monthly meeting on March 15 in Salem. He indicated that he suggested to the Committee that they might want to look at the condition of some pavements and structures on the Oregon Coast Highway and to view some of the State parks, recycling of asphalt and public transit in operation.

Mr. Burco mentioned the Senate has begun a series of three hearings to look into the question of intercity bus travel.

The Commission considered approval of a contract with the Federal Railroad Administration for Oregon's portion of the West Coast Corridor Study. Mr. Burco said the contract compensates the Department for \$32,959 for work the Department has already accomplished on the West Coast Corridor in terms of doing the Willamette Valley Rail Study and in providing a coordinator to work with the States of Washington and California and the Federal Railroad Administration over the next year. Upon Mr. Burco's recommendation, the Commission approved the contract and authorized him to sign it.

Mr. Burco reported that the Department has distributed the initial pages of a planning work statement for a three-year rail planning effort. He mentioned the Emergency Board has given the Department approval to apply for Federal Funds.

The Commission set Tuesday, March 15, 1977, for their next regular meeting in Salem. They also set Tuesday, April 19, 1977, for their regular monthly meeting to be held in Bend. The Commission asked Commissioner Hollern to work with the local officials in setting up the program.

Consideration was given to adding to the Six Year Construction Program for the fiscal year 1977 a resurfacing project on the westbound lanes of the South Baker Interchange-Encine Section of the Old Oregon Trail in Baker County. Mr. Klaboe stated that this project was completed and opened to traffic in 1969, however, by 1974 serious pavement distress was evident which will prevent this section from lasting through its original design life. The estimated cost is \$1,000,000 using Interstate Resurfacing Funds, 92% Federal and 8% State. The Commission approved the project as recommended by Mr. Klaboe.

Mr. Hardt reported on the criteria for use in implementing Senate Bill 16 which is called the Intercity Public Transportation Contract Authority Bill. He read to the Commission the purpose of this proposed 1977 Act. He said a committee of Mr. Burket, Mr. Moore and himself has been formed and four levels of approach have been identified as follows:

- 1) To maintain the existing public transportation network.
- 2) To redistribute the service in the network to make it more effective.
- 3) To fill in "missing links" in the system.
- 4) To increase the service level of the system.

Mr. Hardt said the committee saw a real need for three kinds of criteria to carry out the bill as follows:

- 1) An assessment of the public need and community support for a service.
- 2) To assess a proposal that the Department might receive from a carrier as to its effectiveness.
- 3) A program to monitor and evaluate the service that the State is getting to determine whether the public is getting what it's paying for.

Mr. Hardt reviewed the evaluation criteria which was previously mailed to the Commission. (Copy on file in the Commission's files, Salem, entitled "Criteria for Financial Assistance".) He indicated other State agencies are interested in the concept of this bill and have expressed a desire to work with the committee. If the Bill passes and funds are appropriated, the mix of programs will be selected and presented to the Commission for approval. He said the Department would ask for applications for assistance from the industry and evaluation of the relative need in the State as to the different routes that the Department would be looking at and the proposals received would be evaluated. A recommendation would be presented to the Commission for carrying out the act, and if approved, a contract would be awarded with a carrier. At this point, Mr. Hardt said the Department would commence an evaluation process to determine the effectiveness of the contract and of the funds being spent.

Mr. Klaboe asked that the item "Progress Review of Six Year Highway Improvement Program with Modifications to Reflect Current Status and Present Policies Consistent with Resources and Funding" be delayed. He mentioned that the Chairman had not received the background material sent to him earlier as well as a portion of this material had been inadvertently omitted. He stated that he would send to the Commission the rest of the material and it will be discussed at the next Commission meeting.

Mr. Coulter reported on the Hoodland Safety Rest Area Project in Clackamas County. He recalled that a delegation appeared before the Commission at its September 24, 1975, meeting urging consideration of this rest area. At that time the project was placed on the rest area priority list for consideration as funds became available. Due to the Department's financial condition and placing emphasis on preservation of the existing highway system, the Commission decided not to proceed with the rest area study. Mr. Coulter said he would advise the Hoodland Chamber of Commerce of this decision.

Mr. Vernon Cusack of the Federal Highway Administration presented to the Commission four plaques that the Highway Division won in 1975 and in 1976 in the contest, "The Highway and Its Environment". The categories, awards and locations are as follows:

"Outstanding Section of Highway in Its Urban Environment." First place award for design and development of 1st to 7th Avenue Viaduct crossing several streets and railroad lines and serving as an entranceway to Eugene, Lane County.

"Outstanding Bridge, Overpass, Tunnel Approach, Interchange Structure or other Structural Feature." First place award for the Clarno Bridge crossing the John Day River near Clarno, Wheeler County.

"The Outstanding Example of Landscape Treatment Along Roadsides and Interchanges." Second place award was for the Stadium Freeway (I-405), Multnomah County.

"The Outstanding Safety Rest Area or Information Center." Third place award for the Brookings Safety Rest Area in Curry County.

The Commission considered a safety project to improve South Commercial Street in Salem. Mr. Coulter mentioned the project would be the widening of South Commercial Street to provide a center left-turn lane from where the existing left-turn lane ends at Browning Avenue to Sunnyside Road (99E). Also as part of the project, it is anticipated that traffic signals would be installed at Browning, 12th Street and the IBM access. He said the project would be done as part of the Title II Highway Safety Program at an estimated cost of \$200,000. Ninety per cent of the cost will be paid by the Federal

Highway Administration. He requested approval to enter into an agreement with IBM Corporation who will provide \$20,000 necessary for the remaining 10 per cent match which is required by the local participating agency. After considerable discussion, the Commission approved the project as recommended by Mr. Coulter.

Mr. Kevin Keane, Mr. Robert Stebner, Mr. Frank Jepsen of Salem and Mr. Ray Zimmerman, Los Angeles, IBM officials, were present and presented to the Commission a check for \$20,000 for their participation in the project.

Mr. Coulter previously mailed to the Commission a detailed letter concerning the settlement of petroleum escalation claims. (Copy of letter dated February 10, 1977 on file in Commission's files, Salem.) Mr. Coulter explained the 1974 Special Session of the Legislature passed Senate Bill 1009 (ORS 279.332) which allowed the State to compensate contractors for increased costs of petroleum products on which prices increased more than 10 per cent. The Law applies only to contracts existing prior to January 15, 1974. He said there are active claims for petroleum escalation on three contracts. Following the Chairman's inquiry, Mr. Barrie said there is no legal requirement that the State settle these claims; it is completely discretionary with the Commission and the Department. It was Mr. Coulter's recommendation that the State settle these claims. Mr. Walsh indicated that he would like more time to review this matter. The Commission delayed action until their next meeting.

The Chairman recessed the meeting at 11:50 a.m. The meeting reconvened at 1 p.m.

Mr. Talbot and Mr. Bob Potter gave a detailed status report on the scenic waterway program. He said since the program began in 1970, a total of 380 applications have been received; 233 applications have been approved; 40 applications have been declined. Mr. Potter mentioned of the 40 denials, 16, including a scenic easement, led to acquisition and 2 pending condemnation cases; leaving 9 pending or withdrawn cases. (A breakdown tabulation by river is on file in the Commission's files, Salem.)

Mr. Ranny Rancourt, Chairman, and Earl Flink, Member, of the Oregon Recreation Trails Advisory Council, was present. Mr. Rancourt reviewed the past history of the Council and requested the Commission's support for the Trails' program in the Department's budget to enable them to plan a good system of hiking, bicycle and horseback trails in the State. (Copy of Mr. Rancourt's statement and annual report of the Council are on file in the Commission's files, Salem.) Chairman Jackson suggested that they make a presentation to the Ways and Means Committee concerning their budget.

Mr. Moore reported that one of the buses that was purchased from General Funds, which will be on loan to the City of Roseburg, is parked outside the Transportation Building for their inspection.

Chairman Jackson adjourned the meeting at 1:20 p.m.

| 2 Transactions | | \$ 39,331.00 |

(2) Grants of unrestricted access to Jack G. Baty, et al at Stations 269+00 and 389+00 on the Jones Ranch - Hudspeth Mill Section of the Ochoco Highway in Wheeler County for a consideration of \$1,800.00 each. File 17609.

(3) Agreement with Madge B. Jones, Ernest L. Wood and Lorene D. Wood, owners of property abutting the Brooks-Salem Section of the Pacific Highway East in Marion County covering the diversion of concentrated drainage water across their land. (Right of Way Branch)

(4) Agreement with the City of Eugene covering development and construction of the Valley River Bicycle-Pedestrian Bridge crossing the Willamette River in Lane County. The City of Eugene was successful in obtaining a federal grant in the amount of \$288,000 under the Bikeway Demonstration Program. The Federal Highway Administration contributes 80% of the cost with 20% City matching funds. The State does not participate in this program; however, the State is responsible for administering the project. This will require that the State monitor the work, certify the materials and submit claims for federal funds in the usual manner. The City has engaged a consultant to perform the preliminary and construction engineering. (Local Government Programs)

(5) Supplemental agreement with a donor relating to the donation of funds to the State for the creation of a public park along the Oregon coast to be known as Trails End State Park at Tillamook Head in Clatsop County. Supplement amends an agreement dated November 23, 1976, page 4, item 1, under "Donor Agrees", lines 7 and 8, as follows: "all the property in Exhibit A, Line A is to be acquired by April 1, 1977." Except as amended, the agreement of November 23, 1976, shall remain in effect. (Parks Branch)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and report this action for your official records.

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority
MINUTES OF 2-15-77

On behalf of the Commission and under authority delegated to me to award contracts, I awarded the following contracts:

- 1) Work on Burchard Creek-Scott Creek Section of Umpqua Highway in Douglas County. Bids received January 6, 1977. Contract No. 8464 awarded January 12, 1977, to J. C. Compton Co., McMinnville, at \$379,016.75.
- 2) Roadside improvement on Lebanon Road Interchange-Butte Creek Section of the Pacific Highway in Linn County. Bids received January 6, 1977. Contract No. 8465 awarded January 12, 1977, to Castile Landscaping, Lake Oswego, at \$39,811.25.
- 3) Traffic signal installation on The Dalles-California Highway at East 1st Street in Deschutes County. Bids received January 27, 1977. Contract No. 8471 awarded February 1, 1977, to Olson Electric Company, Inc., Vancouver, Washington, at \$33,178.
- 4) Work on South Ashland Interchange-California State Line Section of the Pacific Highway in Jackson County. Bids received January 27, 1977. Contract No. 8472 awarded February 1, 1977, to S. D. Spencer & Son, Vancouver, Washington, at \$6,044,358.82.
- 5) Sweet Home West City Limits-9th Avenue Section of Santiam Highway in Linn County. Bids received January 27, 1977. Contract No. 8473 awarded February 1, 1977, to Wildish-Corvallis Construction Co., Corvallis, at \$812,630.55.
- 6) Roadside improvement on Butte Creek-Halsey Interchange Section of Pacific Highway in Linn County. Bids received January 27, 1977. Contract No. 8474 awarded to Pacific Northwest Landscaping, Lafayette, second low bidder, at \$49,375. (Low bid of Rainterra Landscapes was determined non-responsive by Chief Counsel and was rejected.) (Awarded February 1, 1977)
- 7) Work on Port of Entry (Farewell Bend) Section of Old Oregon Trail in Malheur County. Bids received January 27, 1977. Contract No. 8475 awarded to Baker Redi-Mix, Inc., Baker, at \$495,196. (Awarded February 1, 1977.)

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the actions listed below and report this action for your official records:

- 1) On January 18, 1977, established 45, 50 and 55 MPH speed zones on The Dalles-California Highway in Deschutes County from M.P. 122.71 to M.P. 136.14 (south of Redmond). This action rescinds Speed Zone Rule No. 661 dated March 27, 1974. (See Speed Zone Order No. 740)
- 2) On January 31, 1977, established a speed zone (35 MPH) on the Nehalem Highway, City of Forest Grove, Washington County, from M.P. 89.07 to M.P. 89.46, including a school zone. This action rescinds Speed Zone Resolution No. 94a dated May 16, 1957. (See Speed Zone Order No. 741)

MINUTES OF 2-15-77

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7414 State of Oregon v. R. O. Hobbs: This is a suit for an Injunction, which was filed in Klamath County, requiring the defendant to remove an outdoor advertising sign which the defendant has erected without a permit.

L-7416 Gene H. Turner v. State of Oregon: This lawsuit arises out of an accident that occurred on May 17, 1976, on The Dalles-California Highway, at M.P. 276.71 in Klamath County. The accident involves a State sweeper and the vehicle driven by the plaintiff. The plaintiff alleges that the sweeper kicked up a cloud of dust. When the plaintiff entered the cloud of dust he couldn't see the sweeper and collided with it. The amount of the lawsuit is \$43,075.94. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7417 Ruby Nichols v. State of Oregon: This accident occurred on July 25, 1975, and involved the plaintiff who was sitting on a bench next to a picnic table in a park in Lane County when the bench tipped over. Investigation indicates that this did not happen in a State park, however, the State has been sued. The amount of the lawsuit is \$100,000 and the matter has been referred to the State's insurance carrier for the defense of the State.

L-7418 H. P. Glenn v. State of Oregon: This is an action for trespass on real property. It involves the same property that is the subject of a condemnation action (L-7259), State of Oregon, by and through its Department of Transportation v. H. P. Glenn, et al. The plaintiff is alleging that he is entitled to damages to the property that is now the subject of a condemnation case because the original condemnation case was dismissed because the court refused to allow an amended complaint and it was necessary to take more land. The plaintiff is seeking \$178,200 and attorney fees. This property is located in Union County, Old Oregon Trail Highway. The matter has been referred to the Attorney General for the defense of the State.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
MARCH 15, 1977

March 15, 1977
Salem, Oregon

The Oregon Transportation Commission held their formal meeting at 10 a.m. in Room 122 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harold Grover, Administrator of Motor Vehicles
David Talbot, State Parks Superintendent
Max Klotz, Special Assistant for Intergovernmental Affairs
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar: (The Commission deferred action on a request from the City of Portland for State grant-in-aid assistance for the acquisition of two parcels along the Willamette River north of the Sellwood Bridge for park purposes. Upon inquiry of Commissioners Walsh and Brix, Mr. Talbot stated he would provide maps as to the location of the parcels.)

- 1) Minutes of the meeting of February 15, 1977.
- 2) Resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2657" on file in the Commission's files, Salem.)
- 3) Request of City of Eugene for State grant-in-aid assistance for the acquisition of land along the Willamette River for park purposes as follows:
 - a. City of Eugene - acquire 10 parcels - West Bank. Total cost \$423,500; State grant-in-aid request \$105,875.
- 4) Transferred \$750,000 of Land and Water Funds to local park agencies through the Special Projects Fund Committee.

- 5) Three requests for the following Urban System Projects and granted authority to the State Highway Engineer to sign project agreements when prepared:
 - a. Request from Tri-Met to continue the Portland Metropolitan Area CARPOOL Project. Total cost \$710,000. Federal Funds \$610,600. Tri-Met will provide all matching funds. No cost to State.
 - b. Request from City of Coos Bay to improve a 0.67 mile section of Woodland Drive to a two-lane facility with parking on one side (N.C.L.-Ocean Blvd.-Woodland Drive). Total cost \$171,000. Federal Funds \$147,060 and State's share \$11,970.
 - c. Request from City of Cottage Grove to construct a structure across the Coast Fork of Willamette River on Harrison Avenue. Total cost \$225,000. Federal Funds \$193,500 and State's share \$15,750.
- 6) Increased project authorizations on the following contracts:
 - a. Contract No. 8439, Glen Baker Road-Lava Butte Section, The Dalles-California Highway, Deschutes County, in the amount of \$101,934.35.
 - b. Contract No. 8447, Willamette River (Springfield) Bridge on McKenzie Highway in Lane County, in the amount of \$8,490.37.
- 7) Contract amendment with City of Roseburg providing for \$1,200 of added General Funding for the transportation demonstration program. Of this amount, \$900 would be used for marketing and \$300 would support a new experimental route serving Umpqua Community College.
- 8) Contract with City of Bend to provide experimental transportation service until June 30, 1977. General Funds committed by this contract would total \$4,056, an increase of \$1,509 over the previously approved level.
- 9) Contract with Illium Associates, Inc. for a graphics and radio marketing package to be used by small transit systems. Costs for materials provided would total \$575 of General Funds.
- 10) Agreement with State Forestry Department for bridge design service on an actual cost basis.

Mr. Klotz mentioned that Mr. Coulter had sent to the Commission an informational report concerning consultant services for the environmental studies of the Greeley-I-5 ramps in the City of Portland. (Letter dated 3-8-77 on file in the Commission's files, Salem.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Burco handed to the Commission copies of a resolution that was adopted by the National Governors' Conference held in Washington, D. C., on March 1, 1977, which will be forwarded to Congress. He said the resolution was initiated by Governor Straub which requests additional Federal-aid funding for primary, secondary and urban systems. (Copy of resolution on file in the Commission's files, Salem.)

Mr. Burco mentioned that he testified earlier today before the State Senate Transportation Committee on Senate Joint Memorial No. 7 which memorializes Congress to pass the bill authorizing increased Federal-aid funding for the primary system which endorses the Duncan Bill. The Transportation Committee did adopt the memorial for passage to the floor. He said Congressman Duncan appeared before the National Conference of State Legislators Transportation Committee in Washington, D. C., recently and was well received by all of the States. Mr. Burco indicated that progress is being made nationally in bringing to the public's attention the need to increase funding.

Mr. Ed Hardt reported on the Conference of State Departments of Transportation which was held recently in San Diego, California. He stated that this group meets several times during the year to discuss items of mutual concern. The following items were discussed:

- 1) Railroad problems in the East and the problems of the 1976 4-R Act (Rail Revitalization and Regulatory Reform Act).
- 2) Passed a resolution on air service to small communities. (Copy of resolution on file in the Commission's files, Salem.)

3) Reorganization of the Federal Department of Transportation.

4) Transportation funding.

Mr. Hardt said there was a presentation by Mr. Ben Beogini, President of the Southern Pacific Transportation Company, about a National Transportation Policy Study Commission covering all modes of transportation that was created by the 1976 Federal Highway Act.

Mr. Hardt stated there was a presentation by Mr. David Roper of Commuter Computer of Los Angeles, California, that has been organized to promote vanpools.

Mr. Burco mentioned that the Secretary of Transportation has begun to hold town-hall meetings around the country. The first meeting was held in Boston where the Governors of the Northeastern States were invited. A similar meeting will be held later in the year in Seattle, Washington.

Mr. Streun said an incremental budget will be presented covering the Office of the Director, the Highway Division, Parks and Motor Vehicles Division budgets at the 92% and 75% level that the Governor has recommended and the order of restoration under those two budgets. He mentioned the budgets are due on April 1, 1977. The two budgets have been restored (92% and 75% level) as directed. Mr. Streun said that staff met with the Budget Division and the Legislative Fiscal Office Analyst yesterday to talk about the restoration on a Department-wide list - 92% level budget. Since staff has not had an opportunity to review its recommendation with the Commission for the restoration on a Department-wide basis, Mr. Streun suggested a workshop be held later in the month in Portland. (Workshop was set for 2 p.m., March 28, 1977, in Room 35 of the Portland State Office Building.) Mr. Streun presented to the Commission copies of the budget for the Office of the Director which covers the 92% and 75% levels. He said both budgets show a summary of activities in priority order, the dollar amount and an explanation of activities. The bulk of the 92% budget comes out of the travel information program. The order of State restoration is the out-of-state travel and professional services in planning, policy research and administrative services. Mr. Streun commented on the major items of restoration. (Copies of both budgets and tabulations are on file in the Commission's files, Salem.) The Commission approved the reductions and the priority of the restoration of these reductions for the Office of the Director as presented by Mr. Streun. (See further in minutes for budgets of Highway and Motor Vehicles Divisions and the Parks Branch.)

Mr. Burco referred to Senate Bill 16 stating that this would be the contracting authority for the Commission in Intercity Public Transportation. He said the Senate would like further guidance from the Commission as to the tentative type of criteria that would be considered. He mentioned the Senate would have a second hearing in a few days concerning this Bill. He asked Mr. Moore to make a presentation.

Mr. Moore discussed the measure and handed copies of the following Senate Bill 16 process to the Commission:

SENATE BILL 16 PROCESS

The following goal and criteria are being proposed in order to explain the process involved in implementing Senate Bill 16:

Goal

Maintain the existing public transportation network by providing financial assistance to endangered routes.

Process

1. Transportation Commission establishes tentative criteria.
2. SB 16 becomes law.
3. Funding becomes available.
4. Transportation Commission adopts criteria following public hearing.
5. Department solicits applications for assistance from cities, counties, carriers, public.
6. Department analyzes requests using Commission-approved criteria.
7. Department submits recommendations of projects to Transportation Commission.
8. Transportation Commission approves projects and agreements.
9. Agreements submitted to Public Utility Commissioner for a permit, certificate, approval or disapproval.
10. Department monitors performance according to agreements; reports to Transportation Commission, Governor and Legislature.

Mr. Ken White, Director of Transportation Programs from Greyhound Lines, was present. He stated the intercity bus serves in excess of 200 communities in the State, and their lines alone have sales representatives at 76 locations. In 1975 he said their buses operated on an average day 25,000 miles in the State. Mr. White mentioned that their lines have been experiencing some extreme problems with operating income. From 1972 through 1976 nationwide

their net operating income before taxes had declined 66.2 percent. He stated their operating ratio held fairly steady from 1967 to 1972 in the range of 86 to 87.5 percent, but since that time it has been rapidly escalating. In 1976 the ratio was 96.1 percent and if these trends continue, he said they will be in a loss position by 1980.

Mr. White said Greyhound Lines purchased 435 buses in 1976 at a cost of approximately \$104,000 each. The purchase represented 10 percent of the total fleet size. He said their problems in Oregon basically relate to some severe deficit operations on some of the lateral routes between the Willamette Valley and the Coast. Senate Bill 16 does pose very serious problems to the industry as it is presently constituted. He mentioned that they are extremely optimistic that an amicable compromise can be reached that will benefit all concerned. He mentioned that he understands the Department's desire for having criteria for financial assistance and while they do have a few minor points that hopefully can be worked out, Greyhound certainly supports this criteria. There was considerable discussion between the Commission and Mr. White.

Mr. Warren Ling, General Manager of Hamman Stage Lines, was also present.

Mr. Moore mentioned that in five years unless something is done the intercity bus industry will probably experience a reduction in service. This would probably eliminate or reduce 13 routes. To maintain the existing level of services, the cost would be approximately \$200,000 a year.

The Commission approved the tentative criteria for Senate Bill 16. (See criteria on file in Commission's files, Salem.)

The Commission set Tuesday, April 19, 1977, for their next regular monthly meeting in Bend. Mr. Burco announced that a no-host dinner will be held in Bend the night before the Commission meeting with local officials and legislators.

Mr. Burco suggested that the October 18, 1977 Commission meeting be held in Pendleton with the Washington Highway Commission.

Mr. Klaboe reported that a Task Force of staff members has completed a comprehensive review of the Highway Division's construction and preliminary engineering workload. He said the objective of the review was to purge the program of projects which are beyond the Department's financial capability or which are not consistent with the policy of emphasizing preservation of the highway system or enhancement of its operational and safety characteristics.

Mr. Klaboe presented to the Commission a copy of the Task Force report, together with a list of 188 surveys to be cancelled, and a proposed modification and status report of the next four years of the Six-Year Program. (Copies of reports on file in the Commission's files, Salem.)

He stated the preliminary engineering program authorizes work to proceed on projects considered to be within future financial capability of the Department and which are considered necessary to pursue at this time. There was considerable discussion concerning the various projects. In reply to the Chairman's inquiry, Mr. Klaboe stated that the signal projects could probably be expedited as the Department has the Federal Funds for financing each project; however, each project is individually designed and the Department's signal design crew is very small. He mentioned it also depends on the industries supplying the materials for signals as there is approximately a nine-month backlog.

The Commission approved the program as presented by Mr. Klaboe. (Program on file in the Commission's files, Salem.)

Mr. Klaboe handed to the Commission a tabulation of the financial review of the Six Year Program.

Mr. Coulter introduced Mr. Dick Althoff, Vice President and General Manager of Travel Information Centres, Inc. Mr. Althoff stated that his firm is requesting an increase in the advertising rate of the 2" display in the Travel Information Centres from \$200 per year to \$280 per year. Since the last increase which was granted in April of 1975, Mr. Althoff said inflation has taken its toll in their business as it has in other segments of the economy. The current direct cost to sell, install and maintain a 2" display per year is as follows:

- \$ 95.00 per 2" display to install and maintain.
- \$ 15.00 per year for bookkeeping and invoicing.
- \$ 70.00 sales cost (current costs are presently higher, but expect to reduce current sales costs in the foreseeable future).
- \$ 30.00 administration and depreciation.

TOTAL \$210.00 No allowance has been made for overhead and profit.

The Commission approved the display rate increase.

The Commission considered the settlement of petroleum escalation claims. (This item was presented at the February 15, 1977 meeting and action was postponed to allow the Commission additional time to review.) Commissioner Walsh stated that contracting is a tough business and if a contractor is not willing to assume risk, he should not be in the contracting business. He pointed out each year contractors go broke. Some of them unfairly go broke and some fail to take into careful consideration the risk that they are assuming, and they go under. And some others get windfall profits.

He said prices of a given commodity drop and these inequities are a part of the system. He felt this kind of legislation is interfering with that kind of a natural efficient process.

After considerable discussion, the Commission unanimously denied authorizing the settlement of petroleum escalation claims.

Mr. Coulter handed to the Commission copies of the Highway Division's budgets at the 92 and 75 percent levels that the Governor recommended and the order of restoration of those two budgets. He said both budget levels show the summary of activities in priority order, the dollar amount and an explanation of activity. Mr. Coulter reviewed the following charts that were on display:

- 1) Construction Program Breakdown
- 2) Total Expenditure Highway Program
- 3) Highway Construction Program Manpower vs. Expenditures
- 4) Maintenance Program

(Mr. Coulter's presentation is continued after Mr. Talbot's report.)

The meeting recessed at 11:55 a.m. and reconvened at 12 noon.

Mr. Talbot handed to the Commission copies of the Parks Budget, also at the 92 and 75 percent level that the Governor recommended and the order of restoration of both budgets. (Copies of the budget on file in the Commission's files, Salem.) Mr. Talbot used flip charts to explain the activities in the Parks and Recreation budget. The Commission approved the reductions and the priority of the restoration of these reductions as presented by Mr. Talbot.

The meeting recessed at 12:10 p.m. and reconvened at 1 p.m.

Mr. Coulter continued with the presentation of the Highway Division's budget. He commented on the following charts:

Highway Maintenance Program - Manpower vs. Expenditures

Total Highway Program - Manpower vs. Program Expenditures

The Commission approved the reductions and the priority of the restoration of these reductions. (Approval was given by Commissioners Jackson, Hollern and Brix. Commissioners Walsh and Coleman were absent for the voting.) (Copy of budget on file in Commission's files, Salem.)

Mr. Grover presented the budget for the Motor Vehicles Division at the 92 and 75 percent level that the Governor recommended and the order of restoration of the two budgets. (Copies of the budgets were handed to the Commission and are on file in the

Commission's files, Salem.) Mr. Grover explained the types of services his Division performs and reviewed the activities as listed on both budgets. The Commission approved the reductions and the priority of the restoration of these reductions as presented by Mr. Grover.

PUBLIC COMMENTS

A delegation from Baker and Grant Counties appeared before the Commission requesting that the State assume jurisdiction of the Austin-Sumpter Forest Service Road. Judge Dennis Fuller of Baker County introduced Judge Francis Cole, Mr. Jim Maple and Mr. George Hansen, Commissioners from Grant County; Mr. George Nicolescu and Mr. Fred Ringer, Commissioners of Baker County. Judge Fuller said this route is referred to as the Whitney-Tipton Cutoff Road that goes across from Austin Junction to the Sumpter Valley making a shortcut from Highway 26 over to I-80N. Folders were presented to the Commission which contained the minutes of a February 1, 1977 joint meeting with the State, National Forests, Baker and Grant Counties, Chambers of Commerce and others; letters from California-Pacific Utilities Company, Grant County Chamber of Commerce, Baker County Chamber of Commerce, Malheur National Forest, Wallowa-Whitman National Forest, Grant County and Baker County Courts. The handout also contained a resolution from the Baker County Chamber of Commerce unanimously supporting the paving and completion of the Whitney-Tipton U. S. Forest Service Road No. 10 and numerous petitions calling for completion and surfacing of this highway. (Copies are on file in the Commission's files, Salem.)

Judge Fuller read the following paragraph from the Baker County Court's letter:

During that meeting on February the 1st, various portions of the State highway in Baker County were discussed as possible trade-offs, and if the State Highway is willing to assume the 23.6 miles of the Austin-Sumpter Road consisting of .9 mile Baker County improved road, 16.7 miles of Wallowa-Whitman National Forest gravel road to the Baker County-Grant County Line, and 6 miles of the Malheur Forest improved road in Grant County, Baker County then would be willing to assume the following 45 approximately plus miles of State highways in Baker County:

| <u>Highway</u> | <u>Route</u> | <u>Description</u> | <u>Approximate
Mileage</u> |
|----------------|--------------|------------------------------------|--------------------------------|
| 410 | 220 | Bourne Jct. to McCulley Fork | 2.4 |
| 66 | 30 | So. Baker Interchange to Oxman | 18.2 |
| 449 | 30 | Line Inter. to Huntington Inter. | 2.8 |
| Frontage Rd. | 30 | Plano Underpass to Freeway on Ramp | 1.2 |
| 340 | 203 | Chandler Inter. to Richland Inter. | 4.2 |
| 413 | - | Cornucopia to Halfway City Limits | 12.2 |
| Frontage Rd. | - | Pine Town Loop-Halfway | .5 |
| Frontage Rd. | - | Hewitt Park to Highway 86 Jct. | 2.0 |

The Judge indicated these are locations that the State happens to have in Baker County and he felt that they could work into the County System. He commented on the different advantages that would help the State in taking over the road. There was discussion having to do with snow plowing and maintenance costs.

Chairman Jackson stated that the Department agrees that this stretch of highway could be very well justified as being a part of the State System. However, the cost of bringing the highway up to standards is prohibitive at this time because the funds are not available. The Commission instructed the Highway Division to work with the two counties to see what might be done in the future. The County representatives indicated they were willing to continue negotiations on this basis.

The Chairman adjourned the meeting at 2 p.m.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7415 Donald Martin v. Donald Erickson and Oregon Transportation Commission: This case arises out of an accident that occurred on October 23, 1975, on the Redwood Highway in Josephine County. The plaintiff alleges the cause to be the failure of a traffic signal to function properly. The plaintiff's vehicle collided with the defendant Erickson's vehicle and the plaintiff is seeking damages to the vehicle in the amount of \$1,153.00. The matter has been referred to the Attorney General's office for the defense of the State.

L-7419 State of Oregon v. Virginia Fredric McGahan. This is a suit seeking an injunction to prevent a violation of the Scenic Waterways Act. Defendants are cutting timber in an area designated as part of the Scenic Waterways System. This case was filed in Clackamas County.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
APRIL 19, 1977

April 19, 1977
Bend, Oregon

The Oregon Transportation Commission held their formal meeting at 9 a.m. in the City Council Chambers in Bend, Oregon. Notice of the meeting was made by press release to newspapers of general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
Warren Gaskill, Deputy Parks Superintendent
Max Klotz, Special Assistant for Intergovernmental Affairs
George Bell, Director of Public Affairs
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Klotz:

- 1) Minutes of the meeting of March 15, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2658" on file in Commission's files, Salem.)
- 3) Petition for street improvement on S.E. Powell Court in the Mt. Hood Freeway Corridor. Authorized Right of Way Engineer to sign petition favoring the project.
- 4) Installation of a traffic signal on the Pacific Highway East north of Salem at the Chemawa Road intersection at an estimated cost of \$60,000 to be funded with Federal High Hazard Funds. Highway Division will supply critical materials so signal can be installed as expeditiously as possible.
- 5) Supplemental Agreement No. 7 with Howard, Needles, Tammen and Bergendoff relative to the I-205 noise study report extending the time limit for completion of the project to December 31, 1977. No additional funds.

- 6) Adopted resolution abandoning a one-mile segment of old right of way on the Winston-Shady Interchange Section of the Coos Bay-Roseburg Highway in Douglas County. ("Abandonment Resolution No. 562" on file in the Commission's files, Salem.)
- 7) Authorized increases in project authorizations on the following contracts:
 - a. Contract No. 8170, Veneta-Middle Fork Coyote Creek, Florence-Eugene Highway, Lane County, in the amount of \$14,644.24.
 - b. Contract No. 8445, Umpqua River (Scottsburg) Bridge, Umpqua Highway, Douglas County, in the amount of \$14,540.98.
 - c. Contract No. 8412, Boardman Safety Rest Area, Columbia River Highway, Morrow County, in the amount of \$61,772.31.
- 8) Increased the fee schedule of the rules and regulations for State parks effective May 14, 1977, as follows: ("State Parks Resolution No. 39B" on file in the Commission's files, Salem.)

| | <u>New Approved
Rate</u> |
|--|------------------------------|
| a. Organizational camps at Silver Falls and Emigrant Springs State Parks | |
| (1) Each person per night (including staff) | \$ 1.00 |
| (2) Daily minimum charge | \$20.00 |
| b. Swimming pools at Silver Falls State Park | |
| (1) Heated pool at Silver Creek Camp | \$30.00 (Daily) |
| (2) Unheated pool at Smith Creek Camp | \$20.00 (Daily) |
| c. Group trailer fees at North Falls Camp at Silver Falls State Park | |
| (1) Each trailer, camper, motor home, etc., per night | \$ 2.00 |
| (2) Minimum nightly charge per group | \$20.00 |

(continued on next page)

| | <u>New Approved
Rate</u> |
|---|------------------------------|
| d. Advance reservation fees | |
| (1) Fee for each individual
campsite reservation | \$ 2.00 |
| (2) Fee for each site in a club
camping reservation | \$ 2.00 |
| e. Group tent camping | |
| (1) Daily charge for group camping
areas payable before occupancy | \$10.00 |
| f. Extra vehicle in campsite, per night | \$ 2.00 |
| Where an additional vehicle is
allowed to occupy a campsite, there
is an additional charge for each
extra vehicle. | |
| g. Lantern rental at Lava River Caves
State Park | |
| (1) Rental of State-owned lanterns,
each | \$ 0.50 |
| 9) Agreement with Oregon State University for planning,
development, operation, supervision and administration
of the seasonal park naturalist program during June to
September 1977. Cost not to exceed \$47,125.51 | |
| 10) Request by City of Portland for Greenway Grant-in-aid
to acquire two parcels of land on the east bank of the
Willamette River just north of the Sellwood Bridge. Total
cost of acquisition is \$663,000; State's grant-in-aid
portion is \$165,750. (Item deferred from Consent Calendar
at 3-15-77 Commission meeting.) | |
| 11) Authorized payment of \$150 as dues to the National
Association of State Outdoor Recreation Liaison
Officers. | |
| 12) Cancelled an Off-System Project on the 10th Street-
16th Street Section of Collier Street in the City of
Coquille at a cost of \$120,000. City requested
cancellation of project due primarily to objections
of abutting property owners when asked to provide
the local matching funds. | |

13) Three requests of Urban System Projects as follows:

- a. Widen and improve the West Side Truck Route in the City of Baker (Auburn Avenue-Baker-Unity Highway Section, 10th Street, Myrtle Avenue and 5th Street). Cost \$73,000. Federal funds \$62,780. State's \$5,110.
- b. Widen and improve Front Street in Salem (Division Street-Trade Street Section). Cost \$75,000. Federal funds \$64,500. State's \$5,250.
- c. Seal roadway expansion joints and resurface west approaches to Broadway Bridge in Portland, Multnomah County. Cost \$100,000. Interstate Transfer Funds from the former Mt. Hood Freeway in the amount of \$86,000 will be utilized with the County providing \$14,000.

Granted authority to sign agreements when prepared.

- 14) Equipment rental rates used for contract force account work. Increases in fuel costs and ownership costs since November 1, 1975, justify an across-the-board 6% increase of the last published rate effective May 1, 1977. (Federal Highway Administration and Associated General Contractors concur in the increase.)
- 15) Authorized staff to request Ways and Means Committee approval to apply for and receive a \$30,000 Federal Grant application for a Transit Management Assistance Program.
- 16) Changed Administrative Rule 1 OTC 46 dealing with airport licensing standards and procedures. (Copy of rule on file in the Commission's files, Salem.)
- 17) Financial aid to six municipalities; six grants totaling \$55,268 to be allocated from the State Aeronautic's Fund. The allocation will be as follows:

| | |
|--|----------|
| Port of Astoria | \$15,000 |
| Land acquisition, airport lighting and runway profile correction and paving. | |
| City of Bend | \$14,000 |
| Reconstruction of runway and taxiways. Land acquisition. | |
| City of North Bend | \$19,445 |
| Overlay runways | |

(continued on next page)

| | |
|-----------------------------|----------|
| City of The Dalles | \$ 2,000 |
| Install new runway lighting | |
| City of Pendleton | \$ 2,550 |
| Prepare airport master plan | |
| City of Redmond | \$ 2,273 |
| Prepare airport master plan | \$55,268 |

Mr. Klotz stated that Mr. Coulter had previously sent to the Commission an informational report concerning consultant services for environmental studies on the Corvallis project.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

The Commission approved for presentation to the Budget Division, Executive Department, the following adjustments to the Governor's recommended budget for 1977-79 for the Office of the Director as recommended by Mr. Don Streum:

| <u>Program</u> | <u>Governor's Recommendation</u> | <u>Adjustments</u> | <u>Revised Recommendation</u> |
|------------------------------|----------------------------------|--------------------|-------------------------------|
| General Administration | | | |
| General Fund | 1,586,693 | 0 | 1,586,693 |
| Other Funds | 2,054,354 | (764,123) | 1,290,231 |
| Total | 3,641,047 | (764,123) | 2,876,924 |
| Administrative Services | | | |
| Other Funds and Total | 11,651,707 | 52,961 | 11,704,668 |
| Policy & Program Development | | | |
| Other Funds and Total | 1,144,618 | 512,387 | 1,657,005 |
| Operations | | | |
| Other Funds and Total | 1,831,999 | 42,519 | 1,874,518 |
| Total Expenditures | | | |
| General Fund | 1,586,693 | 0 | 1,586,693 |
| Other Funds | 16,682,678 | (156,256) | 16,526,422 |
| Total | 18,269,371 | (156,256) | 18,113,115 |

Mr. Streun outlined the following changes:

- 1) The functions of Planning and Transportation Research have been combined to form the Policy and Program Development function, and positions are transferred to reflect these changes.
- 2) The position used for Assistant Director for Planning (Highway Engineer 8) was transferred to the Highway Division and eight Engineering Aide positions were abolished.
- 3) The Deputy Director position has been reassigned to assume the duties as Assistant Director for Policy and Program Development.
- 4) Intergovernmental Affairs and Public Affairs functions were combined and positions are transferred to reflect this change. The position of Public Affairs Director is abolished and Mr. George Bell will be the Special Assistant for Intergovernmental and Public Affairs.

Mr. Streun said the changes in the Office of the Director result in a reduction of \$156,256.

Mr. Streun presented a supplemental 1977-79 budget request for the Highway Division and Parks and Recreation Branch. He said this will be presented to the Budget Division, Executive Department, and covers the following items: Transfers In regarding Federal Funds, Local Government; Expenditures for Legal Section, Administration Allocation Changes, Metropolitan Section, Construction Program, Other Construction, Real Property Purchasing, State Construction, State Bond Projects; Parks and Recreation Program covering Administration, Maintenance and Operation, Park Site Acquisition-Base Budget, Willamette Greenway-Site Acquisition; and Ending Fund Balance. The Commission approved the supplemental budget as recommended by Mr. Streun. (Copy of supplemental budget on file in the Commission's files, Salem.)

In addition, Mr. Streun said, two legislatively directed programs were not included in the 1977-79 budget and he requested authorization to add the State matching requirement of \$20,000 for the Lifeguard Program and \$100,000 for the Bear Creek Greenway in Jackson County. These amounts to be deducted from the Ending Fund Balance.

Mr. Streun also requested authorization to increase the Parks Administration Services and Supplies Budget by \$25,000 with an offsetting decrease to the Highway Division Administration and Supervision Memo Budget. He said the Justice Department has revised their billing procedures for legal services and will bill Parks directly instead of the Highway Division.

Under the Administration and Supervision Memo Budget, he recommended transferring a Highway Engineer 7 position from ODOT Planning Section to the Metropolitan Section to manage the activities of four technical services units. The \$71,485 will be transferred from Metro to the Construction Program so there will be no increase in the Administration Memo Budget.

Mr. Streun mentioned there will be a \$230,000 savings in Highway Administration as a result of downward classifications and elimination of management positions.

Mr. Burco stated in the coming biennium there is a savings of \$160,000 in the management positions in the Office of the Director. In the Highway Division there is a \$230,000 savings by reducing the levels of management and making some transfers. Overall, in terms of reduced positions in the last year, approximately 12 million dollars has been saved from engineering overhead, planning and management costs and will be used for highway maintenance and rehabilitation.

He mentioned in the future that the Department will be looking at maintenance costs, possibly negotiate with cities and counties for contractual relationships in maintenance and some shared facilities and services to affect some major savings for the cities, counties and the State.

Mr. Klotz reported on the following bills recently introduced by the House Revenue and School Finance Committee:

- 1) HB 3260 - Imposes an additional \$50 biennial fee on certain business vehicles* for which tax deductions in the way of depreciation and operating expenses or mileage is claimed.

Said fees to be collected by the Motor Vehicles Division and credited to the General Fund for the State Police for policing public highways, roads and streets in Oregon.

* Exempt vehicles include motorcycles, farm vehicles, trucks, trailers, armored cars, wreckers, buses, tow cars, mobile cranes, hearses, ambulances and mobile homes.

- 2) HB 3261 - Authorizes a biennial tax on 1978 and later passenger vehicles based on the cubic inch displacement of the vehicles' engines. The tax is graduated so the owner of a small engined car pays less per cubic inch than the owner of a larger engined car.

This tax generally is higher than the CID tax proposed in HB 2141 but since it is a biennial tax instead of an annual tax it ends up being a little lower.

- 3) HB 3262 - is identical to HB 2140 which was introduced with these exceptions:

Limits farm truck licenses to vehicles 46,000 lbs. or less instead of 28,000 lbs.

Places no restriction on the number of trucks an owner may have on the flat fee option (2140 limited the number to four).

Contains no implementation date. (The operative date in 2140 was October 1, 1977.)

- 4) HB 3263 - adds \$1 to both Oregon's biennial vehicle license fee and the driver's license fee and places an additional fee (not set) on out of state users of the parks.

The money generated by these additional fees is added to the registration fees collected for campers, mobile homes, motor homes and travel trailers and placed in a special account in the Highway Fund to be used by the Highway Division for the acquisition, development, maintenance, etc., of park and recreation sites.

This special park fund would not be subject to the 12% city and 20% county appropriations.

Mr. Al Driver, Director of Public Works for Lane County and Co-Chairman of an Association of Oregon Counties Technical Advisory Committee on Transportation, reported on the County Road Need Study. Mr. Driver handed to the Commission a copy of the report. (Report on file in the Commission's files, Salem.)

He said the purpose of the study is to obtain a rating of road surface conditions, lineal feet of structural deficiencies, operational improvement needs, known new and reconstruction projects, and adequacies of existing maintenance budgets. Other purposes include the ability for each County to have a record of their deficiencies, to seek alternative financing if required, to collectively present the overall need along with the trends, and seek support of financing the needs.

The study rated the surface conditions of the existing system. The study also indicated a number of deficient structures along with the need to make operational improvements of traffic signals, channelization, guardrail installation and railroad crossing signalization.

Mr. Driver pointed out that a review of the past and projected revenue, along with past and projected expenditure, shows that in a few years the revenue generated will be needed to maintain this system. The Counties will not be financially capable of preserving the system with asphaltic concrete or oil mat overlay.

Mr. Driver thanked Mr. Blensly and staff for their assistance and indicated a final report and document will follow.

Mr. Burco mentioned that on a recent field trip along the Oregon Coast, he observed the Department of Transportation Divisional Field Managers have little or no occasion to communicate with each other and are unaware of each other's activities. He said that he had appointed a committee of Scott Coulter, David Talbot, Harold Grover and George Bell to see what could be done to increase communication among the Department of Transportation Field Engineers and to stimulate interest and awareness of each other's duties and problems.

Mr. Bell reported that the Committee looked for a geographic "common denominator" among the 16 District Engineers' offices, 47 Department of Motor Vehicle offices and 30 Parks Districts as a means of identifying locations where DOT Managers could meet periodically.

The Committee made the following recommendations:

- 1) That division managers of Parks, Highway and Motor Vehicles be requested to meet at least once every quarter (see Commission files, Salem, for list of locations) to discuss the following items: opportunities for self-evaluation, improvement of 2-way communication, information sharing, reaction to ODOT's policies and programs, monitor local news media, discuss developments in management-labor relationships.
- 2) That a Salem headquarter's staff person be assigned responsibility for maintaining communication with the managers, to provide agenda items for their meetings and to process their incoming messages.
- 3) That ODOT administrators would be available to attend the managers' meetings from time to time to increase the exchange of communication.
- 4) That the program be reviewed in a year to see whether this "pilot" effort merits further expansion to include other managers in areas not involved with this present plan.

The Commission accepted his report.

The Commission set Tuesday, May 17, 1977, for their next regular meeting in Salem.

Attention was given to a request from the Public Utility Commissioner for the Department to design a Port of Entry on The Dalles-California Highway (MP 272.3) just north of Klamath Falls, Klamath County. Mr. Klaboe explained that the proposal is similar to the existing Port of Entry at Ashland and the one under construction at Farewell Bend near Huntington. PUC has \$760,000 budgeted for this facility; no date has been established for construction. He said incorporated into the design will be a climbing lane north of the facility to allow slow-speed trucks to accelerate and merge with normal traffic flow. Right of way will be required. Following his favorable recommendation, the Commission gave their approval to this request.

Mr. Klaboe reported that it has been the policy of the Department to install painted edge stripes on the State Highway System only on those pavement widths of 24 feet or greater (minimum of 12-foot lanes).

He said Representative Mark Gardner of District No. 4 in Washington County mentioned to him that a considerable amount of mileage on the State Highway System in his District is without shoulder striping. To improve traffic operation and safety, particularly during periods of inclement weather, Mr. Klaboe recommended as a policy matter that the Department (Highway Division) install shoulder striping on highway widths down to a minimum of 22 feet (minimum lane width of 11 feet) contingent upon having a couple of feet of shoulder adjacent to the pavement edge. Mr. Klaboe pointed out there are 1,023 additional lane miles of shoulder striping that would have to be painted with this revised policy. At \$107 per mile, the additional amount expended per application is \$109,500. This work is fundable for the first three years of application under the Federal Title II Safety Program at no expense to the State. The Commission approved the change in policy of highway shoulder striping.

Mr. Rulien handed to the Commission copies of a booklet entitled "Realignment of the Federal-Aid System and Functional Classification of Roads and Streets in Oregon." (Booklet on file in the Commission's files, Salem.) He recalled that the Commission acted on the functional classification of roads and streets at its meeting on January 22, 1976 and the realignment occurred last July. Mr. Rulien referred to the maps in the back of the booklet. He said one map lists the various routes in color which may be considered for jurisdictional change. Another map shows the State Highway System, color coded, to indicate the Federal Aid System that State Highways are on. The report covers a brief outline on the county roads that have been classified as arterials which might be considered for exchanges or trades.

Mr. Coulter recalled that at the December 21, 1976 Commission meeting Clackamas County proposed a transfer of the Canby-Marquam Highway in return for the Boring County Road in Clackamas County. Mr. Coulter said the county road is functionally classified as a minor arterial (a classification more appropriate for a State Highway)

and eligible for Primary Federal Aid funds, whereas the Canby-Marquam Highway is functionally classified as a major collector, the classification that would apply to many county roads. In reply to the Chairman's inquiry, Mr. Coulter said the trade is in the best interest of the State in terms of the basic Highway System. The Commission approved the exchange of highways as recommended by Mr. Coulter.

Mr. Coulter reported on the bridge inspection program and the recent collapse of a portion of the Isthmus Slough Bridge in Coos County. He mentioned the bridge collapse was caused by a marine limnoria (gribble) which attacks wood. The Isthmus Slough Bridge damage has called attention to the State's bridge inspection program which has been in existence for many years. He said immediate concern was the adequacy of the present program to prevent any further bridge failures. The damage was in the piling below the pedestal that supports the timber spans themselves. The limnoria can only live in salt water that has certain salinity. He said there is some indication that the gribble problem could have been aggravated by the draught as there has not been as much fresh water to move the salt water back into the ocean. The underwater inspection team inspected this particular bridge twice last year and inspection never revealed that at any time was mud away from the piling that supported the pedestal.

Mr. Coulter mentioned that the State's divers have inspected all pilings that are exposed to salt water in the Coos Bay area and are proceeding along the coast. The divers found some additional damaged piling in several structures in the Coos Bay area. He pointed out that repairs are under way by encasing the damaged piling in concrete, creating a reinforced concrete collar around the piling. Additional testing equipment is now being brought in to check the salinity.

The British Columbia Research Council of Vancouver, British Columbia, with their underwater sonic equipment are now testing the soundness of the pilings in Coos Bay. A procedure that has been used to keep the bugs out is a protective wrap-around piling, using a heavy grade of plastic wrap. Mr. Coulter said they were going to institute an educational course so they could learn as much as possible about various types of wood-eating marine life. The Commission gave their authorization to make the necessary repairs by contracts or State forces, and equipment rental if necessary to undertake this more extensive investigation of the State's bridges. (This approval included the agreement with the British Columbia firm.)

Consideration was given to the relinquishment of certain properties (approximately 22 acres) along Front Avenue in the City of Portland. Mr. Coulter stated that the development and use of the land between the Central Business District and the old Harbor Drive and Front Avenue along the waterfront has been the subject of a number of agreements between the State and the City. With the

completion of the Fremont Bridge, an alternate facility was provided so that through traffic could be removed from Harbor Drive and placed on a widened Front Avenue. He said the Commission is being asked to transfer the land because the Portland Development Commission plans to open bids in early May for construction of a portion of the waterfront park and needed assurance that the land would be available. (A historical overview of the property, a map depicting the affected parcels and supporting correspondence are on file in the Commission's files, Salem.) Upon Mr. Coulter's recommendation, the Commission approved the relinquishment of properties to the City of Portland with certain portions of the land to be used for park and recreation purposes. The Right of Way Engineer was authorized to execute a deed with the appropriate clauses on behalf of the State.

Mr. Coulter reported that in support of the emergency conservation concepts identified by Governor Straub, the Department has a proposed highway illumination policy. He said the policy provides for the safe and orderly movement of traffic while also considering the energy conservation policies of the State. It also provides for a method by which the State can reduce the existing illumination following various investigations and analysis so that it will be done without making the area unsafe for the motoring public. The guidelines have also been reviewed by the Director of the Department of Energy. The Commission approved the illumination policy as recommended by Mr. Coulter. (Policy on file in the Commission's files, Salem.)

The Commission discussed the HOV lanes on the Banfield Freeway in the City of Portland. The Chairman stated the experimental stage ends in July 1977 and the traffic using the lanes is static. The Commission requested that the Banfield Freeway HOV lanes be modified as follows:

- 1) Allow taxi cabs use of the lane
- 2) Reduce the number of persons in the car from three to two
- 3) Reduce the hours of operation from three to two both in the morning and in the afternoon.

Commissioner Brix stated that if CRAG feels that these changes are not feasible that they should give their reasons by the May Commission meeting. Mr. Coulter indicated that CRAG would be advised of the Commission's recommendations and he would report back to the Commission of CRAG's findings.

The meeting recessed at 10:25 a.m. and reconvened at 10:35 a.m.

Commissioner Brix said that the Department of Transportation dropped a bridge on one of his towboats on the Columbia River at the Interstate Bridge on I-5 (Pacific Highway) between Portland, Oregon, and Vancouver, Washington, and are not willing to pay for it and as a result, he is suing the Department. He said that he has a conflict of interest and will not participate in any discussions in connection with the law suit.

PUBLIC COMMENTS

Judge H. B. Elder of Wasco County appeared before the Commission representing the Association of Oregon Counties Transportation and Parks Committee. He complimented the Department on the "Oregon Transportation Commission Policies 1977" and on its report, "A Look Ahead". The Judge recommended that a local officials advisory committee of eight to ten members be formed to work with the Oregon Department of Transportation on future policies and programs. He presented to the Commission a letter concerning this matter. He also presented a copy of the Association of Oregon Counties' resolution which was recently adopted recommending more funding for the Federal Aid Highway System. (Letter dated April 18, 1977, and resolution dated March 28, 1977, on file in the Commission's files, Salem.)

Chairman Jackson said the Department's experience in involving counties in Ballot Measure 8, for example, was very discouraging. There was a diverse opinion in terms of what the Department should do. He said this has to be approached on a collective basis and the Judge's idea of the creation of an advisory group would help coordinate efforts for a common ground of understanding and the necessary goals if this problem is going to be solved.

Judge Herschel Read of Jefferson County was present and commented on businesses (subdivisions) that are being constructed along the State highways. He indicated these people should contact the State and Counties for permission for an access and if a left-turn refuge is required they should pay for it. The Judge pointed out a dangerous situation at the Safeway Store at the north end of Madras as no provisions were made for left-turn movements. He also mentioned the access roads leading to a park in Jefferson County that was constructed by PGE. He said the County cannot afford to maintain the roads and he felt the State should take them over. The Chairman asked Mr. Coulter to contact the Judge concerning the access problem.

Mr. Charlie Plummer, Deschutes County Roadmaster, read a letter from Deschutes County Board of Commissioners outlining the following priority list for highway improvements in Central Oregon and requested that the projects be included in the next fiscal year's budget:

- Priority No. 1: Total four-lane construction of Highway 97 north from Bend to Crooked River Bridge.
- No. 2: Overlay the Brothers Section, Highway 20 east - M.P. 36.3 to M.P. 47.0.
- No. 3: Reconstruct Bend to Horseridge Section, Highway 20 east.
- No. 4: Left-turn lanes on Highway 97 if the four-lane construction is not completed:
 - a) Memorial Gardens
 - b) Big R
 - c) Deschutes River Woods

The letter stated that if all projects cannot be funded in one year they would recommend at least one project per year until all projects are completed.

Mr. Dick Carlson, City Councilman of Bend, referred to two wall maps showing the existing and proposed Bend Area General Plan. He pointed out the problems that have developed over the last 15 years since Third Street has become a major street. He said the average daily traffic has increased from 4 or 5,000 to 20,000 vehicles. Mr. Carlson said a committee was formed last year to look at the traffic problems and to come up with some solutions. He commented on the need to widen the Third Street Underpass but realizes the State does not have the \$6 million needed for the project.

The Committee's first priority is to develop a north-south route without having to use Third Street. He said Division Street would be the most acceptable alternative to Third Street and asked for help in developing it. He mentioned two or three alternatives at the south end of town and suggested that these could be viewed on the afternoon bus tour.

He said the second priority is at the north end of town at Addison Avenue connecting over to Fourth Street and could tie in to Studio Road, a major north-south route. He asked the Department for help in the study and construction of the facility at Addison Avenue.

Mr. Carlson said a third priority fits into the general, long-range plan which is an alternative route to the east around town.

He concluded by saying the fourth priority is to bring Division Street to an ultimate highway standard. (The priorities are shown on the maps which are on file in the Commission's files, Salem.)

Attention was given to a request from Dr. Robert Egan to construct a small cabin at a new location within the Illinois River Scenic Waterway in Josephine County. Mr. Gaskill stated that Dr. Egan's request was denied at the January 18, 1977, Commission meeting as the location was on a high bluff overlooking the river where it would have been visible. The new site is on the O'Connor Creek draw well behind the bluff line and 205 feet from the river bank. Mr. Gaskill recommended approval of the new location, subject to Dr. Egan's execution of a scenic easement assuring protection of the vegetation and compliance with the details in his plan. The Commission accepted his recommendation.

PUBLIC COMMENTS

A delegation from Coos County came before the Commission concerning priorities for highway improvements and reconstruction projects. Present were Donald Williams, Planning Commission, Coos Bay; Larry Dalrymple, City Manager of Coquille; and Anita Hale, member of the Coos Bay Citizen's Regional Planning Committee and representing the East-West Highway Committee.

Mr. Williams commented on the gribbles that are eating the bridge abutments in Coos County and pointed out there is a need for an action policy not a reaction policy. He said that he lives adjacent to the Coalbank Slough Bridge and the gribbles are eating at it. It is a substandard bridge and is a part of Highway 42. Mr. Williams mentioned that their group discovered a few months ago that their Six Year Plan had been modified and extended. The Port of Coos Bay has significant figures to prove Highway 42 is a revenue producing highway. He called attention to a decrease in population in the City of Coos Bay and Coos County. He urged the Commission to adhere to the original Six Year Highway Improvement Plan, particularly as it applied to Highway 42. Mr. Williams felt that it is the duty of the Department of Transportation to help implement the Land Conservation and Development goals.

Mr. Dalrymple handed to the Commission a letter dated April 19, 1977. The letter pointed out a delay in the China Camp-Marsh portion of Highway 42 improvements, the delay in the Coquille Bypass, the accident rate on Highway 42, the five 90-degree corners which makes it virtually impossible for large trucks to negotiate legally, and that the Department of Transportation has the authority to sell bonds for reconstruction up to \$297,000,000.

He mentioned that the increased traffic that would be generated over Highway 42 if it were improved added to the revenue now being taken from Douglas County would more than pay to retire the bonds. He urged the Commission to reinstate the schedule and timetable for improvements as stated in the Department's 1975 Six Year Improvement Plan and to add the Coquille Reroute Section and back up the commitments made to Highway 42 in the last two years.

Anita Hale stated that Highway 42 is nationally significant and is an integral part of the Port of Coos Bay multi-modal interstate transportation corridor. She said highway and water transportation moves a volume of tonnage in this corridor placing the Port of Coos Bay the second largest port in the West. She mentioned there are more products shipped out of the Port of Coos Bay than any other port in Oregon and it is the only major United States shipping port corridor without a highway classified as interstate. She said there are over 400 trips a day of chip trucks traveling Highway 42 and for the next several years because of large salvage timber sales the highway may handle 400 log trips a day in addition to the existing traffic. (Copy of Ms. Hale's Highway 42 Report on file in the Commission's files, Salem.)

Chairman Jackson commented that the Legislature created the Commission with members from each congressional district and each Commissioner has a Statewide responsibility in trying to meet critical needs of the State with a limited amount of funds. He said the Commission appreciates the concern of the people in Coos Bay in connection with Highway 42 but the Department does not have the money to complete this job. He stated the change in allocations was based on the critical need to maintain the State's existing highways and the amount of money available to maintain the existing highways was not adequate to do the job; therefore, construction projects had to be set back from one to two years. The Chairman said the decision to delay these projects and to meet higher priority needs were made on an unanimous basis by the Commission as a whole. The Commission will do everything possible to complete Highway 42 but it cannot be done unless the money is available. In connection with Commissioner Coleman's remarks concerning looking to the Legislature to find ways to finance these projects, Chairman Jackson said the Commission needs their help and support in working with the Legislature.

Mr. Rob Volkenand of Bend pointed out the need for bicycle paths in the Bend area. The Chairman suggested that Mr. Volkenand contact the County authorities concerning priorities for bicycle paths.

An individual from Harney County stated that none of the County Commissioners could attend the meeting. He thanked the Commission for holding the meeting in Bend and suggested that future meetings be held around the State to give the public an

opportunity to participate. He stated they had no particular problem in his County but asked the Commission to keep in mind the hazardous section toward Burns. He commented that he supported the Deschutes County request and the City of Bend's presentation.

Mrs. Alice McCormick, Manager of the Redmond Chamber of Commerce, was present and stated that the Chamber supports the Deschutes County request for the construction of a four-lane highway from Bend north to the Crooked River Bridge (Highway 97). She said the plan for a turn-lane on Highway 126 from Highway 97 to the west city limits of Redmond is also supported by the Chamber of Commerce.

Chairman Jackson thanked the delegations for appearing. He said Oregon is unique in that it has nearly a registered vehicle for every man, woman and child in the State. In addition, Oregon has approximately 3½ million vehicles that come into the State during the tourist season. The Commission recognizes that the life of many of these communities depend upon an adequate transportation system but with no money available, the projects are delayed.

Mr. Gary Capps, Highway Chairman of the Bend Chamber of Commerce, presented a written statement showing the rapid growth of the area and asked the Commission for assistance in relieving the traffic problems in the Bend area. (Statement on file in Commission's files, Salem.)

The Chairman adjourned the meeting at 12 noon.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7431 LaVonne M. Boss, personal representative of the Estate of Michael O'Neal Boss, deceased, v. State of Oregon, by and through its Highway Department, et al: This case arises out of an accident that occurred on December 21, 1975 in which a vehicle driven by the defendant Robert H. Kephart collided with a vehicle driven by David Knight. Michael Boss was a passenger. The allegations of negligence against the state are based on the bridge on which the collision occurred being covered with ice, not sanded properly, no warning signs posted indicating an icy condition and failure to maintain the surface by allowing a large uneven ridge of ice to form on it. The case has been referred to the Attorney General's office for the defense of the state. (Lane County)

L-7432 D. D. Ellis v. State Highway Engineer, Oregon State Highway Division: Plaintiff seeks judicial review of the denial by the Highway Division of his application for a permit to construct an improvement in an ocean shore area. (Clatsop County)

L-7433 Pearl Hunt, as Trustee of the Testamentary Trust of Harry J. Hegar, deceased, v. State of Oregon, Transportation Commission, et al: This case arises out of the reconstruction of a bridge over the Pudding River on Clackamas County Road number 619. The suit alleges damages to the plaintiff's property by reason of the reconstruction of the bridge and the raising of the approaches to the bridge. The lawsuit also names Clackamas County Board of County Commissioners as a party defendant. The amount of the lawsuit is for \$34,500 and has been referred to the Department of Justice for handling.

L-7434 Charlene Beth Sproles v. George D. Spencer and The State of Oregon: This lawsuit arises out of an accident that occurred on April 22, 1974, in Douglas County, in which a child of the plaintiff was killed in an accident that occurred on I-5 in the area of construction near Mt. Nebo. The complaint alleges quite a few elements of negligence in failing to provide adequate protection against falling rocks and plaintiff is seeking \$200,000 for damages because of the emotional trauma and psychic injury resulting from having her child killed in the car in which she was riding. The matter has been referred to the Department of Justice for handling.

SUBJECT: Agenda Item for Commission Meeting April 19, 1977
(Actions by Aeronautics Administrator under delegated authority)

The following information report is submitted concerning real property actions I have taken under the authority delegated to me by Commission Order No. 18.

This will appear in the agenda as an information item only.

- 1) On December 22, 1975, executed Quitclaim Deed from Oregon State Aeronautics Division (OSAD) to the City of Wallowa, Oregon transferring ownership of Wallowa State Airport to the City of Wallowa.
- 2) On December 22, 1975, executed a 1-year Farming Lease between OSAD and Joe L. Gilbert, covering state-owned land to be farmed at the Lebanon State Airport.
- 3) On December 22, 1975, executed a 5-year lease between OSAD and Joe L. Gilbert for Hangar Site E-1 at the Lebanon State Airport.
- 4) On December 22, 1975, executed a 4-year, 10-month Farming Lease between OSAD and James E. Lewis, covering state-owned land to be farmed at the Tri City State Airport.
- 5) On December 22, 1975, executed a 5-year lease between OSAD and Ellis Hallman covering Hangar Site E-13 at the Lebanon State Airport.
- 6) On December 29, 1975, executed a 5-year lease between OSAD and Fred W. Flesher for Hangar Site W-3 at the Lebanon State Airport.

- 1965 -

A DIVISION OF THE DEPARTMENT OF TRANSPORTATION
A MEMBER OF NATIONAL ASSOCIATION OF STATE AVIATION OFFICIALS

- 7) On January 2, 1976, executed a 5-year lease between OSAD and Fred Mountain covering Hangar Site W-8 at the Lebanon State Airport.
- 8) On January 2, 1976, executed a 5-year lease between OSAD and Mercedes F. McDaniel on Hangar Site E-8 at the Lebanon State Airport.
- 9) On January 19, 1976, executed a lease between OSAD and Larry Buchanan covering Hangar Site W-2 at the Lebanon State Airport.
- 10) On January 29, 1976, executed a 5-year lease between OSAD and Norman L. Coffelt covering Hangar Site E-6 at the Lebanon State Airport.
- 11) On January 22, 1976, executed a 5-year lease between OSAD and Dr. and Mrs. William Lohr covering Hangar Site E-11 at the Lebanon State Airport.
- 12) On February 12, 1976, executed two 5-year leases between OSAD and Kenneth Bond covering Hangar Sites W-7 and W-11 respectively at the Lebanon State Airport.
- 13) On March 3, 1976, executed a 5-year lease between OSAD and David Tom covering Hangar Site W-5 at the Lebanon State Airport.
- 14) On March 18, 1976, executed a 5-year lease between OSAD and Gilbert Morgan covering Hangar Site W-6 at the Lebanon State Airport.
- 15) On March 23, 1976, executed a Quit Claim Deed transferring title of the Wakonda Beach State Airport access road to Lincoln County.
- 16) On May 3, 1976, executed a Certificate of Compliance to Department of Transportation Regulation No. 25 covering parcels of land under File Numbers A-16, A-17, A-18, A-19, A-20, A-23 and A-24 in conjunction with the Lebanon State Airport Improvement Project under the Airport Development Aid Program (ADAP) No. 7-41-0033-01.
- 17) On June 14, 1976, executed a 5-year lease between OSAD and E. A. "Al" Warthen covering Hangar Site #1 at the Lakeside State Airport.
- 18) On September 22, 1976, executed a 9-month Temporary Ingress/Egress Permit for the commercial operations of Watkins Brothers Aviation at the Chiloquin State Airport.
- 19) On October 5, 1977, approved an Assignment of Lease from Murray Vaughan to Shield Enterprises, Inc., covering Hangar Site E-5 at the Lebanon State Airport.

- 20) On October 8, 1976, executed a Deed from OSAD to Ada V. Turner for a portion of property previously acquired under File No. A-4 of the Siletz Bay State Airport Improvement Project, ADAP No. 7-41-0020-01. This deed was necessary to correct a survey error.
- 21) On October 8, 1976, executed a Deed from OSAD to Jordan S. Wells et ux for a portion of property previously acquired under File No. A-4 of the Siletz Bay State Airport Improvement Project, ADAP No. 7-41-0020-01. This deed was necessary to correct a survey error.
- 22) On November 4, 1976, executed a 5-year lease between OSAD and Frank V. Hill, covering Hangar Site W-4 at the Lebanon State Airport.
- 23) On November 12, 1976, executed a Subordination Agreement with Pacific Power and Light Company covering File No. A-27 at the Powers State Airport wherein the easement rights of PP&L were subordinated to those of OSAD.
- 24) On November 15, 1976, executed a Right-of-Way Easement from OSAD to Pacific Power & Light Company for the installation of an underground primary and pad-mount transformer located at the Independence State Airport.
- 25) On November 15, 1976, executed a 5-year Mobile Home Site Lease between OSAD and Fred M. Compton, Manager of Mid-Valley Air Service, Inc., fixed base operator, for a 24' x 60' area at the Independence State Airport.
- 26) On November 19, 1976, executed a 1-year Farming Lease between OSAD and Joe L. Gilbert, covering state-owned land to be farmed at the Lebanon State Airport.
- 27) On December 9, 1976, executed a 5-year lease between OSAD and Ernest J. Barnett covering "Barnett" Hangar Site at the Condon State Airport.
- 28) On January 21, 1977, approved an Assignment of Lease from Merle F. Story to A. B. Lewelling, covering Hangar Site #2 at the Siletz Bay State Airport.
- 29) On January 27, 1977, executed a 5-year lease between OSAD and Larry Wade covering Hangar Site "F" at the Condon State Airport.
- 30) On February 11, 1977, executed an 11-month Ingress/Egress Permit between OSAD and Wylie L. Campbell et al for their commercial operations at the Aurora State Airport.

April 11, 1977

- 31) On February 14, 1977, executed a 5-year Farming Lease between OSAD and J. O. Taylor, covering state-owned land to be farmed at the Powers State Airport.
- 32) On February 23, 1977, executed an Ingress/Egress Permit for the Aurora State Airport between OSAD and Reel Properties, Inc. et al.
- 33) On February 23, 1977, executed an Ingress/Egress Permit for the Toledo State Airport between OSAD and Glenn L. Jones.
- 34) On February 24, 1977, executed a tree cutting permit for 1 year at the Cape Blanco State Airport, given to Harold L. Knapp by OSAD.
- 35) On February 25, 1977, executed a 5-year Hangar Site Lease at the Lebanon State Airport between OSAD and Ron Fisher.
- 36) On February 28, 1977, executed a 3-year Ingress/Egress Permit for the Wasco State Airport between OSAD and Decker Air-Ag, Inc.
- 37) On March 7, 1977, executed an Ingress/Egress Permit to extend to December 31, 1977, for the Aurora State Airport between OSAD and Walter M. and Vera L. Bennett.
- 38) On March 22, 1977, executed a Right-of-Way Easement located at the Joseph State Airport granted by OSAD to Pacific Power and Light Company.
- 39) On April 1, 1977, executed a utility easement between OSAD and The City of Wasco.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
MAY 17, 1977

May 17, 1977
Salem, Oregon

The Oregon Transportation Commission held their formal monthly meeting at 10 a.m. in Room 122, Transportation Building, in Salem, Oregon. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
Don Streun, Assistant Director for Administration
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Mass Transit
Harold Grover, Administrator of Motor Vehicles
David Talbot, State Parks Superintendent
Max Klotz, Special Assistant for Intergovernmental Affairs
George Bell, Special Assistant for Public Affairs
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Klotz:

- 1) Minutes of the meeting, of April 19, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2659" on file in the Commission's files, Salem.)
- 3) Authorized payment of Oregon's subscription to the Research Correlation Service for the Fiscal Year 1978 in the amount of \$26,500.
- 4) Increased project authorizations on the following contracts:
 - a. Contract No. 8430 with F. H. McEwen Construction, Eagle Cr.-Klamath County Line Section of the Willamette Highway in Lane County, in the amount of \$43,322.95. (5.15% overrun)

- b. Contract No. 8455 with Ross Bros. Construction, Inc., "C" Canal Bridge Section of the Lower Klamath Highway in Klamath County, in the amount of \$6,187.39. (14.56% overrun)
 - c. Contract No. 8310 with Roy E. Ladd, Inc., Slater Creek-Mystic Creek Section of the Coos Bay-Roseburg Highway in Douglas County, in the amount of \$676,068.09. (8.7% overrun)
- 5) Adopted resolution abandoning 0.6 mile of old highway alignment in the MP 2.2 - 2.8 (Stringtown Rd.) Section of the Salem-Dayton Highway No. 150 in Yamhill County to the County. ("Abandonment Resolution No. 561" on file in the Commission's files, Salem.)
 - 6) Fiscal Year 1978 Annual Unified Work Program for Transportation Planning.
 - 7) Authorized the Aeronautics Division to ask the Legislative Assembly (Emergency Board or Ways and Means) for an increase in the 1975-77 budget capital construction limitation in the amount of \$153,558 to utilize Federal Funds for the purchase of land adjacent to the Aurora State Airport in Marion County. This land is to be used for public aircraft parking and such other purposes as shown by the Master Plan for this airport published in 1976.
 - 8) Eight Urban System Projects:
 - a. Traffic signal on Crater Lake Avenue at Spring Street and McAndrews Road intersection, City of Medford. Total cost \$125,000; Federal Funds \$107,500; State's Share \$8,750.
 - b. Widen and improve a 1.38 mile section of N.W. Front Avenue, City of Portland. Total cost \$2,298,000; Federal Funds \$1,976,280; State's Share \$160,860.
 - c. Signalize intersection of S.E. 12th Street and S.E. Madrona Avenue, City of Salem. Total cost \$32,000; Federal Funds \$27,520; State's Share \$2,240.
 - d. Reconstruct a 0.74 mile section of E. Cleveland Street between Front Street and the Pacific Highway East, City of Woodburn. Total cost \$436,000; Federal Funds \$144,000; State's Share \$11,500.
 - e. Widen and improve 5th Street, City of Springfield. Total cost \$285,000; Federal Funds \$211,000; State's Share \$17,000.

- f. Widen and improve a 2.42 mile section of the Northwest Expressway (Prairie Road-Irving Road and Park Avenue-River Road (Eugene) Section). Total cost \$550,000; Federal Funds \$191,000; State's Share \$15,500.
- g. Widen and improve S.W. Barnes Road in Washington County. Total cost \$1,522,000; Federal Funds \$1,308,920; State's Share \$106,540.
- h. Widen and improve N.W. 185th Avenue in Washington County. Total cost \$420,000; Federal Funds \$361,200; State's Share \$29,400.

Cancelled a previously approved project on S.W. 49th Avenue-Kerr Road (S.W. Stephenson St.-S.W. Lower Boones Ferry Road (Lake Oswego) Section), in Clackamas and Multnomah Counties. (Project being withdrawn as a result of citizen opposition expressed by the Mountain Park Neighborhood.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders. (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Burco handed to the Commission copies of the testimony that he gave before the Congressional House Subcommittee on Surface Transportation on May 11, 1977, in Washington, D.C. (Copy of testimony on file in the Commission's files, Salem.) He said hearings were being held for the preparation of the 1978 Surface Transportation Act dealing with national highway and transit policies. The testimony, he said, was favorably received and the main points are to seek an end to the Interstate program and the rehabilitation of the existing primary, secondary and urban systems. He said there should be a concern for transit not only with the major metropolitan areas but with the intercity bus area and the question of operating assistance to small communities. Mr. Burco stated that he and Mr. Bell met with most members of the Oregon Congressional delegation, the National Governors' Conference, the National Conference of State Legislatures, the National Association of County Officials and AASHTO.

Mr. Rulien reported on the Federal decertification of planning in Lane County. He indicated there are three urbanized areas in the State that are charged with the responsibility for conducting transportation planning and their progress towards their planning effort. Their plan is reviewed periodically by the Federal Highway Administration and the Urban Mass Transit Administration. Mr. Rulien said the last review was held on the planning in the Eugene urbanized area and indicated several things were deficient in their progress and as a consequence the effort was decertified, so approval will not be received for the expenditure of any programs that are Federally funded after July 1, 1977. He said the area has been lacking a long-range transportation plan. A transportation systems management element has been developed which is short range and consists of lower cost, smaller improvement type jobs that would make the systems operate better. The Eugene Urbanized Area has been working on a plan to meet air quality requirements. These items have been submitted to the Federal Highway Administration and there is evidence that they will receive a conditional certification which would enable them to continue obtaining UMTA subsidies for their transit operations and allow them to go forward with other Federally funded projects.

The Commission set Tuesday, June 21, 1977, for their next regular monthly meeting.

Attention was given to a request from AASHTO for the Department to renumber Interstate 80 North. Mr. Klaboe said the reason for this proposed change was based on a policy of the American Association of State Highway and Transportation Officials calling for elimination of the cardinal direction in Interstate route numbers. For several years, Utah, Idaho and Oregon have considered the possibility of renumbering Interstate 80 North. The Department has been reluctant for such a change for several reasons. The estimated cost of changing the route shields was \$70,000 in 1975 and today it would be \$100,000. He said many businesses and cities have considerable advertising keyed into the route number. Also, tourist books, business letterhead and other items of advertising use the I-80N designation. Mr. Klaboe recommended that the renumbering of Interstate 80 North not be changed due to the current financial picture and possible public criticism. The Commission accepted his recommendation and authorized Mr. Klaboe to instruct AASHTO of the Commission's decision.

Mr. Klaboe reported that Marion County, the City of Salem and SATS have been working on the withdrawal of I-305. He handed to the Commission a sketch map of I-305 pointing out the route colored in orange is the Spur and connections to I-305 which will be withdrawn by their action. He said the yellow indicates the interchange between Chemawa Road and the I-5 facility. (Copy of sketch map on file in the Commission's files, Salem.) He continued that the City of Salem has obligated themselves to apportion a certain amount of funds they get from I-305 to build an arterial in the same corridor as the orange route and the City is to put up all

the match to build the arterial. Mr. Klaboe presented a letter from Marion County which asks that if the withdrawal is consummated as the County has requested, it leave the interchange still in the Interstate system. He pointed out the reason the County is so concerned about the interchange and have insisted on it remaining on the Interstate system is that the County has Cordon Road that comes around from the east and will cross the freeway at the proposed interchange just west of the Chemawa Indian School. The County has asked for a confirmation from the Transportation Commission and at the appropriate time if the interchange remains as a part of the Interstate as a result of this withdrawal, the Transportation Commission will build it.

In reply to the Chairman's inquiry, Mr. Klaboe said the State has agreed to an interchange at this location and it is already in the Interstate estimate. The interchange is justified excluding I-305. The Commission approved retaining the Chemawa Road Interchange on the Interstate program when I-305 is withdrawn but made no commitment as to when it would be constructed.

Mr. Coulter submitted to the Commission a report on the construction activities for fiscal year 1977. (Copy on file in the Commission's files, Salem.) He said the report is in two parts as follows: 1) A summary showing the obligated funds, comparison of the projects actually contracted with the Six Year Program and cost by category of the projects contracted; 2) Provides additional details, listing the projects which were originally scheduled but were either deferred or advanced. Also shown are the reasons for deferral or advancement, rescheduled date and estimated cost.

Mr. Coulter reported that after the Commission's approval of the illumination policy at the April 19, 1977 meeting, the Highway Division proceeded to reduce the number of luminaires by 190 units on I-5 between the Hayesville Interchange and the I-205 Interchange. He mentioned a review has been completed of additional units to be removed from service on the I-205 alignment at the Stafford Road Interchange and the 10th Avenue Interchange west of West Linn. It now appears that a more widespread emergency reduction is necessary due to the below normal rainfall and snowfall. After carefully analyzing possible impacts on traffic operating conditions, special temporary emergency elimination of lighting on the entire State highway system, with the following exceptions is recommended:

- 1) The State highway system with an ADT of 40,000 or greater will remain lighted based on the Commission policy adopted in April 1977.
- 2) Lighting will remain energized at locations where pedestrian traffic exists (e.g., truck scale houses when needed, rest areas, urban ramp terminals, etc.).

(Continued on next page)

- 3) Special traffic conditions that result in operational problems will remain lighted in accordance with the April policy (e.g., large truck volumes entering the highway at slow speeds, intersections with turning movement problems will remain lighted).

It has been further recommended that the special temporary lighting reduction remain in effect for a period not to exceed 180 days. This action will keep energy consumed in highway lighting to a minimum during the period of daylight savings time. Mr. Coulter stated that all cities and counties will be notified of this action. He said that Governor Straub has requested the Department to proceed toward the elimination of highway illumination as mentioned above. The Commission approved the reduction of illumination.

Mr. Coulter reported on the Banfield Freeway HOV Lane Experimental Project in the City of Portland. He mentioned that following the April 1977 Commission meeting he had met twice with the Technical Advisory Committee which represents the various groups involved in reviewing the project. Mr. Coulter referred to the staff report prepared by Mr. Robert Bothman, a plot of the peak-hour speeds and volumes and a report from the Technical Advisory Committee which was furnished to the Commission. (Copies on file in the Commission's files, Salem.) He said in reviewing Mr. Bothman's recommendations, some additional utilization of the HOV lane can be realized through the expeditious implementation of some additional incentive programs.

Chairman Jackson said the Commission wants to implement the recommendations passed at the April 19 Commission meeting at the end of the present experimental period starting July 1, 1977 and extending 120 days. He stated the Commission would invite other responsible organizations to speed up the implementation of other activities which will increase the number of carpool vehicles, buses and other users of the HOV lane. He requested the Department meet with DEQ and clear any requirements necessary in the change of the HOV lane use. The Commission asked for a progress report at its June meeting.

Mr. W. E. Schwartz, Region Engineer in La Grande, reported on the Austin-Sumpter Road trade proposal with Baker and Grant Counties. He commented that at the March 15, 1977 meeting of the Commission, a delegation from Baker and Grant Counties appeared requesting that the State assume jurisdiction of this road. He said in analyzing what approach to take for an equitable trade, it was reasoned that a straight mileage trade would not be equitable because the State would be taking a route which is basically a mountain summit section for its entire length. It is estimated that the annual maintenance cost would be \$160,750. He said in return, the State would be trading to the counties low elevation, low volume highways with low maintenance cost; therefore, the most equitable trade could be made using a maintenance cost approach. Mr. Schwartz said using the functional classification study completed in 1976 as a basis, a list was made of those State highways in Baker and Grant

Counties having a classification of major and minor collectors. He continued that this classification is assigned to roads having no statewide significance and serves only local needs. The list of roads was prioritized and the annual maintenance costs were determined for each road. From the study, a list of highways was prepared which should be considered for a trade. He briefly reviewed the list of highways. Mr. Schwartz mentioned that on May 4 of this year that he and Mr. Burco met with the Baker County Court, representatives of the City of Baker and members of the Baker County Chamber of Commerce. At this meeting, the list of highways was presented to the Court. He mentioned that the reaction of the Court was favorable, with two exceptions. The County did not want the Dooley Mountain Section of the Baker-Unity Highway or the North Powder-Baker Section of old U.S. 30. Mr. Schwartz said the list of highways had not been reviewed with Grant County. (List of proposed routes for exchange with Baker County on file in the Commission's files, Salem.) After considerable discussion, the Commission approved proceeding with the trade proposal, explore the availability of Forest Service funds for the necessary paving, and in the meantime finalize this with Grant County. The Chairman said within 30 to 60 days the Commission would be in a better position to advise the counties of the status.

Mr. Howard Johnson, District Engineer in Corvallis, reported on ideas for possible savings through working agreements with counties. (Copy of report on file in the Commission's files, Salem.) He said the first step towards any concept of reorganization might be to put the new functional classification system into effect which was acted on by the Commission on January 22, 1976. He felt this system may create problems in that the trade of mileages between entities is unequal and most counties gain more roadway than they lose. He commented on the following concepts: 1) negotiation of the sharing of maintenance activities between the State, Counties and Cities, 2) establishment of road districts without regard to existing roadway classification or County lines and 3) establishment of maintenance sections utilizing existing County and State maintenance buildings and yards as section headquarters. Mr. Johnson suggested that prior to considering any maintenance and operation authority changes, there should be further consultation with the Association of Oregon Counties and the League of Oregon Cities.

The Commission suggested that a heavy populated county in western Oregon be selected, such as Linn County, with a lot of primary, secondary and county roads as a test area to exchange ideas and to see what kind of savings would be possible.

Consideration was given to a request from T. R. Parker to subdivide Tax Lot 3501 in Section 25, Township 35 South, Range 7 West, for use as home sites within the Rogue River Scenic Waterway in Josephine County. Mr. Talbot said the property lies on the right bank in the Robertson Bridge area in River Mile 82. The property is above the county road on a gently sloping hillside. The area offers little or no topographic screening and buildings would be visible from the river. The Commission denied Mr. Parker's request as recommended by Mr. Talbot.

Attention was given to the adoption of a temporary rule covering group picnic reservations at Rooster Rock, Milo McIver and Champoege State Parks. Mr. Talbot said the State Parks and Recreation Advisory Committee have received complaints from small private park owners that they have been experiencing business losses because of their inability to compete with the large public parks in the Portland area. The Parks Advisory Committee recommended limiting group picnic reservations to 200 or less in the three parks. Mr. Talbot pointed out that numerous problems have occurred in the Portland Metropolitan area State parks which accommodate large reserved groups in their day-use areas, such as overtaxed restrooms, congested roads and parking facilities. He said Administrative Rule Procedures will be followed to make the rule permanent. Following Mr. Talbot's recommendation, the Commission approved the temporary rule at the three parks limiting group reservations to a maximum of 200 people per group starting June 1, 1977. (Copy of the temporary rule and notice of hearing published in the Secretary of State's Administrative Rule Bulletin on June 1, 1977.)

PUBLIC COMMENTS

A delegation from Lincoln City appeared before the Commission requesting improvement of the Salmon River Highway (Highway 18) between Highways 22 and 101 in Lincoln and Polk Counties. Present were Sid K. Tworoger, John Leovich, Bud McLachlan and Charles Lurcott.

Mr. Tworoger asked that turnouts be constructed to help relieve the traffic congestion along Highway 18. He mentioned that the State Police are having difficulty in patrolling the area because of the heavy traffic volume.

Mr. McLachlan mentioned that the last traffic volume report showed an 11.7% increase in vehicular traffic in January 1977 compared to January 1976. He invited the Commission to have one of their monthly meetings in Lincoln City.

Mr. Lurcott also invited the Commission to come to Lincoln City so they can see the traffic congestion that exists on Highway 18.

The Chairman informed the delegation that one way to expedite some of the major improvement on the highway would be their help in getting the Legislature to look seriously at the Department's financial needs.

The Chairman declared the remainder of the meeting as an informational session.

Mr. Steve McCarthy, Assistant General Manager of Tri-Met, stated that they are in the process of setting long-range goals for public transportation in the Tri-Counties (Multnomah, Washington and Clackamas) through 1990 and beyond and discussed possible alternatives to the metropolitan area's congestion problems. 11

May 17, 1977

said the alternatives are to do nothing to construction of light rail. He said Tri-Met will be holding four hearings in the area in the near future to ask the public to help in the decision process by studying the issues. He briefed the Commission on their technical studies and the decisions that the Tri-Met Board will be facing at its June meeting.

He also explained their 1990 financial data and the 1990 program charts which were on display. Mr. McCarthy submitted and commented on the following material: (Copies on file in the Commission's files, Salem.)

- 1) Tri-Met 1990 Program
- 2) Proposed Tri-Met Goals and Policies for 1990
- 3) Draft - Technical Analysis
- 4) Preliminary 1990 Financial Forecast
- 5) Summary of Oregon Mass Transportation Authority Act (House Bill 3000)

The Chairman adjourned the meeting at 11:35 a.m.

CAPE ARAGO HIGHWAY WEIGHT LIMIT

WHEREAS, pursuant to ORS 487.905, the Oregon Department of Transportation has the authority to establish weight limits for vehicles using state highways in order to protect the road from being unduly damaged; and

WHEREAS, it has been determined by the Highway Division that it would be unsafe to allow motor vehicles weighing in excess of 40,000 pounds to use the bridge located at mile point 8.38 on the Cape Arago Highway;

NOW THEREFORE, it is hereby ordered as follows:

I.

Vehicles weighing in excess of 40,000 pounds shall not use the bridge on Cape Arago Highway at mile point 8.38.

II.

The Highway Division shall immediately post this restriction in a conspicuous manner at both ends of the bridge and at such other places as may be necessary to inform the users of the Cape Arago Highway.

III.

This order shall become effective April 22, 1977. *8:15 A.M.*

MINUTES OF 5-17-77

TO: Oregon Transportation Commission

SUBJECT: Report on Confirmation of Action Taken Under Delegated
Authority

Pursuant to authority delegated to me, I report the following
action for the Transportation Commission's files:

On May 4, 1977, approved disposal by sale at
public auction scheduled for June 1, 1977,
two parcels of land acquired under provisions
of the Rogue River Scenic Waterway program.
The property is to be offered with appropriate
deed restrictions to prevent use of mobile
homes, and other limitations. (Josephine County)

On May 4, 1977, approved a farming agreement
with Richard Anderson for a portion of Molalla
State Park under provisions of a management
agreement with State Fish and Wildlife for
enhancement of wildlife feed. The farming
agreement extends to November 15, 1978.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
JUNE 13, 1977

June 13, 1977
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 1:30 p.m. in Room 140 of the State Transportation Building in Salem.

The following persons were on the telephone at the locations given:

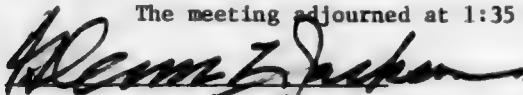

Glenn L. Jackson, Chairman, Portland
Tom Walsh, Commissioner, Portland
B. Gordon Coleman, Commissioner, Eugene
F. B. Klaboe, Chief of Operations, Salem
Harold Grover, Administrator of Motor Vehicles, Salem
David Talbot, State Parks Superintendent, Salem
C. W. Head, Manager, Commission Services, Salem

Mr. Klaboe stated that this meeting was called to consider an adjustment in the Motor Vehicles Division's budget and to authorize the Parks Superintendent to waive any established fees and charges for use of State park facilities.

Mr. Grover mentioned that in May of this year it was discovered that due to inflation the Motor Vehicles' Field Services Program was in danger of overextending its limitation. As a result, a freeze was placed on all hiring and traveling throughout the State. In order that the Division does not overspend, Mr. Grover recommended that \$21,837 be shifted from the Administrative Services Branch to the Field Services Branch. The Commission accepted his recommendation.

Mr. Talbot reported that a group in Portland through the 4-H Extension Service, Oregon State University, working with Multnomah County, requested that the State waive the fee for youth camp facilities at Silver Falls State Park in Marion County. He recommended that authority be given to him to waive any established fees and charges for use of park facilities in cases where he has determined that it would be in the public interest to waive such fees. The Commission accepted his recommendation and adopted a temporary rule ("State Parks Resolution No. 39D") giving the Parks Superintendent the authority to waive fees with the understanding that guidelines be set up to judge these cases in the future. This action amends "State Parks Resolution No. 39". (Temporary rule filed with the Secretary of State on June 13, 1977 and published in the Administrative Rule Bulletin on July 1, 1977.)

The meeting adjourned at 1:35 p.m.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
JUNE 21, 1977

June 21, 1977
Salem, Oregon

The Oregon Transportation Commission held their formal monthly meeting at 10 a.m. in Room 122, Transportation Building, in Salem, Oregon. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Jack Sollis, Assistant Chief Counsel
H. S. Coulter, State Highway Engineer
Don Streun, Assistant Director for Administration
Paul Burket, Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
David Talbot, State Parks Superintendent
Max Klotz, Special Assistant for Intergovernmental Affairs
George Bell, Special Assistant for Public Affairs
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Klotz:

- 1) Minutes of the meeting of May 17, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2660" on file in the Commission's files, Salem.)
- 3) Payment of annual membership dues to the American Public Works Association in the amount of \$400 from May 1977 to May 1978.
- 4) Survey on the Skipanon River Bridge Section of the Warrenton-Astoria Highway in Clatsop County. ("Highway Corridor and Design Resolution No. 425" on file in the Commission's files, Salem.)
- 5) Added a project to construct a left-turn refuge on the Warm Springs Highway at the intersection of Kah-Nee-Ta Road at the Warm Springs Indian Reservation in Jefferson County to the Six Year Improvement Program for Fiscal Year 1978 using State Funds. Estimated cost is \$150,000.

- 6) Consultant construction agreement with Sverdrup & Parcel and Associates, Inc. for certain engineering work on the Columbia River Bridge (North Channel Sections of I-205) in Multnomah County in the amount of \$540,000.
- 7) Increased project authorizations on the following contracts:
 - a. Contract No. 8377 with Cascade Construction Company, S.E. 13th Avenue-Rood Bridge Road (Hillsboro) in Washington County, in the amount of \$153,740.58. (11.56% overrun)
 - b. Contract No. 8261 with Kearney Bros. Construction Co., S.W. 72nd Avenue Intchge.-S.W. Boones Ferry Road (Kruse Way) on the Beaverton-Tigard, Pacific Highways and FAS 943 in Washington & Clackamas Counties, in the amount of \$145,753.58. (8.9% overrun)
- 8) Reappointments to the Parks and Recreation Advisory Committee as follows:
 - a. Eric Allen, Jr., appointed 4-20-65, term expired 4-20-77, reappointed for a 4-year term.
 - b. Roger Loennig, appointed 5-27-69, term expired 5-27-77, reappointed for a 2-year term.
 - c. A. W. Sweet, appointed 5-29-73, term expired 5-29-77, reappointed for a 4-year term.

(See page 2012 for appointment of Norm Howard.)
- 9) Projects under the Special Bridge Replacement Program and authorization to design and construct the projects as funds become available.

- 10) Supplemental agreement with the Federal Highway Administration extending Contract No. DOT-FH-11-7950 for a speed advisory study at Camp Adair from April 30, 1977, to October 31, 1977, and increased funds by \$531 at no additional cost to the State.
- 11) Agreement with Dames and Moore for preparation of a Draft Environmental Impact Statement for the Greeley/I-5 & Basin/Going Street projects in Multnomah County, in the amount of \$115,230.
- 12) Adopted resolution abandoning approximately 0.14 mile of old right of way in the Valley Falls-White Rock Section of the Fremont Highway in Lake County to the abutting property owner. ("Abandonment Resolution No. 563" on file in the Commission's files, Salem.)
- 13) Four requests for Federal Aid Urban System Projects as follows:
 - a. Install a traffic signal at the intersection of Portland Ave. and Gloucester St. in the City of Gladstone, Clackamas County. Cost \$50,000. Federal Funds \$43,000. State's Share \$3,500.
 - b. Construct a new major north-south arterial (Fariss Rd.-Powell Blvd. (Gresham) Section, 223rd Ave., FAU 9867), including traffic signals, in Multnomah County. Cost \$2,500,000. Federal E-4 Transfer Funds \$2,150,000. No cost to the State.

- c. Widen S.W. Greenburg Rd. from S.W. Hall Boulevard to S.W. Oak Street and install traffic signals at the intersection of S.W. Mapleleaf St. and S.W. Greenburg Rd., Washington County. Cost \$494,000. Federal Funds \$424,840. State's Share \$34,580.
 - d. Replace existing Oswego Creek Bridge on the Oswego Highway, install traffic signals at McVay Ave. and construct necessary connections to the existing highway in Clackamas County. Cost \$1,753,000. Federal Funds \$1,507,580. State's Share \$245,420.
- 14) Eight requests for the following Federal Aid Secondary System Projects:
- a. Reconstruct a 0.53 mile section of Youngs River Loop Road and replace the bridge across the Youngs River in Clatsop County. Total cost \$575,000. Federal Funds \$494,500. State's Share \$40,250.
 - b. Realign approximately 1500 feet of Dethman Ridge Road and construct a structure across Neal Creek in Hood River County. Total cost \$365,000. Federal Funds \$313,900. State's Share \$25,550.
 - c. Replace existing wooden bridge crossing the EWEB power canal with a concrete structure on Camp Creek Road in Lane County. Total cost \$135,000. Federal Funds \$116,100. State's Share \$9,450.
 - d. Replace existing steel bridge crossing the South Santiam River on Pleasant Valley Road in Sweet Home in Linn County. Total cost \$490,000. Federal Funds \$421,400. State's Share \$34,300.
 - e. Replace a pony truss bridge with a concrete structure crossing Bully Creek on Airport Road in Malheur County. Total cost \$107,000. Federal Funds \$92,020. State's Share \$7,490.
 - f. Widen and improve a 0.48 mile section of N.E. 8th Avenue in Milton-Freewater in Umatilla County. Total cost \$198,000. Federal Funds \$170,280. State's Share \$13,860.
 - g. Replace a deficient bridge across the Grande Ronde River on Pierce Lane with a concrete structure in Union County. Total cost \$182,000. Federal Funds \$156,520. State's Share \$12,740.
 - h. Construct the Imnaha River (Freezeout) Bridge and realign approximately 900 feet of Imnaha River Road in Wallowa County. Total cost \$154,000. Federal Funds \$132,440. State's Share \$10,780.

- 15) Confirmed the Chairman's verbal approval on June 2, 1977, to increase the amount of an emergency request to the Legislature from \$153,558 to \$160,018 for the Aurora State Airport construction and land acquisition project in Marion County.
- 16) Adopted a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$351,225 for an Airport Development Aid Program project on the Aurora State Airport in Marion County. Total cost of the project which includes construction of a parallel taxiway and land acquisition is \$390,250. Acceptance of grant offer is dependent on legislative approval of additional capital construction limitation. ("Aeronautics Miscellaneous Resolution No. 13" on file in the Commission's files, Salem.)
- 17) Making application for the following 12 Priority Bridge Replacement projects under the Economic Development Administration Local Public Works Program at an estimated cost of \$2,505,000. Granted authorization to file applications and sign project agreements.

| <u>Priority
No.</u> | <u>Project Description</u> | <u>County</u> | <u>Est. Cost</u> |

Mr. Klotz reported that the following informational reports had previously been sent to the Commission:

- 1) Surplus property, inventory and sales record.
- 2) Consultant services for the preparation of the environmental statement for the Powell Blvd.-Phase II project.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Attention was given to an agreement with the Federal Railroad Administration for a State Planning Grant to inventory the State's rail system. Mr. Burco stated that the Federal Railroad Administration has approved the grant which is for a period ending June 30, 1978, in the amount of \$186,960.00 and requires State match of \$16,014 (7.4%). He indicated the grant agreement has been reviewed by Legal Counsel and is in proper form. The Commission approved the agreement and authorized the Director to sign it in their behalf.

The Commission set Tuesday, July 19, 1977, for their next monthly meeting.

June 21, 1977

- 2009 -

Mr. Burco reported that the joint meeting between the Washington Highway Commission and the Oregon Transportation Commission which was scheduled for September of this year will be delayed several months due to recent legislative action establishing a Washington Department of Transportation.

OPERATIONS

The Commission considered adding the Newbury and Vermont Street Viaducts Project on the Pacific Highway West in Multnomah County to the Six Year Construction Program. Mr. Klaboe said the structure repair is needed to replace timber trestle pile caps. (State project; estimated cost \$150,000.) Following his recommendation, the Commission approved the project.

Mr. Klaboe reported on the proposed bikeway between Mill City and Gates along the North Santiam Highway in Marion County. Mr. Klaboe recommended to the Commission that they at least temporarily deny this permit due to the fact that the City of Gates will not approve the bikeway between the two communities. He said there are several individuals present that would like to comment on this proposal.

Mr. Paul Rosa, attorney from Mill City, stated that he has been responsible for organizing the volunteers that have been working on the project; approximately 600 hours of volunteer labor has been expended on the bikeway and that three miles have been completed from Mill City to Gates. Seven miles of right of way remains above Gates to the Big Cliff Dam. He said approximately one half million dollars has been expended in public funds for purchase of this land. He stated that this land was purchased for use by the public as a bicycle path. Mr. Rosa mentioned the opposition to this project has come from a handful of adjacent landowners above Gates. The land is adjacent to Highway 22 and is not a wilderness area. He also indicated a concern for the safety of children in the area going from Mill City to Gates. The average daily traffic on Highway 22 in the area is approximately 4,000 vehicles. Mr. Rosa said, following a Trails Council hearing, the Council recommended the first three miles for bikeway and inclusion in the State Trails System and they made no recommendation on the other seven miles. He asked the Commission to reject Mr. Klaboe's recommendation and adopt the recommendation of the Trails Council.

Mr. Klaboe read a letter from the Mayor of the City of Gates which indicates that the City is not in favor of the footpath. (Copy of letter on file in the Commission's files, Salem.)

Mrs. Vivian Staender from Sisters, member of the Oregon Trails Council, stated the Council unanimously endorses the project since the land was bought for the purpose of a bikepath. She commented that the young people have been working on the trail but have been stopped. She said temporarily the Council would like to

have the first three miles from Mill City to the edge of Gates for a bikeway and are deferring their request for the upper part. She mentioned the students bike from Mill City to the high school and to a swimming pool. The bikeway is needed for the community and it would link the two towns. She said it is the landowners above Gates that are mostly against the path.

In response to Commissioner Walsh's inquiry as to whom had stopped the young people from working on the trail, Mr. Talbot replied that it was the State that had stopped the work due to the controversy.

Mr. Klaboe suggested that the Commission defer action so that they could research the proposal as presented by Mrs. Staender.

Lawrence N. Brown, attorney from Salem, said that he is opposed to the bikepath and presented copies of letters stating his views. He mentioned that every property owner that he knows between Mill City and Gates, as well as those above Gates, are opposed to the path. He referred to his letter of May 4, 1977, to Henry Rancourt, Chairman of the Oregon Recreation Trails Advisory Council, setting forth his objection as to why he felt this path was not in the public interest for safety. (Copies of letters on file in the Commission's files, Salem.)

Glenda Roten said that she was against the path and that her husband, who attended the hearing, indicated that half of the people that spoke at the hearing did not live in the area. Mrs. Roten mentioned that she circulated petitions and collected 120 signatures and estimated over 95% were against the proposal.

Russell Pengelli, member of the Oregon Trails Council from Burns, commented that the only reason for the development of trails was for people. He said the pros and cons at the hearing were about 50-50 from the audience.

Carmen Barnhardt stated that she has lived in Niagara for 49 years and the reason for living there was for the peace and quiet. She pointed out that the highway is in front of her home and in between is the railroad grade and they do not want to be inconvenienced and invaded with a bikepath.

After considerable discussion, the Commission delayed action on this matter until an investigation can be made.

Attention was given to proceed with preliminary engineering on the following three Federal Aid Primary projects funded with E-4 Mt. Hood transfer funds:

| <u>Section</u> | <u>Highway</u> | <u>Federal Funds</u> | <u>Local Match</u> |
|--------------------------------|----------------|----------------------|--------------------|
| Columbia Blvd.-Weidler St. | Pacific East | \$300,300 | \$49,700 |
| Park Place-Clack. Com. College | Cascade | 292,500 | 48,500 |
| I-205 - Boring Road | Clackamas | 119,200 | 19,800 |

Mr. Klaboe mentioned that these projects were prioritized by CRAG, concurred in by the Governor and approved by the Secretary of Transportation. The local match will be provided by the City of Portland on the first project; State bond funds and the City of Oregon City on the second project; and Clackamas County on the third. The Commission approved the projects as recommended by Mr. Klaboe.

The Commission considered a request from the City of Salem to consent to the annexation of the right-of-way acquired for the I-305 Freeway in Sections 1, 2, 11 and 12 in Range 3 West, Township 7 South; Section 36 in Range 3 West, Township 6 South; and Section 31 in Range 2 West, Township 6 South, W.M., Marion County. The proposal has been investigated and no enclave will be formed by this annexation. Following his favorable recommendation, the Commission approved the annexation and authorized the Location Engineer to complete the agreement on their behalf.

Mr. Coulter introduced Mr. Russell Hutchins, Regional Engineer for the American Institute of Steel Construction. Mr. Hutchins presented to the Commission a prize bridge award for 1976 for the design of the John Day River (Clarno) Bridge on the Shaniko-Fossil Highway in Wheeler and Wasco Counties. Mr. Hutchins said the bridge is an example of the excellent design to meet all the physical, esthetic and environmental requirements. Mr. Hutchins also presented awards to Hensel Phelps Construction Company, the general contractor, and to Fought and Company, the steel fabricator and erector.

Consideration was given to a resolution establishing Interstate 80 North as a Blue Star Memorial Highway. Mr. Coulter said I-5, 99E and 99W were previously designated as Blue Star Highways. The highways designated as such memorializes the services of the personnel who served in the armed forces of the United States in World War II. The Commission adopted "Commemorative Resolution No. 4c", which resolution is on file in the Commission's files, Salem.

The Commission considered the appointment of former Senator Norm Howard of Portland to the Parks and Recreation Advisory Committee replacing P. M. Stephenson. Mr. Talbot said that Mr. Stephenson indicated that he did not wish to be reappointed. Upon his recommendation, the Commission appointed Mr. Howard to a 1-year term beginning August 23, 1977. (See page 2005 for reappointments.)

Mr. Talbot stated that the Governor's Office was recently advised by the Economic Development Administration of the availability of grant monies intended as economic stimulus to be selectively applied on the basis of a State priority system. He said it was

decided to apply \$3,375,000 of these funds to 16 construction projects within the State Parks System. Upon his favorable recommendation, the Commission approved the following proposed projects:

| <u>Priority</u> | <u>Area & County</u> | <u>Est. Cost</u> | <u>Facilities</u> |
|-----------------|------------------------------------|------------------|----------------------------|
| 1 | Wolf Cr. Tavern
Josephine Co. | \$ 635,000 | Historic Restoration |
| 2 | Silver Falls
Marion Co. | 360,000 | Youth Camp Rehabilitation |
| 3 | Sunset Bay
Coos Co. | 200,000 | Sewage Disposal |
| 4 | Bullards Beach
Coos Co. | 75,000 | Sewage Disposal |
| 5 | Molalla River
Clackamas Co. | 250,000 | Willamette River Park Dev. |
| 6 | Dexter
Lane Co. | 350,000 | Willamette River Park Dev. |
| 7 | Shore Acres
Coos Co. | 95,000 | Restroom |
| 8 | Beverly Beach
Lincoln Co. | 150,000 | Sewage Collection |
| 9 | Honeyman

| 15 | Oregon Coast Trail
Several Cos. | 125,000 | Trail & Primitive Camps |
| 16 | Tumalo
Deschutes Co. | <u>100,000</u> | Restroom & Parking |
| | | \$3,375,000 | |

June 21, 1977

- 2013 -

Mr. Talbot reported that Clackamas County proposes an erosion control project at Barton County Park within the Clackamas River Scenic Waterway. He said the project would be designed and funded by the Corps of Engineers and would be performed by a contractor. Described as "Levee repair and restoration" it would consist of about 1100 feet of riprap along the area as marked in the aerial photo. (Aerial photo on file in the Commission's files, Salem.)

Mr. John McIntyre, Clackamas County Director of Public Works, mentioned that the County has maintained and operated Barton Park on the Clackamas River. It is the County's only park on the scenic portion of the Clackamas River. He commented on the 1964 and 1970 floods that damaged the dike and piling. The 1972 flood, he said, actually washed out the dike and the County was declared a disaster area by the Federal Government which made the County eligible for restoration funds. The County was faced with the same problem that the Barton Bridge being on a FAS route was unable to utilize those particular funds. At that time, the County asked the Corps to find some other funding source to restore the dike. Mr. McIntyre presented various colored prints of the area showing the beginning of the dike that was washed out, the extent of the riprap, remaining section of the dike that will be reinforced, washed out road in the parking area and the trestle bent of Barton Bridge. (Prints on file in the Commission's files, Salem.) He asked the Commission for a permit to rebuild the same dike to protect the park at the same location and at the same elevation.

Mrs. Hazel Stevens of the Eagle Creek-Barton area said that she has worked towards the preservation of the river adjoining the land for the past 10-12 years. She mentioned that it was her belief and others that those agencies that are issuing permits should be ready and willing to accept the responsibility of any liability arising out of the issuance of those permits. Mrs. Stevens commented on the 1964 flood that washed out the Barton Bridge piers and the Corps of Engineers' public hearing process. She also mentioned a Division of State Lands' study which pointed out that before the Division of State Lands allows the Corps of Engineers, acting on behalf of Clackamas County, to rebuild the Barton Park dike, the County should demonstrate that the proposed dike will not contribute to downstream erosion and/or endanger the Barton Bridge. Mrs. Stevens showed the Commission some Division of State Lands' maps of the area.

The Chairman stated that the State Land Board will be notified that the Commission would oppose any actions that would change the environment of that section of the river and read the following statement which the Commission adopted:

(See next page for statement.)

"The Transportation Commission considers that the proposed bank protection work, on this site and of itself, would not impair substantially the natural beauty of the scenic waterway if its appearance will be softened by appropriate planting.

If, however, it will result in, or accelerate, man-caused erosion of the river banks opposite and/or downstream, its construction would clearly constitute such a substantial impairment.

The Commission recommends to the State Land Board that this determination be made before approving the granting of or the renewal of a permit for the work."

Mrs. Stevens said that people were here today to prove to the Commission that they have had damage and could show that any type of revetment within an area such as this will cause substantial damage.

Mrs. Stevens presented a letter to the Commission from Raymond E. Norman, General Manager of the Clackamas Water District. It states that the District is concerned about anything that could potentially effect the quality of the river water. (Letter on file in the Commission's files, Salem.)

Dr. Leonard Palmer, Professor at Portland State University, mentioned that the Clackamas River is unique and an attractive scenic recreational site that is damaged very little at this time. He indicated concern that the scenic and recreational action will be severely impaired by this type of construction. It represents essentially a dam obstructing half of the flood channel area and it will intensify the damage to the bridge causing excessive erosion.

Commissioner Walsh felt that Dr. Palmer's testimony should be presented to the State Land Board rather than the State Transportation Commission. Dr. Palmer mentioned that he has aerial photo slides and maps to document what is happening.

Mr. Burket reported on the commuter air service in Oregon. He handed to the Commission a map of Oregon that shows the service authorized by the Public Utility Commissioner to a new carrier (Air Oregon) to 29 points in the State. (Map on file in the Commission's files, Salem.) He said they were authorized last March to carry both cargo and passengers and since June 6 they have been serving La Grande, Baker, Portland and Astoria. He mentioned that the Legislative Ways and Means Committee deleted the funding for the Public Utility Commissioner's regulation of air commerce. A bill has recently been introduced which would transfer that regulatory authority to the Aeronautics Division.

PUBLIC COMMENTS

A delegation of approximately 30 from Mt. Angel, Silverton and Woodburn appeared before the Commission concerning the I-5 to Mt. Angel Section of the Hillsboro-Silverton Highway in Marion County.

Senator Tony Meeker stated that he wishes to bring to the Commission's attention a problem that has been in existence for a long time. He said he has been working with Mr. Klaboe in working up a proposed solution to some of these problems. Some of the delegation will be presenting statistical background and data.

Ivo Bauman, Chairman of the Mt. Angel Chamber of Commerce Highway Committee, mentioned the section of Highway 214 which they are primarily concerned starts from Mt. Angel and meanders 6.02 miles to 99E in Woodburn. In this section there are a series of accident and death traps. He said this highway is the lifeline to these communities and is the principal access road to Silver Falls State Park. This section of the highway is asphalt and only 20 feet wide with badly eroded shoulders in spots. Mr. Bauman mentioned Redman Industries, manufacturers of mobile homes in Silverton, truck 80 mobile homes a month over this highway and shortly the Skyline Corporation will be shipping in 100 or more mobile homes a month. Many of these homes are 14 feet in width. He called attention to a dangerous area approximately one mile north of Mt. Angel where Dominic Road crosses Highway 214, there have been two serious accidents at this location within the past 90 days. He also mentioned a dangerous condition 200 yards north of Dominic Road (Bochsler Hill) where two were killed in recent years. He mentioned that the Conestoga Manufacturing Plant building has been hit by vehicles numerous times.

Mr. Bauman felt that the Pudding River Bridge is probably the most dangerous portion of the highway. He said the sale of bonds at this time might be the best way to counter inflation and finance urgent highway needs. He read a letter which was recently presented to the Ways & Means Committee concerning additional highway revenues. (Copy on file in the Commission's files, Salem.)

Mr. Donald Lowe, Chairman of the Chamber of Commerce Transportation Committee of the City of Silverton, read a letter from the S & M Truck Line, Silverton, supporting Silverton and Mt. Angel's efforts to seek improvements for Highway 214.

Mrs. Berning of Mt. Angel called attention to the dangerous areas previously mentioned. She suggested the posting of warning signs to alert the people of the dangerous intersections and curves.

Mr. Don Murtha, Editor of the Woodburn Independent Newspaper, was present representing the Chamber of Commerce. He said that John Fregonese, Planning Director, City of Woodburn, has done considerable work on the affects of Highway 214 as it comes into Woodburn.

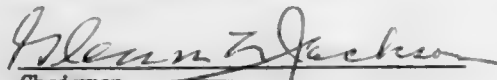

Mr. Klaboe agreed that this highway is narrow and crooked and he is aware of the accidents. He said as a result of two meetings with some of the people here, a very close look was taken at the whole accident picture of that particular portion of the highway. He recalled that approximately four years ago a law was passed which says a person doesn't have to report an accident unless there is \$200 damage to his car or someone is injured and as a result of this, the State is missing a lot of accidents in their statistics. Mr. Klaboe mentioned that Mr. Bauman and others have provided the State with a lot of statistics of the accidents that have been added to the Department's accident statistics. He mentioned that the Conestoga Corner will definitely qualify as a safety project under Title II Safety Funds. He stated they were beginning to work on this project but he was informed yesterday that a new house is being built right at that location but they will continue to look into the matter to try and improve that corner.

In reply to the Chairman's inquiry, Mr. Klaboe said improvements on this highway would be classified as reconstruction of the existing highway. It is not on the present Six Year Program. Later in the year, hearings will be held throughout the State to update the program.

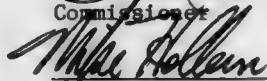

Leonard Oswald of Mt. Angel pointed out in the 6.2 miles there is less than one mile that would be considered safe to pass another vehicle.

The Chairman commented if this highway had not been on the \$150 million bond program, it probably would have been high on the Six Year Program. The Legislature is now working on this problem of financing. The final answer will most likely be a referral of some rather sizeable increases in terms of license fees and gasoline tax of the voters. He stated there are hundreds of miles of highways in the State that are in the same condition. Chairman Jackson informed the delegation the Department will do its best to reclassify their program in order to bring it in with proper perspective in terms of Statewide priorities.

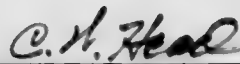

The Chairman adjourned the meeting at 11:55 a.m.

- (5) Agreement with the City of Lebanon for installation of railroad crossing protection at the Oak Street crossing of the Southern Pacific Transportation Company tracks. The project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$45,000. Matching monies will be 7-1/2% State Grade Crossing Protection Fund (\$3,375) and 2-1/2% City funds (\$1,125), with no expense to the Highway Division. (Linn County)
- (6) Agreement with the City of Salem for installation of railroad crossing protection at the Pine Street N.E. crossing of the Burlington Northern Railway tracks. The project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$60,000. Matching monies will be 7-1/2% State Grade Crossing Protection Fund (\$4,500) and 2-1/2% City funds (\$1,500), with no expense to the Highway Division. (Marion County)
- (7) Agreement with the City of Salem concerning improvement of the storm drainage system adjacent to the Salem Bypass (I-5). The project will help solve some of the City's drainage problems in the area and, because of this, they have agreed to contribute \$240,000 toward the cost of the project. A portion of this money would be used by the City to acquire all necessary right-of-way and the remainder would be applied to construction. (Marion County)
- (8) Agreement with Marion County for installation of railroad crossing protection at the Howell Prairie Road crossing of the Southern Pacific Transportation Company tracks. The project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$40,000. Matching monies will be 7-1/2% State Grade Crossing Protection Fund (\$3,000) and 2-1/2% County funds (\$1,000), with no expense to the Highway Division.
- (9) Agreement with Marion County for installation of railroad crossing protection at the Waconda Road (Brooks) crossing of the Southern Pacific Transportation Company tracks. The project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act of 1973. Total estimated cost of the work is \$40,000. Matching monies will be 7-1/2% State Grade Crossing Protection Fund (\$3,000) and 2-1/2% County funds (\$1,000), with no expense to the Highway Division.
- (10) Agreement with Marion County for the installation of traffic signals on Pacific Highway East at Chemawa/Hazelgreen Road. The State will install the signals utilizing Federal Aid funds, and maintain the equipment upon completion. The County will pay all costs of electrical energy consumed by operation of the signals.

(Confirmation)

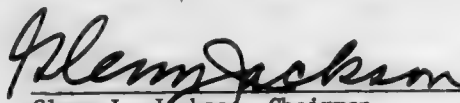

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following actions and report this for your official records:

By telephone on June 1, 1977, I approved an agreement with the City of Milwaukie amending an agreement dated April 26, 1977 concerning construction of the Lake-Harmony Bikeway in Clackamas County. Amendment will increase State's participation in the project to a maximum amount of \$59,000 and extending the time limit for contract award to June 20, 1977. All other provisions of agreement dated April 26, 1977 shall remain in effect.
(Misc. C & A 6043)

By telephone on June 2, 1977, I approved a cooperative agreement between the U. S. Forest Service, Bureau of Land Management, State Highway Division and the State Marine Board to cooperatively manage rivers throughout the State.

By telephone on June 2, 1977, I approved a specific cooperative agreement between the U. S. Forest Service, Bureau of Land Management, State Highway Division and the State Marine Board pertaining to the Rogue River.

SUBJECT: Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the actions listed below and report this action for the official record:

- 1) On May 10, 1977, prohibited parking on the south side of the frontage road that borders the Klamath Falls-Lakeview Highway No. 20 from Crest Street (M.P. 2.97) to a point 575 feet east of Crest Street (M.P. 3.08) in Klamath County.
- 2) On May 4, 1977, approved an agreement with the City of Woodburn, Marion County, concerning an Identification of Water Sites Study. Approximate cost is \$3,000. The City will pay all costs.
- 3) Speed Zone Order No. 745: Woodburn-Estacada Highway, Clackamas County. Approved: May 20, 1977. 35 MPH from M.P. 13.28 to M.P. 13.64. East of Molalla.
- 4) Speed Zone Order No. 746: Coos Bay-Roseburg Highway, near W. & S. City limits of Coquille, Coos County. Approved: May 20, 1977.

40 MPH from M.P. 9.59 to M.P. 10.16
40 MPH from M.P. 12.17 to M.P. 12.29

Rescinds Speed Zone Order No. 215 dated 11-3-55.
- 5) On June 6, 1977, approved a temporary parking prohibition on both sides of the Florence-Engene Highway between M.P. T44.70 and M.P. T46.70 during the annual "Oregon Country Fair" celebration. (Lane County) (Eugene-Springfield area)
- 6) On June 6, 1977, approved a temporary parking prohibition on both sides of the Goshen-Divide Highway between M.P. 15.40 and M.P. 15.76 and between M.P. 16.20 and M.P. 16.56 during the annual "Bohemia Days" celebration. (Lane County) (Cottage Grove)

EXHIBIT B
MINUTES OF 6-21-77

- 7) Speed Zone Order No. 747: Coos Bay-Roseburg Highway, North City Limits of Winston, Douglas County. Approved: June 3, 1977. 50 MPH from M.P. 73.78 to M.P. 76.38. Rescinds #309 dated 8-13-59.
- 8) On June 7, 1977, approved an agreement with the Utah Department of Transportation for shop inspection of Bridge Rail Syro Steel Co. for Contract No. 8456, East Portland Freeway in Multnomah County. Estimated cost is \$100.
- 9) On May 23, 1977, approved an agreement with the Trindle Livestock Company (Contractor) to mow grass which is accessible to its equipment along the Central Oregon Highway (#7) from milepoint 38.6 to milepoint 43.4. Contractor to pay State \$50. (Baker County)

MINUTES OF 6-21-77

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following agreements and report this action for your official records:

On April 26, 1977, approved an Electric Service Agreement with the Portland General Electric Company for the underground installation of electric service to Rooster Rock State Park, located 25 miles east of Portland on the Columbia River Highway in Multnomah County.

On June 3, 1977, approved and signed a quitclaim deed to Cleo H. and Frances E. Carter, husband and wife, to resolve a long-standing boundary claim by the Carters based upon an old fence location. The area involved in the quitclaim contains 0.09 acres and Carters are paying a consideration of \$100.00. (Dexter Dam State Park in Lane County)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7454 Paul Brothers, Inc., an Oregon corporation v. State of Oregon, by and through Oregon Transportation Commission and the Department of Transportation: This is a suit on Contract No. 8198 for extra payment for two items of work. The amount claimed by the contractor totals \$18,896.70. The contractor alleges that it performed the work in accordance with the specifications and the State has failed to pay him for work performed. The matter has been referred to the Attorney General for the defense of the State. This case was filed in Circuit Court in Marion County.

L-7455 The Oregon Shores Conservation Coalition v. H. S. Coulter, State Highway Engineer: This is a petition for review seeking judicial review of a permit granted by the State Highway Engineer to Mr. Lester E. Fultz and others for construction of a revetment west of the zone line. Case was filed in Circuit Court in Tillamook County.

MINUTES OF 6-21-77

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On May 27, 1977, \$2,584,861.28 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of April, 1977.
(List of apportionments on file in Commission Files, Salem.)

On May 31, 1977, \$1,550,916.77 (12 percent of the Highway Fund) was distributed to the cities for the month of April, 1977.
(List of apportionments on file in Commission Files, Salem.)

TO: OREGON TRANSPORTATION COMMISSION

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

Pursuant to authority delegated to me, I approved the following actions and report this for the Transportation Commission's records:

CONSENT FOR STREET OR COUNTY ROAD VACATIONS

| <u>Applicant</u> | <u>Description</u> | <u>Approved</u> |
|------------------|---|-----------------|
| City of Portland | Vacation of certain portions of Southwest 14th Drive and Lancaster Street. | 1/26/77 |
| City of Portland | Proposed vacation of N. Liberty Street between N. Curtis Avenue and Villard Avenue. | 3/9/77 |
| Lane County | Proposed road vacation Beltline Interchange, Pacific Highway, Lane County | 3/16/77 |
| City of Portland | Vacation of certain portions of N. Lagoon Avenue. | 3/11/77 |
| City of Portland | Vacation of a certain portion of Northeast 27th Avenue. | 4/8/77 |
| City of Portland | Proposed vacation of S.W. Dickinson St. east of S.W. 11th Drive to its terminus. | 4/13/77 |
| City of Portland | Proposed vacation of the southeasterly 25.0 feet of N. Essex Avenue between N. Loring Street and N. River Street. | 4/22/77 |

6-21-77

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized the State Highway Engineer to exercise certain authority on behalf of the Oregon Transportation Commission. The State Highway Engineer in Administrative Order No. 9 subdelegated to the Location Engineer to approve and execute Consents to Annexations. Pursuant to that authority and acting in accordance therewith, I approved and executed the following Consent and report this action for your official records:

On May 6, 1977, approved and executed a Consent to Annexation to the City of Hood River covering right of way on the Hood River Secondary Highway No. 281 in Sections 35 and 36, Township 3 North, Range 10 East, Willamette Meridian, Hood River County, Oregon.

Frank E. Terpin, Location Engineer

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
JULY 19, 1977

July 19, 1977
Salem, Oregon

The Oregon Transportation Commission held their formal monthly meeting at 9 a.m. in Room 122, Transportation Building, in Salem, Oregon. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Member
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
F. B. Klaboe, Chief of Operations
Walt Barrie, Chief Counsel
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Public Transit
Harold Grover, Administrator of Motor Vehicles
David Talbot, State Parks Superintendent
George Bell, Special Assistant for Intergovernmental
and Public Affairs
Max Klotz, Special Assistant for Intergovernmental Affairs
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
Glen Green, Federal Highway Administration
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Klotz: (The abandonment resolution on the Russell Pt.-North Bend Section of the Oregon Coast Highway in Coos County was removed.)

- 1) Minutes of the meetings of June 13 and June 21, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2661" on file in the Commission's files, Salem.)
- 3) Agreement with Odyssey Productions, Inc. for the making of three films during construction of the Columbia River (I-205) Bridge in Multnomah County. Maximum cost is limited to \$150,333 to be financed from construction engineering funds authorized for the bridge construction.

- 4) Adopted resolution abandoning approximately 0.5 mile of old alignment in the Middle Br. Rd.-Ritter Cr. Section of the Baker-Copperfield Highway in Baker County to the abutting property owner. ("Abandonment Resolution No. 564" on file in the Commission's files, Salem.)
- 5) Authorized the following individuals to sign Federal reimbursement vouchers on behalf of the Commission:

H. S. Coulter, State Highway Engineer
 E. S. Hunter, Technical Services Engineer
 C. T. Keasey, Construction Engineer
 V. E. Skoog, Highway Controller
 Frank R. Griffin, Chief Accountant
- 6) Abandoned the following 18 damage claims to State highway facilities and vehicles totaling \$14,466.04: (Claims do not warrant further action toward collection.)

| <u>CAO #</u> | <u>NAME</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |
|--------------|---|-----------------------------|---------------|
| 75-423 | Phil Gardner Painting and Decorating | Sign | \$888.23 |
| 76-117 | Ricky P. Hower | Overcrossing | \$1,214.87 |
| 76-162 | Estate of Merl J. Peachey | Guardrail & Pavement | \$1,520.98 |
| 76-171 | Katherine E. Bailes | Guardrail | \$866.51 |
| 76-181 | Nettie T. Walshy | Guardrail | \$623.48 |
| 76-192 | Margaret L. Coslow | Bridge | \$771.76 |
| 76-206 | Karen S. Bray | Bridge | \$402.41 |
| 76-219 | David L. Canez | Illuminaire | \$829.05 |
| 76-246 | Robert V. Hammond | Pavement Surface | \$580.80 |
| 76-268 | Keith F. Lawson & Restoration Reforestation | | \$407.20 |
| 76-287 | Serafin L. Cana, Jr. | Guardrail | \$777.70 |
| 76-290 | Simpson Timber Company & Michael D. Pittman | Guardrail | \$693.17 |
| 76-306 | Richard J. Sterrenberg | Highway Surface & Guardrail | \$1,894.61 |

(Continued on next page)

| <u>CAO #</u> | <u>NAME</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |

| 76-352 | Ann Nelson & Charles H. Moore | Bridge | \$1,146.53 |
| 76-383 | Linda R. Klefman | Bridge | \$375.12 |
| 76-403 | John C. Gilley | Clare Screen | \$670.99 |
| 77-37 | Donald R. Gatten | Bridge Rail | \$408.35 |
| 77-113 | Johnny Ray Richardson | Removal of
Illegal Out-
door Adver-
tising Sign | \$394.28 |

- 7) Requests for the following Federal Aid Secondary System Projects: (Granted authority to State Highway Engineer to sign project agreements when prepared.)
- a) Preliminary engineering project to prepare contract documents to place a concrete deck on existing girders of the U.P.R.R./Burnt River (Huntington) Bridge on Snake River Road in Baker County. Federal Funds \$26,660; State's Share \$2,170.
 - b) Base rock and pave a 2.1 mile section of Canyon City-Dog Creek Road between Boot Hill Cemetery and Dog Creek in Grant County. Federal Funds \$256,280; State's Share \$20,860.
- 8) Increases in project authorizations on the following contracts:
- a) Second increase on Contract No. 8198 with Paul Brothers, Inc., Siskiyou Safety Rest Area on the Pacific Highway in Jackson County, in the amount of \$35,355.55. (8.1% overrun)
 - b) Contract No. 8448 with Road and Driveway Company, S.W. Lee St.-S.E. Fogarty St. (Newport) on FAU 6850 (Bay Blvd.) in Lincoln County, in the amount of \$9,121.37. (8.49% overrun)
- 9) Urban System Projects: (Granted authority to State Highway Engineer to sign project agreements when prepared.)
- a) Widen and improve S.W. Allen Blvd. (S.W. Murray Blvd.-S.W. Hall Blvd. Section) in Beaverton. Total cost \$740,000; Federal Funds \$636,400; State's Share \$51,800.
 - b) Widen and improve Main St. and Columbus Avenue (4th St.-10th St. Section) in Medford. Total cost \$316,000; Federal Funds \$271,760; State's Share \$22,120.

- 10) Projects under the Safer Off-System Roads Program as follows: Estimated cost \$2,882,720 with the local entities of government providing approximately \$911,280 in match funds. (Granted authority to State Highway Engineer to sign project agreements when prepared.)

11) Matching on an 80-20 basis the apportionment of Federal Aid Funds authorized for the Fiscal Year 1978 for metropolitan planning for Oregon in the amount of \$223,054. State's match \$55,763.49. Authorize Chief of Operations to sign agreements for 1978 Unified Transportation Work Program with the Mid-Willamette Valley Council of Governments, Salem; Lane Council of Governments, Eugene-Springfield area; and CRAG, Portland.

12) Authorized the Aeronautics Division to submit a request to the August Emergency Board for allocation of anticipated revenues from Legislatively-approved HB 2046 and HB 2048 and a limitation increase of \$343,031 in Subsection (1) of Section 1, Chapter 140, Oregon Laws 1977 and a limitation increase of \$54,813 in Subsection (2) of Section 1, Chapter 140, Oregon Laws 1977.

13) Financial Aid to Municipalities grants to the following municipalities in the amounts indicated:

- a) Klamath Falls (Not to exceed \$15,905)
- b) Port of Portland (Portland/Hillsboro Airport) (Not to exceed \$50,000)
- c) Redmond (Not to exceed \$24,667)

Approval constitutes a specific waiver of the annual allocation cycle as provided in the Financial Aid to Municipalities manual.

14) Agreement with SOLV, Inc. (Stop Oregon Litter and Vandalism) for the State to continue participation in the financial support of the Statewide SOLV anti-litter and vandalism program. Cost not to exceed \$25,000.

15) Agreement with Wilbur Smith and Associates/CH2M Hill for preparation of the draft environmental impact statement for the Corvallis Bypass Study in Benton Co. The agreement will cover an 8-month period in the amount of \$78,500.

Mr. Klotz stated the following informational reports had previously been sent to the Commission:

- 1) Federal Aid Matching Ratio
- 2) Executive Department's approved Economic Development Administration project list.

(Copies of the informational reports in Commission's files, Salem.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Larry Rulien reported on the procedures and the timing for meetings to update the next Six Year Highway Improvement Program. He handed to the Commission copies of the Proposals which cover the various purposes. (Copy on file in the Commission's files, Salem.) He suggested that a Commission workshop be held the latter part of August to go over the program. Mr. Rulien stated that the Statewide meetings are scheduled for October and November and it is planned to present the proposed program to the Commission for adoption at the February 1978 Commission meeting.

Mr. Klaboe referred to the legislative report which was recently mailed to the Commission outlining the bills that affect the various Divisions within the Department. He commented that the budget came out satisfactory. He said the Legislature seemed to recognize the Department's problems and they addressed them quite appropriately.

The Commission set Tuesday, August 23, 1977, for their next monthly meeting and to hold a workshop relating to the Six Year Program review.

Mr. Klaboe stated that the Lane Council of Governments have reorganized their Metropolitan Area Transportation Committee. He mentioned that they have five reporting members: a member of the Eugene City Council, a member from the Springfield City Council, a Lane County Commissioner, a Lane Transit District Board member, a member of the Oregon Transportation Commission; and a Department of Transportation (nonvoting) staff member. The Commission appointed Commissioner Coleman as a member and Larry Rulien as an alternate.

OPERATIONS

The Commission gave their approval for Mr. Moore to appear before the Emergency Board to apply for a Federal Funds limitation increase for a Transit Management Assistance Program in the amount of \$60,000.

Following Mr. Moore's recommendation, the Commission approved the following guidelines for Urban and Rural Operating Assistance Program:

Urban Areas

Assistance would be provided under the provisions of an intergovernmental agreement with the following included:

1. Reimbursement would be quarterly; based on a per bus mile of service which would be computed on the average of all known costs of operations of small systems; and, would approximate one-half total individual operating deficits over the biennium. Recipients would be eligible for up to the following amounts:

| <u>Community</u> | <u>Amount</u> |
|-----------------------------------|---------------|
| Albany | \$40,000 |
| Astoria | 40,000 |
| Bend | 40,000 |
| Corvallis | 80,000 |
| Ontario | 20,000 |
| Rogue Valley Transportation Dist. | 60,000 |
| Roseburg | 60,000 |
| TOTAL | \$340,000 |

2. Provisions to allow unused allocations to be given to new recipients subject to Commission and Emergency Board approval.
3. A hold harmless clause.
4. Reporting requirements for bus miles, system costs, ridership, fare receipts, etc.
5. Audit provisions
6. Maintenance of effort provisions to assure a maintenance of local commitment to projects.

Rural (Columbia County)

Two-year intergovernmental grant agreement in the amount of \$20,000 per year with the same provisions as 2, 3, 4, 5 and 6 above. (The Legislature added \$40,000 to the budget specifically for Columbia County.)

Mr. Moore reported that the Legislature approved a \$2.8 million Budget of State General Funds for the Public Transit Division. In addition \$300,000 was approved for intercity programs. He said the Legislature also established (after the Governor approves) a nine-member Willamette Valley Rail Study Committee. An amount of \$150,000 was set aside for the study by this committee which will report periodically to the Commission.

Mr. Moore mentioned that the Rogue Valley Transportation District yesterday started service from Ashland to Medford carrying 150 passengers. He indicated that it is a two-bus system and the equipment was purchased from Tri-Met.

Mr. Talbot referred to the May 17, 1977, Commission meeting in which a temporary rule was adopted to limit group reservations to a maximum of 200 people per group in Rooster Rock, Milo McIver and Champoeg State Parks. He said a hearing was held on June 14, 1977, in which there was no one in attendance and there was no written testimony received. Following his favorable recommendation, the Commission adopted the temporary rule as a permanent rule ("State Park Resolution No. 39C" which amends "State Park Resolution No. 39"). (Rule was filed with the Secretary of State on July 20, 1977, and was published in the Secretary of State's Administrative Rule Bulletin on August 1, 1977.)

The Commission considered a request from William C. Lebow to place a mobile home on Tax Lot 200, T. 34S., R. 11W., Section 31, Curry County, within the Rogue River Scenic Waterway. Mr. Talbot recommended that this request be denied as it would impair the natural beauty of the scenic waterway by contributing to the piecemeal erosion of the natural scene through increased density of structures and inappropriate design and finish.

Mr. Lebow was present and asked Mr. Talbot to read a portion of an easement from the Federal Government as follows:

"Not more than the existing commercial structures and facilities shall be permitted on the easement area. Existing structures and facilities include six trailer spaces, including electrical, water and septic tank connections, guest cottage, laundry and storage shed, garage, workshop, three water storage (spring) houses, and underground water and septic systems. Trailers or mobile homes using the existing facilities are considered to be residential structures and shall be limited to the six existing service connections."

Mr. Lebow said that all he was asking for is his rights. He felt he was entitled to what was there in 1970. He said the location was not on the scenic part of the river.

The Chairman said that the State law supersedes any permit that Mr. Lebow might have with the Forest Service. After considerable discussion, the Commission deferred action on Mr. Lebow's request and asked that the Parks' staff review the proposal again.

Attention was given to a request from Robert Taylor and Donald W. Jones to harvest timber and subdivide a 60-acre parcel within the Sandy River Scenic Waterway in Clackamas County. Mr. Talbot said the property involved is approximately one-half mile downstream from Dodge Park; it is not river front property; the nature conservancy holds the river bank and the property upstream while the Bureau of Land Management has the property next downstream.

Mr. Taylor was present and indicated that he and Mr. Jones felt they have a common problem with the State and they will be happy to work out a solution in a manner that is feasible.

Mr. Talbot recommended that the Commission deny this proposal as it would substantially impair the natural beauty of the scenic waterway. The Commission accepted his recommendation.

Mr. Talbot stated that the recent Legislature passed a bill directing the Transportation Commission to revise its camping fees immediately to charge \$2 for non-resident campers in State campgrounds. He said the basis of the surcharge is that a major portion of finances for the State Park system is the recreation vehicle registration fee which is not assessed against out-of-state registered vehicles. The intent of the surcharge is to provide that non-residents pay their fair share of the Park System's cost. Upon Mr. Talbot's recommendation, the Commission adopted a temporary rule ("State Park Resolution No. 39E" which amends "State Park Resolution No. 39") for non-resident camping in State parks to pay a surcharge of \$2 per day in addition to the current established camping fees, to become effective on July 25, 1977, providing the Governor signs the Bill. (Temporary rule filed with the Secretary of State on July 21, 1977, and published in the Administrative Rule Bulletin on August 15, 1977.)

Mr. Talbot handed to the Commission copies of the 1977-79 Parks' Budget which was approved by the Legislature. (Copy on file in the Commission's files, Salem.)

The Commission considered transmitting the balance of the proposed Greenway Plan consisting of 17 jurisdictional segments to the Land Conservation and Development Commission for consideration. Mr. Talbot mentioned that at the November 4, 1976 meeting the Commission had forwarded 10 segments of the plan to LCDC for consideration and now the remaining jurisdictions are ready except for the City of Portland and its future annexation areas. He commented that Portland is unique to the Greenway because of its

intensive deep water port urbanization and the City is progressing with its total planning effort using a novel program of utilizing a designed plan concept incorporating the Greenway as an integral element.

The following jurisdictions are ready for transmittal to LCDC:

| | |
|---------------------|-----------------------|
| Clackamas County | City of Dundee |
| Marion County | City of Independence |
| Polk County | City of Millersburg |
| Linn County | City of Albany |
| City of Lake Oswego | City of Corvallis |
| City of West Linn | City of Harrisburg |
| City of Oregon City | City of Springfield |
| City of Wilsonville | City of Cottage Grove |

Mrs. Liz Van Leeuwen stated that the Green Rights Association is interested in all segments of the Greenway and they would very much like to make statements prior to the Commission's action. Due to time constraints in meeting with Governor Straub and Congressman James Howard, the Chairman deferred the discussion of this matter until later in the morning. (See page 2072 for continuation of the Greenway Plan.)

A delegation from the Astoria Area appeared before the Commission asking for improvement of Highway 101 between Astoria and Gearhart in Clatsop County.

Mr. Fred L. Barnum, President of the Astoria Area Chamber of Commerce, introduced the speakers and stated that the area unanimously supports this project.

Mr. Robert Chopping, Mayor of Astoria, thanked the Commission for the improvement that has been made on Highway 30 east of Astoria. He called attention to a new shopping center at Marlin Avenue and Highway 101 that is drawing hundreds of people from the southern part of the County. The Seaside Convention Center draws more conventions each year. He called attention to the \$5 million Astoria hospital which will soon be completed. He also mentioned the traffic count on the Astoria Bridge continues to increase each year and the Coast Guard has doubled its complement at the Clatsop Airport. He stated that the traffic conditions on this section of highway are becoming a very serious problem.

Mr. Stewart E. Cameron, representing the Warrenton Area Chamber of Commerce, pointed out that this section of Highway 101 has been on the drawing board at least three times before and has been scratched. He handed to the Commission extracts from the Astoria-Gearhart Section of the Technical Report of the Oregon Coast Highway dated 1959. (Copy on file in the Commission's files, Salem.) He commented on the user benefit ratio.

Mr. George R. Grove, Director, Port of Astoria, mentioned that the Port would be limited in its growth by the transportation net which presently serves it. He presented petitions signed by residents of Clatsop County totaling 7,000 for Highway 101 improvements and 13,000 valid signatures for Highway 30 improvements. (Mr. Grove retained the petitions.)

Mr. Orvo Nikula, County Commissioner, commented on the future economic growth and on the increase in traffic volume during the past six years in the County. He said the Astoria Bridge average daily traffic in 1971 was 1,430 and in 1976 it was 2,070 - an increase of 45%.

Senator Charles Hanlon mentioned that Clatsop County has a spirit of cooperation. Some of the projects that were talked about in year's past are now a reality and more are on the way. He asked for improvement of this section of 101 as soon as possible. The Senator invited the Commission to hold one of their monthly meetings in Clatsop County.

Representative Ted Bugas stated that their number one priority is for the improvement of Highway 101. He also invited the Commission to the Astoria area.

Chairman Jackson mentioned that the problem now lies with the voters and hopefully all of the signatures on the petitions will be "yes" votes on the two-cent gas tax ballot next Spring. He thanked Senator Hanlon and Representative Bugas for their help and support in trying to solve some of the problems in the recent legislative session.

The Chairman recessed the meeting at 10:35 a.m. for a briefing in the Governor's office with Governor Straub and Congressman James Howard, Chairman of the House Subcommittee of Surface Transportation, on pending Federal Legislation concerning transportation.

The Chairman reconvened the meeting at 11:30 a.m.

Mr. Edward McKean-Smith of Coquille, representing the Mayor and City Manager of Coquille, and others in the area, came before the Commission concerning improvement of Highway 42 (Coos Bay-Roseburg Highway) in Coos County. He suggested that some of the Federal Defense Department's money be used to improve the highways. He also commented on the need for a Coquille Bypass and asked that it be placed on the Six Year Construction Program. The Chairman commented that the Commission is also anxious to get this project underway.

A delegation from Lincoln City appeared before the Commission asking for improvement of Highway 18 (Salmon River Highway) in Polk and Lincoln Counties. Present were: Henry Wolf, John Leovich, Bud McLachlan, Sid Tworoger and Charles Lurcott, all of Lincoln City.

Mr. Henry Wolf stated that the average daily traffic through Lincoln City in 1975 was 11,300 vehicles and now it is approximately 19,000 vehicles. On Highway 18 in 1970, there was 6,700 vehicles and there are now approximately 9,000 vehicles daily. He estimated that in the summer months the average daily traffic would be 14,000 vehicles. Mr. Wolf inquired if the Engineer's Highway 18 report was completed.

Mr. Coulter said the reports are available and he thought the reports had been distributed to the interested parties in the Lincoln City area. He said that copies of the report will be mailed to the various individuals. Mr. Coulter stated that he is waiting for a field report now concerning spot improvements (passing bays) on Highway 18 that would improve the traffic flow.

Chairman Jackson informed the group that the Commission met this morning in the Governor's office with Congressman James Howard, Chairman of the House Subcommittee on Surface Transportation. The Chairman said Congressman Howard indicated strong support of a revision of trust funds to provide additional funding for primary and secondary highways and if approved would certainly benefit the State.

Mr. Talbot suggested that comments from the public be heard at this time regarding the Willamette River Greenway. Mrs. Van Leeuwen introduced Marvin Lorenzen, Chairman of the Green Rights Association; Phil Goulet; Charles Zimmerman and Peter Vandeneynde. Mrs. Van Leeuwen commented on the misunderstanding with the Parks' Staff and said they do not work well with the local governments. She said there should be a Greenway meeting with all agencies present so everyone can hear the various statements. She asked the Commission to delay action and consider the local government's boundary before transmitting these segments to LCDC.

Mr. Talbot said the Parks' Staff has done everything it can to be as cooperative as possible with everybody. He pointed out that the 1973 Legislature directed that the plan be prepared within one year and a considerable amount of money has been spent trying to get the project completed.

Mr. Marvin Lorenzen said he felt that the residents of Yamhill County were overlooked and all the input was not considered. He said there are property owners in Yamhill County that are not satisfied with the scenic easement line and other things pertaining to the Greenway. He asked that action be deferred on this matter so more people can present their views.

Mr. Ian Timm, Linn County Commissioner, stated that their County has gone on record at the Legislature as supporting the Greenway Law. The County maintains three parks in Linn County along the Willamette River and five public hearings have been held to develop their recommendation on the Greenway. He presented to the Commission a copy of a letter that was presented in August 1976 which explains the differences, in detail, between the County proposal and what at that time was the State Parks' Staff proposal. (Copy of letter on file in the Commission's files, Salem.)

Mr. Timm mentioned that Goal No. 1 of LCDC is citizen involvement and the County tried to comply by holding the five hearings. He said the goal states that "State and Regional agencies and Special Purpose Districts shall coordinate their planning efforts with the affected governing bodies and make use of existing local citizen involvement programs established by the counties and cities." He said they felt the State Parks Division has not complied with this part of the goal.

Mr. Timm mentioned the recommendation that the Commission is proposing to send to LCDC does not represent the citizen input. He said he would like to see the Commission recommend the same procedures that are being recommended by the Linn County Board of Commissioners.

Mr. Barrie stated that with respect to the procedural requirements, the Commission has complied to the letter of intent of the terms of the public meetings. He said what Mr. Talbot proposes is a step that is not built into the act which is meaningful. He is asking the Commission to pass it on to LCDC before the Commission approves it so LCDC can make their recommendation and have further hearings. The Commission would have further input before it makes a final decision.

The delegation commented that Truax Island, which is State property, is not being managed properly. It is open all hours; people ride their trail bikes and cause a disturbance.

Mr. Alan Miller, Chairman of the Polk County Board of Commissioners and Member of the Governor's Greenway Committee, mentioned that they have been involved in the process and have had cooperation on the part of the State Parks' staff. He said he would hope the Commission would forward the Parks' staff proposal to LCDC so it can be compared and digested into compliance with LCDC's goals and guidelines, both from the local government's point of view and the Department's Parks staff point of view.

Mr. Phil Goulet commented on the problem of trespassing resulting in property damage along the Willamette River and he felt this problem should be addressed in the proposal to LCDC.

Mr. Stan Pintarich of the Governor's Greenway Advisory Committee mentioned that Oregon is getting more people and with an increase in population there are more problems. He said he was satisfied and pleased with the review process that the Greenway Committee went through. He indicated that the Committee's point of view is for the Commission to pass the segments that are being considered on to LCDC so those processes can continue.

After further discussion concerning this matter, the Commission approved transmitting these segments, excluding the City of Portland, to LCDC as recommended by Mr. Talbot. (See page 2070 for list of segments.) Chairman Jackson advised the delegation that when the Greenway Plan comes back from LCDC and if it has recommendations that are inconsistent with their belief, an opportunity would be provided for them to present their views before the Transportation Commission gives final approval.

Mr. Harold Grover informed the Commission that House Bill 3261 requires the Motor Vehicles Division to start registering vehicles on October 4, 1977, on an annual basis, and House Bill 2987 requires issuance of customized license plates for motorcycles on the same date. Following his recommendation, the Commission gave their approval for Mr. Grover to ask the Emergency Board at the August meeting for sufficient funds to order the necessary supply of stickers and dye to carry out the intent of these bills.

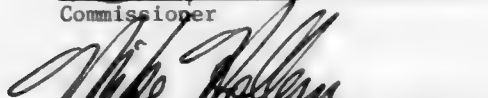

Attention was given to a request from Richard Alexander, attorney representing Donald M. Drake Company and Gordon H. Ball, Inc., for reconsideration of the Commission's denial of petroleum escalation claims. The Commission reaffirmed its decision taken at their March 15, 1977, meeting and instructed the Highway Engineer to advise the contractors' attorney.

The Chairman adjourned the meeting at 12:30 p.m.

MINUTES OF 7-19-77

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7456 Raymond M. Harnar, et ux. v. State: This is a foreclosure suit which was filed in Umatilla County in which the Motor Vehicle Division of the Department of Transportation was named as it may possibly have a lien on the property for uncollected Oregon diesel excise tax in the amount of \$180. The matter has been referred to the Attorney General's office for handling.

L-7457 Elvin Keeling v. State: This is a complaint for wrongful death arising out of an accident that occurred on June 14, 1975, when a rock came down off the hillside and resulted in the death of a minor child riding in the back of a camper. The accident occurred on The Dalles-California Highway approximately 15 miles north of Klamath Falls. The plaintiff is asking for \$102,000 in damages. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7459 Bettie Jo Lowder, personal representative of Leo H. Lowder, deceased, v. State: This is an action for wrongful death resulting from an accident that occurred August 14, 1975, near the Ainsworth Park exit in Multnomah County on I-80N. The allegations of negligence relate to the maintenance of a temporary surface with a six-inch drop-off on the edge. The plaintiff is seeking \$1,501,400. The matter has been referred to the State's insurance carrier for the defense of the State.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
AUGUST 23, 1977

August 23, 1977
Portland, Oregon

Governor Robert Straub, members of the Oregon Transportation Commission and others participated in ground-breaking ceremonies marking the start of construction in Oregon of the I-205 Columbia River Bridge. At 9:45 a.m. the participants boarded at the Multnomah County Boat Launch facility (Marine Drive and 42nd Avenue) the tug owned by Willamette-Western Corporation (contractor for the bridge) and went up the Columbia River to a clamshell dredge near Government Island where ceremonies were held at approximately 10 a.m.

During the Governor's remarks, he announced that the bridge will be known as the "Glenn L. Jackson Bridge" in honor of the Chairman of the Oregon Transportation Commission.

The Governor then activated the machinery to haul up the first scoopful of material from the bottom of the river.

The Oregon Transportation Commission held a luncheon meeting at 12:30 p.m. in a staff conference room at the Department's Metropolitan Office, 5821 N.E. Glisan Street, Portland. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
David Talbot, State Parks Superintendent
Bob Blensly, Program Development Coordinator
C. W. Head, Manager, Commission Services
Fran Neavoll, Commission Services

Mr. Burco presented a sample logo for the Department of Transportation. He mentioned that the Department is very much in need of an identification. He indicated the target symbol would still be used within the Highway Division. Chairman Jackson asked that before this logo is implemented to make sure there is no conflict with any State policy. After further discussion the Commission approved the following logo as presented by Mr. Burco:

The Oregon Department of Transportation

There was discussion concerning the employment of Mr. Ron Linton of Washington, D.C., as a representative for the Department for approximately one year concerning Federal legislation and regulations. Mr. Burco said that one of Mr. Linton's activities would be to monitor several Federal activities in Washington, D.C. during the crucial months leading up to the adoption of the 1978 Surface Transportation Act. (For complete list of activities see agreement on file in the Commission's files, Salem.) The Commission approved entering into an agreement with Mr. Linton on a monthly basis at \$2,000 per month, subject to cancellation by either party, effective September 1, 1977, and authorized the Director to sign the agreement. Commissioner Walsh asked that Mr. Linton be required to submit a monthly status report of activities and accomplishments.

The Commission discussed the recommendation from the Travel Advisory Committee that \$60,000 be deleted from the Travel Information Section budget in order to contract with Oregon Hospitality and Visitors Association. The Commission deferred action of the matter until the September meeting. (See page 2106.)

Mr. Burco called upon Larry Rulien to brief the Commission concerning the Six Year Highway Plan. He stated that Mr. Rulien would be discussing at the formal meeting the process leading up to the adoption of the Program and a workshop would be held at the close of the formal meeting relative to an alternate program.

The luncheon meeting adjourned at 1:35 p.m.

The Commission held their formal meeting at 1:40 p.m. in the Department's Metropolitan Office Conference Room. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. The same individuals were present that attended the luncheon meeting. Other present were:

Walt Barrie, Chief Counsel
Don Streun, Assistant Director for Administration
George Bell, Special Assistant for Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
Robert Bothman, Administrator of Metropolitan Branch
Alan Lightner, Executive Assistant to Director
Glen Green, Federal Highway Administration

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of July 19, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2662" on file in Commission's files, Salem.)
- 3) Authorized increase in project authorization on the following contract:
 - a) Contract No. 8363, Fairgrounds Interchange-Roberts Creek Section, Pacific Highway, Douglas County, in the amount of \$480,602.71. (28.7% overrun)
- 4) Request to proceed with preliminary engineering on the Goods Bridge Section of the Canby-Marquam Highway in Clackamas County. Cost estimate \$50,000 of which \$42,900 will be 1978 Federal Aid Secondary Funds and \$7,100 will be State Highway Funds.
- 5) Sign with the legend "YIELD TO ONCOMING TRAFFIC" to inform motorists at certain signalized intersections which include left-turn refuges that the signal does not provide a protected left-turn movement.
- 6) Agreement with Umatilla Electric Cooperative Association to provide three-phase 120/240 electric service to the utility building in Emigrant Springs State Park in Umatilla County.
- 7) Adopted the following abandonment resolutions:
 - a) Two short segments of old right of way (.4 mile) in the Malheur River Bridge Section of the Olds Ferry-Ontario Highway in Malheur County. ("Abandonment Resolution No. 565" on file in the Commission's files, Salem.)
 - b) Approximately .46 miles of old highway alignment to Benton County and approximately .50 miles of old highway right of way to the abutting property owners in the Blodgett-Gellatly Summit Section of the Corvallis-Newport Highway. ("Abandonment Resolution No. 547" on file in the Commission's files, Salem.)

- 8) Installation of traffic signals on the McKenzie Highway (Main Street) at the intersections with 3rd Street and 32nd Street in the City of Springfield. No cost to State for installation. State to perform required maintenance.
- 9) Two requests for approval of Urban System Projects as follows:
 - a) City of Salem request for a carpool demonstration project to develop alternative modes to compensate for the removal of parking in the downtown and Capitol Mall areas. City to provide all matching funds. Total cost \$37,500; Federal Funds \$33,750. (Program to be developed within the Mid-Willamette Valley Council of Governments.)
 - b) City of Ashland request for preliminary engineering, including preparation of final plans, on Main Street (Rogue Valley Highway)-Mountain Avenue, Hersey Street. Total cost \$25,000; Federal Funds \$21,500; State's share \$1,750.
- 10) Adopted a resolution declaring necessity of an aviation easement over certain parcels of real property for public purposes for the Powers State Airport in Coos County and authorized condemnation if necessary. ("Aeronautics Condemnation Resolution No. 2663" on file in the Commission's files, Salem.)
- 11) Adopted a resolution declaring necessity of purchase of certain parcels of real property for public purposes for the Aurora State Airport in Marion County and authorized condemnation if necessary. ("Aeronautics Condemnation Resolution No. 2664" on file in the Commission's files, Salem.)
- 12) Authorized payment of \$4,000 as membership fee in the Pacific Northwest Travel Association for this fiscal year.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Rulien handed to the Commission copies of the Oregon Rail Plan. (Report dated March 1977 on file in the Commission's files, Salem.) He recalled that the Department received a grant from the Federal Railroad Administration of approximately \$186,000, and that the Legislature provided General Funds to match the grant so there could be some basic planning of rail facilities in the State. Mr. Rulien referred to Page 5 of the report, which outlined the goals and objectives. He called attention to Page 7, which calls for a broad-based technical and citizen advisory committee of approximately 12 to 15 members which will be established to aid staff with technical and policy portions of the Plan. The committee will be made up of railroads or their state association, rail unions, shipper groups, statewide environmental organizations, statewide railroad passenger organizations, related state agencies and representatives of county and city associations.

Attention was given to an agreement with the Department of Economic Development to furnish the Department information concerning ports and waterways to assist the Department of Transportation in carrying out its responsibilities in Statewide transportation planning. Mr. Burco stated the Department of Economic Development will provide a general overview of the work to be accomplished during the biennium and they will provide planning information on special project assignments relating to ports and waterways. The total payment is not to exceed \$64,987 for actual expenses incurred. Chairman Jackson inquired if highway funds can legally be transferred for this purpose. Mr. Burco replied that it had been done in the past generally using planning and research funds.

Mr. Barrie said there is a legal problem involved here which has been discussed with the Director. It was Mr. Barrie's opinion that if the work performed by the planner has a relationship with systems design or otherwise working towards benefiting the highway system then dedicated highway funds can be expended; but, if the planner's work isn't directly benefiting the highway system (for example, a ports study), then it should be funded only from the general fund.

The Commission approved the agreement as recommended by Mr. Burco and authorized him to sign it in their behalf.

Mr. Bell presented to the Commission the Travel Advisory Committee's recommendation for the approval of an agreement with the Oregon Hospitality and Visitors Association to do certain

tourist promotion work in the amount of \$60,000. He stated it was also the Committee's recommendation that this agreement be funded as follows:

By not printing the 1978 State highway map \$35,000
for one year

By reducing the amount budgeted for a travel \$20,000
film

By taking the amount from the funds for display \$ 5,000
materials in the roadside rest areas

He said the Legislature had refused to fund this agreement and that funding would have to come from the reduced Travel Information Section budget. The Chairman stated that the Commission wishes to defer action until their September meeting.

Mr. Rulien outlined the following procedures for updating and extending the Six Year Highway Improvement Program:

- 1) Review of the status of the projects in the current program; revising the cost estimates as necessary; determining the earliest practical letting dates; identifying projects needed to preserve pavements, bridges and operating characteristics; and projecting anticipated funding, both State and Federal.
- 2) Consider all of the information available; put together a preliminary program that is fundable and practical and that is consistent as possible with commitments, policies and needs.
- 3) Advertise and hold approximately 40 public meetings throughout the State.
- 4) Information obtained through the meeting process will be analyzed and modifications and alternates to the preliminary program will be considered and reviewed with the Commission.
- 5) Adoption of the program in February 1978 by the Commission.

He stated the existing program runs to 1982 and it is not financially balanced. The new program will cover fiscal years 1979 through 1984, which would start July 1, 1978. Mr. Rulien said it is planned to present two programs to the public; one with the present revenue, and the other with revenue provided in the recent legislative bills. There was discussion regarding increase in construction costs and growth in revenue.

Mr. Bell reported on the October Commission meeting to be held in Pendleton. He mentioned a field trip is planned for Monday afternoon, October 17. A dinner will be held that evening at the Indian Hills Motel and various officials will be invited to attend to discuss their problems and needs. The Commission meeting will be held Tuesday morning, October 18, in the Pendleton City Hall. Following the Commission meeting, a luncheon may be held with either a service club or a downtown businessman's group. Commissioner Brix suggested that Congressman Al Ullman be invited to attend.

Mr. Burco said public hearings pertaining to the Six Year Program will be held throughout the State the third week in October. He mentioned that he would try to arrange one of these meetings for Tuesday evening on October 18 in Eastern Oregon in the event some of the Commissioners might be able to attend.

Mr. Streun handed to the Commission copies of the Department's Affirmative Action Plan. (DOT Policy No. 6 dated 6-14-77.) The purpose is to comply with Title VII of the Civil Rights Act of 1964 as amended in 1972 and to assure support of the Governor's formal and continuing program of affirmative action to achieve appropriate distribution of minority and female employees at all levels and in all phases of Department of Transportation activities and programs. Mr. Streun gave to the Commission copies of the Equal Employment Opportunity Affirmative Action Program. (Reports on file in the Commission's files, Salem.) He said he would like the Commission's endorsement of the Department's EEO Program. He reviewed with the Commission examples of specific problems the Department has encountered regarding the affirmative action program. He also outlined how the Department is going to solve the problems and the activities the Department is undertaking to deal with the problems. There was discussion concerning the contractor's compliance in the affirmative action program which is a Federal requirement.

The Commission set Thursday, September 22, 1977, for their next monthly meeting.

Mr. Klaboe requested authority to commence proceedings in accordance with the Administrative Procedures Act to adopt a rule establishing a bus lane on Barbur Boulevard from Southwest Front Avenue (M.P. 1.97) to Southwest Slavin Road (M.P. 3.18) (ORE 99W) in the City of Portland. Mr. Klaboe said the bus lane will be operated in conjunction with the West Portland Park-and-Ride Station. The park-and-ride station will serve as a transfer point from which express buses will haul people to the central business district utilizing the Barbur Boulevard bus lane one-way inbound in the morning peak hours and outbound in the afternoon peak hours. He said the remainder of the time the lane, which is in the center of

Barbur Boulevard, can be used as a continuous left-turn refuge. The Commission gave their approval to commence proceedings. (Notice published in the Secretary of State's Administrative Rule Bulletin on September 1, 1977. Public hearing held September 12, 1977.)

Mr. Coulter reported that the recent Legislature enacted Senate Bill 452 which establishes a Winter Recreation Advisory Committee to advise the Commission regarding removal of snow from winter recreation parking locations in the State. The statute requires the Commission to designate members of the Committee. The Commission designated the following members to the Committee as recommended by Mr. Coulter, effective July 1, 1977:

Two-Year Appointments

| <u>Name</u> | <u>Representing</u> | <u>City</u> |
|-----------------------|--|-------------|
| Richard L. Kohnstamm | Ski area operators
Western Oregon | Timberline |
| Chuck Hale | Pacific Northwest
Ski Association | Lake Oswego |
| Dr. Kenneth Havernick | Oregon State Snowmobile
Association | Lebanon |
| Donald T. Grubb | General public | Bend |

One-Year Appointments

| | | |
|------------------|--------------------------------------|---------------|
| Mike Lockhart | Ski area operators
Eastern Oregon | Anthony Lakes |
| George H. Watson | Oregon Nordic Council | Portland |
| Vawter Parker | General public | Portland |

The Commission considered a request from William C. Lebow to place a mobile home within the Rogue River Scenic Waterway in Curry County. (Action was deferred on this item at the July 19, 1977, Commission meeting.) Mr. Talbot said that since the last meeting, the staff has talked to Mr. Lebow and he understands the staff recommendation that the Department not move to acquire his property, and that the Department has taken this position in order to remain consistent with the Forest Service policy in regard to his property, which would allow placement of the mobile home. Mr. Talbot mentioned with this understanding Mr. Lebow is not expected to protest denial of his plan. The Commission accepted Mr. Talbot's recommendation to deny Mr. Lebow's request.

Attention was given to a request from the Holy Trinity Greek Orthodox Church to develop a youth camp and retreat for church members within the Sandy River Scenic Waterway, located about one mile upstream from Dabney State Park in Multnomah County. Mr. Talbot stated the site is within the area of greatest visual effect on the natural river scene. The Department's management plan calls for no new structures which are not topographically screened from view from the river except those necessary for public recreational use and resource protection. He continued that the approval would require a variance to this rule, something the Department has not recommended before in the Sandy River Gorge because of its proximity to Portland and development pressures. He said surveys indicate that the proposed main lodge would not be topographically screened from view downstream, though it would be entirely concealed by evergreen vegetation. The staff's reasoning he said, is that the proposed development and use, while not public, would be compatible with the Scenic Waterway and would provide responsibly managed group recreational benefits for a substantial number of persons. Mr. Talbot recommended approval of this request contingent upon the Church's willingness, in return, to grant a scenic easement assuring that future use would not change, that development would not exceed agreed upon limits, and that natural values would be protected. The Commission accepted his recommendation.

Mr. Talbot reported that the staff has forwarded to the Land Conservation & Development Commission the Willamette River State Greenway Plan Proposal, as directed in the law and in the Greenway Goal set up by LCDC. He said local governments are presenting their greenway plans and staff has tried to work with them along the way and many differences have been resolved. He commented in some cases there are differences about boundary matters and designation of areas that might some time in the future be purchased for public purposes. He said LCDC reviews the State's proposal and the local governments' proposal on a mile-by-mile basis with maps. Mr. Talbot said the last group of jurisdictions that went to LCDC will most likely be concluded in this calendar year with holding public hearings. He mentioned that it will then be brought back to the Commission, but LCDC has the final authority to approve the overall plan.

In response to Commissioner Brix, Mr. Talbot reaffirmed that the segments in the City of Portland had not been sent to LCDC.

Mr. Talbot mentioned that he wanted the Commission to be aware that their formal approval was not required at the July 19, 1977, Commission meeting.

Mr. Barrie commented the statute states that the Department prepare and submit the plan to LCDC, and the statutes give LCDC the authority to approve it. It was Mr. Barrie's opinion that the Commission, in submitting the plan to LCDC, satisfies the statutes. The Commission stated that a commitment had been made to the opponents of the Plan for a hearing and it should be offered.

Mr. Talbot mentioned that the \$2 non-resident camper surcharge initiated at the direction of the Legislature is operating fairly well. He said there have been a few complaints. Mr. Talbot pointed out that the park attendance is higher than usual this year especially on the coast.

Mr. Grover introduced to the Commission Mr. Harold Lyster, Manager of the Fuels Tax Section, in Portland.

Consideration was given to an agreement with Kent J. Collings, consultant in the field of labor relations, to conduct a four-hour class entitled "Contract Administration Update" for the managers of the Motor Vehicles Division. Mr. Grover said that this is in connection with a seminar to be held in Bend on September 14, 15 and 16, 1977, at a cost of \$150. The Commission approved the agreement as recommended by Mr. Grover and gave authority to him to sign the agreement. Commissioner Hollern inquired about the necessity of the Commission's approval for such a small amount. Mr. Burco said that he plans to present at the next Commission meeting some redelegation orders concerning such matters.

Upon the recommendation of Mr. Grover, the Commission gave their approval to submit the following items to the Emergency Board:

- 1) Increase in expenditure limitation of \$760,459 and 25 additional positions for the purpose of implementing Chapter 865, Oregon Laws 1977 (Enrolled House Bill 3261), relating to 1-year registration periods for motor vehicles. It also increases motor carrier taxes, increases certain motor vehicle registration fees and provides special reduced registration fees for persons 65 or older.
- 2) Increase in expenditure limitation of \$36,334 and one additional position for the purpose of implementing Chapter 263, Oregon Laws 1977 (Enrolled Senate Bill 452), relating to parking permits for winter recreation areas.
- 3) Increase in expenditure limitation of \$23,100 (\$20,100 was reported to Commission in error) for the purpose of implementing Chapter 718, Oregon Laws 1977 (Enrolled Senate Bill 121), relating to mobile homes.
- 4) Increase in expenditure limitation of \$3,750 for the purpose of implementing Chapter 655, Oregon Laws 1977 (Enrolled House Bill 2987), relating to custom license plates for motorcycles.

- 5) Increase in expenditure limitation of \$161,823 and four additional positions for the purpose of implementing Chapter 674, Oregon Laws 1977 (Enrolled House Bill 2388), relating to licensing and inspection of vehicle dealers.

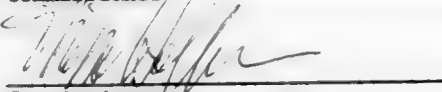

The Chairman commented on the report made by the GMA Research Corporation on the survey of motorists' reactions relating particularly to the Motor Vehicles Division. Chairman Jackson suggested that the report be read and discussed at the next meeting.

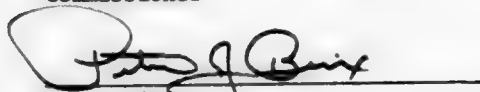

The Chairman adjourned the meeting at 2:55 p.m.

A workshop was held in the Metro conference room following the formal meeting concerning the Six Year Highway Improvement Program.

- (2) Supplemental agreement with the Department of Human Resources, Children's Services Division, relating to employment of boys from the MacLaren School for Boys in work camps located in Florence and Tillamook (Lane and Tillamook Counties). Supplement amends an agreement dated April 7, 1975, page 2, item no. 7, line 6, changing the words "\$1.00 per man hour" to "\$1.25 per man hour". This increase will cost an additional \$11,000 each year for the program. Except as amended, the agreement dated April 7, 1975, shall remain in effect. (Parks Branch)
- (3) Agreement with Clackamas County for the installation of flashing beacons on the Palmquist Road-Kelso Road Section of the Mt. Hood Highway. The State will design, install and maintain the equipment utilizing 90% Federal Aid Safety Funds. The County has agreed to pay all costs of electrical energy consumed in operation of the beacons. (Local Government Programs)
- (4) Agreement with the City of Albany providing for installation of signals at the intersection of the Albany-Junction City Highway and 34th Avenue (Linn County). The State will design, install and maintain the signal equipment utilizing Federal Aid Transition Quarter funds. Upon completion, the City will pay all costs of electrical energy consumed through operation of the signals. (Local Government Programs)
- (5) Agreement with Columbia County for installation of railroad crossing protection at the Deer Island Road crossing of the Burlington Northern Railway tracks. The project is eligible for 90% Federal Aid funding under Section 203 of Title II, Highway Safety Act. Total estimated cost of the work is \$50,000. Matching monies will be 7½% State Grade Crossing Protection Fund (\$3,750) and 2½% County Funds (\$1,250), with no expense to the Highway Division. (Local Government Programs)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following agreements and report this action for your official records:

- 1) On July 19, 1977, approved a supplemental agreement with GMA Research Corporation relating to an agreement entered into with GMA Research Corporation on May 2, 1977, to conduct a state wide survey to assess the attitudes toward the Department of Transportation services and determine perceptions of local transportation needs. Supplement provides for a detailed analysis of the survey, at a cost not to exceed \$2,500. I also authorized Director to sign supplemental agreement.
- 2) On July 19, 1977, approved an agreement with the United States Forest Service for construction and maintenance of a snowmobile parking area, Big Lake Road, Santiam Highway. Snowmobile funds will be used at a cost not to exceed \$50,000.

(2) Agreement with the City of Hermiston for installation of traffic signals on the Umatilla-Stanfield Highway at intersections with Elm, Jennie and Hurlburt Avenues in Umatilla County. The State will design, install and maintain the signal equipment utilizing Title II, Section 209 Safety funds. Upon completion of this project, the City will pay all costs of electrical energy consumed in their operation. (Local Government)

(3) Agreement with the City of Portland concerning construction of the Troy Street-Taylor's Ferry Road Section of the Terwilliger Bikeway, in Multnomah County. The State will design and construct the bikeway, which is estimated to cost \$50,000 utilizing funds set aside for bicycle-pedestrian trails. The City will contribute \$10,000 toward the construction costs and maintain the facility. Funding is about 80% State and 20% City. (Local Government)

(4) Agreement with the City of Tigard concerning installation of traffic signals on the Pacific Highway West at McDonald Road in Washington County. The State will be responsible for design, installation and maintenance of the equipment utilizing Federal Aid Transition Quarter funds. Upon completion, the City will pay all costs of electrical energy consumed in operation. (Local Government)

H. S. Coulter
State Highway Engineer

EXHIBIT B
MINUTES OF 8-23-77

TO: Oregon Transportation Commission

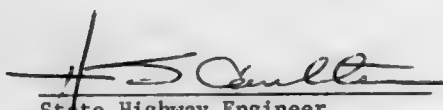

SUBJECT: Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following items and report this action for your official records:

- 1) On July 7, 1977, approved a Bridge Project Agreement with Columbia County for preliminary and construction engineering for a bridge replacement program.
- 2) On July 8, 1977, approved an agreement with Roger Sutherland to mow grass which is accessible to his equipment within McIver State Park in Clackamas County. Effective date June 21, 1977, and shall terminate on October 1, 1977.
- 3) On July 20, 1977, prohibited parking on the north side of the Tualatin Valley Highway from S.W. 185th Avenue (MP 6.60, Engineering Station 130+50) to 250 feet west of S.W. 187th Avenue (MP 6.78, Engineering Station 140+00) in the Community of Aloha, Washington County.
- 4) On August 1, 1977, established a 45 MPH speed zone on the Halsey-Sweet Home Highway in Linn County from M.P. 16.55 to M.P. 17.65 except a 20 MPH school crossing zone from M.P. 17.37 to M.P. 17.57. See Speed Zone Order No. 748. (This speed zone was approved by C. T. Keasey on behalf of Mr. Coulter pursuant to written delegated authority.)
- 5) On August 9, 1977, established a 35 MPH speed zone on the Fremont Highway from south city limits of Lakeview to County Road No. 1-14 in Lake County.* This speed zone order rescinds Speed Zone Resolution No. 448 dated 4-23-64. (See Speed Zone Order No. 749.) (This speed zone was approved by C. T. Keasey on behalf of Mr. Coulter pursuant to written delegated authority.) * M.P. 144.04 to M.P. 144.53

EXHIBIT B
MINUTES OF 8-23-77

- 6) On July 18, 1977, approved an agreement with Department of Fish and Wildlife to lease certain real property in McIver State Park in Clackamas County for construction, operation and maintenance of a fish hatchery.
- 7) On August 12, 1977, established a 35 MPH speed zone on the Tiller-Trail Highway in the vic. of Tiller from M.P. 26.08 to M.P. 26.84, including a 20 MPH school zone from M.P. 26.21 to M.P. 26.35. Rescinds Speed Zone Resolution No. 211 dated 9-22-55. (See Speed Zone Order No. 750). (This speed zone was approved by C. T. Keasey on behalf of Mr. Coulter pursuant to written delegated authority.) Douglas County.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7479 Brenda L. Starkey, Personal Representative for Blake Robert Starkey v. Grant E. Wilson and Mark G. Wilson, et al: This case arises out of an accident that occurred on November 19, 1975 in which a dumptruck being operated by an employee of the Highway Division contractor backed over Blake Robert Starkey and as a result caused his death. The complaint lists the partnership involved, the Oregon State Highway Division and John Sawyer, Resident Engineer. The amount of the lawsuit is \$902,000. The matter has been referred to the Attorney General's office for the defense of the State. (M.P. 73.8, I-80N, Wasco County.)

L-7480 Ruth A. Graham v. State, et al: This case arises out of an accident that occurred on July 17, 1975, and the plaintiff was a passenger and owner of an automobile driven by her husband. The accident involved the log truck being driven by a second party and also involved a Highway Division dumptruck. The amount of the lawsuit is for \$15,000 in general damages for loss of companionship of her husband during his injury. The matter has been referred to the insurance carrier for the defense of the State. (Hwy. 30, 18 mi. west of Astoria, Clatsop County.)

L-7481 Murland Graham v. State, et al: This is a companion case to L-7480, reported above, and arises out of the same accident. The amount of this lawsuit is for \$15,000 and is for the loss of companionship of his wife because of her injury in the accident. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7484 Annette Morris v. State, et al: This lawsuit arises out of an accident which occurred on August 15, 1976, at the intersection of 12th and Chemeketa Street in the City of Salem. The alleged cause of the accident is the failure of the traffic signal to go from green to yellow to red when pre-empted by a train coming down the track. A vehicle in front of the vehicle in which the plaintiff was a passenger stopped abruptly when the signal went from green to red and the vehicle in which plaintiff was a passenger collided with the rear end of the other vehicle. Plaintiff is seeking \$165,000 in damages. The case has been referred to the Attorney General for the defense of the State.

L-7485 William E. Mahin, et ux. v. Ralph W. Farr, et al: This case involves a suit for declaratory judgment relating to the right to use certain roadways in Jackson County. The involvement of the Department of Transportation relates to the dedication for public purposes as a roadway of a 60-foot strip of land in Jackson County. The matter is being reviewed by the Right of Way Section and the case has been referred to the Attorney General's office for handling.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On June 22, 1977, \$ 2,399,529.08 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of June, 1977
(List of apportionments on file in Commission Files, Salem.)

On July 29, 1977, \$ 1,439,717.45 (12 percent of the Highway Fund) was distributed to the cities for the month of June, 1977.
(List of apportionments on file in Commission Files, Salem.)

Dated this 21st day of July, 1977

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
SEPTEMBER 16, 1977

September 16, 1977
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 8:15 a.m. in Room 129 of the State Transportation Building in Salem, Oregon. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
B. Gordon Coleman, Member, Eugene
Tom Walsh, Member, Hermiston
F. B. Klaboe, Chief of Operations, Salem
H. S. Coulter, State Highway Engineer, Salem
Don Streum, Assistant Director for Administration, Salem
C. W. Head, Manager, Commission Services, Salem

Mr. Coulter stated that this meeting was called to secure Commission approval to submit a request to the Emergency Board for two new positions and expenditure limitation increases to change the method of entering data to the Highway Maintenance Management System. He said this would transfer responsibility from the Data Processing Section (Office of the Director) to the Salem Maintenance Office of the Highway Division. He mentioned the benefits to the State are:

- a. Better performance of maintenance work within available funding.
- b. Improvement in the overall condition of highways within the State on a uniform basis, which will help to reduce accidents and the cost to motorists of maintaining their vehicles. Estimated savings to the road user because of reduced accidents during the 1977-79 biennium are between \$600,000 and \$700,000.

The Commission gave their approval for the Department to request the following from the Emergency Board:

- a. Establish two new Clerical Specialist positions in the Highway Division.
- b. Revise 1977-79 expenditure limitation.
 1. Office of the Director
Chapter 705 Oregon Laws 1977
Section 3 (2) Administrative Services \$15,314
 2. Highway Division
Chapter 439 Oregon Laws 1977
Section 3 \$66,489

(Detailed letter of request to the Emergency Board on file in the Commission's files, Salem.)

The meeting adjourned at 8:20 a.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
SEPTEMBER 22, 1977

September 22, 1977
Salem, Oregon

The Commission met in an informal meeting at 8:30 a.m. in the Director's Office, Room 135, Transportation Building. Notice of this meeting and of the formal meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
George Bell, Manager of Intergovernmental and Public Affairs
Dennis Moore, Administrator of Public Transit
David Talbot, State Parks Superintendent
Alan Lightner, Executive Assistant to Director
C. W. Head, Manager, Commission Services

There was discussion concerning the Six Year Highway Improvement Program and each Commissioner indicated the meetings that they would be able to attend in the various parts of the State. The Commission viewed a twelve-minute video tape on the Six Year Highway Improvement Program that will be shown at the Statewide meetings. Several suggestions were given by the Commission for improving the video tape presentation.

The Commission held their formal meeting at 10 a.m. in Room 122, Transportation Building. The same individuals were present that attended the informal meeting. Others present were:

Michael P. Hollern, Member
Larry Rulien, Assistant Director for Transportation Policy and Program Development
Roger Ritchey, Deputy Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
Jack Sollis, Assistant Attorney General
R. L. Schroeder, Maintenance Engineer
C. T. Keasey, Construction Engineer

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of August 23, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Condemnation Resolution No. 2665" on file in Commission's files, Salem.)

- 3) Authorized increase in project authorization on the following contract:
 - a) Contract No. 8504, St. Paul-Woodburn Section, Hillsboro-Silverton Highway, Marion County, in the amount of \$213,845.05. (19.9% increase)
- 4) Request from City of Portland for an Interstate transfer project for preliminary engineering and construction to provide a double left-turn ramp from Grand Avenue to the Morrison Bridge. City will provide all the required \$14,200 of local match. Cost \$100,000. (Authorized State Highway Engineer to sign project agreement when prepared.)
- 5) Request from City of Portland for a project utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway to widen and improve a 0.70 mile section (Glenwood Street-Crystal Springs Boulevard) of S.E. 39th Avenue. City will provide all of the required \$38,640 of local match. (Authorized State Highway Engineer to sign agreement when prepared.)
- 6) Adopted resolution abandoning 0.15 miles of old right of way no longer needed for highway purposes on the Tongue Point-Fern Hill Section of the Columbia River Highway in Clatsop County. ("Abandonment Resolution No. 567" on file in the Commission's files, Salem.)
- 7) Adopted resolution abandoning approximately .36 miles of old right of way no longer needed on the Shoo Fly Creek Section of Service Creek-Mitchell Highway in Wheeler County. ("Abandonment Resolution No. 566" on file in the Commission's files, Salem.)
- 8) Distribution of Fiscal Year 1978 Federal Aid Urban System Funds to the urbanized and small urban areas of the State as follows: (State will continue its policy of providing one-half of the required match funds for local agency projects in which State Highway Funds can legally be expended. Total match funds for 1978 are estimated at \$946,000 of which the State's share would be approximately \$473,000.)

(See next two pages for tabulation)

| TOTAL | \$3,138,131 | \$3,649,000 |

SUMMARY - FISCAL YEAR 1978 COUNTY FAS FUNDS

| | |
|--|--------------------|
| Total Federal Funds | |
| (50% of Oregon apportionment less planning survey funds) | \$3,138,000 |
| Plus estimated State Match Funds | 255,500 |
| " " County Match Funds | 255,500 |
| TOTAL FUNDS | \$3,649,000 |

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on rural county road mileage) proposed by association of Oregon Counties and approved by Transportation Commission. Federal funds are estimated to represent approximately 86% of total county road FAS funds with State and County funds estimated to be approximately 7% each.

- 10) Request from Columbia County for a Federal Aid Secondary System Project to replace three deficient bridges across Rock Creek on Keasey Road west of Vernonia. Estimated FAS Funds \$506,540 with State and County each providing approximately \$41,230 in match funds. (Granted State Highway Engineer authority to sign agreement when prepared.)
- 11) Agreement with CH2M/Hill for preparation of the draft environmental impact statement on Powell Boulevard (Mt. Hood Highway) between 52nd Avenue and I-205, Multnomah County, Phase II Project. Agreement will be for a 9-month period and will cost approximately \$93,368.
- 12) Added to the State Construction Program the replacement of a timber bridge across Beaver Creek on the Powers Highway at M.P. 11.55 in Coos County. Estimated cost \$40,000.
- 13) Adopted resolution redesignating those State highways covered by statutes which were repealed by action of the 1977 Legislature. ("Primary and Secondary Highway Designation Resolution No. 53" on file in the Commission's files, Salem.) Resolution effective October 4, 1977. One highway was redesignated as a secondary highway and 54 highways were redesignated as primary highways.
- 14) Adopted as permanent administrative rules the following temporary rules:
 - a) Authority to the Parks Superintendent to waive fees and charges for the use of park facilities. (Temporary rule was adopted on June 13, 1977, and effective that day. A hearing was held on August 25, 1977. Permanent rule effective on September 26, 1977, and published in Secretary of State's Administrative Rule Bulletin on October 15, 1977. "State Parks Resolution No. 39D" on file in the Commission's files, Salem, amending "State Parks Resolution No. 39".)
 - b) Authorizing the assessment of a daily \$2 surcharge to nonresidents using State park overnight camping facilities. (Temporary rule adopted July 21, 1977, and effective on July 25, 1977. A hearing was held on August 25, 1977, and no testimony was offered. After the hearing, written testimony was received from State Senator Dell Isham favoring the surcharge. Permanent rule effective on September 26, 1977, and published in Secretary of State's Administrative Rule Bulletin on October 15, 1977. "State Parks Resolution No. 39E" on file in the Commission's files, Salem, amending "State Parks Resolution No. 39".)

- 15) One-year contract with Oregon Hospitality and Visitors Association for \$30,000 to fund special tourism activities and authorized Director to sign the agreement. (Agreement effective September 23, 1977, through June 30, 1978.)
- 16) Two-year contract with Coit/Petzold Advertising Agency, Portland, for tourist advertising in the amount of \$375,000, as recommended by the Travel Advisory Committee and authorized Director to sign the agreement. (Agreement effective October 1, 1977.)
- 17) Two-year public transit operating assistance agreement with Columbia County in the amount of \$40,000.
- 18) Repairing the Snake River Bridge at Adrian, Malheur County, at estimated cost of \$60,000 to be financed from State Construction Funds.
- 19) Adopted a resolution accepting an amended Grant Offer from the Federal Aviation Administration for additional financial assistance in the amount of \$9,394.10 to bring the total Federal grant for an Airport Development Aid Program Project at the Siletz Bay State Airport to \$103,335.10. ("Aeronautics Miscellaneous Resolution No. 6A" on file in the Commission's files, Salem.)
- 20) Authorization to join the American Public Transit Association for a one-year period at a cost of \$600.
- 21) Two-year \$60,000 transit operating assistance agreement with the City of Roseburg.
- 22) Presentation to the Emergency Board an increase in expenditure limitation of \$87,359 and for five new positions to implement a budget note relating to verification of auto insurance.
- 23) Two-year public transit operating assistance agreement with the City of Albany in the amount of \$40,000.
- 24) Adopted as a permanent rule the establishment of a bus lane on the Front Avenue-Slavin Road Section of Barbur Boulevard (Pacific Highway West) within the City of Portland, Multnomah County. ("Miscellaneous Resolution No. 260" on file in the Commission's files, Salem.) A hearing was held on September 12, 1977. Permanent rule effective September 23, 1977, and published in Secretary of State's Administrative Rule Bulletin on October 15, 1977.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|--|-----------|
| Chairman of the Oregon Transportation Commission | Exhibit A |
| State Highway Engineer | Exhibit B |
| Right of Way Engineer | Exhibit C |
| Chief Counsel | Exhibit D |
| Highway Controller | Exhibit E |
| Project Management Engineer | Exhibit F |

Mr. Moore reported on House Bill 3000 which creates the Oregon Mass Transportation Financing Authority with authority to own mass transit facilities, to lease or sell facilities to mass transit districts, to issue bonds, to make loans to mass transit districts and to perform related acts. He said this bill was passed by the 1977 Legislature and will become effective on October 4, 1977. The purpose of this new Authority is to permit a degree of flexibility in mass transit facility financing and to spread capital improvement costs over a period of years rather than a year's budget. He stated that the Chairman of the Transportation Commission will be a member of the Authority and there is a provision in the law to test its constitutionality. Mr. Moore mentioned the Chief Counsel suggested that the districts petition to determine the constitutionality.

Mr. Moore commented on Senate Bill 999 passed by the 1977 Legislature that establishes the Willamette Valley Rail Study Committee, effective October 4, 1977. He said this nine-member committee is to investigate and make recommendations to the 1979 Legislature on the feasibility of a rapid rail system within the Willamette Valley. He commented the committee is to report its progress and activities to the Transportation Commission. Mr. Moore said the Public Transit Division is to serve as the staff of the committee and \$150,000 has been set aside in the Emergency Fund for the committee's activities.

DIRECTOR'S REPORT

Mr. Bell handed to the Commission copies of a tentative schedule for the October 18, 1977 Commission meeting to be held in Pendleton. (Copy of this schedule on file in the Commission's files, Salem.) Mr. Burco said invitations had been sent to the legislators in Eastern Oregon inviting them to the no-host dinner, Monday evening, October 17, at the Indian Hills Motel in Pendleton.

Mr. Rulien reported on the Rail Advisory Committee plans. He said Mr. George Grill, Vice President of Silver Wheels Freightlines in Portland, has been added to the committee. The first meeting was held recently to review the legislation that covers freight planning and the grant. He said an additional \$17,516 is available to Oregon

for rail planning. The funds require a 10% State match (\$1,946) and must be used prior to July 31, 1978. In order to receive the funds, he said, application must be made to the Federal Railroad Administration prior to September 30, 1977. He commented it is proposed to use the additional funds to carry out an extended rail shipper survey throughout the State. The project involves the survey and interview of rail shippers in order to obtain information on shipper needs and problems and origin-destination data to be used in future planning efforts. He said that allocation of State funds to the proposed project and use of Federal funds requires Emergency Board approval. Following Mr. Rulien's recommendation, the Commission gave their approval for the Director to appear before the Emergency Board for a change in expenditure limitation to apply for the additional grant.

Mr. Rulien presented to the Commission copies of the Preliminary Six Year Highway Improvement Program for Fiscal Years 1979 through 1984, dated September, 1977. (Copy of report on file in the Commission's files, Salem.) He said included in the document is a transmittal letter of what the Department proposes to do and a schedule listing the 39 meeting locations to be held throughout the State starting October 17 and ending November 10, 1977. He said the program has two proposals: one, based upon additional revenues if voters approve highway fund tax increases passed by the 1977 Legislature; and a second, based upon projected revenues should these tax increases fail to gain public approval.

Mr. Bell commented on the advance meetings that he will be having with the various cities, counties, news media, chambers of commerce, etc., prior to the Six Year Highway Improvement Program meetings to urge their attendance and input.

OPERATIONS

Mr. Schroeder introduced the following employees who have completed 40 years of service with the Highway Division:

Olaf G. Fransen, Section Supervisor, Tillamook
Melvin G. Willis, Large Supervisor Foreman, Meacham
John F. Hageman, Utilities Permit Engineer, Salem
Ottis L. Dewey, Weighmaster, Central Point

Chairman Jackson presented to each employee 40-year service pins and thanked them for their long and faithful service with the Department.

Mr. Keasey reported on the Woodburn asphalt recycling project (Hillsboro-Silverton Hwy., Marion County, Contract No. 8504). He said 50,000 tons of asphalt concrete material was salvaged from construction on Interstate 5 between Woodburn and Salem in Marion County. The Boeing Company modified a drum dryer asphalt plant for Babler Bros., Inc., the prime contractor, which appears to produce a satisfactory product from all of the tests. The production of

the plant is about one half of what it would be if new materials were used. Mr. Keasey stated that tests so far indicate that the material is very comparable with new asphalt concrete; however, the real test won't be known until it is under service for a period of time.

Mr. Talbot mentioned that the 1977 Legislature as a part of the Parks Branch allocated \$500,000 to be distributed to local government as grants-in-aid for park improvements. He said seven meetings have been held with local governments and there have been communications with every city and county. The local governments prefer that the money be distributed through a formula system whereby everybody would get a chance to use it. In their terms, local priorities would be prevailing as long as they met the State's comprehensive planning requirements. As a result of these meetings, it is proposed to allocate \$400,000 to local government through a formula system retaining \$100,000 for a Statewide competition which seems to be meeting with general approval. Mr. Talbot said the formula system is 60% population and 40% equal by county. He mentioned that a mail-out concerning this item will be sent to the Commission for their review and will be listed on the October 18, 1977, agenda for their consideration.

Mr. Grover reported that the recent Motor Vehicles Annual Field Office Managers Meeting held in Bend was a very productive conference. He stated that Mr. Burco spoke to the group and there was an opportunity to talk about the Division's role in the Department. Mr. Grover said he found it gratifying that the field office managers are interested in taking a larger role in their particular communities and communicating about the Department's programs and policies. The Chairman commented again on the report made by GMA Research Corporation, the portion relating to the Motor Vehicles Division in terms of public reaction. Chairman Jackson said that Mr. Grover is actively at work to set up a system whereby delays, misunderstandings, processing, etc., can be simplified and to impress upon his personnel that they are dealing with people. He stated that he was happy with the progress of Mr. Grover's work.

PUBLIC COMMENTS

A delegation of approximately 20 persons from Jacksonville appeared before the Commission requesting a Highway 238 Bypass and an in-city truck route in Jackson County. Mayor Clara L. Wendt said the people of Jacksonville are now ready for a bypass and asked that a public hearing be held.

Mr. Bob Clark, member of the Jacksonville Chamber of Commerce, stated the 60 members of the Chamber have given their unanimous support to the construction of a northern corridor bypass as soon as possible and the immediate establishment of an in-city truck route that would remove truck traffic from the main street.

He read the following letter from the City of Jacksonville to the Jackson County Commissioners:

On Tuesday evening, September 20, 1977, the Mayor and City Council agreed unanimously to:

1. Urge the Department of Transportation to conduct public hearings in Jacksonville in regards to a Highway 238 Bypass and get the truck traffic out of town.
2. Support the State on a Northern Corridor Route.
3. Request a temporary "In-City" Truck Route and limit the weight of trucks.

Mr. Clark read a portion of a letter from Mr. C. William Burk, Director, Southern Oregon Historical Society, to the Jacksonville Chamber of Commerce pointing out their concern for the present and future truck traffic through Jacksonville. He said the vibrations from the trucks are causing the mortar to loosen and crumble away from several old historical brick buildings that the Society maintains. He mentioned that there are many old mine shafts and tunnels under the City's core area and the ground will continue to vibrate when large trucks pass through the City and a bypass would certainly prolong the life of the historical buildings.

Mr. Clark called attention to the 1975 traffic count of 5,000 vehicles per day on California Street, which is the historic core area. The traffic is increasing rapidly each year, he said, and will continue, especially with the construction of the Applegate Dam.

Mr. Harlan Cantrall said that 230 members of the Upper Applegate Grange are asking that a better and safer route be constructed to Applegate through the Jacksonville area.

Mr. Tam Moore, Jackson County Commissioner, handed to the Commission a resolution from the County dated September 22, 1977, which states in part: That the Board of Commissioners of Jackson County does lend its support and pledge of cooperation to the City of Jacksonville and the State of Oregon and requests prompt action both to establish a bypass corridor and assist in locating a temporary truck route.

Several other individuals in the delegation spoke, all urging the rerouting of Highway 238.

Chairman Jackson stated that he was pleased that the people of the community now support a bypass. He said transportation supports the basic life of the State, and the question of setting priorities is a very difficult one when limited funds are available. The Chairman indicated that the Department will hold a hearing on the project to work up the job and hope that funds will be available for construction. Mr. Klaboe indicated the Department would take another look at a truck route in Jacksonville.

A delegation from Bend, Redmond and Deschutes County came before the Commission asking for four laning of US97 (The Dalles-California Highway) from south of Bend to north of Redmond. Present were Richard A. Carlson, Bend City Commissioner; Art Johnson, Bend City Manager; Rod Smith, Bend Chamber of Commerce; Mayor Ronald L. Bryant, Redmond; and Bob Montgomery, Deschutes County Commissioner.

Mr. Smith said the traffic situation in their area is greater than over three fourths of the freeway mileage in the State. He presented to the Commission a sheet showing the traffic count on US97 and US20 from 1973 through 1976 in the Bend and Redmond area. He felt the only way to solve the fast-growing problem is to four lane US97 from north of Redmond to the south of Bend.

Mayor Bryant spoke in regard to the specific problems in the Redmond Area and showed charts of the 1975-76 average daily traffic counts in that area. He pointed out the 24% increase on Maple Street and mentioned that Redmond's population has grown 50% in the last year. He said the result of this traffic is that the people are going to the residential areas to the north and the south. He mentioned that the new subdivisions are generating a tremendous amount of traffic on US97 and the people moving to the Redmond and Bend area make it the second fastest growing county in the State.

Mr. Dick Carlson commented on the project south of Bend and said they had heard the South City Limits-Golf Club Road (Murphy Rd.) Section Project listed on the Six Year Plan had been set back to 1980. He said the project should not be set back as it is very much needed because there is no other way for the people living to the south to get into Bend, due to the intersected rivers and irrigation canals. Mr. Carlson mentioned that the telephone company has projected an 11% compounded annual growth in the Bend metropolitan area for the next five years.

Commissioner Hollern mentioned that it was his understanding that this project was on the construction schedule for the summer of 1978 but in looking at the draft of the Six Year Plan, it is scheduled for 1980. Mr. Klaboe said that was fiscal year 1980 and due to the purchasing of right of way it has been scheduled for May or June of 1979. The design public hearing on this project is to be held in October, 1977. Mr. Klaboe said the Department would try to advance the project.

Mr. Bob Montgomery called attention to the population growth and the heavy traffic volume in Deschutes County. He said Air West is doubling their flights in and out of the Redmond Airport because of the demand. He mentioned that the new medical center in Bend is adding growth to the area as people from Klamath Falls, Burns and Madras are using the facility.

The Chairman said the Commission is very familiar with the Bend and Redmond problem. The estimated cost to four lane US97 is \$25,000,000 and due to the financial problem, it is difficult to fund. Chairman Jackson mentioned that if the May 1978 election is favorable, additional projects can be expedited in the area.

The Chairman adjourned the formal meeting at 11:40 a.m. The Commission had lunch at the Loft Restaurant with members of the Travel Advisory Committee, representatives of Coit/Petzold and staff employees.

The Commission met informally at 1:30 p.m. in the Director's Office, Room 135. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Don Streun, Assistant Director for Administration
David Talbot, State Parks Superintendent
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
Robert Whipps, Manager, Organization and Manpower Services
Branch
David Moomaw, Manager, General Services Branch
Alan Lightner, Executive Assistant to Director
C. W. Head, Manager, Commission Services
Fran Neavoll, Administrative Assistant

Mr. Burco and Mr. Streun presented to the Commission a summary of the existing Delegation Orders (Nos. 15 through 20) and a list of proposed new Delegation Orders (Nos. 21 through 25). (Delegation Orders on file in the Commission's files, Salem.) Mr. Streun mentioned that the new orders are recommended changes to the Chairman, Vice Chairman, Director, Highway Engineer, and Administrators of Public Transit and Motor Vehicles Divisions. Mr. Burco said the changes are necessary to match the new organization. The Commission decided to review the orders and act on them at their October meeting.

There was discussion concerning the program budget, manpower training and management. Mr. Streun pointed out that the 1977 Legislature indicated that all State agencies will be under a zero-base budgeting system or some variation of it by the 1983-85 biennium. He said it was the decision of the Governor's Office that all agencies would be on zero-base budgeting by the next biennium, with the exception of Higher Education. The Department will be preparing decision packages and using the same kinds of approaches that it went through in the last budget. He mentioned it will be a bottoms-up building of the budget so that decisions on doing a job a certain way with certain resources will come from the field beginning with the maintenance foreman. The Department will be submitting a budget of 85% and then will submit budgets of increments of 5%. There was considerable discussion in preparing

this type of a budget. The Commission asked the Director to arrange a meeting with the Executive Department, Budget Division, to meet with the Commission at their November 15, 1977, meeting to explain their budget program.

Mr. Burco mentioned that he would attempt to arrange a Commission luncheon meeting on November 15, 1977, with members of the Tri-Met Board, Lane County Board and other transit commissioners.

The Commission set Thursday, December 15, 1977, for their regular monthly meeting. Mr. Burco said he would try to get the Parks and Recreation Advisory Committee to meet with the Commission at lunch at the December meeting.

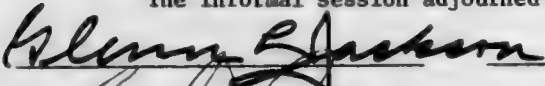

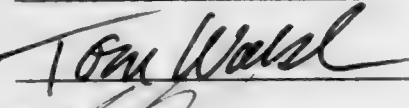

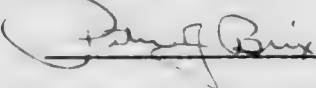

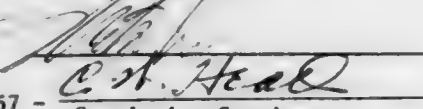

The Commission set a tentative date of February 22, 1978, for a Commission meeting in Coos Bay and they indicated that they would hold a meeting in Astoria a few months later.

Mr. Moomaw referred to the Arthur Young and Company study of the Department's Manpower Planning System. Out of this study, he said, came identification of certain areas where improvements could be made in the Department's Manpower Planning System. He said the Arthur Young study primarily covers preliminary engineering and construction engineering and the Department is concentrating on improving the Manpower Planning System in the engineering area. He presented to the Commission a Manpower Planning System Development Status sheet. (Copy on file in the Commission's files, Salem.)

Mr. Whipps talked on the Manpower Training and Development. He presented to the Commission a chart showing the number of engineers and technicians by classification in the field and in headquarters. (Copy on file in the Commission's files, Salem.)

Mr. Burco said that he would like to know what part of this program the Commission wishes to deal in as a policy level, what part is the Director's responsibility and the rest as an administrative matter. The Commission felt that they should set the basic policy and the implementation of the program becomes an administrative problem and it is the Director's responsibility to carry it through and evaluate it. Mr. Burco mentioned that a set of policies regarding career paths would probably be ready to present to the Commission in about three months.

The informal session adjourned at 2:25 p.m.

State Highway Engineer

EXHIBIT B
MINUTES OF 9-22-77

TO: Oregon Transportation Commission

SUBJECT: Report of Action

On behalf of the Commission, I approved the following items:

- 1) On September 8, 1977, approved and signed an agreement with Jackson County in which the Highway Division agrees to maintain at Jackson County's expense the traffic signal installations at the Crater Lake Highway at the intersections of Antelope Road and Vilas Road.
- 2) On September 8, 1977, approved and signed an agreement (letter-form) with City of Hermiston amending an agreement dated July 13, 1965, to read that the State shall be responsible for all maintenance of the signal equipment with the City to pay all costs of electrical energy consumed on the Umatilla-Stanfield Highway (First Street at Gladys Avenue and Main Street)

Dated this 14th day of September, 1977

H. S. Coulter, State Highway Engineer

EXHIBIT B

WEIGHT RESTRICTION

Rocky Creek Bridge
Oregon Coast Highway (Frontage Road)
M.P. F130.03, Lincoln County

WHEREAS, pursuant to ORS 487.905, the Oregon Department of Transportation has the authority to establish weight limits for vehicles using state highways in order to protect the road from being unduly damaged; and

WHEREAS, it has been determined by the Highway Division that it would be unsafe to allow motor vehicles weighing in excess of 6,000 pounds to use the bridge located at mile point F130.03 on the Oregon Coast Highway;

NOW THEREFORE, it is hereby ordered as follows:

I.

Vehicles weighing in excess of 6,000 pounds shall not use the bridge on Oregon Coast Highway frontage road at mile point F130.03.

II.

The Highway Division shall immediately post this restriction in a conspicuous manner at both ends of the bridge and at such other places as may be necessary to inform the users of the Oregon Coast Highway frontage road.

III.

This order shall become effective August 26, 1977.

The Oregon Transportation Commission by a duly adopted delegation order, authorizes the State Highway Engineer to act in its behalf in approving and executing this order.

APPROVED AS TO FORM:

State of Oregon, by and through its
Department of Transportation,
Highway Division

Holt Bannie
Chief Counsel

E. Keasey
Acting State Highway Engineer

WEIGHT RESTRICTION

Rocky Creek Bridge
Oregon Coast Highway (Frontage Road)
M.P. F130.03, Lincoln County

WHEREAS, pursuant to ORS 487.905, the Oregon Department of Transportation has the authority to establish weight limits for vehicles using state highways in order to protect the road from being unduly damaged; and

WHEREAS, it has been determined by the Highway Division that it would be unsafe to allow motor vehicles weighing in excess of 6,000 pounds to use the bridge located at mile point F130.03 on the Oregon Coast Highway;

NOW THEREFORE, the following rule is adopted as a temporary rule:

I.

Vehicles weighing in excess of 6,000 pounds shall not use the bridge on Oregon Coast Highway frontage road at mile point F130.03.

II.

The Highway Division shall immediately post this restriction in a conspicuous manner at both ends of the bridge and at such other places as may be necessary to inform the users of the Oregon Coast Highway frontage road.

III.

It is in the public interest to adopt this rule as a temporary rule since severe cracking and spalling of the concrete due to corrosion of the reinforcing steel has deteriorated the structure

EXHIBIT B
MINUTES OF 9-22-77

beyond economic repair. Therefore, a weight restriction of 6,000 pounds is necessary to assure the safety of the traveling public.

IV.

This rule shall become effective August 31, 1977.

The Oregon Transportation Commission, by a duly adopted delegation order, authorized the State Highway Engineer to act in its behalf in approving this rule.

APPROVED AS TO FORM:

State of Oregon, by and through its
Department of Transportation,
Highway Division

W. L. Davis
Assistant Attorney General

H. S. Ouellette

EXHIBIT C
MINUTES OF 9-22-77

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Right of Way Engineer (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Sale of 0.48 acre excess property on the North Tigard Interchange-Norwood Road Section of the Pacific Highway in Washington County for a minimum consideration of \$15,000.00. Approved August 12, 1977. File 19971 (16-43).
- (2) Signed on August 17, 1977, a Grant of Access to East Linn Hospital District on the Santiam Highway in Linn County previously approved by Mr. Jackson June 7, 1977. File 48138 (16-45).
- (3) Construction/Maintenance Agreement with Burlington Northern, Inc., for relocation of grade crossing devices at West Woodburn on the Hillsboro-Silverton Highway in Marion County. File RR 872 (16-12). (Approved 6-14-77) (Oregon Electric Railway Co.)
- (4) Signed on August 17, 1977, a Grant of Access to the Department of Interior on the Tualatin Valley Highway in Washington County previously approved by Mr. Jackson August 8, 1977. File 36873 (16-45).
- (5) Signed on August 17, 1977, a Grant of Access to Alan O. Maxwell, et al, on the Pacific Highway in Lane County previously approved by Mr. Jackson September 1, 1977 and reported September 29, 1977. File 27743 (16-45).
- (6) Sale of 0.63 acre excess property on the Sandy-Forest Boundary Section of the Mt. Hood Highway in Clackamas County to the City of Sandy for public use only for a minimum consideration of \$1,400.00. Approved August 18, 1977. File 25684 (16-43).
- (7) Agreements for installation of grade crossing protection devices approved August 29, 1977:
 1. Oregon Electric Railway Company, SW 185th Avenue near Orenco, Washington County. RR 879.
 2. Oregon Electric Railway Company, SW Baseline Road near Orenco, Washington County. RR 880.
 3. Southern Pacific Transportation Company, Mill Street SE, Salem, Marion County. RR 881.
 4. Southern Pacific Transportation Company, Elk Road near Central Point, Jackson County. RR 882.
- (8) Sale of 0.95 acre excess property on the Cottage Grove-Divide Section of the Pacific Highway in Lane County for a minimum consideration of \$800.00. Approved March 29, 1977. File 21486 (16-43).

EXHIBIT C
MINUTES OF 9-22-77

(2)

- (9) Sale of 0.22 acre excess property on the Park Place Interchange Section of the East Portland Freeway for a minimum consideration of \$0.80/sq. ft. Approved August 3, 1977. File 42436 (16-43).
- (10) Exchange of 0.17 acre excess property on the Klamath Straits-California Line Section of the The Dalles-California Highway in Klamath County for additional right of way of 0.48 acre of equal value owned by Klara Mathis. Approved August 19, 1977. Files 1486 and 49590 (16-43).

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7487 Morse Brothers, Inc. v. Superior Asphalt Concrete Co. v. State, 3rd party defendant: This case was filed in Federal District Court. The State is a 3rd party defendant. The general contractor is suing the subcontractor for claim damages of \$277,294.75 for failure to timely supply adequate quantities of aggregate. The subcontractor has named the State a 3rd party defendant and claims that the State interfered with and delayed their performance of their subcontract and that the State supplied erroneous, deceptive engineering data about material site conditions and the difficulties in obtaining material removal permits. \$470,000 damages are claimed against the State. The matter has been referred to the Attorney General for the defense of the State. (Columbia River Highway, Wasco & Sherman Counties, Contract No. 8226)

L-7493 Ethel Fountain v. Oregon State Highway Commission: This accident occurred on January 16, 1976, and the alleged negligence of the Highway Division is failure to properly sign the highway and warn the vehicle driver of an icy condition on the highway. The amount of the lawsuit is \$100,000 and the matter has been referred to the Attorney General for the defense of the State. (Hwy. 20, Deschutes County)

L-7494 John Holiday and Dollie Holiday v. State of Oregon, Department of Transportation, Highway Division: This is a lawsuit to recover the cost of removing an outdoor advertising sign foundation from the plaintiff's property. The plaintiff alleges that the State failed to perform an agreement to remove the sign foundations after the outdoor advertising sign was removed and that the plaintiff incurred \$5,500 in costs in removing the footings. The matter has been referred to the Attorney General for the defense of the State. (M.P. 190.7, Pacific Highway, Lane County)

L-7504 Rex O. Kiggins v. Berman Corp., et al and State of Oregon: This lawsuit involves the foreclosure of a mortgage and the State is named a defendant as having some right, title or interest in the property. The matter has been referred to the Attorney General for the defense of the State. (Douglas County)

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
OCTOBER 18, 1977

October 17, 1977
Hermiston, Oregon

The Oregon Transportation Commission assembled at the Hermiston Airport at noon. Roger Ritchey, Deputy Administrator of Aeronautics, gave a brief history of the airport. The Commission, staff, local city and county officials boarded a chartered bus for Hat Rock State Park. After lunch at the park, the group toured US305, US730, viewed the proposed site of the Alumax Plant in the McNary area; an inspection was made of the Boardman area and of the proposed I-82 corridor. In Pendleton, the Commission viewed the Riverside Bridge on Highway 11. A no-host dinner was held at 7:30 p.m. at the Indian Hills Motel in Pendleton with various city and county officials and other interested persons in the Eastern Oregon area.

October 18, 1977
Pendleton, Oregon

The Commission held their monthly meeting at 9 a.m. in the Pendleton City Hall. Notice of the meeting was made by press release to newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Jack Sollis, Assistant Chief Counsel
George Bell, Manager of Intergovernmental and Public Affairs
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
H. S. Coulter, State Highway Engineer
Dennis Moore, Administrator of Public Transit
Roger Ritchey, Deputy Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
J. B. Boyd, Right of Way Manager
Glen Green, Federal Highway Administration
Pat Schwartz, Region 5 Engineer
Robert Bothman, Administrator, Metropolitan Branch
Lynn Frank, Executive Dept., Budget Analyst
C. W. Head, Manager, Commission Services

There were others present including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meetings of September 16 and 22, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2666" on file in the Commission's files, Salem.)
- 3) Authorized increases in project authorizations on the following contracts:
 - a. Contract No. 8532, Elmira-Veneta Bikeway, Territorial Highway, Lane County, in the amount of \$9,369.29 (14.96% increase).
 - b. Contract No. 8364, Drain-Rock Creek Section, Umpqua Highway, Douglas County, in the amount of \$145,971.20 (7.07% increase).
 - c. Contract No. 8459, S.E. Grant St.-S.E. Division St. (S.E. 96th Dr.), East Portland Freeway, Multnomah County, in the amount of \$18,565.04 (12% increase).
 - d. Contract No. 8483, Guano Valley Section, M.P. 50.22 to M.P. 56.92, Warner Highway, Lake County, in the amount of \$63,378.06 (16.08% increase).
 - e. Contract No. 8263, Baldock Safety Rest Area, Pacific Highway, Clackamas County, in the amount of \$220,178.87 (10.7% increase).
- 4) Authorized continued support of the AASHTO Materials Reference Laboratory and payment of Oregon's assessment for 1978 in the amount of \$6,200.
- 5) Requests from City of Portland for the following projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway. (Interstate Transfer Funds for these projects estimated at \$1,149,734 with the City of Portland providing all of the required \$187,166 of local match.) Authorized State Highway Engineer to sign project agreements when prepared.
 - a. Portland Curb Modifications at 5 intersections. Total cost \$24,000; Federal Funds \$20,640; Local share \$3,360.
 - b. S.E. McLoughlin Blvd.-S.E. Milwaukie Ave. (S.E. Long St.) Section, FAU 9765. Total cost \$446,000; Federal Funds \$383,560; Local share \$62,440.

(continued on next page)

- c. Traffic signals on S.E. Bybee Blvd. at 23rd Avenue and S.E. Tolman St. at Milwaukie and 17th Avenue. Total cost \$97,600; Federal Funds \$83,936; Local share \$13,664.
 - d. Portland Signal Modifications at 8 intersections. Total cost \$132,300; Federal Funds \$113,778; Local share \$18,522.
 - e. Portland Curb Extensions at 28 locations. Total cost \$100,000; Federal Funds \$86,000; Local share \$14,000.
 - f. Widen S.E. 39th Avenue one block south and one block north of Stark Street intersection to provide for left-turn movements. Total cost \$85,000; Federal Funds \$73,100; Local share \$11,900.
 - g. S.E. McLoughlin Blvd. Pedestrian Underpass. Total cost \$227,000; Federal Funds \$195,220; Local share \$31,780.
 - h. Constructing left-turn refuges on N.E. 33rd Avenue and Broadway Street. Total cost \$225,000; Federal Funds \$193,500; Local share \$31,500.
- 6) Request from City of Medford for a preliminary engineering project to prepare plans and contract documents for a computerized traffic control system involving 45 intersections. Federal Urban System Funds for this project estimated at \$21,500 with State providing approximately \$1,750 in match funds and a like amount contributed by City. Authorized State Highway Engineer to sign project agreement when prepared.
 - 7) Withdraw Emergency Board request approved by Commission on September 22, 1977, concerning verification of auto insurance with a report to the Board describing the Division's plans to delay implementation of insurance verification until July 1978.
 - 8) Agreement with Ted Hallock, Inc., for continuation of the Keep Oregon Livable Program (an environmental education and information program) until June 30, 1979, at a cost not to exceed \$80,000. Authorized State Highway Engineer to sign agreement.
 - 9) Agreement with the Public Utility Commissioner for their work on the State Rail Plan and authorized Director to sign agreement.

- 10) Adopted a temporary rule establishing standards for business identification signs pursuant to Chapter 265, Oregon Laws 1977. (See "Administrative Rule No. 95" on file in the Commission's files, Salem.) Temporary rule filed with the Secretary of State on October 24, 1977 and published in the Administrative Rule Bulletin on November 15, 1977.
- 11) Authorized presenting to the Emergency Board for approval the release of \$5,000 from the Emergency Fund to the Public Transit Division to pay for initial start-up costs, travel and other costs of the Willamette Valley Rail Study Committee.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

The proposed adoption and revision in delegation orders were deferred until the November meeting to allow the Commission additional time to review the material.

Mr. Rulien briefed the Commission on the Department's approach to coordination with the Department of Land Conservation and Development. He said the 1977 Legislature passed Senate Bill 570 amending the statutes governing the DLCD. One of these amendments requires all State agencies whose programs affect land use to organize a coordination program for working with local governments in developing their comprehensive plans. Mr. Rulien pointed out that according to Senate Bill 570 the information to be included in this coordination program includes:

- 1) Agency summaries of programs affecting land use.
- 2) A process for coordinating State agency programs to assure conformance with statewide planning goals and compatibility with city and county comprehensive plans.
- 3) A program for cooperation with and technical assistance to local governments.

(continued on next page)

He said all State agencies must present this information to DLCD by January 1, 1978. He stated if a State agency does not organize such a program, it would be barred from contesting a request for acknowledgment of compliance submitted by a city or county. Once these comprehensive plans are approved, they will be used to interpret the statewide goals in a local area. Mr. Rullen stated that it is essential that the Department organize an effective coordination program with local governments and must work with the local governments during the development of the transportation and parks and recreation elements of their plans and during the review of them once drafted. He indicated that it will be necessary to develop a regional capability of working with local planners. During the next 20 months, he said approximately 200 comprehensive plans are scheduled for completion and the Department's Region Planning Coordinators will need both time and training to effectively participate in the development of those local plans which affect ODOT's activities. The Commission gave their approval for the Department to begin work with local governments on transportation and recreation planning as required by the Department of Land Conservation and Development.

Mr. Bell reported that the first of the Six Year Highway Improvement meetings was held in McMinnville on October 17, 1977, with approximately 60 people in attendance. He said the meetings will be held in each county seat and three meetings will be held in Portland. He pointed out that this is the largest effort by a State agency to take its programs to the citizens of the State. Two programs are being presented, Program "A" lists those projects which the State proposes to do if the voters pass the two revenue measures which will be on the ballot in 1978; the gas tax increase in May and the registration increase in November. Mr. Bell mentioned the "B" program lists those projects that the State would propose to do if both of those measures or one of those measures are defeated and the State has only present revenue sources.

The Commission confirmed the date of November 15, 1977, for their next meeting in Salem.

Mr. Burco reported that he had received a reply from the Coos County Commissioners suggesting the date of February 22, 1978, for the Commission meeting in Coos Bay. Mr. Burco mentioned that he will be meeting with the Clatsop County Commission within the next couple of weeks to discuss a Commission meeting in Astoria possibly in June of 1978.

OPERATIONS

The Commission considered redesignating I-80N to I-84. Mr. Klaboe recalled that this was presented to the Commission about a year ago and upon his recommendation it was not approved because of the problems it would create for the people living along I-80N and the cost involved to the State in changing the signs. He said I-80N originates in Portland and I-80 originates in Sacramento, California, and both I-80N and I-80 come together in Utah which causes a considerable amount of confusion with two routes with the same designation except for the "N". Mr. Klaboe stated that this proposal went before the American Association of State Highway and Transportation Officials in July of 1977. The Association did take into account Oregon's objections but still voted to redesignate I-80N to I-84 and that it take effect prior to July 1, 1980. He mentioned the cost to change the signs will be \$127,000 and will be eligible for Interstate Federal Aid Funds so that 90% of the cost will be reimbursable to the State within the State's Federal Funds. Idaho and Utah's target date to change their signs is July 1, 1978. After considerable discussion, the Commission approved the change, subject to wide public participation, effective July 1, 1980. (Mr. Klaboe indicated the Department will hold public meetings to fully inform the businesses as the route change will impose a considerable economic burden on them and to assist the businesses in whatever way might be possible.)

Following Mr. Klaboe's recommendation, the Commission authorized the Department to present to the Emergency Board for approval of the following budget limitation increases to allow use of Federal Funds available from the Economic Development Administration for the replacement of five deficient bridges and improvements to five state park facilities:

- 1) An increase of \$1,287,000 in the construction, real property purchasing, maintenance and debt service expenditure limitation, established by Section 3, Chapter 439, Oregon Laws 1977.
- 2) An increase of \$615,000 in the Parks and Recreation Branch, Economic Development Grants expenditure limitation established by Section 4(7), Chapter 439, Oregon Laws 1977. (The present expenditure limitation consists of the Wolf Creek Tavern Restoration EDA Grant for \$600,000.)

Mr. Boyd reported on the disposal of property presently owned by the Oregon Transportation Commission which was acquired for right of way for the Mt. Hood Freeway in Portland. He stated for the past two years an eleven member task force has studied disposal methods for these properties to find a method that would meet the needs of the Commission, the public agencies in the Portland area

and the neighborhoods. The task force has prepared disposal procedures which cover the section from the Marquam Bridge to 84th Avenue. Mr. Boyd said proposals affecting those properties that lie easterly of 84th Avenue will be reported to the Commission individually. The Commission adopted the property disposal guidelines for the section from Marquam Bridge to 84th Avenue. (Copy of property disposal guidelines on file in the Commission's files, Salem.)

Mr. Coulter reported that the Winter Recreation Advisory Committee held their first meeting on October 13, 1977. He said the Committee elected Richard Kohnstamm as Chairman and Donald Grubb as Vice Chairman. The Committee reviewed the Revenue Forecast, the Motor Vehicles Division rules for obtaining Sno-Park permits and the proposed signing procedures. Mr. Coulter handed to the Commission copies of the Committee's report. (Copy of report on file in the Commission's files, Salem.) He said the report includes a list of recommended snow parking areas and are the same locations that the Highway Division has been plowing in recent years. The Commission designated the following areas as winter recreation parking locations and gave their approval for the Highway Division to plow these areas during the winter of 1977-78:

| | |
|---------------------------------------|-------------|
| <u>Mt. Hood Highway #26</u> | <u>M.P.</u> |
| Mirror Lake | 51.73 |
| Glacier View | 52.50 |

| <u>Weston-Elgin Highway #330</u> | |
| Snowmobile Lot | 18.7 |
| Snowmobile Lot | 27.4 |

Following a request from the City of Pendleton and the recommendation of Mr. Coulter, the Commission approved changing the route description for ORE37 in Pendleton as follows:

Over the Pendleton-Cold Springs Highway from its junction with the Columbia River Highway, US395 and US730, southeasterly to its junction with the Pendleton Highway, US30, in Pendleton. Thence easterly over the Pendleton Highway (common with US30) in Pendleton to its intersection with S.W. Court Avenue; thence southerly via S.W. Court Avenue and S.W. 17th Street to the intersection with the Pendleton-John Day Highway; thence southwesterly over the Pendleton-John Day Highway to its junction with the Old Oregon Trail Highway, I-80N and US395, in Pendleton.

(The City requested this change to relieve traffic congestion at the intersection of S.W. 20th Street and S.W. Court Avenue.)

Mr. Coulter presented a report and recommendation covering the program of street work in cities having a population of less than 5,000 under the \$250,000 fund appropriated by law for the year 1978. He mentioned that 70 applications had been received and all carefully analyzed. There were ten projects selected for approval as being most meritorious and are all that can be covered by funds available. The Commission approved the projects in the following cities and authorized the Highway Engineer to sign the agreements when prepared: (Specific details shown on each project in Commission's files, Salem.)

(See list on next page)

| <u>City</u> | <u>SCA</u> | <u>City</u> | <u>Total</u> |
|--------------|------------------|------------------|------------------|
| Boardman | \$ 25,000 | \$ 2,840 | \$ 27,840 |
| Brookings | 25,000 | 23,430 | 48,430 |

| Silverton | 25,000 | 54,460 | 79,460 |
| Sisters | 25,000 | 11,290 | 36,290 |
| Sublimity | 25,000 | 2,550 | 27,550 |
| | <u>\$250,000</u> | <u>\$271,725</u> | <u>\$521,725</u> |

Mr. Glen Green reported on the Public Lands Highways Program. He mentioned that this program provides a minimal amount of money for construction of highways through public lands. The annual authorization for the program is \$16,000,000, which funds are allotted. He said the states develop a priority listing of projects and develop specific information that is required in the regulations. The Washington Office can then make a selection which is based on need. He mentioned if there are excess funds from a particular project, those funds are returned to the Washington Office and are made available for another project. He mentioned that Oregon received 2½ million dollars in the last year and all of the projects have been in the eastern portion of the State.

Judge Dale White of Harney County was present and asked for assistance in obtaining the consent from the Federal Highway Administration for the excess money left on the Abert-Rim Section of the Lakeview-Burns Highway to be reallocated to a section on the Lakeview-Burns Highway on the Lakeview side of Wagontire towards Lakeview and end up where a previous project ended.

Mr. Forrest Cooper, Attorney from Lakeview, stated that he is representing the Lake County Commission. Mr. Cooper recalled how this highway was constructed approximately 45 years ago. He said if this money is transferred to the six-mile section that Judge White referred to, it will give the people 81 miles of continuous modern highway. The Judge stated that it is the recommendation of Lake County that this section of highway be improved.

Mr. Green mentioned that he had talked to personnel in the Federal Highway Regional Office recently concerning the Wagontire Section and from the information he received, the project will probably be approved.

The Commission considered approving guidelines and procedures for administering the local grant-in-aid program in the amount of \$500,000 to local governments for construction and improvement of local parks as authorized by the 1977 Legislature under Senate Bill 5537. Mr. Klaboe pointed out the procedures are based upon recommendations received at seven regional survey meetings conducted by the Parks Branch in July this year. The guidelines suggest that the \$500,000 be apportioned on a formula of 80% grants direct to counties and 20% through the Special Projects Fund Committee. Mr. Klaboe said the Department believes the process selected for dispersing funds is equitable and will satisfy the intent of the Legislature. The Commission approved the guides and procedures and authorized the Parks Superintendent or his designate to sign the project agreements. (Copy of Guides and Procedures and sample agreement on file in the Commission's files, Salem.)

Following Mr. Ritchey's recommendation, the Commission approved financial aid to municipality grants for the Aeronautics Fund to the following municipalities, up to a maximum of the amount indicated in each case. These grants are to assist in matching Federally-funded, or local state funded Airport Master Planning projects and represent 5% of the total project cost or 50% of the local share:

| | |
|--------------------|-----------------|
| City of Albany | \$ 2,500 |
| City of Baker | 1,567 |
| City of Bend | 2,150 |
| City of Eugene | 2,500 |
| City of Florence | 1,000 |
| City of La Grande | 1,682 |
| City of Newport | 1,913 |
| City of North Bend | 2,500 |
| City of Ontario | 1,680 |
| City of Prineville | 1,150 |
| City of Salem | 2,750 |
| City of Sutherlin | 1,450 |
| Port of Tillamook | <u>2,465</u> |
| Total | <u>\$25,307</u> |

In response to Chairman Jackson's inquiry on the status of the North Bend Airport, Mr. Ritchey said the overlay is being completed and the runway extension will start late this winter or early spring.

Consideration was given to the approval of three agreements under the Operating Assistance Program for small communities. Mr. Moore recalled that the guidelines for this program were approved by the Commission at their July 1977 meeting. The Commission approved the following agreements:

| | |
|--------------------------------------|----------|
| Rogue Valley Transportation District | \$60,000 |
| City of Corvallis | \$80,000 |
| City of Bend | \$40,000 |

Mr. Moore recalled that in the last biennium the Commission authorized the purchase of two buses to be loaned to small communities who were awaiting Federal equipment grants, as well as approving the first contract under this program with the City of Roseburg. The City has not yet received Federally funded equipment to replace these buses and remains the first priority community for their use. Mr. Moore recommended approval of a second agreement with the City of Roseburg for the loan of this equipment. The agreement provides for a six-month lending period with the option of one renewal. The Commission accepted his recommendation.

Following Mr. Grover's recommendation, the Commission gave their approval for the Department to present to the December 1977 Emergency Board the following:

- 1) An increase in expenditure limitation in the amount of \$32,049 and the establishment of one new position to collect a fuels tax for Washington County. All costs of collection will be borne by the County.
- 2) An increase in expenditure limitation in the amount of \$66,687 and two new positions to implement Senate Bill 1047 relating to the collection of tax on fuel other than gasoline used to propel vehicles.

Mr. Grover introduced Mr. Pat Guymon, Motor Vehicles Division Region Supervisor. Mr. Guymon said that his area covers Burns, John Day, Ontario, Pendleton, Milton-Freewater, Umatilla, Baker and La Grande. He mentioned that an office will be opening up in Enterprise in the near future. He indicated his area handles drivers licensing, vehicle registration, PUC and highway permits.

Mr. Guymon introduced his assistant, Mr. Allen Sigler, and the Manager of the Pendleton Motor Vehicles Division Office, Mr. Dave Alexander.

Mr. Grover reported that the Motor Vehicles Division, in an effort to facilitate input from the community in the form of recommendations, ideas and direction, is undertaking a program where citizens will serve in an advisory capacity to the DMV field offices located in their community. The primary function of these Community Advisory Representatives (CAR) will be to address alternative approaches to policies and services of the Division. He felt that this effort will provide a good forum for a mutual exchange of ideas and the enhancement of services now performed. Mr. Grover stated the first four field offices to have the Community Advisory Representatives will be in Beaverton, Gresham, Lake Oswego and Eugene. He outlined the goals for CAR and the specific goals of DMV. Copies of the Guidelines for the Community Advisory Representatives were presented to the Commission. (Copy of guidelines on file in the Commission's files, Salem.)

The Chairman recessed the meeting at 10:20 a.m. and reconvened at 10:40 a.m.

PUBLIC COMMENTS

Mr. Forrest Starrett, Chairman of Umatilla County Commission, welcomed the Commission to Eastern Oregon and apologized for not being at the Monday evening dinner as they were involved in a County hearing. He commented on the narrow Riverside Bridge on Highway 11 in Pendleton and the ingress and egress problems on US395 in Hermiston.

The Chairman asked if the County had taken any action on zoning the area along US395. Mr. Starrett stated that the County has looked very hard at anyone that wants an ingress or egress that would not be in the public's interest. He indicated that they have restricted through zoning at the area of Feedville Road and US395. He said the County would like to have some of those accesses more limited and asked for guidelines from the State. There is pressure, he said, continually to open up more and more of US395 between Hermiston and Umatilla.

In reply to the Chairman's inquiry, Mr. Klaboe said this section is on the 1980 schedule. He mentioned that from a safety standpoint, access could be controlled through a curbed gutter-type construction where each access point would have approximately a 35-foot access rather than the present wide open 200 feet.

Chairman Jackson asked what the County's attitude is on a possible bypass at Stanfield. Mr. Starrett indicated that he personally would be in favor of a bypass and he did not think it would disrupt the economics of the area.

County Commissioner Barbara Lynch said she concurred with Mr. Starrett concerning a bypass at Stanfield.

Mr. Klaboe mentioned that a hearing was held in Stanfield several years ago and there was some divided opinion at that time as to whether the town should or should not be bypassed. He suggested that another hearing be held to see if the attitude has changed.

Chairman Jackson stated the County Commission can and should be a factor in the bypass as it would simplify the reconstruction of US395 because of the continuing development in the whole area. Mr. Starrett indicated that the County would send a letter to the Commission asking for a review of this matter. The Chairman said the Commission looked at the Riverside Bridge yesterday and agree it is a needy project.

Mayor Clint Bellows of Ontario appeared before the Commission calling attention to the traffic conditions on S.W. 4th Avenue in Ontario and mentioned that it is their number one priority project. He said the traffic count on S.W. 4th Avenue in 1973 was approximately 14,000 vehicles a day and traffic has increased in the last several years. Ontario's population is now close to 8,000 and the population projections call for approximately 9,500 by 1980. He stated there had been an increase in commercial development and the area has grown more rapidly than was anticipated. Mayor Bellows mentioned a bypass of the through traffic outside of the community itself would help a great deal. He suggested on the north to take the traffic out Verde Drive all the way to Clark and then out to the freeway interchange. On the south, he asked that the State consider the widening of Butler Boulevard which would bypass the main part of town to 4th Street, then north on 4th Street all the way to Idaho. The Mayor called attention to a dangerous traffic problem on Highway 201 (Olds Ferry-Ontario Highway) near the Annex School. He pointed out the need for some additional traffic controls to slow down the vehicles to protect the school children. Mayor Bellows said that Malheur County had submitted a request to the Department concerning this matter.

Mr. Klaboe said Malheur County's request was received and a traffic investigation is now being made in the Annex area. He said the results of this investigation will be completed soon.

Judge Francis Cole of Grant County said that he is pleased what the Department is doing on the seven-mile stretch in Silvies Valley.

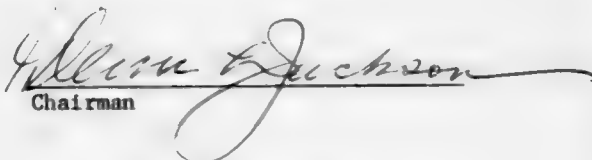

Mr. N. A. Toole, Malheur County Commissioner, said they support the City of Ontario's request for relief of traffic problems in the area. He mentioned they are very interested in the continued improvement of Highway 26, especially Brogan Hill.

Mr. Klaboe said a grading, paving and structure contract of approximately eight miles in length is scheduled for fiscal year 1979 on the Brogan Hill-Brogan Section of US26.

Mayor Joe McLaughlin of Pendleton thanked the Commission for coming to Eastern Oregon to hold their monthly meeting. The Mayor said they have problems and are trying to work them out themselves but know when the State gets the money, the City will expect to have a job done.

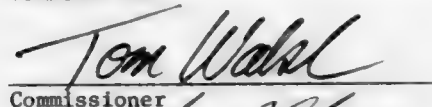

Chairman Jackson thanked the Mayor for his cooperation
and said the Commission will try to reciprocate.

The Chairman adjourned the meeting at 11 a.m.

MINUTES OF 10-18-77

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7505 Gordon H. Ball, Inc., a Nevada corporation v. The State of Oregon, by and through the Oregon State Highway Division and the Oregon State Department of Transportation: This is an action for damages and declaratory relief. Gordon H. Ball is suing the State because the Transportation Commission refused to grant relief under ORS 279.324 to ORS 279.332. The plaintiff had requested an adjustment in contract payments because of an increase in petroleum prices during the energy crisis of 1973. The matter was taken to the Transportation Commission and they declined to grant any relief. The plaintiff claims that it was damaged in excess of \$200,000 and that the Transportation Commission in refusing to grant relief acted in direct defiance of the legislative enactment as well as arbitrarily and capriciously. The plaintiff is asking the court to enter an order setting aside the decision of the Transportation Commission made on March 15, 1977 and asks the court for an order requiring the State Highway Department to negotiate a settlement of plaintiff's claim. The matter has been referred to the Attorney General's office for the defense of the State.

MINUTES OF 10-18-77

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

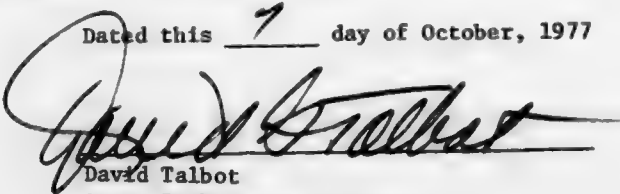

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On September 26, 1977, approved the renewal of an agreement with the Oregon Department of Fish and Wildlife which places an area located at Fort Stevens State Park under Fish and Wildlife management for a three-year period, beginning October 1, 1977. The agreement provides for maintaining the area for wildlife management purposes, habitat improvement, and for the purpose of making the land available to the general public for recreational purposes to include waterfowl hunting. The area, which is unchanged from the previous agreement borders a slough adjacent to the Columbia River and is near the south jetty.

On October 7, 1977, approved an agreement with Neah-Kah-nie School District #56 to allow the State to connect to the City of Rockaway's sewer system via the District's existing four inch pressure sewer main. State agrees to pay one-half of any future maintenance costs on the main from the State's connection point to the sewer manhole owned by the City of Rockaway. State agrees to correct and pay for any damage arising from the State's connection to, or joint use of, District's pressure main for a period of 6 months from the opening of Manhattan Beach State Wayside.

On May 4, 1977, the Oregon Transportation Commission approved the sale of a 10 acres parcel of land on the Rogue River Scenic Waterway, Josephine County. The property was sold at public auction and on 9/23/77, I approved a land sales contract to the successful bidders, Martin G. and Ann S. Bauer.

Dated this 7 day of October, 1977

David Talbot

MINUTES OF 10-18-77

SEPTEMBER 27, 1977

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On SEPTEMBER 23, 19 77 \$ 2,405,562.67 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of AUGUST, 1977.
(List of apportionments on file in Commission Files, Salem.)

On SEPTEMBER 30, 19 77 \$ 1,443,337.60 (12 percent of the Highway Fund) was distributed to the cities for the month of AUGUST, 1977.
(List of apportionments on file in Commission Files, Salem.)

Dated this 27TH day of SEPT., 1977

of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
NOVEMBER 15, 1977

November 15, 1977
Salem, Oregon

The Oregon Transportation Commission met in an informal meeting at 8:30 a.m. in the Director's Office, Room 135, Transportation Building. Notice of this meeting and of the formal meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Don Streun, Assistant Director of Administration
George Bell, Manager of Intergovernmental and Public Affairs
Merl Whiteman, Manager of Finance Branch
H. S. Coulter, State Highway Engineer
Larry Rulien, Assistant Director for Transportation Policy and Program Development
Jack Sollis, Assistant Chief Counsel
Alan Lightner, Executive Assistant to Director
Ron Linton, Consultant to the Oregon Department of Transportation
C. W. Head, Manager, Commission Services
Fran Neavoll, Commission Services

Merl Whiteman reported that all agencies except Higher Education are going to be subjected to the zero-base budgeting which consists primarily of two parts. He said the first part is a reduced-level budget based upon the 1977-79 biennium budget plus salary increases, inflation, Emergency Board actions through December, times 85%. He commented this would be the minimum level of service budget and would be the starting point for developing the Department's budget. The second half is an incremental increase on top of that to go from that level up to the Department's request. There was considerable discussion concerning the budget preparation and the various alternatives to consider.

Mr. Burco asked Mr. Whiteman to report on the proposal from the financial consultant on refinancing bonds that were issued in 1974.

Mr. Whiteman handed to the Commission an Advance Refunding Status Report. (Copy on file in the Commission's files, Salem.) He mentioned that the 1977 Legislature passed a bill allowing for advance refunding on bond issues before the call dates. He stated a proposal was received from Piper, Jaffray and Hopwood to act as the Department's advisor and it did not meet the test as set by the State Treasurer's Office. He said the State Treasurer has been given the responsibility to control, administer and approve all of these issues, and they stated it must present a \$5 million present value savings,

or a ratio of 5%. This proposal only generated \$737,000 savings, versus the savings ratio of 2½%. The Commission agreed with Mr. Whiteman to contact other financial consultants to determine if a savings can be effected through refunding.

There was discussion regarding the level of general funding for the Department, particularly for State Police. Mr. Burco mentioned that a 7-member (90 day) Legislative Task Force was formed to review the Department's policy document and to look further at the transportation funding issue.

Copies of the existing delegation orders were handed to the Commission and Mr. Burco explained the new proposed orders. The Commission decided to defer action on the new proposed delegation orders until the next meeting. Mr. Streun mentioned also the proposed appointment of Mr. Burco as Administrator of Highways.

Mr. Ron Linton reported on the aspects of the Energy Bill in Congress and the two provisions that relate to the transportation programs. He commented on Congressman Howard's legislation that was introduced approximately two months ago and is the forerunner of the Interstate Highway Legislation for 1978. The two principal matters in this legislation at this time were the changing of the formula for non-interstate Federal contribution to 80-20 from the present 70-30, and the inclusion of a provision for a \$2 billion annual program for bridge replacement on the primary-secondary system. He said it is anticipated that Congressman Howard will introduce a substitute bill for the one he introduced this fall. It is then expected the bill will go to brief hearings in February, and then enacted possibly by late April or early May, 1978. Mr. Linton mentioned it is difficult to ascertain the Senate's plans at this time, but he thought they would be more reactive to what the House does. He felt the House bill would pass no later than mid-June, 1978.

There was discussion concerning the Six Year Highway Program meetings. (See pages 2240 and 2241 of the formal meeting.)

The informal meeting adjourned at 9:50 a.m.

The Commission held their formal meeting at 10 a.m. in Room 122, Transportation Building. The same individuals were present that attended the informal meeting. Others present were Paul Burket, Administrator of Aeronautics; Dennis Moore, Administrator of Public Transit; Skip Grover, Administrator of Motor Vehicles; and Don Shaffer, Bicycle Route Engineer.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of October 18, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2667" on file in the Commission's files, Salem.)
- 3) Authorized increase in project authorization on the following contract:
 - a. Contract No. 8579, Auburn Avenue-Baker-Unity Highway Section, Westside Truck Route (FAU 4841) in Baker County, in the amount of \$19,573. (32.5% increase)
- 4) Pavement overlay projects for the current Six Year Improvement Program as follows:

| | |
|---|-------------|
| McBride Creek-Bennet Road Section
Lower Columbia River Highway
Columbia County | \$ 900,000 |
| Warm Springs Int.-Salmon River
Curves Sec., Warm Springs Highway
Clackamas County | \$ 600,000 |
| Deer Park Drive-Silver Creek Falls
Int. Sec., North Santiam Highway
Marion County | \$ 475,000 |
| Bellevue-McMinnville Section
Salmon River Highway, Yamhill County | \$ 479,000 |
| Elbow Lake-Gardiner Section
Oregon Coast Highway, Douglas County | \$1,100,000 |
| Warm Springs Jct.-Willows Section
Warm Springs Highway, Wasco County | \$ 800,000 |
| Grant County Line-Joaquin Miller Road
Sec., John Day-Burns Highway
Harney County | \$ 690,000 |
- 5) Installation and operation of traffic signals on the Farmington Highway at 300 feet east of Butternut Creek (M.P. 7.20) in Washington County.
- 6) Letter agreement with the U. S. Geological Survey providing for stream gauging and flood runoff data for small drainage basins of 10 square miles or less throughout the State. Financed by HPR Funds in the amount of \$30,000 for this fiscal year. (Authorized State Highway Engineer to sign letter agreement.)

- 7) Supplemental agreement with Alaska Department of Transportation and Public Facilities to test their traffic signal controller equipment. Maximum amount to be paid to Oregon is \$45,000 at the rate of \$15 per hour for actual work accomplished.
- 8) Two Urban System Projects and the cancellation of one project as follows: (Authorized the State Highway Engineer to sign agreements when prepared.)
 - a. Wasco County requests a \$32,000 preliminary engineering project to prepare plans and contract documents to widen and improve West Snipes Street (Mosier-The Dalles Highway-West 10th Street Section). Federal funds \$27,520; State's share \$2,240.
 - b. Washington County requests cancellation of a previously approved project to improve a 0.50 mile section of 185th Avenue (Sunset Highway-N.W. Cornell Road Section). Cancellation is prompted by necessity to consider environmental factors on a 6-mile section of 185th Avenue.
 - c. Washington County requests a \$233,000 preliminary engineering project to prepare environmental impact statements, identify future construction projects and hold public hearings on a 6-mile section of 185th Avenue between West Union Road and Farmington Highway. Federal funds \$200,380; State's share \$16,310. (Commissioner Walsh abstained from voting on this project due to a possible conflict of interest.)
- 9) Cancellation of a previously approved Safer Off-System Roads Project in the City of Brownsville for street improvement on Washburn Street. Project requires extensive drainage system which places the project beyond the financial capability of the City.
- 10) Agreement with National Academy of Sciences for the National Cooperative Highway Research Program for the fiscal year 1978 in the amount of \$60,286.
- 11) Contract with City of Astoria in the amount of \$40,000 for transit operating assistance.
- 12) Contract with the City of Ontario in the amount of \$20,000 for transit operating assistance.
- 13) Letter agreement with the City of Portland and Stevens, Thompson & Runyan, Inc., covering extension of time and an increase in the contract maximum for the East Burnside-Sandy Boulevard Study retroactive to July 30, 1976, through August 31, 1977, for the completion of the consultant's work. Cost to State \$1,326.50. (Authorized Chief of Operations to sign letter of understanding.)

- 14) Presentation to the Emergency Board a request for an increase in expenditure limitation in the amount of \$59,193 to provide uniforms for Motor Vehicles Division field office employees.

Upon request from Commissioner Walsh, Mr. Bell read the resolution designating the I-205 Bridge over the Columbia River to be known as the Glenn L. Jackson Bridge. It was moved by Commissioner Walsh and seconded by Commissioner Brix that the resolution be adopted. Motion passed. (Copy of "Commemorative Resolution No. 23" on file in the Commission's files, Salem.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

The proposed adoption and revision of delegation orders for the Department were deferred until the December 1977 meeting.

Mr. Rulien mentioned that last week ended the 39 Six Year Highway Program meetings. He indicated that staff is now digesting the information received in these meetings, determining the impact of the suggested projects on the program, developing a way of dealing with them and coming up with a program that meets the needs. He mentioned the Regional Engineers are now summarizing the essential things that they heard at the meetings and will be making their recommendations. The Commission was handed a flow diagram Schedule for Six Year Program Revisions. (Copy on file in the Commission's files, Salem.)

The Commission decided to hold a work session in Portland on Tuesday, December 6, 1977, starting at 8:30 a.m. in Room 108, State Office Building, concerning the Six Year Highway Program. In reply to the Chairman's inquiry, Mr. Rulien said a digest of the meeting tapes would be prepared and mailed to the Commission prior to the December 6 work session. At Mr. Rulien's suggestion, the Metropolitan and Regional Engineers will attend the December 6 work session so the Commission can have their advice and comments on the projects in their regions.

Mr. Bell reported on the Six Year Highway Program meetings. He said the news coverage prior to and after the meetings was very good. The total attendance at the 39 meetings was 1,829 people, which he thought was good, considering how difficult it is to get the public out to attend meetings. Mr. Bell stated that the largest turnout was 115 in Roseburg. The Statewide average was 47 for the 39 meetings. He mentioned the elected officials were well represented at the meetings in Region 3. He indicated that staff was pleased with the result of the meetings and it was felt a considerable amount of headway was made in explaining the Department's program and problems.

Commissioner Walsh pointed out that the meetings he attended were impressive, very well organized and educational. He mentioned that these types of meetings should be continued.

Commissioner Brix commented briefly on the meetings in the metropolitan areas and the meetings in the smaller towns in Eastern Oregon.

Commissioner Hollern said the preparation of the staff work and the involvement was excellent in bringing out the people to these meetings. He mentioned that the public comments were very constructive.

Chairman Jackson stated that the Six Year Program was prepared by staff with the view of trying to spread limited funds over the five operational districts. He mentioned that after the public meetings in Western Oregon that the accumulation of small projects did not solve the problems. In most cases, he said, the communities had one or two major projects that were critical. He felt the Department should review the whole program in an attempt to solve some of the problems of the State, rather than making widespread distribution of a small amount of funds.

The Commission confirmed the dates for the following Commission meetings:

Thursday, December 15, 1977, in Salem
Wednesday, February 22, 1978, in Coos Bay
Tuesday, June 20, 1978, in Astoria

OPERATIONS

Mr. Klaboe reported on the proposed Mill City-Gates bike trail which was previously discussed at the June 1977 Commission meeting. He said a study has been completed on the widening of Highway 22 to provide for a bike trail. The widening would take a six-foot shoulder on each side of the existing highway for the 2.8 miles involved in the bike path at an estimated cost of \$425,000. The first proposal to build the bike path on the old railroad grade that exists between the two cities was estimated several months ago at \$90,000. This estimate, he said, has been updated and it is now

estimated to cost \$136,000 to construct the path on the railroad grade. Mr. Klaboe recommended that no further consideration be given to widen the existing highway. He presented several recent pictures to the Commission showing the bike path and displayed a map of the area. Mr. Klaboe asked Mr. Don Shaffer to report on his recent discussions with the City of Gates.

Mr. Shaffer mentioned that he had talked to several Council members of the City of Gates and he indicated they would object to a bike path between the two cities even if it stopped at the swimming pool and did not go to Big Cliff Dam. He said their reasons for objecting were possible vandalism to adjacent property owners, too dangerous and too expensive. There was discussion concerning the use of the path if it was constructed.

Mrs. Vivian Staender of Sisters, Recreation Trails Advisory Council, pointed out that she was the first one to bring before the Recreation Trails Advisory Council the idea of a bike path along the old Santiam railroad right of way. She mentioned the students would use the path going to and from school and to and from the swimming pool. At present, the students are using the highway which is very dangerous. Mrs. Staender read a letter from Ross Petrie, a teacher from Portland, outlining his reasons for using the old railroad right of way for the path. (Copy of Mr. Petrie's letter on file in the Commission's files, Salem.)

Mr. Ernest Drapela, Eugene, spoke in favor of a bike path away from the highway. He commented on how successful the bike paths are in Corvallis, Eugene, Roseburg and Medford.

Mr. Earl Flick, Milwaukie, concurred with Mrs. Staender's comments and asked that the path be constructed.

Mr. Randy Rancourt, Portland, Recreation Trails Advisory Council, said that he is in favor of a bicycle trail between the two cities. He indicated the Trails Council would be very disappointed if the Commission does not approve the construction of the trail. He felt the recreational opportunities and the safety factor itself should warrant completion of the trail.

Mr. Paul Rosa, Attorney, Mill City, pointed out that the swimming pool is located at the west end of Mill City and is leased by the School District which serves both communities. He stated \$300,000 was spent in 1949 to acquire the right of way from Gates to the Big Cliff Dam. This was acquired by the U. S. Army Corps of Engineers from Southern Pacific and was later transferred to the State for a nominal sum. In 1974, he mentioned, the stretch from Mill City to Gates was acquired by the State Highway Division for \$62,000. Mr. Rosa mentioned that correspondence in the Highway

Division's files from 1971-1975 relating to the acquisition shows a clear intent to acquire it as a bikeway and foot path with a possible secondary use for later highway expansion. The portion of the project does link two cities and three parks which are run by the Regional Parks and Recreation Agency and the Willamette National Forest. He said the original concept was for a 10.5 mile bikeway from Mill City to Big Cliff Dam. He felt the opposition has principally been from the landowners who feel the fear of vandalism, violent crime and motorcycles. Mr. Rosa mentioned the Regional Parks and Recreation Agency and the Mid-Willamette Valley Resource Conservation and Development District have endorsed the project. He felt the State should look at this from a policy standpoint as to whether bikeways should be included as part of the overall transportation concept.

Mr. James Jaquette, a resident of Mill City, gave his reasons for supporting the project and said it should be completed as soon as possible on the old abandoned railroad right of way.

Mr. Herbert Hampton, a 35-year resident of Mill City, stated that he is not objecting to trails but does object to trails being constructed too close to the homes. He said he felt so strongly against this trail that he sold his home and left the area.

Mrs. Carmen Barnhardt of Gates mentioned that she is not in favor of the trail and the use of it would be very minimal. She stated the right of way was bought for the eventual widening of the highway, not as a bike path.

Mr. John Roten of Gates spoke in favor of the path adjacent to the highway so it wouldn't interfere with the property owners, but he felt there wouldn't be much use of the trail. He stated that none of the property owners had been contacted to get their opinions.

Mr. W. E. Thomas of Gates said there are very few bicycles in the canyon and most of the bicycle people are from out of state or out of town. He suggested that light rail be constructed in the area.

(See page 2245 for further discussion of the Mill City to Gates bike trail.)

The Chairman recessed the meeting for lunch at 12:05 p.m.

The Commission and staff had lunch in the Director's Office with Mr. Bud Kramer, Governor's Office; Mr. Larry Sprecher, Mr. Robert Smith, Mr. Fred Segrest and Mr. Lynn Frank, from the Executive Department, Budget Division, to discuss budget matters relating to the Department of Transportation.

The Chairman reconvened the meeting at 1:20 p.m. in Room 122.

Upon the recommendation of Mr. Klaboe, the Commission gave their approval to investigate the possibility of a new office building in Lakeview for the Highway Division's Resident Engineer, the State Police and the Motor Vehicles Division. Estimated cost is \$55,000 and State Funds are available.

Attention was given to a change in guidelines for the use of State Funds for experimental transportation projects in areas below 50,000 population. Mr. Moore said for the last two bienniums the Division has conducted an experimental transit program in Albany, Bend and Columbia County. The 1977 Legislature continued this program with an appropriation of \$40,000 to finance the experimental projects. The major change, he said, is the increase in State participation from 25% to 50% of all project costs. The Commission approved the change in the guidelines as recommended by Mr. Moore. (Copy of guidelines on file in the Commission's files, Salem.)

Mr. Moore reported on the West Portland Park and Ride Station. He said the facility has been in operation since the first part of September 1977, and that it reached its capacity of 300 cars in approximately 6 weeks. He commented that Tri-Met is doing an on-site survey which will soon be completed. In reply to Commissioner Walsh's inquiry, Mr. Moore said the cost of the project, including the Barbur Boulevard bus lane, was \$2,850,000 and the State's investment was \$228,000.

Mr. Coulter presented 25-year certificates and pins from the American Association of State Highway Transportation Officials to J. H. Versteeg, Head of Engineering Section, Salem, and E. L. Hardt, Regional Engineer, Portland.

Mr. Coulter stated that a portion of the Winter Recreation Advisory Committee's recommendations involving parking areas requires the control of parking on widened, plowed shoulder areas. To provide equitably controlled parking in these areas, new regulatory parking prohibition signs are required. He said none of these signs currently exist in the State's Sign Manual that adequately controls these conditions. Following Mr. Coulter's recommendation, the

Commission adopted as a temporary rule the following three signs as official control devices in accordance with ORS 487.853:

- 1) "NO PARKING FOR UNATTENDED VEHICLES"
- 2) "ENTERING WINTER RECREATION AREA PARKING PERMITS REQUIRED BEYOND THIS POINT"
- 3) "SNO-PARK PARKING PERMIT REQUIRED"

(Temporary rule filed with the Secretary of State on November 15, 1977, and published in their Administrative Rule Bulletin on December 1, 1977.)

Attention was given to a request from the City of Woodburn for cooperative funding to provide a storm sewer outfall line easterly from Boones Ferry Road (M.P. 37.87) to Mill Creek (M.P. 38.6+) along the Hillsboro-Silverton Highway. Mr. Coulter said that this could serve future reconstruction and drainage improvements to the section of this highway between the Pacific Highway and Boones Ferry Road. The estimated cost of the project, including capacity for these future improvements, is \$230,000, including Federal participation under an EDA Grant of \$93,000. Mr. Coulter recommended State participation equal to the cost of providing the additional capacity and estimated to be approximately \$50,000. Following Mr. Coulter's recommendation, the Commission granted advance "concept" approval to be followed by preparation of an agreement.

(Continuation of public comments pertaining to the Mill City-Gates proposed bike path.)

Mr. Lawrence Brown, Attorney, Salem, mentioned that he doesn't agree with the opponents that the \$62,000 that the State used to purchase this property was solely for a bicycle path. He said the State had in mind also the potential widening of Highway 22. Mr. Brown could not see how a person could say there was a public need when both cities have voted against the path. Based upon the facts, he said, the bicycle path is not needed at this time. Mr. Brown referred to letters he had previously submitted to the Commission.

Mrs. Marie Stewart of Mill City commented that a trail runs through her property and it creates all kinds of problems. Mrs. Stewart indicated that she is not in favor of a trail along the highway or the river.

Chairman Jackson thanked the people for being present. He stated the Commission appreciates getting both viewpoints on this matter. A decision will be made later when all members of the Commission are present.

In the absence of Mr. Talbot, Mr. Bell reported that in a national competition for media presentations sponsored by the National Recreation and Park Association the Department submitted the slide presentation on the Willamette River Greenway Program. He said the entry won second place in the Administration, Management and Environmental concern-commercial category. A plaque was presented at an award's ceremony which Mr. Talbot attended during the NRPA Congress in Las Vegas, Nevada, on October 3, 1977. Mr. Bell presented the plaque to Chairman Jackson. The slide-tape show will be shown to the Commission at their workshop meeting in Portland on December 6, 1977.

Mr. Burco reported to the Commission that the Federal Highway Administration had notified him that the Highway Division had won first place in the Tenth Annual Awards, 1977, "The Highway and Its Environment" in Category I - Rural Highway (Mountain) covering the Crooked River Highway, 15 miles south of Prineville.

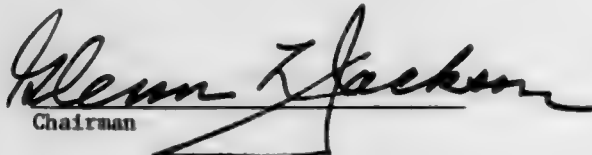

A Committee for Improvement of Highway 99 came before the Commission concerning the four-laning improvement on the Airport Road-Junction City Section of the Pacific Highway West Project in Lane County. Present were Rosanne Spaulding, Yvette Zumwalt, Elaine Bleyhl and Marilyn Lines, all from Junction City.

Mrs. Spaulding presented numerous letters and petitions all calling attention to the need for the improvement of this section of Highway 99. (Petitions and letters on file in the Commission's files, Salem.) She mentioned this project is ready to go, and delaying the improvement for a later date is going to cost more money. She said the highway is 40 years old and there are five bridges that need repair. Mrs. Spaulding asked that this project be moved up on the State's contract schedule.

The Chairman mentioned that the Commission has to review the entire Six Year Plan after the Statewide meetings. There will be a re-evaluation of some of these projects in an attempt to clean up some of the more critical ones even at the expense of some of the smaller projects. It is not known at this time if this \$5,000,000 project can be moved up on the schedule. Chairman Jackson told the ladies that they will have an opportunity to discuss this matter at the January meeting if the Commission does not make a decision that is entirely satisfactory.

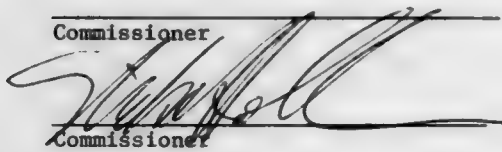

There was discussion concerning an article which appeared in a recent issue of "The Oregon Motorist" publication having to do with the construction of the West Portland Park and Ride facility. It was decided that the Director should send a letter to the Manager of the Automobile Club of Oregon clarifying this matter.

The meeting adjourned at 2:05 p.m.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7518 Agnes J. Potter v. Gene V. Holderith, State of Oregon, et al: This lawsuit arises out of an accident that occurred on September 2, 1975, in which a vehicle driven by Gene V. Holderith struck a vehicle driven by Laurier M. Kittridge at the intersection of S.W. Main and S.W. Baseline Street (Highway 8). The plaintiff has alleged that the Highway Division was negligent in maintaining the intersection in an unsafe condition and is seeking damages in the amount of \$75,000. The plaintiff has also joined Washington County and the City of Hillsboro as parties defendant. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7519 Agnes J. Kittredge, Personal Representative of the Estate of Laurier M. Kittredge, deceased v. Gene V. Holderith, State of Oregon, et al: This is an action for wrongful death arising out of the same circumstances as reported in L-7518, immediately above, and the plaintiff is seeking \$350,000 in damages. The matter has been referred to the State's insurance carrier for the defense of the State.

L-7530 Knappton Towboat Company, a corporation v. The State of Oregon: This lawsuit arises out of an accident that occurred on October 25, 1975, when a tugboat towing a loaded barge was coming down the Columbia River and collided with the drawbridge across the Columbia River operated by the Highway Division. There is presently pending a lawsuit in Federal Court involving this same subject matter and this lawsuit has been filed in state court to protect the rights of the plaintiff in the event that they are not allowed to continue their lawsuit in Federal Court. The plaintiff alleges that the State was negligent in not raising the drawbridge promptly enough and is seeking damages in the amount of \$123,017.87. The matter has been referred to the Attorney General's office for the defense of the State.

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On Oct. 21, 1977, \$2,683,618.27 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of Sep., 1977.
(List of apportionments on file in Commission Files, Salem.)

On Oct. 31, 1977, \$1,610,170.96 (12 percent of the Highway Fund) was distributed to the cities for the month of Sep., 1977.
(List of apportionments on file in Commission Files, Salem.)

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
EXECUTIVE SESSION
held on
DECEMBER 6, 1977

December 6, 1977
Portland, Oregon

The Oregon Transportation Commission met at 8:45 a.m. in Room 108, Portland State Office Building. The Chairman announced that there would be an Executive Session at this time, prior to the scheduled workshop. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
Walt Barrie, Chief Counsel
Fran Neavoll, Commission Services
C. W. Head, Manager, Commission Services

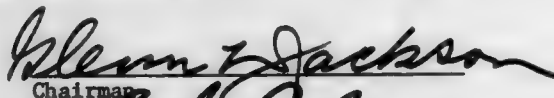

Mr. Barrie reported on the Federal District Court case of Southeast Legal Defense Group vs. Adams (Mt. Hood Freeway case). He mentioned that the case started in 1972 and out of twelve claims in the complaint, one of the claims was lost when the court tried that the State was precommitted to a particular corridor route prior to the location hearing in violation of Federal law. Since February 1974 when the Judge ruled on this claim, the State has contended that plaintiffs are not entitled to attorneys' fees. Then in November 1975, he said, the District Court in Portland ruled that the plaintiffs were not entitled to any attorneys' fees under Alyeska vs. Wilderness Society (a U.S. Supreme Court case) which in effect held that there is no private Attorney General theory which would entitle plaintiffs to receive attorneys' fees. The plaintiffs appealed the November 1975 decision to the U.S. Ninth Circuit Court of Appeals in San Francisco and the State cross-appealed. Mr. Barrie said after the matter had been before the Ninth Circuit a number of months Congress in October 1976 passed the Civil Rights Attorneys' Fee Award Act. During this time, the Ninth Circuit was faced with the California case of Zurcher vs. Stanford Daily News which was a civil rights case of search and seizure. He said the Ninth Circuit decided that the 1976 Civil Rights Attorneys' Fee Award Act applied to the Zurcher case and awarded attorneys' fees. Mr. Barrie said the plaintiffs successfully moved the Ninth Circuit to remand Southeast Legal Defense Group vs. Adams back to the District Court with instructions to determine whether or not the Civil Rights Attorneys' Fee Award Act applied to this case. He mentioned that this particular case and the claim that was decided did not, in his opinion, involve any civil rights question. He said the issue the court decided in this case was merely whether or not the State was precommitted to a particular corridor for the freeway prior to the public hearing held in May 1969. The District Court, however, ruled that this case did come under the Civil Rights Attorneys' Fee Award Act of 1976, and following a request by the State, ordered an evidentiary hearing to determine the amount of attorneys' fees to which plaintiffs attorneys were entitled.

Mr. Barrie pointed out that Mr. Merten was asking for approximately \$500,000 in attorneys' fees, based on approximately 1500 hours of legal work, several hundred of those hours in litigating the attorneys' fee question. Legal Aid was asking for approximately \$100,000. The Federal Government was a joint defendant in this case and would have had to share in any attorneys' fees awarded except Federal law exempts the United States from paying attorneys' fees. Mr. Barrie commented that the Federal Government felt that the plaintiffs were wrong and that the State did not violate anything. He said he argued before the court that since the Federal Government is immune and the Mt. Hood Freeway was a Federal project, that the State should be entitled to the same immunities as the Federal Government, namely no attorneys' fees. He said there are now at least three cases in the U. S. Supreme Court from other states involving interpretations of the 1976 Civil Rights Attorneys' Fee Award Act. He said that the award that the plaintiffs got on attorneys' fees in the District Court was \$280,000 (Merten \$240,000 and Legal Aid \$40,000).

Mr. Barrie recommended that the State appeal. He said that he does have delegated authority from the Commission to appeal cases but he felt that this was an important case and he would like the Commission's concurrence to appeal the case. He said the basic reasons for appealing the case involve constitutional issues as well as determining Congressional intent in enacting the Civil Rights Attorneys' Fee Award Act of 1976. He indicated that he had discussed this matter with the Attorney General and it was his opinion that it should be appealed.

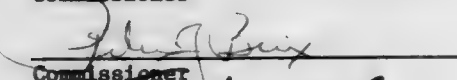

After considerable discussion, Commissioner Coleman moved that the State appeal the case. The motion passed. Commissioner Walsh abstained.

The Chairman adjourned the Executive Session at 9:05 a.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION WORKSHOP MEETING
held on
DECEMBER 6, 1977

December 6, 1977
Portland, Oregon

The Oregon Transportation Commission held a workshop session at 9:10 a.m. in Room 108, Portland State Office Building. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
Walt Barrie, Chief Counsel
F. B. Klaboe, Chief of Operations
Don Streun, Assistant Director for Administration
Larry Rulien, Assistant Director for Transportation Policy and Program Development
H. S. Coulter, State Highway Engineer
C. W. Head, Manager, Commission Services

Others present were Robert N. Bothman, Administrator, Metropolitan Branch; W. E. Schwartz, Region 5 Engineer; C. M. Williams, Region 4 Engineer; Alfred Shirley, Region 3 Engineer; John W. Sheldrake, Region 2 Engineer; Ed Hardt, Region 1 Engineer; Loyd Henion, Head Transportation Economist; Jack Sollis, Assistant Chief Counsel; Glen L. Green, Federal Highway Administration; and Ken Bonnem, Community Relations Officer.

Mr. Burco brought up for discussion the proposed Delegation Orders. The Commission decided to review the Delegation Orders informally at its December meeting and take action at their formal meeting in January, 1978.

The Metropolitan and the Regional Engineers commented on the Six Year Highway Program meetings and pointed out the critical needs in their respective areas.

There was considerable discussion concerning the need for more shoulder striping. The Commission felt the allocation should be doubled for the Minor Betterment Program and the projects should be delegated at the district and regional levels.

Mr. Loyd Henion gave an overview of Programs A and B and the available money under various assumptions and circumstances by showing and commenting on the following charts:

(See next page for continuation.)

- 1) Six Year Program Expenditure Summary - Alternate A and B
- 2) Revenue Forecast Assumptions for Six Year Program (Program B and Program A)
- 3) Why Partial Compliance?
- 4) Program A Revenue Anticipated and Expenditures Programmed 1979-1984
- 5) Assumptions for Expenditure Projections in Program A
- 6) Revenue Loss Due to Public Law 94-163 Total Fuel Tax Revenue Assumes Passage of HB 2140
- 7) Impact of Federal Fuel Standard on Oregon Fuel Consumption
- 8) Impact of Federal Fuel Standard and HB 3261 on Six Year Program State Road User Revenues
- 9) Total State Road User Revenues
- 10) Additional Revenue Possibilities for Six Year Program
- 11) Possible Construction and Changes Due to Alternate Program A Scenarios
- 12) Additional Revenue Possibilities \$65,000,000 Bond Issue
- 13) Percent of 2¢ Fuel Tax Revenue Required to finance \$65,000,000 Bond Issue for 1980-2004

(Charts on file in Loyd Henion's Office, Salem.)

Mr. Rulien handed to the Commission a Non-Interstate Chart showing a breakdown for Preliminary "B" and "A" and Public Meetings Estimate of Requests in terms of dollars for preservation, reconstruction and new construction. He presented a chart of Public Meeting Requests Breakdown by Regions. (Charts on file in the Commission's files, Salem.)

There was discussion concerning bond issues. Mr. Barrie stated that there is nothing in the law that requires the Department to follow the COG's list of priorities. There are no limitations in the Bond Act. He said under a 1975 law the Department would have to get the Emergency Board's approval for additional bond issues.

Mr. Klaboe pointed out that there are two bond acts:
1) That the Department can issue up to \$40,000,000 of outstanding bonds and 2) \$15,000,000 in any one year there is \$19,000,000 outstanding that the Department could issue in that act. Mr. Klaboe said there is \$125,000,000 that the Department could issue.

There was discussion regarding Programs A and B and the Registration and Gas Tax Measures. The Commission requested that Plan A be revised and submitted for discussion at the December 1977 Commission meeting.

Mr. Klaboe reported that the Technical Services Branch has been working for several months on a Manpower Study based on the Six Year Programs A and B. The Commission received copies of the Technical Services Recommended Staffing Levels Report dated December 1977. (Copy on file in the Commission's files, Salem.)

The major elements developed in the study are:

- 1) A work plan for each project in Programs "A" and "B" over the next 6.75 years which identifies the effort required in man months for each section for each project.
- 2) An algebraic summation of effort required in man months for each section and the Branch, and a graphic representation of each.
- 3) A control document for each section, showing the planned man months work and the work performed on each project.
- 4) A decision sheet for each section covering Fiscal Years '78 and '79. The document contained the recommended action necessary to bring projects to contract in the year programmed.
- 5) A summary sheet for each section and the Technical Services Branch.
- 6) A list of field location surveys and Fiscal Year '78 completion dates for use in organizing the field effort.

There was discussion concerning additional personnel to do the programs and consulting services needed to minimize Fiscal Years '78-'79 delays in contract scheduling.

Mr. Coulter handed to the Commission historical graphs of the field engineering manpower.

Mr. Ken Bonnem commented on the GMA Survey that was taken last summer. He presented a tabulation by Regions of responses to the approximately 600 returned questionnaires used at the Six Year Highway Program meetings. (Copy on file in the Commission's files, Salem.)

The Chairman adjourned the workshop at 12:10 p.m.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
DECEMBER 15, 1977

December 15, 1977
Salem, Oregon

The Oregon Transportation Commission met in an informal meeting at 8:45 a.m. in the Director's Office, Room 135, Transportation Building. Notice of this meeting and of the formal meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
Don Streun, Assistant Director of Administration
George Bell, Manager of Intergovernmental and Public Affairs
Paul E. Burket, Administrator of Aeronautics
Harold L. Grover, Administrator of Motor Vehicles
H. S. Coulter, State Highway Engineer
David G. Talbot, State Parks Superintendent
Jack Sollis, Assistant Chief Counsel
Alan Lightner, Executive Assistant to Director
C. W. Head, Manager, Commission Services

Mr. Burco said that there will be a delegation appearing before the Commission at their formal meeting concerning the connection of Tugman State Park to the City of Lakeside's sewer system and he asked Mr. Talbot to present this matter.

Mr. Talbot reported that the Parks Branch is involved in negotiations with local governments on the coast as they are responding to State and Federal directions to get clean water and sewer systems. He pointed out that most of these communities are small and are being asked to put in regional systems, and they are reaching out for Federal, State and local money. For the past several years, he said, the Parks Branch has successfully negotiated reasonable prices, but in Lakeside a situation has occurred where the consulting engineer made some preliminary judgments before the Park's staff had a chance to really review it. He said the consulting engineer took the cost of the entire system, all laterals and all mainlines, the cost of the land to put the treatment plant on, and then the consultant found out what percent the various users put into that total and divided it. The cost came to \$181,000 for the Department. Mr. Talbot said the Parks Branch in figuring the cost is to find out what part of the system serves the State. He said the lateral on "L" Street doesn't have anything to do with Tugman State Park and it was his feeling that the Department should not have to participate in that cost. He said the State's computation would be about \$30,000 for the State's share of the treatment plant and the main line to the plant from the park.

Mr. Talbot mentioned that this has been debated back and forth and Lakeside decided they would go around the Department, stopped negotiations and went directly to the Legislature. The Legislature discussed this matter and heard both sides of the issue at the Park's budget hearings. He said the Legislature directed in a budget note that the Department pay the bill.

He said there is another \$50,000 required in addition to do the work in the park. The system is functioning; it is a new subsurface system which the State would like to get out of ultimately. The Department's policy is to get into municipal systems wherever possible, not only because it is good business to do so, but to cooperate with them to get the job completed.

Mr. Talbot said a contract was being prepared with the district when Legal Counsel questioned whether the State could pay more than it really thought was reasonable out of the Highway fund. He said an opinion was asked from the Attorney General's Office and they said the State would have to make the decision.

Mr. Burco mentioned that he received comments from the recent Legislature about the use of State Highway funds for improper purposes. He said the Wayne Morse Ranch and the Glendoveer Golf Course were mentioned frequently, and both of these were a Legislative directive passed by a majority of the Legislature. He said the Lakeside matter appears to be the same situation.

In reply to the Chairman's inquiry, Mr. Talbot said there are at least six similar sewer projects like Tugman State Park. There are other alternatives like shutting down the sewer facilities and using the park for self-contained vehicles.

It was the feeling of the Commission that since Lakeside had some legislative support on this matter that they should go back to the Emergency Board for the difference. (See page 2293 for further discussion.)

Mr. Burco handed to the Commission copies of a preliminary report covering the present status of Advisory Committees in the Department of Transportation. (Copy of report on file in the Commission's files, Salem.) Mr. Burket explained the need for an Advisory Committee to the Aeronautics Division. In response to the Chairman's inquiry, Mr. Sollis said the Advisory Committees should be set up by resolution and the members should be appointed by the Commission in order to make sure that there would be no problem in paying their expenses. Mr. Talbot commented on the Recreation Advisory Council. He also commented on a Special Project Advisory Fund group, which assists in the management of Federal Aid Projects. He said this group has been in effect for some time but according to an Attorney General's opinion, it will be necessary for the Commission to specifically appoint the members so their expenses can be paid.

The Commission agreed on the appointment of Advisory Committees with the Committees reporting to the Department Heads rather than reporting to the Commission. Mr. Burket and Mr. Talbot will present their resolutions in January to the Commission. Mr. Burco indicated that he would explore some control mechanisms and report back to the Commission.

Mr. Streun reported that the Department will be required to prepare the regular budget and a zero-base budget for the next biennium. To do this, he said it will create additional work for all Divisions. In the Highway Division it will take at least four additional people to handle the requirement. After discussion, the Commission asked Mr. Streun to present this matter at the formal meeting. (See page 2291.)

There was considerable discussion concerning the Department's various delegation orders, particularly overruns on contracts. Mr. Sollis stated that he would send to the Commission a memo explaining the orders and reasons for the proposed changes and Mr. Coulter would prepare a report on contract overruns. The Commission indicated they would review the orders at their January meeting.

The informal meeting adjourned at 10 a.m.

The Commission held their formal meeting at 10:05 a.m. in Room 122, Transportation Building. The same individuals were present that attended the informal meeting. Others present were Larry Rulien, Assistant Director for Transportation Policy and Program Development; Dennis Moore, Administrator of Public Transit; E. S. Hunter, Manager of Technical Services; and Don Haller, Maintenance Services Manager.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of November 15, 1977.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2668" on file in the Commission's files, Salem.)
- 3) Authorized increase in project authorization on the following contract:
 - a. Contract No. 8565, Lincoln Street-Main Street (Mt. Angel) Project in Marion County, in the amount of \$17,914.50 (24.6% increase).

- 4) Request from City of Tigard for an \$80,000 preliminary engineering project to improve and add signalization, left-turn lanes, transit stops, and median treatment from the North Tigard Interchange south 3.2 miles to S.W. Beef Bend Road on the Pacific Highway West. City will provide all the required \$11,360 of local match. (This is an Interstate Transfer Project.) Authorized State Highway Engineer to sign agreement when prepared.
- 5) Revised the standard for Class III Bikeway lanes. (Six feet be retained as the minimum standard width for one-way bicycle lanes on shoulders adjacent to the roadway except four feet in width be acceptable where circumstances make six feet impractical. Appropriate signing to be installed to advise bicyclist of narrow width.)
- 6) Abandoned sixteen damage claims totaling \$9,485.31 as follows:

| <u>NAME</u> | <u>CAO NO.</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |
|--|----------------|-----------------------------|---------------|
| Brian Clevenger | 75-381 | Guardrail | \$ 449.56 |

- 7) Amendment to standard highway construction specifications to provide for an additional percentage markup as a surcharge to the total billing on all new force account work performed by an authorized subcontractor after January 1, 1978.

- 8) Authorized Parks Branch to proceed under the Administrative Procedures Act and hold public hearings prohibiting the use of skateboards in Ecola State Park, Clatsop County.
- 9) Distribution of the fiscal year 1978 Safer Off-System Roads Funds as follows:

FISCAL YEAR 1978 SOS-R ALLOCATION
DECEMBER 1977

Oregon's Fiscal Year 1978 SOS-R Apportionment \$3,652,374

Allocation to Urbanized Areas, Cities Under 50,000 Population, and Counties, Road Districts and Indian Reservations, is based on Percentage of Off-System Road Mileage.

GROUP I -- URBANIZED AREAS

| | |
|--------------------------------------|------------|
| 14% of Total Off-System Road Mileage | \$ 511,332 |
| Salem 14% | 71,587 |
| Eugene 19% | 97,153 |
| Portland 67% | 342,592 |

GROUP II -- CITIES UNDER 50,000 POPULATION

| | |
|--------------------------------------|------------|
| 14% of Total Off-System Road Mileage | \$ 511,332 |
|--------------------------------------|------------|

GROUP III -- COUNTIES, ROAD DISTRICTS & INDIAN RESERVATIONS

| | |
|--------------------------------------|-------------|
| 72% of Total Off-System Road Mileage | \$2,629,710 |
|--------------------------------------|-------------|

- 10) Requests for approval of the following Safer Off-System Roads Projects: (Authorized State Highway Engineer to sign the project agreements when prepared.)

DIRECTOR'S REPORT

Mr. Burco said following the December 6, 1977, workshop concerning the Six Year Highway Improvement Program, the staff has reanalyzed Program A particularly and developed some alternatives, including an enhanced program which would need to be funded from additional sources. He asked Mr. Rulien to comment on the modifications.

Mr. Rulien presented to the Commission the following handouts:

- 1) A Six Year Program A Expenditure Summary, 1979-84, which shows an increase in maintenance and an enhancement of the Minor Betterment Program as a result of the Commission's guidance at its workshop on December 6.
- 2) A 1977 Preliminary Highway Improvement Program - Non-Interstate Program A which indicates recommended deletions and suggested additions as a result of the discussions at the workshop and from the input received at the public meetings. He said the sheets also indicate the possible financial impacts of these changes.
- 3) List of proposed projects by Regions and list by Regions of Non-Interstate Program A Additions (listed in Program Sections Priority Order).
- 4) A summary by Regions of the 1977 Program Reconstruction Projects.

(Copy of handouts on file in the Commission's files, Salem.)

There was discussion pertaining to the various items in Programs B, A and A+. The Commission asked Mr. Rulien to develop a priority list by regions from projects in the B through A+ Programs for the January Commission meeting.

The Commission set the date of January 24, 1978, for their next meeting, and reconfirmed the date of February 22, 1978, for their monthly meeting in Coos Bay.

The Commission considered a personal and professional services agreement with Consulting Associates, Inc., to design and develop an Assessment and Development Center. Mr. Streun referred to a letter which was previously sent to the Commission. He said the purpose of Phase II of the Management Development Program is to satisfy the Executive Order and to meet the expressed need of ODOT managers by providing a skill development activity that helps managers better perform certain job functions. Since in-house capability to completely design an Assessment and Development Center is not available, it is essential to contract with a professional firm to do the job analysis, develop the skills activities, train assessors, and help conduct the first session. Following Mr. Streun's recommendation, the Commission approved the agreement (cost not to exceed \$15,500), and authorized the Director to sign it in their behalf.

Mr. Streun stated that all Divisions within the Department have to prepare their regular budget and also a zero-base budget for the next biennium. To comply with the Executive Department's request, it will require four additional people to handle the extra work in the Highway Division. This will increase an expenditure limitation of \$124,578. The Commission gave their approval to submit this request to the Emergency Board.

Mr. Don Haller reported on the December 14, 1977, meeting of the Winter Recreation Advisory Committee. He mentioned the Motor Vehicles Division reported Winter Recreation parking permit sales of \$105,000 as of December 5, 1977. The Committee requested that the Highway Division and the Motor Vehicles Division investigate a liberalized procedure of providing the permits to vendors that would function similar to hunting and fishing license sales. The Commission approved the following Winter Recreation Sno Parks as recommended by the Committee:

| | |
|--------------------------|-----------------------------------|
| Willamette Hwy., #18 | M.P. 58.91 Lt (Waldo Lake) |
| Willamette Hwy., #18 | M.P. 61.43 Lt (Abernathy Road) |
| Willamette Hwy., #18 | M.P. 61.43 Rt (Gold Lake) |
| Willamette Hwy., #18 | M.P. 62.33 (West Odell Lake Road) |
| Crescent Lake Hwy., #429 | M.P. 2.39 |

Mt. Hood Hwy., #26 and the Government Camp Business Route as follows:

| | |
|---|--|
| M.P. F53.10 to M.P. F53.45 Lt&Rt | Winter Rec. Parking Permit Required |
| M.P. F53.45 to M.P. F53.70 Lt&Rt | Winter Rec. Parking Permit Required
or 2 hour parking limit |
| M.P. F53.70 to M.P. F54.12 Lt&Rt | Winter Rec. Parking Permit Required |
| All of Multipor Access Rd. south of north edge of Multipor Frontage Rd. | |
| Weston-Elgin Hwy., #330 | M.P. 22.5 Rt |

The Commission considered a traffic signal demonstration project on ORE99E between the Ross Island Bridge in Portland and 10th Street in Oregon City. Mr. Coulter mentioned the project will be done as a part of a new program funded in the 1976 Federal-Aid Highway Act. The total estimated cost of the project is \$1,026,000, 100% of which is Federally funded. The Commission approved submitting an application to the Federal Highway Administration for the project as recommended by Mr. Coulter.

Upon Mr. Coulter's recommendation, the Commission approved submitting an application to the Federal Highway Administration for a traffic demonstration project to interconnect all existing traffic signals in the central business district in the City of Medford. Estimated cost is \$715,000, to be 100% Federal participation.

Following Mr. Coulter's recommendation, the Commission adopted a resolution designating the Clackamas-Boring County Road as a State Secondary Highway. The route and termini of said Secondary Highway No. 174 is described as follows:

Beginning at a junction with the Clackamas Highway, approximately 3 miles east of Clackamas, easterly through Damascas and Boring to a junction with the Mt. Hood Highway northeast of Sandy, a distance of 8.87 miles.

He said this designation adds 8.87 miles to the secondary system on the Clackamas-Boring Highway and eliminates 8.0 miles from the Canby-Marquam Highway. (See "Secondary Highway Designation Resolution No. 80" on file in the Commission's files, Salem.)

Mr. Coulter recalled that in 1959 the Highway Division sold a parcel of excess property between the highway right of way and the old highway in Toledo, Lincoln County. He said the old highway was turned over to the City and the excess parcel was sold to some private parties. In the sale, the access to the highway was restricted across the entire frontage. Mr. Coulter said subsequently the City bought property back behind the old highway as it was then a city street and purchased the excess right of way that the Highway Division had sold. He said the City is going to construct a public safety building and it has been designed so that all access to the building will be from a State highway across the area where access was fully controlled.

In researching the files, Mr. Coulter stated he could find no reason why access was controlled when the property was sold in 1959. Following Mr. Coulter's recommendation, the Commission approved the relinquishment of access control on the Corvallis-Newport Highway between Highway Engineer's Station 2549+50 and 2553+70 and authorized Mr. Boyd to execute the necessary documents.

Mr. Gary Rossi, Attorney representing the City of Lakeside, appeared before the Commission concerning the connection fee of \$181,270 by the Parks and Recreation Branch to hook up Tugman State Park to the City of Lakeside's sewer system that is being built in the City. Mr. Rossi introduced Thomas F. Mitchell from Bartle Wells and Associates, the City's financial consultant; Mr. Gary Dyer, Engineering Consultant from H G E, Inc.; and Councilwoman JoAnn Hille. He recalled that on December 1, 1977, Mr. Talbot directed a letter to him and to the City that at that time the Parks and Recreation Branch did intend to participate in the system and to connect to the City's sewer system, and the only impediment at that point was the approval of the Transportation Commission and the Emergency Board for funding.

Mr. Rossi mentioned that there is a time element involved as the Lakeside City Council is meeting tonight to make its final decision as to whether or not to proceed with the participation of the Parks and Recreation Branch hooking up Tugman State Park to the system.

Chairman Jackson said the Commission is being criticized for any deviation from the law in relation to the expenditures of Highway funds for purposes other than those specific responsibilities that are designated by law. He mentioned that the Department feels that the proper allocation of cost to the State would be its proportionate share of the sewage disposal plant and the transmission line to that plant from the State's location. This cost would be somewhere between \$30,000 and \$40,000. He said this is a logical conclusion that the Commission had to come to in the consideration of this problem. The Chairman said in view of the fact that the City of Lakeside had encouragement from the Legislative Committee that they accept what the State terms to be a reasonable amount of contribution to the system and go before the Emergency Board for fund relief from General Funds.

Mr. Rossi commented on the Attorney General's opinion on the matter of a footnote line item in the budget and the back-ground on the Ways and Means Committee hearing. He said that there may be a dispute as to the method by which the fee was calculated, but indicated they supplied sufficient evidence and information to the Parks' staff and to the Commission.

The Chairman mentioned that the Parks Branch is in a position to negotiate a figure that it can sustain as its legitimate portion of this cost based upon the use and the investment that goes along with that use. He told the delegation that he hoped they understand the Commission's position in this matter.

Mr. Moore stated that the 1977 Legislature approved a general fund appropriation in the amount of \$1,949,000 for "Urbanized Areas Capital Assistance." He said the urbanized areas include the service areas of Lane Transit District, Tri-Met and the City of Salem. In the oral and written testimony to the Legislature on the budget, they were told these funds would be used to pay one half of the local matching fund requirements (80% Federal, 10% State, and 10% local) for capital improvements to each urbanized area transit system.

Mr. Moore indicated that the Department advised the Legislature that the funds would help with the purchase of passenger-related transit equipment and facilities to include buses, signs, shelters and facilities (including the Transit Mall in downtown Portland).

Mr. Moore further explained that Tri-Met would prefer to use the funds for final construction of the Mall and for refurbishing its maintenance garage at 17th and Holgate. After considerable discussion of the legislative intent, the Commission authorized release of \$1,426,516 of General Funds to provide one half the local match against Federal Funds for construction work on the Tri-Met Transit Mall and maintenance facility.

Mr. Grover requested an increase in the Motor Vehicles Division's Federal Funds expenditure limitation of \$57,013 to implement a program to train law enforcement in how to apply the information contained in the Division's records to the law. He said over the past several years the information contained in the records of the Division has become more complex. Because of this, the Division has received requests from law enforcement to help in training Police Dispatchers, District Attorneys and Court personnel. He mentioned the subject of the training would be the proper interpretation and use of the Division's records. The anticipated result of the program, he said, would be a more accurate understanding of the Motor Vehicles Division laws and records as they apply to law enforcement. The application of these laws would be more equitable and aid in better control of unsafe drivers.

Mr. Grover said to provide this training program for law enforcement will require additional positions and Federal Fund limitation expenditures which were not provided for in the Division's 1977-79 legislative-approved budget. Following Mr. Grover's recommendation, the Commission gave their approval for the Department to ask the Emergency Board for permission to apply for a Federal grant through the Oregon Traffic Safety Commission to fund the training program and an increase in Federal expenditure limitation.

Mr. Edgar Grimes of Harrisburg, and others, appeared before the Commission for presentation of a second place award won by the Oregon Department of Transportation for its anti-litter prevention program in a nation-wide contest of State Highway Departments, co-sponsored by Keep America Beautiful, Inc. and the Federal Highway Administration.

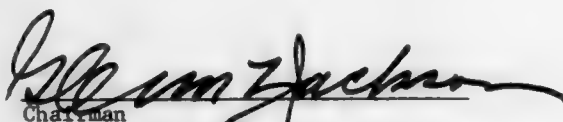

Chairman Jackson received a plaque from Sheryl Orr, student of Veneta Elementary School, and Bertina Loeffler of North Albany Fairmont Elementary School, who accepted the award for the Department at the Keep America Beautiful Annual Awards banquet in New York City on December 1, 1977.

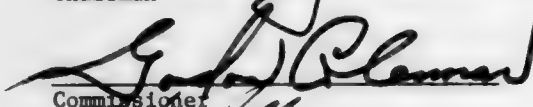

A sign was presented to Commissioner Coleman entitled "Keep Oregon Green and Clean." He thanked the girls and Mr. Grimes for all their work and effort in this program.

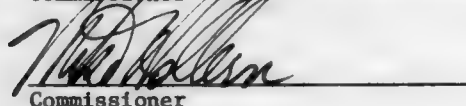

Mr. Grimes informed the Commission about the involvement of the youth in the anti-litter program and showed a film of the youth in action.

The Chairman thanked Mr. Grimes for his active leadership and the students for their participation in the anti-litter program.

There being no further business to discuss, the Chairman adjourned the meeting at 12 noon.

Type of Work Grade, Pave & Structure F.A. Proj. No. 07-51-26760

County Columbia Highway Five County Roads

No. of Bidders 5 Low Bidder Hamilton Construction Co., Springfield
Alt. "A" - \$229,871.00

Low Bid \$
Alt. "B" - \$243,946.00

Engineer's Recommendations: This is an EDA project. The applicant is Columbia County and under the regulations, will make the contract award. The County has indicated they wish to proceed by awarding the contract to Hamilton Construction Co. under Alternate "B".

On November 15, 1977, I accepted the State Highway Engineer's recommendations for award of the projects on which bids were received November 10, 1977, and authorized him to sign the contracts when conditions for the awards have been met.

I also granted approval to utilize State funds to pay construction engineering costs and for the overbid on the Manhattan Beach State Wayside Project, Tillamook County.

State Highway Engineer

12-15-77

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

On behalf of the Commission and under authority delegated to me, I approved the following items and report them for the official records:

- 1) On October 28, 1977, approved the establishment of the following speed zones on the Olds Ferry-Ontario Highway (Weiser Spur) in Malheur County:
45 MPH from M.P. Y12.81 to M.P. Y12.96 and 35 MPH from M.P. Y12.96 to M.P. Y13.66 including a 20 MPH zone from M.P. Y13.11 to M.P. Y13.01 when children are present. (Speed Zone Order 759)
(Approved by C. T. Keasey on behalf of State Highway Engineer)
- 2) On November 9, 1977, established a temporary construction speed of 35 MPH on the Beaverton-Tigard Highway from M.P. 2.68 to M.P. 3.37 in Washington County. Speed zone to be in effect only when construction activities require a lower speed and where the appropriate speed signs are in place. To be effective only during construction project. There is an existing 50 MPH speed zone (Speed Zone Order 709 adopted September 17, 1975) on this section of highway. (Denney Road Interchange)
- 3) On November 16, 1977, established a 45 MPH speed zone on the Central Oregon Highway east of Bend, Deschutes County, from M.P. 1.19 to M.P. 2.74. (Speed Zone Order 760)
- 4) On November 16, 1977, established a 45 MPH speed zone on the Kings Valley Highway south of Dallas from M.P. 4.50 to M.P. 4.92 in Polk County. Rescinded Speed Zone Order 754 dated October 21, 1977. (See Speed Zone Order 761)
- 5) On November 18, 1977, established a 50 MPH speed zone on the Lower Columbia River Highway in Clatsop County from M.P. 81.76 to M.P. 82.26. (Speed Zone Order 762) Vic. of Knappa Junction.

MINUTES OF B 12-15-77

- 6) On November 18, 1977, established a 30 MPH speed zone on the Florence-Eugene Highway in Lane County from M.P. T41.53 to M.P. T42.34 including a 20 MPH speed zone from M.P. T41.98 to M.P. T42.22 when children are present. Rescinds Speed Zone Resolution No. 406 dated 8-29-63. (See Speed Zone Order No. 763) Vicinity of Noti.
- 7) On November 18, 1977, approved the installation of a no passing zone (painting of a double yellow barrier line through Noti) on the Florence-Eugene Highway in Lane County. (M.P. T41.53 to M.P. T42.34)
- 8) On November 17, 1977, approved the use of U-turns on the Pacific Highway West (ORE99W) at Durham Road, near King City, M.P. 11.48, Washington County, and authorized the installation of U-Turn Permitted Signs.
- 9) On November 21, 1977, approved a part-time left-turn prohibition on the Beaverton-Tualatin Highway at south-bound Beaverton-Tigard Highway ramps (M.P. 2.60) in Washington County between 7:00 and 9:00 a.m. and between 3:00 and 6:00 p.m.
- 10) On November 29, 1977, approved speed zones as follows:
45 MPH - M.P. 8.09 to M.P. 11.03 (two way)
40 MPH - M.P. 11.53N to M.P. 11.89N (one way northbound)
40 MPH - M.P. 11.91 to M.P. 12.12 (two way)
Rogue Valley Highway between Medford and Phoenix, Jackson County. (See Speed Zone Order No. 764)
Rescinds Speed Zone Resolution No. 549 dated 11-18-69.
- 11) On November 29, 1977, prohibited parking on the south side of the Coos River Highway from Mullen Street (M.P. 0.06) to Edwards Street (M.P. 0.13) in Coos County.
- 12) On December 5, 1977, approved changing the "STOP" signs on the Silver Creek Falls Highway at Brownell Drive, M.P. 13.21, Marion County.

H. S. Coulter, State Highway Engineer

H. S. Coulter, State Highway Engineer

12-8-77

12-15-77

December, 1977

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Right of Way Manager (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Service contracts with the Southern Pacific Transportation Company approved November 3, 1977 (16-12)
Contract 77-033 RR902 Mill Street Grants Pass
Contract 77-034 RR903 Three Lakes Rd. Froman (Linn Co.)
- (2) Sale of 0.28 acre excess property on Warren-Scappoose Section of the Columbia River Highway in Columbia County, valued at \$20,000 to be used in an exchange. Approved November 4, 1977. File 47677 (16-43).
- (3) Sale of 0.65 acre excess property on the Oro Dell-Union Junction Section of the Old Oregon Trail Highway in Union County for a minimum consideration of \$1,300. Approved November 8, 1977. File 43389 (16-43).
- (4) Sale of 17.0 acres excess property on the Stanfield Junction-Pendleton Section of the Old Oregon Trail Highway in Umatilla County for a minimum consideration of \$5,100. Approved November 8, 1977. File 39885, L-5404 (16-43).
- (5) Signed on November 8, 1977 a Grant of Access to Adeline Arlene Hathaway on the Columbia River Highway in Hood River County previously approved by Mr. Jackson October 18, 1977. File 15921 (16-45).
- (6) Renewed rider to agreement with Oregon-Washington Railroad & Navigation Company for the footpath under the Deschutes River Bridge on the Columbia River Highway in Sherman County. Approved October 31, 1977. File 35394, RR611 (16-12).
- (7) Service Contract with the Southern Pacific Transportation Company for Second Street in Albany, Linn County, Contract 77-035, RR905, Approved November 16, 1977 (16-12).
- (8) Sale of 0.30 acre excess property on the Weston-Milton Section of the Oregon-Washington Highway in Umatilla County for a minimum consideration of \$270. Approved November 21, 1977, File 29150, L-3341 (16-43).
- (9) Right of Way Services Agreement with Curry County for acquiring right of way for the Old Coast Highway-Boat Basin Road Section of the Lower Harbor Road. Approved November 25, 1977. Right of Way Agreement #84 (16-49).
- (10) Service contract with the Oregon-Washington Railroad and Navigation Company for grade crossing protection devices at N. Randolph Street in Portland, Multnomah County, Contract 76-010. Approved November 25, 1977. RR844 (16-12).

Dated this 1 day of December, 1977.
J. B. Boyd, Right of Way Manager

12-15-77

TO: Oregon Transportation Commission
SUBJECT: Report of Actions Taken Under Delegated Authority

Under delegated authority from the Oregon Transportation Commission authorizing the making of formal offers to purchase real property in preparation for condemnation (Delegation Order No. 16, Sub. 46), I approved making the following offers in accordance with this authority for and on behalf of the Commission:

COLUMBIA RIVER BRIDGE-N.E. SANDY BLVD. UNIT, COLUMBIA RIVER-PACIFIC HIGHWAY SECTION, EAST PORTLAND FREEWAY - MULTNOMAH COUNTY

R-49193 - Robert Gene Tebo et al. Parcel 1: 0.14 acre for right-of-way purposes; Parcel 2: 1,000 sq. ft. for right-of-way for widening N.E. Holman Street. Offer \$5,900.00.

R-49371 - Original Mink Oil, Inc. et al. 0.28 acre for right-of-way including its use for a frontage road. Offer \$60,600.00.

R-49681 - I. G. Voth et ux. Parcel 1: 0.12 acre for right-of-way purposes; Parcel 2: 1.18 acre for right-of-way purposes. Offer \$58,600.00.

N.E. GLISAN STREET-S.E. DIVISION STREET UNIT, COLUMBIA RIVER-PACIFIC HIGHWAY SECTION, EAST PORTLAND FREEWAY - MULTNOMAH COUNTY

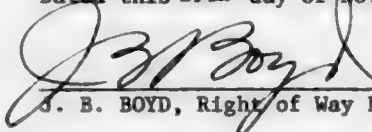

R-48344 - Arthur A. Johnson et al. Parcel 1: 6,935 sq. ft. for right-of-way including its use for relocating S.E. Washington; Parcel 2: 1,048 sq. ft. for a permanent slope easement. Offer \$53,000.00.

R-49185 - Margaret Pinnell. 624 sq. ft. for right-of-way including its use for widening N.E. Glisan. Offer \$1,850.00.

S.E. DIVISION STREET-S.E. FOSTER ROAD UNIT, COLUMBIA RIVER-PACIFIC HIGHWAY SECTION, EAST PORTLAND FREEWAY - MULTNOMAH COUNTY

R-49355 - Hubert L. Sparrow et al. 13,288 sq. ft. for right-of-way purposes. Offer \$6,800.00.

Dated this 29th day of November, 1977.

J. B. BOYD, Right of Way Engineer

RE: Report of Offers Tendered - 6

D
12-15-77

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

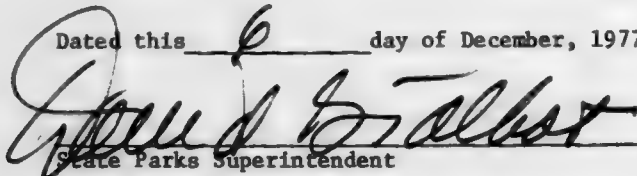

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On November 8, 1977, approved an agreement with the Southern Pacific Transportation Company granting the State the right to construct, maintain, and operate a pipeline under the tracks and right-of-way of the Southern Pacific Transportation Company's Tillamook Branch near Barview. (Agreement signed by Warren Gaskill, Deputy State Parks Superintendent, in behalf of the State Parks Superintendent.)

On November 16, 1977, approved an electric service agreement with the Tillamook People's Utility District to furnish electricity to Oceanside Beach State Wayside. The State agrees to pay the District for underground electric service in accordance with rates, rules, and regulations of the District's electric service schedule provided that the minimum amount billed shall be not less than \$3.00 per month during the first five consecutive years following the date the District completes the construction and makes the service available to the State. The State will furnish certain installations as provided in the agreement.

On November 22, 1977, approved an electric service agreement with the Tillamook People's Utility District to furnish electricity to Manhattan Beach State Wayside. The State agrees to pay the District the lump sum construction cost of \$1,019.00 and a monthly service fee of not less than \$3.00 per month during the first five consecutive years following the date the District completes the construction and makes the service available to the State.

Dated this 6 day of December, 1977.

State Parks Superintendent

TO: Oregon Transportation Commission

SUBJECT: Report of Confirmation of Action Taken Under Delegated
Authority

On behalf of the Commission and the State Highway Engineer, and under authority delegated to me in Administrative Order No. 9, I approved and signed a Petition for and Consent to Annexation to the City of John Day a portion of the John Day-Burns Highway in Section 26, Township 13 South, Range 31 East, Willamette Meridian, Grant County. I report this for the official records. (Above item was approved on November 3, 1977.)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7536 Gary Peters v. State of Oregon, Department of Transportation, Highway Division, and James Linder: This lawsuit arises out of an accident that occurred on March 9, 1976, in which the plaintiff was a passenger in his own vehicle which was being operated by the defendant James Linder. The accident occurred at the intersection of Redwood Avenue and the Redwood Highway. The vehicle in which the plaintiff was riding was struck by a tanker truck at the intersection. The plaintiff alleges that the Highway Division was negligent in not knowing that the traffic signal was malfunctioning, that it was improperly placed and improperly maintained. The lawsuit is in the amount of \$46,750 and the matter has been referred to the Attorney General's office for the defense of the state. This accident occurred in Josephine County.

L-7537 Walter M. Hulden v. Gilliam County and the State of Oregon: This case involves a suit in equity and an application for a temporary restraining order to stop the Highway Division from opening bids and awarding a contract on the Rhea County Road project. The plaintiff filed a suit in equity in the Marion County Circuit Court and asked for a temporary restraining order. The plaintiff alleged that his client would be irreparably damaged, although a condemnation action had been instituted to acquire the property, in that some of the plaintiffs' demands were not being met by the Highway Division negotiators which were negotiating for the property on behalf of Gilliam County. The complaint was filed on November 14 and the hearing was held on November 15. The court refused to allow the temporary restraining order. The complaint in equity is still pending and has been referred to the Attorney General's office for handling.

L-7539 Russell R. Boyd v. John D. Burke, State of Oregon, by and through the Department of Transportation: This involves an accident that occurred on October 30, 1976 on the northbound off-ramp for I-5 at Highway 20 in Linn County. The plaintiff alleges that his vehicle was rear-ended by a Highway Division vehicle driven by John D. Burke. The plaintiff alleges that the Highway Division driver was negligent in failing to keep a proper lookout and failing to maintain proper control of his vehicle. The plaintiff is seeking \$50,000 in damages. The matter has been turned over to the Attorney General's office for defense of the state.

L-7543 Marjorie A. Hall v. State of Oregon: This lawsuit involves an accident that occurred September 13, 1976, when a pickup truck operated by the plaintiff was going from the Morrison Bridge to I-5 northbound. The plaintiff alleges that she hit a pile of sand and lost control of the vehicle and collided with the guardrail. The plaintiff has alleged that the streets were free and dry of any ice or snow and that the State was negligent in leaving sand on the roadway. The amount of the lawsuit is \$312,000 and the matter has been referred to the Attorney General for the defense of the State.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
JANUARY 24, 1978

January 24, 1978
Salem, Oregon

The Oregon Transportation Commission met at 9 a.m. in the Director's Office, Room 135, Transportation Building. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Don Streun, Assistant Director of Administration
Walt Barrie, Chief Counsel
Jack Sollis, Assistant Chief Counsel
George Bell, Manager of Intergovernmental and Public Affairs
Larry Rulien, Assistant Director for Transportation Policy and Program Development
Harold Grover, Administrator of Motor Vehicles
H. S. Coulter, State Highway Engineer
David Talbot, State Parks Superintendent
C. W. Head, Manager, Commission Services

Mr. Grover passed out photos of the Motor Vehicles Division office in Portland. He reported to the Commission on the proposed plan to go before the Emergency Board to discuss the Portland Metropolitan Service improvement proposal for four new field offices and the remodeling of their offices in Medford and Grants Pass. Mr. Grover mentioned that Pacific Northwest Bell did a study of their telephone system to improve services at the Salem headquarters. (See page 2339.)

There was discussion about appearing before the Emergency Board concerning the mandatory liability insurance program as described in Senate Bill 967. (See page 2340.)

Mr. Burco presented pictures of the December 1977 flood damage in Tillamook County.

Mr. Talbot reported on the Tillamook Head properties.

Mr. Bell reported on his recent trip to Olympia, Washington, to obtain information from the Washington Department of Highways concerning their gas tax. There was discussion concerning Oregon's gas tax measure which is to be voted on in May of 1978.

There was brief discussion concerning the Department's delegation orders.

The Commission moved their meeting to the Conference Room 122 at 10:05 a.m. Others present were Paul Burket, Administrator of Aeronautics; Dennis Moore, Administrator of Public Transit; E. S. Hunter, Manager of Technical Services; Robert Bothman, Administrator of the Metropolitan Branch; and Glen Green, Division Administrator, Federal Highway Administration.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell: (The agreement regarding the construction of two additional ramps on the Nelson Point Interchange, Old Oregon Trail in Baker County, was removed from the agenda and not considered by the Commission.)

1) Approved the minutes of the following:

| | |
|------------------------|-------------------|
| Executive Session | December 6, 1977 |
| Workshop | December 6, 1977 |
| Formal monthly meeting | December 15, 1977 |

2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2669" on file in the Commission's files, Salem.)

3) Authorized increases in project authorizations on the following contracts:

- a. Contract No. 8464, Burchard Creek-Scott Creek Section, Umpqua Highway, Douglas County, in the amount of \$30,181.13 (6.9% increase).
- b. Contract No. 8353, West Portland Park and Ride, Pacific Highway, Multnomah County, in the amount of \$150,491.05 (6.7% increase).
- c. Contract No. 8626, Willamette River Overflow (M.P. 30.1) Bridge, Albany-Junction City Highway, Lane County, in the amount of \$29,295.75 (11.6% increase).
- d. Contract No. 8627, Willamette River Overflow (M.P. 30.4) Bridge, Albany-Junction City Highway, Lane County, in the amount of \$15,414.50 (7.3% increase).
- e. Contract No. 8432, Yachats River Bridge, Oregon Coast Highway, Lincoln County, in the amount of \$98,264 (12.2% increase).

- 4) Adopted resolution designating 0.39 miles of 1st Avenue in Junction City, Lane County, as the Junction City-Eugene Secondary Highway No. 223 and eliminating 0.69 miles from the secondary system on Birch Street and 6th Avenue (Junction City-Eugene Highway) to City of Junction City. ("Abandonment Resolution No. 569" on file in the Commission's files, Salem.)
- 5) Supplemental agreement with Lane Council of Governments for a transportation study in the Eugene-Springfield Area. Supplemental agreement covers using a balance from their FY 1977 planning funds estimated to be \$9,205.95 to supplement their FY 1978 planning activities. No additional State or Federal Funds will be required. (Authorized Chief of Operations to sign agreement.)
- 6) Approved using \$162,000 of State Construction Funds to supplement the High-Hazard Funds for construction of the Sisters Junction-East First Street (Bend) Project on The Dalles-California Highway, Deschutes County.
- 7) Authorized payment of \$150 to the National Association of State Outdoor Recreation Liaison Officers as membership dues for a calendar year.
- 8) Two requests for Safer Off-System Roads Projects as follows and authorized State Highway Engineer to sign agreements when prepared:
 - a. Request from Columbia County to construct a structure over Beaver Slough on Collins Road (McLean Bridge). Total cost \$130,000; Federal Funds \$111,800; Local Share \$18,200.
 - b. Request from Wallowa County to replace an existing steel pony truss bridge across Hurricane Creek on County Road 590. Total cost \$73,000; Federal Funds \$62,780; Local Share \$10,220.
- 9) Four requests for Federal Aid Urban System Projects and authorized State Highway Engineer to sign agreements when prepared as follows:
 - a. Request from City of Bend to signalize Division Street and Greenwood Avenue intersection and to construct a structure on Division Street over Franklin Avenue. Total Cost \$165,000; Federal Funds \$141,900; State's Share \$15,050.
 - b. Request from City of Coos Bay to reconstruct a 0.43 mile segment of 10th Street (Hemlock Avenue-8th Terrace). Total Cost \$282,208; Federal Funds \$242,700; State's Share \$19,754.

(Continued on next page)

- c. Request from Marion County for widening 0.7 miles of 45th Avenue (Satter Drive N.E.-Silverton Rd. N.E.), Salem. Total Cost \$62,000; Federal Funds \$53,320; State's Share \$4,340.
 - d. Request from Marion County for widening 1.2 miles of State Street (Lancaster Drive-Cordon Route in Salem). Total Cost \$38,000; Federal Funds \$32,680; State's Share \$2,660.
- 10) Cancelled two previously approved FAS-C Projects and approved one FAS-C Project as follows: (Authorized State Highway Engineer to sign agreement when prepared.)
- a. Request from Washington County for preliminary engineering project to prepare plans and contract documents for a project to realign Glencoe Road and West Union Road in North Plains. Total Cost \$60,000; Federal Funds \$51,600; State's Share \$4,200. The realignment of these two roads necessitates cancellation of two projects as follows:
 - 1. Burlington Northern Railroad Crossing, Glencoe Road, Project.
 - 2. McKay Creek Bridge (West Union Road) Project.
- 11) Adopted resolution formally acknowledging existence of the State Special Projects Fund Advisory Committee. (This Committee was first appointed in 1974 by the State Parks Superintendent for the purpose of recommending local government projects for Federal Grants under the Land and Water Conservation Program. Adoption of this resolution will allow members of the Committee to receive reimbursement of expenses incurred in the performance of this assignment.) "State Parks Resolution No. 41" on file in the Commission's files, Salem.
- 12) Agreement with Yamhill County for experimental transportation services in the amount of \$18,510 and authorized the Administrator of Public Transit to sign agreement.
- 13) Authorization to seek proposals from consulting firms to do project development work on the following 11 highway construction projects:

(List of projects continued on next page)

DIRECTOR'S REPORT

Mr. Burco called on Mr. Rulien to present an update on the Six Year Highway Improvement Program. Mr. Rulien referred to the program packet which was recently submitted to the Commission. He said Group 1 contains staff recommendations for Program B which was a base program that would take care of the Department's most pressing needs without voter's approval of the gas tax or registration fee increases. He stated that the format shows Program B

from the Preliminary Six Year Program used at the 39 Statewide meetings, and the recommended changes to the preliminary program are shown by lining out projects that have been advanced for contracting in fiscal year 1978 or deferred. Mr. Rulien mentioned the additions included modifications to the preliminary program. The last group of projects are those that have been previously programmed and scheduled for contracting during fiscal year 1978 but will not be ready to go to contract until fiscal year 1979. He said the second part lists by regions and in priority sequence all projects under consideration for addition to the base program (Program B).

Mr. Rulien indicated the Group 1 projects can be funded from revenue increases with voter's approval of the gas tax and registration fee increases. Group 2 are projects with high local interest and support but beyond the capability of existing and legislated highway user revenues.

Mr. Rulien mentioned that of the more than \$500,000,000 worth of projects suggested, only the most critical ones have been included in Group 2.

The last group of projects, he said, provides a final accounting of all projects from preliminary Program A that are not otherwise shown. After considerable discussion, it was decided to proceed with three programs: B, A and A+, and if both revenue measures pass, support the issue of bonds to finance A+ and identify the programs so everyone will understand. (See page 2341 for further discussion.)

Mr. Burco said delegations will be commenting on the Six Year Program later today and the official program will be submitted to the Commission for adoption at their Coos Bay meeting on February 22, 1978. (Copy of proposed program on file in the Commission's files, Salem.)

Ms. Lea Jenny, Staff Director, Legislative Interim Task Force on Transportation Policy and Funding, stated that this Committee is pleased that the Commission will be attending their meeting in Eugene on January 27. She mentioned one of the reasons for the existence of the Task Force at this time is to provide additional exposure to the Commission's financial needs and to stress the importance of the ballot measures. Ms. Jenny said the Committee reviewed the transportation policy document, discussed funding with the State Police, visited State parks and viewed beach access. She indicated that two members of the Committee went to Olympia, Washington, to take a special look at the variable gas tax and two members went to Sacramento, California, to obtain first-hand knowledge about the reorganization of the California Department of Transportation. The final meeting of the Task Force is on February 9, after which a final report will be prepared for the 1979 Legislature. She said some of the information and policies may end in bill draft form or some may indicate legislative directive. Ms. Jenney indicated that the final report should be completed by the end of March, 1978.

Mr. Burco mentioned that he and Mr. Rulien were in Washington, D. C., last week along with Department of Transportation officials from other States reviewing the Federal Highway Bill proposals.

Mr. Rulien handed to the Commission a copy of a Highway-Transit Legislation Summary of Recommendations and indicated it is a good synopsis of the major features of the bill. He reviewed the summary which covers Planning, Interstate, Federal Aid Primary, Urban Formula Grants, Urban Discretionary Grant, Small Urban and Rural Formula Grant, Safety Program, Bridge Program and Authorizations. The summary also includes Proposed Authorization Levels and Comparison of Actual Interstate (1979) and Non-Interstate (1978) Apportionments and Allocations with the Departments of Transportation's Proposed Apportionments and Allocations. (Copy of summary on file in the Commission's files, Salem.)

Attention was given to an agreement with Zimmer, Gunsul, Frasca Partnership for architectural services and a study for the Transportation Building in Salem. Mr. Streun said there is a need for the study to develop a plan to make better use of the Transportation Building now that the reorganization is complete. Following his recommendation, the Commission approved the agreement not to exceed \$9,800 and authorized the Director to sign it in their behalf.

Consideration was given to a personal and professional services agreement with Molly Harris to install an Army Corps of Engineers training information system for the Department of Transportation. Mr. Streun stated the consultant has great familiarity with the Corps program to assist the Department in making this conversion. He said the consultant will train data processing employees and will establish procedures to generate a current Training Personnel File and to maintain a Training History File. Mr. Streun said the Department has promised the Federal Highway Administration that it will develop a program to report accurately and quickly on all people that have been trained in the organization in order for reimbursement of Federal Funds for training employees. In addition, the Governor's Office has asked for reports on training of minorities and women. The Commission approved the agreement as recommended by Mr. Streun at a cost not to exceed \$3,500 and authorized the Director to sign it.

The Commission considered the appointment of Robert Burco as Highway Administrator. Mr. Streun recalled that at the last Legislature a bill was introduced that would abolish that position and transfer those duties to various other positions in the Department. The bill was included with another larger housekeeping bill and it didn't make it through the session. Mr. Streun indicated that it is planned to present it again at the next Legislature. He said in the statutes there are a number of duties that still remain for the Administrator of Highways. The Commission appointed Robert Burco as Highway Administrator.

Mr. Bell presented a tentative agenda-itinerary for the February Commission meeting in Coos Bay. He stated the Commission will arrive in North Bend by Air West around 10 a.m. on February 21. The Commission will leave shortly after by chartered plane to Gold Beach to inspect the Houstenader Creek Slide near Pistol River and on the return flight will view the North Bend Airport. After lunch at Pony Village, Mr. Talbot will brief the Commission on beach problems. The Commission will then inspect the Coquille Bypass. Mr. Bell said that the staff will arrive in Coos Bay on a chartered bus at approximately 4 p.m. He indicated a no-host dinner is scheduled with local officials at the Pony Village at 7 p.m. The Commission will meet formally at 9 a.m. on February 22 in Room B-2 of Southwestern Oregon Community College in Coos Bay. The Commission will have lunch with the Coos Bay-North Bend Chambers of Commerce and their Transportation Committees. The Commission and staff will leave Coos Bay at approximately 2 p.m.

The Commission set the date of March 28, 1978, for their monthly meeting in Salem.

OPERATIONS

Consideration was given to renaming a portion of the Coos Bay-Roseburg Highway to indicate the Wildlife Safari at Winston in Douglas County. Mr. Coulter mentioned that this matter came up in correspondence from the President of the Senate to the Director. In California, he said, they have done some signing along the freeway where there is sufficient traffic volume to show signs to a private enterprise just to handle traffic. For example, "Disneyland - Next 2 Exits" which directs traffic how to get there. Other attractions do not have signs because there are no traffic problems.

There was discussion concerning the Travel Information Council logo signs for gas, food, lodging and camping. Mr. Klaboe said there is a sign to the south on private property indicating the Wildlife Safari, but there is none to the north.

The Commission accepted Mr. Coulter's recommendation not to change the name of the Coos Bay-Roseburg Highway as it would provide an unfavorable precedent to rename sections of State highways for any private enterprise.

The Commission considered the adoption of the beach improvement standards as a permanent administrative rule. Mr. Coulter said ORS 390.655 requires that the Division adopt standards to be used in evaluating applications for beach improvement permits. After reviewing over 130 permits that have been processed since 1967, a draft of beach improvement permit evaluation criteria was presented to various local units of government and interested individuals in March 1977. He mentioned most of the

suggestions submitted were incorporated into a revised draft and a hearing was held on the revised draft on December 8, 1977. The major objection to the standards was the use of the term "develop" as contained in LCDC's Statewide Planning Goals. Mr. Coulter said under the statutes the Division is to grant where appropriate or deny applications for improvements seaward of the zone line. He stated the Division should be preserving the beaches for use by the public.

Mr. George Diel of Twin Rocks, representing the Oregon Shores Conservation Coalition and the Oregon Environmental Council, was present. He said they recommend that the Commission send the proposed beach improvement standards back to staff for rewriting because of deficiencies in both substance and language. He outlined the deficiencies. (Copy of Mr. Diel's detailed report on file in the Commission's files, Salem.) He said they would be willing to participate on an advisory task force to assist the Division in rewriting the standards to correct deficiencies so that it will serve more adequately the balanced public interest in Oregon's public beaches.

Mr. Neal Coenen, representing the Department of Land Conservation and Development, stated that his Department is requesting the Commission to delay action on the rule so their agency may have time to act on the request from the Oregon Shores Conservation Coalition and the Oregon Environmental Council to take up the issue involving the definition of "development."

The Commission deferred action on the proposed beach improvement standards.

The Commission presented to Mr. Loren Weber, Resident Highway Engineer, and his crew a plaque for their accumulation of more than 428,000 man-hours without a disabling injury. Mr. Coulter said this covers an 11-year period, a record that no other crew has achieved. Mr. Weber introduced the members of his crew:

Fred Lucht
Pete Fidler
Dan Read
Murray Colwell
Harlan Naegeli
Phil Fields
Gordon Cannan (not present)

Mr. Grover announced that there are automated driver testing machines on display in Room 120 for the Commission to view. He said they are looking into the possibility of buying these machines which would replace the written part of the driver's license exam.

The Chairman recessed the meeting at 11:50 a.m. for lunch. (The Commission had lunch with Governor Straub.)

The meeting reconvened at 1:30 p.m.

Mr. Coulter reported on the proposed Klamath Falls Port of Entry. He recalled that in April and May, 1976, letters were received from the Executive Department indicating a desirability of construction of the Port of Entry. The 1977 Legislature approved a PUC budget item of \$760,000 to provide funding of the project. The Commission at their April 19, 1977, meeting approved proceeding with the design of the project as recommended by the Public Utility Commissioner. Mr. Coulter said he is bringing this matter to the Commission's attention due to the Department's funding problems. The estimated cost of the project is \$723,000, excluding right-of-way costs. The necessary right-of-way taking (8 acres) had been originally programmed at \$40,000. He said there are some unanticipated right-of-way problems. Recent appraisals amount to \$75,000, a part of which represents damages not originally anticipated to property which contains an asphalt plant facility. The owner of this facility is asking \$450,000. Mr. Coulter handed to the Commission a report of some alternate sites that had been looked at and some of the options available to the Commission. (Copy of report dated 1-12-78 from Director of Permits to State Highway Engineer on file in the Commission's files, Salem.) (Report was given to the Commission for their information only and no decision was made by the Commission.)

Mr. Coulter mentioned that \$830,000 has been spent to date on the flood damage repairs as a result of last month's storms. None of the major expensive slide repair work has been done yet. In response to Chairman Jackson's inquiry, he stated the total cost to repair the storm-damaged highways is estimated at \$4 million and it could exceed that amount due to some major slide movements since this information was compiled for the Federal Highway Administration.

Consideration was given to the adoption of a resolution creating an Aviation Advisory Committee. Mr. Burket pointed out that the Committee would advise him on policy matters relating to aeronautical activities. He said the Committee would also help improve communications between individual members of the aviation community and the State. Upon his favorable recommendation, the Commission adopted "Aeronautics Resolution No. 14" which is on file in the Commission's files, Salem.

PUBLIC COMMENTS

Mr. David Reinhard, Planning Engineer, City of Eugene, appeared before the Commission requesting improvement of Highway 99W (Pacific Highway West) from Barger Avenue to the central business district of Eugene, including the 6th and 7th Streets Couplet. He showed slides of these sections pointing out the pavement breakup, high crown, poor drainage, bicycle traffic and the traffic volume.

Mr. Reinhard asked that the letter sent to the Department from the Mayor of Eugene pertaining to the Six Year Program be entered into the Commission's records.

He mentioned the east-west corridor and an unbuilt freeway are very similar to the situations in Portland and Salem, but without the benefit of the interstate transfer. He referred to the Six Year Program report covering the high-priority bond projects in Region 3 and others. He felt there was an error in the Program in terms of how the priorities were ordered.

Mr. Reinhard asked that the staff and Commission delay the process a month if necessary in order to be sure that the program as presented at this time and as finally adopted really constitutes priorities and carries over programs that were true priorities of the local jurisdictions in the past.

Mr. Rulien commented that he does have a current listing of the City's priorities and will look at the preliminary program and at the question of bonding priorities.

Mr. Del Robertson, Construction Coordinator with Josephine County, came before the Commission regarding the Third Bridge Project in Grants Pass (Foothill Boulevard-Rogue River Highway Section of Redwood Highway Spur). He said that he is also representing the local community and the Third Bridge Citizen's Advisory Committee. Mr. Robertson referred to Page 30 of the Preliminary Six Year Program. He said the proposed project is to link I-5 with the Redwood Highway Interchange. Interstate 5 bounds the City of Grants Pass on the north and northeast. The Rogue River bounds the southerly city limits. The business district and emergency services within the community are all generally north of the river. He stated 55% of the County's population which utilizes those services are south of the river, and the Redwood, Jacksonville and Rogue River Highways all enter the Grants Pass urban area south of the river. He mentioned the two existing bridges carry traffic volumes 45 to 50 percent in excess of design capacity.

Mr. Robertson said they are concerned about the funding and the placement of the project on the Six Year Program. He mentioned that they have placed \$250,000 in a bridge reserve fund to be used as needed, and it is the intention of the local community to budget additional dollars this spring for local participation as needed.

Mr. Robertson recalled, at the preliminary hearing that was held last fall in Grants Pass, the local suggestion was that preliminary engineering design, right-of-way acquisition and relocation be placed on the Six Year Program as a phase of the project in Program B, as well as Program A.

Mr. Klaboe stated that it can be done by programming with the Federal Government in stages. The Division has done a lot of preliminary engineering and the environmental impact statement already. He said the next step is a corridor hearing which is just about ready. There was discussion concerning the funding.

Mrs. Paula Bentley, Councilwoman from the City of Gresham, appeared before the Commission concerning the 190th and Powell Boulevard Project. Mrs. Bentley stated that the Six Year Program hearing last year covered this intersection. In 1977, she said, the Division installed a traffic light a half a mile away at an intersection that had only 10,000 cars going through it daily, whereas this intersection has 11,000 vehicles a day. She mentioned when the Six Year Plan came out, the City and the Division got together to work up a project that would be acceptable. Mrs. Bentley said the Division took the project and came up with a \$6.2 million job which is displayed on the wall map. She pointed out the main problem is that Powell Boulevard takes a dip and comes down to where 190th intersects and takes a 50° curve. To do the project properly requires the taking of some right of way and laying a small amount of roadway bed. She said a four-lane facility or a structure over the railroad is not needed. She indicated the Division is now recommending a project that is estimated at \$800,000. Mrs. Bentley said to do the job properly requires the purchase of some right of way for a two-lane facility, at grade, estimated cost of \$2 million, which fits into the transportation plan for the whole region. The Chairman told Mrs. Bentley that the staff will again review the project.

Mr. Michael Palanuk, Superintendent of the Pleasant Hill Public Schools, came before the Commission requesting additional signing on Highway 58 (Willamette Highway, Lane County) in their school district to help reduce the number of accidents. He handed to the Commission a report entitled "Highway 58 Improvement Recommendations". (Copy of report on file in the Commission's files, Salem.)

Mr. Palanuk stated last year there were 61 accidents on this highway, two of which were fatalities. He indicated concern for the safety of the school children and he pointed out that there are 7,000 vehicles a day traveling through the area. There are 22 intersections in a 10-mile stretch, and this section is where most of the accidents occur. Mr. Palanuk said it is the combination of speed, left turns and intersections.

Mr. Palanuk referred to the Six Year Plan stating that in the reconstruction of Highway 58 (Goshen-Dexter Section) that consideration be given to the installation of refuge lanes to help eliminate accidents.

January 24, 1978

- 2335 -

Mr. Coulter mentioned that he would look into the signing and the enforcement of the existing speed laws. Chairman Jackson said the staff would review his recommendations to see what can be done.

Mr. John McIntyre, Director of Public Works, Clackamas County; Mr. Stan Skoko, Clackamas County Commissioner and Mr. Dave Baldwin, District Manager of Southern Pacific Railroad Company, appeared before the Commission concerning the placement of Highway 212 (Clackamas-Boring Highway) on the Six Year Program. Mr. McIntyre reviewed the history of the highway and indicated approximately a month ago Clackamas County sent a check to the Highway Division for over \$20,000 as match money from the Mt. Hood Freeway funds to complete the preliminary engineering for this highway and to complete the environmental assessment. He said the County is hoping the Division will follow up and see that the facility is constructed. He suggested moving Map Index Project Nos. 183, 184 and 185 as shown on the proposed Six Year Plan to fund Highway 212. Mr. Klaboe indicated that it cannot be done, as they are forest highway funds.

Mr. Baldwin stated that his company has a vital concern in the Highway 212 project. He pointed out that the project has had funding on two separate occasions and the rules have been changed, and as a result the funding has been lost. He mentioned substantial developments are still going on in the Clackamas area. He mentioned the Sweetheart Cup warehouse, the Fred Meyer project, and that Safeway Stores are constructing a regional office building. Mr. Baldwin said there are two projects on the drawing board now that involve Southern Pacific. He stated that Highway 212 is the main access to the rapidly growing residential areas in Carver, Damascus and Boring, and is heavily used as access to Mt. Hood and Central Oregon. He stated the widening of this highway between I-205 and the Carver cut-off would be the most justifiable use of the Mt. Hood Freeway funds, in view of the significant impact on Highway 212 resulting from the absence of the Mt. Hood Freeway. He asked that the State make this their number one priority project.

Mr. Skoko commented on the traffic congestion on the highway, and said the County has done a substantial amount of work on this highway. He referred to a letter from the Highway Division, Region 1 Office, dated March 25, 1975, which stated a field survey is being completed for four-laning this section of highway and that a public hearing will probably be held by the end of 1975, and if favorable reaction is received the selected design will be submitted to the Transportation Commission and the Federal Highway Administration for approval. He mentioned that nothing has been done and there are still traffic problems on this highway.

Mr. Burco stated this is another example of the problems in the Federal program and the Federal funding levels. First of all, the change in the categories that this highway has gone through over two or three years, which is one of the key elements. The highway is now on the State Primary System. He said the primary and urban systems are the most underfunded categories in the Federal Aid Program.

Commissioner Walsh commented on Programs B and A and some additional projects as a result of the 39 Statewide meetings that should be added to Program A. He said this program is an absolute necessity and is dependent upon the passage of two revenue measures in May and November of this year. Mr. Walsh stated it is going to take a lot of effort from the Commission, the counties, and every citizen in the State to raise \$200 to \$250 million over the next six years to do these projects. If the measures do not pass, the Department has some very serious problems.

The Chairman said without additional funds, the project cannot be done unless a revision is successful of CRAG's determination as to the use of the withdrawal funds.

Mr. John Crockett, Director of Public Works, Washington County, came before the Commission concerning the serious problems that exist at Highway 217 and the Sunset Highway 26 Interchange. He mentioned the regional hospital, both freeways, and a county road that carries an excess of 15,000 vehicles a day. The Chairman said the Commission and staff are aware of the situation at this interchange, and are trying to work out a solution to solve the problem.

Members of the 20 Miracle Miles Chamber of Commerce consisting of Henry Wolf, Charles Lurcott and Frederick Friedli from Lincoln City appeared before the Commission regarding the improvement of Highway 18 (Salmon River Highway) in Polk and Lincoln Counties. Mr. Wolf requested that the Commission include Highway 18 and related Highway 101 improvements in Program B. He referred to their November 1977 letter to Mr. John Sheldrake pointing out the volume of traffic and the accidents that have occurred on this highway. (Copy of letter to Mr. Sheldrake and copy of letter dated 1-23-78 to Mr. Jackson on file in the Commission's files, Salem.)

Mr. Wolf said that the 1976 average daily traffic was 8,067 on Highway 18, and it is the most heavily traveled east-west coast highway in the State. Projecting to 1982, he said, the average daily traffic would be approximately 13,000 vehicles. He indicated that the Highway 18 Committee is in favor of the gas tax proposals.

Mr. Friedli, Lincoln City Councilman, said they don't get much money from the gas tax because of their low population, however, they do get visitors and vehicle miles.

Chairman Jackson thanked the gentlemen for their statements and said projects can happen if the two ballot measures pass later this year.

Attention was given to an agreement with the Army Corps of Engineers for development of recreational facilities at Fort Stevens State Park in Clatsop County. Mr. Talbot said the proposed cost-sharing agreement would continue the clean-up and restoration of these batteries that was initiated with a CETA grant in 1975. It would provide an access road, parking area, restroom facilities, bicycle and pedestrian trails, visitor interpretation and a visitor's information center. The estimated cost for the proposed development is approximately \$2 million. He said the agreement provides for a 50-50 cost-sharing agreement between the State and the Corps of Engineers. Mr. Talbot pointed out that the 1977-79 legislatively-approved budget includes development money for the park. State funds in the amount of \$150,000 plus \$100,000 credit for work already done would be matched with \$250,000 of the Corps money to provide a \$400,000 project to accomplish Phase 1. Following his favorable recommendation, the Commission approved the agreement.

Mr. Talbot recalled that in June 1977, the Commission had authorized the Parks Branch to apply to the Economic Development Administration for Title I Funds for construction work at various project sites. He said authority to apply for the funds was also given by the Emergency Board, and EDA subsequently approved seven parks projects totaling \$1,240,000. Bids were obtained and the estimated costs on three of the following projects were in excess of the amounts approved by the Emergency Board and the EDA as follows:

| <u>Project</u> | <u>Approved
Project Cost</u> | <u>Estimated
Cost</u> |
|-------------------|----------------------------------|---------------------------|
| Wolf Creek Tavern | \$600,000 | \$810,000 |
| Manhattan Beach | 175,000 | 229,405 |
| Cape Meares | 45,000 | 50,800 |

He said the costs over the approved EDA grant costs total \$270,205. Of this amount \$74,291 relates to project inspection costs which were determined by EDA not to be reimbursable under the approved grants. Non-reimbursable project inspection costs on the remaining four projects total \$29,938. He continued that the funds required to cover the excess project costs, including non-reimbursable costs total \$300,143. He said that the Parks Branch is currently discussing with EDA the possibility of using funds surplus to other DOT EDA-approved projects. If successful, these surplus funds could be used to cover \$150,332 of these costs. The remaining \$149,810 of non-reimbursable project costs would have to be funded from the Parks' construction budget.

The Commission authorized Mr. Talbot to appear before the March 1978 Emergency Board to obtain a Federal Funds Budget limitation increase to permit the use of surplus Title I funds if the Economic Development Administration so approves. The Commission also granted authority to use construction funds from the 1977-79 legislatively-approved State Parks' budget to cover the non-reimbursable inspection costs as well as the excess project costs in the event that EDA does not approve the use of surplus funds.

The Commission considered a request from Mr. and Mrs. Martin Bauer of Grants Pass to build a residence within the Cathcart River Community Area of the Rogue River Scenic Waterway in Josephine County. Mr. Talbot stated the site is on the left bank about one mile downstream from Robertson Bridge and is 420 feet from the river bank which is partially screened by trees. The structure would be visible from the river, which is acceptable under the rules in this classified river community area where no density standards are in effect. The Commission approved the request as recommended by Mr. Talbot.

Consideration was given to a request from the Willamette Valley Rail Study Committee that they be designated as the Steering Committee for Oregon's portion of the West Coast Corridor Study. Mr. Moore stated that the length of this designation will be until a final report is submitted to the Federal Railroad Administration, approximately June 1978. The Committee will be responsible to insure that the multi-modal nature of the West Coast Corridor Study is preserved. The Commission approved the request as recommended by Mr. Moore.

The Commission considered a request for staff to appear before the Emergency Board on behalf of the Willamette Valley Rail Study Committee for release of \$138,630. These funds would be used for committee expenses, staffing (including establishment of a limited duration Administrative Assistant 2 position) and for consulting help. Mr. Moore stated that Senate Bill 999 created the nine-member Committee and appropriated \$150,000 to the Emergency Board for release to the Public Transit Division to carry out Committee directives relating to this study. The Committee approved a draft work program and budget at their January 10, 1978, meeting for the remainder of the biennium. Following Mr. Moore's favorable recommendation, the Commission approved the request.

The Commission authorized staff to go before the January 1978 Emergency Board to discuss the need for improvement of the Motor Vehicles Division offices in the Portland Metropolitan Area, Grants Pass and Medford.

Attention was given to a request to appear before the March 1978 Emergency Board regarding the mandatory liability automobile insurance program. The request is for an increase in expenditure of \$650,735 and additional positions for implementing Senate Bill 967. Mr. Grover outlined the requirements of the Division in the bill as follows:

- 1) To have evidence of motor vehicle liability insurance or other evidence that financial responsibility has been established for a motor vehicle prior to initially registering that motor vehicle or issuing or transferring a certificate of title for that motor vehicle.
- 2) To have a certificate stating that a vehicle has coverage that complies with the Financial Responsibility Law, signed by the owner, prior to renewal of the registration of that motor vehicle.
- 3) To verify insurance coverage on all motor vehicles involved in accidents.
- 4) To verify the insurance coverage stated on the certificates on a random sample basis.
- 5) To notify the owner of a motor vehicle if his insurance coverage is not verified. (If the owner cannot verify coverage, the owner becomes subject to the Financial Responsibility Law and must maintain proof of financial responsibility with the Division for a period of three years.)
- 6) To suspend an owner's right to operate a motor vehicle if the owner does not furnish proof of financial responsibility.

The Commission gave their approval for Mr. Grover to appear before the March 1978 Emergency Board.

Mr. Grover reported that his Division has been working with the banking industry (U. S. Bancorp) exploring ways to introduce business procedures and techniques in the cash management program. He said they have been looking at a lock box concept of handling fuels tax money that is collected. Mr. Grover mentioned that they have been looking at a computer model to help the Division determine better locations of its field offices.

There was further discussion pertaining to the Six Year Highway Program. The Commission agreed to the principles and method by which the program was presented and discussed earlier in the day which contains Programs B, A and A+ as follows:

Program B: Based upon current revenue sources

Program A: Based upon current revenue plus revenue from the two-cent gas tax and \$10 vehicle registration increases.

Program A+: Based upon sale of bonds or other additional revenue above that from current sources and the gas tax and vehicle registration fee increases.

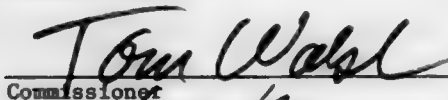

It was agreed by the Commission, if both revenue measures pass, to support the issuance of bonds. (See pages 2328 and 2329 for previous discussion.)

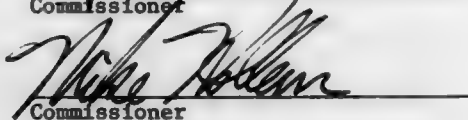

The Chairman adjourned the meeting at 3:30 p.m.

REPORT OF CONFIRMATION OF ACTION TAKEN UNDER DELEGATED AUTHORITY

No. 1 Project Wolf Creek Inn (Contract No. 8633)
Type of Work Building Restoration F.A. Proj. No. 07-51-23766
County Josephine Highway ---
No. of Bidders 3 Low Bidder J. B. Steel, Inc., Medford
Alt. "C" 528,003.00
Low Bid S. ---

Engineer's Recommendation: Two of the three bids that were submitted were very close on all three alternatives. It would appear that there was good competition and that the bids fairly establish a reasonable cost for the project. This contract is Phase 1 of two phases for the total project. Award of Alternate "C" will permit a subsequent contract for Phase 2. Award to low bidder.

No. 2 Project Pacific Hwy. East at SE River Rd. (Milvaukie)
Type of Work Traffic Signal (Contract No. 8634)
F.A. Proj. No. TQF-26(9)
County Clackamas Highway Pacific East
No. of Bidders 4 Low Bidder Olson Electric Company, Vancouver, WA
Low Bid S. 40,716.00

Engineer's Recommendations: Award to low bidder subject to concurrence of FHWA.

No. 3 Project Sandy West City Limits-Alder Creek
Type of Work 9.7 Miles Paving F.A. Proj. No. F-24(11)
County Clackamas Highway Mt. Hood
No. of Bidders --- Low Bidder ---
Low Bid S. ---

TO: Oregon Transportation Commission

SUBJECT: Report of Confirmation of Action Taken Under Delegated
Authority

On December 6, 1977, I approved the award of the contract to the second low bidder, Hamilton Electric, Inc., in the amount of \$29,446.80 for the Murray Boulevard at Butner Road, Job No. 17, Washington County, on which bids were received November 17, 1977. (Legal Counsel advised State Highway Engineer that low bidder, Olson Electric Company, Inc., who bid \$24,930, made a patent error and all elements necessary to allow them to withdraw their bid bond were present.)

Authorization was given to State Highway Engineer to award contract to Hamilton Electric, Inc., subject to concurrence by the Federal Highway Administration and Washington County and when the County deposits \$3,700. (Deposit amount was later changed to \$3,860).

Project will be issued Contract No. 8649. (See page 2347)

(2) Supplemental agreement with Chem-Pure West, Inc., covering the sewage treatment facilities in Manzanita Safety Rest Area on the Pacific Highway, Josephine County. Supplemental disposes all outstanding bills incurred by both parties and makes certain changes in the sewage disposal facility.
(Structures) (Contract No. 7883)

(3) Revised agreement with State of Washington pertaining to the development of contract plans and construction of a bridge across the Columbia River in the vicinity of Portland, Oregon, and Vancouver, Washington, (Interstate 205 Bridge). (Agreements dated 10-21-69 and 5-29-74 shall be null and void on the date the revised agreement becomes effective.)
(Structures)

(4) Agreement with City of Reedsport for installation of traffic signals on the Oregon Coast Highway at 22nd Street, Douglas County. State will design, install and maintain the signal equipment utilizing Federal Aid Title II Safety Funds. The City has agreed to pay all costs of electrical energy consumed. (Local Government Unit)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approve all actions listed above and report this action for your official records.

MINUTES OF 1-24-78

REPORT OF CONFIRMATION OF ACTION TAKEN UNDER DELEGATED AUTHORITY

No. 1 Project Skipanon River (Warrenton) Bridge
(Contract No. 8651)
Type of Work Gr., Pave, Str., Sign & Illum. F.A. Proj. No. RS-134(2)
County Clatsop Highway Warrenton-Astoria
No. of Bidders 5 Low Bidder Ross Bros. Construction Inc., Salem
Low Bid \$ 1,271,927.50

Engineer's Recommendation: The three low bidders were within a 5% range. The main differences in the proposals and engineer's estimate was the items of driving piles and added cost due to stage construction. It is doubtful that a lower bid would be received and recommend it to be awarded to the low bidder.

No. 2 Project Shore Acres State Park
(Contract No. 8652)
Type of Work Toilet Building F.A. Proj. No. EDA 07-51-23613
County Coos Highway Cape Arago
No. of Bidders 4 Low Bidder Baughman & Son, Inc., Coos Bay
Low Bid \$ 80,199.75

Engineer's Recommendations: Award to low bidder.

No. 3 Project Oregon Coast Hwy. @ Shopping Center Ave. (MP 358.6)
(Contract No. 8653)
Type of Work Traffic Signal F.A. Proj. No. TQF-2-1(3)
County Curry Highway Oregon Coast
No. of Bidders 3 Low Bidder Hamilton Electric Inc., Eugene
Low Bid \$ 35,109.80

Engineer's Recommendations: Award to low bidder subject to concurrence of the FHWA.

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following actions and report this action for your official records:

- 1) On December 21, 1977, approved the following guidelines and working agreements in keeping with the Oregon Action Plan and FHA rules and regulations, and authorized the Assistant Director for Operations to sign agreements:
 - a) League of Oregon Cities covering the Special City Allotment Program.
 - b) League of Oregon Cities and Association of Oregon Counties covering the Federal Aid Urban System Program.
 - c) Association of Oregon Counties covering Federal Aid Secondary-County Program.
 - d) Association of Oregon Counties and League of Oregon Cities covering Federal Aid Safer Off-System Roads Program.
- 2) On December 21, 1977, authorized the Assistant Director for Operations to spend whatever funds are necessary to repair the highways damaged by the recent heavy rains in Oregon, particularly in Tillamook County, retroactive to the beginning of the recent storm.

I also authorized the hiring of private contractors to work for the Department concerning emergency repair work.
- 3) On December 23, 1977, approved an agreement with Lincoln County to allow them to obtain rock in Iron Mountain Rock Quarry. Agreement allows County joint use of the quarry to drill and shoot rock and to crush rock. County will pay State 25¢ per cu. yd. for materials used. State has right to remove any materials loosened or crushed by County upon payment of actual cost to County.

1-24-78

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On December 7, 1977, established a 25 MPH speed zone on the Halfway-Cornucopia Highway in Baker County from M.P. 10.70 to M.P. 11.04, north city limits of Halfway. (Speed Zone Order No. 765)
- 2) On December 9, 1977, established a 40 MPH speed zone on the Jefferson Highway, north of City of Jefferson, Marion County, from M.P. 4.78 to M.P. 5.28. Rescinds Speed Zone Resolution No. 247 dated 3-28-57. (Speed Zone Order No. 766)
- 3) On December 8, 1977, approved a traffic pattern change on the Woodburn-Estacada Highway at Meadowbrook Junction from M.P. 16.39 to M.P. 16.43 in Clackamas County. This would involve routing of all westbound traffic to the intersection with Meadowbrook Road and Union Mill Road. Westbound highway traffic would be stopped at that point. This would necessitate through westbound traffic to stop and make a left turn. The eastbound traffic would continue to use the current alignment for a free right-hand turn. This would involve stopping through highway traffic.
- 4) On January 10, 1978, prohibited parking of unattended vehicles on the Santiam Highway between Tombstone Summit and Summit Trail in Linn and Jefferson Counties as follows:

| | |
|-------------------------------|------------|
| From M.P. 63.67 to M.P. 63.76 | South Side |
| From M.P. 75.70 to M.P. 75.85 | South Side |
| From M.P. 76.96 to M.P. 77.06 | South Side |
| From M.P. 80.15 to M.P. 80.80 | South Side |
| From M.P. 82.09 to M.P. 82.20 | South Side |
| From M.P. 82.09 to M.P. 82.34 | North Side |
- 5) On January 11, 1978, established a "NO PARKING" zone on the southwest side of the Rogue Valley Highway from M.P. 9.96 to M.P. 10.04 north of the city limits of Phoenix, Jackson County.

Dated this 17 day of January, 1978

State Highway Engineer

TO: Oregon Transportation Commission

SUBJECT: Report of Confirmation of Action Taken Under
Delegated Authority

On behalf of the Commission and under its delegated authority to me,
I awarded the following contracts:

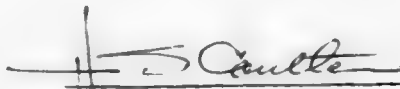

- 1) Work on the Rhea Road Relocation Unit of the John Day Highway-Heppner Highway Section of FAS B452 in Gilliam County. Bids received November 17, 1977. Contract No. 8639 awarded December 12, 1977, to Jarl Construction, Inc., The Dalles, at \$331,799.
- 2) Traffic signal installation on Murray Blvd. at Butner Road in Washington County. Bids received November 17, 1977. Contract No. 8649 awarded December 12, 1977, to Hamilton Electric, Inc., Eugene, at \$29,446.80.
- 3) Traffic signal installation on the Oregon Coast Highway at Shopping Center Avenue (MP 358.6) in Curry County. Bids received December 14, 1977. Contract No. 8653 awarded December 19, 1977, to Hamilton Electric, Inc., Eugene, at \$35,109.80.
- 4) Work on the N. Oakland Interchange-Sutherlin Interchange Section of the Pacific Highway in Douglas County. Bids received December 14, 1977. Contract No. 8654 awarded December 19, 1977, to S. D. Spencer & Son, Vancouver, Washington, at \$3,374,976.38.
- 5) Work on the Rogue Valley Highway at Mountain Avenue Section in Ashland, Jackson County. Bids received December 14, 1977. Contract No. 8656 awarded December 19, 1977, to Sims Electric of Medford, Inc., Medford, at \$72,397.50.
- 6) Traffic signal installation on the Goshen-Divide Highway at 6th Street in Cottage Grove, Lane County. Bids received December 14, 1977. Contract No. 8658 awarded December 19, 1977, to Hansen Electric Co., Coos Bay, at \$49,990.
- 7) Traffic signal installation on the Redwood Highway at Fairgrounds Road in Grants Pass, Josephine County. Bids received December 14, 1977. Contract No. 8657 awarded December 19, 1977, to Hamilton Electric, Inc., Eugene, at \$54,503.20.
- 8) Traffic signal installation on 7th Avenue at Monroe Street in Eugene, Lane County. Bids received December 14, 1977. Contract No. 8660 awarded December 19, 1977, to Hamilton Electric, Inc., Eugene, at \$24,275.

B

1-24-78

- 9) Grading on the N.E. Marine Drive-N.E. Holman Street Section of the East Portland Freeway in Multnomah County. Bids received December 14, 1977. Contract No. 8663 awarded December 19, 1977, to Osberg Construction Co., Seattle, Washington, at \$823,755.25.
- 10) The McKay Creek (Hornecker) Road Bridge in Washington County. Bids received December 14, 1977. Contract No. 8664 awarded December 27, 1977, to Columbia Pacific Construction Co., Lake Oswego, at \$154,085.
- 11) Traffic signal installation on the Sunset Highway at Murray Blvd. Interchange in Washington County. Bids received December 14, 1977. Contract No. 8665 awarded December 19, 1977, to Hamilton Electric, Inc., Eugene, at \$30,848.80.
- 12) Work on the E. 17th Avenue-I-5 Interchange Section of FAU 1185 (Glenwood Blvd.) in Eugene, Lane County. Bids received December 14, 1977. Contract No. 8666 awarded December 19, 1977, to Wildish Construction Co., Eugene, at \$622,919.91.

DATED this 12th day of January, 1978.

State Highway Engineer

MINUTES OF 1-24-78

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Action Taken Under Delegated Authority

A consultant agreement with Molly Harris for professional services involved in a review of the proposed equipment and storeroom management system as submitted by Cresap, McCormick & Paget, consultant to the Federal Highway Administration, in light of existing State of Oregon practices and compare it with the storeroom management study consultant prepared for the State during 1975. The cost will be \$500 to be paid to the consultant covering a three-day period from December 28 through 31, 1977.

Pursuant to authority delegated to me, I approved on December 30, 1977, the above consultant agreement and report this action for the Transportation Commission's records.

Dated this 30th day of December, 1977

C. T. Keasey, Acting State Highway Engineer
on behalf of H. S. Coulter, State
Highway Engineer

WEIGHT RESTRICTIONS FOR ROCKY CREEK BRIDGE

A. What this rule does:

This rule prohibits motor vehicles weighing in excess of 6,000 pounds to use the Rocky Creek Bridge located at M.P. F130.03 on the Oregon Coast Highway in Lincoln County.

B. Statutory Authority and Procedure:

ORS 487.905 gives to the Department of Transportation the authority to impose weight limits on vehicles which in the judgment of the Department are necessary to protect any section of highway from being unduly damaged. This authority has been specifically delegated to the State Highway Engineer.

This rule has been adopted in accordance with the Administrative Procedure Act. Public notice of rulemaking was given by the Department of Transportation in the Secretary of State's Bulletin on September 15, 1977. A hearing was held on the rule on October 12, 1977, and the rule was adopted by the State Highway Engineer on December 30, 1977. A certified copy of the rule was filed with the Secretary of State on December 30, 1977.

C. Weight Restriction:

1. It has been determined by the staff of the Oregon Department of Transportation that severe cracking and spalling of the concrete due to corrosion of the reinforcing steel has deteriorated the structure of the Rocky Creek Bridge beyond economic repair. Further, the Department has determined that weight restriction of 6,000 pounds is necessary to protect the bridge from being unduly damaged and to insure the safety of the traveling public.

2. Vehicles weighing in excess of 6,000 pounds shall not use the Rocky Creek Bridge on the Oregon Coast Highway, (frontage road) in Lincoln County at M.P. F130.03.

3. The Highway Division shall immediately post this weight restriction in a conspicuous manner at both ends of the Rocky Creek Bridge and at such other places as may be necessary to inform the users of the Oregon Coast Highway of these restrictions.

4. This rule shall become effective December 30, 1977.

The Oregon Transportation Commission by a duly adopted delegation order, authorized the State Highway Engineer to act in its behalf in approving this rule.

APPROVED AS TO FORM:

Assistant Attorney
General

State of Oregon, by and through its
Department of Transportation,
Highway Division

Acting State Highway Engineer

January 1978

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Right of Way Engineer (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Sale of 5530 square feet excess property on the West Linn-Pacific Highway Section of the East Portland Freeway in Clackamas County for a minimum consideration of \$4,500.00. Approved April 4, 1977. File 40795 (16-43).
- (2) Sale of 4.49 acres excess property on the Goshen-Divide Section of the Pacific Highway in Lane County for a minimum consideration of \$7,500.00. Approved December 1, 1977. File 20491 (16-43).
- (3) Sale of 3.35 acres excess property on the Winston-Shady Interchange Section of the Coos Bay-Roseburg Highway in Douglas County for a minimum consideration of \$18,200.00. Approved December 1, 1977. Files 3102 and 3103 (16-43).
- (4) Agreement with Burlington Northern for a Permit of Entry to their property on the Skipanon River Bridge Section of the Warrenton-Astoria Highway in Clatsop County. Approved December 9, 1977. File RR906 (16-12).
- (5) Termination of Private Crossing Agreement with the Southern Pacific Transportation Company on the Florence-Eugene Highway in Lane County. Approved December 9, 1977. File 28803 RR520 (16-12).
- (6) Service Contract with the Oregon-Washington Railroad and Navigation Company for grade crossing protection devices at N.E. 158th Street near Hemlock in Multnomah County. Contract 77-036 approved December 16, 1977. RR907 (16-12).
- (7) Sale of 50,000 square feet of excess property on the Harbor Drive-Barbur Blvd. Section of the Pacific Highway in Multnomah County for a minimum consideration of \$6,000.00. Approved October 29, 1976. Files 21003 and 24828 (16-43).
- (8) Right of Way Services Agreement with the City of LaGrande in connection with the acquisition of the 2nd Street Viaduct Project, Union County. Approved December 22, 1977. Right of Way Agreement 85 (16-49).
- (9) Sale of 3.1 acres excess property on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County for a minimum consideration of \$6,000.00. Approved December 29, 1977. Files 20310 and 20326 (16-43).

1-24-78

Report of January 1978 (cont.)

- (10) Sale of 1.47 acres excess property on the Hermiston-Hinkle Section of the Hermiston Highway in Umatilla County for a minimum consideration of \$2,000.00. Approved December 23, 1977. File 3758 (16-43).
- (11) Signed on January 4, 1978, a Grant of Access to D.V. Foxx on the Biddle Road-Camp White Section of the Crater Lake Highway in Jackson County. Approved by Mr. Jackson December 9, 1977. File 37601 (16-45).
- (12) Sale of 2.05 acres excess property on the Salem Bypass Section of the Pacific Highway in Marion County for a minimum consideration of \$3,800.00. Approved January 3, 1978. Files 19753 and 40003 (16-43).
- (13) Sale of 0.02 acre excess property on the Ava Avenue-S.E. Burnside Road Section of the Mt. Hood Highway in Multnomah County for a minimum consideration of \$1,000.00. Approved January 5, 1978. File 44804 (16-43).
- (14) Sale of 4.0 acres excess property on the Pleasant Valley-Green Timber Road Section of the Oregon Coast Highway in Tillamook County for a minimum consideration of \$2,000.00. Approved January 6, 1978. File 46842 (16-43).
- (15) Sale of 2.987 acres excess property on the West Salem-Brunks Corner Section of the Willamina-Salem Highway in Polk County for a minimum consideration of \$16,500.00. Approved January 9, 1978. File 1293 (16-43).
- (16) Sale of 4,500 square feet of excess property on the Russell Street-Curry Street Section of the Pacific Highway in Multnomah County for a minimum consideration of \$13,500.00. Approved September 12, 1977. Files 28250 and 28251 (16-43).

1-24-78

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following agreements and report this action for your official records:

On December 5, 1977, approved the extension of a lease agreement with Duane Wiggins to operate the Wallowa Lake State Park marina concession for a five-year period ending December 31, 1982.

On December 16, 1977, executed release of easement to relinquish an easement to construct a bridge across McVay Creek, Curry County, on the property of Karl Clinkinbeard adjacent to the south boundary line of McVay Rock State Wayside. This access is not needed because of a county road which provides public road frontage for the park property.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7553 Mary Young v. Highway Division, et al: This lawsuit arises out of an accident that occurred on December 19, 1975 on I-5 near MP 220 approximately 3.6 miles north of the intersection of State Highway No. 228 and I-5 and approximately 13 miles south of Albany. The plaintiff alleges that the highway in the vicinity of the accident was icy and that there was a bump in the highway which caused her to lose control of her vehicle and collide with a guardrail and then was subsequently struck by several other vehicles. The plaintiff has named the drivers of the other vehicles as well as several Highway Division employees as party defendants. The plaintiff alleges that she suffered personal injuries in the amount of \$52,262.74 and that her vehicle was damaged in the amount of \$1,800. The case has been referred to the Attorney General's office for the defense of the State and the state employees.

L-7554 Edith I. Kaplan v. Robert J. Wilson, et al: This case arises out of an accident which occurred within the limits of a construction project (Contract No. 8413) and involved a collision between the vehicle driven by the plaintiff and the vehicle driven by Robert J. Wilson, one of the defendants. The plaintiff alleges that the State and the contractor (Peter Kiewit & Sons) were negligent in failing to post adequate signs and notices along S.W. First Avenue, S.W. Front Avenue and the southbound ramp of the Steel Bridge, warning northbound traffic that the ramp was restricted to one-way traffic southbound. The lawsuit is in the amount of \$104,232.73. The matter has been referred to the Attorney General for the defense of the State.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
FEBRUARY 21 - 22, 1978

February 21, 1978
North Bend, Oregon

The Oregon Transportation Commission made an aerial inspection of the North Bend Airport Extension and viewed an Air Oregon plane. There was a sack lunch at the Coast Guard Station in North Bend and a briefing on the North Bend Airport Extension issue. The Commission then viewed the section of the proposed Coquille Bypass in Coos County. A no-host dinner was held at Pony Village Motor Lodge, North Bend, with officials from the cities of Coos Bay and North Bend, county officials, legislators and other interested persons in the area.

February 22, 1978
Coos Bay, Oregon

The Oregon Transportation Commission met at 9 a.m. in Room B-2 at the Southwestern Oregon Community College in Coos Bay. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Don Streun, Assistant Director of Administration
Larry Rulien, Assistant Director for Transportation Policy and Program Development
George Bell, Manager of Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
Dennis Moore, Administrator of Public Transit
Warren Gaskill, Deputy Parks Superintendent
Jack Sollis, Assistant Chief Counsel
Alfred Shirley, Region III Engineer
Bill Hayden, Manager of Policy Development Section
C. W. Head, Manager, Commission Services

(There were approximately 80 persons in attendance.)

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of January 24, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2670" on file in the Commission's files, Salem.)

3) Surveys on the following highways:

- a. Martin Creek-Comstock Section, Pacific Highway, Lane and Douglas Counties. A portion of the Goshen-Divide Highway and its connections to the Pacific Highway are being relocated. ("Highway Corridor & Design Resolution No. 426" on file in the Commission's files, Salem.)
 - b. North Unit, Condon-Thirtymile Creek Section, John Day Highway, Gilliam County. This survey supersedes the northerly part of the former Condon-Thirtymile Creek survey approved by the Commission May 4, 1971, as "Highway Corridor & Design Resolution No. 394". ("Highway Corridor & Design Resolution No. 394A" on file in the Commission's files, Salem.)
- 4) Authorized the payment of \$5,050.39 to the American Association of State Highway and Transportation Officials as 1978 membership dues.
- 5) Preliminary engineering and contracting of the Spring Creek Hill Section of The Dalles-California Highway in Klamath County at a cost of \$300,000. This project is for corrective work to reduce the danger from falling rock. Undertaking this work at this time will permit removal of this project from Program A of the Preliminary Six Year Program.
- 6) Three requests for Safer Off-System Roads Projects and authorized State Highway Engineer to sign agreements when prepared as follows:
- a. Request from City of Gresham to place an asphaltic concrete overlay on a 0.23 mile segment of N.E. Fifth Street (Kelly Avenue-Cleveland Avenue Section) in Multnomah County. Total Cost \$17,340. Federal Funds \$14,910. Local Share \$2,430.
 - b. Request from City of Gresham to reconstruct a 0.30 mile segment of N.E. Second Street (Main Street-N.E. Elliott Avenue Section) in Multnomah County. Total Cost \$57,600. Federal Funds \$49,540. Local Share \$8,060.
 - c. Request from Sherman County to reconstruct a 1.6 mile section of Curt Tom Road (China Hollow Creek Road-Power Line Section). Total Cost \$187,625. Federal Funds \$161,360. Local Share \$26,265.

- 7) Overlay project on the South Ashland Interchange-California State Line Project on the Pacific Highway in Jackson County. Estimated cost is \$1,260,000 with Federal participation of \$1,160,000 and State matching funds of \$100,000. (Granted authorization to sign project agreement with the Federal Highway Administration.)
- 8) Personal services agreement with Day-Henry Associates in systems analysis and design to aid managers in Motor Vehicles Division, General Services and Data Processing. Cost \$3,600. (Authorized Director to sign agreement.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

Chairman of Oregon Transportation Commission
State Highway Engineer
State Parks Superintendent
Highway Controller
Chief Counsel

Exhibit D
Exhibit E

DIRECTOR'S REPORT

Mr. Rulien presented to the Commission a draft of the recommended Six Year Highway Improvement Program for their consideration. He stated the final copy of the Program is expected from the printers around March 6 and will be in three colors. The non-interstate projects will be presented by region with one map per region. The B Level (basic program) will show on an index map in black the projects that can be funded from existing revenue sources. The additional projects to bring the Program up to A Level will be shown in green and is based upon current revenue plus revenue from the two-cent gas tax and the \$10 vehicle registration increases. The A+ Level will be shown in red and is based upon the sale of bonds or other additional revenue. He commented on various portions of the Program (introduction pages 1 through 6). Mr. Rulien referred to the interstate program and the interstate transfer projects. The Commission took the following action by adopting the revised Six Year Highway Program for Fiscal Years 1979 through 1984:

- 1) Approved the "Basic" program projects for contracting in the scheduled fiscal years and authorized all development work necessary to prepare the projects for contracting.

(continued on next page)

- 2) Confirmed their intent to approve all the projects in the "Additional Revenue" program, if the voters support the user tax increases at the polls in May and November 1978.

(Copy of program on file in the Commission's files, Salem.)

Mr. Burco stated that copies of the final report may be obtained at the Department's Regional and District Offices throughout the State and at the Transportation Building headquarters in Salem.

Mr. Bell reported on his recent trip to Washington D.C. where he testified before Congressman Ullman's House Ways and Means Committee regarding Oregon's view on the continuation of the Highway Trust Fund. Copies of the proposed 1978 Federal Highway Act were previously mailed to the Commission. (Copy on file in the Commission's files, Salem.) He said Mr. Brock Adams, Secretary of Transportation, detailed the proposed bill before the Committee. The administration bill contemplates no change in revenue and contemplates completion of the interstate as a high priority.

Mr. Bell mentioned that Congressman James Howard, Chairman of the Subcommittee on Surface Transportation, asked for a two-cent increase in the Federal gas tax to raise a special fund of \$2 billion to be put into a national bridge replacement program. He said there did not appear to be much support for Congressman Howard's proposal.

Mr. Bell stated he presented Oregon's position to the Committee, urging flexibility in Federal funding so the Department can meet its emphasis in repairing the primary and secondary systems in the State. He said Oregon was the only State to offer testimony that day on the Highway Trust Fund. (Copy of Mr. Bell's testimony on file in the Commission's files, Salem.)

Mr. Bell handed to the Commission a list of proposed bills that the Department will present to the 1979 Legislature. He mentioned the Executive Department requested that a rough concept form be presented to them by April 15. (List of proposed bills on file in the Commission's files, Salem.)

Mr. Streun presented a 1978-81 Budget Development Calendar. He indicated that this is a decision and policy making schedule. The outline shows the sequence for basic decision making to meet the September 1, 1978, budget submission deadline to the Executive Department. Mr. Streun stated it is the staff's intent to specify the issues or decisions which should have the Commission's review. He suggested that two to three hours be reserved for presentation of the budget to the Commission at its March 28 meeting. At each following Commission meeting, staff will request the decision necessary to proceed to the next phase of budget. (Copy of budget calendar on file in the Commission's files, Salem.)

Mr. Hayden briefed the Commission concerning the update of the 1977 Policy Document for the Department. He recalled that the present policy document was approved by the Commission on January 18, 1977. Mr. Hayden mentioned that economic development, tourism, Motor Vehicles Division, Parks and interstate transfer project match items will be included in the update. The document will be reviewed by local governments, the League of Oregon Cities and Association of Oregon Counties. He indicated the major share of the work will be done this summer and fall, and the final document will be presented to the Commission for approval prior to the 1979 Legislature.

The Commission confirmed the date of March 28, 1978, for their monthly meeting in Salem and tentatively set April 18 for the following meeting. (April meeting was later changed to the 25th.)

Mr. Burco said plans are being made for the members of the Transit districts to have lunch with the Commission on March 28. (The luncheon was later changed to the April 25th meeting.) He said two to three hours will be set aside in the afternoon for the Commission to review the 1979-81 budget.

OPERATIONS

Attention was given to an agreement with Coos County covering construction, financing and maintenance of a bike path from Coos Bay to Charleston (Pigeon Point-South Slough Bridge Section of the Cape Arago Bikeway). Mr. Klaboe said the estimated cost is \$120,000; the State and County to share the cost 50-50 with the County receiving credit for \$45,000 for costs incurred through construction of the Coos Bay S.C.L.-Pigeon Point Section. The Commission approved the project as recommended by Mr. Klaboe.

The Commission considered eight requests for Federal Aid Urban System Projects. Mr. Coulter mentioned the projects have been investigated and are eligible for funding under the FAUS Program. Following his recommendation, the Commission approved the following projects and authorized him to sign the agreements when prepared:

- 1) City of Baker for paving 0.4 mile of Grace Avenue and Bridge Street (Elm Street-Mt. Hope Cemetery Section), Baker County. Total Cost \$70,000; Federal Funds \$54,600; State's Share \$7,700.
- 2) City of Bend for constructing a 48-foot curbed section on South 9th St. and Baer Rd. (Glenwood Dr.-South City Limits Section), Deschutes County. Total Cost \$175,000; Federal Funds \$150,500; State's Share \$12,250.

(continued on next page)

- 3) City of Dallas for reconstruction of 0.71 mile on Hankel Street (Main St.-LaCreole Dr.), Polk County. Total Cost \$452,400; Federal Funds \$172,000; State's Share \$14,000.
- 4) City of Medford for a traffic study to determine the feasibility of rerouting southbound traffic through the Central Business District (Central Ave.-Front St. Section), Jackson County. Total Cost \$5,000; Federal Funds \$4,300; State's Share \$350.
- 5) City of Newberg to widen 0.5 mile of Springbrook St. (Middlebrook St.-Pacific Highway West Section), Yamhill County. Total Cost \$285,000; Federal Funds \$245,100; State's Share \$19,950.
- 6) City of Salem to realign 35th Avenue to connect with 34th Avenue at Silverton Road, Marion County. Total Cost \$193,000; Federal Funds \$165,980; State's Share \$13,510.
- 7) City of Salem to widen 0.23 mile of 34th Avenue (N.E. Stortz Ave.-Silverton Rd. Section), Marion County. Total Cost \$12,000; Federal Funds \$10,320; State's Share \$840.
- 8) Marion County to signalize four intersections and channelize two intersections on North River Road (Dearborn Avenue-Glynbrook Street Section). Total Cost \$340,000; Federal Funds \$292,400; State's Share \$23,800.

Consideration was given to annexation to the City of Portland of three parcels of surplus property comprising of five to six acres of land on the Mt. Hood Freeway Corridor lying between 82nd and 86th Streets and between Powell and Lafayette. Mr. Coulter stated the annexation would permit providing sewer into this property and it would then be disposed of under a proposal of the Portland Development Commission. Following Mr. Coulter's recommendation, the Commission approved the annexation. (Petition for Annexation to the City of Portland signed by the Right of Way Manager.)

The Commission considered the appointment of Mrs. Orcilia Forbes of Portland to the State Parks and Recreation Advisory Committee, replacing Bob Frazier, deceased. Mr. Gaskill pointed out that five candidates were considered for the "at large" position by the Advisory Committee. He said Mrs. Forbes' name had been approved by the Governor's Office. The Commission approved the appointment of Mrs. Forbes for a 4-year term effective February 22, 1978.

Attention was given to an amendment to an August 1968 agreement with the Department of Fish and Wildlife covering an easement to the Lakeside Water District to withdraw water from Eel Lake adjacent to Tugman State Park in Coos County. Mr. Gaskill stated the District is requesting that certain water use limitation be deleted with the District to install water level control and fish passage facilities. The easement involves about one acre of land. Upon his favorable recommendation, the Commission approved the amendment. (See page 2560 for further information.)

The Commission considered adopting as a permanent rule an amendment to the State Parks regulations involving the reservation fee. Mr. Gaskill said during the 1977 camping season a little over 79,000 reservations were made at the 15 overnight parks utilizing the reservation system which was a 12.3% increase over 1976 and a 22.3% increase over 1975. In 1977 there were 11.7% no-shows. He said a Parks Branch Committee reviewed the 1977 campsite reservation system and considered five possible alternatives to correct problems in the system. The State Parks and Recreation Advisory Committee in December 1977, reviewed the proposals and recommended that the existing rules be amended. Mr. Gaskill stated that "State Parks Resolutions Nos. 39 and 39b" should be amended as follows:

Advance Campsite Reservation Fee

- 1) The State Parks Superintendent is authorized to designate the manner of securing all reservations and the contents of any special permits required.
- 2) There shall be a deposit for advance reservations which will apply toward the nightly camping and reservation fees on arrival at the park.

| | |
|--------------------------------|-------------|
| Non-refundable Reservation Fee | \$2.00 |
| Camping Fee Deposit | <u>3.00</u> |
| Deposit | \$5.00 |

- 3) The \$5.00 fee must accompany a letter of request. If telephone reservations are permitted, the deposit must arrive at the park no less than two (2) days prior to the date reserved.
- 4) All camping reservations must be claimed by 6 p.m. unless prior arrangements have been made with the park for a later arrival.
- 5) Cash refunds will not be given for cancellations. If notification of cancellation is received by the appropriate State park within five (5) days of the initial reservation date, a \$3.00 credit will be issued which could be applied against future camping fees. This credit must be used within the calendar year in which it is issued.

Mr. Gaskill said adoption of the amendments will:

- 1) Reduce the number of incidents when persons making reservations fail to claim them or make late cancellations.
- 2) Allow occupancy of all unoccupied campsites after 6 p.m. unless prior arrangements have been made for a later arrival.
- 3) Discourage parties from making reservations for the same night at several parks without a penalty.
- 4) Eliminate the problems associated with overloaded telephone lines at the beginning of the reservation season.

A hearing was held concerning the proposed changes on February 15, 1978, and no objections were received. The Wally Byam Caravan Club testified and requested that the reservation fee of \$2 be applied to the campsite fee. The Commission amended "State Parks Resolutions Nos. 39 and 39b" and adopted the above changes as a permanent rule as "State Parks Resolution No. 39F." (Rule filed with the Secretary of State on February 23, 1978, and published in the Administrative Rule Bulletin on March 15, 1978.)

Mr. Burket reported on the following aviation items that were discussed yesterday with the Commission:

He mentioned the North Bend Airport briefing by Manager Joe Laurance concerning the airport runway fill permit and the extension that is scheduled. Mr. Burket commented on the State-issued fill permit that was ruled invalid by the State Appeals Court in December 1977 and it is petitioned now to the Supreme Court for review. He mentioned that the Corps of Engineers' dredge, which is now working in the ship channel, is scheduled to be at the airport site and placing the spoils material there between March 1 and 15 and if the permit matter isn't straightened out at that time it will create a serious problem. He said if the runway is not extended, Hughes Airwest will not be able to use their DC-9 aircraft. Mr. Burket introduced Mr. Juan Sparhawk, Seattle Regional Public Affairs Director for Hughes Airwest Airlines.

He commented on the Air Oregon's Navajo airplane that was at the airport for review. Mr. Burket stated that Air Oregon has 17 airplanes of all different varieties and serves 23 points in the State, including Portland.

The Commission considered an agreement with the City of Woodburn for experimental bus services. Mr. Moore pointed out the project will last 16 months at a cost of \$18,899 and is designed to evaluate the public's acceptance of a city transit system. He said the State will contribute General Funds up to 50% of the operating costs. Following Mr. Moore's recommendation, the Commission approved the agreement and authorized him to sign it.

Mr. Moore reported on the Reedsport Bus Project (Tri River Trolley) and the 21-passenger Argosy bus that the Commission inspected this morning. The bus operates in Reedsport, Winchester Bay and Gardiner on a five-day week and is now offering commuter services for people traveling to and from work and is carrying 45-60 passengers a day. Mr. Moore said it is a Federally-funded experimental bus project and is sponsored by the Federal Highway Administration. It is a \$40,000 grant of which \$21,000 was for the purchase of the bus.

Mr. Moore gave a brief update on what the Department is doing in the Coos Bay-North Bend area on planning. During the past two years, he said, a planner has been assigned to help develop part of the comprehensive plan in the area and has been working very closely with the Council of Governments. An alternative analysis is just about completed and will soon be published. He said other parts to this project are intercity and intracity rural transit needs.

Mr. Moore commented on the Commission's lunch with the transit officials on March 28, 1978, in Salem. Two items to discuss informally with them would be transit funding and transit legislation. (Luncheon date changed to April 25, 1978.)

Mr. Moore mentioned the meeting that was held in the Director's Office last week with staff, officers from Greyhound and Continental Trailways, and a representative from the Port of Portland. There was discussion concerning the intercity bus industry. He said the industry has said repeatedly that they lose money on every coastal trip and they would like to drop the routes. Mr. Moore stated this group discussed the intermodal terminal in Portland. He said the Department has set aside in the Emergency Fund \$300,000 of State General Funds which could be released by the Emergency Board for intercity activities. Mr. Moore felt that there is a good reason to go to the Emergency Board to ask for release of some of the funds for a variety of projects. One project could be to contract with the Port of Portland and the City of Portland to do a comprehensive study of the terminal alternatives in Portland.

Mr. Moore said that Pacific Trailways, Oregon's largest home-based intercity carrier out of Bend, has petitioned a third time to drop service through John Day from Redmond to Vale. He mentioned that Polk County is contracting for services with Hamman Stage Lines to transport people into Salem from Dallas, Monmouth

and Independence. He said they are doing a good job but are running low on money. Mr. Moore said there needs to be something done regarding marketing and public relations. The Department's survey indicated little sympathy on the part of the public in doing anything with the intercity carriers. He mentioned carriers are going broke and many of the communities are dependent upon Greyhound, Trailways, Hamman and Red Ball Stages. The Department has asked the carriers to help the State come up with a marketing strategy to inform the public of what is going on and perhaps persuade the people to use it more. Mr. Moore felt there needs to be something done on the coast to improve Greyhound services and the Greyhound people have pledged some help to the Department. He said he would be coming back to the Commission with a package of program proposals to present to the E-Board.

Mr. Grover requested approval to present a request to the April Emergency Board for an increase in the Federal Fund expenditure limitation of \$6,069 to cover additional expenses of the Division's participation in the Fatal Accident Reporting System. He said the reasons are due to a new and more costly method consisting of using a computer terminal that is tied directly to the Federal Government's computer to enter the statistics; no provisions in the budget for merit salary increases; underfunding the 1977-79 salary adjustments; and an estimate of out-of-state travel expenses was not adequate. Mr. Grover mentioned the additional expenditures would be 100% reimbursed by the Federal Government. The Commission gave their approval to Mr. Grover's request.

The Commission unanimously adopted the following resolution which was read by Mr. Sollis:

RESOLUTION

WHEREAS, Highway revenues are declining and there is a critical need to utilize highway revenues to operate and maintain existing highways; and

NOW, THEREFORE, BE IT RESOLVED BY THIS Oregon Transportation Commission as follows:

"No Highway Trust Funds shall be used in construction of Park and Ride Stations or any other function not directly related to or benefiting highway users."

This resolution shall be entered in the minutes and records of the Oregon Transportation Commission this 22nd day of February, 1978, as Miscellaneous Resolution No. 261.

PUBLIC COMMENTS

A delegation representing the East-West Highway Committee appeared before the Commission concerning the improvement of Highway 42 (Coos Bay-Roseburg Highway). Mr. Andy Nasburg, Co-chairman of the Committee, thanked the Commission for coming to Coos Bay for their monthly meeting. He mentioned that the Commission and the Department have become much more aware that the development and diversification of the economy of southwestern Oregon is heavily dependent upon the improvement of the freight transportation links. He said the question as to how primary highway projects are prioritized on a State-wide basis in their minds remains unanswered. The Chairman stated that the question of priorities involves many factors and cannot be submitted to specific guidelines.

Mr. Larry Lillebo, Treasurer of the Port of Coos Bay, read a letter on behalf of Mr. Steve Felkins of the Port, pointing out that the Port of Coos Bay is the largest port in the State in the handling of Oregon products. In 1977, over five million tons of Oregon products moved into the out-of-state and export trade by terminals located in the Port. The letter stated that the Department is assisting the Port in a study which will document in detail the current cargo origins and transportation routes used to move the cargo to the Port's terminals. The total cargo moving over Highways 42 and 38 is greater than that passing over any other two-lane system in the United States. The letter mentioned that it was their understanding that the distribution of highway monies for roadway improvement is based on formulas of registration and income by county units. The Port feels that a strong additional factor must be assigned which acknowledges that certain routes are vital to the State's economy as a whole, such as the coastal routes utilized in placing Oregon products on the world market.

Mr. Bob Pierce of Coquille mentioned that there are five sections of Highway 42 remaining far below standards for safe travel. He referred to the China Marsh-Coquille Reroute Section, a four-mile stretch of old two-lane road in the middle of a four-lane located nine miles south of Coquille. He commented on the need of a reroute of Highway 42 around the business district of Coquille. The four-mile section through Coquille is the biggest bottleneck in the entire highway. He called attention to the heavy truck traffic and the several 90° curves which make it virtually impossible for a truck to pass through the city legally. Mr. Pierce said that the City of Coquille asks that the Coquille reroute be included in the Six Year Plan.

Mr. Larry Dalrymple of Coquille stated that the amendment to the Six Year Plan (extension of Adams Street) if it is constructed as four lanes addresses only the problem of the 90° curves. He felt that it did not address the problem of passing both schools, the heavy pedestrian traffic, and access on and off Highway 42.

Chairman Jackson stated an alternate bypass would cost between 8 and 10 million dollars, and the Department does not have the money. He said the Commission and staff looked at the Coquille problem yesterday and it is doubtful that the environment in the corridor is going to change to the extent that the State should tie up money at this time for right of way.

There was discussion concerning the \$500,000 item in the Six Year Plan (A+ Program) for the 90° turn correction scheduled for 1982.

Mr. Bob Pittam of North Bend read the following resolution adopted by the East-West Highway Committee:

WHEREAS, East-West Highway improvement needs have recognized State and Regional significance; and

WHEREAS, an integral part of bringing Highway 42 to reasonable standards is the Coquille Re-Route; and

WHEREAS, the improvement of Highway 42 needs to be addressed on a long-term problem solving basis;

NOW THEREFORE BE IT RESOLVED, that the proposed Adams extension project does not meet criteria for problem-solving or for long-term effectiveness; and

BE IT FURTHER RESOLVED, that the allocation for that proposed project be designated for Coquille Re-route project planning, corridor design studies, engineering studies, and right-of-way acquisition.

Mr. Tony Kuhn, Executive Director of the Coos-Curry-Douglas Economic Development District, stated that the District is charged with developing economic opportunities in southwest Oregon to address the chronic and persistent unemployment problems. He said they are concerned with the condition of Highway 42 and if the State of Oregon is ever going to use transportation policy as a tool for economic development, the Department of Transportation has to begin to identify and wrestle with the fact that the highway transportation system has a tremendous impact on economic development of the State. He said a modern improved highway transportation system can stimulate an areas development and promote the economic activity of a region. He also said an inadequate system can restrict the flow of commerce and economic development of an area.

He stated southwestern Oregon has been curbed by an inadequate highway system, specifically between the Port of Coos Bay and Interstate 5 and Roseburg, via Highway 42. He recommended short-term improvement of Highway 42 by constructing passing lanes similar to what was accomplished on Highway 38, and that it be included in the Highway 42 Six Year Preliminary Program.

Mr. Kuhn also recommended that the Department should not make any changes in the new Six Year Plan as have occurred in previous Six Year Plans without having very specific explanations to the local constituency as to the reasons for those changes unless they be other than purely financial constraints or environmental delays.

He suggested that the Department try to persuade through some legislation in Congress to get some additional interstate freeway designated for Oregon to link up I-5 to the coastal ports.

Mr. Burco mentioned that he does not see any problem with Mr. Kuhn's earlier recommendations, but he does have serious reservations about adding on to the interstate system. He indicated the present bills in Congress are to radically curtail the interstate system by diminishing some of the mileages on future interstate transfers. There will be no additional mileages transferred to other states. Mr. Burco thought it would be unwise on the State's part to utilize the limited resources it has and credibility in Congress in lobbying contrary to what he judges to be the best interest of the State.

A delegation from Powers came before the Commission concerning improvement of the Powers Highway. Mr. Clyde Ellis read a letter on behalf of the senior citizens calling attention to the dangerous condition of the highway and asked that funds be made available for improvement.

Mr. Tim Adsit, Superintendent of the Powers School District, handed to the Chairman a copy of an address made by the Powers Housewives in Salem on May 16, 1972, and stated the problems mentioned in the address still exist. He also submitted several letters from students at the high school, all pointing out the deficiencies of the Powers Highway. Mr. Adsit stated that he is concerned about the safety of the school children riding the school buses on the highway.

Mr. Jeff Allred, President of the Powers High School Student Body, expressed the attitude and feelings of the students of the poor conditions of the highway. He urged improvement of the road before there is a fatality or before Powers gets cut off by a slide or washout.

The Chairman called on Mr. Klaboe to comment on the \$2,100,000 that is listed for improvement of the Powers Highway in the Six Year Plan. Mr. Klaboe said there are three improvement projects: the Rowland Creek, Baker Creek and the Powers Wayside on the Six Year Program.

Mrs. Frances McKenzie commented on these three sections and other sections that need to be improved. She mentioned that Mr. George Baldwin, former Director, met with their group and others in 1972 and at that time promised five major highway improvements within the next four years. She said it is now six years later and they are still waiting. In response to Commissioner Walsh's inquiry, Mrs. McKenzie indicated that their group was not aware of the Six Year Meeting that was held last November in Coos Bay. She read a letter from the Powers Housewives for Highway 42. (Copy on file in the Commission's files, Salem.) The letter indicated that the Environmental Impact Statement stated that the average daily traffic is from 800 to 1,000 vehicles and in the 16-mile stretch from Powers to Broadbent there are 141 curves with only one pull-off. The letter mentioned the 7-9 year delay in the Powers Highway improvement projects and asked that they be placed back on schedule.

Mrs. Willna Wiwatowski read a letter from Mr. Rick Brown, President of the Powers Chamber of Commerce. Mr. Brown pointed out that the Chamber strongly supports any replacement or repairs to the highway. Attention was called to the various recreation vehicles and logging trucks that use Highway 42 and the Powers Highway. The letter mentioned the annual White Cedar Days which creates a heavy traffic volume on the two highways.

Mr. E. L. McAdams read a letter from Richard and Shirley Worthen, Emergency Medical Technicians. The letter said there are approximately 250 senior citizens living in Powers that have to travel this narrow, crooked and rough highway to see their doctors. He commented on the need for a better highway to transport emergency cases by ambulance to the hospital.

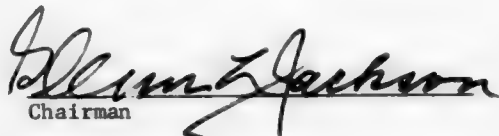

Chairman Jackson stated that since the people of Powers did not have an opportunity to voice their views at the Coos Bay meeting on the Six Year Highway Improvement Program last fall, that the staff will contact them within a few days to prioritize the projects on the Powers Highway.

Mr. Lee Winetrout, Councilman of Myrtle Creek, appeared before the Commission regarding access to Interstate 5. He referred to the old, dangerous, narrow, deteriorating bridge that was constructed in 1922. Mr. Winetrout said the bridge is a problem to the local and prospective industry and has an average daily traffic of 5,150 vehicles. He mentioned the proposed solution was to replace the bridge over the South Umpqua River with a new structure at an estimated cost of \$3,400,000 but there is a problem of money. He felt a more workable solution would be to redeck the existing bridge. Mr. Winetrout handed to the Commission a Highway Bridge Engineer's Preliminary Estimate Sheet (\$364,000) for redecking the bridge.

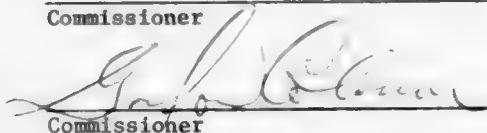

Mr. Klaboe said the Department asked for interstate funds for the Myrtle Creek Bridge replacement as a part of the Interstate 5 Interchange but was turned down. He mentioned there is some Federal legislation pending which would include reconstruction of bridges. If there is a change in Federal Legislation that provides for a special bridge replacement fund to be used for the replacement or reconstruction, the project will be considered.

A delegation from Lincoln City appeared before the Commission concerning the Salmon River Highway. Present were Leo McLachlin, Fred Friedli, Charles Lurcott and Henry Wolf. Mr. Wolf stated that they have presented statistics over the last two years to the Department pointing out the need for the improvement of Highway 18 and that they are in attendance today to remind the Commission that the highway is still heavily traveled. He showed a picture of a sign which read "Caution: Highway 18 - 4 Miles Ahead". The Chairman said there are five projects in the Program that will improve this highway.

The Chairman adjourned the meeting at 11:40 a.m.

EXHIBIT AMINUTES OF 2-22-78

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

(1) Options or Other Documents Relating to Property Acquisition

| <u>Number</u> | <u>Name</u> | <u>Consideration</u> |
|---------------|---|----------------------|
| 49526 | Rawls, Noel B. and Eleanor R.;
Johnson, Earl | \$ 2,300.00 |
| | 1 Transaction | \$ 2,300.00 |

- (2) Agreement with City of Warrenton for construction of the Skipanon River (Warrenton) Bridge Section of the Warrenton-Astoria Highway, Clatsop County. City has agreed to accept jurisdiction of certain reconstructed streets and connections following completion of the project. (Local Government Unit)

- (3) Agreement with Lane County for the State to relinquish a portion of the Junction City-Eugene Secondary Highway No. 223 (ORE99W in Junction City to NCL Eugene) to Lane County in exchange for the Belt Line Road (I-5 northeasterly of Eugene to West 11th Avenue, westerly of Eugene), including a portion of West 11th Avenue lying between Belt Line Road and Oak Hill. Included in the exchange would be that the respective entities would at time of transfer be responsible for the maintenance of the facilities passing to their jurisdiction, consisting of 11.62 miles to Lane County and 12.9 miles to the State of Oregon. (Local Government Unit)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and report this action for your official records.

Dated this Jan 23 day of _____, 1978

SUBJECT: Confirmation Report of Action Taken
Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the action listed below and report this for your official records:

- 1) On January 11, 1978, approved an agreement with the Federal Railroad Administration for a \$17,516 planning grant. This is an amendment to an existing planning grant increasing the total amount of the grant to \$204,476. I also authorized the Director of Transportation to sign the agreement. (Approval was given to L.W. Rulien by telephone.)

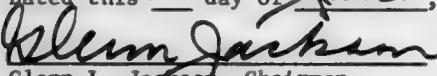

Dated this 23 day of Jan, 1978

Glenn L. Jackson, Chairman

EXHIBIT AMINUTES OF 2-22-78

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

(1) Options or Other Documents Relating to Property Acquisition

| <u>Number</u> | <u>Name</u> | <u>Consideration</u> |
|---------------|-----------------------------|----------------------|
| 48800 | Romiti, Armando | \$ 110,850.00 |
| 49989 | O'Day, Melvin and Thelma E. | 450.00 |
| | 2 Transactions | \$ 111,300.00 |

- (2) Agreement with City of Pendleton for installation of traffic signal equipment at the intersection of S.W. 20th Street and S. W. Court Place, both city streets, in Umatilla County. The State will design and install the traffic signals with all costs of the project to be paid by the City. The City will also maintain the signals and pay all power costs. (Local Government Unit)
- (3) Agreement with City of Burns covering installation of traffic control signal equipment on the Central Oregon Highway at Eagan Street, including interconnection with traffic signals at Broadway Avenue, and install a school crossing sign with flashing beacons and floodlights at the Burns High School, in Harney County. State will design, install and maintain the signals utilizing Federal Aid and State Bond Funds. City has agreed to pay all costs of electrical energy consumed in operation of the signal equipment. (Local Government Unit)
- (4) Agreement with Clackamas County concerning a revision of the traffic pattern at the Meadowbrook Junction on the Woodburn-Estacada Highway. County has agreed to relinquish jurisdiction of a portion of County road right of way so that the Highway Division will own and maintain the entire intersection complex. (Local Government Unit)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and report this action for your official records.

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On January 17, 1978, established the following speed zones on the Clackamas-Boring Highway in the communities of Damascus and Boring in Clackamas County:

From M.P. 2.48 to M.P. 3.02 40 MPH
From M.P. 6.67 to M.P. 7.42 35 MPH
 including a 20 MPH speed zone
 from M.P. 6.87 to M.P. 6.91
 when children are present.
(Speed Zone Order No. 767)
- 2) On January 19, 1978, established a "No Parking Zone" on the Pacific Highway East from 100 feet north of the north edge of Boardman Avenue (M.P. 9.49) to Boardman Avenue (M.P. 9.51) north of Gladstone in Clackamas County.
- 3) On January 20, 1978, established a "No Parking Zone" on both sides of the Mt. Hood Highway between M.P. 63.89 and M.P. 63.99 and on both sides of the highway access (within the highway right of way) of Clark's Creek (Mt. Hood Meadows) Ski Road at M.P. 63.95, Hood River Co.
- 4) On January 23, 1978, established a "No Parking Zone" within the Oregon State Highway Division stockpile area and on both sides of the access road located on the Mt. Hood Highway No. 26 at M.P. 64.99, south of Hood River in Hood River County.
- 5) On January 23, 1978, established the following speed zones on the Nehalem Highway in the vicinity of the Astoria south city limits, Clatsop County:

From M.P. 1.04 to M.P. 1.12 40 MPH
 except for a 20 MPH speed zone
 from M.P. 0.77 to M.P. 1.07
 when children are present.
From M.P. 1.80 to M.P. 2.01 45 MPH
From M.P. 2.04 to M.P. 2.33 45 MPH
From M.P. 2.51 to M.P. 2.63 45 MPH
From M.P. 2.77 to M.P. 3.23 45 MPH

Rescinds Speed Zone Resolution #228 dated 7-12-56.
(Speed Zone Order No. 768)

EXHIBIT B
MINUTES OF 2-22-78

- 6) On January 25, 1978, established a one-half hour parking limit on the Mt. Hood Highway in the easterly 125 feet of the parking lot (in front of the restrooms), M.P. 54.10, Clackamas County, east end of Government Camp. This would allow access to the restrooms and Sno Park permits would be required in the remainder of the area.
- 7) On January 25, 1978, established a 35 MPH speed zone on the Wallowa Lake Highway in the vicinity of Island City, Union County, from M.P. 2.62 to M.P. 2.90. See Speed Zone Order No. 769.
- 8) On January 25, 1978, established a 35 MPH speed zone from M.P. 1.17 to M.P. 1.22 and 40 MPH speed zone from M.P. 1.22 to M.P. 3.42 on the Hood River Highway just south of Hood River in Hood River County. Rescinds Speed Zone Resolution No. 138 dated 2-24-54 and Speed Zone Resolution No. 114 dated 8-6-53. See Speed Zone Order No. 770.
- 9) On February 2, 1978, approved a negotiated agreement with Walter B. Nichols for mowing the right of way outside the travel lanes along Interstate 5 in Linn County south of the Santiam Junction. (M.P. 203.5 to M.P. 233)
- 10) On January 27, 1978, established a 45 MPH speed zone from M.P. 9.28 to M.P. 9.55 on the Albany-Lyons Highway just south of Scio in Linn County.
- 11) On January 27, 1978, established the following speed zones on the Mt. Hood Highway from the east city limits of Portland to the west city limits of Gresham in Multnomah County:

| | |
|--------------------------------|--------|
| From M.P. 5.19 to M.P. 7.90 | 35 MPH |
| except for a 20 MPH speed zone | |
| in the following areas when | |
| children are present: | |
| From M.P. 5.38 to M.P. 5.44 | |
| From M.P. 6.90 to M.P. 6.96 | |
| From M.P. 7.18 to M.P. 7.24 | |
| From M.P. 7.90 to M.P. 9.96 | 45 MPH |
| except for a 20 MPH speed zone | |
| from M.P. 8.40 to M.P. 8.52 | |
| when children are present. | |

Rescinds Speed Zone Resolution No. 554 dated 2-3-70.
(Speed Zone Order No. 772)

FYH'R' B

MINUTES OF 2-22-78

- 12) On January 27, 1978, established the following speed zones on the Oswego Highway No. 3 between Portland and Lake Oswego in Clackamas County:

| | |
|-----------------------------|--------|
| From M.P. 3.58 to M.P. 5.62 | 45 MPH |
| From M.P. 5.62 to M.P. 5.79 | 35 MPH |

Rescinds Speed Limit Resolution #77 dated 12-20-51.
(Speed Zone Order No. 773)

- 13) On February 2, 1978, approved and signed a Consent to a petition for the vacation of certain undeveloped roads in the Buena Vista Subdivision alongside the West Side Bypass of The Dalles-California Highway in Klamath County.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7562 Skipanon Waterway Association, et al. v. Department of Transportation and the Oregon Transportation Commission: This is a complaint for a Declaratory Judgment in which the plaintiff is attempting to stop the Department of Transportation from building a fixed span bridge over the Skipanon River. The plaintiffs are alleging that the Port of Astoria instructed the defendants to defer construction of the bridge until an economic study is made and an investigation of alternative routes considered. Plaintiff has asked for a Declaratory Judgment concerning the authority of the defendants to proceed with the construction of the bridge, for determination that the Port of Astoria has full control over the bridge and that a fixed bridge over the Skipanon River is an impediment to navigation. The matter has been referred to the Attorney General's office for the defense of the state.

L-7563 Robert N. Blanc v. Department of Transportation, et al.: This case arises out of an accident that occurred on May 20, 1977, in which the plaintiff was the driver of a tractor-trailer unit that was pulled off to the side of Oregon State Highway 97, approximately 22 miles south of Bend. The plaintiff's vehicle was pulled off to the side of the highway by a State Police officer and pulled too far over on the bank and rolled down the embankment causing injuries to the plaintiff and damages to the vehicle. The plaintiff has named the State Police officer and the Oregon State Police, as well as the Department of Transportation, as a party defendant. The plaintiff is seeking a total of \$53,677.46 for personal injury and property damage. The case has been referred to the Attorney General's office for the defense of the state.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
March 16, 1978

March 16, 1978
Salem, Oregon

The Oregon Transportation Commission held a special telephone conference meeting at 9:05 a.m. in Room 129 of the Transportation Building in Salem, Oregon. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Peter J. Brix, Member, Portland
Tom Walsh, Member, Portland
B. Gordon Coleman, Member, Eugene
Jack Sollis, Assistant Chief Counsel, Salem
E. S. Hunter, Manager of Technical Services, Salem
C. W. Head, Manager, Commission Services, Salem

Mr. Sollis said this meeting was called to consider the adoption of a permanent rule designating certain signs as official traffic control devices to be used in winter recreation parking areas. He said the adoption of this rule is for the enforcement and control of parking in winter recreation areas as designated by the Commission. He stated the rule was adopted as a temporary rule by the Commission on November 15, 1977. Public notice of the adoption of the permanent rule was given on February 15, 1978. Mr. Sollis mentioned that a public hearing was held in Salem on March 6, 1978, and there was no one in attendance.

Following Mr. Sollis' recommendation, the Commission adopted as a permanent rule the following signs as official traffic control devices to be used in connection with the winter recreation parking areas:

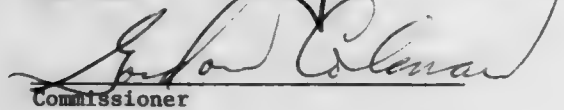

- 1) "NO PARKING FOR UNATTENDED VEHICLES"
- 2) "ENTERING WINTER RECREATION AREA PARKING PERMITS REQUIRED BEYOND THIS POINT"
- 3) "SNO-PARK PARKING PERMIT REQUIRED"
- 4) "ENTERING WINTER RECREATION AREA PARKING PERMITS REQUIRED IN SNO-PARK"
- 5) "SNO-PARK AHEAD 1/4 MILE"

(See "Administrative Rule File No. 97A" for sign drawings on file in Commission's files, Salem.)

(Certified copy of the rule was filed with the Secretary of State on March 16, 1978, and will be published in the Administrative Rules Bulletin on April 1, 1978.)

The telephone meeting was concluded at 9:10 a.m.

Fran Neavoll, Commission Services
C. W. Head, Manager, Commission Services

Mr. Klaboe reported that the Environmental Impact Statement is completed on the I-82 "J" route in Umatilla County which the Commission chose in 1973. He mentioned that the County and County Planning Commission have raised some questions and are now asking for another hearing including an Alternate "C" route. He handed to the Commission charts showing the effect of the request. Following Mr. Klaboe's recommendation, the Commission gave their approval to make a reconnaissance-type investigation on the Alternate "C" line and to report back to the Commission in the Fall of 1978 on whether or not another hearing is feasible.

Mr. Robert Booth, Chairman, Travel Advisory Committee, read sections of a report made by Lynn Frank, Budget and Management Division, Executive Department. The report recommended the appointment of a study committee representing the industry, State and the general public for the purpose of reviewing the tourism program, make recommendations and to report back to the Commission by June 20, 1978. He said this would include developing a written policy and a plan to implement the policy, as well as a financing plan. Mr. Booth named approximately 12 individuals that are being considered for this 90-day study committee. The Commission gave the Travel Advisory Committee approval to appoint this study committee.

Mr. Booth mentioned that the Pacific Northwest Regional Commission has eliminated the Transportation Commission and the Travel Information Division from the planning process for the tourist program. He indicated a need for some working cooperation with the Task Force. The Commission gave their approval to ask the Governor for assistance if necessary.

Mr. Talbot displayed an aerial map of the Nehalem Bay State Airport in Tillamook County. He stated that their 25-year lease to the Board of Aeronautics expires in 1983 and the City Manager of Manzanita wants to develop some hangers and renegotiate the lease. Mr. Talbot suggested that the Commission view the airport site in June of this year when they are in the area for their Astoria Commission meeting. He said Senator Isham and Representative Hanneman will be attending the formal meeting this morning to discuss this matter.

Mr. Coulter handed to the Commission a report pertaining to conflict of interest. Mr. Coulter mentioned that there have been recent newspaper and wire service stories concerning some European trips taken by Highway Division employees inferring improper allegations about equipment purchases and suggesting that firms are not receiving equal treatment. Mr. Coulter said investigation of the Division's purchasing practices indicates that there has been no favored treatment given any firm. (Copy of Mr. Coulter's detailed report on file in the Commission's files, Salem.)

Mr. Burco said his policy pertaining to the conflict of interest will be presented at the formal meeting this morning.

The Commission moved their meeting to the Conference Room 122 at 10:05 a.m. Others present were: Don Streun, Assistant Director of Administration; E. S. Hunter, Manager of Technical Services; Dennis Moore, Administrator of Public Transit; Robert Bothman, Administrator, Metropolitan Branch; J. B. Boyd, Right of Way Manager; and Glen Green, Federal Highway Administration.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of February 22, 1978, and the telephone meeting of March 16, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2671" on file in the Commission's files, Salem.)

- 3) Authorized increase in project authorization on the following contract:
 - a. Contract No. 8655, Grant County Line-Call Meadows Road Section, John Day-Burns Highway, Harney County, in the amount of \$133,147.51.
- 4) Surveys:
 - a. Brogan Hill-Brogan Section, John Day Highway, Malheur County. ("Highway Corridor & Design Resolution No. 427" on file in the Commission's files, Salem.)
 - b. Remote Section, Coos Bay-Roseburg Highway, Coos County. ("Highway Corridor & Design Resolution No. 427" on file in the Commission's files, Salem.)
 - c. Monitor Road Junction Section, Hillsboro-Silverton Highway, Marion County. ("Highway Corridor & Design Resolution No. 427" on file in the Commission's files, Salem.)
 - d. Little Nestucca River-Neskowin Section, Oregon Coast Highway, Tillamook County. ("Highway Corridor & Design Resolution No. 428" on file in the Commission's files, Salem.)
- 5) Supplemental Agreement No. 1 with the Columbia Region Association of Governments covering the transfer of funds for a transportation study in the Portland-Vancouver Area and authorized Assistant Director for Operations to sign agreement.
- 6) Federal Aid Urban System Projects and authorized the State Highway Engineer to sign agreements when prepared as follows:
 - a. Request from City of Grants Pass for a preliminary engineering project to prepare contract documents for a future project to interconnect traffic signals on 6th and 7th Streets. Total cost \$40,000; Federal Funds \$34,400; State's Share \$2,800.
 - b. Request from City of Salem to upgrade the existing signal at the Center Street and Lancaster Drive Intersection. Total cost \$50,000; Federal Funds \$43,000; State's Share \$3,500.

- c. Request from City of The Dalles to upgrade and interconnect traffic signals on Union, Washington and Laughlin Streets at 2nd and 3rd Streets. Total cost \$150,000; Federal Funds \$90,700; State's Share \$7,380.
 - d. Request from Wasco County to acquire right of way and construct a 0.47 mile segment of West Snipes Street (Mosier-The Dalles Highway-West 10th Street Section). Total cost \$236,000; Federal Funds \$202,960; State's Share \$16,620.
- 7) Adopted resolution abandoning from the State highway system a short segment of highway alignment in the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. ("Abandonment Resolution No. 570" on file in the Commission's files, Salem.)
 - 8) Adopted resolution designating the Belt Line Road and a portion of West 11th Street as the Belt Line Highway, State Primary Highway No. 69. ("Primary Highway Designation Resolution No. 54" on file in the Commission's files, Salem.)
 - 9) Cancelled a previously approved Safer Off System Roads Project and approved requests for two projects as follows: (Granted authority to the State Highway Engineer to sign the agreements when prepared.)
 - a. Request from City of Canby to cancel a previously approved project on N. Juniper Street and N.E. 3rd Avenue. City is unable to provide the required matching funds.
 - b. Request from City of Central Point to reconstruct a three-block segment of East Pine Street (3rd Street-6th Street Section). Total cost \$102,000; Federal Funds \$64,500; Local Share \$37,500.
 - c. Request from the City of Salem to improve a 0.08 mile segment of Hilficker Road easterly of Sunny-side Road. Total cost \$58,000; Federal Funds \$49,880; Local Share \$8,120.
 - 10) Adopted as a permanent rule an amendment to the State Park Regulations to prohibit the use of skateboards and other similar devices in Ecola State Park for the safety of the public. ("State Parks Resolution No. 39G" on file in the Commission's files, Salem. Rule was filed with the Secretary of State on March 30, 1978, and will be published in the Administrative Rule Bulletin on April 15, 1978.)

- 11) One new interstate project and a change in the scheduled program year for a primary project on the Six Year Program as follows:
 - a. Construction of a full interchange at Nelson Point (20 miles southeast of Baker) on the Old Oregon Trail in Baker County. Estimated cost is \$750,000 with Federal participation of \$691,800 and local match of \$58,200.
 - b. Queen Avenue-Corvallis-Lebanon Highway on the Albany-Junction City Highway in Linn County, involving 4.9 miles of widening was shown in the Six Year Program as 1984. Project to be constructed in 1982 in order to provide for anticipated traffic projections.
- 12) Two requests for FAS-C Projects as follows and authorized the State Highway Engineer to sign agreements when prepared:
 - a. Request from Crook County to overlay an 8.4 mile segment of the Ochoco Ranger Station Road and to replace a structure over Ochoco Creek. Total cost \$462,000; Federal Funds \$397,320; State's Share \$32,340.
 - b. Request from Lake County to realign two sections of Buck Creek Road. Total cost \$219,000; Federal Funds \$188,340; State's Share \$15,330.
- 13) Adopted as a permanent rule the Attorney General's Model Rules of Procedure under the Administrative Procedures Act as amended and effective November 25, 1977. (Rules were changed to reflect revisions made by the 1977 Legislature.) (See "Administrative Rule File No. 99" for booklet of Model Rules. Filed with the Secretary of State on March 29, 1978, and will be published April 15, 1978, in the Administrative Rule Bulletin.)
- 14) Supplemental agreement with State Marine Board, Department of Fish and Wildlife, Confederated Tribes of the Warm Springs Reservation of Oregon, and Bureau of Land Management covering cooperative planning and management of recreational uses along the Deschutes Scenic Waterway, extending from Pelton Re-regulating Dam to the Columbia River (excluding the City of Maupin). (Authorized Chairman to sign agreement.)

- 15) Trust Agreement with Bonneville Power Administration covering relocation of a section of their Santiam-Chemawa transmission line to accommodate the construction of the new Chemawa Indian School. Cost of relocating the transmission line is estimated at \$142,000 which will be reimbursed by the State and FHA. FAI funds for the work are estimated at \$131,000 with the State providing approximately \$11,000. (Authorized State Highway Engineer to sign agreement.)
- 16) Grant Agreement Amendment No. 2 with the Federal Railroad Administration for a \$63,465 planning grant for fiscal year 1978 and granted authority to go to the Emergency Board for an increase in expenditure limitation of \$63,465 in Federal Funds. (Authorized Director to sign agreement.) State General Funds will be matched in the amount of \$7,052.
- 17) Adopted a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$79,200 for an Airport Development Aid Program Project at the Lebanon State Airport. Total cost of the project is \$88,000 and is for acquisition of additional property adjacent to the airport. ("Aeronautics Miscellaneous Resolution File No. 15" on file in the Commission's files, Salem.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| Location Engineer | Exhibit E |
| Chief Counsel | Exhibit F |

Mr. Bell mentioned that Mr. Coulter had sent to the Commission letters dated March 20, 1978, for their information on the following projects:

- 1) Correction of a fill slide on the Old Oregon Trail approximately two miles west of the Hilgard Interchange, west of La Grande, Union County, location survey.
- 2) Mt. Hood and Hood River Highways flood repair, Hood River County, location survey.
- 3) Second Street Overcrossing of I-80N in Hood River, Hood River County, location survey.

March 28, 1978

- 2424 -

DIRECTOR'S REPORT

The Commission considered a personal and professional services agreement with William O. Bates for services in audio-visual technology for the Highway Division. Mr. Streun said the consultant would assist the Division in using its equipment to produce training programs to develop bridge inspection, roadway asphalt recycling, truck clutch and brake adjustment and accident avoidance programs. The cost for twelve months would not exceed \$12,000. There was considerable discussion concerning the need of hiring consultants, doing the training with Department personnel and the possibility of an alternate program. Commissioner Coleman moved that this item be deferred until the next meeting and to come back with an alternate plan. Motion failed for lack of a second. Commissioner Walsh moved to veto the approval of the agreement. It was seconded by Commissioner Brix. Commissioner Coleman voted for the veto and Commissioner Hollern voted against the veto. Chairman Jackson abstained from voting. Motion carried not to hire the consultant.

Mr. Bell presented to the Commission an updated list of proposed bills that the Department will present to the 1979 Legislature. (Listing of proposed bills on file in the Commission's files, Salem.) He said the only major revision proposed is to change the status of Parks from a Branch to a Division. He stated these legislative changes for the next session must be submitted to the Executive Department by April 15, 1978. He asked that if the Commission had any questions or comments to advise him prior to the 15th of April.

Mr. Bell reported that since the last Commission meeting he and Mr. Klaboe have been talking to various counties, cities, chambers and the news media around the State explaining the Six Year Program that was adopted by the Commission last month. He handed to the Commission copies of a brochure (Measure 5 Fact Sheet) which explains the inter-relationship of the revenue measures and the Highway Fund. (Brochure on file in the Commission's files, Salem.) Mr. Bell indicated that the response so far has been excellent. The Chairman recessed the meeting for ten minutes to view the Ballot Measure 5 Slide Presentation. Mr. Bell said each Highway District Engineer has copies of these slides along with a supply of fact sheets. The Commission complimented Mr. Bell on the excellent slide presentation.

The Chairman inquired if there would be any legal restrictions if the Commission arranged for slide presentations. Mr. Barrie thought it would be proper as the Commissioners are not employees of the Department. He said the Commissioners can campaign on behalf of the bill.

Mr. Burco said that during the noon hour they would be presenting to the Commission some alternative program assumptions under Program B and under the assumption of the gas tax passage. He said next month they would be presenting to the Commission the conceptual zero-base budgets for each of the Divisions.

Mr. Burco mentioned that the Department has been in discussion with the Executive Department concerning a review of the tourism program and funding issues affecting General Funds and Highway Funds, particularly looking at funding of the State Police and some of the services in the Motor Vehicles Division and the Traffic Safety Commission. Mr. Burco indicated that the Executive Department has agreed to conduct such studies and to participate with the Department in a really hard scrutiny of some of the diversions of the Highway Fund. He mentioned another item that was discussed pertaining to some long-range economies that would come from moving the Computer Center from Motor Vehicles Office into a new State building in the Capitol Mall. Mr. Burco called on Mr. Harry Anderson of the Information Systems Branch to report on this proposal.

Mr. Anderson said the Executive Department had asked that ODOT's Computer Center be combined with theirs. He said there was concern for losing control of the Computer Center's equipment and personnel and the risk of monies leaving the Highway Trust Fund for other uses. He said the Executive Department came back with the proposal to co-occupy the new State building with the Executive Department. The main reason the Executive Department asked the Division to move its Computer Center into the new building is to get the heat from the computer to use along with theirs to heat the building thereby saving energy. He commented on the cost and savings involved in moving which would about break even. He mentioned that in the long run there would be a savings to the Department and some eventual savings to the Highway Fund. It would also be an advantage to have the Motor Vehicles personnel in one area instead of three different locations. The estimated cost to move the center would be \$29,000.

Mr. Burco said he had looked the proposal over and had been in several meetings with Mr. Grover and the Executive Department and he felt the long-range gains outweigh the short-term costs and the move to the new building would be economically feasible.

Mr. Grover stated that he has been satisfied with the discussions and is in favor with the move providing they can guarantee at least the present level of service.

The Commission approved the move of the Computer Center.

Mr. Burco commented on the recent newspaper articles dealing with employee travel and allegations of improper actions in bid awards concerning purchase of equipment. He said that he asked the Purchasing Division, Department of General Services, for a thorough report. Mr. Burco read the report as follows:

Review of Highway Division purchases in conjunction with Trail Equipment Company. After complete review based on our file information regarding the four transactions in question between the Highway Department and Trail Equipment Company, we conclude that all purchases made through this Division are in compliance with State Purchasing Laws and General Services Policies regarding purchasing.

Mr. Burco mentioned that he reviewed the Department's conflict of interest policy statement and has tightened it with respect to acceptance of gifts. The present policy states that employees are to avoid potential conflicts of interest and acceptance of gifts; meals, travel and lodging should normally be paid for by the employee through his expense allowance. He said there is added under that policy an eighth point which basically says meals, traveling and lodging should not be accepted unless the employee is participating in an event in an official capacity, such as a luncheon speaker and the Director has approved the participation if expenses exceed \$50. Mr. Burco felt this was an appropriate response to some of the questions. He said that he can find no evidence of wrong-doing. He pointed out that the organization has been and is cleanly run.

The Commission confirmed the date of Tuesday, April 25, 1978, for the next meeting and lunch with the Boards of Directors of the Transit Districts. They set Wednesday, May 24, 1978, for the following meeting.

Mr. Burco mentioned that April and May are going to be the busy months for debates on the Federal legislation of the Howard Transportation Bill and that he would make a report to the Commission next month on this legislation.

OPERATIONS

Consideration was given to adopting as a permanent administrative rule regulations for business identification signs. Mr. Boyd said a hearing was held on February 17, 1978, and there were two individuals that presented testimony. A letter was received from the Federal Highway Administration and Mr. Art Jensen testified orally. He said that he has reviewed the testimony and the communication from the Federal Highway Administration and their comments have been appropriately taken care of by the testimony of Jack Sollis in which certain portions of the regulations have been revised. The Commission

adopted the regulations for business identification signs as a permanent rule as recommended by Mr. Boyd. (Copy of rule filed with Secretary of State on March 30, 1978, and will be published in the Administrative Rule Bulletin on April 15, 1978. See "Administrative Rule No. 95B" on file in the Commission's files, Salem, for regulations.)

Mr. Bothman reported on the Basin/Going and Greeley/I-5 Projects in the City of Portland (Swan Island Access) by way of a display map. He said a public hearing was held on March 15, 1978. He briefed the Commission on the studies which have been going on since the early 1960's to date. Several projects were talked about concerning access but no solution was reached. He said the problem is still there today with all the industry on the Island and with the increase of traffic volume. Mr. Bothman stated the Department is moving towards a resolution at the City Council level probably next month and to the Transportation Commission in two or three months. He handed copies to the Commission of the Draft Environmental Impact Statement Volume 1 Summary of the Swan Island Transportation Access. (Copy of report on file in the Department's Library.)

Representative Paul Hanneman and Senator Del Isham appeared before the Commission concerning the Nehalem Bay State Airport in Tillamook County. Mr. Hanneman introduced the following individuals from Manzanita: Paula Edwards, Council Member; Howard Wilson, City Manager; Irving Carr, Planning Commission; Colin Handforth, City Engineer and Glen Eason, CAC Member of Nehalem. He said they became concerned when they heard that the airport lease is going to expire in 1983. He mentioned that Mr. Wilson has photocopies of the log of the airport and copies of support letters from the pilots who use the facility. Mr. Hanneman stated the highway situation is not good in that section of the coast and the pilots who do use the airport appreciate not having to use the road system. He thanked the Department for some of the recent efforts that have been made with limited funds to help some of the highway problems.

Senator Isham said to his knowledge no improvements have been made at the airport since it was constructed 20 years ago. He mentioned that local citizens would like to take it upon themselves to make some improvements with donated material and labor which cannot be done if the lease expires in 1983. He asked for an extension of the lease from the State Parks Branch to the Aeronautics Division or some designation that it would become a permanent airport. The Senator said the airport needs surfacing, hangers, fencing, caretaker's office, car rentals and a public telephone. He encouraged the Department to work with local citizens in obtaining these needed improvements and he asked the Commission to help in speeding up the planning process that would allow the modest developments to take place and any financial assistance that could be provided. Senator Isham said that he was convinced that the airport would in no way interfere with recreational needs of the area. He thought the Parks Branch and the Parks and Recreation Advisory Committee should be able to move quickly on this issue.

March 28, 1978

- 2428 -

The Senator said that he had heard the Motor Vehicles Division is moving their mobile testing unit from the Elks Lodge parking lot in Lincoln City to the D Wayside State Park. He thought this move would cause problems because of the heavy traffic at the D Wayside.

Chairman Jackson said the Commission has depended on the Parks Advisory group over the years to advise them on the maintaining of the type of environment that the State bought and paid for in these parks. He mentioned the Commission has to be rather sensitive about anything that will change that environment. The Chairman mentioned that the Commission will be in Astoria in June and at that time will take a look at the Nehalem Airport.

Attention was given to a consultant agreement for the preparation of the final Environmental Impact Statement on the Banfield Transitway Project in Multnomah County. Mr. Klaboe said the Department does not have the staff available to do the statement during the period of June and October and is recommending the hiring of a consultant. The project is eligible for Federal Aid funding. The Commission authorized Mr. Klaboe to solicit consultants to do the final Environmental Impact Statement. Mr. Klaboe stated when a consultant has been selected and the scope of the work identified, that he will present the agreement to the Commission for approval of the cost.

The Commission considered a 1978 Special City Allotment Project, Main and Hood Streets (Locust to Pine) in the City of Sisters. Mr. Klaboe recalled that at the October 1977 Commission meeting a project was approved on Main Street as a State-administered project. Arrangements are now being made for a City-administered project. He recommended approving the additional of Hood Street to this project. The estimated cost of the combined project is \$34,000, of which \$25,000 less State expenses would come from Special City Allotment Funds. Following his favorable recommendation, the Commission approved the project.

Mr. Glen Green, Division Administrator, FHA, introduced Mr. L. E. Lybecker, Regional Administrator, FHA. Mr. Lybecker presented to the Commission a first-place award plaque to the Oregon Department of Transportation in the category "Outstanding Section of Highway in Its Rural Environment (Mountain)" for the Crooked River Highway in the 1977 "Highway and Its Environment" contest. Mr. Lybecker presented a first-place certificate to Mr. R. L. Coats, contractor on this project. In response to Chairman Jackson's inquiry, Mr. Klaboe said the design and supervision of this project was the responsibility of Ed Hunter, Manager of Technical Services.

The Commission considered a request from the City of Salem for approval of a project utilizing Interstate Transfer Funds withdrawn from the I-305 Freeway in Marion County. Mr. Coulter stated that the request is for a \$12,904,000 project to construct an arterial replacement for I-305 from the proposed Chemawa Interchange to the Commercial Street-Liberty Street Couplet near Hickory Street in the City of Salem. The City will provide all of the required \$1,806,560 of local match. Mr. Coulter mentioned that the project has been investigated and is eligible for funding and he recommended approval. The Commission accepted his recommendation and authorized him to sign the project agreement.

Mr. Coulter recalled that at the January 1978 Commission meeting the Commission delayed taking action on adopting beach improvement standards. Mr. Coulter pointed out that on February 10, 1978, the Department of Land Conservation and Development took the following action relative to the Beaches and Dunes Goal and the Department of Transportation's proposed administrative rule on Beach Improvement permits:

- 1) Announced LCDC intention to amend the goal to delete the word "development" in implementation provision number 5 and substitute the word "improvement" as defined in ORS 390.605. This amendment would occur after July 1979.
- 2) Directed DLCD staff to work with the Department of Transportation to encourage ODOT to apply all relevant portions of the Beaches and Dunes Goal. It was the Commission's opinion that other portions of the goal are also applicable to the proposed administrative rule on Beach Improvement permit issuance in compliance with the goal's intent.

Mr. Coulter mentioned that on March 3, 1978, he met with Deputy Director James F. Ross and Nancy Tuor from the DLCD staff to discuss the issue and concerns about the Department's proposed standards. Mr. Coulter stated that this matter has been reviewed with the Department's Legal and Parks' staff. Mr. Coulter recommended adoption of the standards as previously prepared with the following modification in item A.6 on page 3:

COMPLIANCE WITH LCDC GOALS - In accordance with the Statewide Land Conservation and Development Commission Goal #18 for Beaches and Dunes, permit applications for beachfront protective structures seaward of the beach zone line will be considered only where development existed on January 1, 1977. The proposed project will be evaluated against the applicable criteria included within Goal #18 and other appropriate Statewide planning goals.

The project must be consistent with local comprehensive plans where such plans have been approved by LCDC.

The Commission adopted the beach improvement standards as a permanent administrative rule. (See "Administrative Rule No. 96" on file in the Commission's files, Salem. Rule filed with the Secretary of State on April 5, 1978, and will be published in the Administrative Rule Bulletin on April 15, 1978.)

Mr. John Sheldrake presented copies of the March 8, 1978, Winter Recreation Advisory Committee meeting minutes. He said the Motor Vehicles Division reported winter recreation parking permit sales of \$256,276 through February 15, 1978, with administrative costs of \$18,879 for a net of \$237,397. Mr. Sheldrake stated the Committee recommended that the signing developed for the program be continued except the legend SNO be altered to SNOW. Another recommendation was to change the parking permit format to an adhesive sticker or decal for the season permit. He mentioned since the meeting it was found out that the Motor Vehicles Division cannot adopt a window-type sticker as the decal would have to be completely transparent. Mr. Sheldrake pointed out that the Motor Vehicles Division is now working on a design for a bumper sticker. (Copy of Winter Recreation Advisory Committee minutes on file in the Commission's files, Salem.)

The Commission considered a request from Mr. Tom Wiik and Mr. Willem Kleyne for subdividing 45 acres and road construction within the Rogue River Scenic Waterway in Josephine County. Mr. Talbot said approximately four acres would be within the scenic waterway and the change of land use and the construction of an access road are within the Commission's jurisdiction. The Commission approved the request as recommended by Mr. Talbot.

Consideration was given to a request from Patrick Patterson to build a new residence for his own use in the classified Burnette River Community Area on the left bank approximately one mile upstream from the Robertson Bridge within the Rogue River Scenic Waterway in Josephine County. Mr. Talbot and Mr. Potter displayed a model of the proposed house site and explained Mr. Patterson's proposal. Maps and an aerial photo were also submitted. (Copies are on file in the Commission's files, Salem.) Mr. Talbot said Mr. Patterson would place the house above a bend of the main navigational channel from which it would be clearly visible from boats traveling either upstream or downstream for 800 feet or more. Mr. Talbot recommended approval of a modified plan with the following stipulations:

- 1) The main structure shall be located at least 15 feet back (upland) from the existing cut.
- 2) The deck on the riverside shall not extend more than eight feet beyond the main structure.

(continued on next page)

- 3) Existing vegetation between the site and the river shall be maintained.
- 4) Additional evergreen vegetation, to reach a height of at least 6-8 feet, shall be established on the basement level terrace and placed to effectively screen this level from view from the river.
- 5) All requirements of Josephine County shall be satisfied.

Mr. Potter showed slides of the area.

Mr. Patterson was present and commented on his proposal and presented color prints of the proposed building site taken from the river and from the land. He also showed his slides of the building site. (Color prints of the area on file in the Commission's files, Salem.) He said it was not agreeable to him to move the building back 15 feet.

After considerable discussion, the Commission gave their approval for Mr. Potter of the Parks' staff to work out a compromising settlement with Mr. Patterson. Later in the day, Mr. Patterson and Mr. Potter met and agreed to the construction contingent upon compliance of the following stipulations:

- 1) The main structure shall be located at least 12 feet back (upland) from the top of the existing cut.
- 2) The deck on the riverside shall not extend more than eight feet beyond the main structure.
- 3) Existing vegetation between the site and the river shall be maintained.
- 4) Additional evergreen vegetation, to reach a height of at least 6-8 feet, shall be established on the basement level terrace and placed to effectively screen this level from view from the river.
- 5) All requirements of Josephine County shall be satisfied.
- 6) Construction shall begin within one year and the exterior shall be completed within six months after it is commenced.
- 7) The Commission shall be notified when construction begins and when the exterior has been completed.

Following Mr. Talbot's recommendation, the Commission gave their approval to submit a request to the Emergency Board to increase the current expenditure limitation on grant-in aid to local governments for construction and improvements of parks along the Willamette River in the amount of \$160,000.

Mr. Talbot reported on the 1979-81 Parks budget preparation. He mentioned that the zero-base budget concept is referred to as the Alternative Program Levels System and requires agencies to prepare a base budget at a reduced funding level not to exceed 85% of the amount considered necessary to continue current programs at the same levels during the 1979-81 biennium. Mr. Talbot presented the following lists:

- 1) Priorities to be used in developing decision packages
- 2) Outline of 1979-81 budget
- 3) Prioritized decision packages
- 4) Deferred decision packages
- 5) Revenues

(Detailed report and lists on file in the Commission's files, Salem.) The Commission complimented Mr. Talbot on an excellent budget, well written and understandable.

Upon Mr. Burket's favorable recommendation, the Commission approved a financial aid to municipalities grant to Redmond in an amount not to exceed \$29,317 for a project to construct and light a new taxiway and purchase a sander/snowplow truck.

Commissioner Walsh inquired about the status of the fill permit at the North Bend Airport in Coos County. Mr. Burket said the dredge has been moved back up the estuary and the Corps of Engineers has until the middle of May to move it back down in position again adjacent to the airport.

Mr. Moore advised the Commission of the progress to date on efforts to prepare an intercity public transportation program to present to the Emergency Board for funding by June 1978. Mr. Moore pointed out that the Department will be presenting a five-point program as follows:

(continued on next page)

- 1) A public transportation improvement project in Central and Eastern Oregon. This may involve assistance to the John Day area.
- 2) A coastal public transportation improvement project which would likely involve shelters, depots and marketing for public transportation services.
- 3) A Statewide marketing program to improve the public's awareness of and use of intercity public transportation.
- 4) Assistance to Polk County providing improved intercity public transportation services between Polk County communities and Salem.
- 5) Participation in the Transportation Center study being conducted by the Port of Portland.

The project which has advanced most in the Department's planning is the Transportation Center study in the Portland Metropolitan Area. The Port of Portland, Mr. Moore said, is the lead agency and has prepared a scope of work for this study. The Department has reviewed it and made comments and the Port has incorporated most of the Department's recommendations. Basically, it anticipates the study of a potential intercity modal terminal in the proximity of Union Station in Portland. He stated the project totaling \$130,000 envisions funding from the City of Portland in the amount of \$43,333, the Port of Portland \$43,333 and the Department of Transportation \$23,333 along with a commitment from Tri-Met in the amount of \$20,000. Mr. Moore said the Port of Portland will be notified that the Department will commit \$23,333 of State General Funds from the \$300,000 appropriated to the Emergency Board for intercity activities. This commitment, he said, would be conditional upon release of funds from the Emergency Board at their June 1978 meeting. Mr. Moore advised the Commission that he would keep them advised as to how the program develops. The Commission concurred with Mr. Moore's report and expressed concern that the money not be spent for the design study if it did not look feasible in the early stages for such a project.

The Commission gave their approval to Mr. Moore's request to appear before the Emergency Board to request that the City of Reedsport will be included in the Urban-Rural Operating Assistance Program. Mr. Moore said the City's Federal Demonstration Grant will terminate June 30, 1978, and the City has requested that they be included in the State's operating assistance program. The City of Reedsport's inclusion, he said, will require no additional appropriation of funds and the State's commitment shall not exceed \$10,000 during the next fiscal year.

Following Mr. Moore's favorable recommendation, the Commission approved the following guidelines for the Urban-Rural Capital Assistance Program:

- 1) Match funds shall only be made available to municipal corporations having populations of less than 50,000 or districts which contain no cities of larger than 50,000 population.
- 2) Recipients of these grants must fulfill all the planning requirements and all the capital grant requirements of the Urban Mass Transportation Administration. Funds will not be released until approval of the capital grant application by UMTA.
- 3) State match grants shall be limited to 10 percent of project costs; one-half the local match requirement under existing Federal programs.
- 4) State funds shall be used for buses with normal accessories such as fare boxes, tires, air-conditioning, wheelchair ramps and lifts, and radios as part of the bus purchase prices; and other passenger-related facilities such as shelters.
- 5) In order to receive State funds, buses shall be made available for use by the general public within the operating system of the recipient.
- 6) State funds shall not go to any individual community within a transit district or a transportation district boundary. Only the district may receive funding.
- 7) Recipients of these grant funds must purchase buses which are accessible to the handicapped or insure to the Division's satisfaction that the needs of the handicapped for transportation have been considered and will be met through special programs.
- 8) All requests for such funds must be approved by the Transportation Commission before funds can be released to the recipients.

Mr. Moore mentioned that Roseburg and Albany have requested funding under this program and both cities meet all guidelines proposed. Roseburg is applying for Federal funding of three buses, radio equipment and shelters and has requested \$17,000 in matching State Funds. He said the City of Albany received \$25,000 in funding from last biennium's program for three buses; however, the only bid responding to the specifications was substantially above the approved budget. He said additional Federal Funds are available and the City of Albany and Linn County will accept the bid if the State will also participate. One-half of the local match for the additional cost totals \$16,062. The Commission approved the two requests.

Mr. Grover reported on the mandatory liability insurance funding and the law that will go into effect on July 1, 1978. He said the Division made their request at the February Emergency Board meeting and that Representative Klein raised the question that the Division read the bill literally and the guidance that was received from the Attorney General he felt was too literal. Representative Klein felt the intent of the Legislature was that the Division would be able to operate at a lower level of compliance, allowing the public to sign an affidavit that they had liability insurance or were in the process of obtaining insurance.

Mr. Grover said the Emergency Board suggested in the interest of savings that the Department prepare an administrative rule and take it before the Legislative Counsel Committee for clarification on the intent of the law. He said this has been done to see if the Division could operate at a lower level of compliance or read the law in a different way. The Committee indicated they did not feel it was within the intent of the law and took no action. They suggested the Division discuss the matter with the Attorney General and the people involved in the intent discussion to see if the Department could find some other way of looking at the compliance level. Mr. Grover stated a meeting is scheduled April 4 with Mr. Redden, Attorney General, Legislators and Legislative Counsel to see if there is any kind of flexibility. He mentioned all guidance that has been received from the Attorney General so far indicates that the package submitted in February will be the one that will be required to carry out the intent of the law. Mr. Grover said this will be presented to the Emergency Board again on April 6, and unless the meeting of April 4 comes up with some flexibility to cut the cost and still carry out the law, that is what the Division will be asking for again.

Mr. Grover reported on a new law that went into effect this year giving the Motor Vehicles Division an investigative unit to work with the automobile dealers in the licensing area. He felt the State has a responsibility to help the dealers comply with the law and take an educative approach rather than the enforcement approach. The program is intended to pay for itself through the increase in the number of dealers who become licensed.

Mr. Grover stated the program became operational on November 1 last year with two investigators and one secretary. So far, he said, there have been 355 investigations of dealers and 76 were found unlicensed. He mentioned when dealers are operating in violation of the law, the State Police are called and they are given a period of time to become licensed. He said if they do not comply, then they are cited.

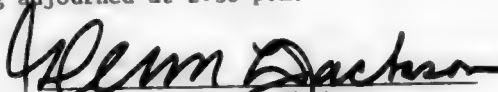

Mr. Grover mentioned that his Division is cooperating with the State Police, the Attorney General and the Motor Vehicle Departments in other states, and have become involved in areas such as odometer roll-backs which lead to dealers receiving a higher price out of the car. It is estimated, he said, that Oregonians lose as much as \$6 million annually just on the roll-backs of odometers.

The Chairman adjourned the meeting at 12:45 p.m.

The Commission and staff met at 1 p.m. in Room 120 of the Transportation Building to review the budget projections for 1979-81. Mr. Merl Whiteman, Manager, Finance Branch, explained the budget with six alternatives with the use of colored charts. Mr. Coulter commented on results of activities that would be cut back by a \$10 million reduction under the Alternate B-3 program.

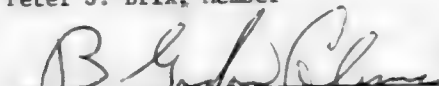

The Commission asked staff to explore further the issue of direct funding for metropolitan area transit districts, such as Tri-Met. They also asked that staff explore further with the Executive Department the allocation of costs and services for the State Police. The Commission suggested that this same type of budget briefing be presented to the Executive Department and Legislative Fiscal.

The budget meeting adjourned at 2:30 p.m.

MINUTES OF 3-28-78

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority
(Confirmation)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

- 1) On March 3, 1978, approved an agreement with Timber Service Company to allow State to haul pit run rock material from Timber Service Company's quarry and for them to have the same right to haul pit run rock from State's quarry on the Santiam Highway. Agreement provides that an equal amount of rock will be taken from both quarries. (Linn County)
- 2) On March 9, 1978, approved an agreement with MEI-Charlton, Inc., covering investigation of the failure of one of the anchorage areas of one of the two prestressed girder stems for the Steel St. Pedestrian Undercrossing on the S.E. Bush Street-S.E. Foster Road Section of the East Portland Freeway, Multnomah County. Cost not to exceed \$11,800.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7564 Alex Powell v. Department of Transportation, et al.: This case involves an accident that occurred on February 3, 1976, in which the plaintiff was operating a vehicle and collided with a large boulder on I-5 in the City of Portland. The plaintiff has alleged the negligence of the department in failure to keep the highway free of rocks and boulders. The amount of the lawsuit is \$50,250.00 and the matter has been referred to the Attorney General for the defense of the State.

L-7565 Marvin O. Thornton v. Department of Transportation and William A. Hamlin: This case involves an accident that occurred on February 19, 1976, in which the plaintiff, while driving a truck and trailer, collided with a snowplow operated by the defendant Hamlin, a State employee. The plaintiff is alleging the negligence of the Highway Division employee in failing to maintain reasonable control of the vehicle and reasonable lookout for other vehicles. The plaintiff is seeking \$264,394.25 in damages. The matter has been referred to the Attorney General's office for the defense of the State and its employee.

L-7578 State v. Arthur D. Kinman and Oregon Willamette Lumber Co., Inc.: This action seeks an Injunction to prevent property owners adjacent to Highway 101 in Lincoln County from interfering with the Highway Division's drainage system. (Lincoln County Circuit Court)

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
APRIL 25, 1978

April 25, 1978
Salem, Oregon

The Oregon Transportation Commission met at 8:30 a.m. in the Director's Office, Room 135, Transportation Building. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
George Bell, Manager of Intergovernmental and Public Affairs
Larry Rulien, Assistant Director for Transportation Policy and Program Development
Dennis Moore, Administrator of Public Transit
David G. Talbot, State Parks Superintendent
Harold Grover, Administrator of Motor Vehicles
Vinita Howard, Public Information Officer for Motor Vehicles Division
H. S. Coulter, State Highway Engineer
Bill Hayden, Manager of Policy Development Section
Fran Neavoll, Commission Services
C. W. Head, Manager, Commission Services

Mr. Moore presented a pamphlet entitled "Policy Paper on the Oregon State Role in Public Transportation". There was discussion concerning policy decisions affecting public transit. Mr. Moore explained the budget process and specifically the budget for Tri-Met. The Commission asked that the policy paper on public transportation not be distributed until they have had an opportunity to review the paper. (Copy of policy on file in the Commission's files, Salem.)

Mr. Burco said that he had met with Larry Sprecher of the Executive Department and presented the budget to Executive Fiscal regarding PUC, State Police and outside agencies funded from the Highway Fund. Mr. Burco indicated that the Executive Department wants to have a 60-day study and will come back with an analysis.

There was discussion concerning the budget timing, and it was suggested that the Commission hold their next meeting on May 30 with a workshop session.

Mr. Talbot discussed with the Commission the Tillamook Head Land Exchange issue. He mentioned that the Clatsop County Court will be meeting April 26 to resolve the matter. The Commission decided not to take action but would do so on Thursday, April 27, with a telephonic meeting after the County has acted. (See page 2486.)

Mr. Grover and Mrs. Howard discussed with the Commission a personal and professional service contract with Denny, Leigh, Ross and Wright pertaining to television and radio public service announcements having to do with the mandatory liability insurance requirement. They informed the Commission that the State does not have the personnel and equipment to do this type of professional work. Mr. Grover said the contract is not to exceed \$6,324 for a period beginning May 1, 1978, to June 20, 1978. The Commission approved the contract as recommended by Mr. Grover and authorized him to sign the contract.

Mr. Bill Hayden reported on the Federal legislation in Washington, D.C. He commented on the Howard Bill and the new money for rural transit operating assistance and bridge replacement.

The Commission recessed the meeting at 9:45 a.m. and reconvened at 10:10 a.m. in Conference Room 122. Others present were: Don Streun, Assistant Director of Administration; Walt Barrie, Chief Counsel; E. S. Hunter, Manager of Technical Services; Roger Ritchey, Deputy Administrator, Aeronautics Division; and Glen Green, Division Administrator, Federal Highway Administration.

Mr. Bell handed to the Commission and staff a pocket-sized booklet entitled "Facts About ODOT and its Activities". (Copy of booklet on file in the Commission's files, Salem.)

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of March 28, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2672" on file in the Commission's files, Salem.)
- 3) Authorized increase in project authorization on the following contract:
 - a. Contract No. 8275, Grande Ronde River (Island City) Bridge, Wallowa Lake Highway, Union County, in the amount of \$40,550.70 (5.6% increase).

4) Adopted the following survey:

- a. Beatty Curve (M.P. 42.25) Section, Klamath Falls-Lakeview Highway, Klamath County. ("Highway Corridor and Design Resolution No. 429" on file in the Commission's files, Salem.)

5) Adopted as an administrative rule the amendment of Section 3A-6 of the Manual on Uniform Traffic Control Devices for Streets and Highways as far as its use in Oregon is concerned covering a revision of gap ratio for pavement markings. (See "Administrative Rule No. 94" on file in the Commission's files, Salem.) Rule was filed with Secretary of State on April 27, 1978, and published in the Administrative Rule Bulletin on May 15, 1978.

6) Adopted resolution redesignating a short segment (approximately 4 miles) of the Coquille-Bandon Secondary Highway No. 244 as part of the Oregon Coast Primary Highway No. 9 in Coos County. ("Primary Highway Designation Resolution No. 55" on file in the Commission's files, Salem.)

7) Adopted resolution abandoning from the State Highway System two segments approximately 0.08 and 0.10 mile in length in the Clem Road-Speece Section of the John Day Highway in Gilliam County. (See "Abandonment Resolution No. 571" on file in the Commission's files, Salem.)

8) Six requests from the City of Portland covering Urban System Projects and authorized State Highway Engineer to sign agreements when prepared as follows:

- a. Columbia Boulevard, FAU 9956, Traffic Signals, Six Intersections. Total Cost \$358,500; Federal Funds \$308,310; State's Share \$25,095.
- b. Fremont Bridge-Union Avenue Connection. (Connect North Gantenbein Street to existing ramps of the Fremont Bridge.) Total Cost \$123,000; Federal Funds \$105,780; State's Share \$8,610. (Agreement prepared as Fremont Br.-Kerby Ave. Connec.)
- c. Reconstruct intersection of Burnside Street, Sandy Boulevard and 12th Avenue. Total Cost \$776,000; Federal Funds \$667,360; State's Share \$54,320.
- d. Replace signal equipment at 21 intersections in the Central Business District. Total Cost \$600,000; Federal Funds \$516,000; State's Share \$42,000.

(continued on next page)

- e. Widen Holgate Boulevard and replace existing bridge over the Southern Pacific Right of Way (S.E. 17th Avenue-S.E. 28th Avenue). Total Cost \$3,532,000; Federal Funds \$3,037,520; State's Share \$247,240.
 - f. Signalize the intersection of S.W. Capitol Highway and S.W. Huber Street, FAU 9407. Total Cost \$45,000; Federal Funds \$38,700; State's Share \$3,150.
- 9) Request from Deschutes County for a repair project on the Little Deschutes River (Montgomery) Bridge Section on FAS B345. FAS-C Funds for this project estimated to be \$12,900 with State providing all of required matching funds, approximately \$2,100. Authorized State Highway Engineer to sign agreement.
 - 10) Authorized Aeronautics Administrator to establish fees for aircraft tie-down spaces and for certain commercial activities at State-owned airports. Further authorized the Administrator to contract with concessionaires to collect the tie-down fees and administer this program at each of the affected airports. Also authorized Administrator to contract directly with concessionaires for all commercial activities. This would supplement the "Schedule of Rates and Fees at State-owned Airports" as approved by the Commission at its January 22, 1976 meeting.
 - 11) Financial aid to municipalities grants to the following municipalities and in the amounts not to exceed those listed to be used for airport planning and improvement projects. The amounts shown will constitute one half of the sponsor's matching share for Federally-funded projects as follows:

| | |
|---|----------|
| Florence Airport Master Plan | \$ 258 |
| Klamath Falls Strengthen Portion
of Runway | \$11,055 |
| La Grande Overlay & Strengthen
East-West Taxiway | \$ 8,353 |
 - 12) Request to the Emergency Board to increase the limitation of the Search and Rescue portion of the Aeronautics Division's budget in the amount of \$1,400 for purchase of Search and Rescue Equipment.

- 13) Request from Association of Oregon Counties for a special research project to identify improvements needed in Oregon laws affecting county road administration and to prepare a guide for county road administrators. Total cost \$35,700. Federal Transition Quarter Funds allocated to Oregon counties in the amount of \$32,130 will be used for the Federal share. The AOC and State will each contribute \$1,785 to the cost of project. Authorized Director for Operations to sign the agreement with Association of Oregon Counties.
- 14) Construction of new barriers on the Oregon Slough Bridge on I-5 just south of the Interstate Bridge, Multnomah County. Estimated cost is \$344,000 with Federal participation of \$317,000 and State matching funds of \$27,000. Project to be added to the Six Year Program.
- 15) Agreement with Wilsey and Ham for preparation of the draft Environmental Impact Statement for I-205-Boring Road Section of the Clackamas Highway in Clackamas County for a ten-month period. Cost not to exceed \$65,000. (Authorized Assistant Director for Operations to sign agreement.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

The Commission considered a resolution establishing a Local Officials Advisory Committee to express the concerns of local government, and to work with the Department on policies, programs and activities in local government.

Judge H. B. Elder, Wasco County, representing the Association of Oregon Counties, was present and mentioned that he has been a firm advocate of advisory committees.

Mr. Bill Penhollow, Executive Secretary, Association of Oregon Counties, was also present and stated that meetings with the Department of Transportation personnel have been very beneficial. He

said there needs to be a more formal means of interchanging the concerns at the local level with the State in administering the State's transportation program and he felt this advisory committee would be an effective way of responding to those kinds of policy actions by the Department and the Commission.

In response to Chairman Jackson's question, Mr. Rulien said this committee would be comprised of six members each from the League of Oregon Cities and from the Association of Oregon Counties.

The Commission adopted "Miscellaneous Resolution No. 262," which is on file in the Commission's files, Salem, creating the Local Officials Advisory Committee. By adopting this resolution, the Commission authorized the Director to execute agreements or letters of understanding with the Association of Oregon Counties and the League of Oregon Cities as necessary to implement this relationship.

Mr. Streun stated that the budget calendar calls for the Commission to review the decisions on supplementary funding at their May meeting and mentioned the need for a workshop.

Mr. Burco commented that the budget workshop was discussed earlier and that it will be held on May 30 in Salem, the same day as the monthly Commission meeting.

Mr. Rulien briefed the Commission on rail planning and called on Mr. Dave Williams, Rail Planner, for a status report. Mr. Williams stated that the staff is to determine the impact of abandonment on the communities and shippers, what the costs are of the abandonment and then examine the alternatives to having the line abandoned; for example, subsidizing the line, buying, rehabilitating, etc. He said if the benefits of preserving the service exceeds the cost of preserving the service, then those railroad lines would be eligible for Federal funds.

Mr. Williams pointed out that Federal regulations require that the Department hold a series of public hearings throughout the State. The first hearing, he said, would be for public input on policies the State adopts in relation to the rail program and the second hearing would be for the citizens to review the rail plan.

In reply to the Chairman's inquiry, Mr. Williams stated there are approximately 12 to 15 railroad lines in the State that are currently up for abandonment or the railroad listed them on the system maps as candidates for abandonment.

Mr. Burco asked Mr. Tebeau and Mr. Cranford for a briefing on the Clean Air Act Amendments of 1977. He said that under these amendments, the Federal Government through the EPA can restrict the flow of highway and transit money to non-complying urban areas.

Mr. Bill Tebeau, Operations Planning Manager, read the following excerpt from Public Law 9595 dealing with the Clean Air Amendments of 1977, Part A of Section 174:

"Within six months after the enactment of the Clean Air Act Amendments of 1977, for each region in which the national primary ambient air quality standard for carbon monoxide or photochemical oxidants will not be attained by July 1, 1979, the State and elected officials of affected local governments shall jointly determine which elements of a revised implementation plan will be planned for and implemented or enforced by the State and which such elements will be planned for and implemented or enforced by local governments or regional agencies."

Part B of this Section states:

"The preparation of implementation plan provisions under this part shall be coordinated with the continuing, cooperative, and comprehensive transportation planning process required under section 134 of title 23, United States Code."

Mr. Bill Cranford, Urban Studies Supervisor, presented a report "Impacts of the 1977 Clean Air Act Amendments". In summary, Portland, Salem, Eugene and Medford have been designated by EPA to submit plans by January 1, 1979, to achieve air quality standards by 1982. (Copy of report on file in the Commission's files, Salem.)

The Chairman recessed the meeting while Mr. Bell presented a video tape of three short public service announcements to be shown on television pertaining to clean air, which has been funded under the "Keep Oregon Livable" program.

The Commission set Tuesday, May 30, 1978, for the next meeting in Salem. They reconfirmed June 19 and 20, 1978, for their tour and meeting in Astoria.

Mr. Burco reported that the Washington Transportation Commission wants to meet with the Oregon Transportation Commission in Portland on Monday afternoon, July 17, and dinner in the evening to discuss a third bridge study in the Portland-Vancouver metropolitan area and other matters.

The Commission tentatively set Tuesday, August 15, for their monthly meeting in Salem.

Mr. Burco stated that he was elected Chairman of the Conference of State Departments of Transportation. He invited the Commission to attend the next meeting of this group which is to be held in Portland on August 17, and 18, 1978. The Commission congratulated Mr. Burco on his appointment as Chairman.

At the request of Commissioner Brix and the concurrence of Mr. Barrie, the following letter is entered in the minutes of this meeting:

Glenn Jackson
Chairman, Transportation Commission
920 S.W. 6th Avenue
Portland, OR 97204

Re: Disclosure of Potential Conflict of Interest

Dear Glenn:

The purpose of this letter is to disclose a potential conflict of interest in accordance with the Oregon Conflict of Interest Law (ORS chapter 244).

I own, indirectly, through a controlling interest in Knappton Towboat Co., a substantial interest in Coast Marine Construction Co. of Portland and Harbor Tug & Barge Co. of Coos Bay. As both of these companies bid on state highway projects I have a potential conflict of interest.

Since the Transportation Commission has delegated to you, as Chairman, or to Mr. Hollern, as Vice-Chairman, the authority to award all contracts, I have not personally been involved in any Commission action which would influence any contract awards. Nor have I been involved in any other actual conflict of interest. I, nonetheless, feel that this announcement is in the best interest of the Department of Transportation in order to fully disclose, for the record, this potential conflict of interest. Needless to say, should the occasion ever arise in which a real conflict might occur, I will call it to the attention of the Commission and I will not participate in any Commission or Department business in which such a conflict exists.

I am advised by our Legal Counsel, Walt Barrie, that this letter fully satisfies the requirements of the Oregon Conflict of Interest Law and the rules and regulations of the Oregon Ethics Commission.

(continued on next page)

April 25, 1978

- 2485 -

In addition to sending informational copies of this letter to individual commissioners, copies are also being sent to the Oregon Ethics Commission and to Cecil Head for entry in the minutes of next month's commission meeting.

Sincerely,

Peter J. Brix

(Received in Commission Services on April 4, 1978.)

OPERATIONS

There was discussion concerning the proposed Mill City-Gates bicycle trail. Mr. Klaboe said both Cities have submitted letters indicating that they are against the proposal. The Commission decided not to take any action on the trail at this time.

Attention was given to the settlement of a claim with Clark Painting Company for maintenance painting of two Siletz River Bridges (Contract No. 8297, Siletz Highway, Lincoln County). Mr. Coulter mentioned that following award of the contract in 1975, it was found that more sandblasting and painting was necessary than had been required in the specifications. He said the contractor submitted a claim in the amount of \$174,422.89 for extra compensation for additional work necessitated by the changed conditions. Mr. Coulter said the Division has negotiated a settlement in the amount of \$100,000 as complete satisfaction of all claims. He said this claim and proposed settlement has been reviewed and concurred by the Department's legal counsel. The Commission approved the settlement.

Commissioner Walsh asked if the Bridge Section had thought about using Cor-Ten on future bridges. Mr. Coulter indicated that Cor-Ten has been used on several bridges in the State but that he would check on the economics of it.

Mr. Talbot presented an overview of the 1979-81 budget for the Parks and Recreation Branch.

The Commission did not take action at this time regarding the Tillamook Head Land Exchange. (See page 2479.)

The Commission considered a request from B. A. and Elaine Hanten to construct a storage workshop building with a metal roof within the Rogue River Scenic Waterway in Josephine County. Mr. Talbot recommended approval of the construction providing that all County requirements be satisfied and that vegetation screening the structure from view from the river and from the highway be maintained. Following Mr. Talbot's favorable recommendation, the Commission approved the construction allowing use of the metal roofing.

The Commission considered an agreement with Nature Conservancy for a Natural Area Program from April 25, 1978, to December 29, 1978. Mr. Talbot stated it is a continuing State effort to encourage an ongoing program commitment to maintain up-to-date natural area information. Due to staffing limitations, maintenance on this program would not be possible without some type of contractual arrangement. A funding proposal has been developed that includes participation by the Heritage Conservation and Recreation Service, a Steele-Reese Foundation grant to the Nature Conservancy and the State Parks Branch. He said the total cost of the proposed contract is \$50,700. The State's share of this amount is \$4,550 and the Federal share is \$25,350. Mr. Talbot pointed out that the Steele-Reese Foundation will contribute the remaining \$20,800 to the Nature Conservancy for contractual services rendered. The Commission approved the agreement as recommended by Mr. Talbot.

Following Mr. Ritchey's recommendation, the Commission gave their approval for the Aeronautics Division to submit the following items to the Emergency Board:

- 1) To apply for a Federal grant in the amount of \$20,000 and an increase in budget limitation in the same amount. The \$20,000 Federal grant will acquire technical service for the formulation of State standards and specifications for the construction of airports in the State.
- 2) To allow the Aeronautics Division to accept funds from the Federal Aviation Administration in the amount of \$4,125 and an increase in budget limitation in the amount of \$2,925 for travel expenses. Federal funds are to reimburse the Division for airport inspections accomplished for FAA in accordance with their specifications.
- 3) For the transfer of \$100,000 from the ending balance of the Division's budget into the Financial Aid to Municipalities Program portion of the budget.

Mr. Ritchey presented a budget overview 1979-81 for the Aeronautics Division. He handed to the Commission a report entitled Alternate Program Levels System. (Copy on file in the Commission's files, Salem.)

In reply to Commissioner Hollern, Mr. Ritchey said the names of the Aeronautics Advisory Committee will be presented to the Commission in the near future.

Mr. Ritchey stated that the Division of State Lands have issued a fill permit in the Coos Bay-North Bend Airport and are holding a public hearing there today. He said the Corps of Engineers are expected back at the airport site about the middle of May.

Mr. Moore presented a preliminary Public Transit budget for 1979-81. He said two alternatives have been prepared: one with Tri-Met and one without Tri-Met participating in the urbanized program. (Copy of report on file in the Commission's files, Salem.)

Mr. Moore gave a status report on intercity bus activities. He stated that he will be presenting to the Commission at their May meeting a proposal to go to the Emergency Board concerning the program. He pointed out that this would be a five-part program, including the Portland Terminal, the Polk County bus service to Salem, bus shelters and signs along key areas of the coast. Mr. Moore mentioned briefly the problems of riding the bus to the coast.

Mr. Moore introduced Dave Paoli, who has been working on the intercity study, and Vicki Gates, who is their budget officer.

The Chairman adjourned the meeting at noon. The Commission had lunch with the Boards of Directors of the various Transit Districts at the Loft Restaurant.

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On March 20, 1978, established a 25 MPH speed zone on the Albany-Lyons Highway in Linn County from M.P. 24.13 to M.P. 24.33, south city limits of Lyons. (Speed Zone Order No. 774)
- 2) On March 20, 1978, established the following speed zones on the Pacific Highway East south of Woodburn to 0.47 mile south of the Hillsboro-Silverton Highway in Marion County:

| | |
|--------------------------|--------|
| M.P. 32.42 to M.P. 32.76 | 35 MPH |
| M.P. 33.19 to M.P. 33.34 | 45 MPH |

Rescinds Speed Limit Resolution No. 166 dated 9-23-54 and Speed Zone Rule No. 656 dated 2-19-74. (Speed Zone Order No. 775)

- 3) On March 28, 1978, established a 45 MPH speed zone on the Umatilla-Stanfield Highway, north city limits of Stanfield, Umatilla County, M.P. 10.01 to M.P. 10.20. (Speed Zone Order No. 776)

At your meeting on October 18, 1977 you authorized the State Parks Superintendent or his designate to sign grant-in-aid project agreements. The State Parks Superintendent on November 1, 1977 authorized me to sign these agreements. Pursuant to that authority, and acting in accordance therewith, I approved the following grant-in-aid projects and report them for your official records.

February 28, 1978 - City of McMinnville, Yamhill County - airport park restroom installation - \$2,500.00.

February 28, 1978 - Chehalem Park and Recreation District, Yamhill County - Phase IV development of Crabtree Park - \$905.00.

February 28, 1978 - City of Amity, Yamhill County - purchase and installation of city park play equipment - \$350.00.

February 28, 1978 - Polk County Regional Park and Recreation Agency - play equipment for Buell Park - \$2,380.00.

March 1, 1978 - Yamhill County - fencing and paving parking area in Juliette Park - \$5,375.00.

March 1, 1978 - City of Canby, Clackamas County - Maple Street playground - \$6,500.00.

March 1, 1978 - Aumsville Park and Recreation Commission, Marion County - playground - \$1,250.00.

March 1, 1978 - City of Bay City, Tillamook County - Bay City park improvements - \$1,117.00.

March 1, 1978 - City of Pilot Rock, Umatilla County - Pilot Rock restrooms and tennis courts - \$2,307.50.

March 1, 1978 - City of Grants Pass, Josephine County - ball field in Riverside Park - \$9,260.00.

March 1, 1978 - City of Rockaway, Tillamook County - Rockaway neighborhood park - \$1,000.00.

March 6, 1978 - Wiard Park and Recreation District, Klamath County - Hilcrest and Shasta tennis courts - \$4,000.00.

March 31, 1978 - Lane County - Buford Park picnic area - \$1,500.

March 31, 1978 - City of Sherwood, Washington County - Stella Olson Park playground development - \$6,250.00.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7577 State of Oregon, by and through its Department of Transportation v. DuWayne A. Donnelly: This is a suit in equity for strict foreclosure of a contract. The contract relates to the sale of an access to the defendant by the Highway Division for \$20,000 and there is still remaining the sum of \$16,000 due on the contract. Defendant has not made payments in accordance with the terms of the contract. The matter is being handled by the Attorney General's office. (Contract 7577 - Pac. Hwy. East in Canby, Clackamas County.)

L-7579 Richard and Francis Dunn v. State: This is a lawsuit involving the publication in the Insider's Guide to Oregon of some information relating to "Fort Hoskins" and indicating that the public could visit the site of Fort Hoskins. The site is private property owned by the plaintiffs and as a result of the information published in the Insider's Guide to Oregon a great many people visited the premises. The plaintiff felt that this imposed on their usage of the premises and has asked for actual damages in the amount of \$1,100 and general damages in the amount of \$45,000 and damages for interference with their use and enjoyment of their premises of \$50,000 and mental anguish of \$100,000 and invasion of privacy for \$100,000 for a total amount of \$296,100. The matter has been referred to the Attorney General's office for the defense of the State. (Benton County)

L-7580 Pamela Coplen v. State: This lawsuit involves a collision between a vehicle driven by the plaintiff and a Highway Division vehicle driven by Paul D. Hook. The plaintiff is alleging negligence on behalf of the Highway Division driver and is seeking damages in the amount of \$26,500. The matter has been referred to the Attorney General's office for defense of the Highway Division and its employees. (Highway 101, near Gold Beach, M.P. 326.7, Curry County)

L-7581 Bernard J. Howser and Evelyn J. Howser v. State: This is a petition for judicial review to the Court of Appeals for the review of an order issued after a hearing relating to illegal signs owned by the petitioners. The Highway Division hearing officer found certain of the signs to be illegal and ordered their removal and his order has been appealed to the Court of Appeals. The matter has been referred to the Attorney General's office for handling. (The Dalles-California Highway, Klamath County)

L-7582 Faydrex Inc., dba Cal-Or Ranches v. State: This is a petition for judicial review of an order issued as a result of a hearing by the Highway Division relating to an exempt sign. The exempt sign was found to be over the size permitted by the exempt sign regulations and the petitioner was ordered to either remove the sign or reduce it to the proper size. The matter is then referred to the Attorney General's office for handling. (M.P. 43.69, Pacific Highway, Jackson County)

versed. Re-trial resulted in a verdict of \$16,000,
\$1,900 less than the State's offer of \$17,900.
Defendants appealed. Defendants offered to settle
if State would forgive the \$1,900 owed by defendants.
This offer was rejected. Defendants have dropped
their appeal and have forwarded \$1,900 to the State.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
APRIL 27, 1978

April 27, 1978
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 9 a.m. in Room 140 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Peter J. Brix, Member, Portland
B. Gordon Coleman, Member, Eugene
Tom Walsh, Member, Portland
David Talbot, State Parks Superintendent, Salem
Jack Sollis, Assistant Chief Counsel, Salem
John Earley, Public Information Officer, Salem
Fran Neavoll, Commission Services, Salem
C. W. Head, Manager, Commission Services, Salem

Mr. Talbot stated this meeting was called to take action on the Tillamook Head property. He said the Clatsop County Commissioners met yesterday to discuss the project, but did not take action, saying they needed another week or so to consider the details of the proposal. He stated that it was necessary for the Commission to act by the end of the month to meet the donor's deadline.

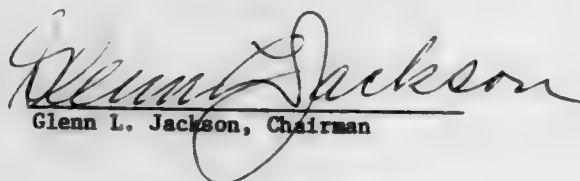

Chairman Jackson said that he advised the Court of the deadline the Commission has to meet which was set by the donor or lose the \$300,000 gift. The Chairman mentioned he made a request to Crown Zellerbach's management to find out whether or not they would have any objection if the Commission went ahead without concurrence of the Court. Crown Zellerbach's management indicated they are willing to go ahead and sign the papers and they advised the Clatsop County Court. Chairman Jackson said that he explained the situation to the Governor and that the Governor felt the Transportation Commission should proceed as the Commission had given the Court plenty of time.

The Chairman asked Mr. Sollis if the Commission was absolutely in the clear legally on this transaction. Mr. Sollis stated this matter has been reviewed by Mary Deits, Assistant Attorney General, and it is legally clear.

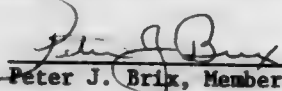

Commissioner Walsh seconded the Chairman's motion to proceed on the acquisition. The Commission voted unanimously to proceed to acquire land on Tillamook Head in Clatsop County for a new State Park. (Under a land exchange agreement between the Department, Crown Zellerbach Corporation and other private land owners, the State will acquire 609 acres and sell or exchange 610 acres of State land in Clatsop County.) In reply to

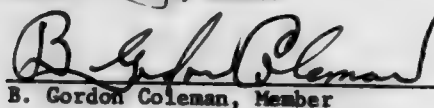

Commissioner Walsh's inquiry, Mr. Talbot said a dedication of this park could probably be done in June when the Commission is in Astoria and vicinity.

The telephone meeting adjourned at 9:08 a.m.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
MAY 30, 1978

May 30, 1978
Salem, Oregon

The Oregon Transportation Commission met at 8:30 a.m. in the Director's Office, Room 135, Transportation Building. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
George Bell, Manager of Intergovernmental and Public Affairs
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
Harold Grover, Administrator of Motor Vehicles
H. S. Coulter, State Highway Engineer
Jack Sollis, Chief Counsel
Walt Barrie, Solicitor General
David G. Talbot, State Parks Superintendent
J. B. Boyd, Right of Way Manager
C. W. Head, Manager, Commission Services

Mr. Sollis reported that a claim has been filed against the Department by Photo-Art Commercial Studios (second-low bidder) concerning the filming of the I-205 Bridge by Odyssey Productions. He said that Mary Deits is attending a hearing today in Portland on a preliminary injunction.

There was discussion of a meeting date with the Commission, Governor Straub and the press regarding the allocation of general funds to the Department, a constitutional amendment and Ballot Measure No. 3.

Mr. Klaboe, Mr. Talbot and Mr. Boyd briefed the Commission on the Tillamook Head land exchange in Clatsop County. (See page 2529 for action.)

There was a brief discussion of the proposed I-82 route in Umatilla County. Mr. Klaboe referred to a packet that was recently mailed to the Commission which included a letter from Umatilla County. He said investigation is still underway and a report will be presented to the Commission at a later meeting.

There was discussion concerning the Banfield project in Portland. Mr. Burco mentioned that Mr. Bothman will give a report at the formal meeting later in the morning.

The Commission and staff congratulated Mr. Walt Barrie on his recent appointment as Solicitor General, Department of Justice. Mr. Jack Sollis was also congratulated on his appointment as Chief Counsel for the Oregon Transportation Commission, replacing Mr. Barrie.

Mr. Burco announced that there will be a working luncheon session at noon to discuss the budget.

Mr. Burco stated that the proposed joint meeting between the Washington Transportation Commission and the Oregon Transportation Commission tentatively set for July 17, 1978, had to be postponed. He indicated that he would set another joint meeting, possibly in September.

The Commission recessed the meeting at 10 a.m. and reconvened the meeting in the Conference Room 122. Others present were: Don Streun, Assistant Director of Administration; Paul Burket, Administrator of Aeronautics; Dennis Moore, Administrator of Public Transit; E. S. Hunter, Manager of Technical Services; Robert Bothman, Administrator, Metropolitan Branch; and Glen Green, Federal Highway Administration. Mr. Walt Barrie did not attend the formal meeting.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of April 25 and phone meeting of April 27, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2673" on file in the Commission's files, Salem.)
- 3) Updated agreement with the University of Oregon Museum of Anthropology for archaeological research on highway projects, incorporating a 1975 agreement, two supplements, name change and salary adjustment. Total annual cost of blanket agreement shall not exceed \$30,000 for reconnaissance, survey work and minor salvage work. Total annual cost for major salvage work shall not exceed \$45,000.

4) Request from Rogue Mail Boat Service, Inc., for a variance concerning their business identification sign permit application, allowing their proposed sign to be 4 feet by 8 feet located off the Oregon Coast Highway near Gold Beach, Curry County.

5) Payment of Oregon's subscription to the Research Correlation Service for the Fiscal Year 1979 in the amount of \$26,500.

6) The following survey:

a. N. Unit, Condon-30 Mile Creek Section, John Day Highway, Gilliam County. Rescind previous action of February 22, 1978, "Highway Corridor and Design Resolution No. 394A." ("Highway Corridor and Design Resolution No. 394B" on file in the Commission's files, Salem.)

7) Abandoned eight damage claims totaling \$9,221.90 as follows:

| <u>CAO #</u> | <u>NAME</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |
|--------------|---|---------------|---------------|
| 77-120 | Bonnie Clelland | Guardrail | \$363.61 |
| 77-230 | LaVina Kay Koenig | Bridge | \$343.68 |
| 77-231 | Kevin Morris | Bridge | \$460.42 |
| 77-319 | Tony L. Tolefree &
Anthony Clark | Bridge | \$482.82 |
| 77-323 | Jose Lopez & Alfredo V. Barragan | Bridge | \$3,208.12 |
| 78-19 | Burges R. Baller | Light pole | \$395.21 |
| 78-53 | Morris G. Smith | Bridge | \$762.71 |
| 78-92 | Eastside Enterprises Inc. and
Roger D. Jones | Guardrail | \$3,205.33 |

8) Authorized increases in project authorizations on the following contracts:

- a) Contract No. 8310, Slater Creek-Mystic Creek Section, Coos Bay-Roseburg Highway, Douglas County, in the amount of \$964,823.30. (11.5% increase)
- b) Contract No. 8413, Burnside Bridge-Hawthorne Bridge, Pacific Highway West, Multnomah County, in the amount of \$173,896.00

(Continued on next page)

- c) Contract No. 8489, S.W. Sheridan St.-S.W. Slavin Road, City Streets and Pacific Highway West, Multnomah County (Barbur Blvd. bus lane), in the amount of \$39,396.00. (7.7% increase)
 - d) Contract No. 8566, East Portland State Police Headquarters (Barlow School), East Portland Freeway, Multnomah County, in the amount of \$20,800.00. (15% increase)
 - e) Contract No. 8567, Old Dry Creek Road-Ochoco Highway, County Road in Crook County, in the amount of \$36,675.43. (8.1% increase)
 - f) Contract No. 8654, N. Oakland Int.-Sutherlin Int., Pacific Highway, Douglas County, in the amount of \$311,977.24. (8% increase)
 - g) Contract No. 8631, Meadow Creek Bridge, Ukiah-Hilgard Highway, Union County, in the amount of \$13,338.75. (9.9% increase) (There are EDA funds budgeted to cover this increase and EDA approval has been obtained.)
- 9) Agreement with Howard, Needles, Tammen and Bergendoff for preparation of the Draft Environmental Impact Statement for the Powell Blvd. to Fariss Rd. (Gresham) Connection of FAU 9867 in Multnomah County, for a nine-month period. Cost not to exceed \$76,970. All charges are eligible for normal Federal-Aid participation as part of preliminary engineering for the project. This is an Interstate Transfer Project on the Federal-Aid Urban System with all of the local match being provided by the City of Gresham. (See Page 2697)
 - 10) Repairing the Banfield Interchange Deck on the Pacific Highway (I-5) in Multnomah County (Structure E) at an estimated cost of \$85,000 with Federal participation of \$78,300 and State matching funds of \$6,700 to be included in the Six Year Program.
 - 11) Safety project widening the Second Street Overcrossing in Hood River on the Columbia River Highway (I-80N) in Hood River County at an estimated cost of \$76,700 including design work. Federal Interstate Funds will pay \$70,000 of the cost and State matching funds will be approximately \$6,000. Approved inclusion in the Six Year Program.

- 12) Protective fencing project on the Willamette River (Marquam) Bridge of the Pacific Highway (I-5) in Multnomah County at an estimated cost of \$158,000 including preliminary engineering work. Federal Interstate participation will pay \$145,700 of the cost, requiring \$12,300 in State matching funds. Approved inclusion in the Six Year Program.
- 13) Adopted resolution abandoning approximately 0.31 mile section of the Hunters Creek-Myers Creek Section on the Oregon Coast Highway in Curry County. ("Abandonment Resolution No. 572" on file in the Commission's files, Salem.)
- 14) Authorized Right of Way Manager to sign Petition for street improvement on S.E. 98th St.-Division to Taggart Section in Portland. Estimated cost \$13,075.
- 15) Supplemental agreement with CH2M-Hill, Inc., for additional studies on the 50th Avenue-92nd Avenue Section of the Mt. Hood Highway (Powell Boulevard), Multnomah County. Study estimated to cost \$33,000 and will be financed with Interstate Transfer Funds of \$28,300 matched with \$4,700 of Portland's share of the \$25 million bond issue.
- 16) Requests for the following Federal Aid Urban System Projects and authorized State Highway Engineer to sign agreements when prepared:
 - a) City of Eugene for construction of a bikeway along the Amazon Channel between Danebo Avenue and Quaker Street (Fernridge). Total Cost \$237,100; Federal Funds \$184,940; State's Share \$26,080.
 - b) City of McMinnville to signalize the intersection of Pacific Highway West and 19th Street. Total Cost \$48,500; Federal Funds \$41,700; State's Share \$6,800.
 - c) City of McMinnville to extend Michelbrook Lane southerly across Cozine Creek (11th Street-Crestwood Court). Total Cost \$80,000; Federal Funds \$68,800; State's Share \$5,600.
 - d) City of Medford to install traffic signals on Jackson Street at Biddle Road, Hawthorne Street and Genesee Street. Total Cost \$289,600; Federal Funds \$249,000; State's Share \$20,300.
 - e) Douglas County for a preliminary engineering project to prepare contract documents for future construction of SPRR Undercrossing Structures on Oak and Washington Streets in Roseburg. Total Cost \$111,000; Federal Funds \$95,500; State's Share \$7,750.

(Continued on next page)

May 30, 1978

- f) Yamhill County for relocation of Three Mile Lane and Airport Road in the McMinnville Urban Area. Total Cost \$125,000; Federal Funds \$107,500; State's Share \$8,750.
 - g) State request to widen the existing Southern Pacific Railroad crossing and provide a left-turn lane on Hall Boulevard at the southbound ramp of the Beaverton-Tigard Highway. Total Cost \$54,000; Federal Funds \$54,000; No cost to State.
- 17) Request from Multnomah County to widen the N.E. 110th Avenue-N.E. 148th Avenue Section on N.E. Marine Drive, FAS A662. FAS-C Funds for this project are estimated to be \$365,500 with State providing approximately \$29,750 in matching funds and a like amount from the County. Authorized State Highway Engineer to sign agreement when prepared.
 - 18) Request from City of Salem for approval of a project utilizing Interstate Transfer Funds withdrawn from the I-305 Freeway as follows and authorized State Highway Engineer to sign agreement when prepared:
 - a) Construct Hawthorne Street to a minor arterial from Center Street to State Street. City will provide all of required \$117,600 of local match. Cost \$840,000.
 - 19) Authorized the Public Transit Division Administrator to sign an \$85,000 consulting services agreement with Alan M. Voorhees and Associates on behalf of the Willamette Valley Rail Study Committee.
 - 20) Adopted a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$440,000 for an Airport Development Aid Program Project on the Aurora State Airport. Total cost of the project is \$488,889 for reconstruction of the runway, new runway lighting, construction of a stub taxiway and preparatory construction for an aircraft parking apron. ("Aeronautics Miscellaneous Resolution No. 16" on file in the Commission's files, Salem.)
 - 21) Agreement with Oregon Hospitality and Visitors Association to provide certain specialized tourist promotion services at a cost of \$30,000 from July 1, 1978, through June 30, 1979. (Authorized Director to sign agreement.)
 - 22) Supplemental agreement with Jackson County for an extension of time on the Bear Creek Greenway Acquisition Project from June 30, 1978, to December 31, 1978.

- 23) Project to correct flood damage sustained in December 1977 on the Sherwood Forest Camp-Base Line Road Section of the Mt. Hood Highway in Hood River County. Estimated cost is \$225,000. State construction funds will be used for this work. Approved inclusion in the Six Year Program.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

Mr. Sollis reported on the Skipanon River Bridge case. He mentioned the Court has sustained the State's demurrer and the amended complaint has been dismissed. The reason for dismissing the case, he said, was that the Port of Astoria was not named as the defendant. The plaintiff still has the option of refileing the case and naming the Port as the defendant.

Mr. Sollis mentioned the Astoria Bridge case has been disposed of at the Circuit Court level in favor of the State, and it will probably go through the appeal process. He pointed out that the case is where U.S. Steel was suing the DeLong Corporation (contractor) and the State was involved in it.

In response to Commissioner Walsh, Mr. Sollis said he would forward a summary to the Commission of the drafts concerning final legislation.

DIRECTOR'S REPORT

Mr. Bell reported on Ballot Measure No. 5 (2¢ gas tax increase) that failed at the polls on May 23, 1978. He handed to the Commission a chart showing the percentage of "yes" votes cast in each County which were listed in rank order of "yes" percentages. Mr. Bell pointed out that Washington County is listed first at 42.9% and Douglas County last at 19.3%. He mentioned in 1976 the penny gas tax failed by approximately 40,000 votes out of about a million cast, and the May 1978 election failed by approximately 170,000 votes out of about a half million cast. (Copy of Ballot Measure 5 chart in the Commission's files, Salem.)

The Commission considered a request for the Information Systems Branch to appear before the State Emergency Board for an increase in its 1977-79 expenditure limitation to allow acquisition of an IBM 3052 attached processor. Mr. Streun said this machine is intended to be added to the Department's owned, installed IBM 370/158 computer system. He stated that the use of the Department's computer is continually monitored, and the day shift is excessively utilized, the second shift approaching saturation, and the third shift use growing at a 28% annual rate. Mr. Streun said there is an urgent need to increase the computer capacity to serve the various users.

Mr. Bob Rolph, Manager, Long-Range Planning & Administration, presented various graphs showing a historical record of process and utilization in the Computer Center. (Graphs on file in the Commission's files, Salem.)

Mr. Streun said the price of the attached processor is \$457,900 and it will be paid out over a 48-month period. The total cash outlay in the 1977-79 biennium will be \$80,985. The Computer Center users have enough money in their budget to cover this additional amount. The Commission gave their approval for the Department to appear before the June Emergency Board to request an increase in the expenditure limitation.

The Commission again reconfirmed the date of June 20, 1978, for its monthly meeting in Astoria.

Mr. Don Byard, Supervisor, Inventory & Needs, presented a preliminary draft of the final report of the West Coast Corridor Study. (Copy of report on file in the Commission's files, Salem.) He recalled the study was initiated four years ago with the Federal Land Tract Improvement Act of 1974 to define a high-speed corridor ground transportation north and south through the west coast major cities to look at social needs, technological and economical feasibilities of that improvement. It has been recognized that technological improvements are not going to happen in the immediate future and this study is based on conventional equipment. Mr. Byard stated a consultant was hired to complete Oregon's portion which covered the prime intercity movements from Eugene to the Portland area.

Mr. Byard introduced Mr. Darwin Stuart of Barton-Aschman Associates, a planning firm of Chicago, who did Oregon's portion. Mr. Stuart reviewed some of the elements of the study and showed slides analyzing the highlights of the study.

Mr. Rulien referred to a report (draft form) prepared by the Executive Department entitled "Management Study of Highway Fund Distribution". He handed to the Commission Appendix A from the report, a summary of the highway expenditures from 1965 to date. (Copy of report on file in the Commission's files, Salem.) Mr. Rulien indicated a final report will be forwarded to the Commission just as soon as it is available.

May 30, 1978

Mr. Rulien mentioned that the final report of the Joint Legislative Task Force on Transportation Policies & Funding is completed and that copies will soon be distributed.

Mr. Rulien reported that a public rail plan hearing is to be held to update the public on what the planning effort is and what the Rail Revitalization Act does, its provisions, and to solicit any input.

Attention was given to the adoption of a permanent rule allowing taxis to use the Banfield Freeway HOV lanes in Portland. Mr. Klaboe stated the hearing was held on March 28, 1978, with eleven people attending. (Copy of the hearing study report on file in the Commission's files, Salem.) Following Mr. Klaboe's recommendation, the Commission adopted a permanent rule concerning an amendment to the rule establishing the use of taxis on the Banfield HOV lanes as "Miscellaneous Resolution No. 256-A." (Copy on file in the Commission's files, Salem.) A copy of the rule was filed with the Secretary of State on May 31, 1978, to be published in the Administrative Rule Bulletin on June 15, 1978.

Mr. Bothman and Mr. Klotz presented a summary concerning the Banfield High Occupancy Vehicle Lanes Final Report appendix dated March, 1978. (Copy of report on file in the Commission's files, Salem.) Mr. Bothman said this report has been completed and the original transmitted to the Federal Highway Administration for printing. The report covers the HOV lanes' impact on traffic flow, safety, modal shift, air quality, fuel savings and public attitude.

Mr. Bothman presented copies of the Hearing & Project Report, Banfield Transitway Project dated May 1978. (Copy of report on file in the Commission's files, Salem.) He said a hearing was held on April 6, 1978, in the afternoon and evening at which approximately 400 people were in attendance. Mr. Bothman mentioned there were 83 verbal statements, 111 card comments and 95 written statements. He said there were approximately 9% in favor of the No Build, 4% in favor of the Low-Cost Alternative (utilizing existing streets), 15% in favor of the HOV lanes, 6% in favor of the separated bus lanes, 61% in favor of light rail, and 5% asked for other improvements. He said those percentages did not include a petition signed by 5,400 persons which was against light rail. He presented to the Commission a time schedule for completion of the Banfield Project.

Mr. Bothman handed to the Commission the Draft Environmental Impact Statement, Volume 1, Summary, covering Powell Boulevard, Phase II.

Miss Blake Smith, Director of the Travel Information Council, gave a brief background and update on the history and the progress of the Council since its creation in 1971. She gave a brief inventory taken in April 1978 of logos installed on I-5 and I-80. Open spaces on all boards total 725. Miss Smith stated that under existing statutes on July 1, 1979, the Council will be transferred to the Oregon Transportation Commission and the staff of the Travel Information Council will be transferred to the Department of Transportation. She said that the Council voted unanimously to recommend to the Commission that when the duties of the TIC are transferred to DOT, that the staff be placed in the Highway Division as a separate unit reporting directly to the State Highway Engineer. She said the Council also recommended that a budget be prepared as part of the Highway Division budget as a separate unit. The Commission approved the recommendations of the Travel Information Council.

The Commission considered the adoption of guidelines for the disposal of properties acquired for right of way for the Thurman-Vaughn Section of the Northwest Industrial Freeway (I-505) in the City of Portland. Mr. Boyd said the properties are located between N.W. 24th Avenue and N.W. 29th Avenue, bounded by N.W. Thurman and N.W. Vaughn. He said to insure that the properties are used to the greatest benefit of the public, the Department's ownership has been divided into two categories:

1. Properties proposed for sale to the City of Portland for urban renewal purposes.
2. Properties that are not being considered for other public uses.

Commissioners Jackson, Brix, Coleman and Hollern approved the guidelines as outlined in Mr. Boyd's letter to the Commission dated May 16, 1978. (Copy of letter on file in the Commission's files, Salem, under "Real Property Resolution No. 729".) Commissioner Walsh abstained from voting on this matter due to a potential conflict of interest. Mr. Walsh's letter to Mr. Jack Sollis, Legal Counsel, dated June 2, 1978, is entered in the minutes of this meeting as follows:

Re: Thurman-Vaughn corridor

Dear Jack:

I indicated at Tuesday's meeting that I would abstain from voting on any issue involving disposition of Highway Division property in the Thurman-Vaughn corridor due to a possible conflict of interest.

Walsh Construction Company has submitted a proposal, following a public call for bids, to the Portland Development Commission for a multi-family housing project on four parcels of land on Northwest Upshur Street. The sites in question were designated by the Portland Development Commission in the Request for Proposals; two of them are owned by the Highway Division. If the City of Portland decides to award a contract for any of the proposals submitted, I believe they intend to purchase the sites in question and, in turn, re-sell them to the successful contractor.

Should our proposal be the one accepted by the city, I would have a clear conflict were I to participate in any discussions by the Commission on this property.

If there are further steps you believe I should take, would you please advise me.

Sincerely,

Tom Walsh

TW/fo

cc: Members of the Commission

Attention was given to an agreement with the Associated General Contractors of America, Inc. and the Urban Indian Center, a Joint Venture, to provide supportive services for on-the-job training during calendar year 1978. Gareld Inloes, EEO & Labor Compliance Coordinator, explained the agreement. He said this program will provide training of minorities and women for a minimum of 25 persons as piledriver, truck driver and project office engineer. This program is eligible for 100% Federal funding and the total cost will not exceed \$75,000. Following Mr. Coulter's recommendation, the Commission approved the agreement.

Consideration was given to an agreement with Jackson and Associates and R.E.S. Consultant Company, a Joint Venture, to provide supportive services to develop specific recommendations to increase the effectiveness in making minority business enterprises competitive and more productive on Federal Aid Highway Projects. Gareld Inloes explained the agreement. Mr. Coulter said the work is to be completed in 90 days for an amount not to exceed \$12,000. The program is eligible for 100% Federal funding. Following Mr. Coulter's favorable recommendation, the Commission approved the agreement.

Mr. Coulter reported on the use of Cor-Ten steel in Oregon. He said Cor-Ten has been used on several bridges and it is slightly higher than regular steel but the cost is incidental when comparing it to the cost of having to paint the steel. The Cor-Ten steel cannot be used on the Coast as it would rust too fast.

Mr. Talbot stated at a joint Commission-Parks Advisory meeting in December, 1977, it was decided that the Department should conduct a study on the roles and relationships of State parks and other agencies that provide outdoor recreation services in the State. He said three firms were interviewed and J. M. Montgomery, Inc., Consulting Planners and Engineers of Portland, were selected. He said the study will provide the Department with a comprehensive assessment of State park responsibilities together with some suggestions and alternatives for future action. Mr. Talbot mentioned the Federal Heritage Conservation and Recreation Service has agreed to cost-share 50% of the project. The total cost is \$38,800 and the funds are budgeted for the project. The Commission approved the agreement with J. M. Montgomery, Inc., as recommended by Mr. Talbot.

The Commission considered a request from Harry LaChance, Jr., to build a single-family residence within the Rogue River Scenic Waterway located on Pickett Creek Road approximately 1/4 mile from Robertson Bridge in Josephine County. Mr. Talbot stated the proposal

would be an experimental solar home with a beige, earth-tone roof. The site is approximately 800 feet back from the edge of the river bank and the addition of this house behind two existing residences would have little visible effect on the area. Following Mr. Talbot's recommendation, the Commission approved the request contingent upon compliance of the stipulations outlined in Mr. Talbot's letter to the Commission dated May 10, 1978. (Copy of letter on file in the Commission's files, Salem.)

Attention was given to a request from Mr. and Mrs. Samuel Buist to build a residence within the Pickett Creek area of the Rogue River Scenic Waterway on the left bank approximately 3/4 mile downstream from the Robertson Bridge in Josephine County. Mr. Talbot said the house would be a conventional, one-story home with a muted natural stain and earth-tone roof. The site is 100 feet back from the river bank and is partially screened by vegetation. The house would be built between two existing dwellings which would make it less visible. Mr. Talbot recommended approval of the request, contingent upon compliance with the stipulations in his letter to the Commission dated May 22, 1978. The Commission accepted his recommendation. (Copy of letter on file in the Commission's files, Salem.)

The Commission considered Dean Jackson's request to develop a recreational vehicle campground within the Rogue River Scenic Waterway near the mouth of the Illinois River and directly across the Rogue River from the unincorporated community of Agness in Curry County. Mr. Talbot stated that in the Agness area there is a special planning zone that recognizes that it is a community and that the density situation has to be treated differently. It is also recognized, he said, that a campground is a valid use in this area. Mr. Talbot said the problem with the proposal at this time is a question of density and design and, if it is built as it is presently designed, it would not fit in with the neighborhood as the Department thinks it should be in terms of the law. He pointed out that the staff is not opposed to the campground, but it is a question of how it should be done that has not been resolved.

Mr. D. C. Walton, attorney for Mr. Dean Jackson, mentioned that Mr. and Mrs. Jackson have been residents of the Agness area for 20 years and are owners of the Cougar Lane Store and they have recently constructed a restaurant and bar facility. Mr. Walton said the Jacksons are located on the south shore which is the right-hand shore going upstream. What Mr. Jackson plans to do is necessary from the standpoint of capital expenditure required from the core facility in order to serve a number of units. He said any attempt to limit this would in effect put it in an uneconomic position where there wouldn't be any installation at all. He said that is an infringement of a property owner.

Mr. Walton presented numerous photos of the area from the ground and from the air. He also presented letters from individuals, the Curry County Board of Commissioners and Curry County Planning Department, all urging approval of Dean Jackson's proposal. (Copies of letters and photos on file in the Commission's files, Salem.) Mr. Walton commented on the various recommendations by the Department as outlined in Mr. Potter's letter to Dean Jackson dated May 25, 1978. He said it is not their proposal to be involved with providing vehicle access to the gravel bar but they would like to have a favorable result. Mr. Walton stated that Mr. Dean Jackson's plan, as submitted, is a good one and that he is entitled to the consideration of the approval of the plan and that they do not concur with the staff's recommendation.

Chairman Jackson mentioned that the Commission is dealing with its specific responsibility. The problem is whether or not the layout of the campground prevents the proper screening insofar as the application of the law is concerned.

Mr. Dean Jackson said that the Department is condemning him in one location and by looking up or down the river the Department's definition is not in practice. There was considerable discussion concerning set-back, screening and the number of units in Mr. Dean Jackson's proposal.

Mr. Monty King, Legislative Assistant for Representative Stevenson, read a letter from the Representative. His letter mentioned a new campground is needed at Agness. Representative Stevenson asked the Commission to lend itself to a cooperative agreement with Mr. Jackson, the applicant, to enable him to proceed with his project as soon as possible, which would be in the best interest of preserving the natural areas of the Rogue River from unorganized camping and fishing which might destroy the wilderness area especially in the area surrounding Agness.

The Commission gave Mr. Talbot authority to settle this matter with Mr. Dean Jackson.

The Commission considered a land exchange agreement with Crown Zellerbach and an agreement with an anonymous donor in the amount of \$300,000 pertaining to the Tillamook Head Park Project. Mr. Talbot said that the Clatsop County Commissioners approved the project at their May 3, 1978, meeting. The Commission approved the agreements and the purchase of two private tracts of property as recommended by Mr. Talbot.

Following Mr. Moore's favorable recommendation, the Commission gave their approval for the Department to appear before the Emergency Board to request release of \$80,668 for a five-part intercity program as follows:

(Continued on next page)

Shelters

Provide either a grant of up to \$3,000 or a shelter for the Cities of North Bend, Florence, Lincoln City, Tillamook and Astoria. Also a larger shelter or grant of up to \$9,000 for Newport, total \$24,000.

Signs

Standard highway information signs directing people to, and marking the location of 20 intercity bus depots on the Coast (3 signs per location) at a total cost of \$3,540.

Trip Guide

A ticket jacket showing intercity transportation service and city connecting services for use by bus companies issuing tickets in Oregon, \$17,300.

Portland Transportation Center (Located near Union Station)

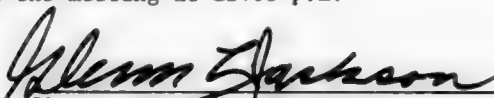

The DOT share of the preparation of two alternative plans and preliminary architectural designs with a financial feasibility for the Portland Transportation Center site and the intercity bus terminal, \$23,333. (State is participating in this study with the Port of Portland, City, County, Tri-Met and bus companies.)

Polk County Bus

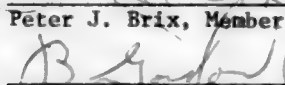

Contract with Polk County to provide one-half the cost of a weekday, round-trip bus service provided by Hamman State Lines connecting Dallas, Monmouth, Independence, and Salem, estimated to cost \$12,495 for one year.

(Additional information on file in the Commission's files, Salem.)

The Chairman adjourned the meeting at 12:03 p.m.

Glenn L. Jackson, Chairman

| 49551 | Wong, James C. and Marion K. | 50.00 |
| 49714 | McKay, Rhoda West | 3,500.00 |
| 49750 | East Fork Irrigation District | 11,700.00 |
| 49752 | Hanel Lumber Company | 5,900.00 |
| 49901 | Cutler, Ethel A.; Hanel, L. Stirling
and Kathleen M. | 900.00 |
| 50104 | Administrator of Small Business Administration | 1,800.00 |
| | 8 Transactions | 30,550.00 |

- (2) Personal and Professional Service Contract with Nancy Kosterlitz to provide mediation services at meetings/conferences between State Parks & Recreation Branch, other State officials, and two Portland-based women's groups regarding alleged rapes in Tryon Creek State Park in Multnomah County, at a cost not to exceed \$500. (Parks Branch)
- (3) Supplemental agreement with the Public Utility Commissioner relating to the establishment of the Port of Entry at Farewell Bend on the Old Oregon Trail in Malheur County. When the original agreement was entered into, it was not known that Highway Division could use Federal Funds in the construction of the Port of Entry. The purpose of the supplemental agreement is to change two paragraphs in the original agreement relating to the division of proceeds in the event that the property is sold and the amount that the PUC will be required to contribute as the Highway Division has been able to pay for a substantial amount of the project with Federal Funds. (Legal Branch)
- (4) Agreement with Corrections Division to utilize Release Center inmate crews to perform highway tasks. The inmate crews will not be used to perform any highway tasks that could be performed by existing highway employees but rather to perform tasks that the Highway Division would not be able to accomplish with existing personnel. This agreement clearly outlines the responsibilities of both departments and will be a benefit to the Highway Division. The agreement formalizes the informal contract we have been operating under with Corrections Division for the better part of a year pending a formal agreement and has worked very well. (Legal Branch)

SUBJECT: Report of Confirmation of Telephone Actions Taken
Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the actions listed below and report these actions for your official records:

- (1) On April 12, 1978, granted the City of Pendleton a 60-foot access at Highway Engineer's Station 165+50, for public street purposes (S.W. 30th) to the easterly side of the North Pendleton-Pilot Rock Section of the Pendleton-John Day Highway, Umatilla County, Files 24861 and 24862.

The Lutheran Church will release its 25-foot access at Engineer's Station 164+50 and will have access via S.W. 30th as soon as construction has been completed.

(Approval was given to J. B. Boyd.)

- (2) On September 20, 1977, accepted an option from the First National Bank for the Roads End State Park in Clatsop County. Consideration \$110,000.00. (Approval was given to David Talbot.) File 48560.

Dated this 26 day of april, 1978.

- (6) Agreement with Lane County for the 19th Street-Camp Creek Road Section of Marcola Road. The State will perform all preliminary and design engineering, acquire the right-of-way, advertise for bids and supervise the construction. The project will be financed 100 percent by Lane County with no Federal or State funds. (Local Government)
- (7) Agreement with the City of Pendleton and St. Anthony Hospital for installation of a pedestrian-actuated traffic signal on the Pendleton Highway between S.E. 16th and 17th Streets in Umatilla County. The State will design, install and maintain the signals. The City has agreed to pay all costs of electrical energy consumed. State, City and Hospital will each contribute 1/3 of the estimated \$6,000 cost. (Local Government)
- (8) Agreement with Lane County for the Bailey Hill Road-Fox Hollow Section of the Lorane Highway. The State will perform all preliminary and design engineering, acquire the right-of-way, advertise for bids and supervise construction. The project will be financed 100 percent by Lane County with no Federal or State funds. (Local Government)
- (9) Agreement with the City of Hermiston for installation of traffic signals on the Hermiston Highway at S.W. Highland Avenue in Umatilla County. The State will design, install and maintain the signal equipment using Federal Aid Title II Safety funds. The City has agreed to pay all costs of electrical energy consumed in operation of the signals. (Local Government)
- (10) Agreement with Columbia County for construction of the Warren-Scappoose Section of the Columbia River Highway. The State will acquire the right-of-way and construct the project. The County has agreed to accept jurisdiction of certain frontage roads and to cooperate with State to effect the adjustment of utilities. (Local Government)
- (11) Agreement with the City of Ontario and Strand/Diversified for installation of a traffic signal on the Olds Ferry-Ontario Highway at East Road in Malheur County. The State will design, install and maintain the signals. The City will pay for electrical energy consumed and the Company will pay all costs of the design and installation. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve the eleven items listed and report this action for your official records.

Dated this 28 day of April, 1978.

Glenn L. Jackson, Chairman
Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority
(Confirmation)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following action and report this for your official records:

By telephone on April 20, 1978, I gave approval to J. B. Boyd to accept the option from Weyerhaeuser Company for three parcels on the Divide-Anlauf Section of the Pacific Highway in Douglas County for a consideration of \$146,200.00 in exchange for excess property on File 17693, with Weyerhaeuser Company to pay the additional consideration of \$48,450.00. File 49675.

Glenn L. Jackson, Chairman
Oregon Transportation Commission

Dated this 28 day of Sept., 1978.

SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On April 14, 1978, established a temporary construction speed of 30 MPH on the Jacksonville Highway from M.P. 0.33 to M.P. 1.75 including a 20 MPH zone from M.P. 0.81 to M.P. 1.03 when children are present. Speed zone to be in effect only on those sections where work is in progress and where the appropriate signs are in place. To be effective only during construction project. There are existing 30, 40 and 50 MPH speed zones (Speed Zone Rule No. 648 effective December 25, 1973) on this section of highway. (Grants Pass-New Hope Road Section) Josephine County.
- 2) On April 12, 1978, approved a personal and professional service contract with Mirza Dickel to provide historical and interior design consultation services regarding the refurbishing scheme of the Wolf Creek Tavern in Josephine County at a cost not to exceed \$400.
- 3) On April 26, 1978, approved a personal and professional service contract with Anna and Eules Barringer for a watchman on duty at Lone Tree Bar State Park to help prevent vandalism and other criminal acts, and to provide a fire protection surveillance at the park. (Yamhill County) Begin May 1, 1978, end April 30, 1979. \$50 per month.
- 4) On May 8, 1978, established a 45 MPH speed zone on the Woodburn-Estacada Highway just east of the Pacific Highway East in Marion County, from M.P. 0.00 to M.P. 1.30. Rescinds Speed Zone Rule No. 691 dated February 26, 1975. (Speed Zone Order No. 777)

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Right of Way Engineer (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Construction-Maintenance Agreement with the Oregon Trunk Railway and Deschutes Railroad Company for installation of grade crossing protection devices at Straun Road in Madras, Jefferson County. Approved April 11, 1978. RR 923 (16-12)
- (2) Sale of 42,019 square feet excess property on the Klamath Falls-Westside Road Section of The Dalles-California Highway in Klamath County for a minimum consideration of \$1,250.00. Approved April 17, 1978. File 23064 (16-43)
- (3) Sale of 0.13 acre excess property on the Albany Section of the Albany-Junction City Highway in Linn County valued at \$7,200.00 in exchange for 0.03 acre valued at \$1,575.00 needed for right of way plus the monetary consideration for the difference. Approved April 17, 1978. File 6390 (16-43)
- (4) Right of Way Service Agreement with the Port of Hood River for a relocation study on the Hood River County Airport. Approved April 14, 1978. Miscellaneous C & A 6586 Agreement # 91 (16-49)
- (5) Right of Way Service Agreement with the City of Medford for right of way services in connection with the Main and Columbus Street Project. Approved April 18, 1978. Miscellaneous C & A 2761 Agreement # 92 (16-49)
- (6) Sale of 0.60 acre excess property on the Warren-Scappoose Section of the Columbia River Highway in Columbia County valued at \$1,500.00 in exchange for 0.47 acre valued at \$2,200.00 and needed for right of way. Approved April 20, 1978. File 48788 (16-43)
- (7) Sale of 1.40 acres excess property on the Lakeview-Drews Gap Section of the Klamath Falls-Lakeview Highway in Lake County valued at \$1,500.00 in exchange for 3,240 square feet used as part of the Lakeview Maintenance Station valued at \$250.00, plus the difference in value. Approved April 20, 1978. File 11407 (16-43)
- (8) Sale of 0.72 acre excess property on the Wimp Way Connection Section of The Dalles-California Highway in Deschutes County for a minimum consideration of \$2,500.00. Approved April 21, 1978. File 48538 (16-43)
- (9) Service Contract with the City of Prineville Railway for installation of grade crossing protection devices at N.E. O'Neil Way (O'Neil Highway) Deschutes County. Approved April 25, 1978. RR 924 (16-12)

-2- EXHIBIT _____ C
MINUTES OF 5-30-78

- (10) Sale of 3300 square feet of excess property on the North Bend Section of the Oregon Coast Highway in Coos County for a minimum consideration of \$2,350.00. Approved May 1, 1978. File 9500 (16-43)
- (11) Sale of 27.6 acres excess property at the Meacham Quarry on the Old Emigrant Hill Scenic Frontage Road in Umatilla County in exchange for 35.7 acres for expansion of the Meacham Quarry. Approved May 4, 1978. Files 17177 and 50130 (16-43)
- (12) Sale of 1.53 acres excess property on the Pendleton-Pilot Rock Section of the Pendleton-John Day Highway in Umatilla County for a minimum consideration of \$12,000.00. This property had been sold to the City of Pilot Rock with a public use clause. The City will receive \$1,100.00 from the proceeds. Files 24233 and 24234 (16-43)
- (13) Sale of 2 parcels of excess property totaling 8.19 acres on the Tigard-Newburg Section of the Pacific Highway West in Clackamas and Washington Counties for a minimum consideration of \$28,750.00. Approved May 4, 1978. Files 22321 and 22322 (16-43)
- (14) Sale of a 25 foot Easement over excess property on the North Corvallis Section of the Pacific Highway West in Benton County to the City of Corvallis for sewer pipelines, together with a temporary construction easement for a consideration of \$2,830.00. Approved May 2, 1978. File 14603A (16-43)
- (15) Agreement with Portland Traction Company and Clackamas County concerning the grade crossing of S.E. Johns Creek Blvd. near Bell Station in Clackamas County. Approved May 4, 1978. File RR 862
- (16) Signed on May 8, 1978 the Grant of Access to LeRoy W. Baisdon in the Flat Creek-Fields Creek Section of the John Day Highway in Grant County. Approved by Mr. Jackson April 11, 1978. File 35528 (16-45)
- (17) Signed on May 8, 1978 the Grant of Access to Joe French et al on the Redmond Section of The Dalles-California Highway in Deschutes County. Approved by Mr. Jackson April 28, 1978. File 13072 (16-45)
- (18) Signed on May 8, 1978 the Grant of Access to Tumalo Domestic Water Supply District on the Tumalo-Bend Section of the McKenzie-Bend Highway in Deschutes County. Approved by Mr. Jackson April 28, 1978. File 16955 (16-45)
- (19) Grant of an Easement Permit to Andrew S. and Rosemary G. Fletcher and Tillamook P.U.D. exchanging an access bridge for a roadway across state property which they will build on the Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County. Approved May 9, 1978. Files 14970 and 23495 (16-43)
- (20) Sale of 0.14 acre excess property on the Albany-Judkins Point Section of the Pacific Highway in Lane County for a minimum consideration of \$10,855.00. Approved May 11, 1978. Files 28560, 37027, 37028, and 37029 (16-43)

-3- EXHIBIT C
MINUTES OF 5-30-78

- (21) Agreement with the Portland Traction Company for construction of a public pedestrian bikeway known as 1-205 Bikeway near Lents in Multnomah County. Approved May 12, 1978 File RR 925 (16-12)
- (22) Sale of 0.1 acre excess property on the North City Limits-4th Street (La Grande) Section of the Old Oregon Trail Highway in Union County to the City of La Grande for a minimum consideration of \$100.00. Approved May 11, 1978. File 35158 (16-43)
- (23) Sale of 5.2 acres excess property on the S.E. Hinkley Ave.-Lake Road Interchange Section of the East Portland Freeway in Clackamas County for a minimum consideration of \$36,400.00. Approved May 12, 1978. Files 40775, 41272 and 45644 (16-43)
- (24) Sale of 5,000 square feet excess property on the Mt. Hood Freeway Section of the Mt. Hood Highway in Multnomah County for a minimum consideration of \$29,500.00. Approved May 12, 1978. Files 46797 and 35158 (16-43)
- (25) Right of Way Service Agreement with Clatsop County for acquiring right of way for the Youngs River Loop Road Project. Approved April 25, 1978. Miscellaneous C & A 6180 Agreement # 93 (16-49)
- (26) Right of Way Service Agreement with Umatilla County to appraise and review right of way in connection with the Birch Creek (Sparks) Bridge Project in Umatilla County. Approval May 1, 1978. Miscellaneous C & A 6256 Agreement # 94 (16-49)
- (27) Right of Way Service Agreement with the City of Springfield for services in connection with the Mill Street-5th Street Section of Centennial Blvd. in Lane County. Approved May 8, 1978. Miscellaneous C & A 5337 Agreement # 95 (16-49)
- (28) Right of Way Service Agreement with Lincoln County for appraisal services on the East Newport-Elk City Project in Lincoln County. Approved May 17, 1978. Miscellaneous C & A 6615 Agreement # 96 (16-49)

Dated this 18th day of May, 1978.

J.B. BOYD, Right of Way Manager

5-30-78

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records.

On April 26, 1978, approved conveyance to Multnomah County of 48.55 acres on the Sandy River for park purposes, with appropriate deed restrictions. This transfer will consolidate management of public park property on the Sandy River under Multnomah County jurisdiction. The property was acquired by the state in 1976 at a cost of \$71,000 under provisions of the Scenic Waterways Act.

On May 18, 1978, executed an easement with the Department of Fish and Wildlife and the Lakeside Water District modifying an August 22, 1968 easement agreement, all related to William M. Tugman State Park, Coos County. The new agreement amends use of water limitations by the water district from El Lake, requires district to install a water level control and fish passage facility, and provides for Parks Branch and Fish and Wildlife approval of improvement plans by the water district within the easement area. This proposal was previously approved by the Transportation Commission at their February 22, 1978 meeting. (Page 2390)

Dated this 18 day of May, 1978

David G. Talbot

State Parks Superintendent

MINUTES OF E 5-30-78

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

At your meeting on October 18, 1977, you authorized the State Parks Superintendent or his designate to sign grant-in-aid project agreements. The State Parks Superintendent on November 1, 1977, authorized me to sign these agreements. Pursuant to that authority, and acting in accordance therewith, I approved the following grant-in-aid projects and report them for your official records.

April 6, 1978 - City of Gold Beach, Curry County - city park restrooms - \$1,477.50.

April 12, 1978 - City of Albany, Linn County - Waverly Park development - \$7,990.00.

April 12, 1978 - City of Portland, Multnomah County - Cathedral Park development - \$30,790.00.

April 12, 1978 - City of Hillsboro, Washington County - Bicentennial Park development - \$3,232.56.

April 12, 1978 - City of Tualatin, Washington County - Hi-West Park development - \$6,952.00.

April 14, 1978 - City of Pendleton, Umatilla County - McKay Community Park - \$21,000.00.

April 21, 1978 - Umatilla County - Harris Park picnic tables - \$3,262.50.

April 25, 1978 - Town of Myrtle Creek - Douglas County - Stinebaugh Park development - \$2,500.00.

May 4, 1978 - Sherman County - DeMoss Project - Landscaping, irrigation, playground equipment - \$1,000.00.

May 15, 1978 - Benton County - Clubhouse parking lot renovation - \$2,191.00.

May 16, 1978 - Baker County - Railroad park picnic area - \$6,080.00.

May 16, 1978 - Malin Community Park and Recreation District - Klamath County - Malin Park irrigation - \$2,000.00.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
JUNE 19 - 20, 1978

June 19, 1978
Astoria, Oregon

The Oregon Transportation Commission and staff traveled by bus from Salem to Astoria over Highways 22, 18 and 101. The Commission viewed beach access locations, bike routes, trails, parks and highway facilities. A picnic lunch was served by park employees at the Cape Meares State Park. At Fort Stevens State Park a beach program report was presented by Mr. Talbot and his staff.

A no-host dinner was held at the Thunderbird Motor Inn, Astoria, with officials from cities and counties, legislators and other interested persons in the area.

June 20, 1978
Astoria, Oregon

The Oregon Transportation Commission met at 9 a.m. in the Pacific Room of the Thunderbird Motor Inn. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Jack Sollis, Chief Counsel
George Bell, Manager of Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
David G. Talbot, State Parks Superintendent
Dennis Moore, Administrator of Public Transit
Paul Burket, Administrator of Aeronautics
Glen Green, Federal Highway Administration
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell: (The Hooskanaden Slide Section project was removed from the consent calendar and presented by Mr. Klaboe.)

- 1) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2674" on file in the Commission's files, Salem.)
- 2) Two Federal Aid Urban System Projects and authorized the State Highway Engineer to sign agreements when prepared:

(Continued on next page)

- a) Request from City of Coos Bay for a preliminary engineering project to prepare contract documents for future construction of a 40-foot curbed section on Wallace Street (Newmark Avenue-Ocean Boulevard, FAU 2741). Total cost \$20,000; Federal Funds \$17,200; State's Share \$1,400.
 - b) Request from the City of Portland for a study to examine an alternative design to the Long Yeon I-505 Freeway segment. Total cost \$20,000; Federal Funds \$17,200; State's Share \$1,400.
- 3) Three requests for FAS-C Preliminary Engineering Projects as follows and authorized the State Highway Engineer to sign agreements when prepared:
- a) Request from Curry County to relocate a section of the S. Bank Chetco River Road to cross under the southerly end of Highway 101. Total cost \$20,000; Federal Funds \$17,200; State's Share \$1,400.
 - b) Request from Deschutes County to replace an at-grade Burlington Northern Railroad crossing with a separation structure over Murphy Road and make any necessary county roadway relocation to conform to the railroad bridge. Total cost \$18,500; Federal Funds \$15,910; State's Share \$1,295.
 - c) Request from Union County to construct a reinforced concrete bridge approximately 50' long with a 28' roadway on the Willow Creek (Glenn Road) Bridge Section. Total cost \$8,000; Federal Funds \$6,880; State's Share \$560.
- 4) Canceled a previously approved channelization project (Jerrys Flat Road at the Oregon Coast Highway in Gold Beach) on the Six Year Program in Curry County scheduled for construction during Fiscal Year 1978. A benefit/cost study has been made of the intersection and neither the channelization nor a traffic signal can be justified based on accident savings. In cooperation with Curry County, some improvements will be undertaken on this County road utilizing Highway Betterment Funds for the State's share.
- 5) Canceled a previously approved Safer Off-System Roads Project and approved one request as follows and authorized the State Highway Engineer to sign the agreement when prepared:
- a) Request from the City of Gresham to cancel the project on Kelley Avenue-Cleveland Avenue Section on N.E. 5th Street. (The City inadvertently requested a project on the wrong section.)

- b) Request from the City of Gresham to place a 2½ inch A. C. pavement on the Kelley Avenue-Main Avenue Section of N.E. 5th Street. (This project will replace the canceled one above.) Total cost \$17,340; Federal Funds \$14,912; Local Share \$2,427.
- 6) Supplemental agreement with the City of Eugene to extend the Willamette Greenway Project Agreement covering the West Bank, Phase 2 Acquisition, Lane County, from June 30 to December 31, 1978.
- 7) Financial Aid to Municipalities program grant in the amount of \$1,550 to Lane County to assist in the financing of the local sponsor's matching share of a Master Plan Study to determine the need for a general aviation airport in the Eugene-Springfield area. This action constitutes a waiver of approved Financial Aid to Municipalities program procedures with regard to the annual application cycle. (This grant was approved 7-27-76, however, it was not encumbered as an expenditure for the 1975-77 biennium and now is necessary to approve as an expenditure in the current fiscal period.)
- 8) Authorized presentation of a request to the Emergency Board to increase the limitation of the Air Search and Rescue budget by \$2,520. These funds to be used for the purchase of additional Direction Finders.
- 9) Agreement with SOLV, Inc. for the State to continue participation in the financial support of the State-wide SOLV anti-litter and vandalism program. The contract period is July 1, 1978, through June 30, 1979, and the cost is not to exceed \$25,000. Financing is provided by custom license plate revenue and not the Highway Funds.
- 10) Payment of annual membership dues to the American Public Works Association in the amount of \$400 from May 1978 to May 1979.
- 11) Request to the Emergency Board to apply for and receive an additional \$20,000 in Urban Mass Transportation Administration (UMTA) funds, for the 1977-79 biennium to expand the existing fiscal year 1978 program and to include financial support of local management staff, purchase consultant services for small community transit systems and publication of a quarterly transit newsletter.
- 12) Fiscal Year 1979 Annual Unified Work Program for Transportation Planning and authorized the Chief of Operations to sign agreements when prepared. Estimated cost \$4,065,981, and requires approximately \$439,819 in State matching funds. (Later, total estimated cost was reduced to \$3,383,881, which will require approximately \$370,995 in State matching funds.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Burco stated that Mr. Bob Booth's tourism study report will be presented later in the meeting.

The Commission reconfirmed that the monthly meeting of July 18, 1978, would be held in Portland and the August 15, 1978, meeting in Salem.

There was discussion concerning a dinner meeting with the Washington Transportation Commission in Portland on September 18 and the regular monthly meeting in Portland on Tuesday, September 19, 1978.

OPERATIONS

The Commission considered a project to restore the Hooskanaden Slide Section of the Oregon Coast Highway in Curry County. Mr. Klaboe showed pictures of the slide area which occurred last winter and stated the project should be done during the summer. He mentioned the estimated cost is \$240,000 to restore the roadway and is proposed to be done with State funds which would be financed by reducing the Department's year-end balance in this amount. The Commission approved the project as recommended by Mr. Klaboe.

Mr. Klaboe reported that the Martin Creek-Anlauf Interchange Section Project of the Pacific Highway in Lane and Douglas Counties was withdrawn from the June 22, 1978, contract letting. He mentioned the cost of the job was estimated between \$26 and \$30 million. The present section is four lanes with a divider and has a lot of access. It is a needed project and should be brought up to Interstate standards at some future date, but due to the financial situation it was decided to remove the project from the letting. The Commission confirmed the administrative decision.

Mr. Klaboe reported on a piece of railroad right of way that is being abandoned from Camp Rilea to Seaside on the Oregon Coast Highway in Clatsop County. He mentioned that portions of the right of way will be needed for future highway expansion. The rest of the right of way is a candidate for a future bike path. Mr. Klaboe said Ms. Ruth Bascom, Chairman of the Advisory Committee on Bicycles, is present and the Committee has recommended that the State acquire all of the abandoned right of way for highway purposes and for a future possible bike path. The estimated cost to purchase the right of way is \$200,000. Mr. Klaboe recommended making application to the Southern Pacific Railroad Company in order to establish the availability of the property and also to get community input to see if a bike path is feasible. The Commission accepted his recommendation.

Ms. Ruth Bascom, Chairman of the Advisory Committee on Bicycles, summarized recommendations for needed improvements on the Oregon Coast bike route and commented on her recent bicycle trip from Coos Bay to Gold Beach. She mentioned the southbound shoulder surfaces should be as smooth as the roadway. Another suggestion was where graveled intersections or driveways connect with the southbound lane, a tongue of shoulder asphalt should be extended into that intersection or driveway. She said this paving will reduce gravel on the shoulder which is dangerous to bicycles and could eliminate the need for sweeping.

Ms. Bascom mentioned that reflector buttons are hazardous to bicyclists. She suggested if possible to use extruded curbs on highway edges only when more than 4 feet of rideable surface on the shoulder exists for the bicyclist. She stated that prime riding space is destroyed by double striping. Ms. Bascom said the Department should take advantage of even inches of extra shoulder room for bicycles. She commented on the need to develop bicycle camping areas away from motor vehicle camping areas in some State parks. She mentioned that these recommendations will be reviewed by the Bicycle Committee and will later be submitted to the Commission in final form. (Summary of recommendations submitted by Ms. Bascom is on file in the Commission's files, Salem.)

Ms. Bascom stated she felt that it would be a marvelous resource for this part of the State to have a bike-hike-jogging corridor on the Seaside abandoned railroad property.

Mr. Ernie Drapela, Chairman of the Recreation Trails Advisory Council, briefed the Commission on the Oregon Coast hiking trail. He said their number one priority of all their recreation trail plans is a coast hiking trail from Astoria to the California line. He mentioned the trail is completed between Astoria and Tillamook and there are a series of 18 primitive campsites that are being established at certain State Parks along the coast.

Mr. Drapela said the number one priority in terms of a bicycle route is also along the coast. He pointed out another priority is the high desert trail system from northeast Oregon to an area somewhere around Fields and Denio and along the southern Oregon boundary. He also felt there was a need to do more for the needs of the equestrian people.

Mr. Bob Westerberg, a member of the Recreation Trails Advisory Council, thanked the Commission for coming to the coast and meeting with the people.

Mr. Talbot reported on the status of funds from parks' land sales. Following Mr. Talbot's favorable recommendation, the Commission authorized the Parks Division to dedicate revenues obtained from sale of surplus park properties for the exclusive use of State Parks to purchase properties that are determined to be appropriate for park operation.

Mr. Talbot discussed with the Commission the Nehalem Bay State Airport Lease and Park Impacts of Four Alternative Proposals for the Future of the Airstrip in Clatsop County. (The reports of the Parks Branch and the Aeronautics Division concerning the Nehalem airstrip were previously mailed to the Commission and are on file in the Commission's files, Salem.) Mr. Talbot mentioned the four alternatives are as follows:

1. Discontinue the lease at expiration, remove the airstrip and associated facilities including the access road, restore the site to a natural condition.
2. Continue the lease. Maintain condition as is with the exception of installing a fence as required by the original agreement.
3. Continue the lease. Prepare a new agreement permitting hangars, a mobile home residence for a watchman with necessary utilities, and surfacing the airstrip.
4. Continue the lease. Prepare a new agreement permitting facilities listed in Alternative 3 plus permit expansion and realignment of the runway and airport 80° clockwise from the current alignment. These improvements would meet the Basic Utility II airport Federal classification.

He stated that he is not making any recommendation at this time as the Commission and staff will be meeting with local officials at the airstrip this afternoon. (See page 2579.)

Attention was given to the renewal of an agreement with Oregon State University for the planning, development, operation, supervision and administration of the seasonal park naturalist program. Mr. Talbot said this covers a period from June 12 through September 8, 1978, and will be offered at nine popular parks throughout the State. The estimated cost is \$54,605 which funds are budgeted and the program has the support of the Parks and Recreation Advisory Committee. The Commission approved the agreement as recommended by Mr. Talbot.

Mr. Talbot referred to a letter dated June 9, 1978, and proposed constitutional amendment which was previously mailed to the Commission concerning the Initiative Petition Campaign on Highway Fund. He indicated if the measure passed Highway funds could not be used for the State Parks Program. The primary impacts are as follows:

1. The constitutional provision allowing use of the fund for park purposes would be removed. Parks use of the Highway Fund for the last several budget periods is shown below (all figures in \$ millions):

| <u>1973-75</u> | <u>1975-77</u> | <u>1977-79 (est)</u> | <u>1979-81 (est)</u> |
|----------------|----------------|----------------------|----------------------|
| \$11.4 | \$10.00 | \$0.46 | \$4.97 |

2. The statutory earmarking of recreational vehicle registration fees for State Parks will be changed to allow its use for other purposes. Income for parks from this source is shown below (all figures in \$ millions):

| <u>1973-75</u> | <u>1975-77</u> | <u>1977-79 (est)</u> | <u>1979-81 (est)</u> |
|----------------|----------------|----------------------|----------------------|
| \$7.47 | \$7.50 | \$9.55 | \$10.80 |

Mr. Talbot presented to the Commission copies of the Parks System Plan. He mentioned that this plan covers their proposed plans pertaining to land purchases and development and how they perceive their relationship with local governments and private sectors.

The Commission considered an agreement with Multnomah County for police service at Benson, Lewis & Clark, Rooster Rock and Dabney State Parks. Mr. Talbot indicated the agreement covers a period beginning May 1, 1978, through March 30, 1980, and has a maximum fiscal year expenditure limitation of \$35,000. Following Mr. Talbot's recommendation the Commission approved the agreement.

Mr. Talbot presented a status report on the nonresident camper surcharge. (Copy of report on file in the Commission's files, Salem.) He recalled that the \$2 daily surcharge for nonresident campers was enacted by the 1977 Legislature. He said from the date of implementation on July 25, 1977, to the present surcharge revenues of \$256,500 have been reported. Allowing for the late start of the surcharge in the 1977 camping season, it was estimated that annual revenues of \$500,000 should be realized in the future. After implementation, resident campers increased over projections, however, nonresident camper nights declined approximately 25% over the period of August through December 1977. Mr. Talbot pointed out this decline when compared with the projected growth rate resulted in an overall decline for nonresidents of approximately 32% below the projection. It is estimated that the net effect of the surcharge would be to produce revenues of approximately \$250,000 annually. If this trend continues, he said, there may be a biennial shortfall of \$500,000 from the revenue level anticipated by the Legislature when the law was enacted.

Mr. Talbot said unfavorable public comment to the surcharge still exists and letters to the Governor, to the Parks Branch, to the newspapers and at the various parks point out that the law is discriminatory.

Mr. Talbot stated one of the options for the Commission is to go back to the Legislature and ask them to reconsider this matter.

The Chairman inquired if the surcharge offered any relief to the resident camper. Mr. Talbot said the resident camper has increased at a rate greater than the nonresident.

Gene Magee, Executive Director of the Oregon Coast Association, was present and stated that the private campgrounds are not observing any significant increase in campers. He mentioned a lot of them are going into Washington, Idaho or California.

The Chairman indicated that the Commission should have a recommendation from the State Parks Advisory Committee concerning this matter prior to the next session of the Legislature.

Mr. Talbot submitted an economic study report of the impact of Fort Stevens State Park on Clatsop County. (Copy of report on file in the Commission's files, Salem.) He stated the report shows that the total economic impact created by campers and State Park expenditures in 1976-77 was approximately \$2,104,600 for goods and services within the County.

Following Mr. Talbot's recommendation, the Commission authorized the Parks Branch to appear before the Emergency Board for an expenditure limitation increase to correct an Emergency Board oversight in allocating salary adjustment funds.

Mr. Talbot mentioned that due to the budget crunch the Parks Branch is looking at a possible day-user fee for State Parks. He said the current idea is the Sno-Park permit approach where a person would buy a \$5 a year or a \$1 a week card to be placed on the dashboard of the vehicle.

Commissioner Walsh complimented Mr. Talbot and his staff for the outstanding tour yesterday of the parks along the northern Oregon coast.

Mr. Talbot mentioned a certificate of appreciation had been presented to J. W. "Bud" Forrester at the no-host dinner the night before for his outstanding service as a former member of the Parks Advisory Committee.

The Commission considered a Financial Aid to Municipalities grant to the City of LaGrande for an additional amount of \$6,190 to be added to a previous grant of \$8,353 that was approved by the Commission on April 25, 1978, for strengthening of the taxiway. Mr. Burket said the total grant of \$14,543 will constitute one half of the sponsor's matching share of a \$189,440 Airport Development Aid Program Project. The Commission approved the grant as recommended by Mr. Burket.

Mr. Moore reported on how the State will implement the intercity public transportation program. He mentioned the Emergency Board has released \$80,000 for a five-part project. He commented on the shelters that would be constructed in close proximity to the bus depot and the installation of bus directional signs to help the people find the depot. Mr. Moore mentioned the trip guide (ticket jacket) which informs the people of the various types of transportation within a city. He commented on the study for the Portland Transportation Center located near the Union Station, the Polk County bus service and the Reedsport bus system.

After a 15-minute recess, the Chairman reconvened the meeting at 10:25 a.m.

Mr. Bob Booth, Chairman of the Travel Advisory Committee, presented to the Commission two reports concerning the State's 1979-81 Travel Program:

Report and Recommendations of the Tourism Study Committee to the Travel Advisory Committee. (31-page report dated June 13, 1978.)

Recommendations of the Travel Advisory Committee to the Transportation Commission.

(Both reports on file in the Commission's files, Salem.)

Mr. Booth said their recommendations represent concepts and priority designations adopted by the Travel Advisory Committee from the Tourism Study Committee report. He stated the Committee's report recommended specific program elements and budgets, identifying those elements the Committee believes that a Statewide travel industry program needs, how private industry and the State should share each responsibility, and a budget range for the State's share of each element, with dollars allocated reflecting relative importance. He read a summary of a report which covered policy and goals, recommended program elements, budget priorities, revenue source, organization plan and further recommendations.

The revenue source listed in the report is as follows:

The Travel Advisory Committee recommends that the entire revenue for the total program be raised by a Statewide 1% user tax on hotel-motel rooms, and that the facilities be reimbursed for their expenses out of the revenue they collect. Projected annual revenue would be in the range of one and 3/4 to 2 million dollars. The revenue would be dedicated to the travel program.

There was considerable discussion pertaining to the Committee's recommendations as outlined in the report. The Commission indicated that there is a need for public input, further study on funding alternatives and jurisdiction issues. The Commission decided to postpone action on this matter until a later meeting.

Mr. Craig Henry of the Oregon Motor Hotel Association stated they will not support during the next session of Legislature any proposal which calls for the imposition of a one percent Statewide room tax. (Copy of Mr. Henry's statement on file in the Commission's files, Salem.)

Mr. Jack Varra, Oregon Motor Hotel Association Director, 12th District, read a letter outlining his reasons against the one percent room tax. (Copy of Mr. Varra's letter on file in the Commission's files, Salem.)

Mr. Gene Magee, Executive Director, Oregon Coast Association, stated the major concern with the Study Committee's recommendation is that not enough time has been given for response and input to the program. He said hopefully the industries will be able to work closely with the Study Committee in this interim period. He indicated a letter would be sent to Mr. Booth pointing out the areas of concern. Mr. Magee felt the State should continue in the promotional role. He mentioned for five years the Oregon Coast Association has concentrated on improvement of the various east-west highways to the coast, but now they are going to step back into the role for which they were originally formed in 1923 to develop the Coast Highway from the Columbia River to the California border.

State Representative Ted Bugas thanked the Commission for coming to Astoria to hold their meeting. Mr. Bugas commented on the \$2 surcharge for out-of-state campers. He mentioned that he is prepared to introduce at the next Legislature some kind of a modification. He asked that the State proceed to acquire the right of way for relocation of Highway 30 to the south side of Astoria as it was outlined in the 1969 Chamber of Commerce Ad Hoc Highway 30 Committee Report. He said the report is several years old but is still valid.

Mayor Robert Chopping also thanked the Commission for coming to Astoria. He pointed out the problem facing the City on Commercial Street and Marine Drive, both of which are State highways. He recalled that in 1970 a Downtown Committee was formed to study the traffic problem. The Committee submitted a plan calling for relocation of Marine Drive in order to make it a two-way street. He said this would have allowed them to move truck traffic from Main Street, which is Commercial, and would be the beginning of a new downtown beautification plan. The cost of this plan based on 1973 estimates would have been 3 to 4 million dollars and to relocate Marine Drive to the north would cost approximately 5 million dollars. He mentioned the traffic volume has increased faster than the State Highway studies predicted. A bypass around Astoria would divert the traffic that has no intention of stopping in Astoria, such as log trucks, chip trucks and others. The Mayor said the City Council is solidly in favor of the State beginning their plans now for a bypass.

Clatsop County Commissioner Orvo Nikula presented the following resolution:

WHEREAS economic growth and welfare of Clatsop County and specifically the Lower Columbia area, the Port of Astoria, and the Cities of Astoria and Warrenton are to a great extent dependent on the development of a better highway and transportation system; and

WHEREAS the present eastern entrance to the area, Highway 30 through the City of Astoria, presents insurmountable obstacles, both financial and physical, to an adequate road system to handle increasing traffic demands; and

WHEREAS the proposed rerouting of Highway 30 Bypass from the John Day River Bridge to Williamsport would provide the shortest and most economical route to solve the problem; and

WHEREAS this route would disturb very little farm land; would displace very few homes; and construction could be done in segments with minimal affect to the present flow of traffic;

(continued on next page)

NOW, THEREFORE, BE IT RESOLVED that the undersigned jurisdictions and organizations being keenly aware of the importance of the project; do strongly urge the Oregon State Department of Transportation to start proceedings to implement this program at the earliest possible time.

Mr. Nikula said this resolution is supported by the City of Astoria, Port of Astoria, Astoria Area and Warrenton Chambers of Commerce, City of Warrenton, Clatsop County and Clatsop County Economic Development Committee.

Mr. George Grove, Director, Port of Astoria, referred to the Port's Long-Range Comprehensive Study. He stated during the course of assessment of the capabilities of the Port, it was made quite obvious that the major system constraint which the Port has to deal with is the lack of a modern, convenient and high-capacity road access to port facilities from the major population cities in the State. A major item that the Port should seek, he said, is a commitment from the Department of Transportation for upgrading the capacities for the last 6 miles of Highway 30 into the Port of Astoria. Mr. Grove urged the construction of a Highway 30 Bypass.

Mr. Jim Platt, Chairman of the Clatsop County Economic Development Committee, stated that a bypass is vital to the development of the County.

Mrs. Frances Stamp, Warrenton Chamber of Commerce, pointed out that a bypass would certainly benefit the Warrenton and Hammond area. She mentioned that many residents in the area prefer to go to Portland over Highway 30 rather than 26.

Mr. Dan Van Dusen, representing the Astoria Area Chamber of Commerce, stated the Chamber fully supports the bypass resolution that was presented. He said without adequate highways to transport its goods, no industries will consider the Astoria area. The Astoria merchants are penalized in their downtown shops where their front doors act as retaining walls on a major highway rather than a convenient entrance to their customers.

The Chairman said the Commission is up against the problem of asking the Legislature to resolve certain financial problems and until that time the Commission is in a difficult position to commit anything other than what has been committed under the Department's Six Year Plan based upon no increase in revenue. He stated the Commission is well aware of the traffic problems in Astoria.

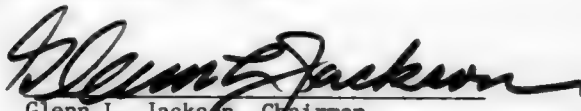

Mr. A. J. Janowski, President of the Manzanita Council, said that they are present today to petition the State Aeronautics Board concerning the 25-year option on the airport at Nehalem Bay. He introduced Paula Edwards, George Paulsen and Irving Carr. He presented a 3-page statement written by Colin Handforth of Handforth and Larson and asked that Mr. Talbot include it in his recommendations to the Commission.

Mr. Howard Wilson, City Manager, Manzanita, mentioned that the Nehalem Bay State Airport fits in well with the recreation program of the State. It is advertised in the State Park literature as being one of the few airports that is close to a park where people can fly in, camp overnight, and walk to the ocean. He said they are not looking at a commercial airport, but primarily one for recreational purposes; however, safety improvements are needed.

Mr. Wilson informed the Commission that the citizens of Manzanita voted in a \$225,000 bond issue to improve its water system so there should be plenty of water for the area.

Chairman Jackson said the Parks Advisory Committee is looking at the airport later in the day and the Commission will get a recommendation from the Parks Branch at a later meeting. (See page 2572.)

The Chairman adjourned the meeting at 12 noon.

- (2) Consultant agreement with Caltrans Laboratory for ultrasonic and mechanical testing of cores from electroslog welds in the West Linn Bridge on I-205, Clackamas County, at an estimated cost of \$1,901.57. (Materials & Research)
- (3) Agreement with the City of Cottage Grove for installation of a new traffic signal at Woodson Place and revision of the existing signal at Main Street on the Goshen-Divide Highway in Lane County. The State will design, install and maintain the traffic signals using State Bond (74) funds. The City has agreed to pay all costs of electrical energy consumed in operation of the signals. (Local Government)
- (4) Agreement with the City of Cottage Grove for construction of the Woodson Place-Main Street Section of the Goshen-Divide Highway in Lane County. The State will obtain the necessary right-of-way and supervise construction using State Bond (74) funds. The City has agreed to cooperate in the adjustment of utilities. (Local Government)
- (5) Agreement with the City of Klamath Falls for traffic signal work on the Esplanade Street-Shasta Way Section of the Klamath Falls-Malin Highway in Klamath County. A new signal will be installed at Washburn Way and the three existing signals will be revised and interconnected. The State will design, install and maintain the signals using Federal Aid Transition Quarter funds. The City has agreed to pay the cost of power consumption for all four signals. (Local Government)

- (6) Agreement with Coos County for construction of the Remote Section of the Coos Bay-Roseburg Highway. The State will perform all preliminary engineering, obtain the right-of-way and supervise construction using Federal Aid Primary funds. The County has agreed to cooperate in the adjustment of utilities and accept jurisdiction of a portion of the existing highway which will be by-passed. (Local Government)
- (7) Agreement with the City of Albany for installation of traffic signal equipment on the Albany-Corvallis Highway (Ellsworth and Lyon Streets) at Third Avenue in Linn County. The State will design, install and maintain the signal using State construction funds. This City has agreed to pay 50% of the installation costs and assume all responsibility for power consumption. (Local Government)
- (8) Agreement with the City of Albany for installation of traffic signal equipment on the Albany-Corvallis Highway at 6th Avenue in Linn County. The State will design, install and maintain the signal. The project will be financed 50% with State funds and 50% by the City. The City has also agreed to pay all costs of electrical energy. (Local Government)
- (9) Agreement with Multnomah County for installation of traffic signals on Pacific Highway West at S.W. 53rd Avenue. The State will design, install and maintain the signals using Federal Aid Highway Safety funds. The County has agreed to pay all costs of electrical energy consumed in operation of the traffic signals. (Local Government)
- (10) Agreement with Washington County for realignment of a portion of S.W. 170th Avenue to make a safer connection to the Tualatin Valley Highway. The State will perform the engineering, award the contract and supervise construction of the project. The project is eligible for funding under Section 209 of the Federal Aid Highway Safety Act with 90% Federal funds. The County has agreed to provide the 10% match money and maintain the roadway on completion. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve the 10 items listed and report this action for your official records.

The State will perform all preliminary engineering and design work and supervise construction of the project using Federal Aid Interstate funds. The County has agreed to cooperate in the adjustment of utilities, and to accept jurisdiction of certain frontage roads which will be constructed as part of the project. (Local Government)
- (5) Supplemental agreement with the Federal Highway Administration extending the Speed Advisory Study (Contract DOT-FH-7950) from March 31, 1978, to May 15, 1978, at no additional cost in order to complete the study. (Traffic)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all of the actions listed above and report this action for your official records.

Dated this 6 day of June, 1978.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
JULY 18, 1978

July 18, 1978
Portland, Oregon

The Oregon Transportation Commission met at 8:30 a.m. in the Conference Room, Metropolitan Office, Department of Transportation, 5821 N.E. Glisan Street in Portland. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
B. Gordon Coleman, Member
Peter J. Brix, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
George Bell, Manager of Intergovernmental and Public Affairs
David G. Talbot, State Parks Superintendent
Dennis Moore, Administrator of Public Transit
Larry Rulien, Assistant Director for Transportation Policy and Program Development
Jack Sollis, Chief Counsel
H. S. Coulter, State Highway Engineer
Roger Ritchey, Deputy Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
Robert Bothman, Administrator, Metropolitan Branch
J. B. Boyd, Right of Way Manager
Glen Green, Federal Highway Administration
Fran Neavoll, Commission Services
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell: (Commissioner Walsh abstained from voting on Item 6-a due to a conflict of interest.)

- 1) Minutes of the meeting of May 30, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2675" on file in the Commission's files, Salem.)
- 3) Authorized increases in project authorizations on the following contracts:
 - a) Contract No. 8659, Oregon Coast Highway at Clear Lake Road in Lane County, in the amount of \$15,245.91 (18.7% increase).
 - b) Contract No. 8645, Tunnel Creek-Whitewater Road Section of North Santiam Highway, Marion County, in the amount of \$14,746.85 (14.8% increase).

(continued on next page)

- c) Contract No. 8504, St. Paul-Woodburn Section, Hillsboro-Silverton Highway, Marion County, in the amount of \$82,776.84 (6.4% increase).
 - d) Contract No. 8683, Bellevue-McMinnville Section, Salmon River Highway, Yamhill County, in the amount of \$46,358.55 (8.8% increase).
 - e) Contract No. 8689, Pacific Highway West at 5th Street in Eugene, Lane County, in the amount of \$6,376.37 (10.4% increase).
 - f) Contract No. 8553, Columbia Slough Frontage Roads, East Portland Freeway, Multnomah County, in the amount of \$89,455.81 (13% increase).
- 4) Agreement with Earth Metrics, Inc., for preparation of the draft environmental impact statement for the I-5 - S.W. 89th Avenue Section of Nyberg Road/Tualatin-Sherwood Road, City of Tualatin, Washington County. Amount not to exceed \$68,750 with Federal Aid participation.
 - 5) Request of Marion County for an Urban System Project to signalize the intersection of Lancaster Drive and Hayesville Drive in Salem at a total cost of \$45,000. FUS funds estimated at \$38,700 with the State providing approximately \$3,150 in match funds and a like amount by Marion County. (Authorized State Highway Engineer to sign agreement when prepared.)
 - 6) Requests for projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway and the I-305 Freeway and authorized State Highway Engineer to sign agreements when prepared as follows:
 - a) Widen and improve a 1.92 mile segment of Macadam Avenue between Bancroft Street and the Sellwood Bridge in Portland, Multnomah County. Total cost \$2,807,000; Federal Funds \$2,414,000; Local Share \$393,000. (Commissioner Walsh abstained from voting.)
 - b) Four-lane section with parking and sidewalks on a 0.85 mile segment of S.E. 182nd Avenue (S.E. Division Street-S.E. Powell Boulevard). Total cost \$890,000; Federal Funds \$765,400; Local Share \$124,600. (Multnomah County)

(continued on next page)

- c) Signalize the intersection of 223rd Avenue and Halsey Street, Multnomah County. Total cost \$45,000; Federal Funds \$38,700; Local Share \$6,300.
 - d) Realign and widen 1.62 miles of Cherry Park Road (N.E. 242nd Street-Troutdale Road), Multnomah County. Total cost \$1,400,000; Federal Funds \$1,204,000; Local Share \$196,000.
 - e) Variable two-four lane section on 223rd Avenue and Towle Road (Powell Boulevard-Butler Road), Multnomah County, and replace existing bridge over Johnson Creek. Total cost \$2,282,000; Federal Funds \$1,962,520; Local Share \$319,480.
 - f) Third lane on the Marion Street Bridge and construct ramps to connect the Marion and Center Street Bridges to Front Street, City of Salem. Total cost \$4,670,000; Federal Funds \$4,016,000; Local Share \$654,000.
- 7) Requests for approval of the following Safer Off-System Road Projects and authorized State Highway Engineer to sign agreements when prepared:
- a) City of Sutherlin extending the work on Umatilla Street (Central Ave.-6th Ave.) and include work on N.E. 4th Avenue (Umpqua Street to Mar Donna Way), Douglas County. Total cost \$350,000; Federal Funds \$64,500; Local Share \$285,500.
 - b) Jefferson County for a grading and paving project on Madras-Prineville Highway-Grizzly Road Section of Metolius-Grizzly Road. Total cost \$250,000; Federal Funds \$215,000; Local Share \$35,000.
 - c) Polk County for a paving and structure project on the Buell-Mill Creek Park Section on Mill Creek Road. Total cost \$250,000; Federal Funds \$215,000; Local Share \$35,000.
 - d) Yamhill County for a bridge over the North Yamhill River on the Oak Ridge Road. Total cost \$143,600; Federal Funds \$123,600; Local Share \$20,000.
 - e) Special Road District #6 in Deschutes County for a bridge over the Deschutes River in Deschutes River Homesites in the LaPine Recreation Area. Total cost \$75,000; Federal Funds \$64,500; Local Share \$10,500.

- 8) Requests for approval of the following two FAS-C Preliminary Engineering Projects and one FAS-C Construction Project and authorized State Highway Engineer to sign agreements when prepared:
- a) Lake County for 4 structures on the Hart Lake Section on FAS B 329. Total cost \$10,000; Federal Funds \$8,600; State's Share \$700.
 - b) Malheur County for a bridge over the Malheur River on Airport Road, FAS B 495. Total cost \$10,000; Federal Funds \$8,600; State's Share \$700.
 - c) Washington County for work on the Glencoe Road, FAS A 685, and on West Union Road, FAS A 686. Total cost \$630,000; Federal Funds \$541,800; State's Share \$44,100.
- 9) Supplemental agreement with the Nature Conservancy for data collection and computerization of an Oregon Natural Areas Inventory. Supplement will amend the original agreement to require that computer facilities be provided by the State of Oregon.
- 10) Authorized Administrator of Public Transit Division to sign contracts with Burlington Northern and Southern Pacific Railroad Companies for up to \$2,500 each on behalf of the Willamette Valley Rail Study Committee.
- 11) Apportionment of metropolitan planning funds for Oregon from Fiscal Year 1979 Interstate Funds in the amount of \$127,860 to Portland, Salem and the Eugene-Springfield area and matched by the State on an 80-20 basis. (Authorized Assistant Director for Operations to sign agreements when prepared.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Bell distributed a list of legislative bill concepts for the 1979 Legislature and a memo from Mr. Sollis dated July 14, 1978, showing the proposed legislation not yet drafted. (The Commission received last week all of the legislative bills to date in draft form.) Mr. Bell mentioned the concepts were submitted to the Executive Department for review in April of this year. Last month the Executive Department returned the concepts with ratings as follows:

- A - Governor's package
- B - High agency priority
- C - Not so high agency priority
- D - More information
- C/D - Draft and will look at draft
- E - Eliminate

He said the bills in draft form are to be sent to the Executive Department the end of this week for their review.

Mr. Bell stated that Mr. Rulien and others will be meeting in the near future with the joint City-County Liaison Committee so that they will be aware of the Department's legislative package.

Mr. Sollis reviewed the various proposed legislative bills with the Commission as follows:

LEGISLATION ODOT

| <u>No.</u> | <u>Title</u> | <u>Gov's Rating</u> |
|------------|--|---------------------|
| 1 | Authorizing Accrual Accounting | C/D |
| 2 | Relating to public hearings under Administrative Procedure Act | C |
| 3 | Establishes the Parks Division in the Department of Transportation | B |
| 4 | Housekeeping Minor (Eliminates Commission Secretary and the Commission seal in custody of Secretary. Updates statutes.) | None |
| 5 | General Housekeeping (Amends statutes regarding personnel and the organizational structure of DOT and its divisions.) | C/D |
| | After considerable discussion, the Commission asked that the General Housekeeping Bill be resubmitted to them at the August 15, 1978, meeting. | |
| 6 | Sno-park permit revisions
(continued on next page) | C |

HIGHWAY DIVISION

| <u>No.</u> | <u>Title</u> | <u>Gov's Rating</u> |
|------------|---|---------------------|
| 1 | Disposition of State Police fines | None |
| 2 | Increase outdoor advertising permit fees | C |
| | The Commission asked that this bill be resubmitted as an administrative rule. | |
| 3 | Relating to cost of designing bridges for counties | None |
| 4 | Relating to cost of Speed Control Board | None |
| 5 | Relating to truck weights | None |
| 6 | Relating to fines for overweight violations | C/D |
| 7 | Relating to local government contracts | None |
| 8 | Relating to right of way tax exemption | None |
| 9 | Relating to selling right of way | None |
| 10 | Mandatory tire chain law | C |
| 11 | Relating to evaluation of fixtures in condemnation | None |
| 12 | Relating to depositing mud on highways | C/D |
| 13 | Relating to permit fees for facilities on highway right of way | None |

PARKS BRANCH

| | | |
|---|--|------|
| 1 | Relating to marine facility grants for the Parks Section | None |
| 2 | Relating to historic property tax law | None |

AERONAUTICS

| | | |
|---|---|---|
| 1 | Relating to tax exemptions for State-owned airports | E |
| 2 | Relating to fees for registration of aircraft | C |

The Commission asked that these fees be set by administrative rule rather than by statute.

(continued on next page)

| <u>No.</u> | <u>Title</u> | <u>Gov's Rating</u> |
|------------|--|---------------------|
| 3 | Relating to special land values adjacent to airports | C |
| 4 | Relating to the operation of aircraft while intoxicated (Mr. Sollis said this is a rather complicated bill and it will be drafted by the Legislative Counsel.) | - |

MOTOR VEHICLES DIVISION

| | | |
|----|--|------|
| 1 | Assigning statutes to specific chapters | None |
| 2 | Safe tire legislation | C/D |
| 3 | Periodic motor vehicle inspections | C |
| 4 | Assembled vehicle titles | C |
| 5 | Mobile home tax verification | C |
| 6 | Bonds for wreckers and motorcycle and auto dealers | C |
| 7 | Relating to affidavits for title | C |
| 8 | Title and registration files | C |
| 9 | Vehicle equipment | C/D |
| 10 | Implied consent hearings | C |
| 11 | Fraudulent identification | E |
| 12 | Definition of resident | C |
| 13 | Changes in title inspection and penalties for dealers and wreckers | D |

Mr. Sollis discussed the following proposed legislation which has not yet been drafted:

- 1) Repealing on-premise sign legislation.

The Commission instructed Mr. Sollis not to draft repealing on-premise sign legislation.

- 2) Deletion of motor vehicle registration suspension requirements.

(continued on next page)

- 3) Gas tax refunds to cities and counties and Federal Government.
- 4) Statute authorizing Marine Board transfers from Motor Vehicles Fund.
- 5) Place jurisdiction of beaches under the Department. (Presently under State Highway Engineer.)

Mr. John Lang, Acting Public Works Administrator for the City of Portland, discussed the lease of land located beneath the East approach of the Fremont Bridge, Multnomah County. He stated that there have been two different appraisals made to determine the appropriate rental value of the property, one by the City and the other by the State, which are significantly different. He mentioned that they recently had an opinion from the City Attorney's office concerning the provisions for leasing such right of way that draws some different conclusions about those provisions than the opinion did from the State Attorney General's office. Mr. Lang submitted copies of the City Attorney's opinion for the Commission's review. (Copy on file in the Commission's files, Salem.) He mentioned the State's tentative proposal that he received this morning will be reviewed with Commissioner McCready.

Mr. Klaboe stated that it is his recommendation that an independent appraisal be made and the State and City agree to accept that appraisal.

Mr. Lang suggested a meeting within the next few weeks with Mr. Sollis and the City Attorney's office to work out a mutually agreeable lease arrangement to present to the Commission at its August meeting. He said he would submit the City's plans to the Department's staff for review prior to the August Commission meeting.

The Chairman reconvened the meeting at 10:10 a.m. after a fifteen minute recess.

Mr. Moore presented copies of the Public Transit Division budget. He stated their current budget is \$2,549,642 and approximately \$1 million of this amount is Federal Funds. He said the budget matters that are being discussed today do not include Tri-Met. Tri-Met is preparing their budget and it will be submitted directly to the Executive Department.

Mr. Moore mentioned the budget consists of four programs. The Reduced Level Budget is 85% of the present program level. The total Reduced Level Budget is \$2,304,947. The budget includes 19 incremental decision packages by Division priority. Mr. Moore recommends Commission approval of an adjusted level priority budget of Programs 1-5. Program 4 is the Willamette Valley Rail Study refinement. (Copy of budget (2 green sheets) on file in the Commission's files, Salem.)

July 18, 1978

- 2608 -

Mr. Moore introduced Elsa Coleman and William Parish, members of the Willamette Valley Rail Study Committee.

Mr. Parish presented and read a letter from Senator Keith Burbidge, Chairman of the Committee, which outlined the Committee's goals regarding a rail passenger service between Portland and Eugene. The letter recommended sending a letter to Amtrak which is needed to initiate detailed work on the demonstration project. Mr. Parish requested that the Department include a decision package for this demonstration project in the Public Transit Division's budget in the amount of \$1.6 million. (Operating assistance for improved rail service in the Willamette Valley.) He handed to the Commission a list of goals and objectives, a draft of a letter to the National Railroad Passenger Corporation, an outline of requested service, Senate Bill 999 and a roster of Committee members. (Copies of letter and handouts on file in the Commission's files, Salem.) The Commission approved sending the letter to the National Railroad Passenger Corporation in Washington, D.C. formally indicating DOT's interest in offering experimental rail service in cooperation with Amtrak. The Commission indicated the intent of this letter is not to support any allocation of funds or request for General Funds to support this project but it is to carry out the intent of the Legislature. The Commission indicated that they will take formal action on the Public Transit Budget in August.

Chairman Jackson advised Mr. Burco that a phone call should be made to Al Ullman to express Oregon's concern that the Ways and Means Committee act expeditiously when they reconsider the question of the extension of the Highway Trust Fund.

Mr. Merl Whiteman and Mr. Doug Vincent of the DOT Finance Office presented the Motor Vehicles, Highway, and DOT Central Services Budget which will be submitted on September 1, 1978, to the Governor. Mr. Whiteman explained and answered questions concerning the 1979-81 Scenario 2A and changes in the Scenario 2 Budget with the use of flip charts.

Mr. Klaboe commented on the State Construction Program.

Mr. Burco stated that the Department had asked for guidance from the Governor's Office concerning budget items on tourism for St. Mary's Woods. He handed a letter from the Governor to the Commission.

Commissioner Walsh asked for a breakdown of the budget for Central Services, including the Assessment Pool and Intra-governmental Service Centers and a description of functions. The Commission accepted budget levels in Scenario 2A.

Mr. Sollis reviewed proposed legislation concerning the Motor Vehicles Division's Budget as follows:

| <u>No.</u> | <u>Title</u> | <u>Gov's Rating</u> |
|------------|--|---------------------|
| 1 | Increasing fee for instruction permit and motorcycle endorsement | None |
| 2 | Increasing fee for motor carrier plates and passes | None |
| 3 | DUIL training assessment increase | None |
| 4 | Increase mobile home trip permit | D |
| 5 | Increase plate transfer fee | C |
| 6 | Increase cost of dishonored checks | C |
| 7 | Exemption of \$6 mobile home registration fee | C |

The Chairman suggested that Items 1, 2, 4, 5, 6 and 7 be submitted on the basis as an administrative rule.

Mr. Sollis explained the following items listed in his memo of July 14, 1978, to the Commission concerning proposed legislation not yet drafted:

- 1) Address change procedure
- 2) Motorized bicycles (mopeds)
- 3) Registration and titling of trailers with less than 1,800 pounds gross weight
- 4) Increase of tax on auto insurance
- 5) Railroad aid

Mr. Rulien referred to a letter dated July 10, 1978, previously sent to the Commission concerning the State Rail Plan. He stated a public hearing was held on June 1 to discuss the Department's future involvement in the rail assistance program.

Mr. Rulien stated there appears to be five basic policy options available to the Department regarding its involvement in rail freight as follows:

- A) Status Quo - ODOT's involvement be limited to planning. No 4R Act program funds could be spent in Oregon since FRA only allows grants with States.

(continued on next page)

July 18, 1978

- 2610 -

- B) ODOT acts as a conduit for 4R Act program funds - ODOT will apply for and disburse FRA funds for eligible projects provided that local interests supply the non-federal match and comply with necessary legal requirements. ODOT's expenses will be paid through the five percent administrative allotment associated with the FRA grants. ODOT will provide the audit function and assist locals in complying with FRA regulations in terms of letting bids and arranging contracts.
- C) ODOT directly administers 4R Act grants - ODOT applies for and administers all aspects of FRA rail continuation grants including the letting of bids and the entering into of contracts for desired rehabilitation or service. Local interests provide the non-federal match with ODOT's expenses being reimbursed via the five percent administrative allotment included in the grant. This option requires the enactment of legislation similar to Public Transit's enabling legislation, Senate Bill 16.
- D) ODOT financially participates in 4R Act rail service continuation program - ODOT provides some percentage of the non-federal match, applies for and administers FRA grants, and directly contracts for the required rehabilitation or service. As with Option C, this option requires enabling legislation.
- E) ODOT finances rail-related projects not eligible for 4R Act funding or other federal programs - While the same enabling legislation required for (C) or (D) would give ODOT authority beyond 4R Act programs, this option obviously implies an expanded role for ODOT in rail.

He said 11 people attended the hearing and those that testified indicated that the Department should have at least some authority to directly administer the Federal Railroad Administration 4-R Grants.

Mr. Rulien also mentioned the June 2 meeting of the Rail Plan Advisory Committee in which 12 members were present. The Committee did not take a formal position on any particular policy option. Mr. John Williams of the Southern Pacific Transportation Company felt that Option C or D would be the most realistic option for the State if rehabilitation legislation is enacted at the Federal level. Upon Mr. Rulien's favorable recommendation, the Commission accepted Option C as the Department's position in the Rail Plan concerning its involvement in rail freight.

The Commission considered an agreement with the State Department of Energy. Mr. Rulien pointed out that the Energy Department received a Federal grant to develop information and forecasting procedures that relate to transportation and energy consumption. He said this study is mutually desirable and DOT has an employee that can do the work. The Department of Energy will pay the Department 75 percent of the employee's monthly salary for the period from September 1978 through June 30, 1979. The Department of Energy's contribution is not to exceed \$16,032 for the period. The Commission approved the agreement as recommended by Mr. Rulien and authorized the Director to sign it in their behalf.

The Commission confirmed the following meeting dates:

- 1) August 15, 1978, in Salem
- 2) September 18, 1978, dinner meeting with the Washington Department of Transportation in Portland
- 3) September 19, 1978, regular monthly meeting in Portland

OPERATIONS

Attention was given to the construction of three new structures on the John Day Highway over Snabel, Bologna and Bone Creeks in Wheeler and Grant Counties. Mr. Klaboe said major damage occurred to these bridges as a result of flash flooding over the July 1 weekend. He requested that these bridges be added to the Six Year Program at an estimated cost of \$406,000. There are sufficient unallocated State Construction Funds to cover the cost. The Commission approved the bridge replacements.

Following Mr. Coulter's recommendation, the Commission reappointed Mr. Mike Lockhart and Mr. George Watson to the Winter Recreation Advisory Committee for a one-year term effective July 1, 1978. Mr. Coulter stated Mr. Vawter Parker indicated that he did not want to be reappointed to the Committee. Proposals for filling Mr. Parker's vacancy will be submitted later. (See minutes of 10-24-78, page 2750 for correction to this appointment.)

Mr. Coulter stated that the Winter Recreation Advisory Committee has recommended the following six areas be designated as Sno-Parks:

- 1) Potato Hill (Jackpine Road), Santiam Highway, US20, M.P. 75.90, Linn County.
- 2) Lost Prairie, Santiam Highway, US20, M.P. 67.26, Linn County.

(continued on next page)

- 3) Spout Springs Ski Area, Weston-Elgin Highway,
ORE204, M.P. 22.6, Union County.
- 4) Rye Spring Road, Lake of the Woods Highway,
ORE140, M.P. 29.17, Jackson County.
- 5) Spring Creek Campground Road, The Dalles-
California Highway, US97, M.P. 241.22,
Klamath County.
- 6) Timberline Lodge Ski Area, Timberline Highway,
M.P. 0.0, Clackamas County.

The Commission accepted the Committee's recommendation to establish the six recreation areas as Sno-Parks.

The Commission considered the adoption of a temporary rule exempting modular building units from certain provisions of existing rules governing the movement of mobile homes and modular housing units. Mr. Coulter mentioned that Boise Cascade and other companies have experienced delays in transportation due to wind conditions on I-80N, mainly through the Columbia Gorge, and the delays hinder meeting shipping schedules. He said present rules prohibit the movement of mobile homes and modular units when conditions may be hazardous due to wind velocity. Mr. Coulter stated a study has been made and it is recommended that there should be some exemption from the "wind rule" for these units. Following his recommendation, the Commission adopted "Permit Administrative Rule No. 37" on file in the Commission's files, Salem, and granted authorization to proceed with a hearing on a permanent rule. (The temporary rule was filed with the Secretary of State on July 19, 1978, and published in the Administrative Rules Bulletin on August 1, 1978.)

Mr. Coulter advised the Commission that he had appointed a task force to explore the public view of the maintenance workers. He handed to the Commission a report entitled "Public Image of Highway Maintenance Workers." (Report to be discussed at the August 15, 1978, meeting of the Commission.)

Mr. Talbot reported the Oregon Parks Foundation is a non-profit group to generate gifts, land and money for State or local parks. He stated Chairman Jackson and himself are automatically members of the Board of Directors of the Foundation. A provision of the Articles of Incorporation include Transportation Commission and Portland City Council approval of new members to the Board. Mr. Talbot said the Foundation is proposing the addition of the following new members:

Mrs. Elizabeth Crookham, Portland
Mr. Vince Genna, Bend
Mr. Jack Brown, Portland

The Commission approved the three individuals to the Board of Directors.

Mr. Talbot discussed with the Commission revenue from timber sales. He mentioned at the present time all revenue from the sale of timber from Transportation-owned lands is credited to the State Highway Fund. He requested that the revenues generated by the sale of timber from State Park properties be dedicated for the exclusive use of parks maintenance and operation, including parks timber management. Mr. Talbot said that this matter has the approval of the Parks and Recreation Advisory Committee. The Commission approved applying timber sale revenue to the Parks Budget.

Mr. Talbot reported on the request of Mr. and Mrs. Dean Jackson to construct a campground on the Rogue River Scenic Waterway near Agness in Curry County. He said this matter was previously submitted to the Commission at their May 30, 1978, meeting and the Commission authorized the State Parks Superintendent to approve the agreement. A delegation order previously adopted by the Commission authorizes the State Highway Engineer to sign the agreement on behalf of the Commission. Mr. Talbot said the differences of opinion concerned a setback in a planting zone along the river, the density of the number of sites inside the campground, the planning inside the campground and the transient versus long-term use.

He said an agreement has now been reached to a 12-foot setback from the bank, a planting zone, a screening with a hedge and other thick vegetation so that the campground will be totally screened from the river. The issue of transient versus no transient was arranged for a three-month limit as compared to a year-round. Mr. Talbot said he was not totally satisfied with the compromise, but it was the best he could do considering all the other alternatives.

The Commission considered the appointment of a short term Advisory Committee to assist with the State Parks plan to work with staff and the project consultant to review the roles and responsibilities of State Parks. Mr. Talbot recommended and the Commission approved the appointment of the following Committee:

| | | |
|-----------------|--------------|---------------------|
| Bernard Bishop | Edward Heath | Wade Newbegin, Jr. |
| Douglas Bridges | Jere Jackson | William Penhollow |
| Neal Coenen | Tom Keel | Rep. Sandy Richards |
| Robert Coleman | Miles King | Mike Starr |
| Robert Corthell | Noel Klein | Charles R. Schrader |
| Larry Espey | Neal Ledward | Donald Warman |
| Estella Ehelebe | Gene Magee | Kenneth White |
| Vince Genna | Robert Maxey | Robert Stein |
| Dale Haskins | | |

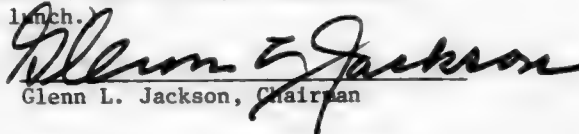

The Commission also authorized paying up to \$800 for reimbursement of travel costs for Gene Magee, Larry Espey, Wade Newbegin and Sandy Richards, all representing interests of the general public.

Mr. Talbot mentioned that the Parks and Recreation Advisory Committee will be taking their annual trip on August 10, 11 and 12, 1978.

Attention was given to the signing of a contract with the City of Pendleton for a taxi study. Mr. Moore said the planning staff has been working with the City in an effort to improve the taxi service. A consultant will be hired to assess the current taxi company's operation and make recommendations. He said the Division will contribute up to \$500 to assist in covering the consultant's fee. All project administration will be done by the City. The project will be funded from the Division's Urban and Rural Area Public Transportation Assistance Program. Mr. Moore pointed out that the project will provide the Division with timely information on taxi service improvements that should be valuable to other cities in the State. The Commission approved the taxi study contract.

Mr. Moore gave a status report on the proposed visit by 11 Federal officials to view rural public transportation project sites in Oregon. He mentioned the group will start their visit on August 1 in Portland. They will visit the Senior Center in Forest Grove, stop in Salem and then on to the Lane Transit District in Eugene. Mr. Moore said the officials will be briefed on what the Division is doing and perhaps adopt a Federal procedures format similar to Oregon's. He said the Division feels quite strongly that if this program is approved, Federal funds should continue to flow throughout the State as the State is in the best position to help the small rural and urban areas.

The Chairman adjourned the meeting at 12:10 p.m. The Commission viewed a slide presentation by Al Harwood concerning construction of the Glenn L. Jackson Bridge. (The Commission and staff inspected the Glenn L. Jackson (I-205) Bridge construction site on the Columbia River after lunch.)

MINUTES OF 7-18-78

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated
Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following items and report them for your official records:

- 1) On June 12, 1978, approved an agreement with the Corps of Engineers for them to provide a protective revetment on the McKenzie River frontage of Armitage State Park in Lane County. The revetment project will include a boat launching facility to be paid for by the State at an estimated cost of \$16,264.
- 2) On June 12, 1978, approved an agreement with the Corps of Engineers for State Parks to operate the day use area of Stewart State Park in Jackson County for 25 years beginning May 1, 1978, which was incorporated into the development of the Lost Creek Reservoir Project by the Corps.

SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On June 14, 1978, rescinded Speed Zone Rule No. 671 dated July 30, 1974, and established a 45 MPH speed zone on the Lower Columbia River Highway 200 feet south of the Multnomah County Line (M.P. 18.35) to 0.14 mile north of Johnson Landing Road (M.P. 19.22) in Columbia and Multnomah Counties.
- 2) On May 31, 1978, approved 18 personal service contracts not to exceed \$100 each for the production of adequate nominations to the National Register of Historic Places as follows:

| | |
|-------------------------|-----------------------|
| Eric C. Hoff | Len Sobocinski |
| Bruce P. Snider | Douglas Taylor |
| David Jenkins | Claude N. Jillson |
| Harry H. Benedict, III | Timothy Fayne Isley |
| David Walsh | Paul Klein |
| Carol Koch | Ron K. Bills |
| Edward Henry Fitzgibbon | Reed Elwyn & Jon Horn |
| Shirley McDougall | Douglas C. Corbett |
| Daniel V. Downes | Stephen W. Long |
- 3) On June 12, 1978, approved two additional personal service contracts not to exceed \$100 each for the production of adequate nominations to the National Register of Historic Places as follows:

Reed Elwyn and Jon Horn (Property names of IOOF Hall, Lake Oswego, Clackamas County and Piggot's Castle, Multnomah Co.)
- 4) On June 20, 1978, approved two agreements with Chemeketa Community College to provide crash injury management seminars for the period August 21-25 and June 26-30, 1978. Each agreement is for \$660.
- 5) On June 22, 1978, prohibited parking on both sides of the Mt. Hood Highway No. 26 from M.P. 26.25 to M.P. 26.48 in the vicinity of Sandy, Clackamas County.
- 6) On June 28, 1978, approved and signed a Consent to Assignment of Contract, in absence of Right of Way Manager, consenting to assignment of Robert L. Bailey and others, interest in said contract to Judith Alberton, James W. Flad, David L. Snowley and Ronald M. Guillory covering Barbur Blvd.-White School Section, West Portland-Hubbard Highway, Washington County. File 19877.

EXHIBIT B
MINUTES OF 7-18-78

- 7) On July 7, 1978, approved an agreement with Floyd Wilhelm to mow grass along State Highway 82 from M.P. 6 to M.P. 12. (Wallowa County, Wallowa Lake Highway)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7566 In The Matter of the Establishment of a Way-Of-Necessity for
Parcels of Real Property of Petitioners, Chester A. Smith, Jr., et al.
v. State of Oregon, by and through its State Transportation Commission:
This petition arose because some property owners who were landlocked
had built a roadway out to a public highway across a portion of a
material site owned by the State of Oregon, by and through its Depart-
ment of Transportation. The State ordered the petitioners to cease and
desist the use of the roadway and as a result they have filed this peti-
tion for a way-of-necessity. The matter has been turned over to the
Attorney General's office for handling.

L-7584 John McClincy, et al. v. State of Oregon, by and through its
Department of Transportation: This is an action in tort for damages
sustained when a tree which was excepted out of a right of way acquisi-
tion fell and was destroyed because of operations of the contractor.
The case also involves a claim for damages to the plaintiffs' remaining
property because of the failure of a retaining wall. The amount of the
lawsuit is \$55,000 and the matter has been referred to the Attorney
General's office for the defense of the State.

L-7596 Gerald Russell v. Columbia West Materials & Constructors, State
of Oregon, et al: This lawsuit arises out of an accident that occurred
on North Columbia Boulevard near its intersection with Commercial Street
in Multnomah County in a construction area when the plaintiff's vehicle
was damaged while driving over a street that was, as he alleged, left
in a dangerous condition with no watchman, barrier, lights or other
warnings near the construction site to warn of the hazard. The plain-
tiff was driving a motorcycle and sustained injuries. The amount of
the lawsuit is \$264,770.70. The matter has been referred to the Attor-
ney General's office for the defense of the State.

L-7597 James Okita v. R. M. Hegewald and the State of Oregon, by and
through its Department of Transportation: This lawsuit arises out of an
accident that occurred in Harney County on U.S. Highway No. 20 because
the highway was allegedly blocked with traffic and dust was blowing from
a field adjacent to the highway, reducing visibility to zero or near zero.
The area from which the dust was blowing was outside of the right of way.
The amount of the lawsuit is \$18,887.75. The matter has been referred
to the Attorney General's office for the defense of the State.

L-7598 Irving Digregorio v. Robert R. Roberts, et al: Suit for a Declara-
tory Judgment. This case has been brought by Irving Digregorio, personal
representative of the Estate of Domenico Raparelli, in order to establish
the ownership of some property located at 608 S.E. Powell Boulevard in
Multnomah County as it is being acquired by the Highway Division as part
of a highway project. The purpose of the lawsuit is to determine the
ownership of the property so that the Highway Division may pay the
proper parties. The matter has been referred to the Attorney General's
office for handling.

MINUTES OF 7-18-78

Department of Transportation
PUBLIC TRANSIT DIVISION

TRANSPORTATION BUILDING, SALEM, OREGON 97310 PHONE 378-8201

July 11, 1978

MEMORANDUM

TO: Oregon Transportation Commission
FROM: Dennis H. Moore, Administrator
Public Transit Division

SUBJECT: Report of Actions Taken Under Delegated Authority

On behalf of the Commission and under its authority delegated to me to approve and sign contracts, I have taken the following actions since my last report to you on October 14, 1976.

1. Urban Mass Transportation Administration, Section 5--a federal program providing operating assistance to urban transit systems on a pass-through basis.

A. Lane Transit District

- (1) A contract (acting as the recipient) with the Urban Mass Transportation Administration to receive and disburse \$573,771 of federal operating assistance funds for Fiscal Year 1977 to the Lane Transit District (the grantee).
(February 18, 1977)
- (2) A request for reimbursement (acting as the recipient) with the Urban Mass Transportation Administration to receive \$182,161 of federal operating assistance funds for Fiscal Year 1977 to the Lane Transit District (the grantee).
(April 18, 1977)
- (3) An application (acting as the recipient) with the Urban Mass Transportation Administration to receive \$721,996 of federal operating assistance funds for Fiscal Year 1978 to the Lane Transit District (the grantee).
(February 6, 1978)
- (4) A request for reimbursement (acting as the recipient) with the Urban Mass Transportation Administration to receive \$541,497 of federal operating assistance funds for Fiscal Year 1977 to the Lane Transit District (the grantee).
(February 6, 1978)

B. City of Salem

- (1) A contract (acting as the recipient) with the Urban Mass Transportation Administration to receive \$372,173 of federal operating assistance funds for Fiscal Year 1977 to the City of Salem (the grantee).
(January 24, 1978)
- (2) A request for reimbursement (acting as the recipient) with the Urban Mass Transportation Administration to receive \$45,085 of federal operating assistance as amended Fiscal Year 1976 funds to the City of Salem (the grantee).
(February 21, 1978)
- (3) A request for reimbursement (acting as the recipient) with the Urban Mass Transportation Administration to receive \$358,228 of federal operating assistance funds for Fiscal Year 1977 to the City of Salem (the grantee).
(May 2, 1978)

II. Urban Mass Transportation Administration Section 16(b)(2), a program for capital purchases of vehicles and equipment to be used in transporting elderly and handicapped persons.

- A. A contract with the Urban Mass Transportation Administration to administer and disburse \$263,690 of federal funds for the purchase of capital equipment to be used in transporting elderly and handicapped persons. Local match of 20 percent is specified for a total budget of \$329,613.
(May 26, 1977)
- B. Under the above federal program for Elderly and Handicapped Capital Equipment Grants, agreements have been signed to purchase 18 vehicles and auxiliary equipment such as wheelchair lifts and radio dispatching systems with the following eight organizations:

Clackamas County Senior Citizens Council; West Linn
(August 11, 1977)

Spruce Villa, Inc.; Salem
(June 13, 1977)

Shangri-La Corp.; Salem
(July 13, 1977)

Eastern Oregon Community Development Council; Baker, Union, and Wallowa Counties
(May 20, 1977)

Quin-Tra Transportation Services for the Elderly and Handicapped, Inc.; Gilliam, Grant, Morrow, Umatilla, and Wheeler Counties
(July 7, 1977)

Senior Citizens Social Services, Inc.; Tillamook County
(May 27, 1977)

Senior Services, Inc.; Clatsop County
(June 2, 1977)

Benton Association for Retarded Citizens; Corvallis
(May 30, 1977)

III. Urban Mass Transportation Administration, Section 9--a federal program to assist smaller communities in preparing transit development programs and conducting demonstration programs.

- A. A contract with the Urban Mass Transportation Administration for \$70,000 in federal funds to continue a Technical Resource Program for transit planning assistance to smaller communities.
(August 17, 1977)
- B. A contract with the Urban Mass Transportation Administration for \$8,000 in federal funds for a management assistance grant to the City of Corvallis for improved management of transportation operation.
(March 10, 1978)
- C.1 A contract with the Urban Mass Transportation Administration for \$12,000 in federal funds for a management assistance grant to the Rogue Valley Transportation District for improved management of transportation operation.
(March 10, 1978)
- C.2 A contract amendment to extend the contract period of the management assistance grant with the Rogue Valley Transportation District to August 31, 1978.
(June 22, 1978)

IV. The following contracts were signed after approval by either the Commission or the Chairman:

- 1. A consultant contract for \$85,000 in State General Funds with Alan M. Vorhees and Associates to undertake the major planning effort of the Willamette Valley Rail Study Committee.
(June 7, 1978)
- 2. Small urban and rural capital assistance grant programs (State General Funds to pay one-half the cost of buses):
 - (a) Capital Grant to Albany \$25,000
(June 30, 1977)

3. Transit operating assistance--State General Funds to participate in small city transit systems:
 - (a) City of Astoria \$40,000
(December 21, 1977)
 - (b) City of Ontario \$20,000
(December 21, 1977)
 - (c) Rogue Valley Transportation District \$60,000
(September 28, 1977)
 - (d) City of Corvallis \$80,000
(October 26, 1977)
 - (e) City of Bend \$40,000
(October 27, 1977)
 - (f) City of Albany \$40,000
(October 10, 1977)
 - (g) Columbia County \$40,000
(October 26, 1977)
 - (h) City of Roseburg \$60,000
(October 31, 1977)
4. Experimental Transportation Program:
 - (a) Yamhill County \$18,510
(February 21, 1978)
 - (b) City of Woodburn \$18,899
(March 30, 1978)
5. A contract with the Tri-County Metropolitan Transportation District of Oregon to pay up to \$1,426,516 in State General Funds for half of the non-federal share of costs associated with capital construction of Federal Projects No. OR-03-0008 Amendment No. 1 (Transit Mall) and No. OR-03-0009 (Main Garage).
(December 15, 1977)

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
AUGUST 15, 1978

August 15, 1978
Salem, OR

The Oregon Transportation Commission met at 10 a.m. in the Conference Room of the Transportation Building in Salem. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Don W. Streun, Assistant Director for Administration
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
George Bell, Manager of Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Public Transit
Harold Grover, Administrator of Motor Vehicles
Warren Gaskill, Deputy State Parks Superintendent
Merl Whiteman, Fiscal Officer for the Department of
Transportation
Robert Bothman, Administrator, Metropolitan Branch
Glen Green, Federal Highway Administration
Cecil Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meetings of June 20 and July 18, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2676" on file in the Commission's files, Salem.)
- 3) Authorized increases in project authorizations on the following contracts:
 - a. Contract No. 8732, Shaniko Rock Production Project, Sherman and Shaniko-Fossil Highways, Wasco County, in the amount of \$38,481.95 (42% increase).
 - b. Contract No. 8485, Periwinkle Creek Bridge, Albany, FAU 2940, Linn County, in the amount of \$15,093.22 (11.7% increase).

- 4) Added to the Six Year Program the revised signing of the Columbia River and Old Oregon Trail Highways from Portland to the Idaho State Line from the Interstate 80 North designation to Interstate 84. Estimated cost \$340,000 to be financed with Interstate Funds.
- 5) Memorandum of Agreement with CRAG and Tri-Met pertaining to the CRAG transportation planning process. (Authorized Assistant Director for Operations to sign agreement.)
- 6) Oregon's participation in the national pooled fund study of environmentally acceptable methods of coating steel bridges. (Requested by Federal Highway Administration to participate in study.) Oregon's contribution is \$10,000 in Federal Highway Planning and Research Funds on a nonmatching basis.
- 7) Agreement with CH2M-Hill, Inc., for preparation of the draft environmental impact statement for the S.W. Murray Blvd.-Alice Lane Section of Allen Boulevard in Beaverton. Cost not to exceed \$65,140 for an eight-month period.
- 8) Request for a FAS-C preliminary engineering project for the Thornton Lake Bridge on the North Albany Road in Benton County. Total Cost \$10,000; Federal Funds \$8,600; State's Share \$700. (Authorized State Highway Engineer to sign agreement when prepared.)
- 9) Three requests for Urban System Projects and a request to cancel a previously approved project as follows: (Authorized State Highway Engineer to sign agreements when prepared.)
 - a. Request from City of Baker for paving the Oak Street-Birch Street on Auburn Avenue and Balm Street-Birch Street on Washington Avenue. Total Cost \$60,800; Federal Funds \$47,420; State Share \$6,690.
 - b. Request from City of Portland to add left-turn phases to existing traffic signals at 10 intersections. Total Cost \$52,300; Federal Funds \$44,980; State Share \$3,660.
 - c. Request from City of Roseburg to signalize the intersection of Stewart Parkway and Harvard Avenue. Total Cost \$40,000; Federal Funds \$34,400; State Share \$2,800.
 - d. Request from City of Medford to cancel a previously approved \$5,000 traffic study in the Medford central business district. Project is being withdrawn due to a determination by the Federal Highway Administration that the project is a planning activity eligible under the Bear Creek Area Transportation Study.

- 10) Agreement with Daniel, Mann, Johnson and Mendenhall/Hilton for preparation of the draft environmental impact statement for the Jantzen Beach-Pacific East Overcrossing Section of the Pacific Highway in Portland, Multnomah County. Amount not to exceed \$101,500 for an eight-month period.
- 11) Adopted resolution abandoning a short section of old highway alignment on the Forest Boundary-Cottonwood Creek Section of the Klamath Falls-Lakeview Highway in Lake County. ("Abandonment Resolution No. 573" on file in the Commission's files, Salem.)
- 12) Adopted a resolution accepting an amendment to the Federal Grant Agreement for the Aurora State Airport construction project. This amendment reinstates construction and paving of an aircraft parking apron in the current airport improvement project. No additional funds are involved. ("Aeronautics Miscellaneous Resolution No. 16A" on file in the Commission's files, Salem.)
- 13) Traffic improvement project in Lebanon (improve the turning radius at Oak Street and installations of traffic signals at Airport Road (both on Santiam Highway) and add to Six Year Program. Estimated cost \$64,000 with Federal participation of \$54,800 and State matching funds of \$9,200.
- 14) Modification of a planning grant with the Federal Rail Administration for additional funds in the amount of \$20,871. The funds will require \$5,218 of match and that amount is available in general funds. (Authorized Director to sign agreement.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

Chairman of Transportation Commission
 State Highway Engineer
 Right of Way Manager
 State Parks Superintendent
 Chief Counsel
 Highway Controller

 Exhibit F

DIRECTOR'S REPORT

Mr. Burco advised the Commission that the budget must be submitted to the Executive Department and the Governor by September 1, 1978. He called on Mr. Moore to present the Public Transit Budget.

Mr. Moore presented the 1979-81 base budget and decision packages for the Public Transit Division. He stated it is basically the same budget as previously submitted. He mentioned the revised version reflects a switch of priorities 11 and 17 which was recommended by the Metropolitan Office. Mr. Moore referred to his budget letter to the Commission of July 28, 1978, stating the Director recommends approval of the first 8 priorities totaling \$3,733,648. He pointed out a budget of this level would enable the Division to continue all current intercity, rural and small city programs and would meet the needs of all three of Oregon's major communities. (Copy of July 28, 1978, letter to Commission, with attached Reduced Level Budget (2 blue sheets) and background material entitled Incremental Decision Packages 1-10 on file in the Commission's files, Salem.)

Mr. Moore introduced Mr. Dennis L. West, Program Director, Port of Portland. Mr. Moore said the Division is spending \$23,333 in general funds approved by the Emergency Board and matched by Tri-Met, Port of Portland and the City of Portland to do the Portland Transportation Center Study. Mr. Moore asked Mr. West to brief the Commission on this study.

Mr. West discussed the major items that the Port is presently dealing with concerning the Portland Transportation Center. He said their goals are to test the feasibility of the bus terminal and a transportation center on the site adjacent to Union Station and assuming it is feasible, to develop an implementation plan to proceed with the project. The main concern now, he said, is the feasibility from the design standpoint. He commented on the designs, the various terminal locations and office space and referred to the maps. There was discussion concerning financing and a possible Federal Grant.

The Commission decided to leave the Portland Multi-Modal Terminal of \$450,000 in the Public Transit Division's budget with a full explanation of the budget item to be considered as a contingency in case no other private or public funds are available to complete construction of a center.

The Commission approved the Public Transit Division budget of \$3,733,648. (Copy of the Public Transit Division's budget on file in the Commission's files, Salem.)

Mr. Whiteman presented a financial update of the changes that have been made in the overall budget scenario since the last Commission meeting. He handed to the Commission a summary of these changes. (Copy of summary on file in the Commission's files, Salem.)

Mr. Grover explained the \$2,145,000 increase in the Motor Vehicles Division's budget and handed to the Commission a summary of improvements that increased the budget target. (Two handouts given to the Commission concerning the budget are on file in the Commission's files, Salem.)

Commissioner Hollern suggested that in the future when handouts are submitted to the Commission that copies also be furnished to the audience so they will have a better understanding of the subject.

Mr. Gaskill submitted handouts of the Parks' budget of \$34,381,000 and explained the changes of the reduced level budget and decision packages. (Copy of budget (3 pages) on file in the Commission's files, Salem.) There was discussion pertaining to the \$2 surcharge for nonresidents using overnight camping facilities in State Parks.

Mr. Burco mentioned that at the last Commission meeting Commissioner Walsh had asked for additional information concerning the Central Services' budget. He asked Don Streun to present an overview concerning Central Services.

Mr. Streun handed to the Commission an organizational chart of the Department and commented on the changes since the formation of the Transportation Commission on July 10, 1973. (Copy of organizational chart dated August 11, 1978, on file in the Commission's files, Salem)

The following Branch Managers gave a report on their budget requests, operations and manpower level of their respective branches:

Merl Whiteman, Finance (There was discussion concerning the duties and responsibilities of the Fiscal Branch.)
Russ Graham (representing Bob Whipps), Organization and Manpower Services
Harry Anderson, Information Systems
David Moomaw, General Services

(Copies of the organization charts, budget requests and decision packages submitted by the Branch Managers are on file in the Commission's files, Salem.)

Mr. Rulien presented to the Commission an organization chart of the Policy and Program Development Section and their budget request. He also discussed the operations of his section.

Mr. Rulien presented a chart showing the revenues that the Department would receive from 1979 through 1984 if Ballot Measure No. 3 passes in November, 1978. He said this would involve changes in the vehicle registration and the weight-mile tax. If the measure passes, the total collections are estimated at \$110,000,000. Out of this amount, \$5 million would go for administration costs; \$13 million to cities and \$21 million to counties. Mr. Rulien said the maximum available for highway programs would be \$71 million.

The Commission indicated if Measure No. 3 passes in November the revenue would go to projects in the "Green Program" of the Six Year Highway Improvement Program and to the Maintenance Betterment Program.

Mr. Bell mentioned a fact sheet on Ballot Measure No. 3 is in draft form and will be ready for distribution in early September.

Mr. Whiteman presented a copy of a 1979-81 budget (4 pages) for the whole Department of Transportation (Highway, Motor Vehicles, Public Transit and Aeronautics Divisions, and ODOT Central Services) in the amount of \$754,999,000. He mentioned this is a 48% increase over the last biennium due to Federal Funds allocated for the I-205 Bridge project and the Mt. Hood Freeway transfer funds. (Copy of budget on file in the Commission's files, Salem.)

There was considerable discussion concerning the Travel Information budget of \$1,412,000. Commissioner Hollern moved and Commissioner Walsh seconded that the General Fund budget for the Travel Information Program be reduced by \$900,000. Commissioner Hollern said this would give the Legislature a year to find an alternative way of financing the program. He felt that General Funds should not be used to fund this program. The Chairman said that the Commission by law is required to administer a tourism promotion program. Voting for the motion: Commissioners Hollern and Walsh; against: Commissioners Jackson, Coleman and Brix. The motion lost.

The Commission unanimously approved the Transportation Department's budget in the amount of \$754,999,000.

The meeting recessed for lunch at 12:05 p.m.

The Chairman reconvened the meeting at 1:30 p.m.
(Commissioner Brix did not attend the afternoon meeting.)

Following Mr. Burket's favorable recommendation, the Commission gave their approval for the Division to appear before the Emergency Board concerning the following matters:

- 1) To apply for a Federal grant in the amount of \$100,000 and an increase in budget limitation in the same amount. The grant from the Federal Aviation Administration's Planning Grant Program will fund a one-year continuous aviation planning program for updating the Oregon Aviation System Plan.
- 2) To apply for two Federal grants in the maximum amount of \$20,000 each for a total of \$40,000. These grants will fund an Airport Layout Plan and an Environmental Impact Study on the John Day and Bandon State Airports.

(continued on next page)

- 3) To apply for Federal grants in the amount of \$9,000 and an increase in budget limitation in the same amount. The grants will acquire technical services, equipment and will fund travel for a year-long aircraft operation counting demonstration program at three airports in the State. (One of the airports will be Florence; the other two are not yet known.)

The Commission accepted Mr. Burket's recommendation and appointed the following individuals to the Oregon Aviation Advisory Committee:

One-year term ending December 31, 1979

Ralph Kappler, Mulino
Ralph F. Cobb, Eugene
Eugene F. Burrill, Prospect

Two-year term ending December 31, 1980

Edwin M. Stanley, Portland
Don Wanamaker, Portland
Sam Whitney, Newberg

Three-year term ending December 31, 1981

Milt Kingsland, Milwaukie
Michael Hillis, Bend
DeLane Fry, Hillsboro

Attention was given to a resolution accepting an amendment to the Federal Grant Agreement for the Cottage Grove State Airport in Lane County. Mr. Burket stated the Federal Aviation Administration will participate in eligible items in cost overruns up to a maximum of 10% over the original grant. The amendment increases the total grant from \$111,127 to \$116,937.15. The Commission approved the increase and adopted "Aeronautics Miscellaneous Resolution No. 12A."

Mr. Burket introduced Mr. Grover C. Jones, Chief, Bureau of Aviation, Division of Public Transportation Operations in Florida.

Mr. Bothman presented a status report of the Banfield Transit Project. He mentioned the following series of events that will take place and eventually will lead to a selection of an alternative and alignment by November 1, 1978:

(continued on next page)

August 21, 1978 - Tri-Met staff report and recommendation to the Board.

September 5, 20 and 22, 1978 - Tri-Met hearings.

September 26, 1978 - Tri-Met Board action.

September 27 and 28, 1978 - County hearings.

October 3 and 4, 1978 - City Council hearings.

October 5, 1978 - Multnomah County Resolution.

October 5, 1978 - Gresham City Council public hearing.

October 10, 1978 - Decision by the Portland and Gresham City Councils.

Mr. Coulter introduced the following employees who have completed 40 years of service with the Highway Division:

John A. (Bud) Howry, Maintenance Foreman, Detroit
Maurice F. (Maury) Spagle, Section Foreman, Woodburn
C. Henry (Hank) Dillard, Custodial Supervisor for
Equipment Shop Area, Salem

Chairman Jackson presented to each employee a 40-year service pin and thanked them individually for their long and dedicated service to the State.

Mr. Bell handed to the Commission an updated listing of proposed legislative bills for the Department. He stated 10 fiscal impact statements have been submitted to the Executive Department. There are 9 bills in the executive Department that are ungraded at this time and it is anticipated that all bills will be completed by the middle of September. (Copy of updated listing of legislative bills on file in the Commission's files, Salem.)

There was discussion concerning the use of studded tires. The Commission pointed out that if anyone introduced a bill at the next legislative session placing a tax on studded tires or the elimination of them the Commission would support such legislation.

The Commission reconfirmed the following meeting dates:

September 18, 1978 - Joint dinner meeting with the
Washington Transportation Commission in Portland
September 19, 1978 - Portland
October 24, 1978 - Salem
November 28, 1978 - Salem

The Commission considered the construction of three maintenance stations located at Mitchell, Oakridge and Clatskanie. Mr. Klaboe mentioned that these stations need replacing as the existing buildings were constructed in the 1930's and 1940's. He said they are very small buildings and are completely outmoded for today's equipment and need. The estimated cost to build the three stations is \$517,000 and funds are available in the current State Construction Program. The Commission approved the projects as recommended by Mr. Klaboe.

Mr. Klaboe removed from the agenda the proposed expansion of the Woodburn Truck Scale Site. He stated that he anticipates the passage of a new Federal law which will allow the State to receive 92% financing of the total expansion of the project. He indicated the present site is too small. Because of the volume of traffic, only 50% of the trucks can use this station. Mr. Klaboe said this proposed construction will be presented at a later meeting.

Mr. Klaboe reported on the I-82 corridor. He said the "C" line and the "C Alternate" line have been reviewed to see if there is justification for another public hearing. All information has been collected and a final report will be available to the Commission by the end of August to give them an opportunity to look at the report prior to the September 19 Commission meeting. Mr. Klaboe mentioned that all interested people will receive advance copies of the report and will be notified that the Commission will take action on this matter next month.

Consideration was given for construction of a 3-lane section approximately three-fourths of a mile over the worst portion of the Clackamas Highway between I-205 and Boring Road in Clackamas County. Mr. Klaboe said a very severe congestion problem still exists on this highway. The middle lane would be a continuous left-turn lane which will help appreciably although it will not cure the problem. He pointed out the work would not be wasted if in the future enough funds are available to do the entire job. The estimated cost to do this 3-lane section is \$165,000. Mr. Klaboe recommended the construction of three lanes with State Construction Funds. The Commission accepted his recommendation.

Mr. Klaboe recalled that in December 1966 the City of Coos Bay and State entered into an agreement to finance construction of the Cape Arago Highway-Woodland Drive Section of the Coos Bay-Empire Highway. Costs were to be shared 75% State and 25% City. At that time, the City's share was estimated at \$212,500. Bids were received in March 1973. By then, he said, inflation and design details had increased the City's share to an estimated \$481,355. The increase necessitated the Commission authorizing April 17, 1973, an extended repayment plan. Final costs have increased the City's share to \$530,273. Mr. Klaboe mentioned a recent payment by the City of Coos Bay brings their participation

to date to \$450,000. He recommended that the total cost to the City be limited to the March 1973 estimate and rounded to \$480,000. Mr. Klaboe said this leaves the City with a final payment of \$30,000 and the State's cost \$355,537. The Commission approved Mr. Klaboe's recommendation.

Mr. Klaboe reported on a recent Klamath Falls meeting with City and County officials and interested citizens regarding the Klamath Falls-Southside Bypass. He said they want the State to fund this project and are asking for a truck route from the center of Klamath Falls out to the Southside Bypass. Mr. Klaboe referred to a sketch map of the Klamath Falls area and pointed out the routes in question. He stated cost estimates will be made and a report submitted with his recommendation at a future meeting.

Mr. Gaskill reported that on May 31, 1978, Willamette Factors, Inc. informed the City of Wilsonville that they intend to construct apartments and townhouses within the Charbonneau Scenic Easement along the Willamette River in Clackamas County. He said that Willamette Factor's proposal exceeds the scenic easement of October 20, 1976, for apartments by 49 units. Mr. Gaskill mentioned the expansion of density in the area would not have a detrimental effect on the values of the waterfront as viewed from the river. The Commission accepted Mr. Gaskill's recommendation for the change in density.

Mr. Gaskill said that a former stockpile site on the Robertson Bridge-Redwood Highway Road in Josephine County has been declared surplus and the Highway Division wishes to dispose of it. He said the property is within the $\frac{1}{4}$ mile boundary of the Rogue River Scenic Waterway, but beyond the boundary of the National Wild and Scenic River. A house on this site would be substantially screened from the river by vegetation and would not impair the natural beauty of the waterway. A deed of sale, he said, will include six stipulations as outlined in Mr. Talbot's letter to the Commission dated July 19, 1978. (Copy of letter on file in the Commission's files, Salem.) The Commission gave their approval for a density variance as recommended by Mr. Gaskill.

Mr. Grover requested permission to appear before the Emergency Board to apply for a Federal grant through the Oregon Traffic Safety Commission to fund the purchase of 40 automated testing devices for use in administering the knowledge portion of the driver's license examination. He said by replacing the current written knowledge test with a test administered by automated testing devices it will improve service in the four highest volume offices. (East Portland, Salem, West Eugene and Medford.) He stated the Division requests a \$96,802 increase in its Federal Fund expenditure limitation and this proposal does not involve any increase in expenditures of State Funds. The Commission approved his request.

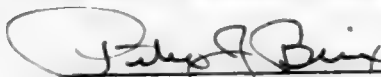

Mr. Grover stated a proposal will be submitted next month for the improvement of field offices, new positions and remodeling of some offices to help improve the Motor Vehicles Division's services.

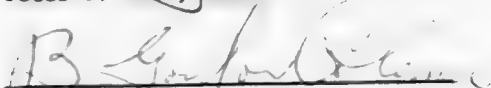

The Commission approved a supplemental agreement with Ron Linton for a one-month extension of his consulting contract pertaining to Federal legislation. This extension will allow the Department to carry through the last month of negotiations on the House-Senate Conference Committee dealing with the Surface Transportation Act. This supplement extends the total amount for the original and supplemental agreement to \$26,000. The Commission authorized the Director to sign the supplemental agreement.

The Chairman adjourned the meeting at 2:15 p.m.

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approve all actions listed below and report this action for your official records:

- 1) Agreement with Deschutes National Forest, US Forest Service, to operate and maintain Lava River Caves State Park, Deschutes County, on a seven-day-a-week basis from 9 a.m. to 6 p.m. each day during the period May 1, 1978, to October 1, 1978. Forest Service will also provide for interpretive services at the park as an adjunct to the interpretation which they now provide at their Lava Lands Visitor Center. State will pay \$2,500 to the U.S. Forest Service for these services.
- 2) Agreement with City of Bend for revision of existing traffic signals and channelization at the intersection of The Dalles-California Highway and Wilson Avenue. The work is necessary to accommodate increased traffic generated by the opening of a new shopping center. The State will design, construct and maintain the project. The City has agreed to pay all costs of the project and be responsible for the electrical energy consumed.
- 3) Agreement with Coos County for construction of the Pigeon Point-South Slough Bridge Section of the Cape Arago Bikeway between Coos Bay and Charleston. The State will prepare the plans and supervise construction of the project. The County has agreed to contribute a maximum of \$37,500 toward the cost of the project. State financing will be through funds which have been set aside for bicycle and pedestrian trails.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7599 State of Oregon, acting through its Department of Transportation and the Highway Division thereof on the Relation of Andrews & Andrews Equipment Co., an Oregon corporation, v. F. G. Scott, dba Waconda West Construction; United States Fidelity and Guaranty Company, a Maryland corporation; B & E Painting, Inc., an Oregon corporation; Edward Columbus and Bernice Columbus: This is an action brought against the contractor on contract No. 8470 which was for painting a portion of the Astoria Bridge. The contract has not yet been completed and the plaintiff is suing for rental due for renting painting equipment to B & E Painting, a subcontractor of Waconda West. The matter has been referred to the Attorney General's office for the defense of the State.

L-7621 Luisi Truck Lines, Inc., a corporation, v. Highway Division, Department of Transportation, State of Oregon: This case involves an accident that occurred on March 24, 1977, on U.S. Highway 97, at or near its intersection with State Highway 58, in Klamath County, in which a vehicle driven by the plaintiff collided with a vehicle driven by a Highway Division employee (Edwin Pelster). The complaint alleges that the Highway Division employee was negligent in not keeping a proper lookout in making a U-turn when it could not be made safely. The amount of the lawsuit is \$9,211.64. The matter has been referred to the Attorney General's office for the defense of the State.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
AUGUST 24, 1978

August 24, 1978
Salem, OR

The Oregon Transportation Commission held a special telephone conference meeting at 3 p.m. in Room 104 of the Transportation Building in Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Michael P. Hollern, Vice Chairman, Bend
B. Gordon Coleman, Member, Eugene
Robert A. Burco, Director of Transportation, Salem
Jack Sollis, Chief Counsel, Salem
George Bell, Manager of Intergovernmental and Public Affairs, Salem
David Talbot, Parks Superintendent, Salem
Wally Hibbard, Manager, River Programs and Special Projects, Salem
John J. Earley, Information Officer, Salem
Cecil Head, Manager, Commission Services, Salem

Mr. Sollis reported that the Coos-Curry Electric Cooperative, Inc. has asked for a preliminary permit from the Federal Energy Regulatory Commission to build a dam on the Illinois River in Curry County. Mr. Sollis said the dam would be approximately 590 feet high and 1,880 feet long at river mile 4.4, forming a 24-mile long reservoir with a surface area of 5,600 acres and having approximately 1,028,000 acre feet of storage. A concrete gravity re-regulating dam approximately 20 feet high and 400 feet long would be located approximately 3 miles downstream from the storage dam. He said the purpose of this meeting is to authorize the Attorney General to intervene.

In reply to the Chairman's inquiry, Mr. Sollis said the following agencies are going on record: the Governor's Office, the State Fish and Wildlife Commission, Water Policy Review Board, Energy Facility Siting Council, Land Conservation and Development Commission and the Department of Environmental Quality.

Mr. Sollis said this proposed construction is in direct violation of the scenic waterway statute adopted by initiative of the voters of the State.

The Commission unanimously adopted the following proposal:
To authorize the Attorney General to file a petition for intervention
on behalf of the Oregon Transportation Commission with the Federal
Energy Regulatory Commission to intervene in all proceedings before
the Commission relating to the proposed Project No. 2822, to be
known as the Illinois River Project, initiated by the Coos-Curry
Electric Cooperative, Inc.

The telephone meeting adjourned at 3:05 p.m.

Glenn L. Jackson

B. G. Coleman

V. H. Allen

John G. Briggs

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
SEPTEMBER 18-19, 1978

September 18, 1978
Portland, Oregon

The Oregon Transportation Commission held a dinner meeting with the Washington Transportation Commission at 6:30 p.m. at the Benson Hotel in the Oxford-Cambridge Room. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Oregon

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
George Bell, Manager of Intergovernmental & Public Affairs
Robert Bothman, Administrator of Metropolitan Branch
Fran Neavoll, Commission Services

Washington

Ray A. Aardal, Chairman
Virginia K. Gunby, Member
Richard Odabashian, Member
James G. Swinyard, Member
Robert L. Mikalson, Member
W. A. Bulley, Secretary of Transportation
R. C. Schuster, District Engineer, Yakima
Dick Carroll, District Engineer, Vancouver
Charles Fowler, Public Affairs Administrator

Others Present:

Lloyd Anderson, Port of Portland
Denton Kent, CRAG

There was discussion concerning the Interstate 82 Route, the Glenn L. Jackson (I-205) Bridge, Third Columbia River Bridge Crossing, triple trailers, hauling hazardous material, the construction and maintenance budget, vehicle registration, the 55 MPH speed limit, aviation, public transit, the policy statement and lobbying for Federal legislation. No action was taken. The meeting was adjourned at 8:30 p.m. (In the afternoon, both Commissions viewed the I-205 Columbia River Bridge construction project and the Transit Mall.)

September 19, 1978
Portland, Oregon

The Oregon Transportation Commission toured the various Motor Vehicles Division field offices in the Portland metropolitan area between 8:30 and 10 a.m.

The Commission met formally at 10 a.m. in the Conference Room at the Metropolitan Office, Department of Transportation, 5821 N.E. Glisan Street in Portland. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Don Streun, Assistant Director of Administration
George Bell, Manager of Intergovernmental and Public Affairs
Larry Rulien, Assistant Director for Transportation Policy and Program Development
H. S. Coulter, State Highway Engineer
Dennis Moore, Administrator of Public Transit
Harold Grover, Administrator of Motor Vehicles
Paul Burket, Administrator of Aeronautics
Warren Gaskill, Deputy State Parks Superintendent
Jack Sollis, Chief Counsel
Glen Green, Federal Highway Administration
Fran Neavoll, Commission Services
Cecil Head, Manager, Commission Services

There were other persons present, including representatives from the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meetings of August 15 and 24, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2677" on file in the Commission's files, Salem.)

- 3) Adopted resolution abandoning from the State highway system a short segment (approximately 0.09 mile in length) of old highway alignment in the Rock Creek Section of the Willamina-Sheridan Highway in Yamhill County. ("Abandonment Resolution No. 575" on file in the Commission's files, Salem.)
 - 4) FAS-C preliminary engineering project covering the Wenaha River Bridge near Troy on FAS B 630 in Wallowa County. Total Cost \$11,000; Federal Funds \$9,460; State's Share \$770. (Authorized State Highway Engineer to sign agreement when prepared.)
 - 5) Two requests for the following projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway and authorized the State Highway Engineer to sign all the necessary agreements when prepared:
 - a. Request from City of Portland to develop the N.W. 14th-16th and S.W. 14th-13th Street One-Way Couplets to handle through traffic on the periphery of the Northwest Neighborhood. (N.W. Thurman Street-S.W. Columbia Street Section.) Total Cost \$520,000; Federal Funds \$447,200; Local Share \$72,800.
 - b. Request from Multnomah County to widen N.E. 238th Avenue between the UPRR tracks and 400 feet south of Halsey Street. Left-turn lanes will be provided on all approaches to the intersection. Total Cost \$280,000; Federal Funds \$240,800; Local Share \$39,200.
 - 6) Authorized continued support of the AASHTO Materials Reference Laboratory and payment of Oregon's assessment for 1979 in the amount of \$6,500.
 - 7) Two requests for Federal Aid Urban System Projects and cancellation of a previously approved project as follows: (Authorized the State Highway Engineer to sign all the necessary agreements when prepared.)
 - a. Request from City of Monmouth to widen and improve a 0.5 mile segment of Monmouth Avenue North (Court Way-Jackson Street Section). Total Cost \$200,000; Federal Funds \$161,160; State Share \$13,120.
 - b. Request from Washington County to install traffic signals and provide for left-turn movements at the intersection of Cornell Road and Murray Boulevard. Total Cost \$90,000; Federal Funds \$77,400; State Share \$6,300.
- (Continued on next page.)

- c. Request from City of Bend to cancel a previously approved project to construct a structure on Division Street at Franklin Avenue.
- 8) Authorized the expenditure of \$433.81 for membership in the American Public Transit Association through June 30, 1979.
- 9) Renegotiated agreement with Howard, Needles, Tammen and Bergendoff for the preparation of the Draft Environmental Impact Statement for the Powell Boulevard to Fariss Road Section and the Powell Boulevard to Butler Road Unit in Multnomah County. Agreement not to exceed \$99,526 for a 9-month period. All charges are eligible for normal Federal-Aid Participation as part of preliminary engineering for the project. This is an Interstate Transfer Project on the Federal Aid System with all of the local match being provided by the City of Gresham for the Powell Boulevard to Fariss Road Section and by Multnomah County for the Powell Boulevard to Butler Road Unit. (Authorized Asst. Director for Operations to sign agreement.) At the May 30, 1978 meeting, the Commission approved an agreement for the Powell Blvd. to Fariss Road Connection for an amount not to exceed \$76,970. Since that time a decision was made to include the adjoining Powell Blvd. to Butler Road Unit in the same EIS and the contract was renegotiated with the consultant to include the additional work involved.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

The Commission considered an agreement with the City of Portland for leasing of State land beneath the east approach of the Fremont Bridge. Mr. Sollis said the rental will be \$1,300 per month and the City and State will select an appraiser to determine the market rental. The City will then pay 50 percent of market rental during the first five-year period. Both parties will review the appraisal and if either party is not satisfied then another appraisal will be requested. He said whenever the rental value is

established it will apply retroactively to commencement of the lease. In the event the law is changed and the State may legally charge a rental fee equivalent to the percentage of fair market value equal to the percentage of the State's contribution of the cost of acquiring the property, then at that time the lease will be renegotiated. At the end of five years, the rental value will be renegotiated and handled through the same process by selecting an appraiser that is satisfactory to the City and the State. The Commission approved the agreement as recommended by Mr. Sollis and authorized the Right of Way Engineer to sign it.

Mr. Sollis reported that all of the Astoria Bridge cases are finally concluded. The only thing to determine now, he said, is the amount of attorneys' fees the State will recover, which is estimated between \$40,000 and \$50,000.

Mr. Sollis mentioned that Mr. Les Hampton, Assistant Attorney General, worked on the original trial and has tried the remaining cases. He suggested that the Commission send Mr. Hampton a letter of commendation for his outstanding work during the past 13 years in handling the various Astoria Bridge cases.

Mr. Burco called on Mr. Rulien to review the Oregon Action Plan for Transportation Planning. Mr. Rulien handed to the Commission copies of the draft report and commented on the various revisions as a result of input from the public and within the Department. (Copies of the Draft Action Plan report and a summary sheet of major revisions are on file in the Commission's files, Salem.) The Commission asked that the Action Plan be presented to them at the October meeting.

Mr. Rulien presented to the Commission an update of the Policy Document. He recalled the current document was adopted by the Commission on January 18, 1977, and established a general policy framework within which the Department can work with other State agencies, the Federal Government, local governments and citizens.

Mr. Rulien mentioned the 1979 Policy Document is intended to update and refine the initial policy framework. He indicated the update will be based on the existing document, with revisions drawn from the following sources:

Commission policies and decisions made during the past two years.

Recent studies and plans prepared by the Department.

(Continued on next page.)

Issues identified in preparing the Department's Six Year Program (covering all divisions).

Report of the Legislative Interim Task Force on Transportation.

Recommendations from official advisory committees.

Comments from the general public.

The Commission indicated that they would discuss the Policy Document and the Six Year Program schedule at their October meeting.

Mr. Streun requested approval to appear before the Legislative Emergency Board to apply for a Federal grant of approximately \$100,000 (100% Federally funded) through the Oregon Traffic Safety Commission to continue the "Crash Injury Management" training program. He stated that this is an emergency medical treatment course being given primarily to highway maintenance workers and is aimed at saving lives of vehicle accident victims on Oregon highways. The Commission gave their approval to present this request to the Emergency Board.

The Commission reconfirmed their meeting dates of October 24 and November 28, 1978.

OPERATIONS

Mr. Klaboe mentioned that the I-82 Corridor Summary will be presented at 11 a.m. as there are several delegations scheduled to appear at that time.

Mr. Sollis read the following resolution adopted by the Oregon State Grange pertaining to business identification signs:

ROADSIDE SIGNS

WHEREAS the Oregon State Grange believes the Federal Highway Beautification Act is commendable and should be administered in such a way as to enhance the beauty of our highways, while at the same time not imposing undue hardship on our rural businesses; and

WHEREAS the Act is interpreted to require the removal of all signs directing the public to rural businesses now located in some cases miles from the highway; and

(Continued on next page.)

WHEREAS this is an economic disaster to those businesses already so located; and

WHEREAS this will have an adverse effect on the Highway Beautification Act by forcing these businesses to locate immediately adjacent to the highways, thus causing some of the very conditions the Act intended to eliminate; and

WHEREAS Oregon is ahead and out in front of other States in implementing the Act and has found by experience that the rules set by the Federal Commission are so inflexible as to not allow roadside directional signs to direct the public on our secondary roads to places of business located in the rural areas;

THEREFORE BE IT RESOLVED that the Oregon State Grange request that the necessary flexibility be granted the Oregon Department of Transportation to allow certain signs regulated by the Department to direct the public to rural places of business;

AND BE IT FURTHER RESOLVED that copies of this resolution be sent to the Oregon Department of Transportation, the Federal Highway Commission and the Oregon Congressional Delegation urging them to seek a solution to this problem.

Mr. Sollis stated this Federal Highway Beautification Act does impose a real burden on rural businesses that are located on a county road off a State highway. He felt the Grange's resolution is very well done and he recommended that the Commission endorse the resolution and that copies be forwarded to the Federal Highway Administration and to the Oregon Congressional Delegation urging them to seek a solution to this problem. The Commission endorsed the resolution.

The Commission considered the adoption of a revised winter maintenance policy for snow and ice. (Copy of Maintenance Manual on file in the Commission's files, Salem.) Mr. Coulter said the purpose is to update the 1964 Maintenance Manual and to reflect the present operational policies. He said the major changes are in Sections 206 and 208 of the manual, which includes the snow fence location and maintenance and to more clearly define operational policies and responsibilities. Following Mr. Coulter's recommendation, the Commission adopted the revised Winter Maintenance Policy.

Mr. Coulter requested permission to hold a public hearing concerning a proposed administrative rule for 14-foot high load permits for vehicles carrying multiple item commodities. He said the maximum legal height for vehicles and loads in the State has been 13 feet 6 inches. It has been the Department's policy to issue special permits for loads exceeding 13 feet 6 inches, provided that the loads consist of a single oversize item not reasonably reducible in size.

Mr. Coulter mentioned that the States of Washington, Idaho and California now permit loads of 14 feet in height whether the commodity be a single item or multiple items. This leads to hardships with respect to truckers' operations in Oregon. The statutes prevent the Department from issuing permits for overweight or overwidth loads of multiple items. He said it is within the Department's authority to issue permits for overheight loads of multiple items. The Commission gave their approval to hold a hearing to receive input from the trucking industry and others regarding the proposed rule. (Hearing notice published in the Secretary of State's Administrative Rule Bulletin on October 15, 1978.)

Following Mr. Gaskill's recommendation, the Commission appointed Mr. Norm Howard to the State Parks and Recreation Advisory Committee for a four-year term beginning August 23, 1978. This appointment has been discussed with the Parks Advisory Committee Chairman and the Governor's Office.

Mr. Gaskill commented on the first report in a three-part study on the roles and responsibilities of Oregon's various recreation agencies. (Copy of report on file in the Commission's files, Salem.) He said the study is being conducted under cooperative agreement with the Federal Heritage Conservation Service, the Transportation Commission and the Montgomery Consultant Firm of Portland. The first report, he mentioned, reviews the agencies currently involved in recreation services and reviews current recreation patterns such as park attendances, types of recreation, and the rate and season of participation. It also cites trends which will affect future recreation planning, increased population and urbanization, unemployment, energy and resource conservation, and financing. Mr. Gaskill mentioned that the final report will be completed in December 1978.

Consideration was given to the adoption of a resolution accepting a grant offer from the Federal Aviation Administration in the amount of \$20,000 for the development of standards for airport development at general aviation airports in Oregon. Mr. Burket said the major portion of the work will be done by the Department's Technical Services staff. The Commission adopted "Aeronautics Miscellaneous Resolution No. 17", which resolution is on file in the Commission's files, Salem.

Mr. Burket commented on the recently-published guidelines for Airport Land Use Compatibility Planning Document which was submitted to the Commission last month. He said the document reflects the Division's responses to the many requests that they have received from airport sponsors for assistance in helping to solve their airport land-use problems.

Mr. Moore requested authority to provide a grant of up to \$46,000 of General Funds to the Rogue Valley Transportation District for the purpose of paying one-half the cost of used transit buses. Mr. Moore pointed out that there is \$46,000 remaining in the small Urban and Rural Capital Assistance Program for the current biennium. The present guidelines require the use of these funds to match local funds which in turn are used to match 80% Federal Funds for the purchase of new buses. He said this request would be a one-time exception to the Federal grant match requirement. It does not appear that State Funds will be requested by any other community this year because of increasing concerns about the impact of tax limitation measures. Mr. Moore said the Transit District is requesting capital assistance to purchase three refurbished transit coaches to replace existing 30-year old buses. He mentioned the District voters recently approved service improvements and a new three-year operating levy for the system. The Commission approved the request as recommended by Mr. Moore.

Mr. Grover reported that the last Emergency Board approved a request for Federal Funds for automated driver testing machines in the Motor Vehicles Offices. He mentioned that they are awaiting word from the Oregon Traffic Safety Commission for approval of the grant to provide 40 testing machines in four of their busiest offices located in East Portland, Eugene, Medford and Salem.

The Commission considered an agreement between the Motor Vehicles Division and the Department of Fish and Wildlife which will allow the Division to utilize the Fish and Wildlife Department's hunting and fishing licensing agents as agents of the Motor Vehicles Division to sell snow park permits. He said the cost will be the reimbursement to the Department of Fish and Wildlife for any cost of obtaining the additional coverage under the Department's existing fidelity bond for the agents utilized by the Division. The Commission approved the agreement with the Fish and Wildlife Department and authorized the Administrator of Motor Vehicles to sign the agreement. The Commission also authorized the Administrator of Motor Vehicles to sign individual contracts with the private businesses covered by the agreement with the Department of Fish and Wildlife.

Attention was given to a request to appear before the October Emergency Board to request an increase in expenditure limitation of \$16,356 and one additional position to increase the number of fuel tax audits conducted on fuel dealers. Mr. Grover said the past two years there have been gradual changes in the marketing patterns of gasoline. These changes have resulted in an increase in the number of licensed fuel dealers and an increase of 45% in the number of audits that should be conducted. The Commission approved Mr. Grover's request to appear before the Emergency Board.

The Commission considered a request from Mr. Grover to go before the Emergency Board in October for an increase in expenditure limitation of \$571,760 and the establishment of 35 positions and 7 new field offices to provide improved customer service. Mr. Grover said the additional expenditures will be entirely offset by increased revenue from higher fees for record lookup services. He said the Division is faced with a problem of deteriorating customer service levels. This request is to improve service and to eliminate long waiting lines at the various Motor Vehicles offices. New offices proposed are at Cedar Hills, Sandy, Stayton, Florence, Lincoln City, Heppner and Madras. The request includes remodeling the offices at Albany, Tillamook, Astoria, Burns and The Dalles and moving five offices (Bend, East Eugene, Grants Pass, McMinnville and Medford) to more suitable quarters for the convenience of the public and for a more efficient operation. Commissioner Hollern was opposed to this request as he felt improving highways were more important than improving service in the Motor Vehicles offices. Commissioner Coleman stated he would like to take a further look at this proposal and have more discussion at the next meeting. Commissioners Walsh, Brix and Jackson voted to send the proposal to the October Emergency Board. Commissioners Hollern and Coleman voted against. Motion carried.

At the request of Chairman Jackson, the following letter is entered into the minutes of this meeting.

(See letter on next page.)

Oregon Transportation Commission

RE: Potential Conflict of Interest

Gentlemen:

This is to inform you that I am a stockholder in and chairman of the Board of Directors for Flight Investors, Inc., an Oregon corporation which is involved in intra-state air transportation in the State of Oregon. In the event that any business comes before the Commission that involves this corporation I will at that time again notify you of the conflict of interest that exists. The purpose of this letter is to merely inform you in advance of a potential conflict of interest.

Sincerely,

GLJ:11

cc: Mr. Loren Kramer
Governor's Executive Assistant

September 19, 1978

Chairman Jackson stated that in December of 1973 the Commission adopted the Corridor "J" Route for the proposed I-82 in northeastern Oregon. This decision was based upon the attitudes and evidence presented by the local people at the hearing who were affected by whatever decision would be made by the Commission. The Chairman said the Umatilla County Commission has asked the Department to take another look at the route because of the changing conditions and the rapid growth of the area. He said the Department has looked at the alternatives and he called upon Mr. Klaboe for the report.

Mr. Klaboe reported that at the hearing in March 1973 nearly everyone agreed that the route should be Corridor "C" or "J" with a large majority of the people testifying in favor of the "J" Route. The public agreed the Columbia River crossing should be at Umatilla and that the taking of agricultural land be held to a minimum. He referred to the I-82 Corridor Summary of September 1978, which was distributed to the Commission and the public approximately three weeks ago. (Copy on file in the Commission's files, Salem.) Mr. Klaboe indicated the Commission could probably do three things: reaffirm the selection of Corridor "J"; instruct the Department to hold another hearing; or as a result of the testimony this morning, request additional information before making a final decision.

Mr. Ford Robertson, Umatilla County Commissioner, handed to the Commission and staff a report that covers the concerns of the County. (Copy of report on file in the Commission's files, Salem.) He said that this interstate freeway is being constructed for the convenience of people who are going to use it. He said they believe an east corridor would better serve the interstate traffic than a west corridor. He mentioned that the basic traffic pattern will come from the east to the north and from the north to the east. Mr. Robertson said the new route that they propose (the east corridor) would be approximately one mile and two-tenths longer but it would not impact the circles and farmland that would be on the alternate route. Moving the highway over on Edwards Road would impact very few homes in comparison to either the "C" Alternative or the "J" Route. He stated if the "J" Route is built, the traffic will still use 395 as it is approximately eight miles shorter. If the highway goes up 730, it would serve the Umatilla Port area. Mr. Robertson mentioned that they have until December 31, 1978, to get their comprehensive plan out for the West County District and at the present time it is hard to form the boundary lines because it is not known where the highway will be constructed. He said that Umatilla County has the support of Morrow County asking for another study. He indicated they are not making a recommendation, but they want the highway in the right location.

Ms. Jeri Cohen, Planning Coordinator for Morrow and Umatilla Counties, read letters from the following jurisdictions:

| | |
|------------------------------------|-------------------------------------|
| Morrow County Court | Requested a new study. |
| City of Echo | Supports the reopening of hearings. |
| City of Hermiston | Supports the "J" Route. |
| Hermiston City Planning Commission | Supports the "J" Route. |
| Hermiston Chamber of Commerce | Supports the "J" Route. |
| Verlyn P. Schulz | Supports the "J" Route. |
| John F. Walchli | In favor of the "J" Route. |
| City of Umatilla | Resolution favoring the "J" Route. |

(Letters and resolution on file in the Commission's files, Salem.)

Mr. Norman Schroth, President, Northeastern Oregon Roads Association, Hermiston, read the Association's letter to the Commission dated September 14, 1978, urging the State to continue at once with the construction of I-82 using the "J" Route. He handed to the Commission 20 individual letters all supporting the "J" Route. (Letters on file in the Commission's files, Salem.)

Mr. Stephen Lindstrom, Manager, Port of Umatilla, pointed out that their planning and developmental activities have been geared to the "J" Route for over five years. The future Port industrial development is totally dependent upon the "J" Route. He said the Port urges that the Commission stand by their decision in selecting the "J" Route. (Statement on file in the Commission's files, Salem.) Mr. Lindstrom read a letter dated September 18, 1978, from Russell Dorran, Manager, Umatilla Electric Cooperative Association, stating that their planning and building of their electrical facility has been based on the "J" Route. The letter stated that any route located east of Hermiston would be considerably more disruptive to their electrical facilities. (Copy of Mr. Dorran's letter on file in the Commission's files, Salem.)

Mr. Don Mills of Mills Mint Farm, Inc., submitted a letter in opposition to reopening a hearing on I-82 and changing the established "J" Route. He said the "C" or Alternate "C" Route would not only take out more prime farmland than "J", but would render land useless for modern farming. Mr. Mills stated if the "C" or the Alternate "C" route was chosen they would be virtually forced out of business. (Letter on file in the Commission's files, Salem.)

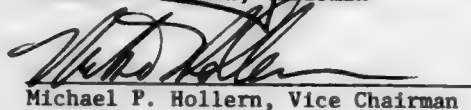

Ms. Susanne Taylor Moore, a landowner for thirty years, said the "J" Route cuts through the middle of their farm. She mentioned originally she was against the "J" Route but after listening and talking to the different people, she is now for the "J" Route. She said the longer the project is delayed the more it's going to cost.

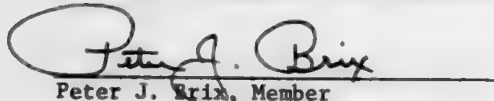

Mr. Ford Robertson mentioned that Barbara Lynch of Hermiston was unable to be present but she wanted him to say a few words in her behalf. She wants to know who is going to pay for the Elm and Punkin Center Bridges that will have to be built. She said people don't talk about economics. Ms. Lynch hopes the Transportation Commission will look at the facts and figures and come up with what they feel is the most economical route.

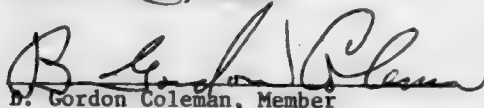

Mr. George Cook from the Tri-City area in Washington, President of the Benton-Franklin County Good Roads Association and Past President of the Washington State Good Roads Association, was present. He pointed out that they are concerned about matching Federal money and the Highway Trust Fund at 90/10. If that's not available with Oregon and Washington's budgetary problems, the question of I-82 will be very moot. With all due respects, he said, please don't let anything delay the construction within Oregon funds and within Oregon's priorities which Washington respects.

There being no further business, the Chairman adjourned the meeting at 12:02 p.m.

- (5) Agreement with City of Cornelius for installation of traffic signals on the Tualatin Valley Highway at 10th and 19th Avenues, Washington County. The State will design, install and maintain the signals, and pay 50 percent of the cost for the signals at Adair and 19th. The City has agreed to pay 100% of the cost of signals at Adair and Baseline on 10th Avenue and 50% of the Adair at 19th signals. The City will also pay all costs of electrical energy. (Local Government)
- (6) Agreement with City of Portland for installation of traffic signals on the Lower Columbia River Highway at N. W. Bridge Avenue (St. Johns Bridge). The State and City have co-operated in designing the project. The State will administer the contract using Federal Aid Transition Quarter Funds. The City will perform maintenance and pay the costs of electrical energy. (Local Government)
- (7) Agreement with Hood River County for construction of the Long Prairie Road-Willow Flat Road Section of the Mt. Hood Highway. The State will administer the contract using Federal Aid Primary Funds. The County has agreed to cooperate in the adjustment of utilities and to accept jurisdiction of certain connections and frontage roads. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approve all actions listed above (totaling 7 items) and report this action for your official records.

Columbia County. Bids received July 27, 1978.
Contract No. 8775 awarded August 15, 1978, to
Lakeside Industries, Kelso, Washington, at
\$143,784.31.
- 2) Work on the Silvies River (Standcliffe) Bridge
Section in Harney County. Bids received July 27,
1978. Contract No. 8783 awarded August 7, 1978,
to Douglas S. Coats Construction, Bend, at \$102,355.
- 3) Work on the Jordan Creek Bridge Section of Jaca
Road in Malheur County. Bids received July 27,
1978. Contract No. 8787 awarded August 18, 1978,
to Holst Construction Co., Oakridge, at \$133,263.
- 4) Traffic signal installation on the Pacific Highway
(Connection #1) at Hayden Island Drive in
Multnomah County. Bids received July 27, 1978.
Contract No. 8791 awarded August 10, 1978, to
Olson Electric Co., Inc., Vancouver, Washington,
at \$40,745.
- 5) Work on the North Main Street-Oregon/Washington
Highway Section of N.E. 8th Avenue in Milton-
Freewater, Umatilla County. Bids received July 27,
1978. Contract No. 8793 awarded August 14, 1978,
to Baldwin & Sutherland, Inc., Walla Walla,
Washington, at \$216,511.05.
- 6) The Five Points Creek Bridge on Hilgard Road in
Union County. Bids received July 27, 1978.
Contract No. 8794 awarded August 9, 1978, to
Douglas S. Coats Construction, Bend, at \$77,555.
- 7) Work on the UPRR 2nd Street Overcrossing (La Grande)
Section of FAU 4645 in Union County. Bids received
July 27, 1978. Contract No. 8795 awarded August 11,
1978, to Hensel Phelps Construction Co., Vancouver,
Washington, at \$2,043,000.
- 8) Work on the Warren-Scappoose Section of the Columbia
River Highway in Columbia County. Bids received
August 24, 1978. Contract No. 8798 awarded
August 28, 1978, to Babler Bros., Inc., Portland,
at \$5,573,977.25

9-19-78

- 9) Work on Koosbay Boulevard at Bayshore Drive in Coos Bay, Coos County. Bids received August 24, 1978. Contract No. 8799 awarded August 28, 1978, to Hamilton Electric, Inc., Eugene, at \$48,125.12.
- 10) Water system in the Cabin Creek Safety Rest Area on the Pacific Highway in Douglas County. Bids received August 24, 1978. Contract No. 8801 awarded August 28, 1978, to J. B. Steel, Inc., Medford, at \$180,541.30.
- 11) Work on 12th Street and Hall Avenue in Prairie City, Grant County. Bids received August 24, 1978. Contract No. 8802 awarded September 5, 1978, to Baker Redi-Mix, Inc., Baker, at \$56,204.
- 12) Work on the Long Prairie Road-Willow Flat Road Section of the Mt. Hood Highway in Hood River County. Bids received August 24, 1978. Contract No. 8804 awarded August 28, 1978, to Peter Kiewit Sons' Co., Vancouver, Washington, at \$3,617,231.
- 13) Work on the Rogue Valley Highway at South Stage Road in Jackson County. Bids received August 24, 1978. Contract No. 8805 awarded August 28, 1978, to Rogue River Paving Co., Inc., Medford, at \$46,127.
- 14) Work on the Maple Lane-Hamilton Lane (Grants Pass Vicinity) Section of the Rogue Valley Highway in Josephine County. Bids received August 24, 1978. Contract No. 8806 awarded August 28, 1978, to Copeland Paving, Inc., Grants Pass, at \$234,454.50.
- 15) Work on the S.E. Yamhill Street-S.E. Powell Boulevard Section of the East Portland Freeway in Multnomah County. Bids received August 24, 1978. Contract No. 8808 awarded August 28, 1978, to Roy E. Ladd, Inc., & Carl R. McConnell, Redding, California, at \$6,521,738.

Gary A. Scott, State Recreation Director

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7620 Wallace Lyle Hamilton v. State of Oregon and City of Astoria:
This is a suit for property damage and trespass and to abate a nuisance.
The lawsuit arises out of a landslide that occurred in the City of
Astoria adjacent to a section of state highway (S. W. Marine Drive).
The landslide was caused by the plunging of a storm sewer under the
jurisdiction of the City of Astoria. The overflow from the plugged
storm sewer caused dirt, water, rocks and debris to fall onto the
plaintiff's property. The plaintiff is asking for \$50,000 damages and
for an injunction to require the Highway Division to erect a retaining
wall between the highway right of way and the residences. The matter
has been referred to the Attorney General for the defense of the State.

L-7622 Mark Thomas Keeler, plaintiff, v. Kathryn Inez Edna, Defendant
and Third-Party Plaintiff, v. State of Oregon, et al., Third-Party
Defendants: This case involves an accident which occurred December 25,
1977, on State Highway No. 22, two miles east of the intersection with
State Highway No. 26, in Lane County. The parties allege that State was
negligent in not discovering and alleviating the hazardous condition of the
roadway and failing to adequately guard it. The amount of damages claimed
is \$18,000.00. This matter has been referred to the County Court for
the defense of the State.

L-7237

County: Polk

- * This case was a suit to Quiet Title to approximately 66 acres of land that had been purchased by the State for the Willamette Greenway. The defendant Turnidge claimed ownership to the land by reason of adverse possession and evulsive change in the course of the Willamette River. The trial court ruled for the State and found the State had title to the land. The defendants appealed the case to the Court of Appeals and the State's position was sustained by the Court of Appeals. Title to the land now rests in the State.

| Eugene Jackson | * | * | Dismissed |
| L-7373
U.S. District Court
* This lawsuit was instituted in Federal Court seeking equitable and declaratory relief and damages against the Secretary of Transportation and the State. The lawsuit concerns itself with certain legislators on behalf of the State of Oregon to properly utilize federal funds available for the developing of minority business enterprise participation and State Highway contracts within the State of Oregon. The suit asked for a preliminary injunction restraining the State from entering into any new agreements involving federal supporting service funds and also seeks damages for the failure to follow an affirmative action plan that they believe is required. The case was dismissed in Federal Court for lack of prosecution and is now closed. | | | |

MINUTES OF 9-19-78

August 23, 1978

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On August 25, 1978, \$3,029,966.28 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of July, 1978.
(List of apportionments on file in Commission Files, Salem.)

On August 31, 1978, \$1,817,979.77 (12 percent of the Highway Fund) was distributed to the cities for the month of July, 1978.
(List of apportionments on file in Commission Files, Salem.)

Dated this 23rd day of August, 1978

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
OCTOBER 24, 1978

October 24, 1978
Salem, Oregon

The Oregon Transportation Commission met in the Director's Office (Room 135), Transportation Building, at 8:30 a.m. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
B. Gordon Coleman, Member
Peter J. Brix, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Larry Rulien, Assistant Director for Transportation Policy
and Program Development
Jack Sollis, Chief Counsel
David Talbot, State Parks Superintendent
Wally Hibbard, Manager, River Programs and Special Projects
Bill Hayden, Manager of Policy Development Section
Fran Neavoll, Commission Services

Mr. Klaboe discussed with the Commission the report prepared by the Executive Department at the request of the Legislature concerning the Analysis of Highway Fund Collection and Disbursement Procedures. The report identified four alternative methods by which transportation revenue collection, planning and regulation might be restructured. He stated this study did not make any recommendation or make reference to any monetary savings. He briefly described the alternatives as:

- 1) Assignment of all transportation programs to DOT.
(This removes everything from PUC having to do with transportation and puts it into a Motor Carrier Branch in MVD. Transfers Permit Section of the Highway Division to MVD.)
- 2) Administration of all motor carrier regulations except economic regulation be under MVD.
- 3) Implementation of procedural changes to improve motor carrier service delivery within PUC's and MVD's present organizational structures.
- 4) Implementation of procedural improvements to increase receipt of revenue by State Highway Fund.

Mr. Klaboe felt that some elements of Alternatives 3 and 4 could be implemented but he would object to moving the Permit Section from the Highway Division to MVD. He asked the advice of the Commission. The Commission felt that a response should be made and requested that the staff take a look at the findings and determine what the impact would be. Mr. Burco said he would bring back to the Commission an analysis of the report.

Mr. Rulien said that the Department of Economic Development had been asked by the Legislature to prepare an Economic Development Plan. He said they had received from Economic Development a draft outline of the transportation element of the Economic Development Plan. The transportation element addresses such items as rail, public transit, air and the highway system. Mr. Rulien said that in the outline draft there are various improvement projects that are mentioned. The Commission felt that it was not appropriate for the Plan to recommend specific transportation improvement projects. Mr. Burco said a letter of response is being drafted for the Commission to review.

Mr. Talbot discussed with the Commission the Dean Jackson matter concerning an agreement to construct a campground on the Rogue River Scenic Waterway near Agness in Curry County. Mr. Talbot said that Dean Jackson is not abiding by the agreement and has been allowing loggers to camp behind his house on the property. Mr. Talbot said he had advised Dean Jackson that this was not in conformance with the agreement. He said this is a State health problem as the campground is being operated illegally. Mr. Talbot said the State could notify Dean Jackson he is not in conformance with the agreement and take him to court or cancel the agreement and buy his property. Mr. Sollis recommended filing injunctive proceedings. The Commission concurred in Mr. Sollis' recommendation.

Mr. Hayden briefed the Commission on the Surface Transportation Act and stated that the Bill has not yet been signed by the President.

The Commission discussed the Powell Boulevard Project (Ross Island Bridge-S.E. 50th Avenue Section of the Mt. Hood Highway in Multnomah County) on which bids were received September 21, 1978. The contract has not been awarded pending Federal Highway Administration approval.

The Commission discussed the Portland Transportation Center and Bus Station.

The Commission moved the meeting to the Conference Room 122 at 10 a.m. Others present were:

George Bell, Manager of Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
Dennis Moore, Administrator of Public Transit
Paul Burket, Administrator of Aeronautics
Harvey Ward, Deputy Administrator of Motor Vehicles
Glen Green, Federal Highway Administration
C. W. Head, Manager, Commission Services

There were others present including representatives of the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meetings of September 18-19, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2678" on file in the Commission's files, Salem.)
- 3) Adopted resolution abandoning from the State highway system a short segment (approximately 0.11 mile in length to be transferred to Lane County as a County road) of old alignment in the East Unit, Siuslaw River-Walton Section of the Florence-Eugene Highway in Lane County. ("Abandonment Resolution No. 575" on file in the Commission's files, Salem.)
- 4) Authorized increases in project authorizations on the following contracts:
 - a. Contract No. 8661, Beverly Beach State Park, Lincoln County, in the amount of \$18,936.27. (13.8% increase.)
 - b. Contract No. 8535, Burlington Northern Railroad Depot (Salem), Marion County, in the amount of \$156,368.37. (51.2% increase.)
- 5) Cancellation of a Federally-funded airport development aid program project for land acquisition at the Lebanon State Airport.

- 6) Financial aid to municipalities grants to the following municipalities and in the amounts not to exceed those listed, to be used for airport planning and improvement projects. The amounts shown will constitute one-half of the sponsor's matching share for Federally-funded or State-locally funded projects as indicated.

Morrow County - surfacing new runway \$4,600
at Lexington Airport
Town of Lakeview and Lake County - \$2,863
Master Plan Study on the
Lakeview Airport
City of Roseburg - alternative site \$ 442
selection - study for Roseburg
Airport

- 7) Contract with Federal Leasing, Inc. for an IBM attached processor, which will be an addition to the installed IBM 370/158 computer. Cost \$80,985. (Authorized Director of Transportation to sign contract.)
- 8) Five requests for Federal Aid Urban System Projects and authorized State Highway Engineer to sign the necessary agreements when prepared:
- a. Request from City of Gladstone to repair portions of the existing structure over the Clackamas River on Park Place. Total Cost \$49,000; Federal Funds \$26,000; State's Share \$2,100.
 - b. Request from City of Portland to install pedestrian signals on N.E. Sandy Boulevard at 50th Avenue and 70th Avenue and on N.E. Columbia Boulevard at 52nd Avenue. Total Cost \$55,000; Federal Funds \$47,300; State's Share \$3,850.
 - c. Request from City of Roseburg for rubberized railroad crossings on N.E. Garden Valley Boulevard at the Southern Pacific Railroad Crossing. Total Cost \$57,000; Federal Funds \$57,000.
 - d. Request from City of Roseburg for rubberized railroad crossings on N.E. Winchester Street at the Southern Pacific Railroad Crossing. Total Cost \$47,000; Federal Funds \$47,000.
 - e. Request from City of Salem to signalize the intersection of Silverton Road and Lana Avenue and provide left-turn lanes on Silverton Road. Total Cost \$102,140; Federal Funds \$87,840; State's Share \$7,150.

9) Requests for Safer Off-System Road Projects and authorized State Highway Engineer to sign the necessary agreements when prepared:

- a. Request from Wasco County for construction of Upper White River Bridge on Crossing Road. Total Cost \$180,500; Federal Funds \$155,230; Local Share \$25,270.
- b. Request from Baker County for preliminary engineering on the Powder River Bridge Section on Beaver Creek Road. Total Cost \$12,000; Federal Funds \$10,320; Local Share \$1,680.
- c. Request from Benton County for preliminary engineering on Soap Creek Road Junction to M.P. 1 Section of Sulphur Springs Road and on Sulphur Springs Road Junction to Writsman Creek Drive Section of Soap Creek Road. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
- d. Request from Clackamas County for preliminary engineering for the Bonnie Lure Park Bridge on Doughty Road. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
- e. Request from Crook County for preliminary engineering on Old Dry Creek-Ochoco Highway Section of Mill Creek Road. Total Cost \$10,000; Federal Funds \$8,600; Local Share \$1,400.
- f. Request from Grant County for preliminary engineering on N. Fork John Day River Bridge on Ritter Road. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
- g. Request from Klamath County for preliminary engineering on Sprague River Bridge on Godowa Springs Road. Total Cost \$15,000; Federal Funds \$12,900; Local Share \$2,100.
- h. Request from Linn County for preliminary engineering on Thomas Creek Bridge on Jordan Road. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
- i. Request from Malheur County for preliminary engineering on Jordan Creek Bridge on Danner Road. Total Cost \$15,000; Federal Funds \$12,900; Local Share \$2,100.

(Continued on next page.)

- j. Request from Umatilla County for preliminary engineering on Sumac and Platt Bridges on McKay Creek Road. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
 - k. Request from Washington County for preliminary engineering for two bridges over Rock Creek (M.P. 0.78 and M.P. 0.96) on NW 185th. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
 - l. Request from Willamette National Forest for preliminary engineering for replacing guardrail at different locations along Rigdon Road and on South Fork Road. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
 - m. Request from Lincoln County Road District Coronado Shores for preliminary engineering for resurfacing their existing roads. Total Cost \$7,500; Federal Funds \$6,450; Local Share \$1,050.
 - n. Request from Clackamas County for preliminary engineering on a special safety project at the intersection of Skogen Road and 362 Drive. Total Cost \$5,000; Federal Funds \$4,300; Local Share \$700.
 - o. Request from Umatilla County for preliminary engineering to improve the intersection of Powerline Road and Highway 730. Total Cost \$4,000; Federal Funds \$3,440; Local Share \$560.
 - p. Request from Deschutes County Special Road District No. 4 for preliminary engineering for replacement of the bridge over the Little Deschutes River on Bridge Drive. Total Cost \$5,000; Federal Funds \$4,300; Local Share \$700.
- 10) Requests for the following projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway and authorized State Highway Engineer to sign the necessary agreements when prepared:
- a. Request from City of Gladstone to construct a concrete stairway between Oatfield Road and Hull Avenue. Total Cost \$25,000; Federal Funds \$21,500; Local Share \$3,500.
 - b. Request from City of Milwaukie to widen 42nd Avenue and King Road and to channelize Harrison Street. Total Cost \$71,500; Federal Funds \$61,490; Local Share \$10,010.

(Continued on next page.)

- c. Request from City of Portland for a preliminary engineering project to prepare contract documents for a project to reduce noise in the Going Street Neighborhood (N. Basin Avenue-I-5 Freeway Section). Total Cost \$200,000, Federal Funds \$172,000; Local Share \$28,000.
 - d. Request from City of Portland for a project to widen and improve a 2.50 mile segment of S.E. 39th Avenue (S.E. Holgate Boulevard-N.E. Glisan Street Section). Total Cost \$1,506,100; Federal Funds \$1,295,250; Local Share \$210,850.
 - e. Request from City of Portland to install traffic signals at 3 intersections, replace and remodel existing signals at 2 intersections and provide left-turn refuges as needed on the Beaverton-Hillsdale Highway (S.W. 65th Avenue-S.W. Capitol Highway Section). Total Cost \$825,000; Federal Funds \$709,500; Local Share \$115,500.
 - f. Request from Clackamas County to widen a 0.6 mile segment of Lake Road to a 40-foot paved section (Harmony Road-Clackamas Highway Section). Total Cost \$56,000; Federal Funds \$48,160; Local Share \$7,840.
- 11) Supplemental agreement with Wilbur Smith and Associates/CH2M-Hill for preparation of the draft environmental impact statement for the Corvallis Bypass Study covering an extension of time for completion of the consultant's work. Supplemental agreement will cover an additional 8-month period retroactive to June 1, 1978, through January 31, 1979, at no additional cost. (Authorized State Highway Engineer to sign agreement.)
 - 12) Supplemental agreement with Wilsey and Ham for preparation of additional work items not covered in the original agreement for the I-205 Interchange to Boring Road Section of the Clackamas Highway in Clackamas County covering the environmental impact statement. Supplement would include an additional cost of \$1,675 and a two-week extension of time for completion of the consultant work. (Authorized State Highway Engineer to sign agreement.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Alfred Hampson, Chairman of the Travel Information Council, and Mrs. Blake Eklund, Director, presented to the Commission the following resolution:

RESOLUTION

WHEREAS: The Travel Information Council of the State of Oregon has been able to successfully implement the Logo Program on the Interstate System in Oregon, and;

WHEREAS: The program would not have become operational without the dedication and cooperation of the Highway Division of the Department of Transportation and also the Oregon Transportation Commission, and;

WHEREAS: The Travel Information Council was authorized by the Legislature to borrow up to \$100,000 from the Highway Fund and did borrow \$67,000 from the Highway Fund in order to finance the implementation of the program, and;

WHEREAS: The Travel Information Council has reduced the amount owed to the Highway Division to \$32,160.32, and;

WHEREAS: The Travel Information Council now wishes to pay the entire balance of the loan from the Highway Fund.

NOW THEREFORE be it and it hereby is resolved by the Travel Information Council that the Highway Division is authorized to transfer from the Travel Information sub-account of the Highway Fund to the Highway Fund the remaining balance of the loan from the Highway Fund in the amount of \$32,160.32.

Adopted this tenth day of October, 1978.

/s/ Alfred A. Hampson
Alfred A. Hampson, Chairman

Mr. Burco asked Doug Vincent to give a progress report on the Department's budget. Mr. Vincent stated the budget was presented to the Executive Department on September 1. The budget process is as follows:

- 1) Review by the Executive Department's budget analyst and the issuance of the analyst's written recommendations.
- 2) Appeals concerning the recommendations to the Director of the Executive Department and to the Governor if necessary.
- 3) Final decisions by mid-November.
- 4) Governor's budget messages published on December 1. If there is a new Governor, it will be on February 1, 1979.

Mr. Vincent said the Executive Department's budget analyst has completed his review of all the Department's budgets and it is anticipated that the written recommendations will be submitted to the Department around November 1. He mentioned the Department does know what the content will be and the Administrators will report on the major issues that will be raised by those recommendations. He stated there were no changes made in the revenue estimates that were used in preparing the Department's budget request. He commented briefly on the Department's Central Services budget.

Mr. Burco referred to a memorandum sent to the Commission on October 18, 1978, concerning a first cut of revenues and expenditures for the 1981-83 biennium. He stated this was requested by the Executive Department in support of the Department's contention that there is nothing foreseeable in the 1981-83 period which should cause the Department to want to change items in the present budget submission. (Copy of the 1981-83 Budget Projections is on file in the Commission's files, Salem.)

Mr. Burco reported briefly on the 1978 Surface Transportation Act. He said that Congress has passed a four-year extension of the Highway and Transit Bill. He pointed out if the bill is signed by the President, it will provide modest increases in primary and secondary highway funds. There would be some change in the match ratio which will allow State dollars to go further in both the primary and secondary category and there are assistance provisions for intercity public transportation and operating assistance for small communities and rural areas.

The Commission considered an eight-month extension of the consulting agreement with Ron Linton (Linton, Mields, Reisler & Cottone, Ltd.) to July 1, 1979, for professional services in pursuit of Oregon's legislative and administrative interests in Washington, D.C. Mr. Burco mentioned that Mr. Linton's services have been outstanding the past year, not only with the 1978 Surface Transportation Act, but other areas as well. Following his favorable recommendation, the Commission approved the agreement in the amount of \$20,000 and authorized the Director to sign it.

The Commission approved the Oregon Action Plan which was presented to them for their review at the September 19, 1978, Commission meeting. The Commission authorized the Chairman to sign the document prior to printing. Mr. Rulien stated the Action Plan will be effective on January 1, 1979, and will supersede the present plan. (Copy of the Oregon Action Plan on file in the Commission's files, Salem.)

Mr. Rulien referred to a report and a proposed policy regarding noise abatement that was previously mailed to the Commission. He said the purpose of this report is to identify issues related to highway noise mitigation and to propose a policy for consideration by the Department and the Transportation Commission. Excessive noise generated by State highway facilities is becoming a significant problem. Mr. Rulien mentioned that berms, walls and plantings have been incorporated in some of the newer highway projects such as Interstate 205 to help eliminate traffic noise. The Department has been receiving complaints and threats of legal action from residents from completed sections of interstate highways in urban areas of the State. He said the question now is should the Department undertake noise reduction projects on completed highways.

Mr. Rulien asked the Commission for authority to develop a noise inventory so the Department can better identify the magnitude of the problem and propose some rational basis for priority decisions. The Chairman mentioned it is an increasing problem on primary and secondary highways. The Department is obligated, he said, to take a look to see what can be done under the present funding that would relieve some of these situations. However, he continued, there would be a matter of priorities. The Commission authorized Phase 1 (Interstate System) of the inventory as they felt that the Department should know where the critical areas are and the cost of abatement but did not want to enter into an extensive investigation when there is no feasible source of funds to meet the problem.

Mr. Bell reported on the Department's 1979 Legislative package. He mentioned that four changes have been made since the last report. One of the bills (No. 735-86 - Cost Adjusted Fee Schedules Maximums Set by Law) was withdrawn at the request of the Motor Vehicles Division. Mr. Bell stated that three bills were presented to the Executive Department approximately three weeks ago to meet their deadline. (Copies of the bills were previously forwarded to the Commission.) He said No. 731-11 provides greater flexibility for the Travel Information office to cooperate with other government agencies and the private tourist industry in the publication and dissemination of publications and information to assist the traveling public.

Mr. Sollis commented on the next two bills:

He stated No. 731-12 would create the Department of Transportation Working Capital Account to which data processing services performed by the Department for the Department and other State agencies may be charged.

No. 734-25 would establish a maximum 45-foot length for semitrailers. Mr. Sollis said this would eliminate existing limitation on dimensions from kingpin to last semitrailer axle. This bill would provide increased uniformity with adjacent states' requirements for semitrailer lengths and would allow interstate motor carriers to operate more efficiently.

The Commission approved the three proposed bills as presented by Mr. Bell and Mr. Sollis.

Mr. Sollis presented and the Commission approved a proposed bill to extend the Travel Information Council to 1985 in its present form.

Upon the recommendation of Mr. Sollis, the Commission approved a proposed bill to provide for a Travel Information Advisory Council appointed by the Commission to act in an advisory capacity to the Commission on matters relating to the logo program. He said the purpose of this bill is that in 1985 when the Travel Information Council goes out of existence, the duties and responsibilities will go to ODOT and at that time the Commission can appoint an advisory council.

Following Mr. Sollis' recommendation, the Commission approved a proposed bill to establish I-80N from the easterly boundary of the City of Portland to the Idaho line as a scenic highway. Mr. Sollis pointed out that if this is approved, all outdoor advertising signs visible from a scenic highway will be removed upon a payment of just compensation. The payment of the State's share of the cost of removal would come from the subaccount established by 377840, which is the Travel Information Council subaccount.

In reply to the Chairman's inquiry, Mr. Sollis said there are approximately 30 signs yet to be removed under the present program.

Mr. Burco recalled that last month the Commission gave their approval to submit to the Emergency Board a request for a Federal grant for a Crash Injury Management Training Program. He said the Department would like to resubmit it with the funding reduced from \$100,000 to \$90,000. Included in the proposal is a way of recovering some of the indirect cost. The Commission approved resubmitting the proposal to the Emergency Board.

The Commission reconfirmed November 28, 1978, for their next meeting and set December 19, 1978, for the following meeting.

OPERATIONS

Mr. Klaboe stated that at the last meeting the Commission had heard testimony concerning I-82. Since that meeting, he said, he had sent to the Commission a transcript of the testimony and copies of all the letters received at the meeting. The Chairman moved that the selection of "J" Route be reconfirmed. It was seconded by Commissioners Brix and Walsh. The Commission unanimously reconfirmed the selection of the "J" Route for the Interstate 82 Corridor in Umatilla County.

Consideration was given for the construction of frontage roads in the Martin Creek-Comstock Section of Interstate 5 in Lane County. Mr. Klaboe pointed out that the Department has some right of way obligations to the property owners for building the frontage roads and one structure across I-5 which will eliminate 14 access points. He showed to the Commission a map which outlined the project. He mentioned this first-stage project is estimated to cost \$2,800,000 and will be done with Federal Aid Interstate Funds. He recommended approval of the project for construction in the fiscal year 1979, subject to concurrence of the Federal Highway Administration. The Commission approved the project.

Mr. Klaboe reported that the Josephine County Board of Commissioners is offering to finance the preliminary engineering phase through the design hearing in order to expedite the Third Bridge Project in Grants Pass. He said this proposed project has been reviewed by local, State and Federal officials and, to date, it is not on any Federal Aid System. The County is willing to finance toward the project up to an amount of \$450,000. The Commission accepted the County's offer to finance and authorized the Assistant Director of Operations to sign the necessary agreements.

Consideration was given to an Interstate Project to provide weather information signs for motorists on Interstate 5 in the Siskiyou Mountains. Mr. Klaboe said signs would be installed in Linn, Douglas and Josephine Counties. The signs would advise motorists where they can tune their radios to receive weather information. The estimated cost is \$9,200 with federal participation of \$8,400 and State matching funds of \$800. He recommended approval of the project to be done with State forces and that it be added to the Six Year Program. The Commission approved the project as recommended and authorized Mr. Klaboe to sign the project agreement.

The Commission considered a request from the City of Albany for a project to add a signal and channelize the intersection at Pacific Boulevard (Albany-Junction City Highway) and 29th Avenue. Mr. Klaboe stated the proposed signal meets the traffic warrants and will provide for smoother traffic flow. The estimated cost is \$180,000. The City will provide \$76,000 toward the cost and the State would use \$104,000 of State Construction Funds. He said funds are available due to the saving of money in the construction of the Hooskanaden Slide in Curry County which was performed by State forces. The Commission approved the project and authorized inclusion in the Six Year Program.

Mr. Klaboe presented a report and recommendation covering the program of street work in cities having a population of less than 5,000 under the \$250,000 Fund appropriated by law for 1979. (Special City Allotment Program for 1979.) He mentioned that 80 applications have been received and all carefully analyzed. There were 11 projects selected for approval as being most meritorious and all that can be covered by funds available. The Commission approved the projects in the following cities and authorized the State Highway Engineer to sign agreements when prepared: (Specific details shown on each project in the Commission's files, Salem.)

Mr. Coulter recommended the appointment of Mr. John Hoefling of Portland (representing the public) to the Winter Recreation Advisory Committee for a two-year term. The Commission approved the appointment.

At the July 1978 Commission meeting, Mr. Coulter stated, Mr. Mike Lockhart and Mr. George Watson were appointed for one-year terms to the Winter Recreation Advisory Committee. Mr. Coulter said that this was in error as under the law the appointments should be for two-year terms. The Commission approved the appointments for two-year terms effective July 1, 1978, as recommended by Mr. Coulter.

Mr. Coulter stated that the Winter Recreation Advisory Committee recommended at their September 13, 1978, meeting the approval of expansion of the present Sno-Park on the Mt. Hood Highway to include the new parking lot for the Hood River Meadows complex (M.P. 63.99) in Hood River County. He recommended not designating this area as a Sno-Park at this time because this lot may not be completed for this winter's use and because of the uncertainty of receiving sufficient revenues to offset the snow removal cost. Mr. Coulter mentioned that Mr. Clay Simon, Vice President of Mt. Hood Meadows Development Corporation, is present and wishes to comment on this subject.

Mr. Simon stated that there is a need for additional parking facilities and felt the additional revenues from the new parking lot will offset future plowing costs. The postponement of approval will be detrimental to the U.S. Forest Service and Mt. Hood Meadows. Mr. Simon recommended that the designation be approved at this time, but that it not be implemented within the Sno-Park designation system until the lot is constructed. (Mr. Simon's letter to the Commission dated October 23, 1978, on file in the Commission's files, Salem.) After discussion, the Commission approved the Hood River Meadows Parking Lot as an official Sno-Park designation.

The Commission considered a supplemental agreement to transfer a portion of the old Columbia River Highway right of way to Morrow County. Mr. Coulter recalled that in 1964 the agreement with the County did not effectuate the transfer of the State's right, title and interest to the portion of the highway but merely the obligation to maintain the then existing roadway. He said the situation is unique in that the State actually owned fee title to the right of way rather than merely an easement. Mr. Sollis pointed out to clear up the title problems that the County now has and to carry out the intent of the original agreement, it would be appropriate to give the County a deed of relinquishment for a 60-foot roadway through the center of the old right of way for public road purposes and also give them a Bargain and Sale Deed for the remaining width of the old Columbia River Highway at its 1964 value. The Commission approved the supplemental agreement with Morrow County and authorized the Highway Engineer to sign the agreement.

Commissioner Walsh asked about the status of the Morrow County gravel pit. Mr. Klaboe said the Attorney General stated that the State must get fair market value for the gravel pit. This matter appears to be closed, he said, unless the County comes up with the money.

Mr. Coulter briefed the Commission on the Highway Division's 1979-81 Budget and he said the total amount of the budget is \$660 million which is considerably higher than in past years. The estimate for the current biennium is \$430 million. He said most of the increase is in the construction program due to approximately \$60 million in Interstate Transfer Projects using funds withdrawn from the Mt. Hood Freeway and Interstate 305 in Salem, other large projects on the I-205 Bridge across the Columbia River and heavy interstate right of way costs. He mentioned the non-highway part of the Travel Information Program is being transferred to the Department of Economic Development.

Commissioner Hollern inquired about the hearing pertaining to Sno-Park permits. Mr. Sollis mentioned that no one appeared in opposition to the hearing and there was only one letter received. He stated the Oregon Hotel-Motel Owners Association that requested the hearing said that after the proposal was explained to them they were withdrawing their objection. Mr. Sollis said the permits will be permanent and a sticker placed on the lower corner of the windshield.

Mr. Talbot handed to the Commission a comparison sheet of the State Parks and Recreation Branch 1979-81 Budget Request. (Copy on file in the Commission's files, Salem.) He mentioned the summary sheet shows the Agency's request, the Executive Department Analysts' recommendations and the various decision packages. The Analysts have deleted all of the decision packages except the St. Mary's Woods Acquisition. They have reserved approximately 5%. Mr. Talbot indicated the Department would appeal the 5% which amounts to approximately \$1 million, and it is anticipated that some of these programs will be placed back in the budget.

Mr. Burket reported that the Pacific Power and Light Company has applied to the Public Utility Commissioner for authority to build a 500,000 volt power line in the vicinity of Kingsley Field in the Klamath Basin. He said the Division is concerned about the alignment of the power line in the area south of Kingsley Field Airport so as to not constitute a hazard to the aircraft using the north-south runway or to interfere with the electronic air navigational aids. Mr. Burket recommended that the Attorney General intervene, if necessary, on behalf of the Division in the Public Utility Commissioner route case. Commissioners Walsh, Brix, Coleman and Vice Chairman Hollern accepted his recommendation. Chairman Jackson refrained from voting on this matter due to a conflict of interest.

Mr. Burket said their 1979-81 budget of \$3.416 million has been accepted by the Budget Division of the Executive Department. The Division has scheduled expenditures of \$3,176,500, subtracting from this amount \$1,441,780 Federal dollars that is built into the budget. This represents an 11.2% increase over the current biennium.

The Commission considered approving supplemental agreements with the City of Roseburg, Rogue Valley Transportation District and Columbia County to reallocate unused General Funds under the Urban-Rural Operating Assistance Program. Mr. Moore stated the contract with Roseburg would increase by \$10,592; Rogue Valley Transportation District would receive an additional \$10,452; and Columbia County an additional \$12,507. He said the program participants who have not used their first year allocation have been notified of these proposed changes and no system will suffer adverse consequences as a result of this reallocation. The Commission approved the supplemental agreements as recommended by Mr. Moore.

Mr. Moore reported on the transit aspect of pending Federal legislation. He commented on the Non-Urbanized Area Operating Assistance Program for Public Transportation. This would give Oregon an additional \$1 million a year. He indicated it will affect the budget, but didn't know how much because it is not known when the Federal program will be implemented.

Mr. Moore mentioned another program, which is a \$40 million a year Capital Improvement Program for intercity bus terminals. This would mean the Portland Transportation Center project would be eligible for 80% Federal funds.

A third program, he said, is a \$30 million annual Operating Assistance Program for the intercity bus industry. He pointed out that this program was not sponsored by the administration and it is not known how the Federal Government will implement it. Mr. Moore mentioned the State may just have an advisory planning role or it may be receiving and dispersing funds.

Mr. Moore mentioned the Public Transit Budget for 1979-81 in the amount of \$3.7 million was forwarded to the Executive Department on September 1. He said this amount did not include Tri-Met, but did include anticipated Federal Funds in the amount of \$600,000. The Budget Analyst has proposed a deletion of approximately \$800,000. The largest amount is \$565,000 which represents Decision Package No. 7. He indicated this would have been more capital improvement money for the Lane Transit District and the City of Salem.

Mr. Harvey Ward briefed the Commission on the implementation plan of the October 1978 Executive Board request that was approved allowing the Motor Vehicles Division to construct and establish seven new field offices. He said the new field offices are in Cedar Hills, Sandy and Stayton, and it is anticipated that these offices will be opened in January of 1979. The offices in Florence and Lincoln City are scheduled for opening in February and the Madras and Heppner offices are to be opened in March.

Mr. Ward reported that the Motor Vehicles Division 1979-81 proposed budget in the amount of \$35½ million has been submitted to the Executive Department. He mentioned the Budget Division has reduced this amount by \$1½ million. The major reduction, he said, is the funding for the purchase of a Department computer. They also reduced 13 field staff positions. Mr. Ward commented on other decision package items.

Mr. Harry Anderson reported on the Motor Vehicles Division computer center.

Mr. Henry Wolf of Lincoln City, representing the Twenty Miracle Miles, appeared before the Commission urging improvement of Highway 18 and the portion of Highway 101 entering Lincoln City in Lincoln and Polk Counties. He pointed out that the heavy traffic volume and the accident rate still exists on these highways. In reply to Mr. Wolf's inquiry, Mr. Klaboe stated if Proposition 3 passes at the November 7, 1978, election, it will mean approximately \$14 million to the Highway Fund. This money will probably go into the Six Year Program and add back to the Six Year Program some of the jobs that were deleted when the gas tax increase failed last May.

Chairman Jackson adjourned the meeting at 11:37 a.m.

Immediately following the close of the formal meeting, the Commission reconvened in the Conference Room. Present were: All five Commission members, Glen Green, Bob Bothman, Robert Burco, Larry Rulien, H. S. Coulter, Bill Hayden, and Fran Neavoll. As a follow-up to their earlier discussions, Glen Green and Bob Bothman briefed the Commission on the current status of the Powell Boulevard Project (Ross Island Bridge-S.E. 50th Avenue Section of the Mt. Hood Highway in Multnomah County) in which the contract has not been awarded pending Federal Highway Administration approval.

The meeting adjourned at 11:50 a.m.

Glenn L. Jackson, Chairman

SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On September 1, 1978, approved an agreement with the Department of Fish and Wildlife whereby the Fish and Wildlife transfers to the Highway Division a 364-acre parcel in Columbia County appraised at \$218,400 and the Highway Division transfers to Fish and Wildlife a 72+ acre parcel in Polk County valued at \$108,000. The difference in the values will be corrected in the future by the conveyance of excess Highway properties at market value to Fish and Wildlife.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated
Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On September 14, 1978, established a 40 MPH speed zone on the Corvallis-Newport Highway No. 33 from the Eddyville-Blodgett Highway No. 180 (M.P. 23.18) to 0.40 mile east of the SP Grade Crossing (M.P. 23.81) in Lincoln County. (Approval was given by R. L. Schroeder on behalf of H. S. Coulter.) (Speed Zone Order 786)
- 2) On September 18, 1978, approved a personal and professional service contract with Vernon Eugene Wiard as a consultant to the Parks Branch relating to the management and operation of the proposed conference facility at Silver Falls State Park in Marion County. Maximum amount to be paid under this contract is \$600. Work to begin October 1, 1978, and end December 31, 1978.
- 3) On September 26, 1978, approved a "No Parking Zone" on the west side of the Rogue Valley Highway No. 63 from Gore Creek (M.P. 9.37) to 0.33 mile north of south Stage Road (M.P. 9.47) south of Medford in Jackson County.
- 4) On September 28, 1978, established the following speed zones on the Jacksonville Highway No. 272 in Jackson County, vicinity of W. city limits of Medford:

40 MPH from M.P. 35.35 to M.P. 36.57 and
35 MPH from M.P. 36.57 to 37.45 including
a 20 MPH when children are present from
M.P. 36.60 to M.P. 36.73.
Rescinds Speed Limit Resolution No. 224 dated
3-1-56. (Speed Zone Order No. 787)

EXHIBIT B
MINUTES OF 10-24-78

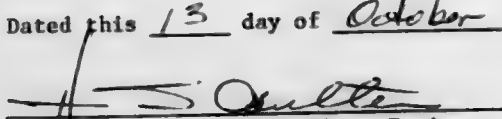

- 5) On September 28, 1978, established the following speed zones on the Santiam Highway No. 16 adjacent to Sisters in Deschutes County:

40 MPH from M.P. 100.10 to M.P. 100.30 and
30 MPH from M.P. 100.30 to M.P. 100.36.
(Speed Zone Order No. 788)

- 6) On October 9, 1978, rescinded Commission action of March 20, 1942, establishing a 35 MPH speed zone on the Crater Lake Highway in the vicinity of White City, Jackson County. Speed Zone Order No. 722 dated March 31, 1976, shall be retained on this section of the Crater Lake Highway in Jackson County.

- 7) On October 12, 1978, approved a Consent to a Petition for the vacation of certain lots in the Plat of Crescent alongside The Dalles-California Highway in Klamath County. (Signed the Consent on October 13, 1978)

Deschutes River Scenic River Waterway

Approved by: Jack L. Sollis

Date: Oct. 10, 1978

- * This was a condemnation case involving the condemnation of land under the scenic waterways statutes. The defendant appealed the decision of the lower court contending that the department had not acted in good faith and had not followed the proper statutory procedure in dealing with the defendant and in instituting the condemnation action. The position of the department was sustained on appeal and the decision of the lower court in favor of the department as to the department's dealing in good faith and following the proper statutory procedure was affirmed.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7653 Marjorie H. Donnelly, et ux v. Thomas Elton Whisenant, et ux v. The State of Oregon (third party defendant): This lawsuit arises out of an accident that occurred on September 10, 1976, at the intersection of State Highway No. 238 and Rosewood Street in Josephine County. The accident involved vehicles driven by Donnelly and Whisenant. The defendant Whisenant has filed another complaint as a defendant and third party plaintiff alleging that the Highway Division was negligent in failing to maintain the traffic control device at the intersection of State Highway 238 and Rosewood Street. They also alleged that the State was negligent in failing to replace the traffic control device at the same intersection and also failing to inspect and repair it. The defendant and third party plaintiffs also alleged that the traffic control device at the intersection set out above was not positioned properly. The lawsuit is in the amount of \$27,708.54. The matter has been referred to the Attorney General's office for the defense of the State.

L-7654 Steven J. Hopper and Joan Hopper v. Department of Transportation: This is a suit in inverse condemnation for alleged damages to the defendant's land on April 26, 1978. The complaint alleges that the State diverted water onto the defendant's land and as a result, mud and debris was placed on plaintiff's land. The plaintiff is seeking \$4,117.99 in damages, plus attorney fees. The matter has been referred to the Attorney General's office for the defense of the State. (Grant County)

L-7655 Dave Hamilton Chevrolet-Oldsmobile, Inc. v. State of Oregon: This is a complaint for declaratory judgment in which the plaintiff is contesting the right of the Highway Division to require a left turn refuge as a condition to issue a road approach to plaintiff's business. Plaintiff's business is located on The Dalles-California Highway near the city of Redmond. The matter has been referred to the Attorney General's office for the defense of the State.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On September 22, 1978 \$ 3,282,454.81 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of August, 1978.
(List of apportionments on file in Commission Files, Salem.)

On September 29, 1978, \$ 1,969,472.88 (12 percent of the Highway Fund) was distributed to the cities for the month of August, 1978.
(List of apportionments on file in Commission Files, Salem.)

Dated this 19th day of September 1978

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
NOVEMBER 28, 1978

November 28, 1978
Salem, Oregon

The Oregon Transportation Commission met in the Director's Office (Room 135), Transportation Building, at 8:45 a.m. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
B. Gordon Coleman, Member
Peter J. Brix, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Larry Rulien, Assistant Director of Transportation Policy
and Program Development
Don Streun, Assistant Director of Administration
H. S. Coulter, State Highway Engineer
Jack Sollis, Chief Counsel
Bill Nessly, Assistant Attorney General
Mark Ford, Supervisor for Program Evaluation
Bob Blensly, Manager for Program Development & Evaluation
Dave Talbot, State Parks Superintendent
Bob Bothman, Administrator of Metropolitan Branch
Fran Neavoll, Commission Services

Mr. Rulien presented to the Commission a chart entitled "Proposed Cycles for Major Department Decision Processes" concerning updating the Department Six Year Program. (Copy of chart on file in the Commission's files, Salem.)

Mr. Ford by way of charts and handouts briefed the Commission on the following:

- 1) Objectives of the Six Year Department Program
- 2) What the Program includes
- 3) The Program and budget relationship
- 4) The Six Year Program process
- 5) Program Summary
- 6) Transfers and appropriations of highway revenue 1979-81
- 7) Revenue Collection vs. service to public

Mr. Ford gave to the Commission a "Discussion Draft, Subject to Revision, Oregon Department of Transportation Six Year Program 1979-1985 Summary." Mr. Burco said that the Summary would be discussed at a future meeting. (Copies of both handouts on file in the Commission's files, Salem.)

Mr. Burco handed to the Commission a letter dated October 24, 1978, from L. E. Lybecker, Regional Administrator, Federal Highway Administration, concerning the development of an internal audit function within the Department of Transportation. Mr. Streun briefed the Commission on the progress of the implementation of this function. Mr. Jackson said a letter should be written to the Federal Highway Administration to indicate that the Department is proceeding to set up an internal audit function and that the Department will be working with them to see that the system is satisfactory.

Mr. Burco mentioned that the Department is responding to the Executive Department's Report entitled "Analysis of Highway Fund Collection and Disbursement Procedures" and a presentation will be made later on in the meeting concerning this.

Mr. Burco handed to the Commission a letter from the Department of Economic Development concerning the Department of Transportation's response to their Transportation plan outline.

Mr. Nessly briefed the Commission on the proposed policy statement concerning a first aid training program. He handed to the Commission a report he had prepared concerning this matter. (Copy on file in the Commission's files, Salem.) There was discussion concerning insurance, the Tort Claims Act and the Good Samaritan Act. Mr. Hollern said he felt that the employees should be covered while off the job as well as on the job. Mr. Nessly discussed with the Commission proposed legislation to add to the statutes to ensure that the employees who give aid are covered by governmental insurance if the aid is given during working hours and the proposed legislation would require proof of gross negligence. Mr. Sollis indicated that he would work with the Attorney General on the proposed legislation and that the policy would be before the Commission for formal adoption later in the meeting. (See page 2804.)

Mr. Talbot indicated that Legislative Counsel feels that legislation is not necessary in order to change the Parks Branch to a Division of the Department of Transportation and that the Commission may have that authority to make the change. He said he would request an opinion of the Attorney General.

Mr. Talbot advised the Commission that the Parks Advisory Committee may introduce legislation repealing the \$2 surcharge for out-of-state visitors using the parks and may ask for the Commission's support.

Mr. Talbot mentioned that there would be two delegations appearing before the Commission later in the meeting. He briefed the Commission on Mr. B. A. Hanten's request concerning an administrative decision on a technical matter concerning the Rogue River Scenic Waterway in Josephine County and the proposal concerning the Wheatland Ferry in Yamhill and Marion Counties.

Mr. Bothman briefed the Commission on the delegation from the City of Gresham which would be appearing later in the meeting concerning the proposed realignment of Powell Boulevard at 190th. He discussed the three alternatives and said he would continue to work with the City on this project.

The Commission moved the meeting to the Conference Room 122 at 10:10 a.m. Others present were:

George Bell, Manager of Intergovernmental and Public Affairs
Dennis Moore, Administrator of Public Transit
Paul Burket, Administrator of Aeronautics
Harold Grover, Administrator of Motor Vehicles
E. S. Hunter, Manager of Technical Services
Glen Green, Federal Highway Administration
J. B. Boyd, Right of Way Manager
Bill Hayden, Manager of Policy Development Section
C. W. Head, Manager, Commission Services

There were others present including representatives of the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Bell:

- 1) Minutes of the meeting of October 24, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2679" on file in the Commission's files, Salem.)
- 3) Abandoned 14 damage claims totaling \$9,212.84 as follows:

(Listed on next page.)

| <u>CAO NO.</u> | <u>NAME</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |
|----------------|-----------------------|---------------|---------------|
| 77-190 | Winona M. Erickson | Bridge | \$ 666.78 |
| 77-212 | Chris and Kathy Weber | R/W fence | 399.55 |
| 77-236 | Kenneth K. Kantonen | Guardrail | 357.99 |
| 78-8 | Jerry D. Smith | Light Pole | 745.40 |
| 78-30 | Thomas W. Stevens | Guardrail | 434.30 |
| 78-87 | Gutierrez E. Chavez | Light Pole | 330.19 |
| 78-156 | James and Donna Hawes | Guardrail | 554.19 |
| 78-158 | Daniel R. Hendrickson | Guardrail | 652.91 |
| 78-178 | Francis D. Sheahan | Fence | 457.04 |
| 78-187 | William B. Laughlin | Bridge | 1,652.38 |
| 78-197 | Bruce D. Glennte | Guardrail | 1,135.20 |
| 78-214 | David W. Dubose | Bridge | 752.43 |
| 78-254 | Steven E. Coonrod | Guardrail | 502.68 |
| 78-255 | Erickson Lumber Co. | Guardrail | 572.20 |

- 4) Authorized replacement of all the temporary plywood signs on the Pacific Highway and Stadium Freeway between the Fremont Bridge and the Corbett Avenue Undercrossing in Portland, Multnomah County. Estimated cost is \$135,000 with Federal participation of \$124,000 and State matching funds of \$11,000. Authorized inclusion in the Six Year Program.
- 5) Request from Lake County for a FAS-C preliminary engineering project for a fifth bridge along the north shore of Hart Lake on FAS-B329. Total Cost \$2,500; Federal Funds \$2,150; State Share \$175; County Share \$175. (Authorized State Highway Engineer to sign agreement.)
- 6) Adopted resolution transferring to Deschutes County the Cline Falls Highway No. 373, Tumalo-Deschutes Highway No. 374 and the Redmond-Bend Highway No. 375 in exchange for a portion of the Cascade Lakes Highway, National Forest Highway No. 46. ("Secondary Highway Designation Resolution No. 81" on file in the Commission's files, Salem.)

- 7) Allocation for the fiscal year 1979 Safer Off-System Road Funds as follows:

PROJECTED FISCAL YEAR 1979 SOS ALLOCATION
NOVEMBER 1978

Oregon's Projected Fiscal Year 1979 \$3,650,000
SOS Apportionment

Allocation to Urbanized Areas, Cities Under 50,000 Population, and Counties, Road Districts, Indian Reservations, and certain Federal agencies, is based on Percentage of Off-System Road Mileage.

GROUP I - URBANIZED AREAS

| | | |
|--------------------------------------|----|---------|
| 14% of Total Off-System Road Mileage | \$ | 510,000 |
| SALEM 14% | | 70,000 |
| EUGENE 19% | | 100,000 |
| PORTLAND 67% | | 340,000 |

GROUP II - CITIES UNDER 50,000 POPULATION

14% of Total Off-System Road Mileage 510,000

GROUP III - COUNTIES, ROAD DISTRICTS, INDIAN
RESERVATIONS & CERTAIN FEDERAL
AGENCIES

72% of Total Off-System Road Mileage \$2,630,000

- 8) Requests for Safer Off-System Road Projects and authorized State Highway Engineer to sign the necessary agreements when prepared:
- a. Request from City of Eugene for a bridge over Amazon Channel on Acorn Park Street. Total Cost \$149,500; Federal Funds \$93,600; Local Share \$55,900. (Structure and bike path.)
 - b. Request from City of Eugene for constructing sidewalks and curbs on Norkenzie Drive over Beltline Road (Elanco Lane to Donovan Drive Section). (Bikeway, handrail, curb and gutter.) Total Cost \$52,800; Federal Funds \$46,800; Local Share \$6,000.
 - c. Request from City of Baker for a bridge over Powder River on Broadway Street. Total Cost \$111,000; Federal Funds \$66,000; Local Share \$45,000.

- d. Request from City of Boardman for grading and paving portions of North Main Street and Columbia Avenue. (I-80N-Columbia Avenue Section on North Main Street and North Main Street East approximately 1,000 feet on Columbia Avenue). Total Cost \$92,500; Federal Funds \$66,000; Local Share \$26,500.
- e. Request from City of Canyonville for grading, curbing and paving on the I-5 to Main Street Section on West First Street. Total Cost \$75,000; Federal Funds \$66,000; Local Share \$9,000.
- f. Request from City of Carlton for grading, paving and curbing project on portions of S. Yamhill Street, W. Washington Street and E. Polk Street. Total Cost \$50,000; Federal Funds \$44,000; Local Share \$6,000.
- g. Request from City of Coos Bay for grading, paving and curbing project on Ingersol Avenue-Kruse Avenue Section on Tenth Street. Total Cost \$75,000; Federal Funds \$66,000; Local Share \$9,000.
- h. Request from City of Dallas for grading, paving, curbing and sidewalk project on portions of Uglow Street, Brentwood Avenue, "A" Street and Denton Avenue. Total Cost \$259,800; Federal Funds \$66,000; Local Share \$193,800.
- i. Request from City of Enterprise for grading, paving and curbing on Alamo Street-Greenwood Street Section of W. Second Street. Total Cost \$96,000; Federal Funds \$66,000; Local Share \$30,000.
- j. Request from City of Tillamook for paving portions of 4th, 5th, 7th and 8th Streets along with a number of connecting streets. Total Cost \$97,000; Federal Funds \$66,000; Local Share \$31,000.
- 9) Requests for projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway and authorized the State Highway Engineer to sign the necessary agreements as follows:
 - a. Request from City of Gladstone to widen and improve a 0.76 mile segment of Webster Road (North City Limits (Gladstone)-Oatfield Road Section). Total Cost \$127,500; Federal Funds \$108,375; Local Share \$19,125.

(Continued on next page.)

- b. Request from City of Gladstone to signalize the intersection of S.E. 82nd Drive and Oatfield Road. Total Cost \$50,000; Federal Funds \$42,500; Local Share \$7,500.
- c. Request from City of Gladstone to widen Webster Road at Swanson Loop for transit vehicles and riders. Total Cost \$10,000; Federal Funds \$8,500; Local Share \$1,500.
- d. Request from City of Milwaukie to widen and channelize the intersection of Harrison Avenue and 32nd Avenue and install traffic signals. (Clackamas Highway-33rd Avenue Section.) Total Cost \$117,000; Federal Funds \$99,450; Local Share \$17,550.
- e. Request from City of Milwaukie to realign 34th Avenue and Oatfield Road at Lake Road and signalize the intersection. Total Cost \$116,000; Federal Funds \$98,600; Local Share \$17,400.
- f. Request from City of Portland for a series of small projects, mainly at intersections, on a 4.55 mile segment of S.E. Division Street (S.E. 7th Avenue-S.E. 82nd Avenue Section). Total Cost \$433,200; Federal Funds \$368,220; Local Share \$64,980.
- g. Request from Clackamas County to widen the existing roadway and realign curves on Thiessen Road (Hill Road-Vista Lane Section). Total Cost \$39,000; Federal Funds \$33,150; Local Share \$5,850.
- h. Request from Clackamas County to widen both sides of Jennings Avenue to accommodate pedestrian and bicycle traffic (Pacific Highway East-Oatfield Road Section). Total Cost \$62,000; Federal Funds \$52,700; Local Share \$9,300.
- i. Request from Washington County to straighten the Tualatin Valley Highway between S.W. 182nd Avenue and S.W. 187th Avenue and install an eight-phase signal at the intersection of Tualatin Valley Highway and S.W. 185th Avenue. Total Cost \$1,500,000; Federal Funds \$1,275,000; Local Share \$225,000.

10) Fiscal Year 1979 Federal Aid Urban System Fund
Allocation to the urbanized and small urban areas
of the State as follows:

FISCAL YEAR 1979 URBAN SYSTEM ALLOCATION
NOVEMBER 1978

| | |
|--|-------------|
| Oregon's Fiscal Year 1979 Urban System Apportionment | \$6,772,785 |
| Less 1-1½% HPR Funds | 101,591 |
| Less ½% PR Funds | 33,864 |
| | (135,455) |
| TOTAL | \$6,637,330 |
| *Less Allocation of Funds Attributable to Portland
Urbanized Area (Over 200,000 Population) | (3,858,448) |
| Funds Available to Balance of State | \$2,778,882 |

| Urban Area | Federal
Population | Percent of
Total | Fund
Allocation |
|----------------------|-----------------------|---------------------|--------------------|
| Eugene | 139,255 | 25.4107 | 706,133 |
| Salem | 93,041 | 15.9777 | 471,790 |
| 25 Small Urban Areas | 315,722 | 57.6116 | 1,600,959 |
| TOTAL | 548,018 | 100.0000 | 2,778,882 |

*City of Portland's Fair and Equitable Allocation of Portland
Urbanized Area Allocation:

| | | |
|---|---------|-------|
| 1975 City of Portland Population | 379,826 | = 46% |
| 1975 Portland Urbanized Area Population | 832,761 | |

$$46\% \times 3,858,448 = \$1,774,886$$

NOTE: City of Portland's Allocation is based on 1975 population
estimates obtained from the Center for Population Research
and Census.

(Continued on next page)

FISCAL YEAR 1979 URBAN SYSTEM ALLOCATION
SMALL URBAN AREAS
NOVEMBER 1978

| <u>Urban Area</u> | <u>Population</u> | <u>Percent of Total</u> | <u>Federal Funds</u> |
|-------------------|-------------------|-------------------------|----------------------|
| Albany | 24,032 | 6.3882 | 102,272 |
| Ashland | 15,123 | 4.0200 | 64,359 |
| Astoria | 10,740 | 2.8549 | 45,706 |

| Bend | 16,576 | 4.4062 | 70,541 |
| Coos Bay | 24,050 | 6.3930 | 102,349 |
| Corvallis | 38,538 | 10.2442 | 164,005 |
| Cottage Grove | 7,200 | 1.9139 | 30,641 |
| Dallas | 8,112 | 2.1563 | 34,522 |
| Forest Grove | 10,807 | 2.8727 | 45,991 |
| Grants Pass | 14,000 | 3.7215 | 59,580 |
| Klamath Falls | 35,070 | 9.3223 | 149,246 |
| LaGrande | 11,577 | 3.0774 | 49,268 |
| Lebanon | 8,904 | 2.3669 | 37,893 |
| McMinnville | 13,290 | 3.5327 | 56,557 |
| Medford | 37,253 | 9.9026 | 158,537 |
| Monmouth | 6,255 | 1.6627 | 26,619 |
| Newberg | 8,887 | 2.3623 | 37,820 |
| Newport | 6,557 | 1.7430 | 27,905 |
| Ontario | 8,283 | 2.2018 | 35,250 |
| Pendleton | 14,650 | 3.8943 | 62,346 |
| Roseburg | 17,347 | 4.6112 | 73,823 |
| St. Helens | 7,649 | 2.0333 | 32,552 |
| The Dalles | 11,139 | 2.9610 | 47,404 |
| Woodburn | 10,500 | 2.7911 | 44,684 |
| TOTALS | 376,194 | 100.0000 | 1,600,959 |

NOTE: Above funds allocated to small urban areas on per capita basis using latest State population figures as proposed by League of Oregon Cities.

11) Requests for Federal Aid Urban System Projects and authorized State Highway Engineer to sign the necessary project agreements as follows:

- a. Request from City of Portland to replace existing signal equipment at five intersections on Second Avenue (S.W. Pine Street-S.W. Alder Street Section). Total Cost \$140,000; Federal Funds \$123,200; State's Share \$8,400; City's Share \$8,400.
- b. Request from City of Portland to install traffic signals at nine locations in the Coliseum area. Total Cost \$260,000; Federal Funds \$228,800; State's Share \$15,600; City's Share \$15,600.
- c. Request from City of Salem to provide five-phase signal operation at the intersection of Lancaster Drive and Market Street. Total Cost \$48,000; Federal Funds \$42,240; State's Share \$2,880; City's Share \$2,880.

12) Distribution of the fiscal year 1979 Federal Aid Secondary Funds to the individual counties of the State as follows:

(Listed on next page.)

FISCAL YEAR 1979 FAS ALLOCATION TO COUNTIES
November, 1978

| <u>COUNTY</u> | <u>FEDERAL FUNDS</u> | <u>TOTAL FUNDS</u>
Including State's and
Counties' Match Money
(Rounded to Thousands) |
|---------------|----------------------|--|
| Baker | \$ 65,169 | \$ 74,000 |
| Benton | 95,189 | 108,000 |
| Clackamas | 254,056 | 289,000 |
| Clatsop | 90,355 | 103,000 |
| Columbia | 108,472 | 123,000 |
| Coos | 147,702 | 168,000 |
| Crook | 72,346 | 82,000 |
| Curry | 73,357 | 83,000 |
| Deschutes | 98,360 | 112,000 |
| Douglas | 229,254 | 261,000 |
| Gilliam | 45,267 | 51,000 |
| Grant | 61,520 | 70,000 |
| Harney | 71,082 | 81,000 |
| Hood River | 73,223 | 83,000 |
| Jackson | 214,715 | 244,000 |
| Jefferson | 68,044 | 77,000 |
| Josephine | 109,580 | 125,000 |
| Klamath | 100,920 | 115,000 |
| Lake | 60,728 | 69,000 |
| Lane | 265,124 | 301,000 |
| Lincoln | 100,775 | 115,000 |
| Linn | 197,455 | 224,000 |
| Malheur | 138,069 | 157,000 |
| Marion | 228,190 | 259,000 |
| Morrow | 64,813 | 74,000 |
| Multnomah | 73,762 | 84,000 |
| Polk | 92,364 | 105,000 |
| Sherman | 45,055 | 51,000 |
| Tillamook | 91,807 | 104,000 |
| Umatilla | 167,586 | 190,000 |
| Union | 72,473 | 82,000 |
| Wallowa | 62,108 | 71,000 |
| Wasco | 72,636 | 83,000 |
| Washington | 166,636 | 189,000 |
| Wheeler | 39,736 | 45,000 |
| Yamhill | 116,011 | 132,000 |
| TOTAL | \$4,034,139 | \$4,584,000 |

SUMMARY - FISCAL YEAR 1979 COUNTY FAS FUNDS

| | |
|--|--------------------|
| Total Federal Funds | |
| (50% of Oregon Apportionment less planning survey funds) | \$4,034,000 |
| Plus estimated State Match Funds | 275,000 |
| Plus estimated County Match Funds | 275,000 |
| TOTAL FUNDS | \$4,584,000 |

NOTE: Above funds allocated to individual counties on basis of formula (25% equally, 60% on rural population, and 15% on rural county road mileage) proposed by association of Oregon Counties and approved by Transportation Commission. Federal funds are estimated to represent approximately 88% of total county road FAS funds with State and County funds estimated to be approximately 6% each.

13) Adopted a resolution accepting a cancellation agreement for the Federal Aviation Administration's Airport Development Aid Program Project No. 5-41-0033-02 for the Lebanon State Airport. ("Aeronautics Miscellaneous Resolution No. 15A" on file in the Commission's files, Salem.)

14) Snowmobile Trail Grooming Program for 1978-79 as follows and authorized State Highway Engineer to sign the necessary agreements:

A. Klamath - Medford (Jackson and Klamath Counties)

Purchase snow tractor with groomer to replace 1975 Alpine. Move 1975 Alpine to Crescent - Waldo (#3). Grooming agreement with Winema National Forest (\$3,350) plus signing (\$750). (Klamath District) (No 1977-78 carryover)

| | |
|----------------------|---------|
| Equipment Purchase | \$9,000 |
| Grooming and Signing | 4,100 |

B. Diamond Lake (Douglas County)

Grooming agreement with Umpqua National Forest (\$4,000). (Diamond Lake District) (No 1977-78 carryover)

| | |
|----------|---------|
| Grooming | \$4,000 |
|----------|---------|

C. Crescent - Waldo (Deschutes, Klamath and Lane Counties)

Move 1975 Alpine with groomer from Winema National Forest. Grooming agreement with Deschutes National Forest (\$500) plus signing (\$642). (Crescent District) (New agreement)

| | |
|----------------------|---------|
| Grooming and Signing | \$1,142 |
|----------------------|---------|

D. Deschutes (Deschutes County)

1. Grooming agreement with Deschutes National Forest (\$2,600) plus signing (\$360) for Paulina Lake vicinity (Fort Rock District). (1977-78 carryover)
2. Grooming agreement with Moon Country Snowmobile Club for Mt. Bachelor area (no cost). Signing agreement with Deschutes National Forest (\$1,780). (Bend District) (New agreement with Moon Country) (Include signing with Item "A")

Purchase "Wisconsin Special" Maxey groomer for operation by club with club-owned snow tractor (\$6,000).

(1977-78 carryover with Deschutes National Forest was approximately \$3,711. Net funds necessary to them is \$4,740 - \$3,711 = \$1,029.)

| | |
|----------------------------|---------|
| Equipment Purchase | \$6,000 |

DIRECTOR'S REPORT

Mr. Burco handed to the Commission for their consideration a draft of a letter he had written to Lea Jenny of the Joint Legislative Interim Task Force on Transportation Policies and Funding in response to recommendations incorporated in their Task Force Report. He recalled that the Interim Committee looked at the Department's Policy Document which was submitted to the Legislature and hearings were held. Ms. Jenny had requested a letter to go along with the publication of a report of all the Interim Task Forces on the Department's response to several of the issues raised

in their report. He said the main purpose of the report was to suggest new legislation for the 1979 session and the Department was asked to address only the policy issues that were raised by Committee members. Mr. Burco indicated that he is to submit this letter to Lea Jenny by the end of the week. (Copy of draft of letter on file in the Commission's files, Salem.)

Mr. Hayden submitted to the Commission a Task Force Report on the "Analysis of Highway Fund Collection and Disbursement Procedures" Report prepared by the Executive Department. He briefed the Commission on the recommendations of the Task Force covering the four alternatives presented to the Commission at the last meeting. (Copy of Task Force Report dated November 24, 1978, on file in the Commission's files, Salem.) He said the recommendations have not been discussed with the Public Utility Commissioner and industry associations. Further development of these recommendations, he said, would require the exchange of ideas with representatives of these two groups. The Commission inquired concerning the cost of some of the recommended changes, particularly Alternative 2. Mr. Hayden stated that he would obtain the cost figures and report back to the Commission.

Mr. Rulien presented an update on the Department-wide Six Year Program which is currently being drafted. The Chairman mentioned that the Commission has received the written documents covering the details and they will discuss it at a future meeting.

The Commission set Tuesday, December 19, 1978, for their next meeting.

OPERATIONS

Following Mr. Klaboe's recommendation, the Commission approved an amendment to Delegation Order No. 16 authorizing the State Highway Engineer to approve, modify or withdraw Federal Aid Secondary-County, Federal Aid Urban System and Federal Aid Safer Off-System Road Projects, and also the authority to execute construction-finance agreements for these projects with the cities, counties, road districts, State and Federal agencies and other units of local government.

Attention was given to a resolution concerning encroachments and use of highway right of way. Mr. Boyd said the property owners sometimes inadvertently or by design encroach upon the highway right of way. He said action is needed to protect the Department's interest and the Department's responsibility to the Federal Highway Administration. It is proposed, he said, to define these areas and, where feasible, lease to the adjacent

property owner on an economic rental basis if he so desires. These leases will clearly define the responsibilities of both the lessor, the Department, and the lessee as to his rights and privileges. Mr. Boyd presented photographs of actual sign and use encroachments. (Copies of photographs on file in the Commission's files, Salem.) The Commission accepted his recommendation by adopting "Real Property Resolution No. 730" on file in the Commission's files, Salem.

Mr. Klaboe requested Commission approval to ask the Federal Highway Administration to release the Highway Division from payback obligations on properties utilized for transportation purposes in the Chemawa-Hickory Section of the Salem Freeway (I-305) in Marion County. He said the congestion in the Department's electrical shop has become acute. Signal installations have become so numerous under the types of improvements being made in the Federal Aid Program that the environmental test chambers in the electrical shop are unable to cope with the problem.

In the original design of the I-305 Salem spur, the Right of Way Section purchased the Gideon Stolz Warehouse. He mentioned this facility will not be utilized in the final arterial street system design and would be an ideal location for the electrical shop considering the availability of the capital improvement. Mr. Klaboe said the approximate cost to relocate the electrical shop would be \$55,000. The Commission approved sending a request to the Federal Highway Administration to forgive the payback and approved relocation of the electrical shop to the Gideon Stolz Warehouse as recommended by Mr. Klaboe.

Mr. Bothman briefed the Commission on the Banfield Transitway Project in the City of Portland. He referred to a report which was recently mailed to the Commission. (Copy of report on file in the Commission's files, Salem.) Mr. Bothman mentioned at the end of the report is a draft of a resolution submitted for the Commission's consideration and for their action at the December Commission meeting. He said the resolution primarily asks for the Commission's support of the Banfield-Burnside Light Rail Alternative 5-1b, including the highway improvement on the Banfield Freeway. It specifically asks support for a six-lane facility and provides the utilization of State Highway Trust Funds for matching Federal Interstate Transfer Funds for the freeway improvements on the Banfield Freeway between I-5 and I-205. After considerable discussion, the Commission asked Mr. Sollis to prepare another resolution outlining the Commission's responsibility and what the Commission is actually approving, and present it at the December meeting. Several Commissioners pointed out that they felt their jurisdiction covered only the highway aspects of the project and this should be clearly spelled out in the endorsement.

The Commission considered a request to proceed with a hearing concerning an amendment to the rule allowing two-person carpools rather than three persons to use the restricted HOV lanes on the Banfield Freeway in Multnomah County. The Commission approved the request as recommended by Mr. Bothman. (A public hearing is tentatively set for January 16, 1979, in a notice to be published in the January 1, 1979, Secretary of State's Administrative Rule Bulletin.)

Mr. Coulter stated that a public hearing was held on November 2, 1978, concerning a proposed administrative rule for 14-foot high load permits for vehicles carrying multiple item commodities. He mentioned the only testimony offered at the hearing was from Mr. Robert Knipe of the Oregon Trucking Association supporting the proposed rule. He said Mr. Knipe mentioned that his Association may seek statutory revision at the next legislative session to revise Oregon's law from the present 13 feet 6 inches to 14 feet, thereby eliminating the need for special permits. The Commission adopted "Permit Administrative Rule No. 38" which is on file in the Commission's files, Salem. A copy of the permanent rule was filed with the Secretary of State on November 30, 1978, and was published in the Administrative Rules Bulletin on December 15, 1978.

Upon the recommendation of Mr. Coulter, the Commission adopted the following policy: (See page 2789 for previous discussion of this item.)

The Transportation Commission hereby declares that employees of the Department should assist members of the traveling public whenever possible. Specifically, employees of the Department should be encouraged to obtain first-aid training, and when properly qualified, render first aid assistance in the course of their employment to members of the traveling public.

The Chairman said this approval should be subject to the proper insurance coverage. Mr. Sollis advised there was proper coverage under the Tort Claims Act.

Mr. Coulter announced that this afternoon and tomorrow morning the Department is undertaking an emergency operation simulation exercise conducted by the Federal Highway Administration to test the Department's standard operating procedures for responding to emergencies. He said the exercise will be held in the 4-H Building at the State Fairgrounds in Salem. Mr. Coulter invited the Commission to attend the exercise and stated a critique would be held following the exercise.

Consideration was given to an amendment to the Oregon Parks Foundation Articles of Incorporation. Mr. Talbot mentioned the Foundation is a non-profit organization whose principal purpose is to acquire, obtain, preserve and to improve land and other property for public park or public recreation purposes. He stated the amendment provides that the number of Class II Directors of the Foundation shall not be less than 10 nor more than 35 and will be subject to the approval by the Portland City Council and the Transportation Commission. The reason for the request is to obtain diversity in number and geographical location of the members of the Board of Directors. Following his favorable recommendation, the Commission approved the amendment. (Copy of Restated Articles of Incorporation on file in the Commission's files, Salem.)

Attention was given to a proposal from Yamhill County concerning the State taking over the operation of the Wheatland Ferry. Mr. Talbot mentioned that the Lone Tree Bar State Park, which is nearing completion, is located near the ferry crossing in Marion and Yamhill Counties. Mr. Talbot pointed out that in the budget process during the last session of Legislature, the Department was instructed to prepare studies to deal with the question of fiscal impact of the new park. He mentioned that copies of the economic impact study have been sent to both Counties and the study indicates that the impact on the ferry will be minimal insofar as the park is concerned. (Copy of impact study on file in the Commission's files, Salem.)

The following individuals were present regarding the Wheatland Ferry operation: Senator Tony Meeker; Commissioner Colin Armstrong, Roadmaster Lloyd May, Yamhill County; Chairman of County Commission Pat McCarthy, and John Anderson, Director of Public Works, Marion County.

Senator Meeker referred to the economic impact study report and commented that the ferry is a farm-to-market route for many of the Yamhill County producers whose sole market is in Marion County. He mentioned the report indicates the peak usage of the ferry is during the four summer months, and the peak impact of park usage will also be during the summer months. He said there are already waiting lines up to a half hour and sometimes 45 minutes during the summer. The Senator mentioned that with additional park visitors the impact would be far greater than the 3% indicated in the report. He mentioned it would be closer to 9% in the summer months by 1982 and as high as 30% in 1989.

Mr. Armstrong mentioned that the tourist, commuter and agricultural vehicular traffic is steadily increasing at the rate of approximately 8% per year on the inter-county ferry. He recalled that both Counties have been trying for eight to ten years to build a bridge across the river at Lambert Bend but were unsuccessful. He mentioned that the ferry traffic is especially

heavy on weekends. With the reduction of property tax revenue facing the Counties, it makes it prudent to ask the State for assistance in providing transportation service. Mr. Armstrong said that the Yamhill County Board of Commissioners feels it is timely to request the Department to take over the ownership and operation of the Wheatland Ferry. (He referred to a letter dated October 20, 1978, from Yamhill County to Mr. Burco. Copy on file in the Commission's files, Salem.)

Mr. Anderson referred to a joint document which gives a brief description and history of the ferry. (Copy of document on file in the Commission's files, Salem.) He said vehicular traffic was 239,292 in 1977, and pointed out that pedestrian traffic will most likely increase on the ferry after the park is opened. He said due to the waiting time to use the ferry, vehicles will leave and use a bridge to cross the river at Newberg or Salem. He said because of this a study should be made of the energy cost to go to another crossing of the river. He indicated the County would like to continue the study a little longer.

Chairman Jackson stated that in view of previous efforts in trying to get a bridge constructed and with the cost of a bridge at the present prices, the Department certainly should take a good look at putting in an additional ferry to handle the traffic. The Commission asked Mr. Talbot to work with the two Counties to see what might be done and to report back to the Commission with a recommendation. Commissioner Brix said he would be willing to help Mr. Talbot on this matter.

Mr. Talbot recommended and the Commission gave their approval for the Department to hold a hearing regarding adoption of a rule under the Administrative Procedures Act setting forth the criteria or standards to be used in establishing zones on the ocean shore where travel by motor vehicles or landing of any aircraft except for an emergency shall be restricted or prohibited (Ocean Shore Zoning Policy). (The hearings will be held on January 2 and 3, 1979.) Notice of the proposed rule was published in the Secretary of State's Administrative Rule Bulletin on December 15, 1978.

City Councillor Paula Bentley of Gresham appeared before the Commission regarding the proposed realignment of Powell Boulevard at 190th. Mrs. Bentley presented a brief history of the intersection and handed copies to the Commission of Mr. Bothman's letter to the City of Gresham, with enclosures, dated October 18, 1978. (Copy on file in the Commission's files, Salem.) She stated the Gresham Planning Commission approved a subdivision plat which is partially in the proposed right of way for the realignment of Powell. The Planning Commission's decision has been appealed. The City Council, she said, will tonight be asked to make a decision of approving a plat. If the City denies it, the developer has reason to sue the

City of Gresham for a potential inverse condemnation case. If the City approves the plat, it not only will cut off a potential solution to the problem, but any citizen of the City of Gresham can sue the City for not following its comprehensive plan.

Mrs. Bentley stated the City is asking the Commission for \$80,000 to purchase the right of way for potential improvement of a State highway project. If this is not possible, she said, the City is requesting that the Department include in their revised budget to the Legislature the money to purchase the right of way for this piece only. She indicated the City's need is immediate. The Chairman stated this matter has been discussed with Mr. Bothman, and he will contact the City in an attempt to come up with a reasonable solution and will report back to the Commission at a future meeting.

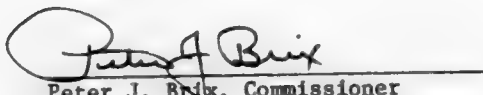

Mr. B. A. Hanten of Merlin came before the Commission requesting a hearing to appeal an administrative decision regarding the Rogue River Scenic Waterway in Josephine County made by the Parks Branch concerning a moratorium on river trips. He stated the Parks and Recreation Branch entered into a four-party agreement with the Marine Board, Forest Service, and Bureau of Land Management to administer the Rogue River. In 1973 the Federal Government put a moratorium on the usage of the Rogue River by commercial operators. During 1973, he said, without any intervention or control, he took 21 boat trips. The 1973 usage according to the BLM's moratorium, he said, was to be his usage base from that point on. This past season, Mr. Hanten said he was authorized only 20 base trips and the previous season only 19 trips. He mentioned the BLM reasons for this are very complex in nature and are mixed up with many regulation and definition changes. Mr. Hanten stated that he appealed to the BLM, but was told he was wrong. He then appealed to the Marine Board, which upheld his contention that he was treated unfairly and voted that he should have his original base of 21 trips reinstated. This matter was brought up and voted on at the next four-agency meeting, and the Marine Board upheld his appeal but the Highway Division, the Forest Service and BLM denied the appeal. Mr. Hanten said that his next move was to appeal Mr. Bob Potter's administrative decision to the Transportation Commission. Mr. Potter denied the appeal and turned it over to the Attorney General's office. He mentioned that if the Commission did not wish to grant an appeals hearing, he would request the Commission to direct Wally Hibbard to change Mr. Potter's vote and uphold his appeal to the Marine Board. (Copy of Mr. Hanten's letter on file in the Commission's files, Salem.)

After considerable discussion, and during the Chairman's absence, Vice Chairman Hollern asked Mr. Sollis for a legal opinion of the Commission's jurisdiction and to report at the next meeting. Mr. Talbot stated that a staff report would be submitted to the Commission prior to the December meeting.

The meeting adjourned at 11:50 a.m.

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following items and report this action for your official records:

- 1) On October 6, 1978, approved a Memorandum of Understanding with the U. S. Forest Service whereby the State agrees to accept jurisdiction of the Austin-Sumpter Road after the Forest Service improves the road to acceptable standards. (Aka Tipton Road Project) Baker & Grant Counties.
- 2) On October 6, 1978, approved an agreement with the City of Portland for development of the East Marquam Bridge Interchange on the Pacific Highway. City personnel from the Bureaus of Planning, Traffic and Streets and Structures will provide engineering assistance during development of the project. The City budget is limited to \$20,000. The purpose of the agreement is to allow reimbursement with Federal-aid Interstate Funds.

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records.

On July 19, 1978, approved an agreement with Bernard D. and Mai Jackson to develop and manage a recreational vehicle campground on their property within the Rogue River Scenic Waterway in Curry County.

On October 4, 1978, approved a supplemental agreement with Bernard D. and Mai Jackson to amend the July 19 agreement by substituting the words "thirty (30) day" for the words "three-month" in reference to the term of each tenancy in the campground. This amendment was necessitated by requirements of the United States Small Business Administration. (Curry County)

On October 3, 1978, approved Steve Mueller's application to drill a well and build a storage facility within the Clackamas River Scenic Waterway. (Clackamas County)

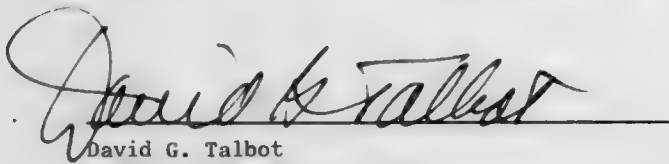

On October 3, 1978, approved George Sinnaev's proposal to construct a single-family residence within the Rogue River Scenic Waterway. (Josephine County)

On October 3, 1978, approved Sumner Knight's proposal to construct a single-family residence within the Clackamas River Scenic Waterway. (Clackamas County)

On October 4, 1978, approved Trenor Scott's proposal to construct a single-family residence within the Rogue River Scenic Waterway. (Josephine County)

On October 19, 1978, approved Steve Mueller's proposal to construct single-family residences on two lots within the Clackamas River Scenic Waterway. (Clackamas County)

Dated this 6 day of November 1978

FROM: David G. Talbot
State Parks Superintendent
SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official record:

On September 8, 1978, approved Ramon Barnett's application to remove an existing house and replace it with a mobile home within the Rogue River Scenic Waterway. (Josephine County)

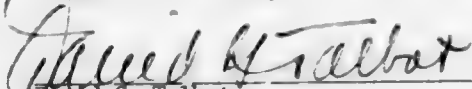

On September 8, 1978, approved Ken Allen's application to construct a storage shed for an airplane within the Rogue River Scenic Waterway. (Josephine County)

On September 8, 1978, approved Estacada Rock's application to construct a metal garage within the Clackamas River Scenic Waterway. (Clackamas County)

On September 11, 1978, approved Carl Reed's application to place a mobile home within the Rogue River Scenic Waterway. (Josephine County)

On September 26, 1978, approved Roland Neuman's application to construct a single-family residence within the Clackamas River Scenic Waterway. (Clackamas County)

Dated this 23rd day of October, 1978.

TO: Oregon Transportation Commission MINUTES OF 11-28-78
SUBJECT: Report of Action Taken Under Delegated Authority

At your meeting on October 18, 1977, you authorized the State Parks Superintendent or his designate to sign grant-in-aid project agreements. The State Parks Superintendent on November 1, 1977, authorized me to sign these agreements. Pursuant to that authority, and acting in accordance therewith, I approved the following grant-in-aid projects and report them for your official records.

August 2, 1978 - Jackson County - Sports Park Drag Strip - \$16,025.00.

August 2, 1978 - City of Milton-Freewater, Umatilla County - North Main Street Park Improvement - \$4,000.00.

June 20, 1978 - City of Aurora, Marion County - Aurora City Park Picnic Shelter - \$1,250.00

July 17, 1978 - City of Lakeview, Lake County - South End Tennis Courts - \$5,125.00

September 15, 1978 - City of Joseph, Wallowa County - City Park - \$1,130.00.

September 17, 1978 - City of Milwaukie, Clackamas County - Rowe Junior High Tennis Court - \$3,074.00.

October 2, 1978 - City of Jefferson, Marion County - Community Park Development - \$3,500.00.

October 11, 1978 - City of Antelope, Wasco County - Antelope Park Construction - \$2,175.00.

October 17, 1978 - Malheur County - Cherry Creek Boat Ramp - \$2,464.33.

November 6, 1978 - City of Wallowa, Wallowa County - Wallowa City Park Improvement - \$548.75.

November 6, 1978 - City of Union, Union County - City Park Restrooms - \$1,960.75.

November 7, 1978 - Tualatin Hills Park and Recreation District - Ridgewood Open Space Development - \$6,953.00, Washington County.

November 7, 1978 - City of North Powder - North Powder City Park - \$1,000.00 - Union County.

Dated this 16 day of November, 1978.

MINUTES OF 11-28-78

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7656 Eve Sorokin v. H. Scott Coulter, et al.: This is a personal injury case arising out of an accident that occurred on September 26, 1977 in which the plaintiff allegedly fell down the steps while going from the "Bloch Memorial Wayside" to the beach in Lincoln County. The plaintiff alleges that the steps were wet and slimy and there was not adequate handrail on the steps. The plaintiff has sued both the State and Lincoln County. The amount of the lawsuit is \$80,551.29. The matter has been referred to the Attorney General's office for the defense of the State.

L-7657 H. C. Lesley, et ux. v. State of Oregon: This is an inverse condemnation case in Morrow County. The plaintiff alleges that on July 17, 1978, the State diverted water onto the defendant's land together with mud, rocks and debris damaging plaintiff's land in the amount of \$5,000. The matter has been referred to the Attorney General's office for the defense of the State.

L-7658 A. D. Fleming, et ux. v. State of Oregon: This is an inverse condemnation case in Grant County. The plaintiff alleges that on July 2, 1978 the State diverted water onto the defendant's land along with mud, rocks and debris damaging the plaintiff's property in the amount of \$5,500. The matter has been referred to the Attorney General's office for the defense of the State.

L-7659 Judi C. Dials v. Highway Division: This case arises out of an accident that occurred on May 24, 1977 on the Steel Bridge in Portland, Oregon. The plaintiff alleges that her car slid on an oil-slick on the roadway surface and collided with the side of the bridge. The plaintiff alleges that the Highway Division was negligent in failing to properly inspect the bridge for hazardous substances and failing to warn the plaintiff of the hazard. The amount of the lawsuit is \$13,147.04. The matter has been referred to the Attorney General's office for the defense of the State.

L-7677 State of Oregon v. Motor Vessel Marie Bakke: This lawsuit was filed in the United States District Court for the District of Oregon against the above ship as a result of its collision with the Fremont Bridge on November 2, 1978. The vessel collided with the Fremont Bridge and damages were estimated at somewhat in excess of \$50,000. The purpose of filing the lawsuit was to require the defendants to post a bond or letter of credit to cover the damages before the vessel left port. The matter is in the hands of the Attorney General's office and they will pursue it and collect for the damages to the bridge.

SUBJECT: Agenda Item for Commission Meeting November 28, 1978
(Actions by Aeronautics Administrator under delegated authority)

The following information report is submitted concerning real property actions I have taken under the authority delegated to me by Commission Order No. 18.

This will appear in the agenda as an information item only.

- 1) On April 14, 1977, executed a Right-of-Way Easement from Oregon State Aeronautics Division (OSAD) to Pacific Power & Light Company for underground power lines to hangar sites at the Siletz Bay State Airport.
- 2) On April 27, 1977, executed a 1-year lease between OSAD and Alan L. Weldon for Hangar Site #2 at the Lakeside State Airport.
- 3) On May 6, 1977, executed a 3-year Ingress/Egress Permit for agricultural spray operations of John W. Shearer and Barbara L. Shearer, dba Shearer Sprayers at the Wasco State Airport.
- 4) On May 19, 1977, approved a Release signed by Eva Harris releasing OSAD (as owner of the John Day State Airport) and the City of John Day (lessee-manager of airport) from all liability arising from Ms. Harris's storage of a glider aircraft on airport property.

-2-

November 20, 1978

- 5) On May 31, 1977, executed a 4-month Commercial Concession Agreement between OSAD and Mark Christen covering a scenic flight operation at the Siletz Bay State Airport.
- 6) On June 3, 1977, executed a 1-year Flying Service Lease between OSAD and C. H. "Pete" Ketcham, dba Bar-B Flying Service covering fixed base operations at the Prospect State Airport.
- 7) On June 17, 1977, approved an Assignment of Lease from Melvin R. Paulus, et al, to Nolan E. Meister covering Hangar Site E-7 at the Lebanon State Airport.
- 8) On June 21, 1977, approved an Assignment of Lease from Fred L. Mountain to Will Davis and Ruth E. McClellan covering Hangar Site W-8 at the Lebanon State Airport.
- 9) On June 28, 1977, executed a 4-year, 7-month Farming Lease between OSAD and William J. Nicks, covering state-owned land to be farmed at the Independence State Airport.
- 10) On July 7, 1978, executed a Right-of-Way Easement from OSAD to General Telephone Company of the Northwest, Inc. for installation of a pay phone at the Cape Blanco State Airport.
- 11) On July 11, 1977, executed a Professional Services Agreement in the amount of \$400 with H. P. Saabye, Architect, for architectural services relative to remodeling of a portion of OSAD offices.
- 12) On August 5, 1977, executed a Quitclaim Deed from OSAD to Michele Quaglia and Mary Quaglia, husband and wife, transferring a portion of the vacated Thornton Road adjacent to the Cottage Grove State Airport.
- 13) On August 22, 1977, executed a 6-month Operations Site Lease between OSAD and Frank J. Miller covering Operations Site #1 at the Joseph State Airport for limited commercial purposes relating to Mr. Miller's United States Forest Service contract.
- 14) On September 21, 1977, executed a lease between OSAD and James H. Henkel covering Hangar Site #3 at the Toledo State Airport.
- 15) On October 5, 1977, executed a 5-year lease between OSAD and Louis F. Hill covering Hangar Site E-2 at the Lebanon State Airport.
- 16) On October 31, 1977, executed an 5-year Ingress/Egress Permit between OSAD and Henry J. Pruitt at the Cottage Grove State Airport.

November 20, 1978

- 17) On November 3, 1977, executed an Application to the City of Lebanon, Oregon, for annexation of the Lebanon State Airport.
- 18) On November 7, 1977, executed a Professional Services Agreement with Malcolm Miner, P.E., in the amount of \$600 for a Layout Plan Report for the Toledo State Airport.
- 19) On November 14, 1977, executed a 1-year Tree Cutting Permit from OSAD to Harold L. Knapp at the Cape Blanco State Airport.
- 20) On November 18, 1977, approved an Assignment of Lease from Ro-Mar Development Co., Inc., to Warren C. Phillips covering Hangar Site #1 at the Siletz Bay State Airport.
- 21) On November 18, 1977, executed a 5-year lease between OSAD and Ro-Mar Development Co., Inc., covering Hangar Site #3 at the Siletz Bay State Airport.
- 22) On December 7, 1977, executed a 5-year lease between OSAD and James Oveross covering Hangar Site #4 at the Siletz Bay State Airport.
- 23) On December 20, 1977, executed a Flying Service Lease between OSAD and Lebanon Flyways, Inc. for a term of 10 years, with two 10-year options, covering fixed base operations at the Lebanon State Airport.
- 24) On December 20, 1977, executed a Termination of Flying Service Lease between OSAD and Flyways, Inc., covering fixed base operations at the Lebanon State Airport.
- 25) On December 23, 1977, executed a 5-year Ingress/Egress Permit between OSAD and Tri-Flying, Inc., covering fixed base operations at the Tri-City State Airport.
- 26) On January 9, 1978, executed an Option for purchase of the C. W. Snyder property (21.42 acres) for \$171,500 at the Aurora State Airport.
- 27) On January 11, 1978, executed a 5-year lease between OSAD and John A. Atchley, Jr. covering Hangar Site S-1 at the Lebanon State Airport.
- 28) On January 24, 1978, executed a lease between OSAD and Bruce C. Parsons covering Hangar Site #2 at the Toledo State Airport.

- 29) On January 27, 1978, executed a 5-year lease between OSAD and Ian B. Jamieson covering Hangar Site "C" at the Condon State Airport.
- 30) On February 1, 1978, executed a Utility Easement from OSAD to Pacific City Sanitary District for construction of a sanitary lift station at the Pacific City State Airport.
- 31) On February 16, 1978, executed a 1-year Ingress/Egress Permit between OSAD and Walter M. Bennett and Vera L. Bennett and Aurora Aviation, Inc., at the Aurora State Airport.
- 32) On February 16, 1978, executed a 1-year Ingress/Egress Permit between OSAD and Reel Properties, Inc., at the Aurora State Airport.
- 33) On February 16, 1978, executed a 1-year Ingress/Egress Permit between OSAD and Wylie L. Campbell, Duane Bidgood and Paul D. Nichols at the Aurora State Airport.
- 34) On March 1, 1978, executed a 5-year lease between OSAD and Timothy A. Lunceford covering Hangar Site E-15 at the Lebanon State Airport.
- 35) On March 1, 1978, executed a 5-year lease between OSAD and Edward J. Zollner and Donald R. Hallock covering Hangar Site W-14 at the Lebanon State Airport.
- 36) On April 12, 1978, executed a 5-year Flying Service Lease between OSAD and Jensen Aviation Enterprises, Inc. covering fixed base operations at the Cottage Grove State Airport.
- 37) On April 14, 1978, executed a 5-month Commercial Concession Agreement between OSAD and Mark Christen covering a scenic flight operation at the Siletz Bay State Airport.
- 38) On April 28, 1978, approved an Assignment of Lease from Strawberry Fair Committee to Claude Dahl covering Hangar Site W-12 at the Lebanon State Airport.
- 39) On April 28, 1978, executed a 5-year Flying Service Lease between OSAD and Curtis W. Davison and William L. Cowan covering fixed base operations at the Oakridge State Airport.

- 40) On May 2, 1978, executed a 5-year Mobile Home Site Lease between OSAD and Wayne D. Bailey, principal of Mid-Valley Airservice, Inc., fixed base operator at the Independence State Airport. This site is for use as caretaker's quarters for airport surveillance and additional office space for the fixed base operation.
- 41) On May 17, 1978, executed a Month-to-Month Storage Site Tenancy Agreement between OSAD and Terry Ray Brown for storage of his aircraft at the Lebanon State Airport in relation to his agricultural spray operations.
- 42) On June 5, 1978, executed Addendum #1 to the Utility Easement given by OSAD to the Pacific City Sanitary District. This addendum covered modification of the pump chamber.
- 43) On June 14, 1978, executed a 1-year Farming Lease between OSAD and Joe L. Gilbert, covering State-owned land to be farmed at the Lebanon State Airport.
- 44) On June 23, 1978, executed Addendum #1 to Hangar Site Lease between OSAD and James H. Henkel covering Hangar Site #3 at the Toledo State Airport.
- 45) On June 23, 1978, executed a Right-of-Way Easement from OSAD to Pacific Power and Light Company covering an underground primary, pad-mount transformer and services at the Independence State Airport.
- 46) On July 5, 1978, executed a 5-year lease between OSAD and Jack H. Morris covering Hangar Site "B" at the Cape Blanco State Airport.
- 47) On July 6, 1978, executed a Commercial Concession Agreement between OSAD and Donald G. Zalonis covering aircraft maintenance and limited helicopter air taxi service at the Independence State Airport.
- 48) On September 14, 1978, executed a 5-year lease between OSAD and Aero Storage, Inc., covering Hangar Site #2 at the Joseph State Airport.
- 49) On September 14, 1978, executed a 2-year, 11-month Fueling Facility Site Lease between OSAD and Phyllis Wolfe, off-airport fixed base operator at the Beaver Marsh State Airport.

- 50) On September 29, 1978, approved an Assignment of the Farming Lease at the Tri-City State Airport from the Estate of James E. Lewis, Deceased, to Noel G. Manley.
- 51) On October 3, 1978, approved (on behalf of Aeronautics as owner of the John Day State Airport) a 5-year Hangar Site Lease between the City of John Day (airport manager) and Royel L. Allen covering Hangar Site #4 at the airport.
- 52) On October 3, 1978, executed a 5-year lease between OSAD and Ben Johnson covering a 6,908.25 sq. ft. site at the Joseph State Airport.
- 53) On October 5, 1978, executed a Utility Easement from OSAD to Kernville-Gleneden Beach-Lincoln Beach Water District for a water line to the Siletz Bay State Airport.
- 54) On October 19, 1978, executed a 3-year lease between OSAD and Anthony F. Roe covering Hangar Site "A" at the Cape Blanco State Airport.
- 55) On October 24, 1978, approved an Assignment of Lease from Nolan E. Meister to Steven M. and Diane S. Christensen covering Hangar Site E-7 at the Lebanon State Airport.
- 56) On October 25, 1978, executed a 5-year lease between OSAD and Ellis Hallman covering Hangar Site W-9 at the Lebanon State Airport.
- 57) On November 1, 1978, approved an Assignment of Lease from Ronald G. Fisher to Robert E. Johnson covering Hangar Site #E-12 at the Lebanon State Airport.
- 58) On November 13, 1978, executed a 5-year lease between OSAD and Richard E. Casmey covering Hangar Site #3 at the Independence State Airport.
- 59) On November 13, 1978, executed a Utility Easement from OSAD to General Telephone Company of the Northwest, Inc., covering installation of phone service to the caretaker's quarters at the Cape Blanco State Airport.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
NOVEMBER 30, 1978

November 30, 1978
Salem, Oregon

The Oregon Transportation Commission held a telephone conference meeting at 10 a.m. originating in Room 140 of the Transportation Building in Salem. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Peter J. Brix, Member, Portland
B. Gordon Coleman, Member, Eugene
Tom Walsh, Member, Portland
F. B. Klaboe, Chief of Operations, Salem
Larry Rulien, Assistant Director for Transportation Policy
and Program Development, Salem
George Bell, Manager of Intergovernmental and Public
Affairs, Salem
E. S. Hunter, Manager of Technical Services, Salem
Jack Sollis, Chief Counsel, Salem
C. W. Head, Manager, Commission Services, Salem

There were representatives of the news media present.

Chairman Jackson said the meeting was called to appoint a successor to Robert Burco, who has resigned as Director effective January 8, 1979. He stated that Mr. Burco is going to be out of the State for a major portion of the time between now and his termination date and to eliminate any uncertainty, his successor should be named at this time.

The Chairman said the recommendation is that Fred Klaboe be named to replace Mr. Burco. It was a unanimous vote of the four Commissioners that Mr. Klaboe be appointed Director of the Department of Transportation, effective January 9, 1979, subject to the approval of the Senate Confirmation Committee.

The telephone meeting adjourned at 10:05 a.m.

Glenn L. Jackson, Chairman

Michael P. Hollern, Vice Chairman

Peter J. Brix, Commissioner

B. Gordon Coleman, Commissioner

Tom Walsh, Commissioner

C. W. Head, Manager
Commission Services

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
DECEMBER 19, 1978

December 19, 1978
Salem, Oregon

The Oregon Transportation Commission met in the Conference Room 122, Transportation Building, at 10 a.m. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
Tom Walsh, Member
Robert A. Burco, Director of Transportation
F. B. Klaboe, Chief of Operations
Jack Sollis, Chief Counsel
H. S. Coulter, State Highway Engineer
Harold Grover, Administrator of Motor Vehicles
Dave Talbot, State Parks Superintendent
Roger Ritchey, Deputy Administrator of Aeronautics
E. S. Hunter, Manager of Technical Services
Bob Bothman, Administrator of Metropolitan Branch
Glen Green, Federal Highway Administration
Dennis Moore, Administrator of Public Transit
C. W. Head, Manager, Commission Services

There were others present including representatives of the news media.

The Commission unanimously approved the following items on the consent calendar as presented by Mr. Klaboe:

- 1) Minutes of the meeting of November 28, 1978, and the telephone meeting of November 30, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2680" on file in the Commission's files, Salem.)
- 3) Apportionment of the balance of Fiscal Year 1979 Metropolitan Planning Funds to Portland, Salem, and the Eugene-Springfield Area. (On July 18, 1978, the Commission allocated the apportionment of Metropolitan Planning Funds for Oregon derived from Fiscal Year 1979 Interstate Funds. The balance of Fiscal Year 1979 funds now available for allocation is \$106,993.) The Commission approved the following allocation to the three metropolitan areas allocated on the same basis as the July 18, 1978, allocation:

(Continued on next page.)

| <u>Area</u> | <u>Base</u> | <u>Distributed
on
Population</u> | <u>Total
Federal
Funds</u> | <u>State
Match</u> | <u>Total</u> |
|--------------------|------------------|--|------------------------------------|------------------------|------------------|
| Portland | \$17,832.16 | \$35,949.65 | \$ 53,781.81 | \$13,445.45 | \$ 67,227.26 |
| Salem | 17,832.17 | 8,184.96 | 26,017.13 | 6,504.28 | 32,521.41 |
| Spgfld.-
Eugene | <u>17,832.17</u> | <u>9,361.89</u> | <u>27,194.06</u> | <u>6,798.52</u> | <u>33,992.58</u> |
| Total | \$53,496.50 | \$53,496.50 | \$106,993.00 | \$26,748.25 | \$133,741.25 |

(Authorized Assistant Director for Operations to sign supplemental agreements with Lane Council of Governments, CRAG and the Mid-Willamette Valley Council of Governments.)

- 4) Adopted survey on North Tigard Interchange-South Tigard Interchange Section of the Pacific Highway in Multnomah, Clackamas and Washington Counties. ("Highway Corridor & Design Resolution No. 430" on file in the Commission's files, Salem.)
- 5) Agreement with Ben C. Gerwick, Jr., for engineering consulting services during the construction of the South Channel Structure of the Columbia River Bridge on I-205 in Multnomah County. Maximum cost is \$49,000.
- 6) Agreement with the U. S. Geological Survey to provide stream gaging and flood runoff data for small drainage basins of 10 square miles or less throughout the State. Financed by HPR funds in the amount of \$26,000 for fiscal year 1979. (Authorized State Highway Engineer to sign letter agreement.)
- 7) Project utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway to provide improvements on Oatfield Road at the intersections of Courtney Avenue, Hill Road, Thiessen Road and Rothe Road in Clackamas County. Interstate Transfer Funds for this project estimated at \$121,125, with Clackamas County providing all of the required \$21,375 of local match. (Authorized State Highway Engineer to sign necessary agreement.)
- 8) Replacement of a structure over Herman Creek on Forest Lane in Hood River County. Federal Bridge Replacement Funds for the project estimated at \$87,650 with the local government providing approximately \$21,910 in match funds. (Authorized State Highway Engineer to sign the necessary project agreement.)

- 9) Authorized increases in project authorizations on the following contracts:
 - a. Contract No. 8744 for work on Church Street-Mill Street (Silverton) Section of Cascade Highway in Marion County, in the amount of \$17,559. (10.4% increase)
 - b. Contract No. 8442 for improvement to Deadmans Pass Safety Rest Area on the Old Oregon Trail in Umatilla County, in the amount of \$17,763. (15.1% increase)
- 10) Membership in the Pacific Northwest Travel Association in the amount of \$4,000 for this fiscal year.
- 11) Transferred the State's share of Federal Aid in the amount of \$735,000 to the City of Portland for the Pioneer Square Project (converting the Meier and Frank Parking block to a downtown park).
- 12) Supplemental agreements covering experimental transportation projects increasing general fund support to Yamhill County to a maximum contract total of \$24,195 and decreasing general fund support to the City of Woodburn to a total of \$13,514.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

DIRECTOR'S REPORT

Mr. Sollis presented an update of the proposed bills for the 1979 Legislature. He stated the deadline for filing legislation was December 15, 1978. A total of 27 bills have been presented for the Legislators' consideration. Mr. Sollis requested the Commission's approval of amending a bill that was passed in the last Legislature pertaining to the handling of voter registration cards by the Motor Vehicles Division. He felt the cost to handle and mail to the County Clerks voter registration cards is probably an improper expenditure of dedicated funds. The Commission gave their approval to the amendment of the statute.

Mr. Sollis pointed out that the Attorney General's office has introduced a bill relating to gas tax refunds to cities and counties.

Mr. Burco reported on his recent meeting in Washington, D. C. with the Secretary of Transportation, the Federal Highway Administration and UMTA concerning their proposal for a Surface Transportation Administration, which would merge the Federal Highway Administration and UMTA. He said they are expecting a response from the President's office within the next couple of weeks.

Mr. Burco presented and commented on the following issues now in process which he has undertaken within the last year or so as Director:

- 1) Administrative Costs of Federal Aid Highway Projects
- 2) Access Control
- 3) Technological Upgrading Productivity of Motor Vehicles Division Personnel
- 4) Engineering Jobs
- 5) Grass Roots Public Opinion
- 6) Financial Management - Six Year Program
- 7) Staff Development

(Mr. Burco's letter dated 12-19-78 to the Commission on file in the Commission's files, Salem.)

The Commission set Tuesday, January 16, 1979, for their next meeting.

The Commission expressed to Mr. Burco their appreciation for his contribution to the development of the various programs and his leadership in reaching a better understanding and relationship, particularly at the Federal level, while he has been Director. The Commission wished Mr. Burco success in his future operations. (Mr. Burco resigned as Director effective January 8, 1979.)

OPERATIONS

Mr. Peter Cass, Manager of Tri-Met, reported on the light rail proposal for the Banfield Transitway in Multnomah County. Mr. Cass asked for the Commission's support of the Banfield Project in general, and the light rail project as a part of it. He pointed out that CRAG at its November 1978 meeting voted unanimously to give its consent to the project. Mr. Cass asked for support of a resolution that has been presented to the Commission which is necessary in the process for Federal funding of the project. He stated that Tri-Met has a ridership today to support the project. Mr. Cass mentioned that they had outside agencies from San Francisco and Philadelphia take a look at the cost of construction. Each firm did take an independent study of the proposal and both came in with almost the same in terms of total cost. Mr. Cass discussed and referred to charts concerning operating costs.

After considerable discussion, the Commission unanimously adopted the following resolution which was read by Mr. Sollis:

RESOLUTION

WHEREAS, the Board of Directors of the Tri-County Metropolitan Transportation District of Oregon (Tri-Met), the Multnomah County Board of Commissioners, the Common Council of the City of Gresham and the Portland City Council have resolved that the Banfield/Burnside light rail Alternative 5-1b between downtown Portland and downtown Gresham be constructed together with a six-lane Banfield Freeway between I-5 and I-205.

WHEREAS, the Metropolitan Planning Organization (Columbia Region Association of Governments) finds the recommended Alternative 5-1b in accord with and entitled to priority under the 23 USC 134 planning process and consistent with the regional policies and objectives established in the interim transportation plan; and

WHEREAS, the reconstruction of the Banfield Freeway is a joint and cooperative approach involving both highway and transit improvements; and

WHEREAS, widening of the Banfield Freeway to six standard width lanes with shoulders from I-5 to I-205 is necessary; and

WHEREAS, acquisition of additional right of way and reconstruction of overpasses is required to accommodate the overall project;

mm

THEREFORE BE IT RESOLVED the Oregon Transportation Commission is supportive of the decisions of the responsible subdivisions of government and will cooperate in the development of this project; and

BE IT FURTHER RESOLVED, the Oregon Transportation Commission approves the use of State Highway Trust Funds for matching Federal Interstate Transfer Funds necessary for the freeway widening portion only, including acquisition of right of way, replacement of overpasses and construction of six standard width lanes with shoulders on the Banfield Freeway between I-5 and I-205, and the replacement of the upper deck on the Steel Bridge. No matching funds attributable to the transit portion of the Banfield will be provided from State Highway Trust Funds.

This resolution shall be entered in the minutes and records of the Commission as Miscellaneous Resolution No. 263 this 19th day of December, 1978.

Mr. Klaboe stated that last week the Department presented its 1979-81 Budget Appeals to the Executive Department concerning various items which were previously removed from the budget. He mentioned that there were 23 appeals, most of which were disallowed. He commented briefly on the following budget items which were restored:

| | |
|------------------|---|
| Highway | Banfield Transitway Project |
| Aeronautics | Reduced Level Budget Services and Supplies |
| Aeronautics | Airport Inspection Aviation Safety, Search & Rescue |
| Public Transit | Full Participation in Transit Development Programs for Lane Transit and Salem Transit Systems |
| Highway | Tourism Promotion |
| Public Transit | Approximately half (\$18,864) of Intercity Signs and Shelters |
| Parks | Solar Energy Project (Federal Monies only) |
| Central Services | Crash Injury Training Program |
| Parks | St. Mary's Wood acquisition, Washington County. (Mr. Klaboe mentioned that \$20,000 is in the budget to continue work on that acquisition to see what can be done.) |

Mr. John Sheldrake, Highway Division Maintenance Operations Engineer, reported on the December 13, 1978, Winter Recreation Advisory Committee meeting and presented copies of their minutes. (Copy of minutes on file in the Commission's files, Salem.) Mr. Sheldrake said the Committee has recommended that the following items be presented to the Commission for its consideration:

- a. Designate as Sno-Parks two small off-highway parking areas only near the North Powder River Bridge on the Haines-Anthony Highway No. 411 between M.P. 2.51 and M.P. 2.60 in Baker County. (\$400 estimated annual cost)

(Continued on next page.)

- b. Removing the designation as Sno-Parks of three small areas on I-80N frontage road (old highway) near Meacham in Umatilla County.
- c. Designate as Snow-Park area both sides of the Weston-Elgin Highway No. 330, ORE204, M.P. 19.8, Langdon Lake areas, in Umatilla County. (\$3,000 estimated plowing cost)
- d. Sign the Spout Springs Ski area lot in Union County to read "No Trailer Parking Allowed". Mr. Sheldrake suggested that this matter be referred to staff and that it be discussed with Mr. George, Traffic Engineer, to work out the problem.

The Commission approved the above Items A, B and C, and accepted Mr. Sheldrake's recommendation for the staff to study Item D.

Following Mr. Coulter's recommendation, the Commission adopted a temporary rule establishing criteria for the State Highway Engineer to follow in imposing weight restrictions for vehicles or combinations of vehicles operating on any State highway which may be necessary to protect the highway from being unduly damaged. (Copy of rule on file in the Commission's files, Salem, as "Permit Rule No. 40". Temporary rule filed with the Secretary of State on December 19, 1978, and was published in the Administrative Rules Bulletin on January 1, 1979. A public hearing date will be set later.)

The Commission considered the possibility of the State purchasing traffic signal materials rather than the contractor to shorten the time necessary to install traffic signals. Mr. Coulter mentioned that it seemed advantageous to do this as there is considerable delay in acquiring materials for traffic signal jobs. It now takes approximately 180 days after a job is awarded to get all of the necessary materials on the job. He indicated additional checking is advisable with the Public Contract Review Board, contracting fraternity and material suppliers concerning the impact of the State doing all the purchasing of the materials. Mr. Coulter also mentioned an agreement with the Federal Highway Administration would be necessary, as the majority of traffic signal projects are done with Federal Aid funds. Following discussion of this matter, the Commission asked Mr. Coulter for a final report after he completes his investigation.

Mr. Talbot requested approval to hold public hearings in January 1979, under the Administrative Procedures Act concerning proposed administrative rules on the following:

- 1) Increasing overnight camping fees in State parks
- 2) Establishing fees and regulations for group day use in State parks
- 3) Revising the advance reservation system for State park campsites
- 4) Establishing new fees and regulations for the use of special group facilities at Silver Falls, Emigrant Springs and Shore Acres State Parks

Mr. Talbot asked authority to include in these hearings the proposed matter of implementing the day user fee for State parks. He said this advice from the public as to the day use fee concept will be helpful in discussions with the Legislature. Mr. Talbot said after the hearings are held, the Commission will be advised of the results and recommendations will be presented for approval at a future meeting. The Commission gave their approval to proceed with the hearings.

Following Mr. Talbot's favorable recommendation, the Commission approved the reappointment of Rudy Enbysk and Yvonne Addington to the Special Projects Fund Advisory Committee, extending their terms to December 31, 1981.

Mr. Talbot recalled that one of the problems associated with the \$2 non-resident surcharge was the conflict with the Corps of Engineers' policy. He mentioned the Corps stated that the surcharge is discriminatory and therefore cannot be imposed on Corps' project recreation lands being managed by the State, namely, Stewart State Park and Lost Creek Reservoir on the Upper Rogue River in Jackson County. Following Mr. Talbot's recommendation, the Commission authorized the Parks Branch to join the States of Washington and Idaho in an effort to clarify and, in effect, change the Corps of Engineers' policy on the non-resident surcharge issue.

The Commission considered a request from William Welbourne to construct a residence at the mouth of Picket Creek located on the left bank of the Rogue River approximately one-half mile downstream from the Robertson Bridge within the Rogue River Scenic Waterway in Josephine County. Mr. Talbot said the building site will be located in a site designated by the Bureau of Land Management as an area offering the optimum in vegetative screening from view from the river. The existing housing density in this river

mile is 12 and the Commission rules allow for a density of 4 per river mile. Mr. Talbot recommended and the Commission approved the request contingent upon compliance with the following stipulations:

- 1) All vegetation screening the site from the view from the river shall be maintained.
- 2) The house and any related structures shall be located at a site agreed to by the Bureau of Land Management and consistent with Josephine County planning requirements.
- 3) Construction shall begin within one year and the exterior shall be completed within six months after it is commenced.
- 4) All Josephine County planning and sanitation requirements shall be satisfied.
- 5) The Commission shall be notified when construction begins and when the exterior has been completed.

Attention was given to a request from Kenneth Klar to construct a block house on the left bank of the Rogue River across from Finley Bend in river mile 88 in Josephine County. Mr. Talbot said Mr. Klar received approval to construct a single family residence from the Commission at its October 28, 1975 meeting but was unable to meet the construction deadline. Mr. Klar has resubmitted his proposal and has changed his construction design from an A-frame to a block house, but has not altered the exterior dimensions nor colors. The Commission approved the request as recommended by Mr. Talbot subject to the following stipulations:

- 1) All requirements of the Josephine County Planning Department shall be satisfied.
- 2) All sanitation regulations shall be satisfied.
- 3) Construction shall begin within one year and exterior work shall be completed within six months after it is commenced.
- 4) The Commission shall be notified when work begins and when exterior work is completed.
- 5) In consideration of the variance to the rules and regulations granted by the Commission to permit construction of a single-family residence, the owner shall grant to the State an easement agreement insuring that all trees screening the site from view from the river shall be maintained, and that the placement of a small travel trailer during construction is temporary and will be removed upon completion of the house or in two years, whichever shall come first.

Commissioner Hollern inquired about the follow-up of Mr. B. A. Hanten's request from the November 28, 1978, meeting for a hearing to appeal an administrative decision concerning the Rogue River Scenic Waterway in Josephine County. Mr. Talbot replied that Mr. Hanten had asked that his request be deferred and it may be on the agenda at a future meeting.

The meeting recessed at 11:20 a.m. and reconvened at 1:00 p.m., with the four members of the Commission, Mr. Klaboe, Mr. Bothman and Mr. Head present.

The Commission considered a resolution pertaining to the withdrawal of Interstate 505 (Long Yeon Corridor) in the City of Portland. The Chairman asked Ms. Corky Kirkpatrick, Chairman of the CRAG Board and a new member of the Metropolitan Service District, for comments concerning the proposed resolution.

She indicated that the Board will act on this matter at their meeting on December 21, 1978; however, no negative comments have been received from the Board members. Ms. Kirkpatrick commented that this is a technically well-done job and it is based on the Board's initial regional strategies that it worked out when the Mt. Hood Freeway money was dispersed. She said as a member of the Metropolitan Service District she would support this withdrawal.

The Chairman called on the Chief Counsel to read the following resolution:

(See next page for resolution.)

RESOLUTION

WHEREAS Title 23, U.S.C., Section 103 (e) (4) as amended by the Surface Transportation Act of 1978 (Public Law 95-599) authorizes the withdrawal of segments from the Interstate System; and

WHEREAS the City Council of Portland has elected to withdraw the I-505 Long Yeon Corridor and receive approximately \$164 million of federal dollars for use in the metropolitan area; and

WHEREAS the City Council of Portland has conditioned their withdrawal action by requiring that the local match for alternate projects to I-505 be provided by the Oregon Department of Transportation from Highway Trust Funds estimated to cost approximately \$80 million, with a match requirement of \$6.3 million in 1978 dollars; and

WHEREAS it is anticipated that the Columbia Region Association of Governments will approve the City's action at its December 21, 1978, meeting;

WHEREAS it is the intention of the Oregon Transportation Commission to support the withdrawal of I-505 subject to the conditions hereinafter set out;

BE IT RESOLVED that the Oregon Transportation Commission will recommend to the Governor of the State of Oregon that he approve the withdrawal, including the use of Highway Trust Funds to match alternate projects for I-505 and improvements to St. Helens Road, under the following conditions:

1. That the Oregon Department of Transportation receive sufficient inflating dollars from the withdrawal funds to design, purchase right-of-way, and construct its three priority projects in the metropolitan area that are not currently financed; namely:
 - a. Highway 217 - Sunset Interchange Section (approximately \$12.7 million in 1978 federal dollars)
 - b. 190th and Powell Section (approximately \$2.1 million in 1978 federal dollars)
 - c. Highway 212 (approximately \$6.0 million in 1978 federal dollars).
2. That the Columbia Region Association of Governments approve the maximum transfer of Metropolitan Portland Urban System Funds to the Primary System for use outside the metropolitan area for eight fiscal years, beginning in 1979. It is estimated that this will amount to approximately \$3,386,000 per year for a total of \$27,088,000.
3. That CRAG approve the transfer out of the metropolitan area of all Federal Aid Primary Funds now scheduled to be used in the metropolitan area according to the current Oregon Department of Transportation six-year highway improvement program estimated to be \$7,438,000 in 1978 dollars. Said Primary Funds so removed will be replaced with inflating I-505 withdrawn funds.
4. That CRAG at its December 21, 1978, meeting agree to the above conditions.
5. All commitments made by the Oregon Transportation Commission under this resolution are subject to the Oregon Department of Transportation's ability to provide adequate financing.

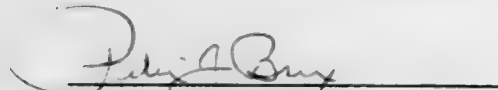

This Resolution shall be entered in the minutes and records of the Commission as Miscellaneous Resolution No. 264 this 19th day of December, 1978.

The Commission unanimously adopted the resolution.

The Chairman adjourned the meeting at 1:07 p.m.

Glenn L. Jackson, Chairman

- (2) Agreement with the Oregon Archeological Preservation Committee to conduct a Chinook Indian Interpretation Project to provide public education and interpretation of the Chinook Indian Culture at Milo McIver State Park, Clackamas County. The Committee will be responsible for developing, constructing, maintaining, and operating a living archeological interpretive center and conducting programs for public education relating to the use of native plants, the use of fish, shell fish and game and the use of stone materials as well as other activities which encourage learning skills and develop appreciation of native american technology and art forms. The State will assist the Committee in this project. Terms of the agreement will be for three years from the effective date of the agreement but may be cancelled by either party by giving 30 days written notice. (Parks Branch)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and report this action for your official records.

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On November 17, 1978, established a 40 MPH speed zone on the Woodburn-Estacada Highway in the vicinity of Estacada in Clackamas County from M.P. 33.06 to M.P. 33.40. (Speed Zone Order No. 790)

- 2) On November 17, 1978, established a 40 MPH speed zone on the Farmington Highway in the vicinity of Beaverton in Washington County from M.P. 5.23 to M.P. 8.76 including a 20 MPH zone when children are present in the following sections:

M.P. 5.41 to M.P. 5.47

M.P. 5.75 to M.P. 5.91

M.P. 7.20 to M.P. 7.42

Rescinds Speed Limit Resolution No. 161 dated August 9, 1954 and Speed Limit Resolution No. 178 dated January 18, 1955. (Speed Zone Order No. 791)

- 3) On November 20, 1978, established the following speed zones on the Florence-Eugene Highway in the vicinity of Mapleton in Lane County:

45 MPH from M.P. 13.75 to M.P. 14.15

35 MPH from M.P. 14.15 to M.P. 14.40

45 MPH from M.P. 14.40 to M.P. 14.73

Rescinds Speed Limit Resolution No. 90 dated August 18, 1952, and Speed Zone Order No. 710 dated November 24, 1975. (Speed Zone Order No. 792)

- 4) On November 20, 1978, established a 35 MPH speed zone on the Mapleton-Junction City Highway in the vicinity of Mapleton in Lane County from M.P. 0.00 to M.P. 0.70. (Speed Zone Order No. 793)
- 5) On November 21, 1978, prohibited parking on an emergency basis allowing the area to be so signed effective immediately on the Jacksonville Highway No. 272 beginning at the south city limits of Grants Pass M.P. 0.20 (Engineer Station 14 + 87) to a point 200 feet south of New Hope Road M.P. 1.56 (Engineer Station 87 + 00). Curb parking will be prohibited on both sides of the highway. Rescinds No Parking Resolution No. 239 dated April 3, 1962. Josephine County.

EXHIBIT C
MINUTES OF 12-19-78

- 6) On November 27, 1978, I signed a supplemental agreement with Morrow County to implement a right of way exchange in a section of the Old Columbia River Highway which was approved by the Transportation Commission at their October 24, 1978, meeting.

MINUTES OF 12-19-78

Date: November 21, 1978

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On Nov. 24, 1978, \$3,327,474.54 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of October, 1978.
(List of apportionments on file in Commission Files, Salem.)

On Nov. 30, 1978, \$1,996,484.73 (12 percent of the Highway Fund) was distributed to the cities for the month of October, 1978.
(List of apportionments on file in Commission Files, Salem.)

Dated this 21st day of November, 1978

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
JANUARY 16, 1979

January 16, 1979
Salem, Oregon

The Oregon Transportation Commission met in the Director's Office (Room 135), Transportation Building, at 9:05 a.m. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
B. Gordon Coleman, Member
Peter J. Brix, Member
Tom Walsh, Member
F. B. Klaboe, Director of Transportation
David Talbot, State Parks Superintendent
H. S. Coulter, State Highway Engineer
Jack Sollis, Chief Counsel
Fran Neavoll, Commission Services

Mr. Klaboe mentioned that a meeting has been set up with the Governor next week to discuss park issues. He asked Mr. Talbot to brief the Commission on several park issues. Mr. Talbot briefed the Commission on the St. Mary's Wood and the Marquam Hill Park Issues.

Mr. Klaboe briefed the Commission on a consultant agreement which would be before them later in the morning for a post-construction evaluation study on the Fremont Bridge. (See page 2889.)

The Commission set the next Commission meeting date as February 8, 1979, and decided to hold it via the telephone. (See page 2887.)

The Commission moved the meeting to the Conference Room 122 at 10 a.m. (Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State.) Others present were:

Larry Rulien, Assistant Director of Transportation Policy
and Program Development
George Bell, Manager of Intergovernmental and Public Affairs
Dennis Moore, Administrator of Public Transit
Roger Ritchey, Deputy Administrator, Aeronautics Division
Harold Grover, Administrator of Motor Vehicles
E. S. Hunter, Manager of Technical Services
Bob Bothman, Administrator of Metropolitan Branch
Glen Green, Federal Highway Administration
Wally Hibbard, River Programs
C. W. Head, Manager, Commission Services

Mr. Ed Grimes of Harrisburg, and others, appeared before the Commission for presentation of a second place special merit award won by the Department of Transportation for its anti-litter program during 1977 in a nation-wide contest of State Highway Departments co-sponsored by Keep America Beautiful, Inc. and the Federal Highway Administration.

Mike Barker, a grade school student from Lebanon, presented a plaque to Chairman Jackson which he accepted for the Department at the Keep America Beautiful Annual Awards Banquet in Washington, D.C., on December 7, 1978. Sally Adams from Griggs School in Lebanon presented a National Keep America Beautiful State Award to Ed Grimes, Chairman of the Keep Oregon Green and Clean.

The Chairman thanked the students for the active part that they are playing in keeping Oregon's highways and parks clean in the anti-litter program. Mr. Grimes thanked the Oregon State Police for their participation in the program. Colonel E. E. Brandaw was present representing the State Police.

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meeting of December 19, 1978.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2681" on file in the Commission's files, Salem.)
- 3) Voided "Highway Corridor Resolution No. 368" adopted July 8, 1969, due to withdrawal of the Mt. Hood Freeway and approved closing the Federal Aid Programs now obligated for right of way with the Federal Highway Administration. (Resolution No. 368 covered Mt. Hood Freeway Section (Easterly end of the Marquam Bridge) of the Mt. Hood Highway in Multnomah County.)
- 4) State participation in construction of the Circle Boulevard Bikeway connecting Highway 99W with the Hewlett-Packard Industrial Site in Corvallis. Total cost of the project estimated at \$48,000 with State contributing \$32,000. The \$16,000 local match is to be shared equally by the City of Corvallis, Benton County and Hewlett-Packard. (Granted authority for State Highway Engineer to sign the necessary agreements.)

- 5) State participation in construction of the Glenwego Creek Bridge in Lake Oswego as a vital link connecting the Terwilliger and West Linn Bikeways in Clackamas County. Project will consist of constructing a new bicycle-pedestrian bridge 12 feet wide and 80 feet long. Removal of old bridge and piers will be included in project. Total cost of project estimated at \$81,000 with State contributing \$50,000 and the City \$31,000. (Granted authority for State Highway Engineer to sign necessary agreements.)
- 6) Adopted resolution removing four short segments of the old alignment from the State Highway System in the Rhododendron-Government Camp Section of the Mt. Hood Highway in Clackamas County. ("Abandonment Resolution No. 578" on file in the Commission's files, Salem.)
- 7) Designated a section of the former Timberline Highway No. 173 between Engineer Stations 10+75 easterly to 17+13 as a Sno-Park. (This section of highway lies directly in front of Timberline Lodge.)
- 8) Two requests for projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway and authorized State Highway Engineer to sign the necessary agreements as follows:
 - a) City of Gladstone to realign and channelize Abernethy Lane at Portland Avenue. Total cost \$20,000; Federal Funds \$17,000; Local Share \$3,000.
 - b) Clackamas County to widen and improve Webster Road at four locations (Clackamas Highway-N.C.L. (Gladstone) Section). Total Cost \$108,200; Federal Funds \$91,970; Local Share \$16,230.
- 9) Authorized payment of the annual membership dues in the amount of \$5,050.39 to the American Association of State Highway and Transportation Officials for the calendar year 1979.
- 10) Traffic signal at the intersection of the Corvallis-Newport Highway (US20) and 19th Street in Philomath, Benton County. Project will provide a 5-phase signal and that the highway be restriped to provide for left-turn refuges at 19th Street. Estimated cost is \$63,000 with \$20,000 provided by the City and \$43,000 from State Construction Funds. (Authorized State Highway Engineer to sign project agreement when prepared.)

- (11) Temporary and permanent traffic signal installations on N. W. St. Helens Road (Columbia River Highway) at N. W. Front Avenue (access to Wacker Chemical Company) in Portland. City of Portland and Wacker Chemical Company have worked out a financial arrangement for a temporary signal to be installed as soon as possible and a more permanent installation at a later date. State has no financial responsibility. (Authorized State Highway Engineer to sign agreements when prepared.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| Highway Controller | Exhibit G |

Mr. Bell reported on the 1979 Legislature. He mentioned the Senate Transportation Committee has named Dell Isham of Lincoln City as Chairman and the members include Bob Smith, L. B. Day, Lenn Hannon and Stephen Kafoury. He said Glen Whallon was chosen Chairman of the House Transportation Committee but other members have not yet been appointed.

Mr. Bell stated that yesterday the Director, the Division Administrators, and himself appeared before the Senate Transportation Committee and gave a brief overview of the activities of the Department. He mentioned that Mr. Klaboe and himself are registered as lobbyists and it is anticipated that eight other individuals in the Department will be registered. He said that the guidelines are about the same as in the 1977 session. He informed the Commissioners that if they want to register as lobbyists that he will be glad to assist them.

Mr. Bell stated the most significant bill introduced so far calls for a constitutional amendment limiting the Highway Fund strictly for highway use. If the bill passes, it will be referred to the voters at the next State-wide election.

The Commission set February 8, 1979, for their next regular meeting which will be held by telephone. The Commission tentatively set March 27, 1979, in Salem, and April 17, 1979, in Medford, for their monthly meetings.

Mr. Talbot referred to his recent report concerning B. A. Hanten's request for the Commission to override an administrative decision on his part whether or not he deserved another start as a commercial outfitter on the Rogue River Scenic Waterway in Josephine County. (See November 28, 1978, Commission minutes, Page 2807, for previous discussion.) Mr. Hibbard gave a brief review of the situation and handed to the Commission a tabulation from 1974 to date which shows Mr. Hanten's scheduled and authorized commercial use history. (Copy of schedule on file in the Commission's files, Salem.) He stated Mr. Hanten now has in the fixed schedule 14 lodge trips and 8 camping trips for a total of 22.

Mr. Hanten was present and stated that he is asking the Commission to grant him a hearing to appeal the Department's decision or for the Commission to override the Park's Branch decision as mentioned by Mr. Talbot. In response to Commissioner Coleman's question, he said there are several individuals that are allowed 38 or 40 trips per year. He referred to Mr. Talbot's informational letter to the Commission of December 8, 1978 (copy on file in Commission's Files, Salem) and pointed out that he feels the letter is full of misstatements. Mr. Hanten said the base number of trips was set by a Federal regulation or moratorium and the State did not have anything to do with it. The moratorium, he said, should have set the base number of trips as they were. The base number of trips was set on how the individuals could prove to the Federal Government (BLM) what they had. In his case, he mentioned he had and could prove 21 trips as a base in 1973, prior to any regulations.

In reply to the Chairman's inquiry, Mr. Sollis said the Commission is not authorized or responsible for decisions in this category. He stated the State Marine Board by statute has jurisdiction to make the final decision. Mr. Hanten asked that this information be in a letter form so that he could take it back to the Marine Board. After discussion, the Commission unanimously supported the recommendation of the Parks Branch and denied Mr. Hanten's request.

Mr. Coulter gave a progress report on contract procedures regarding the accelerated traffic signal installation program which the Commission asked him to investigate last month. (See December 19, 1978 Commission minutes, Page 2858.) He said there are several signal contractors yet to be contacted and that research needs to be completed with firms that provide the materials to see what type of construction schedule they have. Mr. Coulter indicated the Federal Highway Administration has been contacted and there appears to be no problem with the State providing this material. (Copy of Traffic Engineer L. E. George's report dated January 5, 1979, to Mr. Coulter concerning traffic signal installation time is on file in the Commission's Files, Salem.)

The Commission considered a consultant agreement with Wiss, Janney, Elstner, & Associates, Inc., for a post-construction evaluation study to insure that the steel structure used on the Fremont Bridge of the Stadium Freeway, Multnomah County, contains no problems relating to welded connections. Mr. Coulter said the Federal Highway Administration has alerted the State that some steel structures built about the same time as the Fremont Bridge in other areas of the country have been found to contain problems related to welded connections. He mentioned the State does not have the personnel and expertise required to make such an in-depth study or the nondestructive testing, recording, or analysis equipment required. Mr. Coulter stated the study will result in procedures for modification of any structural details which may be identified as current problem areas and will also provide an ongoing systematic maintenance and surveillance plan which will allow timely detection and correction of any details which may develop future need for modification. The cost for the consultant's work is not to exceed \$331,300 without prior approval by the State. The estimated cost of support by State forces is \$80,685 for a total project cost of \$411,985. The project is eligible for Federal Aid Interstate Funds and has tentative approval from the Federal Highway Administration. Following Mr. Coulter's favorable recommendation, the Commission approved the consultant agreement and authorized him to sign the agreement.

Upon the recommendation of Mr. Ritchey, the Commission adopted a resolution accepting a grant offer from the Federal Aviation Administration for financial assistance in the amount of \$20,000 for a master plan of the John Day State Airport under the Planning Grant Program of the Airport Development Aid Program. Total cost of the master plan project is \$23,940. (See "Aeronautics Miscellaneous Resolution No. 18" on file in Commission's Files, Salem.)

Mr. Moore reported on the new Federal program, which is part of the new Surface Transportation Act, for public transportation in nonurbanized areas. He said this pertains to communities generally less than a 50,000 population and provides operating and capital assistance. This will involve the budget process and sometime within the next several months will require a substantial change in the Division's budget. It provides for a formula allocation of approximately \$1,000,000 a year for Oregon. The program provides that the Governor will designate a State agency to administer this program and in this case the Governor has already designated the Department of Transportation. Mr. Moore mentioned that the program will be administered through the Federal Highway Administration rather than through UMTA. He indicated the program has a provision dealing with fair and equitable distribution of funds throughout the State. It appears at this time he said that some formula allocation of a breakdown of these funds going to the smaller communities is appropriate. The program provides that the funds being used in the nonurbanized areas 80% can be used for capital and administrative costs and 50% for operating assistance. Mr. Moore mentioned that he will be presenting a recommendation to the Commission within the next several months.

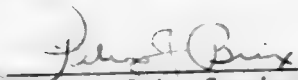

Mr. Grover requested and received approval of the Commission for an expenditure of \$415 to obtain cassette tapes to be used with slides for training police officers, Motor Vehicles personnel and possibly interested businesses for the purposes of identifying fraudulent identification.

Mr. Klaboe received approval from the Commission to find a sponsor for a bill to regain State, County and City authority to establish truck routes which was inadvertently deleted at the last Legislative session.

The meeting adjourned at 10:55 a.m.

MINUTES OF 1-16-79

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Action Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following agreement and report this action for your official records:

On November 29, 1978, I gave approval to F. B. Klaboe for a letter agreement with Washington County to loan to the County traffic signal equipment for a temporary installation on Barnes Road at the entrance to St. Vincent's Hospital. County will arrange for the installation at no cost to the Department. County will return the loaned equipment following a period of approximately 3 years or purchase the equipment. (Authorized State Highway Engineer to sign agreement letter.)

Dated this 11 day of Dec., 1978

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On December 21, 1978, approved a left turn prohibition on the McKenzie Highway at Henderson Avenue in the community of Glenwood (M.P. 0.77) in Lane County.
- 2) On November 14, 1978, approved an agreement with Chemeketa Community College for a Crash Injury Management Course from December 18-22, 1978, for \$660. (Agreement was approved and signed by R. L. Schroeder on behalf of Mr. Coulter in his absence.)
- 3) On December 13, 1978, approved a work experience agreement with the Employment Division for providing a work experience training to John A. Dentone, a work incentive program participant, effective December 4, 1978, and shall terminate March 2, 1979. (Agreement was instigated from the Roseburg Region Office) (WIN Program)
- 4) On December 29, 1978, established the following speed zones on the Rogue River Loop Highway at the west city limits of Grants Pass in Josephine County:

| | |
|------------------------|--------|
| M.P. 1.06 to M.P. 2.10 | 35 MPH |
| M.P. 2.10 to M.P. 5.81 | 45 MPH |

Rescinds Speed Zone Resolution No. 534 dated March 5, 1968. (Speed Zone Order No. 794)
- 5) On December 29, 1978, approved a part-time left turn prohibition at the junction of the Tualatin Valley and Beaverton-Tualatin Highways (M.P. 3.50) in the City of Beaverton, Washington County, between the hours of 3 p.m. and 6 p.m. Monday through Saturday.

TEMPORARY RULE ESTABLISHING A WEIGHT RESTRICTION FOR
DESCHUTES RIVER BRIDGE CROSSING, SHERARS BRIDGE HIGHWAY

What This Rule Does

This rule prohibits vehicles or combinations of vehicles weighing in excess of 16 tons from using the Sherars Bridge (Deschutes River) located at Milepost 7.65 on the Sherars Bridge Highway No. 290, in Wasco County.

Statutory Authority and Procedure

ORS 487.905 gives the Department of Transportation the authority to impose weight limits on vehicles or combinations of vehicles and to impose any other restrictions which, in the judgment of the Department, may be necessary to protect the highway or any section thereof from being unduly damaged. By Delegation Order No. 16, dated March 30, 1976, this authority was delegated to the State Highway Engineer.

ORS 184.619 grants the Oregon Transportation Commission authority to adopt rules it considers necessary to carry out the functions of the Department.

Weight Restriction

Following an engineering inspection and evaluation of the condition of said bridge, the Department has determined that:

1. Structural timber members of the bridge have deteriorated to the extent reduced load limits are mandatory. Further, a weight restriction of 16 tons is necessary to protect the bridge from being unduly damaged and to insure the safety of the traveling public.
2. Vehicles or combinations of vehicles weighing in excess of 16 tons shall not use the bridge.
3. To inform the users of Sherars Bridge Highway of this weight restriction, signs shall be posted at both ends of the bridge and at such highway junction locations as may be considered necessary.
4. Truck and bus traffic on the bridge shall be restricted to one vehicle at a time; therefore, the bridge shall also be posted with signs bearing the legend "One Way Traffic for Trucks and Buses".

This temporary rule was adopted by the State Highway Engineer on December 14, 1978. A certified copy thereof was filed with the Secretary of State on December 14, 1978.

APPROVED AS TO FORM:

Chief Counsel

State of Oregon, by and through its
Department of Transportation,
Highway Division

MINUTES OF 1-16-79

TO: Oregon Transportation Commission
SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records:

On April 15, 1977, the State and North Tillamook County T.V. Translators entered into an agreement allowing T.V. Translators to erect and maintain a building and a mast for a T.V. translator, buried cable and to construct and use certain roads in Oswald West State Park, Tillamook County.

On September 27, 1978, approved an agreement with Tillamook County, North Tillamook County T.V. Translators, Inc., and the Oregon State Health Division which authorizes the County to construct an addition to existing facilities and to install two antenna poles at the site of the T.V. translator station. It also authorizes the State Health Division to install repeaters for emergency communications from ambulances to hospitals in the existing and proposed facilities to Oswald West State Park.

The September 27 agreement will terminate on the same date as the previous agreement, April 15, 1982.

On December 12, 1978, Robert D. Caughell was given approval to construct a single-family residence on the Illinois River in Curry County.

Dated this 14th day of December, 1978.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7694 Margaret Churchill v. State of Oregon: This lawsuit arises out of an accident that occurred on April 7, 1978 at the intersection of Main Street and 14th in the City of Springfield. The plaintiff alleges that she was struck in the rear by a vehicle operated by Richard John Davis, an employee of the State of Oregon. The plaintiff alleges that the state employee was driving at a speed more than reasonable and prudent under the circumstances and failure to maintain a proper lookout. The amount of the lawsuit is \$60,000 and the case has been referred to the Attorney General's office for defense of the state employee.

L-7695 John M. Schoonover v. Robert A. Burco, Director of the Department of Transportation: This is a complaint for "Malfeasance of Office, Official Misconduct". This is a complaint in which Mr. Schoonover is asserting that the Department has improperly denied him access to State Highway No. 58. The plaintiff has a limited access to the state highway which is limited to "development, harvesting and transportation of forest products only". The plaintiff has subdivided the property that is adjacent to this access and has asked the State to lift the access restrictions. The State advised Mr. Schoonover that upon the payment of a fee of \$6,500 the access restrictions would be lifted. Mr. Schoonover has taken issue with this action by the State and has instituted legal proceedings. The plaintiff wants the State to issue at no charge an irrevokable valid permit for an access to plaintiff's property for compensatory damages in the amount of \$10,000 and for expenses incurred in the lawsuit. The case has been referred to the Attorney General's office for the defense of Mr. Burco and the Department.

M I N U T E S
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
FEBRUARY 8, 1979

February 8, 1979
Salem, Oregon

The Oregon Transportation Commission held their monthly meeting by telephone at 10 a.m. in Room 135, Transportation Building, Salem, Oregon. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Peter J. Brix, Member, Portland
B. Gordon Coleman, Member, Eugene
Tom Walsh, Member, Portland
F. B. Klaboe, Director of Transportation, Salem
Fred Miller, Assistant Director for Administration, Salem
George Bell, Manager of Intergovernmental and Public Affairs, Salem
H. S. Coulter, State Highway Engineer, Salem
Dennis Moore, Administrator of Public Transit, Salem
Roger Ritchey, Deputy Administrator, Aeronautics Division, Salem
David Talbot, State Parks Superintendent, Salem
Jack Sollis, Chief Counsel, Salem
Larry Rulien, Executive Assistant, Administrative and Finance Branch, Salem
C. W. Head, Manager, Commission Services, Salem

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meeting of January 16, 1979.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2682" on file in the Commission's files, Salem.)
- 3) Adopted resolution declaring necessity of purchase of certain real property for public purposes for the Powers State Airport in Coos County and authorized condemnation. ("Aeronautics Real Property Condemnation Resolution No. 2683" on file in the Commission's files, Salem.)
- 4) Authorized payment of \$300 for 1979 calendar year dues for membership in the National Association of State Outdoor Recreation Liaison Officers.
- 5) Authorized payment of \$879 for 1979 fiscal year dues for membership in the National Conference of State Historic Preservation Officers.

- 6) Added the following two projects estimated at \$190,000 to the District 5 State Bond Program:
 - a) Curve improvement at M.P. 40.4 on the Florence-Eugene Highway, Lane County
 - b) Left-turn refuge to serve Poodle Creek Road at M.P. 40.93 on Florence-Eugene Highway, Lane County
- 7) Authorized sharing the construction engineering costs greater than 15% with the City of Sublimity covering a project on West Main Street from Center Street to Johnson Street in Marion County. Estimated cost to State \$958. Authorized State Highway Engineer to sign a modified project agreement.
- 8) Increased State funding participation in the amount of \$101,800 for construction of the Portland Street-South 6th Street Bikeway in Klamath Falls, Klamath County.
- 9) Adopted a resolution accepting a Grant Offer from the Federal Aviation Administration for financial assistance in the amount of \$20,000 for a Master Plan and Environmental Impact Study for the Bandon State Airport in Coos County under the Planning Grant Program of the Airport Development Aid Program. Total cost of the study project will be \$23,940. ("Aeronautics Miscellaneous Resolution No. 19" on file in the Commission's files, Salem.)
- 10) Financial aid to municipalities grant to the City of Ontario in the amount of \$7,199 to be matched by the City in the amount of \$9,149 for a \$16,348 airport improvement project in Malheur County. This project will fill cracks in the runway and rehabilitate the runway lighting system.
- 11) Interagency Agreement for consulting services with the University of Oregon and the Public Transit Division on behalf of the Willamette Valley Rail Study Committee for the completion of a cost comparison between highways and intercity rail service at a cost not to exceed \$500. (Authorized Administrator of Public Transit to sign agreement.)
- 12) Authorized the Public Transit staff to appear before the Ways and Means Committee to request authority to apply for Federal Funds up to \$275,000 from the Urban Mass Transportation Administration's Section 18 (non-urbanized area public transportation) Program.

- 13) Authorized the Director to amend the agreement of July 1977 with the Department of Economic Development. The agreement is for \$64,987 to cover Port planning and needs to be revised to read \$68,594 in order to cover appropriate salary increases. This is an increase of \$3,607. (Authorized Director to sign Agreement Addendum.)
- 14) Two requests for Bridge Replacement Projects as follows and authorized State Highway Engineer to sign the necessary project agreements:
 - a) Request from the City of Pendleton to replace the structure over the Umatilla River on Main Street in Umatilla County. Total Cost \$626,000; Federal Funds \$500,800; Local Share \$125,200.
 - b) Request from Clackamas County to replace the structure over Bull Run River on Bull Run Road. Total Cost \$600,000; Federal Funds \$480,000; Local Share \$120,000.
- 15) Five requests for projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway and authorized State Highway Engineer to sign the necessary agreements:
 - a) Request from City of Beaverton to improve a 2.4 mile segment of Tualatin Valley Highway, upgrade existing signals and construct a park-and-ride lot. (S.W. Murray Blvd.-S.W. Walker Road Section, Washington County.) Total Cost \$332,000; Federal Funds \$282,200; Local Share \$49,800.
 - b) Request from City of Beaverton to provide multiple improvements at various locations within a 2.9 mile section of the Beaverton-Tualatin Highway. (Tualatin Valley Highway-S.W. Scholls Ferry Road Section, Washington County.) Total Cost \$277,000; Federal Funds \$235,450; Local Share \$41,550.
 - c) Request from City of Lake Oswego to provide four travel lanes and a left-turn lane on the Oswego Highway and provide a computerized signal system. ("B" Ave.-North Shore Road Section, State Street.) Total Cost \$778,000; Federal Funds \$661,300; Local Share \$116,700.
 - d) Request from Clackamas County to realign Oatfield Road and modify the Aldercrest Drive Approaches. Total Cost \$78,000; Federal Funds \$66,300; Local Share \$11,700.

(Continued on next page.)

- e) Request from Clackamas County to widen Price-Fuller Road and install an emergency fire signal at King Road. (S.E. King Road-S.E. Harmony Road Section.) Total Cost \$130,000; Federal Funds \$110,500; Local Share \$19,500.
- 16) Authorized increases in project authorizations on the following contracts:
- a) Contract No. 8003, Garden Valley Road-Fairgrounds Interchange, Pacific Highway, Douglas County, in the amount of \$809,063. (5.5% increase)
 - b) Contract No. 8685, Oak Ranch Creek Bridge, Nehalem Highway, Columbia County, in the amount of \$26,293.30. (11.7% increase)
 - c) Contract No. 8645, Tunnel Creek-Whitewater Road Section, North Santiam Highway, Marion County, in the amount of \$9,556.45. (8.3% increase)
- 17) Agreement No. 37 with the National Academy of Sciences covering the National Cooperative Highway Research Program. Oregon's share for Fiscal Year 1979 is \$60,723. Authorized State Highway Engineer to sign agreement.
- 18) Abandoned eight damage claims totaling \$10,192.59 as follows:

| <u>CAO NO.</u> | <u>NAME</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |
|----------------|--------------------------------------|-------------------------|---------------|
| 78-132 | S & S Equipment Co. & Bernie N. Wood | Guardrail & Median Rail | \$4,287.58 |
| 78-163 | Carlotta A. McGraw | Guardrail | 404.46 |
| 78-225 | Ramon R. Aguiñar | Guardrail | 853.62 |
| 78-226 | (Unable to obtain) | Fluorescent paint | 1,772.90 |
| 78-320 | Calzono Trucking & Otis B. Gaines | Sign | 1,464.52 |
| 78-329 | Meils P. Jensen | Guardrail | 604.02 |
| 78-356 | Carl R. Tramel | Guardrail | 480.99 |
| 78-384 | Joann C. Kerr | Guardrail | 324.50 |

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

|---------------------------------------|-----------|
| Chairman of Transportation Commission | Exhibit A |
| State Highway Engineer | Exhibit B |
| Right of Way Manager | Exhibit C |
| State Parks Superintendent | Exhibit D |
| Chief Counsel | Exhibit E |
| Highway Controller | Exhibit F |

Following Mr. Klaboe's recommendation, the Commission unanimously confirmed the following appointments effective February 8, 1979:

- 1) E. S. Hunter, Assistant State Highway Engineer, Technical Services Branch
- 2) R. L. Schroeder, Assistant State Highway Engineer, Maintenance Branch
- 3) C. T. Keasey, Assistant State Highway Engineer, Construction-Materials Branch
- 4) D. H. Moehring, Assistant State Highway Engineer, Project Management Branch

The Commission considered adopting as a permanent administrative rule a resolution revising the required occupancy rate in vehicles for the Banfield HOV Lanes in Multnomah County from three to two persons. Mr. Klaboe said there was no adverse testimony received at the hearing held in Portland on January 16, 1979. As recommended by Mr. Klaboe, the Commission unanimously adopted "Miscellaneous Resolution No. 256B" on file in the Commission's files, Salem. (Permanent rule filed with the Secretary of State on February 8, 1979, and was published in the Administrative Rule Bulletin on March 1, 1979. The Hearing Study Report is on file in the Commission's files, Salem.)

Mr. Klaboe reported that yesterday the Senate Transportation Committee began discussions on Senate Joint Resolution No. 7 which is a constitutional amendment to remove the State Police and a portion of the Parks budget from the Department of Transportation budget plus several other agencies that receive highway funds. He stated that the Committee instructed him to bring this item to the attention of the Commission. Following Mr. Klaboe's favorable recommendation, the Commission unanimously voiced their support of this constitutional amendment.

The Commission unanimously approved the reappointment of Joe Caraher of Klamath Falls and the new appointments of Donald Mason of Eugene and Patricia Gilbert of Coos Bay to the Travel Advisory Committee. (The appointments have the approval of the Governor's Office.)

The Commission confirmed the Commission meeting dates of March 27, 1979, in Salem and April 17, 1979, in Medford.

Mr. Sollis reported that an opinion has been received from the Court of Appeals relating to a lawsuit involving a pre-emption traffic signal on 12th Street in Salem. He said the Court of Appeals has held that the Manual on Uniform Traffic Control Devices does not have the force and effect of law and that engineering judgment in the design of traffic signals is the controlling factor. He indicated that this is a good decision for Oregon because other states have held that it had the effect of law and had to be followed exactly without the option to use engineering judgment in the design of traffic signals. Mr. Sollis said it is a good case in establishing the fact that if a traffic signal operates as it is designed that there is no liability on the part of the State for an accident at that intersection.

Commissioner Walsh inquired about the release of land, in which the Federal Government participated in the purchase, on Powell Boulevard in the City of Portland. Mr. Sollis stated that as far as the Federal regulations are concerned, there are no constraints on releasing the land for nonhighway-related purposes without any cost. He said that is in conflict with State Law, Article 9, Section 3, which provides it can only be released without any cost or with a reduced cost for purposes that are authorized under Article 9, Section 3. He said the Federal Law provides that it must be consistent with the State Law and the property could not be released without any charge unless it was for a purpose authorized under Article 9, Section 3. Mr. Sollis said if it is going to be used for public housing or other such purposes, the public would have to pay the full market value. A direct sale could be made to a governmental agency but it would have to be for full market value as determined by appraisals.

The Commission considered an agreement with CH₂M-Hill for the preparation of the Final Environmental Impact Statement for the S.E. 50th Avenue-S.E. 92nd Avenue Section of S.E. Powell Boulevard in Multnomah County. Mr. Coulter said in the absence of consultant services, the project would be delayed at least six months because of current staff commitments on other projects. The agreement is not to exceed \$32,000 and will cover a four-month period. The Commission unanimously approved the agreement as recommended by Mr. Coulter and authorized him to sign it in their behalf.

The Commission considered the adoption of a permanent administrative rule pertaining to an Ocean Shore Vehicle Use Zones Policy. Mr. Talbot said the rule covers standards and guidelines by which staff and Commission would look at proposals from the public to close certain sections of the beach. The items covered consist of safety, the need for access suitability, scenic and recreational values and natural resource values. The Commission unanimously adopted the policy ("Ocean Shore Rule No. 22" on file in the Commission's files, Salem) as recommended by Mr. Talbot. (Permanent rule filed with the Secretary of State on February 8, 1979, and was published in the Administrative Rule Bulletin on March 1, 1979.)

Following Mr. Talbot's recommendation, the Commission unanimously adopted the following permanent administrative rules:

- 1) Modify the existing campsite reservations system through elimination of:

- a) Telephone reservations
- b) \$2 administrative charge

("State Park Rule No. 39H" on file in the Commission's files, Salem.)

- 2) Change group picnic regulations at Champoeg, McIver, and Rooster Rock Park areas:

- a) Eliminate the restriction that group picnics be limited to 200 people or less, and establish new group size limits based on the facilities available at each park;
- b) Increase user fees and deposits based on the size of the group;
- c) Apply stricter control on the use of alcoholic beverages.

("State Park Rule No. 39I" on file in the Commission's files, Salem.)

- 3) Increase user fees and deposits for special group facilities at Silver Falls and Emigrant Springs Park Areas and initiate fees for use of the Garden House at Shore Acres State Park.

("State Park Rule No. 39J" on file in the Commission's files, Salem.)

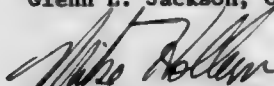

(Permanent rules filed with the Secretary of State on February 9, 1979, and published in the Administrative Rule Bulletin on March 1, 1979.)

The Commission welcomed Fred Miller back to the Department of Transportation staff.

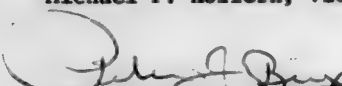

The meeting adjourned at 10:18 a.m.

EXHIBIT A TO: Oregon Transportation Commission MINUTES OF 2-8-79SUBJECT: Report of Confirmation of Action Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

- 1) On December 21, 1978, accepted the bid of Willamette-Western Corporation for the South Channel Bridge (Columbia River Bridge) of East Portland Freeway in Multnomah County in the amount of \$35,688,000 and authorized the State Highway Engineer to award the contract subject to the concurrence of the Federal Highway Administration. Bids received December 21, 1978. (Contract No. 8862)
- 2) On December 22, 1978, approved a cultural resources inventory project agreement with the Portland Development Commission. The agreement authorizes pass-through Federal monies in the amount of \$7,500 to be matched with monies available to the Portland Development Commission. No State Funds are involved.
- 3) On December 26, 1978, approved an agreement with State of Utah to enable Utah to perform certain sampling inspection and testing on a railroad bridge which is a part of I-205 and which is being prefabricated in the State of Utah. Utah will be paid for its service on the costs basis as provided in the agreement.
- 4) On December 28, 1978, approved a supplemental agreement with Salem Sand and Gravel Company to rescind the preliminary acceptance date for the sewage disposal system in Manzanita Safety Rest Area on the Pacific Highway in Josephine County and allow consideration of improvement of the plant or alternate methods of sewage disposal. State will notify the contractor on or before June 30, 1979, of a new preliminary acceptance date. (Contract No. 7883)
- 5) On December 29, 1978, approved an agreement with Baker County to provide Sno-Park parking permit enforcement at Anthony Lakes Ski Area for the remainder of the 1978-79 skiing season. The estimated cost of this work to be done by the County Sheriff is \$500. Funding is provided from Winter Recreation Area parking permit revenue.

EXHIBIT A
MINUTES OF 2-8-79

- 6) On December 29, 1978, approved an agreement with Union County to provide Sno-Park parking permit enforcement at Spout Springs Ski Area for the remainder of the 1978-79 skiing season. The estimated cost of this work to be done by the County Sheriff is \$975. Funding is provided from Winter Recreation Area parking permit revenue.
- 7) On January 2, 1979, approved an agreement with the Public Utility Commissioner relating to the construction, landscaping and maintenance of certain facilities to be utilized by PUC as a Port of Entry at Klamath Falls. Execution of this agreement documents PUC concurrence in award of contract for construction of the facility on which bids were opened on December 14, 1978.
- 8) On January 4, 1979, approved an agreement with the State of Utah authorizing them to provide necessary sampling, inspection and testing work for the State of Oregon under State Contract No. 8795 on material being prefabricated in the State of Utah. (UPRR Second Street Overcrossing in La Grande)

- (2) Supplemental agreement with Ernest W. Hahn, Inc., which modifies the method of payment for a developer-financed project for highway improvements on 82nd Avenue to accommodate the Clackamas Town Center on the Cascade Highway North No. 68. In lieu of the normal cash advance deposit for 100 percent of the estimated cost (\$1 million range), the State has agreed to accept a letter of credit which can be drawn upon to pay contractor estimates each month. The developer estimates that this method will save him about \$90,000 in interest.
- (3) Agreement with City of Oregon City and Peter B. Bedford Marc Paul, Inc., dba Oregon City Properties, for installation of traffic signals on the Cascade Highway South (Molalla Avenue) at Clairmont Street. The State will design, install and maintain the signals, the City has agreed to pay all costs of electrical energy and the Company will pay all costs of the installation.

By your duly adopted delegation order, you authorized me in myr official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. - (2) A supplement to the tri-party agreement between the State of Washington State Patrol, the Oregon Highway Division and the State Board of Higher Education for a 20-year lease on three sites in Washington to provide microwave capabilities into Eastern Oregon. The supplemental agreement authorizes the Highway Division to make the final payment of \$30,000 at a date earlier than specified in the original agreement.
- (3) Agreement with City of La Grande and the Standard Insurance Company for installation of traffic signals on the Wallowa Lake Highway at the Grande Ronde Shopping Center. The State will design, install and maintain the traffic signals using Title II Safety Funds. The City has agreed to pay all costs of electrical energy, and the Company has agreed to contribute \$5,000 toward the cost of the project.

- (4) Agreement with Lane County for the removal of roadside obstacles along the Beltline Highway and the Delta Highway using Title II, Section 210 Federal Funds. The State will design and supervise construction for the entire project. The County will provide the required 10 percent matching funds for that portion of the project attributable to the Delta Highway.
- (5) An existing contract with John Woods provided for training of a newly-appointed State Parks Forester for several months. The contract has an expiration date of March 1, 1979. The selected staff forester will not become available until sometime in February, which then necessitated extending the John Woods' contract. This amendment provides for extension of the contract to April 30, 1979, with no alteration in the original consideration of \$4,000.
- (6) Agreement with Department of Human Resources, Children's Services Division, for development of a boys' camp for MacLaren School for Boys at Hilgard Junction State Park in Union County. Children's Services will construct the necessary buildings on a 6.6 acre site within the State park. Boys housed at the camp will perform work assignments at various State parks in the area, and they will be paid as provided in an existing agreement between the agencies. The Hilgard lease agreement extends for 20 years from date of approval, with provisions for termination if necessary during the lease period.

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and on the preceding page (totaling 6 items) and report this action for your official records.

2) Grant an extra width to 40 feet to C. E. John Co., Inc., for the access being moved to Station 244+37 on the Tumalo-Bend Section of the McKenzie-Bend Highway in Deschutes County. File 16975.

3) Supplemental agreement with Jackson County for a time extension from December 31, 1978, to March 31, 1979, covering the Bear Creek Greenway Project (Phase 1, Jackson County, OP 807). This project was initially written to require 56 parcels of land between Ashland and Central Point. The project scope has been amended to include 62 parcels and the geographic area from Emigrant Dam to the Rogue River. To date, the County has acquired and billed for 27 parcels, representing \$327,380 of the approved \$633,000 total cost of the project. Options recently have been obtained on a number of parcels and the County is awaiting this time extension to exercise those options and complete the project. (Parks Branch)

4) Agreement with City of Eugene for construction of the Willie Knickerbocker Bicycle Bridge. The City will be responsible for the design, construction, operation, and maintenance of the project. The State will approve the plans and contribute a maximum of \$10,000 toward the cost of the project. Funds will be expended from monies designated for use on bicycle-pedestrian trails. (Local Government)

5) Agreement with City of Salem covering construction of the Pine Street-Academy Street Section of Pacific Highway East, No. 1E. The State will design, construct and maintain this section of highway using Federal Aid Title II Safety Funds. The City has agreed to cooperate in the adjustment of utilities, and to accept jurisdiction of improved street connections. (Local Government)

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On January 9, 1979, established a 45 MPH speed zone on the Oregon Coast Highway in the community of Seal Rock in Lincoln County from M.P. 150.40 to M.P. 150.88. Rescinds Speed Zone Resolution No. 439 dated January 30, 1964. (Speed Zone Order No. 795)
- 2) On January 9, 1979, established a 50 MPH speed zone on the Rogue Valley Highway from the south city limits of Central Point to the north city limits of Medford in Jackson County from M.P. 3.07 to M.P. 4.60. Rescinds Speed Limit Resolution No. 73a dated January 16, 1958. (Speed Zone Order No. 796)
- 3) On January 19, 1979, established a 30 MPH speed zone on the Springfield-Creswell Highway in the vicinity of Springfield, Lane County, from M.P. 0.62 to M.P. 0.90, and a 45 MPH speed zone from M.P. 0.90 to M.P. 2.30. (Speed Zone Order No. 797)
- 4) On January 22, 1979, established a 35 MPH speed zone on the Oregon Coast Highway in the vicinity of Warrenton, Clatsop County, from M.P. 10.09 to M.P. 10.30, and a 45 MPH speed zone from M.P. 10.30 to M.P. 10.92. Rescinds Speed Zone Resolution No. 491 dated July 13, 1965. (Speed Zone Order No. 798)

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
March 27, 1979

March 27, 1979
Salem, Oregon

The Oregon Transportation Commission met in the Director's Office (Room 135), Transportation Building, at 9 a.m. Notice of today's meetings was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
B. Gordon Coleman, Member
Peter J. Brix, Member
Tom Walsh, Member
F. B. Klaboe, Director of Transportation
Fred Miller, Assistant Director for Administration
David Talbot, State Parks Superintendent
Larry Jacobson, Parks Branch
H. S. Coulter, State Highway Engineer
Larry Rulien, Executive Assistant, Administrative
and Finance Branch
Jack Sollis, Chief Counsel
Fran Neavoll, Commission Services

Mr. Rulien brought to the attention of the Commission that the City of Portland is requesting the utilization of State matching funds for the acquisition of an off-street parking lot in connection with the improvement project on Powell Boulevard. The Commission unanimously felt that State Highway Funds should not be used for parking lots.

Mr. Talbot and Mr. Jacobson briefed the Commission on the status of the vehicles on the beach at Tierra Del Mar in Tillamook County. Mr. Jacobson said the staff is making a study of the Commission's vehicle use zones policy. Mr. Talbot mentioned there is a petition from the local people to get the vehicles off the beach year-round. He said he would be coming back to the Commission for a decision in a few months.

Mr. Talbot said on the agenda for the Commission's consideration today is the camping fee increase for State parks. He said the Good Sam organization (recreation vehicle owners) will speak to the Commission regarding camping fees later this morning.

Mr. Klaboe briefed the Commission on a recent announcement by Governor Atiyeh regarding the additional funding in the amount of \$39.2 million for maintenance and preservation of the highway system.

Mr. Klaboe also mentioned to the Commission that he has been attending public hearings with the Senate Transportation Committee around the State to receive the public's input concerning the conditions of the highways and methods of financing. He stated these hearings have been very poorly attended.

The Commission moved the meeting to the Conference Room 122 at 10 a.m. Others present were:

Dennis Moore, Administrator of Public Transit
Paul Burket, Administrator of Aeronautics Division
Harold Grover, Administrator of Motor Vehicles
Gary Potter, Manager of Environmental Section
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meeting of February 8, 1979.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2684" on file in the Commission's files, Salem.)
- 3) Special Bridge Replacement Project concerning the replacement of a deteriorated wooden bridge over Field Creek on the John Day Highway in Grant County. Estimated cost of the project is \$100,000 with Federal participation of \$80,000 and State matching funds of \$20,000.
- 4) Interstate Project to enlarge the existing building at Farewell Bend Port of Entry on the Old Oregon Trail in Malheur County and install a second scale to handle the traffic. Estimated cost is \$128,500 with Federal participation of \$118,200 and State matching funds of \$10,300.
- 5) Addition of the Cedar Hills Interchange-Sylvan Interchange Section Project on the Sunset Highway in Washington and Multnomah Counties and the deletion of the Sylvan Interchange-Vista Ridge Tunnel Project on the Sunset Highway from the Six Year Program. Estimated cost is \$1,465,000. Federal-aid Interstate Transfer Funds in the amount of \$1,245,000 are available. State Funds in the amount of \$220,000 will be used to match these Federal Funds.
- 6) Concurred in the establishment of a truck route in the City of Silverton and the prohibition of trucks on the Church-Mill Street Section of the Cascade Highway.

- 7) Adopted "Survey Resolution No. 320A" amending "Survey Resolution No. 320" adopted August 25, 1966, covering the Oak Hill-Interstate 105 Section of the Mapleton-Eugene Highway (now Florence-Eugene Highway) in Lane County and authorized the sale of any right of way purchased for the easterly portion of the route. It has been determined that a portion of the route will not be constructed and therefore this amendment is necessary. (Resolution on file in the Commission's files, Salem.)
- 8) Declared 0.5 acre on River Road in Eugene as surplus to the needs of the Highway Division and directed its sale to Lane County for \$47,200. Approved allowance for the relocation of utilities onto other areas of the total property as may be required. (Lane County is engaged in the development of a county road called the Northwest Expressway. This property was purchased by the Highway Division in 1972 for the planned Oakhill-Eugene-Springfield Section of the Florence-Eugene Highway. This section of highway will not be constructed.)
- 9) Petition for Street Improvement on S.E. Bush Street in the Mt. Hood Freeway Corridor in Multnomah County and authorized Right of Way Manager to sign Petition. Cost to State \$1,750.
- 10) Three requests of projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway and a request to cancel a previously approved project. Authorized State Highway Engineer to sign agreements when prepared:
 - a) Request from City of Portland to undertake the right of way and construction phases for improvement of a 3.23 mile segment of N.E. Union Avenue (N.E. Columbia Boulevard-N.E. Weidler Street Section). Total Cost \$5,133,000; Federal Funds \$4,363,050; Local Share \$769,950.
 - b) Request from Clackamas County to widen and improve the intersection of Oatfield Road and Jennings Avenue. Total Cost \$172,000; Federal Funds \$151,360; Local Share \$20,640.
 - c) Request from Washington County to provide channelization and left-turn signal phases on Walker Road at Cedar Hills Boulevard. Total Cost \$72,000; Federal Funds \$61,200; Local Share \$10,800.

(Continued on next page.)

- d) Request from City of Portland to cancel a previously approved project to construct a connection between Milwaukie Avenue and McLoughlin Boulevard (S.E. Long Street).
- 11) Repairing two bridges (Judkins Point Overcrossing structures) on the McKenzie Highway in the City of Eugene. Estimated cost of the project is \$200,000. (These structures pass over the NB Pacific Highway West ramp from I-5 and the SPRR Mainline tracks.) Granted authorization to proceed with the most appropriate funding available.
- 12) Authorized increases in project authorizations on the following contracts:
 - a) Contract No. 8769, 1st Avenue-6th Avenue Section of Albany-Corvallis Highway in Linn County, in the amount of \$40,812.46 (42%).
 - b) Contract No. 8811, Hull Street-College Entrance (Coos Bay) Section of Cape Arago Highway in Coos County, in the amount of \$9,560.21 (5.7%).
- 13) Memberships in the Oregon Parks Association in the amount of \$15 and in the American Congress on Surveying and Mapping for \$33 per year.
- 14) Supplemental agreement with the City of Roseburg authorizing extended use of two State buses. Amends contract period to specify September 7, 1978, to September 6, 1979, with a 1 year option to renew.
- 15) Consulting agreement on behalf of the Willamette Valley Rail Study Committee with Azimuth Engineering and Surveying not to exceed \$7,000. The Committee has determined a need to have continued assistance in revising its final report to complete negotiations with the Southern Pacific Railroad and to provide other technical assistance.
- 16) Agreements with the City of Corvallis and the Rogue Valley Transportation District for improved marketing programs with costs not to exceed \$1,500 and \$1,000 respectively.
- 17) Renewed lease with State Blind Commission for Billie's Cafeteria in the basement of the Transportation Building in Salem.

(Continued on next page.)

- 18) Financial Aid to Municipalities Grants to the following municipalities, and in the amounts not to exceed those listed, to be used for airport planning and improvement projects. The amounts shown will constitute one-half or less of the sponsor's share for Federally-funded projects as indicated:

Ashland \$25,479
Land acquisition, construct runway safety area and relocate portion of creek channel.

Burns \$29,052
Rehabilitate and mark runway, construct aircraft parking apron and acquire land.

Port of Gold Beach \$ 1,646
Airport Master Plan Study

Port of Hood River \$35,248
Extend runway, parallel and stub taxiways, runway lighting and land acquisition.

Josephine County \$ 2,437
Airport Master Plan Study

Roseburg \$ 9,793
Aircraft parking apron expansion

- 19) Supplemental agreement with the City of Woodburn authorizing up to \$2,000 additional for the experimental bus project which will conclude June 30, 1979. Reason for additional funding is to cover an unanticipated cost in obtaining insurance.

- 20) Construction of the Eastwood Drive-Butler Market Road Section of Neff and Denner Roads at the east edge of the City of Bend. A 2.5 mile bike path will be constructed in conjunction with the reconstruction of Neff and Denner Roads by Deschutes County. Project is estimated to cost \$98,500 requiring State Bikeway Funds of \$78,800 and \$19,700 of matching funds by Deschutes County. (Authorized State Highway Engineer to sign agreement when prepared.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| Administrator of Public Transit | Exhibit I |

Mr. Rulien reported on the interstate freeway traffic noise. He referred to and commented on the completed Interstate Freeway Noise Inventory Report and the suggested policy which was recently submitted to the Commission for their consideration. He said the suggested policy is a three-part approach: 1) source emission reduction; 2) land use control; and 3) highway design. (Copy of the Noise Inventory and Noise Mitigation Policy on file in the Commission's files, Salem.)

Mr. Potter explained the current Federal regulations in effect pertaining to highway noise. He stated one important note in the regulation does not require retroactive installation of sound berms or barriers on existing highways or freeways. It can be done with Federal participation if desired by the State and approved by the Federal Government on a case-by-case basis. Mr. Potter mentioned the Department rigidly follows the precepts of the regulation on new construction but has not, to date, pursued any retroactive installation of barriers on existing highways. He mentioned the survey covered 700 miles of interstate freeway and the study did three basic things:

- 1) Measured existing sound levels,
- 2) Counted receptors that are experiencing noise in excess of the design levels, and
- 3) Estimated locations where noise could be reduced and estimated cost of that work.

The significant conclusions are as follows:

- 1) 4,000 receptors along the 700 miles of freeway inventory are in excess of the design noise levels,
- 2) Disregarding finances, it is physically possible to reduce noise levels for 3,500 of the receptors,

(Continued on next page.)

- 3) The cost is some \$140 million in 1979 dollars,
- 4) Interstate 5 is the worst, with 72% of the impacted receptors, and
- 5) There are 1,220 miles of interstate freeway that border undeveloped lands and therefore have potential for future noise conflicts if adjacent land use is not controlled.

Mr. Jeffrey Boly, attorney, appeared before the Commission representing Mr. Donald Kent, Mr. John Groenlund and Mr. Harold Juedes, Mt. Scott Citizens of Portland, concerning the noise problem on the east side of the I-205 Freeway near 92nd and Lester Avenue. Mr. Boly referred to previous correspondence and discussions with Mr. Bothman pertaining to the noise level in the area. He commented on a Highway Division report dated September 13, 1977, which states that traffic noise levels will greatly increase when the remainder of I-205 is completed. The report stated that 23 single-family residences in the area will be above the L 10 70 decibel design level in 1996. Mr. Boly presented photos of the hillside homes in relation to the I-205 Freeway. (Photos on file in the Commission's files, Salem.) He indicated that this residential area was established prior to construction of the freeway. He submitted a petition signed by 52 residents of the area living nearest the freeway requesting the construction of an extensive earth berm on the east side of I-205 to shield the neighborhood from the excessive noise level generated by the freeway traffic. (Petition on file in the Commission's files, Salem.) Mr. Boly pointed out that their group is willing to pay at least one half of the State's 8% share of the cost of mitigating the noise in the area. He said they offer this proposal as proof that their noise problem is very serious. He asked the Commission not to make a policy decision at this time and that they want to seek the opportunity to work with the Department to evolve a written policy proposal to present at a later date.

Chairman Jackson said the Commission appreciates the group's attitude for not asking for an answer at this time, as this proposal will have to be looked into very thoroughly before a decision can be made.

The Commission reconfirmed their April 17, 1979, meeting in Medford and tentatively set May 15, 1979, for their monthly meeting in Salem.

Following Mr. Coulter's recommendation, the Commission unanimously amended Delegation Order No. 16 which authorizes the State Highway Engineer to approve projects, project modification or withdrawal, and execute the necessary agreements with counties, cities, State and Federal agencies, and other units of local governments for Local Agency Interstate Transfer Projects.

Attention was given to an agreement with the City of Beaverton to assume jurisdiction of parallel State highways within their City in exchange for the State accepting maintenance responsibilities for 10 signals presently maintained by the City on the remaining State Highway System. Mr. Coulter said the agreement removes portions of the following highways from the State Highway System and transfers jurisdiction and maintenance responsibilities to the City: 1) Beaverton-Hillsdale Highway No. 40, 2) Beaverton-Tualatin Highway No. 141, and 3) the Farmington Highway No. 142. The agreement also provides for the State to fund or participate in funding certain projects on the Beaverton-Tualatin Highway. In addition, the agreement defines the State's obligation of providing 75% of the match for an improved facility on the Beaverton-Tualatin Highway between Allen Avenue and the Beaverton-Tigard Highway. The Commission unanimously approved the agreement as recommended by Mr. Coulter and adopted "Abandonment Resolution No. 579".

Mr. Coulter presented plaques to the Commission from the Portland Cement Association for the design of the Big Butte Creek Bridge, South Fork of Big Butte Creek (Butte Falls) Bridge, Jackson County, and Harvard Avenue Overcrossing, Garden Valley Road-Fairgrounds Interchange Section, Pacific Highway, Douglas County. Mr. Coulter introduced Walt Hart, Bridge Engineer; Dave Bryson, Ken Archibald and Ray Evonuk of the Bridge Design Section, the individuals responsible for the design of these two bridges.

The Commission considered a Memorandum of Understanding with the League of Oregon Cities and the Association of Oregon Counties pertaining to the Special Highway Bridge Replacement Program. Mr. Coulter said the 1978 Surface Transportation Act requires that between 15 and 35 percent of the Bridge Replacement Funds shall be utilized on structures not on the Federal Aid System. He said this Memorandum of Understanding was developed in cooperation with the Association of Oregon Counties and the League of Oregon Cities, which outlines the process in which to administer this program. Mr. Coulter said it covers the particulars of funding, inventory and inspection, priority determination, programming, application processing, design and participation. He pointed out that participation is on the basis of 80 percent Federal and 20 percent local, with no matching ratio by State on local government projects for both on and off-system projects. Mr. Coulter said the memorandum will serve as an interim document as an agreement is being formulated to set out the regulations. Upon Mr. Coulter's recommendation, the Commission unanimously approved the Memorandum of Understanding and authorized him to sign the agreement in their behalf.

The Commission considered the adoption of a permanent administrative rule for a \$1 across-the-board increase in camping fees in State Parks. Mr. Talbot said there were eight public hearings held throughout the State in January of this year to receive comments on the proposed increase. He mentioned testimony was also received on a proposal to initiate a 50¢ per campersnight fee for hiker/biker campsites located in nineteen areas along the Oregon Coast Trail. He indicated only 36 people testified and most of them were opposed to the increase. There were no adverse comments regarding the hiker/biker campsite fee. The proposal would generate approximately \$500,000 annually in additional revenue.

Mr. Raymond Miller of Lakeside, past-President of Oregon's Good Sam Club and Legislative Chairman of the Good Sam Club International, and Mr. Rolf E. Gilbertson were present. Mr. Miller mentioned that there are over 12,000 Good Sam members in Oregon (recreation vehicle and travel trailer enthusiasts) and the club is not in favor of the proposed increase. Approximately 90% of its members are retired. He recommended at this time not to increase the fees until the parks system has had a chance to put some of their new programs into effect to raise some additional revenue.

The Chairman pointed out that the increase is in the Governor's Legislative Budget and the Ways and Means Committee recommended at the 1977 Legislature and at this session that the Parks Branch become a more self-sufficient operation. The Commission unanimously approved the \$1 across-the-board increase (State Parks Rule No. 39K) as recommended by the State Parks and Recreation Advisory Committee and Mr. Talbot as follows:

Overnight Camping

- | | |
|---------------------------------|-------------------------|
| a) Trailer Campsite: | \$6 per night |
| b) Improved Campsite: | \$5 per night |
| c) Tent Campsite: | \$4 per night |
| d) Primitive Campsite: | \$3 per night |
| e) Hikers/Bicyclists Campsites: | \$0.50 per campersnight |

(Copy of State Parks Rule No. 39K on file in the Commission's files, Salem. Rule was filed with the Secretary of State on March 29, 1979, and published in their Administrative Rules Bulletin on April 15, 1979.)

Following Mr. Talbot's recommendation, the Commission unanimously made the following appointments to the State Parks and Recreation Advisory Committee:

- 1) Appointed Lynn Newbry of Talent to replace Eric Allen for the remainder of his term which expires April 20, 1981.
- 2) Reappointed Warren McMinimee of Tillamook for a four-year term beginning April 25, 1979.

Mr. Moore presented for review and approval suggested revisions to the Governor's Proposed 1979-81 Budget for the Public Transit Division. He asked approval of the goals and policies of the Non-Urbanized Area Public Transportation Program and budget recommendations as outlined in his letter to the Commission dated March 20, 1979. (Copy of memorandum and proposed budget on file in the Commission's files, Salem.) Mr. Moore stated that the major change in the Governor's Proposed Budget is caused by the passage of the Surface Transportation Assistance Act by Congress in the latter part of 1978. With approval of the Act, Section 18, "Non-Urbanized Area Public Transportation Program", (program for areas under 50,000 population) made available \$1,968,400 (estimated) in Federal Funds during the 1979-81 biennium which were not included in the Governor's Budget. Due in part to passage of the Act and decisions by the Urban Mass Transportation Administration, Federal Funds for capital improvement projects in urbanized areas are now handled largely on the basis of regional allocations rather than the former discretionary grant program. Mr. Moore said this means less money could be available for capital improvement projects in three larger areas and this has the most direct bearing on the Governor's Proposed Budget for Lane Transit District. He mentioned there may not be enough Federal money for the State to match on the current 10:10:80 Local-State-Federal matching ratio. Mr. Moore stated it is the staff recommendation to continue supporting the budget for Lane Transit in the amount of \$415,000 under the Reduced Level Budget. It is also recommended to continue support for a Decision Package of \$484,000 with an amendment to allow capital purchases on a 50 percent State and 50 percent local basis when the State runs out of Federal Funds to match. (This matter will be further discussed later in the day. See page 2960.)

Mr. Grover gave a progress report on the Division's new and remodeled field offices. He showed photos of their self-service counters that are now being evaluated before the Division goes into a major production to place them in the major field offices. Mr. Grover said the new field offices are now open in Sandy, Heppner, Madras and Lincoln City. The Stayton office should be ready to open May 1, 1979. The Cedar Hills location is being decided and should be operating on July 2, 1979. He mentioned the Gladstone office lease expires on May 30, 1979, and a new location is under study. A location in McMinnville and East Eugene is also under study. Mr. Grover commented on their offices in Grants Pass, Bend, Medford, Albany, Burns, Astoria and Tillamook.

The Commission considered a request from Mr. Grover to present a request to the Joint Ways and Means Committee for approval to apply for a Federal Grant in the amount of \$248,405 through the Oregon Traffic Safety Commission. He stated the Division has completed the study of problems associated with the current driver license issuance system. (Summary of proposal on file in the Commission's files, Salem.) Mr. Grover pointed out that the study team recommended that the most cost-effective way to solve the problems was to install a distributed data processing system in

the Division's field offices. The Federal Grant will provide funding required for designing and programming the new system. The grant also includes funds to purchase the computer equipment necessary to implement the new system in the Division's Salem office. (Continuation of Mr. Grover's report follows the delegation. See page 2959.)

A delegation from Klamath County and Klamath Falls came before the Commission concerning the Klamath Falls Southside Bypass. Present were:

Alvin A. Cheyne, County Commissioner
Earl E. Kessler, Director of Public Works
George C. Flitcraft, Mayor
Pete Crebbin, Logging Contractor
Lloyd V. Wilson, City Councilman
Senator Fred Heard, Senate Majority Leader
Representative Gary Wilhelms, House Majority Leader
Floyd L. Wynne, County Commissioner
Neil Kuonen, County Commissioner
Jim Watson, City Manager
Harold Howard, City Councilman
Jim Kerns, Roads Advisory Chairman
Dorman Turner, Klamath County Chamber of Commerce and
Klamath County Economic Development Association

Alvin Cheyne handed to the Commission and staff maps of the Klamath Falls urban area and Klamath County allocation summary with project cost sheets. (Copies on file in the Commission's files, Salem.) He recalled that in 1960 the Klamath County Board of Commissioners established a Roads Advisory Committee. At that time the Committee suggested an additional east-west crossing be constructed in approximately the same location that is now being recommended. Mr. Cheyne stated they are here today to offer to construct the green-dashed portion outlined on the map from Washburn Way to the Old Midland Secondary Highway. He said they are asking the State to construct the portion colored in red from the Old Midland Secondary to Highway 97 which will complete the final leg of the Southside Bypass. He indicated that they are not considering a truck route as this will have to be done in the future as a county-city operation.

Earl Kessler referred to the handouts showing the Federal Aid Secondary County funds. He pointed out that the County can accumulate five years of FASC funds toward a major project; 1980-81 is the crucial year for Klamath County. After this year if the County does not use its FASC funds on some project, it will lose them. Mr. Kessler commented on the Klamath County and State's cost summary. (Handouts on file in the Commission's files, Salem.)

Mayor Flitcraft said that he is in complete support of the County's proposal for the Southside Bypass project. He mentioned that their area is growing, traffic flow is increasing and truck traffic on Main Street is to the point that it is dangerous to shop in the downtown area.

Mr. Crebbin said his company operates 40 logging trucks in the Klamath Falls area and are in favor of the construction of the Southside Bypass. He commented on the traffic congestion and the unsafe conditions in routing their trucks on Sixth Street and Main Street.

Lloyd Wilson stated that he is representing the downtown merchants and the Sixth and Main Street intersection is dangerous for the public and the truckers. He urged construction of the bypass so that they can commence the planning for an alternate truck route to remove the trucks from Main Street. (Several photos were presented of a log truck accident and are on file in the Commission's files, Salem.)

Dorman Turner said the area is growing commercially and industrially and the Southside Bypass is 15 years late. The proposed project is a community effort and everyone is in favor of the County's proposal of this project.

Senator Fred Heard mentioned the Klamath Falls metropolitan area has grown to a population of nearly 50,000 people. The population uses the downtown shopping area. He said the usage is good for the commercial enterprises, but it does create a burden to the highway system with a specific trouble spot extending the length of the main business street. The outcome of this traffic strain creates an impossible parking situation, loss of revenue by local businesses, and the heavy traffic is a verifiable safety problem. The Senator said the solution to this problem has been well designed over a long period of time. The bypass of the downtown area is a logical step and he urged approval of the project.

Representative Gary Wilhelms pointed out that the Klamath Falls area is the fifth largest population center in the State at this time. He mentioned that reasons have been given this morning for the need of this bypass and asked the Commission for favorable consideration.

Chairman Jackson said the Legislature is now in session and they are fully aware of the economics of highway construction and maintenance. The Department will not have an answer on the allocation of funds until the Legislature takes final action. The Department is proceeding to investigate through environmental impact studies on this new route. He said the Commission is hopeful that it can come up with some satisfactory answers.

Ernest Drapela, Chairman of the Recreation Trails Advisory Council, appeared before the Commission regarding the new State Trails Plan. (Copies of the plan were previously submitted to the Commission for review and a copy is on file in the Commission's files, Salem.) He mentioned the report includes a brief history, a summary of legislation, the place of trails in land use planning, an inventory of existing trails and a plan for developing the proposed State Trails Plan. He said the plan includes equestrian, bicycle and hiking trails. He commented on their annual report which was submitted in January 1979. The report outlines the status of the State trail developments throughout the State.

Mr. Drapela commented on two items not covered in the plan: 1) The converting of abandoned railroad right of way into trails, and 2) The Desert Trails Association headquartered in Burns. He mentioned the Association has turned a high desert trails system from the north to the south borders of Oregon into a National Trails Plan. The national organization that does designate plans is studying for possible Federal designation. This trail system would then extend from the Canadian border southerly across the deserts of Idaho, Oregon, Nevada, Arizona, and California to Mexico. He said it is a real tribute to the people of Oregon who initiated this effort. Mr. Drapela extended an invitation to the Commission to attend one of their meetings in Wolf Creek, May 11-13, and Hood River, July 20-22. The Commission unanimously approved the State Trails Plan as presented.

Mr. Grover introduced Tony DeLorenzo, Manager of the Motor Vehicles System and Planning. Mr. DeLorenzo stated they are requesting permission to seek Federal funds to install a driver license issuance system. He presented the problem and solution by the use of flip charts. (At 11:40 a.m. Chairman Jackson declared the briefing an informal session.) He mentioned there will be five minicomputers located in Portland, Salem, Eugene, Medford and Pendleton. These locations were chosen to best serve the anticipated workload and to minimize teleprocessing line charges. Each minicomputer would then support terminals in each office. He outlined the tangible benefits and costs. Mr. Grover mentioned there are several States that have systems like this and they are working out very well.

Commissioner Hollern said he didn't know what was happening in this particular phase of computer development. There are many changes now in software and hardware that possibly a six months or a year's wait might pay dividends. He asked Mr. Klaboe and Mr. Grover to look into this matter.

After additional discussion, the Commission gave their approval to appear before the Joint Ways and Means Committee to request for approval to apply for a Federal grant of \$248,405 through the Oregon Traffic Safety Commission.

The meeting recessed at 12 noon for lunch.

The Commission reconvened their meeting in the Director's Office (Room 135), Transportation Building, at 2 p.m. Present were: All of the Commission members, Larry Rulien, H. S. Coulter, Dennis Moore, and Fran Neavoll.

Mr. Moore continued his discussion regarding the Non-Urbanized Area Public Transportation Program and the revisions to the proposed 1979-81 budget. Following Mr. Moore's briefing, the Commission unanimously adopted the program goals, policies and the revised budget. (See copy of program dated March 20, 1979, of goals, policies and budget on file in the Commission's files, Salem.)

In response to the Commission's inquiry regarding the setting up of an accounting system for Public Transit, Mr. Moore said he is recommending retaining a firm of certified public accountants as the Department's Finance Branch do not have the personnel.

There was discussion also concerning the hiring of consultants. The Commissioners requested that they individually review and act on all outside consulting contracts.

The Commission unanimously approved the continued support of the Governor's Budget for Lane Transit in the amount of \$415,000 under the Reduced Level Budget. The Commission also approved the continued support for the Decision Package of \$484,000 with an amendment to allow capital purchases on a 50% State and 50% Local basis when the State runs out of Federal Funds to match.

Mr. Coulter briefed the Commission on the Highway Division's budget by use of flip charts.

The meeting was adjourned at 3:14 p.m.

- (2) Grant of Access to Rupert E. Jamieson at Station 121+00 on the Goble-St. Helens Section of the Lower Columbia River Highway in Columbia County for a consideration of \$1,000.00. File 26409
- (3) Grant of Access to Larry Lee Mattingley for an additional 35 feet unrestricted access at Station 346+80 on the Mill Creek-Belknap Springs Section of the McKenzie Highway in Lane County. File 35193
- (4) Supplemental agreement with City of Eugene for the Westbank #2 Acquisition Project, Willamette River Greenway Program, sponsored by the City of Eugene. The purpose of this document is to extend the time limit to June 1, 1979. The project includes some 14 parcels of land, of which 4 have been acquired by negotiation. The remaining parcels have been condemned and the trial dates set. The City needs the additional time to take the cases through the courts. (Parks Branch)

- (5) Supplemental agreement with Vernon E. Wiard for an extension of an agreement to provide consultant services on the management and operation of the Conference Facility at Silver Falls State Park in Marion County. The original agreement expired December 31, 1978. The contract extension to February 28, 1979, will not alter the original consideration of \$600. (Parks Branch)
- (6) Supplemental agreement with Lane County for the Alton Baker East Corridor Acquisition, Willamette Greenway Project (WP 91-792, HCRS41-00348-37) extending the completion date from December 31, 1978, to March 31, 1979. This project originally included the acquisition of 16 parcels of land with about three-fourths of a mile of river frontage. To date, the County has acquired and billed for 5 parcels and has acquired 3 small parcels by tax foreclosure, for which there will be no billing. They expect to acquire only one more parcel before the amended time limit expires. The remaining 7 parcels will be cancelled. (Parks Branch)
- (7) Agreement with the City of Corvallis concerning construction of the Walnut Park Bikeway in Benton County. The City will prepare the plans, award the contract, supervise construction, and maintain the bikeway. The State will review the plans, monitor construction and contribute a maximum of \$30,000 toward the cost of the project. State monies will be expended from funds which have been designated for the establishment of bicycle-pedestrian trails. (Local Government)
- (8) Agreement with City of Bend to replace the existing two-phase traffic signal on the Central Oregon Highway at 8th Street with multi-phase equipment in Deschutes County. The State will design, install and maintain the signal using Federal Aid Title II Safety funds. The City has agreed to pay all costs of electrical energy consumed in operation of the signals. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and report this action for your official records. EXHIBIT B
MINUTES OF 3-27-79
VEHICLE WEIGHT RESTRICTION
HEPPNER HIGHWAY; ORE 74
MILEPOINT 3.94
GILLIAM COUNTY

An inspection of the Willow Creek Bridge on the Heppner Highway (ORE 74) at Milepoint 3.94 has revealed that flooding conditions have caused damage to said bridge. Damage has occurred to the extent that a reduction in allowable vehicle weights is necessary to prevent further damage to the bridge and to insure motorist safety.

ORS 487.905 gives authority to the Department of Transportation to impose reduced vehicle weight limits. This authority was delegated to the State Highway Engineer by the Oregon Transportation Commission through Delegation Order Number 16, dated March 30, 1976. On December 19, 1978, a temporary rule was adopted by the Oregon Transportation Commission to establish criteria for the State Highway Engineer to follow in imposing such weight restrictions.

Acting pursuant to this authority and in accordance with said temporary rule, I hereby order that:

1. A gross weight limit of 20 tons be imposed upon any vehicle or combinations of vehicles while traveling upon the Willow Creek Bridge and, further, that trucks and busses be restricted to a one-way traffic movement while crossing said bridge.
2. Signs giving notice of this restriction are to be posted in a conspicuous manner at such locations as may be necessary to inform the public.
3. This weight restriction shall be temporary in nature and will be rescinded when the restriction is no longer appropriate.

Signed

RESCINDMENT OF VEHICLE WEIGHT RESTRICTION
HEPPNER HIGHWAY; ORE 74
MILEPOINT 3.94
GILLIAM COUNTY

On February 15, 1979, acting pursuant to authority delegated to me by the Oregon Transportation Commission, and in compliance with rules established under the Administrative Procedures Act, I imposed a 20 ton vehicle weight limit and a one-way traffic movement for trucks and busses while crossing the Willow Creek Bridge at the subject described location.

Repairs have been completed to said bridge and an inspection indicates it is in a condition for carrying normal traffic subject to the one-way traffic subject to the one-way traffic restriction for trucks and busses remaining in effect.

Therefore, the 20 ton weight restriction is hereby rescinded.

Signed

H. S. Coulter
State Highway Engineer

EXHIBIT B
MINUTES OF 3-27-79

VEHICLE WEIGHT RESTRICTION
LEXINGTON-ECHO HIGHWAY; ORE 207
MILEPOINT 0.0 to MILEPOINT 13.6
MORROW COUNTY

An inspection of the Lexington-Echo Highway (ORE 207) between milepoint 0.0 and milepoint 13.6 has revealed that "freeze-thaw" weather conditions have created an unstable condition to the roadbed subgrade. As a result, pavement deterioration has occurred to the extent that a reduction in allowable vehicle weights is necessary to prevent further damage to the highway pavement, possible damage to vehicles, and to insure motorist safety.

ORS 487.905 gives authority to the Department of Transportation to impose reduced vehicle weight limits. This authority was delegated to the State Highway Engineer by the Oregon Transportation Commission through Delegation Order Number 16, dated March 30, 1976. On December 19, 1978, a temporary rule was adopted by the Oregon Transportation Commission to establish criteria for the State Highway Engineer to follow in imposing such weight restrictions.

Acting pursuant to this authority and in accordance with said temporary rule, I hereby order that:

1. A gross weight limit of 10 tons be imposed upon any vehicle or combinations of vehicles while traveling upon the Lexington-Echo Highway between milepoint 0.0 and milepoint 13.6.
2. Signs giving notice of this restriction are to be posted in a conspicuous manner at such locations as may be necessary to inform the public.
3. This weight restriction shall be temporary in nature and will be rescinded when the restriction is no longer appropriate.

Signed

RESCINDMENT OF VEHICLE WEIGHT RESTRICTION
LEXINGTON-ECHO HIGHWAY - ORE 207
MILEPOINT 10.0 - 13.6
MORROW COUNTY

On February 14, 1979, acting pursuant to authority delegated to me by the Oregon Transportation Commission, and in compliance with rules established under the Administrative Procedures Act, I imposed a 10 ton vehicle weight limit at the subject described location.

Repairs have been completed to said highway and an inspection indicates it is in a condition for carrying normal traffic.

Therefore, the 10 ton weight restriction is hereby rescinded.

VEHICLE WEIGHT RESTRICTION
MADRAS-PRINEVILLE HIGHWAY; US 26
MILEPOINT 13.0 to MILEPOINT 26.0
JEFFERSON AND CROOK COUNTIES

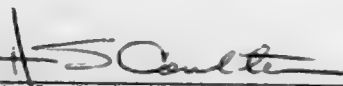

An inspection of the Madras-Prineville Highway (Route U.S. 26) between milepoint 13.0 and milepoint 26.0 has revealed that "freeze-thaw" weather conditions have created an unstable condition to the roadbed subgrade. As a result, pavement deterioration has occurred to the extent that a reduction in allowable vehicle weights is necessary to prevent further damage to the highway pavement, possible damage to vehicles, and to insure motorist safety.

ORS 487.905 gives authority to the Department of Transportation to impose reduced vehicle weight limits. This authority was delegated to the State Highway Engineer by the Oregon Transportation Commission through Delegation Order Number 16, dated March 30, 1976. On December 19, 1978, a temporary rule was adopted by the Oregon Transportation Commission to establish criteria for the State Highway Engineer to follow in imposing such weight restrictions.

Acting pursuant to this authority and in accordance with said temporary rule, I hereby order that:

1. A gross weight limit of 8 tons be imposed upon any vehicle or combinations of vehicles while traveling upon the Madras-Prineville Highway between milepoint 13.0 and milepoint 26.0.
2. Signs giving notice of this restriction are to be posted in a conspicuous manner at such locations as may be necessary to inform the public.
3. This weight restriction shall be temporary in nature and will be rescinded when the restriction is no longer appropriate.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On January 31, 1979, established an overnight parking prohibition on the Pacific Highway East No. 1E beginning at the north end of the Willamette Falls Viewpoint (M.P. 12.90) to the south end of the Willamette Falls Viewpoint (M.P. 13.00) in Oregon City, Clackamas County.
- 2) On February 6, 1979, established a 40 MPH speed zone in the Community of LaPine on The Dalles-California Highway No. 4 from 200 feet north of First St. (M.P. 167.28) to 0.25 mile south of Morson St. (M.P. 168.18), except from M.P. 167.67 to M.P. 167.75 the designated speed shall be 20 MPH when children are present as per the provisions of subsection 2a., of ORS 487.470. (Speed Zone Order No. 799) Deschutes County.
- 3) On February 14, 1979, established a temporary 35 MPH speed zone on The Dalles-California Highway from the Madras-Prineville Highway Junction (M.P. 97.20) to a point 1.27 mile south of the Culver Highway Junction (M.P. 107.00), Jefferson County. As a result of recent cold weather and subsequent warmer weather, the section of highway has suffered a considerable amount of damage. The upheaval of the highway surface has been so serious that Maintenance Crews have not been able to keep the surface in a condition that traffic can drive at the 55 MPH.
- 4) On February 13, 1979, approved a personal and professional services agreement with J. Cecil Kent for a one-day seminar covering communication on the job through transactional analysis on February 14, 1979, at a cost not to exceed \$250. (On March 2, 1979, Voided agreement due to Executive & Administrative Department rules State cannot hire own State employees. Kent works Part-time for Employee Development.)

MINUTES OF B
3-27-79

- 5) On February 16, 1979, established a temporary 40 MPH speed zone on The Dalles-California Highway from 150 feet north of the Modoc Point Highway (M.P. 257.80) to 0.02 miles south of Algoma Road (M.P. 263.00) and from the Klamath Falls-Malin Highway Junction (M.P. 272.61 and 272.61N) to 200 feet north of the Klamath Falls-Lakeview Highway (M.P. 274.80) in Klamath County. As a result of cold weather and subsequent warmer weather, the sections of highway have suffered a considerable amount of damage. Some portions have not been damaged, but will be unless speeds are restricted.
- 6) On February 22, 1979, approved action rescinding Speed Zone Order No. 747 dated June 3, 1977. Rescinds existing 50 MPH speed zone, subsequently leaving a 55 MPH Maximum (Basic Rule under 55) operation on the Coos Bay-Roseburg Highway near the north city limits of Winston (M.P. 73.78) to 300 feet east of Grant Smith Road (M.P. 76.38) in Douglas County.
- 7) On February 28, 1979, established a 30 MPH speed zone in the vicinity of Amity on the Bellevue-Hopewell Highway in Yamhill County from 0.50 mile west of Hwy. 1W (M.P. 5.88) to 0.43 mile west of Hwy. 1W (M.P. 5.95). (Speed Zone Order No. 800)
- 8) On February 28, 1979, established a 45 MPH speed zone on the Umpqua Highway in Douglas County from 0.21 mile west of Beener Road (M.P. 35.41) to 0.25 mile east of Beener Road at the west city limits of Elkton (M.P. 35.87), including a 20 MPH zone when children are present from M.P. 35.43 to M.P. 35.54. (Speed Zone Order No. 801)
- 9) On February 28, 1979, established a 45 MPH speed zone in the vicinity of North Bend on the Oregon Coast Highway in Coos County from 0.04 mile north of North Bay Drive (M.P. 233.35) to 0.55 mile south of East Bay Drive (M.P. 234.03). (Speed Zone Order No. 802)
- 10) On February 28, 1979, established a 45 MPH speed zone from 0.20 mile west of the Drain west city limits (M.P. 50.00) to the Drain west city limits (M.P. 50.20) on the Umpqua Highway in Douglas County. (Speed Zone Order No. 803)

EXHIBIT B
MINUTES OF 3-27-79

- 11) On February 28, 1979, established a 45 MPH speed zone on the Umatilla-Stanfield Highway from Joy Lane (M.P. 3.28) to the north city limits of Hermiston (M.P. 4.33) (Theater Lane) in Umatilla County. (Speed Zone Order No. 804)
- 12) On March 7, 1979, approved and signed a Petition for the vacation of N. E. 101st Avenue in Portland between the Union Pacific Railroad right of way and Marx Street. This street abuts the East Portland Maintenance Station. File 44236.
- 13) On March 5, 1979, approved and signed an agreement with Chemeketa Community College for a crash injury management course from March 19 to March 23, 1979, in the amount of \$660.
- 14) On March 12, 1979, approved and signed an agreement with City of Albany for the acquisition of one parcel of land adjacent to the downstream side of the new highway bridge in Albany. The 0.31 acre parcel has 270 feet of frontage on the Willamette River and is valued at \$32,400; Federal-Aid \$16,200; State participation \$8,100; Local Funds \$8,100. The City has an option on the parcel at the appraised value and is ready to exercise the option. The approval from HCRS for Federal-aid has been obtained. (Willamette Greenway agreement)

SUBJECT: Confirmation Report of Actions Taken Under Delegated
Authority

On behalf of the Commission and under authority delegated to me
to award contracts, I awarded the following contracts:

- 1) Herman Creek Bridge on Forest Lane Road
(FAS Route B436) in Hood River County. Bids
received January 25, 1979. Contract No. 8868
awarded February 8, 1979, to Coast Marine
Construction, Inc., Portland, at \$114,041.
- 2) No. 1 Drain and Lost River Diversion Channel
Bridges on Homedale Road in Klamath County.
Bids received January 25, 1979. Contract No.
8869 awarded February 13, 1979, to Hamilton
Construction Co., Springfield, at \$208,952.
- 3) Camp Creek Road (E.W.E.B. Canal) Bridge on
FAS A463 in Lane County. Bids received
January 25, 1979. Contract No. 8870 awarded
February 20, 1979, to Holst Construction Co.,
Oakridge, at \$182,506.
- 4) Work on the S.W. 170th Avenue Section of the
Tualatin Valley Highway in Washington County.
Bids received January 25, 1979. Contract No.
8875 awarded February 16, 1979, to Cascade
Construction Company, Inc., Portland, at
\$172,565.
- 5) Work on the Rogue Valley Highway at Pine Street
in Central Point, Jackson County. Bids received
February 22, 1979. Contract No. 8879 awarded
February 26, 1979, to Hamilton Electric, Inc.,
Eugene, at \$109,059.03.
- 6) Traffic signal installation on Lancaster Drive
at Hayesville Drive N.E. just northeast of Salem
in Marion County. Bids received February 22, 1979.
Contract No. 8881 awarded March 7, 1979, to
Electric Corp., Salem, at \$27,987.90

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Right of Way Engineer (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Sale of 9,982 square feet excess property on the Marquam Bridge-S.E. 84th Avenue Section of the Mt. Hood Freeway in Multnomah County for a minimum consideration of \$40,500. Approved January 30, 1979. File 44920 (16-43)
- (2) Sale of 0.36 acre excess property on the Brookings-Winchuck River Section of the Oregon Coast Highway in Curry County for a minimum consideration of \$21,100. Approved January 30, 1979. Files 43995, 44496 (16-43)
- (3) Sale of 62,590 square feet excess property on the Lake Road-Oregon City Section of the East Portland Freeway in Clackamas County for a minimum consideration of \$57,500. Approved January 30, 1979. File 28716 (16-43)
- (4) Sale of 3.83 acres excess property on the North City Limits-4th Street Section of the LaGrande-Baker Highway in Union County for a minimum consideration of \$9,570 to the City of LaGrande (supersedes November 8, 1978 approval of \$18,000). Approved February 2, 1979. Files 34183, 34184, 34185, 34186 (16-43)
- (5) Sale of 0.26 acre excess property on the Jump-Off Joe-Grants Pass Section of the Pacific Highway in Josephine County for a consideration of an easement from the purchaser. Approved February 2, 1979. Files 9460, 23286 (16-43)
- (6) Sale of 1.0 acre excess property on the Huntington Section of the Old Oregon Trail Highway in Baker County for a minimum consideration of \$250 to the City of Huntington. Approved January 31, 1979. File 38958. (16-43)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7697 Thomas W. Brown & William A. Brown v. Robert McKnight, et al.: This is a mortgage foreclosure case and the Department of Transportation has some rights in the property by virtue of a deed taken in 1977. The matter has been referred to the Attorney General's office for handling. (Deschutes County)

L-7698 Richard Wayne Loveland v. Peter Kiewitt Sons Co., et al.: This case arises out of an accident that occurred on November 15, 1977 on the Steel Bridge off-ramp in Portland. The plaintiff is alleging negligence on the part of the contractor and the State in failing to adequately sign the area during construction. The plaintiff is also suing another driver that was involved in the accident. The plaintiff is seeking \$150,000 in damages, the matter has been referred to the Attorney General's office for the defense of the State.

L-7699 Esther Stiles v. State of Oregon, by and through its Department of Transportation, Highway Division: The plaintiff alleges that the State reconstructed the highway adjacent to her property and carried away the fence and a tree valued at \$5,000. The matter has been referred to the Attorney General for the defense of the State. (City of Burns, Harney County)

L-7700 Charles R. Cox and Karen L. Cox v. State of Oregon, by and through its Department of Transportation, Highway Division: This is a suit for damages resulting from the reconstruction of the state highway in Burns. The plaintiff had executed an easement for the reconstruction of the highway and claims that the property was damaged because of construction different than that set out in the easement. The plaintiff has attempted to rescind the easement and is suing for \$100,000 in damages. The matter has been referred to the Attorney General for the defense of the State. (Harney County)

L-7701 Mary Jo McWhorter v. Jack C. McCormick, et al.: This lawsuit arises out of an accident that occurred on October 26, 1978 and plaintiff's vehicle was rear-ended by a vehicle driven by defendant. The plaintiff is seeking \$20,000 in general damages and an undetermined amount of special damages. The matter has been referred to the Attorney General's office for the defense of the State. (Oakland-Shady Highway, Douglas County)

EXHIBIT G
MINUTES OF 3-27-79

L-7702 American Economy Insurance Company v. The State of Oregon, et al.: This is a lawsuit seeking contribution from the State of Oregon and three other defendants for monies paid by the plaintiff to its insured who was involved in an accident on February 18, 1977, at the intersection of Lewisburg-Granger Road with State Highway 99W. The alleged cause of the accident was a malfunction of a traffic signal. The plaintiff is alleging that the State of Oregon was negligent in failing to maintain the traffic control signal properly and that the other defendants who supplied the signal controller were negligent in its manufacture. The plaintiff is seeking \$2,074.06 in general damages and medical expenses. The case has been referred to the Attorney General's office for the defense of the State.
(Benton County)

L-7703 American Economy Insurance Company v. The State of Oregon, et al.: This is a companion suit with L-7702 and arises out of the same accident. The plaintiff is seeking \$1,600.37. The matter has been referred to the Attorney General's office for the defense of the State.
(Benton County)

L-7704 Dale R. Olson, Personal Representative for the Estate of Shelly Marie Olson, deceased, v. Oregon State Highway Division of the Department of Transportation: This case arises out of an accident that occurred on October 22, 1977, in which the plaintiff's car went off the highway because of an alleged abrupt edge on the edge of the pavement. The amount of the lawsuit is \$102,337. The matter has been referred to the Attorney General's office for the defense of the State.

MEMORANDUM

TO: Oregon Transportation Commission
FROM: *Dennis H. Moore*
Dennis H. Moore, Administrator
Public Transit Division

SUBJECT: Report of Actions Taken Under Delegated Authority

On behalf of the Commission and under its authority delegated to me to approve and sign contracts, I have taken the following actions since my last report to you on July 11, 1978.

1. Urban Mass Transportation Administration, Section 5--a federal program providing operating assistance to urbanized transit systems on a pass-through basis.

A. Lane Transit District

- (1) A Contract (acting as the recipient) with the Urban Mass Transportation Administration to receive and disburse \$681,237 of federal operating assistance funds for Fiscal Year 1978 to the Lane Transit District (the grantee).
(May 18, 1978)
- (2) A Request for Reimbursement (acting as the recipient) with the Urban Mass Transportation Administration to receive \$275,014 of federal operating assistance funds for Fiscal Year 1978 to the Lane Transit District (the grantee).
(August 7, 1978)
- (3) An Application (acting as the recipient) with the Urban Mass Transportation Administration to receive \$980,499 of federal operating assistance funds for Fiscal Year 1979 to the Lane Transit District (the grantee).
(November 9, 1978)

Transportation Commission
March 19, 1979

EXHIBIT _____ I

3-27-79

B. City of Salem

- (1) A Contract (acting as the recipient) with the Urban Mass Transportation Administration to receive \$518,805 of federal operating assistance funds for Fiscal Year 1978 to the City of Salem (the grantee).
(September 27, 1978)

II. Urban Mass Transportation Administration Section 16(b)(2), a program for capital purchases of vehicles and equipment to be used in transporting elderly and handicapped persons.

- A. A Contract with the Urban Mass Transportation Administration to administer and disburse \$161,012 of federal funds for the purchase of capital equipment to be used in transporting elderly and handicapped persons. Local match of twenty percent is specified for a total budget of \$201,265.
(August 25, 1978)

- B. Under the above federal program for Elderly and Handicapped Capital Equipment Grants, agreements have been signed to purchase eleven vehicles and auxiliary equipment such as wheelchair lifts and radio dispatching systems with the following organizations:

Willamette Chapter - American Red Cross; Salem
(December 21, 1978)

Special Mobility Services; Hillsboro
(December 21, 1978)

Columbia County Council of Seniors; St. Helens
(January 10, 1978)

Forest Grove Senior Center; Forest Grove
(January 10, 1978)

III. Urban Mass Transportation Administration, Section 9--a federal program to assist smaller communities in preparing transit development programs and conducting demonstration programs.

- A. A Contract with the Urban Mass Transportation Administration for \$12,000 in federal funds for a management assistance grant to the City of Corvallis for improved management of transportation operation.
(February 27, 1979)

IV. Federal Highway Administration Section 147 Rural Highway Public Transportation Demonstration Program--a federal program to conduct experimental transportation projects in rural areas. Under this existing program four supplemental agreements were signed with the

Transportation Commission
March 19, 1979

MINUTE _____ I
MINUTES OF 3-27-79

following organizations:

Metro Mobility, Inc.; Gresham
A supplemental agreement to increase federal funding
to \$111,874.
(December 4, 1978)

Forest Grove Senior Center; Forest Grove
A supplemental agreement to increase federal funding
to \$149,944.
(December 26, 1978)

Clackamas County Community Action Agency; Gladstone
A supplemental agreement to increase federal funding
to \$113,874.
(February 14, 1979)

City of Reedsport
A supplemental agreement to extend the project performance
period to February 28, 1979.
(December 26, 1978)

V. Urban-Rural Operating Assistance Program--a State General Funds
Program to support the operation of public transit systems in
Oregon's urban and rural areas. Under this existing program,
four supplemental grants were signed with the following
organizations:

Columbia County Council of Seniors; St. Helens
A supplemental agreement to increase the contract amount
by \$12,507.
(November 1, 1978; Commission approval on October 24, 1978)

Rogue Valley Transportation District; Medford
A supplemental agreement to increase the contract amount by
\$10,452.
(November 21, 1978; Commission approval on October 24, 1978)

City of Roseburg
A supplemental agreement to increase the contract amount by
\$10,592.
(November 14, 1978; Commission approval on October 24, 1978)

VI. Urban and Rural Capital--a State General Funds program to provide
up to one-half the local match requirement under existing federal
programs. As part of the State program, agreements were signed
with the following organizations:

City of Albany
An agreement to provide up to \$16,062.00 of the non-federal share
of costs associated with the acquisition of capital equipment.
(October 30, 1978; Commission approval on March 28, 1978)

Transportation Division
March 19, 1979

3-27-79

Rogue Valley Transportation District; Medford
An agreement to pay up to one-half the cost for purchase of used transit buses, not to exceed \$25,000.
(October 30, 1978; Commission approval on September 19, 1978)

- VII. Urban and Rural Areas Experimental Program--a State General Funds program to accompany the capital and operating funds programs. Funding to be used in the three areas of marketing, planning and assistance, and experimentation. As part of this program, a contract was signed with the following organization:

City of Pendleton
An agreement to reimburse the City of Pendleton up to \$500.00 for expenses directly associated with the conduct of a consultant study on taxi services.
(September 20, 1978; Commission approval on July 18, 1978)

- VIII. Intercity Public Transportation Assistance--a State General Funds program of funds appropriated to the Emergency Board for use in projects improving intercity travel in Oregon. In June 1978, the Emergency Board approved a five-part program to improve intercity transit services. The following contracts were signed:

- A. Port of Portland, Portland
An agreement to reimburse the Port of Portland up to \$23,333 for costs incurred in the feasibility study of the site and design for a Portland Transportation Center.
(October 20, 1978)
- B. Department of Transportation, Highway Division
An agreement to pay \$3,540 to the Highway Division for preparation and installation of intercity bus station information signs in nineteen Oregon cities.
(September 27, 1978; Chairman approval September 19, 1978)

- C.1. City of Newport
An agreement to reimburse the City of Newport up to \$9,000 for costs directly associated with the design, construction, and installation of intercity bus passenger shelters.
(November 13, 1978)
- C.2. City of Tillamook
An agreement to pay \$661.00 for costs directly associated with repair and maintenance of an intercity bus passenger shelter.
(March 9, 1979)
- C.3. City of Astoria
An agreement to pay \$581.00 for costs directly associated with repair and maintenance of an intercity bus passenger shelter.
(February 28, 1979)

Transportation Division
March 19, 1979

I
3-27-79

- D. Polk County
An agreement to reimburse the County in an amount not to exceed \$12,495 for fifty percent of approved operating costs of the Polk County Bus.
(June 30, 1978)
- E. The Pihas, Schmidt, Westerdahl Company
An agreement to pay for time and materials used in accomplishment of a camera-ready layout for an intercity trip guide/ticket jacket. Costs not to exceed \$2,000.00
(January 31, 1979; Chairman approved January 31, 1979)
- IX. Willamette Valley Rail Study Committee--a State General Funds program to investigate and make recommendations on the feasibility of rail service to cities in the Willamette Valley. As part of this program, a contract was signed with the following organization:

University of Oregon Department of Urban and Regional Planning; Eugene

An agreement to reimburse the Urban Planning Department in an amount not to exceed \$500 for costs directly associated with the completion of a cost comparison between highways and intercity rail service. The study will include the average and marginal costs of construction and maintenance of highways and railways.

of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
APRIL 16 - 17, 1979

April 16, 1979
Medford, Oregon

The Commission and staff traveled to southern Oregon by air and van for their monthly meeting. Lunch was served at the Wolf Creek Tavern and Dave Talbot gave a brief history of the historical landmark and explained the recent restoration of the building.

Alfred Shirley, Region Engineer, conducted an afternoon tour of a section of the Crater Lake Highway and Interstate 5, south of Ashland, viewing the Siskiyou Truck Escape Ramp.

A no-host dinner was held at the Red Lion Motor Inn, Medford, with officials from cities, counties and other interested persons in the southern Oregon area.

April 17, 1979
Medford, Oregon

The Oregon Transportation Commission met at 9 a.m. in the Council Chambers of the City Hall. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Glenn L. Jackson, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
F. B. Klaboe, Director of Transportation
Fred Miller, Assistant Director for Administration
George Bell, Manager of Intergovernmental and Public Affairs
David Talbot, State Parks Superintendent
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics Division
Dennis Moore, Administrator of Public Transit
Harold Grover, Administrator of Motor Vehicles
Larry Rulien, Executive Assistant, Administrative and Finance Branch
Alfred Shirley, Region Engineer
Glen Green, Federal Highway Administration
Fran Neavoll, Commission Services
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar: (The agreement with Touche Ross & Co. to provide basic business information, recommendations, and training to be minority business enterprises pursuing highway construction related contracts was removed from the agenda. Mr. Klaboe indicated that this item would be presented at a future meeting.)

- 1) Minutes of the meeting of March 27, 1979.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorizing condemnation. ("Real Property Condemnation Resolution No. 2685" on file in the Commission's files, Salem.)
- 3) Request from the City of Tigard to install traffic signals, provide an interconnected signal system and provide intersection channelization on a 3.2 mile segment of the Pacific Highway West in Washington County. Project will utilize Interstate Transfer Funds withdrawn from the Mt. Hood Freeway estimated at \$807,500 with City of Tigard providing all of the required \$142,500 of local match. (Authorized State Highway Engineer to sign agreement when prepared.)
- 4) Agreement with Associated General Contractors of America, Inc. and Access, Inc., to provide training of minorities and women for 95 persons as piledriver trainees, truck driver trainees and carpenter and cement apprentices in the highway construction industry. This is 100% Federal Funds and is limited to \$100,000.
- 5) Proposal and drafting of agreement for operating the Astoria State Information Center by the Astoria Chamber of Commerce at a cost of \$10,400. Authorized Director of Transportation to sign agreement. (Proposal on file in the Commission's files, Salem.)
- 6) Financial aid to municipalities grant to Crook County and the City of Prineville for the emergency repair of the Prineville Airport main runway and other paved areas necessary for the safe operation of the airport. This grant is not to exceed \$4,000 for required materials, to be matched with labor and equipment furnished by Crook County and the City of Prineville to place the materials. This action constitutes a waiver of approved FAM procedures with regard to the annual application cycle.

- 7) Revision in the criteria to provide units of local government the opportunity to acquire any parcel of property declared surplus to the needs of the Department. (See "Real Property Resolution File No. 727A" on file in the Commission's files, Salem.)
- 8) Adopted permanent administrative rule establishing criteria for the State Highway Engineer to follow in imposing weight restrictions for vehicles or combinations of vehicles operating on State highways. ("Permit Administrative Rule No. 40A" on file in the Commission's files, Salem. Rule was filed with the Secretary of State on April 19, 1979, and will be published in the Administrative Rule Bulletin on May 1, 1979.)
- 9) Research project entitled "Use of Improved Structural Materials Systems in Marine Piling" to be conducted by the Highway Division Research Unit with all costs reimbursed by the Federal Highway Administration. Study will continue until April 1982 at an estimated cost of \$148,800. Granted authority for Gordon Beecroft, Research Engineer, to sign the necessary contracts with the Federal Highway Administration while attending meetings in Washington, D.C. later this month.
- 10) Membership dues to the Oregon Parks Association in the amount of \$25. (An amount of \$15 was approved at the March 27, 1979 meeting which was incorrect.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

Chairman of Transportation Commission
State Highway Engineer
Right of Way Manager
Highway Controller

Exhibit A
Exhibit B
Exhibit C
Exhibit D

The Commission reconfirmed their May 15, 1979 meeting in Salem and tentatively set June 19, 1979, for their following meeting. (May 15, 1979 meeting was changed later to Portland.)

Mr. Coulter reported that the severe winter weather has created an urgent need to overlay sections of the highway throughout the State, especially in eastern Oregon. He recommended approval of the following State projects and to add them to the Six Year Program:

(Continued on next page.)

- 1) Overlay project; Odell Lake-Camp Makualla Road Section, Willamette Highway in Klamath County. Estimated cost of this 9.9 mile project is \$1,500,000.
- 2) Overlay project; Madras-Prineville Highway/ Culver Highway Section of The Dalles-California Highway in Jefferson County. Estimated cost of this 8.3 mile project is \$1,350,000.
- 3) Resurfacing project; Lone Rock Road-Rock Creek Section, Wasco-Heppner Highway in Gilliam County. Estimated cost of this 6.0 mile project is \$156,000.

Mr. Coulter stated there are seven other similar projects that the Division is working on and want to go to contract as soon as possible. The ten projects (including the three above) cover approximately 90 miles in length and the estimated cost is \$10,000,000. He requested authority to add the following projects to the Six Year Program:

- 1) Reoiling project; County Line-Prineville Section of the Madras-Prineville Highway; Prineville-Dry Creek Section of the Crooked River Highway, 10.7 miles, in Crook County.
- 2) Surfacing and paving project; Lexington-M.P. 38.8 Section of the Heppner Highway and Lexington-Bombing Range Road Section, Lexington-Echo Highway, 12.2 miles, in Morrow County.
- 3) Reoiling project; Shaniko-The Dalles-California Highway Section of Sherman Highway, 12.0 miles, in Wasco County.
- 4) Overlay project; S.W. 117th Ave.-Beaverton-Hillsdale Highway Section, Tualatin Valley Highway, 0.8 mile, in Washington County.
- 5) Overlay project; M.P. 4.8-M.P. 16.5 Section of Three Rivers Highway, 11.7 miles, in Tillamook County.
- 6) Surfacing and paving project; Fox-Beech Creek Summit Section, Pendleton-John Day Highway, 9.9 miles, in Grant County.
- 7) Overlay project; M.P. 57-62.3 and M.P. 68-71 Section of Wallowa Lake Highway, 8.3 miles, in Wallowa County.

(Continued on next page.)

Mr. Klaboe pointed out that most of the money for these projects have come from a change in the budget from the Executive Department by reducing the amount of money set aside for salary increases to follow the President's guidelines. Also, there are some carry-over programs that the Department won't be able to get on this year that will be used. He said the Executive Department did increase the income the Department will receive in the next biennium. This is the money that had not been in the budget before that has been added to it. The Commission unanimously approved the ten projects as presented by Mr. Coulter.

The Commission considered approval of 19 Special Bridge Replacement Projects. Mr. Coulter stated the 1978 Federal-Aid Highway Act provided additional Special Bridge Replacement Funds and these projects have been identified as needing reconstruction with these additional funds. Mr. Coulter stated the estimated cost of these 19 projects is \$11,000,000 with Federal participation of \$8,800,000 and State matching funds of \$2,200,000. The Commission unanimously approved the following projects as recommended by Mr. Coulter and authorized him to sign the project agreements on behalf:

| <u>SECTION & HIGHWAY</u> | <u>HWY.</u> | <u>COUNTY</u> | <u>COST</u> |

Mr. Talbot presented a legislative update on the Parks Budget. He said the budget analyst informed him there will be a \$1,400,000 budget cut at this time. He commented that negotiations have been made and they have reduced it by \$500,000. He said it looks like the \$2 surcharge will not be repealed. Mr. Talbot thought the Legislative Committee would be sympathetic to amend the law to preclude Federally-owned or licensed lands which would allow the State to continue to use park grounds on Federal land. He stated Mr. "Stub" Stewart did appear at a Legislative hearing favoring strong support of the bill to repeal it. This bill is still in Committee and will most likely be acted on in a week. There was discussion concerning the neighboring states' parks fees concerning the non-resident camper.

Commissioner Hollern inquired as to the status of the new budget of the grant-in-aid to local Park Districts. Mr. Talbot said it has been reinstated at the \$500,000 level and the Bear Creek Greenway is back in at \$100,000 for the biennium.

Mr. Klaboe mentioned that there are no highway funds in the Parks and Recreation budget at this time. The Parks budget will be taken from the General Fund or other funds. He mentioned the Ways and Means Committee has budgeted the State Police as a General Fund item.

Mr. Burket gave a brief report pertaining to the Oregon Department of Environmental Quality's proposed regulations for the control of airport noise. He recalled that the initial draft of the regulations was distributed by the DEQ the early part of February of this year and reviewed by their Commission at their February 23, 1979, meeting. Informal hearings have been held, which meetings were preliminary only and the proposal has not yet entered the formal rule making process under the Administrative Rules Procedures Act. Mr. Burket presented copies of the March 29, 1979, DEQ Proposed Regulations (with Aeronautics Division's suggested revisions incorporated) to the Commission for their review. (Copy of regulations on file in the Commission's files, Salem.) He mentioned that DEQ will be having informational hearings on their proposed regulations in Pendleton, Salem, Medford and Portland during April and suggested that the Commission attend or send in their comments to the Director of DEQ by May 10, 1979. There was discussion concerning the economic impact of these proposed rules. The Chairman moved and Commissioner Coleman seconded that a resolution be adopted requesting that prior to adoption of the regulations, that DEQ conduct appropriate analysis and publish a report indicating the economic impact of such regulations on the airport proprietors, aircraft operations, affected taxpayers and the general public. The Commission unanimously adopted "Aeronautics Miscellaneous Resolution No. 20" which resolution is on file in the Commission's files, Salem. (See page 3053, May 15, 1979, minutes)

Mayor Al Densmore of Medford thanked the Commission and staff for holding their monthly meeting in Medford. He commented on the air quality in the Medford Valley and its related transportation dimension. The Mayor mentioned the problem of achieving EPA standards in the Medford area. He said if they do all the things that they can as a community to reach EPA levels and standards, he has been told that they would still be in violation of carbon monoxide standards on the State highways that bisect this community. He said these problems will affect transportation projects needed in the future. The Mayor mentioned that he posed the question to Senator Hatfield, who in turn presented it to the Secretary of Transportation, as to whether or not air quality should be considered as criteria regarding new highway construction projects. He mentioned he would relay any response that he would receive from Washington, D.C.

Mayor Densmore asked for a status report of the grant concerning computer traffic signalization which would ease the traffic flow in the City. Mr. Klaboe said that he is aware of the grant and that he will review the matter and report back to the Mayor. Commissioner Coleman inquired of the Mayor regarding the street parking and if this could be eliminated that this would help the traffic flow. The Mayor replied they are working with the merchants on this problem as to the economic impact.

Mayor Joe Sanders of Shady Cove appeared before the Commission calling attention to the heavy traffic flow on Highway 62 in their area as a result of the development of the Lost Creek Recreation Compound and Stewart Park. He mentioned an increasing number of logging trucks and recreational vehicles in the area. The Mayor said that Mr. George Thornton, Resident Highway Engineer, has been very cooperative and helpful to them in the Shady Cove area. He asked that a section of Highway 62 be included in the Six Year Program. He submitted a letter dated April 16, 1979 (copy on file in the Commission's files, Salem) urging the widening of Route 62 from Oregon 238 to Trail in the next five-year program. The Chairman said that the Department is aware of the traffic problem in the Shady Cove area and he informed the Mayor that there is a project scheduled from Trail to Elk Creek in the latter part of 1983 or 1984.

Mr. Jack McMahan, Manager of the Grants Pass Chamber of Commerce, mentioned to the Commission a new funding proposal for the Third Bridge in Grants Pass. He said they would build the bridge with revenue bonds, lease it back to the State for 20 years or whenever the payoff is, then the bridge would belong to the State. He said they are also concerned about the intrastate and interstate air travel. He pointed out that Air West has dropped Medford and that United has been wanting to drop service in Medford for a number of years. Air Oregon, he said, has increased its service but if they are put on an allocation of what it was in 1978, they might not be able to maintain this service. Mr. McMahan said the only

public transportation they have in Grants Pass is bus lines. He mentioned they have a problem with their inter-area transportation and are very concerned of not being able to move goods, services, and people north and south. He said he would like the State to make a study as to the form of public transportation this area should have.

Chairman Jackson stated the Public Transit Division has been working with all communities within the State to try to develop alternate plans to solve some of these problems. Mr. Moore mentioned that if the Legislature passes the Public Transit budget as proposed, there is a new Federal program designed especially for small communities and rural areas to operate bus systems. The program would provide 80 percent Federal money to buy buses that would operate within and between small communities. He said the counties have just been notified of the potential availability of these funds. Hopefully, the developed program will meet the area's needs principally for senior citizens today but also in anticipation of the potential fuel shortages of the future. Mr. Moore pointed out that there will be new money available to address this issue in Josephine County.

Mr. Clifford W. Chaney, Ashland Airport Commission, stated that as a former United Airlines pilot flying 747's into noise sensitive areas that he practiced noise abatement procedures. He referred to Mr. Burket's remarks on page 8 of the Noise Control Regulations for Airports having to do with thrust reductions and maximum climb on take-off. He asked the Commission to examine the thrust reductions and maximum climb on take-off with a great deal of foresight; that this noise sensitive is not only towards the people on the ground but the people that fly aircraft become insensitized to this type of procedure. He said if they don't practice them, they are not as capable; in case they pull the power off and one engine quits, they can have a problem.

Mayor Curt Nesheim of Jacksonville said they are still interested in getting a bypass around their City. He referred to a study that was taken approximately three years ago and at that time the majority of the people favored the north bypass. He indicated the City Council would now favor the north bypass. The Mayor commented on the log trucks, tourist traffic, and the safety of pedestrians. There is no way, he said, to the Applegate Valley and to the Upper Applegate River Dam but through California Street in Jacksonville. He asked the Commission to acquire the right of way for the bypass at this time if funds are available.

Chairman Jackson said the Commission and staff are conscious of the fact that that corridor represents some beautiful homesites and time will unquestionably close it if something isn't done. The Chairman said the problem is finding the money.

Mr. Del Robertson, Construction Coordinator for Josephine County, said the Grants Pass Council and City Manager are unable to be at the meeting this morning and they asked him to inform the Commission that the Number 1 priority project is the Third Bridge for the City of Grants Pass. Mr. Robertson mentioned the City is interested in a heater replaning project on 6th and 7th Streets.

He commented on the manner in which requests for traffic signal installations are reviewed and studied. He referred to the K-Mart development in the area. He said the City feels there should be more flexibility and the State should consider input from local government relative to these kinds of developments. Mr. Klaboe stated the Department has approximately \$4,000,000 in backlog for signal installations Statewide and the Department does work off a priority list of warrants.

Mr. Robertson said the Josephine County Commissioners are in a budget work session this morning and could not attend the meeting. He thanked the Commission for completing several projects in the County during the past two years. He inquired as to the status of remodeling or relocation of the Motor Vehicles Office in Grants Pass.

Mr. Robertson called attention to the concrete structure on the Jacksonville Highway near the Jackson and Josephine County line which has been on and off the Six Year Highway Program. He said the bridge is very narrow with bad alignment and reversing curves. Mr. Robertson stated that this project will be mentioned at the Six Year Plan hearings.

He said there is still a need for a Third Bridge for Grants Pass and realizes that funding is still a problem. He referred to ORS 367 Sub 700 which deals with bonding authority for counties and cities. Mr. Robertson said conceivably they could ask the State to sell bonds for the bridge project which would be one way to fund it at today's prices assuming there is continued progress with the corridor that has been recommended. He pointed out the State could then lease the facility back to the County. There may be some advantages to this as the work could be done sooner at today's prices. He said one of the points of negotiation would be that the State make the lease payments or to pay back on the bonds or possibly the State make the payments on the principal and the County make the payments on the interest.

Mr. Klaboe asked Mr. Robertson to send him some proposals on the financing alternatives.

Ms. Anna Classick, Rogue River City Council and head of the Public Works Department, appeared before the Commission regarding a truck bypass of their town. She said they have a very dangerous condition with the trucks using Main Street and the narrow turns. Ms. Classick stated the bypass would be approximately 2,000 feet in

length, 40 feet wide, and would require two 13-foot box culverts over Wards Creek. The City can manage most of the project but does need some State assistance with the box culverts.

Mr. Klaboe said that there are a number of cities that have requested bypasses but the Department will take a look at the Rogue River problem.

The meeting adjourned at 10:22 a.m.

EXHIBIT B
MINUTES OF 4-17-79

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On March 19, 1979, approved a parking prohibition on the west shoulder of the Oakland-Shady Highway from M.P. 15.20 to M.P. 15.30 in Roseburg, Douglas County.

- 2) On March 20, 1979, established the following speed zones on the Clackamas-Boring Highway in the vicinity of Damascus, Clackamas County:

| | |
|-----------------------------|--------|
| From M.P. 2.35 to M.P. 3.02 | 35 MPH |
| From M.P. 3.02 to M.P. 4.06 | 45 MPH |
| From M.P. 6.67 to M.P. 7.42 | 35 MPH |

except for a 20 MPH speed zone
from M.P. 6.87 to M.P. 6.91
when children are present.

Rescinds Speed Zone Order No. 767 dated
January 17, 1978. (Speed Zone Order No. 805)

- 3) On March 20, 1979, approved a parking prohibition on the east shoulder of the Oakland-Shady Highway No. 234 from a point 300 feet north of Pioneer Way (M.P. 12.33) to a point 200 feet north of Page Road (M.P. 12.45) in Roseburg, Douglas County.
- 4) On March 30, 1979, approved the following parking prohibitions in the community of Mapleton, Lane County:

On the south shoulder of the Florence-Eugene Highway No. 62 from Sweet Creek Road (M.P. 14.58) to a point 150 feet south of East Mapleton Road (M.P. 14.68).

On both shoulders of the Florence-Eugene Highway No. 62 from M.P. 13.69 to M.P. 14.40.

On both shoulders of the Mapleton-Junction City Highway No. 229 from M.P. 0.00 to M.P. 0.07.

EXHIBIT B
MINUTES OF 4-17-79

- 5) On March 28, 1979, approved a letter-form agreement with Jay Jackson, Attorney at Law, (Letter from Attorney General James A. Redden to Jay Jackson dated March 13, 1979) for professional services to represent DOT in three Accident Prevention Division enforcement proceedings wherein there are alleged OSHA violations cited. Period: March 15, 1979 to Dec. 31, 1979.

of the

OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING

held on

APRIL 25, 1979

April 25, 1979
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 11 a.m. originating in Room 135, Transportation Building, Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Glenn L. Jackson, Chairman, Portland
Michael P. Hollern, Vice Chairman, Bend
Peter J. Brix, Member, Portland
B. Gordon Coleman, Member, Eugene
Tom Walsh, Member, Portland
F. B. Klaboe, Director of Transportation, Salem
David Talbot, State Parks Superintendent, Salem
John J. Earley, Public Information Officer, Salem
Bill Nessly, Assistant Attorney General, Salem
Fran Neavoll, Commission Services, Salem
C. W. Head, Manager, Commission Services, Salem

Mr. Talbot said the purpose of the meeting is to consider an agreement with the City of Portland regarding a cooperative project on their "40-mile loop" trail program located in the Marquam Hill Section of the West Hills between the City's Forest Park and the State's Tryon Creek Park (known as Marquam Trail). He mentioned a parcel of land (Landis Tract) is available for sale and the City is requesting the State's financial assistance. The funding would be a combination of State money from the Parks and Recreation budget amounting to \$300,000; Federal Aid through the Land and Conservation Fund in the amount of \$500,000; and gifts being raised by a citizen's group in the area. He stated the agreement would run through June 30, 1979. The funding that is proposed to allocate to the project is available only through June 30 of this year. If the City cannot negotiate a successful agreement with the property owner involved, the money remains with the State. Mr. Talbot stated this matter goes before the City Council this morning. The City of Portland's contribution is in staff time, the cost involved in the development and operations.

Following discussion and Mr. Talbot's recommendation, the Commission unanimously approved the agreement and authorized him to sign it in their behalf.

The meeting adjourned at 11:05 a.m.

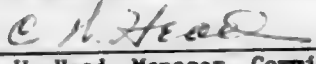

Glenn L. Jackson, Chairman

Peter J. Brix, Commissioner

Tom Walsh, Commissioner

Michael P. Hollern, Vice Chairman

B. Gordon Coleman, Commissioner

C. W. Head, Manager, Commission Services

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
MAY 15, 1979

May 15, 1979
Portland, Oregon

The Oregon Transportation Commission met at 1:30 p.m. in the Conference Room, Metropolitan Office, Department of Transportation, 5821 N.E. Glisan Street in Portland. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Anthony Yturri, Chairman
Michael P. Hollern, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Tom Walsh, Member
F. B. Klaboe, Director of Transportation
George Bell, Assistant Director for Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
Larry Rulien, Executive Assistant, Administrative and Finance Branch
David Talbot, State Parks Superintendent
Dennis Moore, Administrator of Public Transit
Harold Grover, Administrator of Motor Vehicles
Paul Burket, Administrator of Aeronautics Division
Bill Nessly, Assistant Attorney General
R. N. Bothman, Administrator of Metropolitan Branch
Ed Hardt, Region I Engineer
Glen Green, Federal Highway Administration
Fran Neavoll, Commission Services
C. W. Head, Manager, Commission Services

Mr. Anthony Yturri was sworn in as Chairman of the Oregon Transportation Commission at 10 a.m. today in the Governor's Office in Salem. Mr. Glenn Jackson had resigned as Chairman on April 27, 1979, due to his appointment as Chairman of the Economic Development Commission by Governor Atiyeh.

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meetings of April 17, 1979, and April 25, 1979.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2686" on file in the Commission's files, Salem.)
- 3) Oregon's subscription for fiscal year 1980 in the amount of \$31,600 to the Research Correlation Service, an activity of the Transportation Research Board, National Research Council.

- 4) Authorized Right of Way Manager to sign a Petition for Sewer Improvement on Old 99 to I-105 Section of Florence-Eugene Highway in Lane County indicating the State's acceptance of the project and the State's willingness to pay the actual cost assessment by the City when the project is completed. Estimated cost to the State is \$11,730.
- 5) Renewal of memberships in the National Association of State Parks Directors at a cost of \$100 and in the American Rivers Conservation Council at a cost of \$25.
- 6) Addendum with Coit-Petzold covering travel advertising agreement increasing the total amount from \$375,000 to \$379,000. (Authorized Director to sign Addendum.)
- 7) Fiscal Year 1979 allocation of the Special Highway Bridge Replacement Program Funds to the counties, cities, and other local jurisdictions of the State. Estimated costs \$2,541,679; Federal allocation \$2,033,343; Agency costs \$508,336.

| TOTALS | | | \$2,541,679 | \$2,033,343 | \$508,336 |

- 8) Authorized increases in project authorizations on the following contracts:
- a) Contract No. 8639 for work on Rhea Road Relocation, FAS B 452, Gilliam County, in the amount of \$94,679.13. (24.8% increase)
 - b) Contract No. 8673 for a traffic signal installation project on Chetco Avenue at Center Street in Brookings, Oregon Coast Highway, Curry County, in the amount of \$5,100. (13.7% increase)
 - c) Contract No. 8766 for work on the Harlow/Hayden Bridge Road-"Q" Street of Fifth Street North in Lane County, in the amount of \$32,816.68. (8.3% increase)
 - d) Contract No. 8807 for work in Lone Tree Bar State Park in Marion and Yamhill Counties, in the amount of \$36,345. (8.9% increase)
 - e) Contract No. 8709 for grading the N.E. Marine Drive-N.E. Failing Street Section of the East Portland Freeway in Multnomah County, in the amount of \$337,273. (15.9% increase)
 - f) Contract No. 8689 for a traffic signal installation project on the Pacific Highway West at 5th Street in Eugene, Lane County, in the amount of \$8,171.46. (12.1% increase)
 - g) Contract No. 8703 for a traffic signal installation project on the Redwood Highway at Oregon Caves Highway Junction in Josephine County, in the amount of \$6,580. (15.3% increase)
- 9) Adopted resolution amending Survey Resolution No. 320 dated August 25, 1966, covering the Oak Hill-Interstate 105 Section of the Mapleton-Eugene Highway (now Florence-Eugene Highway) in Lane County and authorized the sale of any right of way purchased for that portion of the route between the Pacific Highway West and River Road (formerly Junction City-Eugene Highway). ("Survey Resolution No. 320b" on file in the Commission's files, Salem.)
- 10) Authorized continuing membership in the American Public Works Association and payment of the annual dues of \$600 from May 1979 to May 1980. (This entitles the Department to 24 members.)

- 11) Redesignated US30N with numbers to comply with an AASHTO's "Purpose & Policy" directive dated August 10, 1973. Approved route designations of US95 Spur and ORE201. The directive requested that all US Routes containing cardinal points be eliminated as soon as possible. The following route designations were approved and to make application to the AASHTO Route Numbering Committee for its consideration and approval at their June 1979 meeting:

US95 Spur: Beginning at the Idaho State Line proceeding southerly to the junction of State Highway No. 455 at Weiser Junction.

ORE201: Beginning at the junction of State Highway No. 6 (approximately six miles south of Huntington) proceeding thence southeasterly over State Highway No. 455 to its junction with State Highway No. 7 at Cairo Junction (common with US 30 Business from Old Oregon Trail to the Ontario Spur); thence southerly over State Highway No. 7 (common with US 20 and US 26) to its junction with State Highway No. 450 in Nyssa; thence southerly over State Highway No. 450 via Adrian to the Idaho State Line.

- 12) Temporary rule providing that bicycle lanes shall be separated from the adjacent roadway by a single solid 8-inch wide white stripe on each side of a non-curbed facility. Authorized State Highway Engineer to adopt the temporary rule as a permanent rule through the Administrative Procedures Act. (See "Administrative Rule No. 110" on file in the Commission's files, Salem. Temporary rule was filed with the Secretary of State on May 17, 1979, and will be published in their Administrative Rule Bulletin on June 1, 1979.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

May 15, 1979

- 3048 -

The Commission considered extending an agreement with Ron Linton (Linton, Miels, Reisler & Cottone, Ltd.) as a liaison consultant between the State and Federal Governments covering Federal legislation and regulations. Mr. Rulien mentioned that Mr. Linton's accomplishments had been reviewed and consideration was given to future needs. He recommended the extension of the existing agreement for one year starting July 1, 1979, at the present contract rate of \$2,000 per month. The Commission unanimously approved the agreement and authorized the Director to sign it on their behalf.

Mr. Coulter reported on the fuel consumption. He said for the month of May the Department is under an 80% allocation of gasoline compared to usage for the same month last year. The diesel fuel is 85% of last year's use for the same month. He mentioned the State Police usage of fuel from Highway Division pumps is included in these allocations as there is no separate allocation account for their agency. The credit card usage is not incorporated in the allocation mechanism. Mr. Coulter said the 1978 Transportation Department credit card purchases were approximately 4% of the total gasoline usage and the State Police were about 7% of the quantity they used from the Department's pumps. He mentioned the procedures used in the 1973-74 fuel shortage are still intact and have been reactivated. A meeting is set for May 17, 1979, in Salem with all the regional coordinators to share information available and to review problems. (A detailed fuel report is given in Mr. Coulter's letter to the Commission dated May 15, 1979, and is on file in the Commission's files, Salem.)

There was discussion concerning contractors getting fuel for construction contracts.

In reply to Commissioner Brix' inquiry, Mr. Coulter said there appears to be sufficient asphalt for contractors for this year and for 1980.

Following Commissioner Hollern's suggestion, the staff will report to the Commission at a future meeting on what the tentative priorities recommendations would be if the Department is faced with a 10 to 20% reduction in revenues.

The Commission reconfirmed the next meeting date as June 19, 1979, in Salem and set July 17, 1979, for their following meeting. There was discussion of holding a future Commission meeting in Ontario. No decision was made pending the future of gas supplies.

Attention was given to an agreement with Touche Ross & Company to provide basic business information and training to Oregon highway construction and related minority business enterprises. Mr. Coulter stated 11 proposals were received for this program and 6 proposals were received from minority firms. The proposals were carefully read and evaluated by a Consultant Selection Committee and the Committee narrowed the selection down to 4, then the final selection of Touche Ross & Company. Mr. Coulter said after the selection the Department received 3 complaint letters filed by minority competitors of Touche Ross & Company. One of the complaints was directed to the Federal Highway Administration Regional Director's Office of Civil Rights. This letter prompted a review of the proposals and selection process which was conducted by FHWA personnel on March 14, 1979. He said on March 29, 1979, a letter from the FHWA Regional Office indicated that the Highway Division followed precisely FHWA's approved selection procedures and advised the State to proceed with the award of the contract. Mr. Coulter pointed out the Department's Legal Counsel reviewed the 11 proposals and the selection procedures used and confirmed the results of the FHWA review. Mr. Klaboe mentioned that the purpose of this study is to make minority contractors better bidders. The Commission unanimously approved the 100% Federally-funded program agreement which is limited to \$75,000 and authorized the State Highway Engineer to sign it in their behalf.

Commissioner Walsh said that the Department should be doing more to encourage minority business enterprises that want to do business with the State and to review the unsuccessful bidders proposals with the bidders.

Consideration was given to add an overlay project, a 7.7 mile segment of the North Cascade Highway (82nd Avenue) in Portland from N.E. Portland Highway Undercrossing to S.E. Otty Street in Clackamas and Multnomah Counties. Mr. Coulter stated that this project needs to be overlayed because of the abnormal freezing weather last winter. The estimated cost is \$780,000 and would be constructed with State funds. Following Mr. Coulter's favorable recommendation, the Commission unanimously approved the project and to add it to the Six Year Highway Improvement Program.

Mr. Rulien reported on the traffic signal investigation study. He said the Department has had meetings with concerned elements of the contracting business and discussed the time it takes to install signals. As a result of these meetings, the Department has come up with an in-house proposal. He said a way to save time is for the State to buy and stockpile poles and then supply the poles to the contractors when the jobs are let. He said after these meetings the Department is now working up some standard pole designs and in another month it should be known whether or not the Department can standardize poles and the amount of reduction time in the installation.

Mr. John Gervais, Governmental Relations Director of the National Electrical Contractors Association, was present and referred to their report which was submitted to the Commission and staff. (Report on file in the Commission's files, Salem, and covers the Association's proposals to reduce time lapses in the installation of traffic signal equipment.) He stated the Association disagrees with the preliminary recommendation for the State to warehouse traffic signal poles as it will increase the cost. Mr. Gervais felt that they have developed information that makes a more compelling case for standardization of traffic signal poles, pre-approved drawings of those poles and elimination of several unnecessary steps in the present process to meet the objective. He indicated that they can achieve a situation of getting 120 to 90 days for the installation of poles.

Mr. Rulien stated that a final report will be submitted to the Commission at their June meeting. In reply to Commissioner Brix's inquiry, Mr. Rulien stated the Department has not made a decision yet of stockpiling traffic signals. He said this item will also be covered in the traffic signal investigation report.

Mr. Coulter reported on a proposed Federal Department of Transportation, FHWA, study concerning the involvement of trucks in highway accidents that may be attributable to mechanically unsafe trucks or unsafe drivers. He said they have set up a Commercial Motor Carrier Safety Inspection and Weighing Demonstration Program that they want to undertake using 90% Federal and 10% State Funds. The program would look into the weighing and safety inspection of trucks. Mr. Coulter said the Highway Division Weighmasters have been working closely with the Public Utility Commissioner to see if it would be appropriate for the State to solicit a demonstration program here in Oregon. The Public Utility Commissioner would be the lead agency because the involvement in the State would be more with the inspection of the vehicles and the safety aspects of that inspection than would be the weighing.

There was discussion concerning truck safety. The Commission gave their unanimous approval for Mr. Coulter to proceed toward an application for a Federal grant indicating that the Division is willing to work with the Public Utility Commissioner to undertake the overall study.

Mr. Talbot recalled that in May last year he brought before the Commission Mr. Dean Jackson's request to develop a recreational vehicle campground within the Rogue River Scenic Waterway in the Agness area in Curry County. At that time, he said, a compromise agreement was made with Dean Jackson and the basic features included:

(Continued on next page.)

- 1) A 12-foot planting buffer zone between the campground and the river within which a hedge-like growth would be developed.
- 2) An understanding that the campground would be used for recreational purposes only (not housing), with a maximum of a 90-day occupancy.

He said there have been numerous meetings since last year with Mr. Jackson on his property. The history of these meetings and the Department's experiences with Mr. Jackson, which include disputes regarding the interpretation of the requirements of the agreement and resistance to performance of those requirements, he said, has given the State reason to doubt that Mr. Jackson will fulfill his side of the bargain. Mr. Talbot stated that he will bring this matter back to the Commission at a future meeting for possible legal action. (See Mr. Talbot's written report to the Commission dated May 15, 1979.)

Mr. Talbot reported on the land use planning in the State Parks Program. He indicated there is a problem developing in the local planning process that is becoming troublesome and will be a point of friction between the Department and Local Government which is not wanted. Many units of Local Government are "blanketing" all State Park activities as "conditional uses". He said the conditional use process can require elaborate, lengthy, and expensive time and often has, as a condition of approval, requirements which are not directly related to a proposed project. Mr. Talbot suggested that at some time in the future that it might be appropriate to have a luncheon meeting with the Land Conservation and Development Commission to discuss this problem and other items of mutual interest.

Attention was given to a temporary rule to implement campsite reservations one week earlier than originally planned which will allow the public to use campsites for the Memorial Day Weekend. Mr. Talbot said there have been numerous complaints from park users, coupled with the gasoline shortage, have prompted this change. The Commission unanimously adopted the temporary rule as recommended by Mr. Talbot. (Copy of "State Park Rule No. 39M" on file in the Commission's files, Salem. Rule was filed with the Secretary of State on May 17, 1979, and published in the Administrative Rule Bulletin on June 1, 1979.)

The Commission considered the adoption of a temporary rule restricting nudism to certain portions of Rooster Rock State Park in Multnomah County. Mr. Talbot pointed out that usage of the east beach end of the park for nudes has increased and is expanding to include adjacent parking shelters and picnic areas. As a result, there are more conflicts among the nudes, photographers and sightseers, and the Department is receiving complaints from park users who

object to the nude situations. He said during the 1978 season, signing was placed to warn park users of the presence of nudists in the park's eastern beach area. There is a need now for more controls to keep the nudes from expanding the nude area. Mr. Talbot stated the temporary rule has the approval of the State Parks Advisory Committee. Following Mr. Talbot's recommendation, the Commission unanimously adopted the temporary rule. (Copy of "State Park Rule No. 39L" on file in the Commission's files, Salem. Rule was filed with the Secretary of State on May 17, 1979, and published in the Administrative Rule Bulletin on June 1, 1979.)

Mr. Talbot mentioned that the State Marine Board has recently deregulated private, non-commercial use of the Rogue River which will probably cause a lot of problems as the Department is involved in land use control and recreational use.

Mr. Burket presented a resolution that was approved at the April 17, 1979, meeting in Medford pertaining to the DEQ proposed noise control regulations for airports. He mentioned at the time it was approved the language was not drafted for the resolution. He indicated that Legal Counsel recommends that the resolution be ratified at this time in final form. The Commission unanimously adopted "Aeronautics Miscellaneous Resolution No. 20A" which resolution is on file in the Commission's files, Salem.

Mr. Burket briefed the Commission on the aviation fuel situation in Oregon. He said the airports at The Dalles, Hood River, John Day, Madras, and several locations in the Willamette Valley are out of aviation fuel. This situation has just occurred within the last couple of days. The Redmond Airport is on the air each morning, he said, broadcasting the names of the airports that do not have fuel. Mr. Burket stated that Washington and Idaho are not having any problems. He said that he would contact the Federal Energy Office in Seattle to see if they can help here in Oregon with aviation fuel.

Consideration was given to the approval of the guidelines and application form for the Non-Urbanized Area Public Transportation Program. Mr. Moore said the program is designed to maintain existing public transportation operations and to allocate new Federal Funds for development of public transportation throughout Oregon. He said this program includes both Federal and State operating assistance, capital assistance, and developmental grants for rural areas and cities under 50,000 population. He mentioned that meetings will be held in Bend, La Grande, Portland, Salem, and Roseburg next week to explain the program. He said \$900,000 is available for capital improvement projects and nearly \$1,460,000 is available for operating assistance projects during the 1979-81 biennium. Mr. Moore introduced Erik East, Chief Planner in the Public Transit Division. The Commission unanimously approved the guidelines and application form as presented by Mr. Moore. (Copy of Application Guide in application form on file in the Commission's files, Salem.)

Mr. Moore presented copies of their Annual Report, 1977-1978. He called attention to page 73 in the report which lists an inventory of the various public transit systems. (Copy of Public Transportation in Oregon (Annual Report) on file in the Commission's files, Salem.)

There was discussion whether Ron Linton did any lobbying in connection with the light rail transit system. The Commission asked for a report on the light rail matter at the June Commission meeting.

The meeting adjourned at 2:45 p.m.

Following adjournment, the Commission and staff inspected the Glenn L. Jackson (I-205) Bridge construction on the Columbia River.

A dinner was held in the evening at the Benson Hotel honoring Glenn Jackson for his 20 years of service on the Commission.

MINUTES OF 5-15-79

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On April 10, 1979, approved an agreement with the Utah Department of Transportation covering structural steel inspection for Contract No. 8749 on Echo-Reith Section of FAS B575 (Old River Road) in Umatilla County to be performed at Syro Steel near Salt Lake City. Approximate total cost \$100.
- 2) On April 5, 1979, approved a Supplemental Agreement, Modification No. 8 to Contract No. DOT-FH-11-8164 with the Federal Highway Administration for an extension to June 30, 1980, for development of polymer concrete for bridge deck overlays and concrete patching. Supplement also provides funds for a Highway Division employee to cooperate in the presentation of a seminar "Highway and Bridge Applications of Concrete-Polymer" in Long Island, New York, and to conduct a similar seminar in Salem.
- 3) On April 9, 1979, approved a parking prohibition north of the driveway on the west side of the Pacific Highway East, Highway No. 1E, M.P. 8.65 to M.P. 8.67, in Clackamas County. (Near Safeco Title Insurance Company and Denney's Restaurant in the Oak Grove area south of Milwaukie)
- 4) On April 9, 1979, approved a personal and professional service contract with Accident Prevention Division, Workers' Compensation Department, to check below the water line for any evidence of structural damage, determine the degree of damage inflicted by marine borers, and report findings covering the Weyerhaeuser Company dock area at North Bend, Coos County. (Agreement signed by E. S. Hunter for State Highway Engineer.)

5-15-79

- 5) On April 11, 1979, established a 45 MPH speed zone on the Oregon Coast Highway in Curry County from 0.12 mile east of Deady Street at the east city limits of Port Orford (M.P. 301.48) to 0.39 mile southeasterly of Deady Street (M.P. 301.75). (Speed Zone Order No. 806)
- 6) On April 20, 1979, established certain speed zones on the Northeast Portland Highway east of Portland and in the vicinity of Fairview and Wood Village in Multnomah County. This action rescinds "Speed Zone Rule No. 677" dated November 25, 1974. (See "Speed Zone Order No. 807".) Approved subject to State Speed Control Board action and effective on that date.
- 7) On April 23, 1979, established certain speed zones on the Oregon Coast Highway in the vicinity of the south city limits of Coos Bay in Coos County. Rescinded Speed Zone Resolution No. 545 dated April 22, 1969. (See "Speed Zone Order No. 808")
- 8) On April 4, 1979, approved a personal and professional services agreement with Shipley Associates for a consultant in the field of Technical Writing and Editing Course for April 24, 25, and 26, 1979 not to exceed \$2,500.
- 9) On April 4, 1979, approved a personal and professional services agreement with Shipley Associates for a consultant in the field of Technical Writing and Editing Course for April 17, 18, and 19, 1979, not to exceed \$2,500.

Dated this 5th day of May, 1979

TO: Oregon Transportation Commission

SUBJECT: Report of Actions Taken Under Delegated Authority

Under delegated authority (Delegation Order No. 16) from the Oregon Transportation Commission, subdelegated to the Right of Way Engineer (Administration Order No. 18), I report that I have taken the following actions for your official records:

- (1) Agreement with Southern Pacific Transportation Company for installation of a conduit for a traffic signal at Baseline Street at 10th Avenue in Cornelius in Washington County. Approved April 10, 1979. RR 977 (16-12)
- (2) Sale of 5.15 acres excess property on the Walterville Section of the McKenzie Highway in Lane County for a minimum consideration of \$4,250.00. Approved April 10, 1979. File Q279 (16-43)
- (3) Signed on April 5, 1979, the Indenture of Access approved by Mr. Jackson December 19, 1978 for granting two 68-foot accesses in place of five 25-foot accesses on the S. E. Monterey Avenue-Harmony Road Section of the Cascade Highway in Clackamas County. Files 22689, 22690. (16-45)
- (4) Extension of Service Contract No. 47-002 with the Southern Pacific Transportation Company for the crossing at West Baseline Road in Washington County. Approved March 14, 1979. RR 909 (16-12)
- (5) Extension to Service Contract No. 78-001 with the Southern Pacific Transportation Company for the crossing at S. W. Oak Street in Washington County. Approved March 14, 1979. RR 908 (16-12)
- (6) Amended Agreement with Burlington Northern and A. J. Hendry, Inc. for signal projects at Appleton and Ferndale in Umatilla County. Approved March 12, 1979. RR 917, RR 918 (16-12)
- (7) Service Contract with O W R & N Company for grade crossing protection devices at Pierce Lane in Union County. Approved April 13, 1979. RR 978 (16-12)
- (8) Sale of 4,000 square feet excess property on the Marquam Bridge-S.E. 84th Avenue Section of the Mt. Hood Freeway in Multnomah County for a minimum consideration of \$32,000.00. Approved April 13, 1979. File 47406 (16-43)

Page 2

- (9) Sale of 1.83 acres excess property on the Salem-Stout Creek Section of the North Santiam Highway in Marion County for a minimum consideration of \$5,150.00. Approved April 13, 1979. File 47406 (16-43)
- (10) Sale of 6,000 square feet excess property on the Marquam Bridge-S.E. 84th Avenue Section of the Mt. Hood Freeway in Multnomah County for a minimum consideration of \$12,500.00. Approved April 19, 1979. File 45921 (16-43)
- (11) Sale of 0.03 acre excess property on the S. E. Hinkley Avenue-Lake Road Interchange Section of the East Portland Freeway in Clackamas County for a minimum consideration of \$250.00. Approved August 7, 1978. File 46157 (16-43)
- (12) Sale of 0.28 acres excess property on the N.E. Union Avenue Section of the Pacific Highway East in Multnomah County for a minimum consideration of \$18,300.00. Approved April 24, 1979. File 14789 & 14793 (16-43)
- (13) Agreement with Southern Pacific Transportation Company for relocating signal facilities during emergency repairs at the Judkins Point overcrossing on the McKenzie Highway in Lane County. Approved April 27, 1979. RR 980 (16-12)
- (14) Sale of 3.55 acres excess property on the Mission Junction Emigrant Hill Section of the Old Oregon Trail Highway in Umatilla County for a minimum consideration of \$2,450.00. Approved April 27, 1979. File Q125 (16-43)
- (15) Sale of 0.51 acre excess property on the Arlington Section of the John Day Highway in Gilliam County for a minimum consideration of \$15,000.00. Approved April 27, 1979. File 11280 (16-43)
- (16) Sale of 0.15 acre excess easement for sewer at the Winston maintenance headquarters on the Dillard Highway in Douglas County to the City of Winston. This supersedes approval given July 19, 1978 and is for no consideration, with the City reducing the area and providing a replacement tank and adding a connection. Approved April 27, 1979. File 8775 (16-43)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7706 Mary Ann Leonard v. Darrel James Mienecke, et al., Defendants, and E. L. Cummings, Inc., Third-Party Plaintiff v. State, Third-Party Defendant: This case involves an accident that occurred on March 12, 1978 on Highway 53 near the Salt Creek Falls tunnel. The allegations of negligence against the State relate to the failure to post a warning of ice on a highway. The lawsuit involves the sum of \$9,793.36. The matter has been referred to the Attorney General's office for the defense of the State. (Lane County)

L-7707 Joseph Lance Singleton v. State of Oregon, by and through its Department of Transportation, Highway Division: This case involves an accident that happened on April 6, 1977 on Interstate 5 near milepost 253. The allegations of negligence against the State relate to permitting brush to grow on the median strip to obstruct the view of the guardrail and failing to add safety features at the end of the concrete median. The lawsuit is in the amount of \$100,000 for general damages and undetermined special damages. The matter has been referred to the Attorney General's office for the defense of the State. (Marion County)

L-7719 Lance C. Power, Plaintiff, v. Terry Lee Hale, Defendant and Third-Party Plaintiff, v. Oregon Department of Transportation: This lawsuit arises out of an accident that occurred on March 31, 1977, on Highway 101 in Coos County. The alleged negligence of the State is the blocking of the southbound lane of Highway 101 without giving adequate warning and in failing to post adequate signs warning that the lane was blocked. The amount of the lawsuit is \$25,000 and the matter has been turned over to the Attorney General's office for the defense of the State.

June 19, 1979
Salem, Oregon

The Oregon Transportation Commission met in the Conference Room 122 Transportation Building at 10 a.m. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Anthony Yturri, Chairman
Tom Walsh, Vice Chairman
B. Gordon Coleman, Member
Michael P. Hollern, Member
F. B. Klaboe, Director of Transportation
Jack Sollis, Chief Counsel
Fred Miller, Assistant Director for Administration
George Bell, Assistant Director for Intergovernmental and Public Affairs
H.S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics
Dennis Moore, Administrator of Public Transit
Harold Grover, Administrator of Motor Vehicles
Warren Gaskill, Deputy State Parks Superintendent
Larry Rulien, Executive Assistant to State Highway Engineer
E. S. Hunter, Assistant State Highway Engineer, Technical Services Branch
R. N. Bothman, Administrator of Metropolitan Branch
L. E. George, Traffic Engineer
Robert Judson, Electrical Superintendent
Glen Green, Federal Highway Administration
C. W. Head, Manager, Commission Services

Prior to the meeting, Governor Victor Atiyeh swore in Commissioner Tom Walsh for a second term on the Commission and announced that Mr. Walsh would be the Vice Chairman. (Term: July 1, 1979-June 30, 1983.)

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meeting of May 15, 1979
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2687" on file in the Commission's files, Salem.)
- 3) Adopted resolution removing from the State Highway System the Newton Creek Frontage Road on the Winchester-S. Umpqua River Road Section of the Pacific Highway, north of Roseburg, in Douglas County. ("Abandonment Resolution No. 580" on file in the Commission's files, Salem.)

- 4) Adopted resolution removing from the State Highway System two short segments of old alignment approximately 0.60 mile in length, of the W. Unit, Coast Range Summit Section of the Corvallis-Newport Highway in Lincoln County. ("Abandonment Resolution No. 582" on file in the Commission's files, Salem.)
- 5) Request from the City of Salem and Marion County for a project utilizing Interstate Transfer Funds from the I-305 Freeway. Project will widen and improve a 1.59 mile segment of State Street to a four-lane section between 23rd Street and Lancaster Drive at a total cost of \$4,096,000. That portion of the project between 23rd Street and Airport Road involves reconstructing the North Santiam Highway at no cost to the State. Interstate Transfer Funds for the project are estimated at \$3,481,600 with City of Salem providing \$503,800 and Marion County providing \$110,600 of local match. Authorized State Highway Engineer to sign necessary project agreements.
- 6) Abandoned six damage claims totaling \$6,297.32 as follows:

| <u>CAO #</u> | <u>NAME</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |
|--------------|---|------------------------------|---------------|
| 76-152 | Darlene J. Clapp | Guardrail | \$732.28 |
| 78-308 | James C. Hunter | Guardrail
and
Clean Up | \$1,032.76 |
| 78-354 | David J. Lowe | Guardrail | \$796.16 |
| 79-10 | Robert L. Hampton, Fresh Produce
Express, Double J. Equipment Company,
Rental | Guardrail | \$987.27 |
| 79-81 | Carol J. Davis and Ms. Debra D.
Oberstaller | Bridge | \$1,004.43 |
| 79-92 | George I. Davis, Sr. | Bridge | \$1,744.42 |

- 7) Agreement with Pacific Power and Light Company to furnish electric service to the overnight camping facilities at the Joseph Stewart State Park on Lost Creek Lake in Jackson County.
- 8) Financial aid to municipality grant to the City of Enterprise in an amount not to exceed \$9,000 to be used for a parallel taxiway improvement project on its airport. This action constitutes a waiver of approved FAM program procedures with regard to the annual application cycle.

- 9) Adopted resolution accepting a grant offer from the Federal Aviation Administration for financial assistance in the amount of \$112,000 for construction of an aircraft parking apron, taxiways and fencing at the Lebanon State Airport under the Airport Development Aid Program. Total cost of the project will be \$134,068. ("Aeronautics Miscellaneous Resolution No. 21" on file in Commission's files, Salem.)
- 10) Adopted resolution accepting, as co-sponsor with Curry County, a grant offer from the Federal Aviation Administration for financial assistance in the amount of \$14,619 for a master plan of the Brookings State Airport under the Planning Grant Program of the Airport Development Aid Program. Total cost of the master plan project will be \$17,499. ("Aeronautics Miscellaneous Resolution No. 22" on file in the Commission's files, Salem.)
- 11) Contract with the City of Salem in the amount of \$120,250 to provide matching funds for a Federal capital grant for the purchase of 10 new buses and related equipment.
- 12) Contract with Lane Transit District in the amount of \$265,137 to provide matching funds for a Federal capital grant for the purchase of 10 buses and related equipment, and for the purchase of property and improvements for bus and employee parking.
- 13) Request for additional authorization of \$17,000 to the Rogue Valley Transportation District for the purchase and refurbishment of two used buses and spare parts.
- 14) Amendment to a grant contract with the Tri-County Metropolitan Transit District to provide an additional \$107,000 in matching funds for the Transit Mall and Main Garage Projects.
- 15) Membership in the American Public Transit Association for one additional year at a cost of \$642.
- 16) Agreement with Ted Hallock, Inc., for continuation of the Keep Oregon Livable Program until June 30, 1981, at a total cost not to exceed \$80,000. Authorized State Highway Engineer to sign agreement.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

Chairman of Transportation Commission
 Vice Chairman of Transportation Commission
 State Highway Engineer
 Right of Way Manager
 State Parks Superintendent
 Chief Counsel

Exhibit A
 Exhibit B
 Exhibit C
 Exhibit D
 Exhibit E
 Exhibit F

The Commission considered the adoption of Delegation Orders 21 through 26 and repealing existing Orders 15 through 20. Mr. Sollis stated that the delegation orders delegate certain power to the Chairman, Vice Chairman, the Director, Highway Engineer, and Administrators of the Public Transit, Aeronautics, and State Parks and Recreation Divisions. He mentioned the purpose of replacing the orders is to bring them up to date, especially with the Parks Branch becoming a separate division.

Mr. Sollis stated that copies of these delegation orders were previously mailed to the Commission and he recommended the following changes:

Delegation Order No. 21 (Chairman): Move Item 4 regarding leases, rental agreements, and contracts to Delegation Order No. 22 as Item 9 under the Director.

Delegation Order No. 23 (Highway Engineer): Add Item 59, enter into agreements with other governmental jurisdictions and ski area operators for the removal of snow on the ski area access roads and parking areas. Add Item 60, enter into agreements with other governmental jurisdictions and snowmobile clubs for the grooming of snowmobile trails and for the removal of snow on snowmobile parking lots.

The Commission unanimously adopted Delegation Orders 21 through 26, and the changes as presented by Mr. Sollis. The Commission also repealed Delegation Orders 15 through 20. (Copies of delegation orders on file in the Commission's files, Salem.)

Attention was given to a 5-year agreement with SEE Design and Productions, Inc., of Salem, to operate 14 (gazebos) information centers and rest areas throughout the State. Mr. Sollis said the agreement provides for the concessionaire to pay the Travel Information Council \$410,000 for the concession, \$100,000 on cash and execution of the agreement. He said the Council had advertised for bids and only one bid was received from SEE Design. Mr. Sollis indicated the agreement has been approved by the Travel Information Council and the Executive Department. Following his favorable recommendation, the Commission unanimously approved the agreement and authorized the State Highway Engineer to execute the agreement. (See June 29, 1979 telephonic meeting for rescinding the agreement.)

Mr. Bothman reported on the Portland Freeway Study of the "I-5, North Freeway Improvement and Management Program." (Report was previously furnished to the Commission and a copy is on file in the Commission's files, Salem.) He said the purpose of the study is to develop a more direct and improved access to and from the Swan Island area from I-5 and to improve the traffic flow on a six-mile section of I-5 between the Marquam Bridge and the Interstate Bridge.

Mr. Bothman stated that there has been a need for a second access to the Swan Island industrial area which consists of approximately 600 acres. He referred to a map showing Swan Island in relation to I-5 and pointed out the various accesses that were studied. He indicated the Greeley Ramp is the only logical access choice.

Mr. Bothman said the plan calls for the following:

- 1) Widening the north and southbound section of I-5 at the east end of the Marquam Bridge to three lanes in each direction;
- 2) Widening the I-5 section through the Portland Boulevard Interchange to three lanes in each direction;
- 3) Widening I-5 southbound at the Fremont Bridge exit to five lanes;
- 4) Adding a third lane from the Fremont Bridge on-ramp to the Broadway Street off-ramp southbound;
- 5) Construction of additional lanes northbound from the Morrison Bridge through the Fremont Bridge Interchange.

Mr. Bothman mentioned a ramp metering system is proposed on all I-5 on-ramps between the Marquam and Interstate Bridges. Traffic signals would be placed at freeway entrances to control the volume of cars entering the freeway. The estimated cost of the project as outlined in the report is \$41,500,000 with 92% Federal participation and 8% State.

Mr. Klaboe pointed out that Secretary Brock Adams was in Portland recently and indicated a tentative approval of the Greeley Ramps, contingent on the Transportation Commission's approval of proceeding with the improvements of Interstate 5. The Commission unanimously approved the preliminary engineering and the concept as outlined in the study report subject to such modification and adjustment as more detailed design work may support and adding the projects in this management program to the Six Year Program at its next update. Approval was predicated on:

- 1) Approval by the Federal Highway Administration for funding of the project or projects under the Interstate Program, and
- 2) Availability of sufficient Interstate Funds to do the work.

Attention was given to an agreement with Petzold and Associates, Inc. of Portland to handle the tourist advertising program for the Department. Mr. Bell mentioned that the proposed contract is for a 2-year period commencing July 1, 1979, to June 30, 1981, and the expenditure limitation is \$800,000 for advertising and marketing. The

Commission unanimously approved the agreement as recommended by Mr. Bell (subject to budget approval by the Governor and the Legislature) and authorized the Director to sign the agreement.

Mr. Bell handed to the Commission a current legislative report and commented on the status of some of the major bills. (Copy of legislative report on file in the Commission's files, Salem.)

The Commission reconfirmed the next meeting date as July 17, 1979, in Salem, and set August 21, 1979, for their following meeting.

Attention was given to the adoption of temporary rules concerning the movement of mobile homes and modular housing units. Mr. Coulter explained the temporary rules will be effective for 120 days upon filing with the Secretary of State, and during this period, a hearing will be held on the proposal and, if appropriate, permanent rules will be recommended for adoption. Upon Mr. Coulter's favorable recommendation, the Commission unanimously adopted the following as temporary rules:

- 1) Repealed present requirements that double-wide units being transported one half at a time must be towed with eave overhanging shoulder side of roadway. ("Permit Administrative Rule No. 32B" on file in the Commission's files, Salem.)
- 2) Repealed present requirement that a rear pilot car accompany units 12-feet wide or greater on certain selected two-lane highways. The rule authorizes the State Highway Engineer to designate additional two-lane highways on which the rear escort vehicle would not be required. (Requirement for front pilot car to remain in force.) The rule also adopts WASHTO standards for "oversize load" sign. ("Permit Administrative Rule No. 32C" on file in Commission's files, Salem.)
- 3) Adopted HUD standards for wheels, axle, brake and tire specifications. This rule also reinstates a previous temporary rule pertaining to movement of modular units under wind conditions when hauled on trailer-semitrailer combinations. ("Permit Administrative Rule No. 32D" on file in the Commission's files, Salem.)

The above three temporary rules were filed with the Secretary of State on June 20, 1979, and published in their Administrative Rule Bulletin on July 1, 1979.

Mr. Coulter recalled that the Commission on January 11, 1972, adopted the 1971 edition of the Manual on Uniform Traffic Control

Devices as a statewide standard with certain exceptions. He said a new manual has been received from the Federal Highway Administration and the Division has been working through the Association of Oregon Counties and the League of Oregon Cities to obtain local governmental input. The input received will be utilized in preparing the list of supplements and exceptions. Mr. Coulter mentioned the new manual with modifications will be ready to present to the Commission at the July meeting.

Mr. Coulter stated that the Highway Division budget has come out of the full Ways and Means Committee but has not yet been acted upon by the House or Senate. He mentioned the Committee has approved a 1979-81 Highway Division budget of approximately \$780 million. This amount includes some additional Federal funding because of heavy expenditures on the Interstate, especially I-205 and the new I-205 Bridge over the Columbia River. He said there has been over \$75 million added to the Governor's printed recommendation for preservation of the roads and structures. Mr. Coulter stated after the Legislature approves the budget, he will make recommendations regarding an accelerated pavement rehabilitation program.

Mr. Coulter commented on the Annual Unified Work Program for Transportation Planning and Research. He pointed out that the document lists all the planning and research activities proposed for the Department during Fiscal Year 1980. The annual work program is required by the Federal Government and is funded by various Federal, State and local planning funds. He mentioned the total projected budget for 1980 is \$4,062,000. The Commission indicated that they would like to receive copies of the program each year. (Copies of the 1980 program were previously mailed to the Commission and a copy is on file in the Commission's files, Salem.)

Mr. Rulien commented on the traffic signal investigation study. He said the staff and other interested parties have been working to try to speed up the installation time of the signals. Mr. Bob Judson stated the major part of the traffic signal maintenance is the environmental testing of all equipment prior to the time it is installed. He mentioned the testing is done in three categories: physical inspection, environmental test, and operational test. The time involved in testing one unit is five days. Mr. Judson said the contractors have been advised to allow up to six weeks for testing. The testing procedure that the State uses follows very closely the testing standard adopted by the National Electrical Manufacturers' Association. Mr. Judson explained the operation of a 4-phase movement controller, which was on display.

Mr. L. E. George discussed the time consumed in the installation of signals on a contract basis. He referred to a time chart on display and indicated the signal poles and controllers are the cause

of the rather lengthy time involved in the contracting procedures. He said it requires approximately 34 weeks to receive the poles. The time from the bid opening to the award of contract averages approximately 2 weeks. After the award of the contract, the contractor averages about 6 weeks to place the pole order. Mr. George mentioned after the delivery of the poles to the job site, a signal project is normally completed within 5 weeks. The total time from beginning to end is approximately 285 days.

Mr. George stated at a recent meeting with representatives of the major pole manufacturers and electrical contractors, it was decided the State would alter its pole design to more closely conform to what the representatives thought was standard industry practice and also more closely conform to some of the designs used in other Western States. He said new detail sheets, plans and specifications have been forwarded to the manufacturers asking for their review and comments. After the material is returned, the Department can place into effect a design that would be acceptable to the industry and the State. He pointed out with standardizing the design of the poles, it is anticipated the time from bid opening to completion can be reduced to 24 weeks and possibly to 21 weeks by January 1980.

Mr. George stated it is the staff's recommendation that the Commission approve the continuation of the contractor supplying the materials and that the Division will review the process for the balance of the year and will then report to the Commission in January 1980. The Commission unanimously approved the concept as recommended.

Mr. Gaskill reported that the 1979 Legislature has requested the establishment of a Recreational Vehicle Advisory Committee for the purpose of evaluating the use and financing of State park facilities for recreational vehicles. He said the Committee would be established for a one-year period from June 30, 1979, to July 1, 1980 and would be composed of five members, as follows:

Chairman Norm Howard (Parks Advisory Committee)
Three persons appointed by the Good Sam Club
One person appointed by Trailer Life Show, Inc., to represent the manufacturers and dealers.

The Committee would serve without pay, but would be reimbursed for necessary expenses in the performance of their duties. The Commission unanimously approved the establishment of this Committee and adopted "State Parks Resolution No. 42", which resolution is on file in the Commission's files, Salem.

Mr. Gaskill gave a brief overview of the Parks Branch budget. He mentioned there is an increase of 4 percent over the current biennium. The budget includes all the Federal pass through monies - the Land and Water Conservation funds which go to the local entities. Mr. Gaskill stated \$600,000 in grant-in-aid monies have also been added.

Mr. Burket reported the Aeronautics Division's budget has passed the Legislature and has been signed by the Governor. He indicated there is a 9.2 percent increase over the 1977-79 budget. The increase is primarily for the two new positions authorized by the Legislature and the Governor's office, including approximately \$1½ million in Federal funds for airport construction. He stated the overall budget increase is approximately 23 percent because of the 45 percent increase in Federal funds.

Consideration was given to the approval of procedures for settling disputes with private public transportation operators. Mr. Moore said Federal rules governing implementation of public transit assistance programs for nonurbanized areas require establishment of procedures for settling disputes. He stated that with substantial increases in the Department's program levels and potential new contracts, there could be occasional conflicts between applicants and local private operators. The procedures, he said, are designed to encourage settlement of conflicts at the local level whenever possible and unresolved disputes would be referred to the Commission. The Commission unanimously approved the procedures as recommended by Mr. Moore. (Copies of the procedures on file in the Commission's files, Salem.)

Mr. Moore stated that the Public Transit budget of approximately \$15.7 million passed the full Ways and Means Committee this morning. He commented on House Bill 5063 which would change and increase the Highway Fund Federal Fund limitation, in order to receive the Federal funds and to spend them for the Banfield Corridor project. He said the Legislature appropriated \$16.1 million for the Light Rail project to be placed in a special fund to earn interest. The Legislature gave the Department the authority to spend only \$4.6 million of those funds for the Light Rail project in the next biennium.

Mr. Moore also commented on the Salem Transit System, Lane Transit System, the new Federal program covering small cities and rural areas and the Mid-Willamette Valley Rail Study Committee.

Upon the recommendation of Mr. Moore, the Commission adopted a resolution urging Congressional action to continue funding of the Pioneer passenger train (AMTRAK) serving Seattle, Portland through Eastern Oregon to Salt Lake City for a period of twelve additional months to observe the current growth trend during the crucial months ahead. Vice Chairman Walsh voted against the resolution. ("Miscellaneous Resolution No. 265" on file in the Commission's files, Salem.)

Mr. Grover stated the Motor Vehicles Division 1979-81 budget has passed both Houses and has gone to the Governor for signature. He mentioned the overall budget is \$34,118,959, which is approximately an 11 percent increase over the present biennium.

Mr. Grover said that their Division has been implementing the new automated testing machines this past week in Portland, Salem and Eugene. (The machines replace the written portion of driver examinations.)

The meeting adjourned at 11:58 a.m.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

- 1) On May 15, 1979, I approved a second supplemental agreement with Ernest W. Hahn, Inc., which modifies the method of payment for a developer-financed project for highway improvements on 82nd Avenue (Cascade Highway North) to accommodate the Clackamas Town Center. Instead of the normal cash advance deposit for 100% of the estimated cost, the Company will have an irrevocable letter of credit and will deposit a sufficient amount to pay all costs on a monthly basis.
- 2) On May 15, 1979, I approved an agreement with the City of Grants Pass to construct a sewer facility to the Highway Division Maintenance Station which is presently outside of the City of Grants Pass. The total cost of the project is \$253,795.26. The Highway Division is responsible for this entire amount. There is a provision in the agreement which provides that all property owners between the Highway Division Maintenance Station and the beginning of the sewer project who hook up to the sewer project must pay the City a hook-up charge which will be reimbursed to the State. Some people have already agreed to hook up to the sewer and their costs amount to \$18,530.28. If all intervening parties hook up within the next 10 years the net cost to the State will be about \$8,000.

- (2) Agreement with Jackson-Josephine Job Council through its agent, The Youthworks, Inc., as Program Operator, providing CETA youth for work in lawn and landscape areas in District 8. (Personnel Operations)
- (3) Renewal of an agreement with Malena G. Konek to operate the hotel and food service facility for the public at Frenchglen State Wayside for a term beginning January 1, 1979, and ending December 31, 1981. The lessee will pay the State a minimum of \$75 per month or 3 percent of the gross sales, whichever is greater, from the operation of the hotel and food service facilities and from all other revenue-producing facilities on the premises. (State Parks)
- (4) Agreement with the City of Bend to provide emergency vehicle pre-emption devices on traffic signals at the intersection of the Central Oregon Highway (Greenwood Avenue) and 8th Street. The State will furnish, install and maintain the equipment and the City will pay 100 percent of the cost of equipment and installation. (Local Government)
- (5) Agreement with the City of Beaverton to allow the City to intersect the Tualatin Valley Highway by construction of Watson Avenue, and install traffic signals at the new intersection. The State will monitor the work and, upon completion, maintain the signal equipment. The City will design, construct and pay all costs of the project, and assume all responsibility for electrical energy to operate the traffic signals. (Local Government)

- (6) Agreement with the City of Tillamook for the installation of emergency vehicle pre-emption devices on traffic signals on the Oregon Coast Highway (Main and Pacific Avenues) at its intersection with the Wilson River Highway (3rd Street). The State and City will each pay 50 percent of the installation cost. (Local Government)
- (7) Agreement with the City of Lebanon for installation of traffic signals on the Santiam Highway at Airport Road and improvement of the Oak Street intersection. The State will design, install and maintain the signal equipment using Federal Aid Transition Quarter funds. The City has agreed to pay all costs of electrical energy consumed in operation of the signals. (Local Government)
- (8) Agreement with Klamath County for the installation of traffic signals on the Klamath Falls-Lakeview Highway at Gettle Avenue just east of the City of Klamath Falls. The State will design, install and maintain the signals and the County will pay for electrical energy for operation. The State and County will share equally in all costs of the project without Federal Aid participation. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and on the previous page (totaling 8 items) and report this action for your official records.

Dated this 31 day of May, 1979

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

- 1) On April 30, 1979, I approved an agreement with Fortek, Inc., for operation, policing, and maintenance of the overnight camping facilities and day use area of Ainsworth State Park in Multnomah County from May 1, 1979, to December 31, 1980. Monthly payment will be \$1,357.15 for services that will include very extensive responsibility for operations of the Park, including janitorial, building and facility maintenance, safety and fire protection and camping registration.
- 2) On May 3, 1979, I approved an agreement with the Coos Bay-North Bend Water Board to connect the Sunset Bay State Park water system, Coos County, to the municipal water system. The existing Sunset Bay system, which also serves Shore Acres & Cape Arago State Parks, no longer meets Federal Standards. A lump sum payment of \$54,500 will be advanced to the Water Board immediately on execution of this agreement to cover the cost of constructing a 6-inch connecting pipe and installing a booster pump. After construction, the cost difference will either be refunded to the State or paid to the Water District. A portion of the existing water mains and the 25,000 gallon water reservoir will become the property of the Coos Bay-North Bend Water Board. Construction of the new facilities will be completed within 1 year from the date this agreement is executed. If the water system is not constructed, the Board will refund the money paid by the State.

- (2) Agreement with John M. Peila, Bureau of Land Management and the Highway Division for fencing on the Lakeview-Burns Highway between M.P. 10.16 and M.P. 23 in Harney County. Cost \$23,963.50. State to furnish steel fence posts at a cost of \$8,662.50. (Maintenance)
- (3) Agreement with Oregon State University, on whose staff is the State's only experienced historic sites archeologist, to conduct a search of public records and other historical documents to determine the exact location of the various buildings which once comprised Jason Lee's Willamette Mission. Some doubt exists as to the Mission's actual location. State Parks desires to acquire the Mission site - if it can be determined - as an addition to Willamette Mission State Park, Marion County. The survey will be completed by June 9, 1979. No archeological excavations are authorized under this contract, which is not to exceed \$1,716.00. (Parks Branch)
- (4) Agreement with Douglas County for State to relinquish the Newton Creek Frontage Road right of way easterly and parallel to I-5, north of Roseburg. (Winchester-South Umpqua Road Section, Pacific Highway) Included in the agreement is that the County will at the time of transfer accept all jurisdiction and control of the section and maintain it as a part of its County road system. The section involved is approximately 0.74 miles in length. (Local Government Unit)

- (5) Agreement with City of Warrenton for construction of the South Unit, Astoria-Camp Rilea Section of the Oregon Coast Highway in Clatsop County. The State will design and construct the project using Federal Aid Primary Funds. The City has agreed to the necessary street closures and will cooperate to effect the adjustment of any conflicting utility installations. (Local Government)
- (6) Agreement with Tillamook County for State to transfer jurisdiction to the County a short segment of the existing Oregon Coast Highway, State Primary Highway No. 9, after construction of the Little Nestucca River Section. Also included in the agreement are provisions for the abandonment of two short segments to the abutting property owners after construction of the new alignment. The distances involved are approximately 0.23 miles to be transferred to the County and approximately 0.30 miles to be abandoned to the abutting property owners. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and on the previous page (totaling 6 items) and report this action for your official records.

Dated this 15 day of May, 1979

Michael P. Hollern, Vice Chairman
Oregon Transportation Commission

State Highway Engineer

C
6-19-79

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On May 5, 1979, amended "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949, as follows:

All northbound traffic on the Hillsboro-Silverton Highway shall stop at its intersection with Main Street. All southbound traffic on the Hillsboro-Silverton Highway shall stop at its intersection with Oak Street. (City of Silverton, Marion County)
- 2) On April 26, 1979, approved a personal and professional services agreement with Shipley Associates for a Technical Writing and Editing Course in Region 1 for May 1 and 2, 1979, at a cost not to exceed \$2,216.
- 3) On May 9, 1979, approved a personal and professional services agreement with D. Douglas Dent, timber falling consultants, to conduct seven one-day classes at Roseburg, Grants Pass, Port Orford, Corvallis, Silver Creek Falls State Park, Astoria, and Portland to teach safe and efficient tree-falling, limbing, and bucking to approximately 500 Parks and Highway Division employees. First class will be held on or about May 17, 1979, and remaining six classes will be completed before June 30, 1979. Cost not to exceed \$2,450.
- 4) On May 14, 1979, approved a personal and professional services agreement with Pinnell Engineering to prepare and teach a critical path scheduling seminar in Bend on May 23, 1979, not to exceed \$1,690.
- 5) On May 18, 1979, approved a personal and professional services agreement with John B. Woods, Jr. to develop two meadows in the Elmer Feldenheimer Forest Preserve in Clatsop County at a cost of \$800. (Mr. Woods is a retired Hwy. Div. employee who previously served as a consultant on timber evaluation and management during complicated land exchanges with private owners & timber companies on establishment of Elmer Feldenheimer Forest Preserve. This is a second contract.)

6-19-79

- 6) On May 24, 1979, approved a personal and professional services agreement for a Professional Development for Women Seminar on July 10 and 11, 1979, at a cost not to exceed \$750 with Jean H. Names.
- 7) On May 24, 1979, established a 45 MPH speed zone on the Jacksonville Highway No. 272 from 200' E. of Wagon Trail Dr. (Miller Gulch) (M.P. 31.64) to WCL of Jacksonville (Smith St.) (M.P. 32.41) in Jackson County. This action rescinds "Speed Zone Rule No. 785" dated September 5, 1978. ("Speed Zone Order No. 809")
- 8) On May 24, 1979, established a 45 MPH speed zone on the Wallowa Lake Highway No. 10 from the city limits of Lostine (M.P. 55.28) to city limits of Lostine (M.P. 55.49) in Wallowa County. This action rescinds "Speed Zone Resolution No. 394" dated June 10, 1963. ("Speed Zone Order No. 810")
- 9) On June 7, 1979, established a 30 MPH speed zone on the Klamath Falls-Malin Highway No. 50, Klamath County, as follows:

From the City limits (100' W of Roosevelt St.)
(M.P. 14.34) to Roosevelt St. (M.P. 14.36).

From Roosevelt St. (M.P. 14.36) to ECL of
Merrill (0.13 mi. E of Roosevelt St.) (M.P. 14.49).

From ECL of Merrill (0.13 mi. E of Roosevelt St.)
(M.P. 14.49) to 0.16 mi. E of Roosevelt St.
(M.P. 14.52).

This action rescinds "Speed Zone Resolution No. 429, dated December 18, 1963. ("Speed Zone Order No. 811")

Dated this 8 day of June, 1979.

Department of Transportation
PARKS AND RECREATION BRANCH
525 TRADE STREET S.E., SALEM, OREGON 97310

TO: Oregon Transportation Commission
SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records.

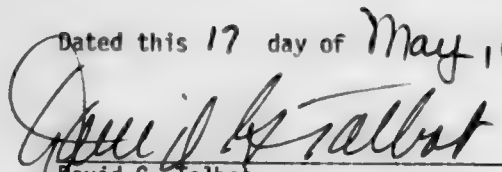

On 10 April 1979 approved Eric Ward's application to construct three houses for ranch employes within the Deschutes River Scenic Waterway in Wasco County.

On 13 April 1979 approved Oregon Department of Fish and Wildlife's application to place two mobile homes within the Clackamas River Scenic Waterway in Clackamas County.

On 25 April 1979 approved Tom Gebhardt's application to construct a single-family dwelling within the Clackamas River Scenic Waterway in Clackamas County.

On 25 April 1979 approved YMCA Camp Collins application to construct a new restroom facility within the Sandy River Scenic Waterway in Multnomah County.

Dated this 17 day of May, 1979

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records.

On May 14, 1979, approved an agreement with the Boy Scouts of America, Columbia Pacific Council, granting to the State an easement and right-of-way for the construction, reconstruction, improvement, use, operation, patrol, and maintenance of a foot path known as the Oregon Coast Trail, over, upon, along and across BSA property in Tillamook County.

On May 11, 1979, approved Kenneth Allen's application to construct a single family residence within the Rogue River Scenic Waterway in Josephine County.

On May 18, 1979, approved B. A. Hanten's application to place a single family residence within the Rogue River Scenic Waterway in Josephine County.

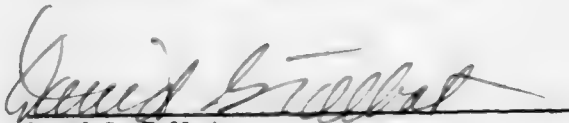

On May 18, 1979, approved J. R. Woodcock's application to place a mobile home within the Clackamas River Scenic Waterway in Clackamas County.

On May 22, 1979, approved B. A. Hanten's application for an addition of caretaker's quarters to existing boathouse within the Rogue River Scenic Waterway in Josephine County.

On May 30, 1979, approved the sale of two parcels of excess land in Nehalem Bay State Park, Tillamook County, to Jack T. Hogan.

Approved a deed to relinquish and quitclaim back to the City of Condon, Gilliam County, a piece of property for public park purposes. No monetary consideration was involved. June 8, 1979.

Dated this 8th day of June, 1979

David G. Talbot
State Parks Superintendent

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7723 LaDona H. Copeland v. George Spencer, dba S. D. Spencer & Sons, the Oregon State Highway Division and the State of Oregon, by and through its Department of Transportation: This case arises out of an accident that occurred on November 7, 1978, in a construction area located near mile post 137 on Interstate 5 in the County of Douglas. The contractor was George D. Spencer. The alleged negligence of the defendants is the failing to give adequate notice of an explosion (blasting to remove rock) to the plaintiff, failing to conduct its blasting with reasonable care and skill, and failing to give adequate notice in the nature and extent of the explosion and concussion to the plaintiff. The plaintiff is seeking \$490,000. The matter has been referred to the Attorney General's office for the defense of the State.

L-7724 Beulah M. Curtis v. Oregon State Highway Division: This case arises out of an accident that occurred on February 26, 1979, in which the plaintiff was driving a vehicle in Klamath County, on State Highway 140, approaching Klamath Falls from the east, and came upon a hole in the middle of the road which was approximately 4 feet wide and 10 feet long. Plaintiff alleges that defendant's employees had parked a road grader on the shoulder of the highway immediately adjacent to the hole extending into the lane of travel without any flares or other warnings. The plaintiff was unable to avoid the hole, crossed over the centerline and struck another vehicle. The plaintiff is seeking \$15,533.45 damages. The matter has been turned over to the Attorney General's office for the defense of the State.

L-7729 State of Oregon, ex rel. Harry P. Thorn, acting as receiver for ODD-6 corporation v. Apex Fence Co., Inc., et al.: This is a lawsuit for breach of contract between two subcontractors on a contract in which S. D. Spencer and Son was the prime contractor. The lawsuit does not directly involve the State of Oregon and will merely be monitored by the Attorney General's office. (Contract No. 8472, South Ashland Interchange/California State Line Section of the Pacific Highway for the County of Jackson.)

L-7730 Ronnie H. Curtis, Jr. v. Oregon State Highway Division: This is a companion case to L-7724 and the plaintiff was a passenger in the vehicle driven by the plaintiff in L-7724. The plaintiff is seeking \$105,243.68 in damages. The matter has been referred to the Attorney General's office for defense of the State.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION TELEPHONE MEETING
held on
JUNE 29, 1979

June 29, 1979
Salem, Oregon

The Oregon Transportation Commission held a special telephone meeting at 9 a.m. originating in Room 140, Transportation Building, Salem, Oregon. Notice of the meeting was made by press release to the newspapers of the general and local circulation throughout the State. The following persons were on the telephone at the locations given:

Tom Walsh, Vice Chairman, Portland
Peter J. Brix, Member, Portland
B. Gordon Coleman, Member, Eugene
Michael P. Hollern, Member, Bend
F. B. Klaboe, Director of Transportation, Salem
H.S. Coulter, State Highway Engineer, Salem
Jack Sollis, Chief Counsel, Salem
Larry Rulien, Executive Assistant to State Highway
Engineer, Salem
Blake Eklund, Travel Information Council, Salem
Karen Rice, Commission Services, Salem

Mr. Coulter announced that the meeting was being recorded in accordance with the Director of Transportation's Administrative Order No. 52.

Mr. Coulter recalled that information had been mailed to the Commission prior to the June 19, 1979, meeting concerning some resurfacing projects but it had been withdrawn due to the Legislature not having acted on the budget. He said that he is asking for the Commission's approval today to add the following four resurfacing projects to the Six Year Program so that bids may be received on July 12, 1979:

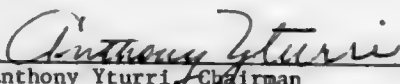

- 1) Columbia County Line-Buxton Section of the Nehalem Highway approximately 30 miles northwest of Portland in Washington County.
- 2) Carus-Jct. Woodburn-Estacada Highway Section of the Cascade Highway in Clackamas County.
- 3) The Dalles-California Highway-S. 6th Street Section of the Klamath Falls-Malin Highway (Eastside Bypass) in Klamath Falls in Klamath County.
- 4) Silver Lake-Summer Lake Section of the Fremont Highway in Lake County.

Commissioner Hollern moved that the projects be approved and Vice Chairman Walsh and Commissioner Coleman seconded the motion; the motion was carried unanimously.

In reply to Vice Chairman Walsh's inquiry, Mr. Klaboe said that the Public Transit Division's budget passed the House yesterday by a 52-7 vote which included the Banfield Transitway. He mentioned that Senate Joint Resolution No. 7 is now on the Governor's desk for signature.

Mr. Sollis recalled that on June 19, 1979, the Commission approved a new agreement with a concessionaire for the information plazas and rest areas. He said the new concessionaire could not come up with the required \$100,000 down payment and could not enter into the contract. Following Mr. Sollis' recommendation, the Commission rescinded their action of June 19, 1979, approving the contract and accepted the concessionaire's withdrawal, subject to any legal rights the State may have against them as a result of them not being able to enter into the contract. He said bids will be received again on July 16, 1979, and a report will be submitted to the Commission at its meeting on July 17, 1979. Commissioner Coleman moved that their previous action be rescinded; Commissioner Brix seconded and the motion carried unanimously.

The meeting adjourned at 9:07 a.m.

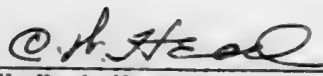

Anthony Yturri, Chairman

of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
July 17, 1979

July 17, 1979
Salem, Oregon

The Oregon Transportation Commission met in the Conference Room 122, Transportation Building at 10:00 a.m. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Anthony Yturri, Chairman
Tom Walsh, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
F. B. Klaboe, Director of Transportation
Jack Sollis, Chief Counsel
George Bell, Assistant Director for Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics Division
Dennis Moore, Administrator of Public Transit Division
Harvey Ward, Deputy Administrator of Motor Vehicles Division
David Talbot, Administrator of Parks and Recreation Division
Larry Rulien, Executive Assistant to State Highway Engineer
R. N. Bothman, Administrator of Metropolitan Branch
L. E. George, Traffic Engineer
J. B. Boyd, Right of Way Manager
Glen Green, Federal Highway Administration
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar:

- 1) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2688" on file in Commission's files, Salem.)
- 2) Authorized increases in project authorizations on the following contracts:
 - a) Contract No. 8915 for work on City Streets in City of Rogue River in Jackson County, in the amount of \$11,200. (20% increase)
 - b) Contract No. 8815 for work due to slides on the Grayback Creek-Lake Creek Section, Oregon Caves Highway, Josephine County, in the amount of \$12,910.81. (8.4% increase)
 - c) Contract No. 8757 for work on the S. Fork Coquille River (Gaylord) Bridge Section, County Road 153, Coos County, in the amount of \$142,500. (42.2% increase)

- d) Contract No. 8720 for work on the Main Street at Canyon Boulevard Section, John Day Highway, Grant County, in the amount of \$9,677.47. (16% increase)
- 3) Snowmobile Trail Grooming Program for 1979-1980 as follows:
1. Klamath Falls (Klamath County)
Purchase snow tractor (Bombardier SV250); transfer "Wisconsin Special" groomer from Tollgate. Grooming agreement with Winema National Forest, Klamath District, or Klamath Basin Snowdrifters (\$3,000).
 2. Diamond Lake (Douglas County)
Grooming agreement with Umpqua National Forest, Diamond Lake District (\$2,000).
 3. Crescent Lake (Klamath County)
Grooming agreement with Oregon State Snowmobile Association (\$2,000).
 4. Waldo-Oakridge (Lane County)
Grooming agreement with Willamette National Forest, Oakridge District (\$2,000). Transfer Quad-Trac w/groomer from Baker upon purchase of snow tractor (Thiokol) and groomer for Baker. Possible transfer of Alpine snowmobile and groomer to Prairie City.
 5. Hoodoo (Linn-Deschutes Counties)
Grooming agreement with Oregon State Snowmobile Association (\$2,000).
 6. Paulina Lake (Deschutes County)
Grooming agreement with Deschutes National Forest, Fort Rock District (\$3,000).
 7. Moon Country (Central Cascades vicinity) (Deschutes County)
Grooming agreement with Oregon State Snowmobile Association (\$3,500).

8. Mt. Hood (Clackamas & Wasco Counties)
Grooming agreement with Oregon State Snowmobile Association (\$3,500).
9. Four Corners Snowmobile Club (Heppner vicinity)
(Morrow County)
Grooming agreement with Oregon State Snowmobile Association (\$350)
10. Tollgate Trailfinders (Umatilla & Union Counties)
Purchase groomer (Maxey Manufacturing "Idaho Special"); transfer "Wisconsin Special" groomer to Klamath Falls. Grooming agreement with Oregon State Snowmobile Association (\$3,000).
11. La Grande Snowdrifters (Union & Baker Counties)
Grooming agreement with Oregon State Snowmobile Association (\$1,500).
12. Elkhorn Chapter, Blue Mountain Snowmobile Club (Baker vicinity). (Union and Baker Counties)
Purchase snow tractor (Thiokol) and groomer; transfer Quad-Trac to Waldo-Oakridge. Grooming agreement with Oregon State Snowmobile Association (\$1,500).
13. Prairie City (Grant County)
Possible transfer of Alpine Snowmobile and groomer from Waldo-Oakridge. Grooming agreement with Oregon State Snowmobile Association (\$250).

NOTE: A single agreement with the Oregon State Snowmobile Association including all areas so noted above will be developed for 1979-80. In addition to grooming funds, \$6,000 for trail signing statewide will be included in this agreement. Separate grooming agreements with the U. S. Forest Service for the remaining areas as noted above, will be developed.

| State Highway Engineer | Exhibit B |
| Right of Way Manager | Exhibit C |
| Highway Controller | Exhibit D |
| Chief Counsel | Exhibit E |
| Administrator, Public Transit Division | Exhibit F |

Mr. Klaboe reported that the 1979 Legislative session was very successful for the Department. He stated the Legislature budgeted in the General Fund for the next biennium the State Police, State Parks, Marine Board and several other agencies that do get highway user's funds. This will amount to approximately \$60,000,000 in additional funds for the Highway Division.

Mr. Klaboe said the Legislature passed into law several bills that will raise motor vehicle fees to the cost of providing the services that the Motor Vehicles Division provides for an additional \$10,000,000 during the next biennium. He mentioned the Legislature passed Senate Joint Resolution 7 which will be placed on the May, 1980, ballot. This measure will make the State Police, State Parks, and other agencies permanently a part of the General Fund. The Legislature passed another bill, he said, that will be placed on the November, 1980, ballot at the general election; that is, the 2¢ gasoline tax increase. If this measure passes, it would increase the revenue approximately \$10,000,000 this current biennium. (\$3,000,000 to counties and \$1,800,000 to cities). In the 1981-83 biennium it would bring in approximately \$52,000,000 to the Highway Fund. (\$15,000,000 to the counties and \$9,000,000 to the cities.)

Mr. Klaboe handed to the Commission a synopsis of the fiscal impact of the legislation passed by the 1979 session of Legislature. (Copy of Legislature synopsis (memo dated July 16, 1979, to Loyd Henion from George Burgess) is on file in the Commission's files, Salem.)

In reply to Commissioner Brix's inquiry, Mr. Klaboe said that he has talked to the Associated General Contractors and the Asphalt Paving Institute representatives, and they indicated that asphalt will be available to the contractors.

Mr. Sollis announced that the Travel Information Council has not been legally reconstituted as Senate Bill 270 has not been signed by the Governor. It is anticipated that the Bill will be signed next week. He said, as reported to the Commission on June 29, 1979, the new concessionaire to operate the information plazas in rest areas was unable to furnish the money as required in the agreement. The TIC called for bids again for this service and received two proposals. Following a telephone meeting, Mr. Sollis said the Council recommended approving the agreement to Color and Design, Inc. He said their

proposal does not cover a down payment, but will pay 20% of the gross receipts from advertising income per year to the Council. Based on the existing gross, this would amount to approximately \$52,000 a year. He stated 18% of the gross would go toward the payment of the \$412,000 that they have agreed to pay for the concession. The other 2% would be a concessionaire's fee. If their gross revenue increases, then the payment to the Council in turn will increase. Mr. Sollis said the proposal with the existing revenue would pay off the \$412,000 in eight years. He said that TIC will meet again next week, after the Governor has signed Senate Bill 270, to officially approve the agreement and recommended approval to the Commission to award the concession to Color and Design, Inc. The Commission unanimously approved the agreement, effective July 1, 1979, contingent on the Governor signing Senate Bill 270, and authorized Mr. Coulter to sign the agreement on their behalf.

The Commission unanimously approved the adoption of the following temporary rules and authorized a hearing as recommended by Mr. Sollis:

- (1) Criteria for issuance of permits for business identification signs. Repeals permanent rule adopted March 28, 1978. ("Administrative Rule No. 95C" on file in Commission's files, Salem.)
- (2) Criteria for issuance of new permits for benches utilized as outdoor advertising signs. ("Administrative Rule No. 117" on file in Commission's files, Salem.)

(Temporary rules filed with Secretary of State on July 19, 1979, and to be published in the Administrative Rule Bulletin on August 1, 1979.)

Mr. Bell stated that tourism in Oregon is down this summer due to the gasoline crunch. He handed to the Commission graphs showing the attendance figures for May through September at the six border information centers for 1977, 1978 and through June, 1979. Mr. Bell mentioned that attendance is significantly off at all locations, especially at the Siskiyou Visitor Center. He said tourism in Oregon last year was a billion dollar industry and approximately 40%-45% of those visitors came from California. Mr. Bell pointed out that if this drop continues, it will amount to a loss of approximately \$200,000,000 in revenue to the State in 1979. He mentioned Oregonians staying in the State appear to be picking up some of the slack in the resorts and motels. He said major tourist attractions are in some difficulty.

Mr. Klaboe commented that the Department's projections on gasoline tax so far are not near as severe as the tourist situation. He said if the worst happens that the Energy Department has predicted, the Department could be off \$1.4 million in gasoline tax revenue this summer over next year.

The Commission reconfirmed the next meeting date as August 21, 1979, and tentatively set September 18, 1979 for the following meeting.

Mr. Klaboe stated that the Department should continue its planning activities, revenue projections and to work up a Six Year Program. He handed to the Commission a Six Year Program explanation sheet (copy of program explanation on file in the Commission's files, Salem) and suggested that the Commission hold a work session following the August Commission meeting. The Commission decided to hold a work session at 2 p.m. on August 21, 1979, to discuss the Department's revenues and the Six Year Program.

Mr. Coulter introduced Mr. William A. Sellwood, Heavy Equipment Mechanic, Salem; and Mr. Jonas A. Hammack, Highway Shop Superintendent, Bend, who have completed 40 years of service with the Highway Division. (Mrs. Sellwood and Mrs. Hammack were also present.) Chairman Yturri presented to each employee a 40-year service pin and thanked them for their long, faithful, and dedicated service.

Attention was given to an agreement with Dames and Moore for preparation of the Final Environmental Impact Statement for the Banfield Transitway Project in Multnomah County. Mr. Coulter said the work to be performed by the consultant is the noise and air quality studies for both Light Rail Transit and the Banfield Freeway project and preparation of the Final EIS for Federal Highway Administration approval. He mentioned the work will cover an eight-month period and will not exceed \$265,000. CRAG has previously approved the use of Interstate Transfer Funds and there is an approved agreement which states that Interstate Transfer Funds will comprise 85% of the cost and 15% will be split between Tri-Met and the State Highway Division. The Commission approved the agreement as recommended by Mr. Coulter, and authorized him to sign the agreement in their behalf, contingent on the Governor's approval of recently passed legislation and the anticipated approval from the Urban Mass Transit Association. Commissioners Hollern and Brix approved under protest.

The Commission considered adoption of a temporary rule regarding the 1978 edition of the Manual on Uniform Traffic Control Devices and the repeal of the 1971 Manual on Uniform Traffic Control Devices. Mr. Coulter said the 1978 edition incorporates all revisions which have been approved through official rules issued by the Federal Highway Administration. He mentioned the Department has prepared two supplements to the national manual. The first supplement explains Oregon's standard practices and interpretations as related to the national manual. The second supplement identifies signs used in Oregon which are not included in the national manual. Following his favorable recommendation, the Commission unanimously adopted the 1978 manual with the two supplements and the following seven exceptions as a temporary rule as follows:

- 1) The pennant shape sign shall not be used in addition to "No Passing" sign and stripes in Oregon to warn motorists of no passing zones.
- 2) The position of intersection guide signing in Oregon shall normally be at the far right-hand corner of the intersection when viewed by approaching traffic, not in advance of the intersection as stated in the national manual.
- 3) The word "LIMIT" shall not be used on speed signs inasmuch as this is in conflict with Oregon's basic speed law.
- 4) The "LIMITED SIGHT DISTANCE" sign shall not be used in Oregon.
- 5) The no-passing barrier stripes as required by the manual shall not be placed on horizontal curves. The matter of passing on curves is controlled by Oregon Statute ORS 483.308.
- 6) The "School Boy Sammie" sign may be placed on the centerline of a roadway.
- 7) The red arrow indication and yellow arrow indication shall not be used on traffic control signals in Oregon.

The Commission also rescinded the 1971 manual. The temporary rule was filed with the Secretary of State on July 20, 1979, to be published in the Administrative Rule Bulletin on August 1, 1979.

The Commission considered approval of 27 resurfacing projects involving 207 miles of highway at the estimated cost of \$33,290,000. Mr. Coulter said most of the money became available when the 1979 Legislature decided to fund the State Police and the State Parks out of the General Fund rather than the Highway Fund. He mentioned the criteria used to select the projects involved projects from the Six-Year Highway Improvement Program, funding availability, and personal inspection by Division personnel of badly deteriorated sections caused by last winter's severe weather (He mentioned that four projects had been approved by the Commission at their June 29, 1979 telephone meeting). The Commission unanimously approved the following projects as recommended by Mr. Coulter:

- 1) Dodge Road-Estacada, Woodburn-Estacada Highway, Clackamas County, 4.7 miles.
- 2) Zigzag River-Woodlot Road, Mt. Hood Highway, Clackamas County, 5.1 miles.
- 3) Woodlot Road-Ski Bowl Frontage Road, Mt. Hood Highway, Clackamas County, 4 miles.

- 4) Big Creek Section, Lower Columbia River Highway, Clatsop County, 1.9 miles.
- 5) Westport-Clatskanie, Lower Columbia River Highway, Columbia County, 10.3 miles.
- 6) West End One Way Couplet-M.P. 15.2, Coos Bay-Roseburg Highway, Coos County, 3.5 miles.
- 7) Lava Butte Lookout-Sugar Pine Butte Road, The Dalles-California Highway, Deschutes County, 8.3 miles.
- 8) Plainview Road-Deschutes River, McKenzie-Bend Highway, Deschutes County, 7.1 miles.
- 9) Burns-Burns Junction, Central Oregon Highway, Harney County, 1.5 miles.
- 10) M.P. 52.0-Poison Creek, John Day-Burns Highway, Harney County, 10.3 miles.
- 11) Poison Creek-Burns Junction, John Day-Burns Highway, Harney County, 5.2 miles.
- 12) Four Corners-White City, Crater Lake Highway, Jackson County, 3.8 miles.
- 13) Brownsboro-North Fork Little Butte Creek, Lake of the Woods Highway, Jackson County, 7.8 miles.
- 14) Eddyville-Cline Mountain, Corvallis-Newport Highway, Lincoln County, 5.8 miles.
- 15) M.P. 70.20-Santiam Junction, North Santiam Highway, Linn County, 11.6 miles.
- 16) Black Canyon Creek-Harper Junction, Central Oregon Highway, Malheur County, 20 miles
- 17) Ironsides-Brogan Hill, John Day Highway, Malheur County, 14.3 miles.
- 18) Talbot Road-Santiam River Bridge, Jefferson Highway, Marion County, 1.3 miles.
- 19) Grande Ronde-Wallace Bridge, Salmon River Highway, Polk County, 5.6 miles.
- 20) Grass Valley-Kent/Grass Valley Road, Sherman Highway, Sherman County, 13 miles.
- 21) Pendleton-Adams, Oregon-Washington Highway, Umatilla County, 10.5 miles.
- 22) Kent-Shaniko, Sherman Highway, Wasco County, 16 miles.

- 23) Maupin-Cow Canyon, The Dalles-California Highway, Wasco County, 21.2 miles.
- 24) M.P. 43.9-Junction McMinnville Spur, Salmon River Highway, Yamhill County, 2.5 miles.
- 25) Dayton Junction-Lafayette Highway, Pacific Highway West, Yamhill County 2.5 miles.
- 26) Junction Lafayette Highway-Junction Pacific Highway West, Salmon River Highway, Yamhill County, 2.9 miles.
- 27) Siuslaw River-Walton, Florence-Eugene Highway, Lane County, 6.3 miles.

Consideration was given to the construction of a new Eugene office building. Mr. Coulter stated the present facilities occupied by the Motor Vehicles Division, State Police, and the District Highway Engineer in Eugene have gradually become overcrowded and inconvenient to the using public. He mentioned expansion at the present site on Franklin Boulevard is not possible and the location is not geographically situated for best use by the Motor Vehicles Division and the State Police. It has been concluded that a suitable joint use of office facilities for the Highway District Engineer, Motor Vehicles Division, and State Police can be developed on existing State Highway-owned property in the northeast quadrant of the Beltline Road interchange with I-5 with direct access to Game Farm Road. Mr. Coulter said under this plan the Highway Section Maintenance Station and the Resident Engineer's offices will remain at their existing location on Franklin Boulevard. The present estimate of a 15,000 square foot building and related site development is \$1 million. He said up to 60% of the cost is expected to be offset by sale of the existing Motor Vehicles Division's office location, the unused remainder of the proposed new site and several other smaller State-owned parcels in the vicinity. Mr. Coulter mentioned several other excess parcels in Lane County are becoming available for sale and could provide additional funding credit. Commissioner Hollern expressed a concern that the spending of funds for this project should be prioritized with the repair and rehabilitation of the road system. Commissioner Coleman felt that this building is needed and gave his support for the construction of the new building. The Commission granted initial approval of the concept for the Department to proceed with the formal design of the building.

Mr. Boyd gave an overview of the actions the Department has taken to solve the problem of the Multnomah County Rocky Butte Facilities. He submitted to the Commission a report with the chronology of the actions the Department has taken. (Copy of report on file in the Commission's files in Salem.) Mr. Boyd showed various slides of the facilities, showing its close proximity to I-205, Banfield Freeway, Union Pacific Railroad, and Rocky Butte to the west. Mr. Klaboe thanked Mr. Boyd and Vice Chairman Walsh for their extra hours of work in the Rocky Butte functional replacement.

The Commission considered the distribution of Fiscal Years 1979 and 1980 Federal Aid Special Highway Bridge Replacement Off-System Program Funds. Mr. Coulter mentioned the allocation has been distributed in accordance with the Memorandum of Understanding as jointly developed with the Association of Oregon Counties and the League of Oregon Cities. He said Federal law requires between 15 and 35 percent of the funds to be assigned to Off-System projects. The program funds have been investigated and are eligible for funding. Upon Mr. Coulter's recommendation, the Commission unanimously approved the following projects and authorized him to sign the necessary agreements:

PRIORITY LIST OF OFF-SYSTEM BRIDGE REPLACEMENTS FOR FISCAL 1979

NOTE: Projects not contracted in the year shown will be number 1 priority for the following year.

Mr. Talbot reported that over the past year staff has been working with Mr. Dean Jackson to insure his compliance with his agreement to develop a recreational vehicle campground at Agness within the Rogue River Scenic Waterway in Curry County. He said the key issue in the agreement is the requirement for Mr. Jackson to establish vegetative screening along the top of the river bank within one year of commencing construction. The landscape screening was to have been completed by June 27, 1979. As a result, legal counsel has initiated steps to enjoin Mr. Jackson from opening his recreational vehicle campground until such time as the landscaping has been completed satisfactorily and found to be in compliance with the agreement. Mr. Talbot said in the event that legal actions to enforce the Commission's agreement with Mr. Jackson does not produce satisfactory results condemnation for all or part of the subject property may be necessary. Mr. Talbot requested and received unanimous authority from the Commission to go to the Water Policy Review Board to get their concurrence prior to commencing condemnation proceedings if it becomes necessary.

Mr. Talbot stated that he wanted to inform the Commission that since August 1978, legal counsel and staff have been corresponding with Mr. Forrest Solomon and his attorney concerning illegal placement of a mobile home on the John Day River Scenic Waterway in Wheeler County. He said the mobile home was installed without notification of intent as required by ORS 390.845(3). Mr. Talbot stated as a result of numerous unfulfilled requests for written notification and removal of the mobile home, legal counsel has filed an action to require Mr. Solomon to remove his mobile home from the area within Scenic Waterway jurisdiction.

The Commission considered a request from Shirley L. Shorb to place a mobile home on the Rogue River Scenic Waterway at Agness in Curry County. Mr. Talbot said the site is approximately 900 feet from the river. The mobile home site will not be screened from view from the river by topography or land formation, but there is substantial vegetative screening existent between the river and the site. Mr. Shorb has indicated that he has no intention of removing any of the vegetation. The Commission unanimously granted Mr. Shorb a variance to place his mobile home at the described location subject to conditions outlined in Mr. Talbot's letter of July 17, 1979, to Mr. Shorb.

Attention was given to a proposed administrative rule to close two sections of the beach to vehicles in Lincoln County (except by permit) year round from the south jetty at Yaquina Bay southerly to the Sandpiper Village subdivision and from Waldport south to Yachats, at the Lincoln County - Lane County line. Mr. Talbot mentioned a public hearing was held on July 3, 1979. It brought 15 responses from the public, 11 in favor of closure and 4 opposed. Following Mr. Talbot's favorable recommendation, the Commission unanimously adopted a permanent rule ("Ocean Shore Administrative Rule No. 12A") closing the two

sections of the beach in South Lincoln County. (This rule amends "Ocean Shore Resolution No. 12".) The permanent rule was filed with the Secretary of State on July 19, 1979, and was published in the Administrative Rule Bulletin on August 1, 1979.

Mr. Talbot reported that a petition was received in May 1979 from a group of property owners at the Community of Tierra Del Mar in Tillamook County to close the beach to vehicle use the year round. He said present regulations include closure from May 1 to September 30 and open the rest of the year. The petitioners want to eliminate the conflicts between pedestrians and cars. Mr. Talbot stated a hearing was held on June 9, 1978, and those opposed to closure claimed loss of traditional rights and loss of public access. He said public input was evenly divided and local officials are opposed to closure. Mr. Talbot mentioned that adequate off-beach public parking for beach users is very limited. Until more adequate off-beach parking is provided, closure would limit use of the northernmost section of the beach to those willing to hike some distance. Mr. Talbot recommended no change in the present regulations. The Commission unanimously accepted his recommendation. (See further entry for Mr. Robertson's presentation regarding this matter.)

Mr. Talbot handed to the Commission a summary of attendance at 11 key usage campsites sold from July 9 through July 15, 1979, which shows a drop of 14% for last year. (Park attendance report on file in the Commission's files, Salem.) He said non-resident camping has declined approximately 35%. Mr. Talbot pointed out if this 14% decline holds over a two-year period it would represent a million dollar loss in income in camping fees.

Mr. Allen Robertson of Pacific City (Tierra Del Mar) stated that he does not comprehend the staff report concerning the ocean shore vehicle regulations at Tierra Del Mar. He said this area has avenues running to the beach every 160 feet and parking is provided. Mr. Robertson mentioned the mouth side of Sand Lake is probably the most fragile estuary on the Oregon Coast. It is so completely accessible from the north side that the estuary is being abused. He said people drive their vehicles into the area year-round and go through the estuary over the shrimp beds and other marine life present.

The Chairman thanked Mr. Robertson for his comments and his letter dated July 12, 1979.

Mr. Talbot reported that the Parks' budget for 1979-81 contains an appropriation of \$500,000 for local government park construction and improvements. He mentioned this pass-through funding is basically a continuation of the State Grants-in-aid program initiated in the 1977-79 biennium. Mr. Talbot stated that staff has updated the guidelines used in allocating funds and administering local projects generated by this program. Copies of the guidelines were distributed to local agencies for review and comments and so far favorable response

has been received. This formula distributes 40% of the funds equally and 60% by population. (Copy of guidelines and procedures on file in the Commission's files in Salem.) This item was presented to the Commission for their information prior to implementation.

Mr. Talbot recommended the appointment of Mr. Tom Young from Baker to the State Parks and Recreation Advisory Committee for a four-year term, effective today. Commissioner Hollern moved that this appointment be made and Vice Chairman Walsh seconded; motion carried unanimously.

Attention was given to a resolution accepting a grant offer from the Federal Aviation Administration for financial assistance in the amount of \$169,925 for continuous airport system planning for the State. Mr. Burket said the total cost of the two-year project is \$226,567 and sponsor's matching funds of \$56,642 will be comprised of agency salaries and travel expenses for participating personnel. He stated this grant will allow not only for updating all segments of the plan, but for the collection of operational data that was not possible when the original plan was accomplished. The Commission unanimously adopted the resolution as recommended by Mr. Burket. ("Aeronautics Miscellaneous Resolution No. 23" on file in the Commission's files, Salem.)

Mr. Burket mentioned that the Metropolitan Service District of Portland is seeking a new sanitary land fill site. He said they have four sites under consideration and one of the locations is at the Mira Monte Farms located just north east of the Aurora State Airport. The service district is having CH2M Hill do a six-month feasibility study. Mr. Burket said Clackamas County has appointed an Advisory Committee on land fill siting and he recently asked that he be appointed to the Committee because of the close proximity to the proposed site to the airport. Mr. Burket indicated concern of the smoke hazard from burning and the birds that collect in sanitary areas which would be hazardous to aircraft.

Commissioner Hollern inquired about the availability of aviation fuel. Mr. Burket said the fuel situation seems to be easing except for isolated cases. He mentioned that his office has recently installed a toll free line for use by the 75 aviation fuel retailers of the State to keep the Department apprised of their current status of fuel.

There was discussion concerning the Department fuel budget. Mr. Klaboe indicated that the Department will probably use more fuel this year than last year due to the additional construction work in progress. Mr. Coulter said comparing June 1978 to June 1979 by counting 920 passenger cars the mileage is down approximately 11%. However, diesel consumption is up a little over 10%.

Consideration was given to a request to present to the August Emergency Board to transfer the expenditure limitation for the Motor Vehicle Accident Fund from State Accident Insurance Fund to the Motor Vehicles Division. Mr. Ward stated this request is a result of the 1979 Legislature passing Senate Bill 255 which transfers the responsibility from the Motor Vehicle Accident Fund to the Motor Vehicles Division, effective July 1, 1979. The Commission unanimously approved the request as recommended by Mr. Ward.

Commissioner Brix stated that he has submitted a letter to the Department stating that he has a potential conflict of interest because of his ownership in a joint venture between Coast Marine Construction Company and Knappton Corporation. Mr. Brix stated if the joint venture is working on a highway job, he will not participate in any discussion relating to the project.

RE: Joint Venture - Coast-Knappton, A Joint Venture

Gentlemen:

Coast-Knappton, a Joint Venture between Coast Marine Construction Company and Knappton Corporation, has submitted a prequalification request to the Department to bid on Highway Division contracts.

This is to advise you of a possible conflict of interest and also to advise you that I will abstain from voting on any action relating to any contracts the Joint Venture may enter into with the Highway Division.

Very truly yours,

Peter J. Brix
President

- (2) Agreement with Portland General Electric Company whereby safety requirements have been established by the United States Atomic Energy Commission requiring a clear zone or "exclusion area" to be established for the Trojan Nuclear Plant and involves a portion of the lower Columbia Highway No. 2W between M.P. 41.11 and 43.10. Included in the agreement is a restriction against residential use or overnight camping within the highway section; the right for PGE to require halting of traffic and the removal of persons or property in emergencies or a threat thereof; and emergency alerting procedures. (Maintenance Section)
- (3) Agreement with the City of Coquille for installation of traffic signal equipment on the Coos Bay-Roseburg Highway at 2nd Street. The State will design, install and maintain the signal equipment using State funds. The City has agreed to close the pedestrian crosswalk at 1st Street and to pay all costs of electrical energy consumed in operation of the traffic signals. (Local Government)
- (4) Agreement with the City of Bend and Boyd Center for the installation of traffic signals on The Dalles-California Highway at O. B. Riley Road to accommodate the Bend River Mall. The State will design, install and maintain the signal equipment; the City will pay for electrical energy for operation; and the Company will pay all costs of the project. (Local Government)

- (5) Lease agreement with the Department of the Army, Corps of Engineers, to lease approximately 34.5 acres of Federal land and water (Coquille River North Jetty Wharf Site) within Bullards Beach State Park, Coos County, for public park and recreational purposes for a period of twenty (20) years beginning February 10, 1976, and ending February 9, 1996. This agreement modifies, replaces and supersedes the existing November 22, 1963, twenty-five year lease agreement. (Parks Branch)
- (6) Renewal of an agreement with Kyle Smith and Elizabeth Jane Smith to operate the concession in the Vista House in Crown Point State Park from April 1, 1979, to March 31, 1981. Lessee will pay the State 10½ percent of each calendar year's gross sales from the operation of the concession and from all other revenue-producing facilities on the premises. The State may terminate the lease on the breach by lessee of any of the terms of the lease. (Parks Branch) (Multnomah County0
- (7) Agreement with the South Fork Water Board to participate in the cost of the Board's repairs of a major break in the water line providing domestic water service to Milo McIver State Park, Clackamas County. The State will pay to the Board the sum of \$2,500 as its participation in the total estimated cost of \$24,500. (Parks Branch)
- (8) Agreement with the City of Albany for the completion of a city-wide survey and inventory of cultural resources in the City of Albany. The object of this contract is to assist the City in meeting its requirements for the identification of cultural resources on the LCDC Statewide Planning Guidelines and, at the same time, expand the Statewide Inventory of Historic Properties. The amount of payment by the State is limited to \$5,000. The total expenditure will be wholly reimbursed to the State from Federal Survey and Planning monies made available by the Heritage Conservation and Recreation Service, U. S. Department of the Interior. (Parks Branch)
- (9) Agreement with the Junior League of Portland for the completion of a city-wide survey and inventory of Terra Cotta Buildings in the downtown area of Portland. The object of the contract is to assist the City of Portland in meeting its requirements for the identification of cultural resources in the LCDC Statewide Planning Guidelines and, at the same time, expand the Statewide Inventory of Historic Properties. The amount of payment by the State is limited to \$1,996. The total expenditure will be wholly reimbursed to the State from Federal Survey and Planning monies made available by the Heritage Conservation and Recreation Service, U. S. Department of the Interior. (Parks Branch)

7-17-79

- (10) Agreement with Jackson County for the completion of a county-wide survey and inventory of cultural resources in Jackson County. The object of the contract is to assist Jackson County in meeting its requirements for the identification of cultural resources on the LCDC Statewide Planning Guidelines and, at the same time, expand the Statewide Inventory of Historic Properties. The amount of payment by the State is limited to \$3,000. The total expenditure will be wholly reimbursed to the State from Federal Survey and Planning monies made available by the Heritage Conservation and Recreation Service, U. S. Department of the Interior. (Parks Branch)
- (11) Agreement with the City of Astoria for the completion of a city-wide survey and inventory of cultural resources in the City of Astoria. The object of this contract is to assist the City in meeting its requirements for the identification of cultural resources on the LCDC Statewide Planning Guidelines and, at the same time, expand the Statewide Inventory of Historic Properties. The amount of payment by the State is limited to \$3,000. The total expenditure will be wholly reimbursed to the State from Federal Survey and Planning monies made available by the Heritage Conservation and Recreation Service, U. S. Department of the Interior. (Parks Branch)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and on the previous two pages (totaling 11 items) and report this action for your official records.

- (2) Agreement with Marion County for improvement of the Battle Creek-N. Jefferson Interchange Section of the Pacific Highway. The State will design, construct and maintain the project using Federal Aid Interstate Funds. The County has agreed to accept jurisdiction of portions of the reconstructed County Roads and to cooperate in the adjustment of any conflicting utilities. (Local Govt.)
- (3) Agreement with Marion County for the installation of traffic signals on Silverton Road at Cordon Road (Both County Roads). The State will design and install the traffic signal equipment. The County will pay 100% of the costs and, upon completion, perform all maintenance and pay for all electrical energy. (Local Govt.)
- (4) Supplemental agreement with Washington County to relinquish portions of right of way purchased for reconstruction of Sagert Road. The original 1967 agreement for construction of the Pacific Highway-Clackamas County Line Unit of I-205 did not include the Sagert Road crossing and approaches; however, it was included in the construction plans but never relinquished to the County. (Local Govt.)
- (5) Agreement with Benton County to realign a portion of the Lewisburg-Granger Road and install railroad crossing protection under the Federal Aid Title II Safety Program. The County will furnish all engineering services and provide the required matching funds. The State will monitor the work and submit claims for Federal aid participation. (Local Govt.)

State Highway Engineer

7-17-79

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken
Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for the official records:

- 1) On June 15, 1979, approved a personal and professional services agreement with Professional Development Seminars (Jean H. Names) to conduct a seminar entitled Professional Development for Women on July 23, 1979, at a cost not to exceed \$425.
- 2) On June 14, 1979, prohibited parking on the Cascade Highway North on the west side between M.P. 100.40 (Engineer Station 105+65) to M.P. 100.50 (Engineer Station 100+40) in Multnomah County.
- 3) On June 20, 1979, approved a personal and professional services agreement with Shipley Associates for a course in Specification Writing on July 17-19 and on July 24-26, 1979, at a cost not to exceed \$2,500. (This agreement was voided due to an error in amount of agreement on July 3 & replaced by 2 separate agreements. See entries on next page.)
- 4) On June 20, 1979, approved a personal and professional services agreement with Shipley Associates for a secretarial writing course to provide secretaries with specialized skills in writing, editing, revising, organizing, proofreading and basic grammar on July 31 and August 1, 1979, at a cost not to exceed \$2,276.
- 5) On June 18, 1979, approved an agreement with the City of Albany covering a Willamette Greenway Project in Linn County. (Acquisition of Bowman and Kutsch property, File No. OP 1500).
- 6) On June 29, 1979, approved an agreement with the City of Eugene covering a Willamette Greenway Project in Lane County. (Delta Riverfront Acquisition, File No. WP-124-1408.)
- 7) On June 28, 1979, amended "Through Highways and Stop Signs Resolution No. 13" dated September 21, 1949, as follows:

At the intersection of Fourth Street West (Sams Valley Highway No. 271, M.P. 2.44) with Fourth Avenue North (Sams Valley Highway No. 271) in the City of Gold Hill, northbound traffic on Sams Valley Highway No. 271 (Fourth Street West) shall stop, with the exception of that traffic making a right turn from south to east. (Jackson County) (Mr. Coulter's approval filed under "Through Highways & Stop Signs Resol. No. 13 hh")

7-17-79

- 8) On June 28, 1979, established the following speed zones on the Dillard Highway No. 235 in the vicinity of Dillard and the Roseburg Lumber Company, in Douglas County:

45 MPH from Winston South City Limits (M.P. 0.47) to 100 feet north of Reston Avenue (M.P. 1.47)

35 MPH from 100 feet north of Reston Avenue (M.P. 1.47) to 200 feet south of Dillard-Brockway Road (M.P. 1.99)

45 MPH from 200 feet south of Dillard-Brockway Road (M.P. 1.99) to 0.48 mile westerly of the west end of the South Dillard Bridge (M.P. 3.75)

Rescinds Speed Zone Resolution File No. 410 dated October 10, 1963. (Speed Zone Order No. 812)

- 9) On June 29, 1979, prohibited parking on both sides of the Holiday Inn access road, a frontage road inside the limits of the Biddle Road Interchange on the Crater Lake Highway No. 22 (M.P. FO.69 to M.P. FO.81) in Jackson County.
- 10) On July 3, 1979, approved a personal and professional services agreement with Shipley Associates for a course in Specification Writing on July 17 - 19, 1979, at a cost not to exceed \$2,475. (This agreement voids a previous agreement approved on June 20, 1979.)
- 11) On July 3, 1979, approved a personal and professional services agreement with Shipley Associates for a course in Specification Writing on July 24 - 26, 1979, at a cost not to exceed \$2,475. (This agreement voids a previous agreement approved on June 20, 1979.)
- 12) On June 29, 1979, approved a maintenance agreement with Richard Apple to perform watchman's services at Molalla River State Park in Clackamas County. The contractor will be paid \$50 per month. The agreement is effective May 1, 1979, and is subject to termination by either party upon 30-days written notice.
- 13) On July 6, 1979, approved an Instructional Service Agreement with Chemeketa Community College for a course in Crash Injury Management during the period of July 23-27, 1979, at a cost of \$773.85.

Dated this 24 day of July, 1979.

H. S. Coulter, State Highway Engineer

7-17-79

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

On behalf of the Commission and under authority delegated to me to award contracts, I awarded the following contracts:

- 1) Traffic signal installation on the Esplanade Street-Shasta Way Section of the Klamath Falls-Malin Highway and on Shasta Way in Klamath Falls, Klamath County. Bids received May 24, 1979. Contract No. 8939 awarded June 11, 1979, to Hamilton Electric, Inc., Eugene, at \$240,897.92.
- 2) Traffic signal installation on the Empire/Coos Bay Highway at K-Mart Access in Coos Bay, Coos County. Bids received May 10, 1979. Contract No. 8930 awarded June 11, 1979, to Hamilton Electric, Inc., Eugene, at \$35,248.
- 3) Traffic signal installation on N.E. Halsey Street at N.E. 223rd Avenue in Fairview, Multnomah County. Bids received May 24, 1979. Contract No. 8940 awarded June 14, 1979, to Hamilton Electric, Inc., Eugene, at \$42,757.50.
- 4) Work on the Progress Interchange Off Ramp on the Scholls Highway in Washington County. Bids received May 24, 1979. Contract No. 8952 awarded June 14, 1979, to Cascade Construction Company, Inc., Portland, at \$448,852.50.
- 5) Work on the Willamina Ave.-26th Ave. (Forest Grove) Section of FAU 5055 (Main Street) in Washington County. Bids received May 24, 1979. Contract No. 8948 awarded June 15, 1979, to C. G. Gredvig, Inc., Portland, at \$93,187.50.
- 6) Traffic signal installation on the Broadway Street at 16th Street Section of the Cape Arago Highway in North Bend, Coos County. Bids received May 24, 1979. Contract No. 8938 awarded July 2, 1979, to Hansen Electric Co., Inc., Coos Bay, at \$28,995.
- 7) Work on the Lawnfield Road-Clackamas Highway Section of FAU 9653 (S.E. 82nd Drive) in Clackamas County. Bids received June 7, 1979. Contract No. 8957 awarded July 3, 1979, to Cascade Construction Company, Inc., Portland, at \$449,893.

7-17-79

- 8) Traffic signal installation on N. 6th Street at "A" Street in Grants Pass, Josephine County. Bids received June 7, 1979. Contract No. 8956 awarded July 5, 1979, to Sims Electric of Medford, Inc., Medford, at \$29,986.
- 9) Roadside improvement on the N.E. Maywood Place Section of the East Portland Freeway in Multnomah County. Bids received June 28, 1979. Contract No. 8970 awarded July 5, 1979, to Aichele Landscaping, Inc. & Ben Fox, Inc., Portland, at \$157,690.15.
- 10) Work on the N. Albany, Santiam Highway and Lebanon Road Interchanges on the Pacific Highway in Linn County. Bids received June 28, 1979. Contract No. 8976 awarded July 5, 1979, to Wildish Corvallis Construction Co., Corvallis, at \$902,438.
- 11) Work on the Willamette River-Goshen Section of the Pacific Highway in Lane County. Bids received June 28, 1979. Contract No. 8975 awarded July 5, 1979, to Wildish Construction Co., Eugene, at \$3,359,788.81.
- 12) Work on the Grand Ronde (M.P. 20.0 - M.P. 21.7) Section of the Salmon River Highway in Polk County. Bids received June 28, 1979. Contract No. 8977 awarded July 5, 1979, to Wildish Corvallis Construction Co., Corvallis, at \$1,285,662.55.
- 13) Work on the Columbia River Highway at Umatilla Bridge Spur in Umatilla County. Bids received June 28, 1979. Contract No. 8966 awarded July 6, 1979, to Hamilton Electric, Inc., Eugene, at \$78,332.50.
- 14) Work on the S.E. Morrison Bridge Ramp Section of the Pacific Highway East (S.E. Grand Avenue) in Multnomah County. Bids received May 24, 1979. Contract No. 8946 awarded July 6, 1979, to Willamette-Western Corporation, Portland, at \$147,388.

Dated this 10 day of July, 1979.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7741 Multnomah County v. David G. Talbot, State Historic Preservation Officer: This lawsuit arises out of a dispute over the approval of the application of Ambassador Associates for special assessment treatment as historic property pursuant to 358.475 et seq. Multnomah County through its tax assessor is disputing the approval of the Historic Preservation Officer of the designation of the property for special assessment treatment as historic property. Said property is the Ambassador Hotel located at 1209 S.W. Sixth Avenue, Portland, Oregon. The matter has been referred to the Attorney General's office for the defense of the State.

L-7742 June A. Anderson v. Waldo George Abbott and the State of Oregon, acting by and through its Highway Division: This is a lawsuit that arises out of an accident that occurred on July 10, 1977, at the intersection of Highway 36 and Alvadore Road, a county road in Lane County. The plaintiff alleges that the cause of the accident was the negligence of the State in failing to properly replace a stop sign that had been knocked down. The plaintiff is seeking \$65,000 general damages, \$900 special damages and \$6,715 for property damage. The matter has been referred to the Attorney General's office for the defense of the State.

L-7743 A. E. Slaughter v. State of Oregon Transportation Commission: This lawsuit arises out of an accident that occurred on April 2, 1978, in which the plaintiff was the passenger in a vehicle that allegedly struck road obstructions and ruts and other defects on Highway 22 in Polk County. The plaintiff is seeking \$25,000 general damages and \$4,651.40 for property damages and personal injury. The matter has been referred to the Attorney General's office for the defense of the State.

L-7744 Imogene Slaughter v. State of Oregon Transportation Commission: This is a companion case to L-7743 and the plaintiff was the driver of the vehicle. The plaintiff is seeking \$50,000 in general damages and \$5,352.60 for property damages and personal injuries. The matter has been referred to the Attorney General for the defense of the State.

L-7746 Deanna Wilson v. State of Oregon: This lawsuit arises out of an accident that occurred on December 15, 1978, on Highway 34 near Tryon Cement Plant east of Waldport in Lincoln County. The plaintiff alleges that the cause of the accident was the failure of the Highway Division to inspect, care and maintain the highway so as to alleviate the slick and icy condition on the bridge. The plaintiff is seeking \$100,000 general damages and an unspecified amount of special damages. The matter has been referred to the Attorney General for the defense of the State.

TO: Oregon Transportation Commission

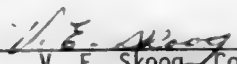

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On May 25, 1979, \$2,792,619.22 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of April, 1979.
(List of apportionments on file in Commission Files, Salem.)

On May 31, 1979, \$1,675,571.53 (12 percent of the Highway Fund) was distributed to the cities for the month of April, 1979.
(List of apportionments on file in Commission Files, Salem.)

Dated this 31st day of May, 1979

PUBLIC TRANSIT DIVISION

TRANSPORTATION BUILDING, SALEM, OREGON 97310 PHONE 378-8201

July 5, 1979

MEMORANDUM

To: Oregon Transportation Commission
From: *Dennis H. Moore*
Dennis H. Moore, Administrator
Public Transit Division

Subject: Report of Actions Taken Under
Delegated Authority

On behalf of the Commission and under its authority delegated to me to approve and sign contracts, I have taken the following actions since my last report to you on March 19, 1979:

- I. Urban Mass Transportation Administration, Section 5,
a federal program providing capital and operating assistance to urbanized transit systems on a pass-through basis.
 - A. A Request for Reimbursement (acting as the recipient) with the Urban Mass Transportation Administration to receive \$498,797 of federal operating assistance funds for Fiscal Year 1978 to the City of Salem (the grantee). (May 21, 1979)
 - B. An agreement with the Urban Mass Transportation Administration and the City of Salem to permit the City of Salem to receive and dispense the federal funds described in the City's capital grant application for Fiscal Year 1979 funds. (June 21, 1979)
 - C. An agreement with the Urban Mass Transportation Administration and the Lane Transit District to permit the Lane Transit District to receive and dispense the federal funds described in the District's capital grant application for Fiscal Year 1979 funds. (June 22, 1979)
- II. Urban Mass Transportation Administration, Section 16(b)(2),
a federal program for capital purchases of vehicles and equipment to be used in transporting elderly and handicapped persons.

Oregon Transportation Commission
July 5, 1979

7-17-79

- A. An Application (acting as the recipient) with the Urban Mass Transportation Administration to receive \$275,119 in federal funds for Fiscal Year 1978 on behalf of nine non-profit grantees.
(May 6, 1979)
- III. Urban Mass Transportation Administration, Section 9,
a federal program to assist smaller communities in preparing transit development programs and conducting demonstration programs.
 - A. A Contract with the Urban Mass Transportation Administration for \$6,000.00 in federal funds for a management assistance grant to the City of Woodburn for improved management of transportation.
(June 11, 1979)
 - B. A Contract with the Urban Mass Transportation Administration for \$1,000.00 in total federal and state General Funds to the Rogue Valley Transportation District for improved transit marketing aids.
(June 25, 1979)
 - C. A Contract with the Urban Mass Transportation Administration for \$1,375.00 in total federal and state General Funds to the City of Corvallis for improved transit marketing aids.
(June 25, 1979)
- IV. Urbanized Areas Assistance, a State General Funds program to support transit projects in the urbanized areas.
 - A. An agreement with the City of Salem to pay up to \$120,250 in State General Funds as part of the non-federal share for Project Nos. OR-03-0019 and OR-05-0002.
(June 26, 1979)
 - B. An agreement with the Lane Transit District to pay up to \$265,137 in State General Funds as part of the non-federal share for Project Nos. OR-03-0021 and OR-05-0001.
(June 26, 1979)
 - C. A supplemental agreement with the Tri-County Metropolitan Transportation District of Oregon to pay up to \$1,533,516 as part of the non-federal share for Project Nos. OR-03-0008 Amendment No. 1, and OR-03-0009.
(June 26, 1979)
- V. Urban-Rural Operating Assistance Program, a State General Funds program to support the operations of public transit systems in Oregon's urban and rural areas.
 - A. Rogue Valley Transportation District; Medford
A supplemental agreement to increase the contract amount to \$84,252.00.
(May 30, 1979)

- B. City of Roseburg
A supplemental agreement to increase the contract amount to \$76,992.00
(May 31, 1979)
 - C. Columbia County Council of Seniors; St. Helens
A supplemental agreement to increase the contract amount to \$65,307.00.
(May 18, 1979)
 - D. City of Reedsport
A supplemental agreement to increase the contract amount to \$12,000.00
(June 21, 1979)
- VI. Urban-Rural Capital, a State General Funds program to contribute to capital purchases for the urban and rural areas.
- A. Rogue Valley Transportation District; Medford
A supplemental agreement to increase the Division's share in capital purchases to \$35,533.07.
(March 28, 1979)
 - B. Rogue Valley Transportation District; Medford
A supplemental agreement to increase the Division's share in capital purchases to \$57,540.00.
(June 26, 1979)
 - C. City of Roseburg
A supplemental agreement to extend the loan of the Division's Argosy buses until September 6, 1979.
(May 21, 1979)
- VII. Urban-Rural Areas Experimental Program, a State General Funds program to accompany the capital and operating funds program. Funding to be used in the three areas of marketing, planning and assistance, and experimentation.
- A. Yamhill County
A supplemental agreement to increase the Division's share in YAMCO Transit to \$23,510.00.
(May 16, 1979)
 - B. City of Woodburn
A supplemental agreement to increase the Division's share in the Woodburn Transit System to \$15,314.
(May 30, 1979)
- VIII. Intercity Public Transportation Assistance, a State General Funds program appropriated to the Emergency Board for use in projects improving intercity travel in Oregon.

Oregon Transportation Commission
July 5, 1979

F

7-17-79

- A. A contract for \$7,000.00 with Azimuth Surveying and Engineering for consultant services to the Willamette Valley Rail Study Committee.
(March 22, 1979)
- B.1. Lincoln City
An agreement to pay \$581.00 for costs directly associated with the repair and maintenance of an intercity bus shelter.
(April 24, 1979)
- B.2. City of Florence
An agreement to reimburse the City of Florence up to \$3,000.00 for costs directly associated with the design, construction, and installation of an intercity bus shelter.
(November 14, 1978)

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
August 21, 1979

August 21, 1979
Salem, Oregon

The Oregon Transportation Commission met in the Conference Room 122, Transportation Building at 10 a.m. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Anthony Yturri, Chairman
Tom Walsh, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
F. B. Klaboe, Director of Transportation
George Bell, Assistant Director for Intergovernmental and Public Affairs
Fred Miller, Assistant Director for Administration
Robert Royer, Assistant Director for Policy and Program Development
H. S. Coulter, State Highway Engineer
Larry Rulien, Executive Assistant to State Highway Engineer
Roger G. Ritchey, Deputy Administrator of Aeronautics Division
Dennis Moore, Administrator of Public Transit Division
David Talbot, Administrator of Parks and Recreation Division
Harvey Ward, Deputy Administrator of Motor Vehicles Division
Glen Green, Federal Highway Administration
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the following meetings:
 - Regular monthly meeting of June 19, 1979
 - Telephonic meeting of June 29, 1979
 - Regular monthly meeting of July 17, 1979
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2689" on file in Commission's files, Salem.)
- 3) Authorized increases in project authorizations on the following contracts:
 - a) Contract No. 8962 for paving on S.W. 117th Avenue-S.W. Hocken Avenue (Beaverton) and N.E. Sandy Boulevard-S.E. Flavel Street (Portland) Sections on Tualatin Valley and Cascade Highways in Washington and Multnomah Counties, in the amount of \$184,960 (17.6% increase).

- b) Contract No. 8850 for the Ukiah Rock Production, Pendleton-John Day Highway, Umatilla County, in the amount of \$11,719 (12.5% increase).
- c) Contract No. 8712, Pudding River (Red) Bridge, Clackamas and Marion Counties, in the amount of \$23,650.65 (7.7% increase).
- 4) Amended Delegation Order No. 23 by adding to paragraph 58 that the State Highway Engineer can approve Federal-Aid Title II Safety Projects.
- 5) Adopted resolution removing a portion of the Beaverton-Tualatin Highway from the State highway system, transferring jurisdiction and maintenance responsibilities to the City of Beaverton. ("Abandonment Resolution No. 579A" on file in Commission's files, Salem.)
- 6) Authorized consulting agreements with Azimuth Engineering and Surveying and Alan M. Voorhees and Associates, Inc., on behalf of the Willamette Valley Rail Study Committee for assistance in preparing and making a presentation to the Emergency Board for a passenger rail service demonstration between Portland and Eugene. Azimuth agreement not to exceed \$1,500 and Voorhees agreement not to exceed \$1,000.

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|---------------------------------------|-----------|
| Chairman of Transportation Commission | Exhibit A |
| Director of Transportation | Exhibit B |
| State Highway Engineer | Exhibit C |
| Right of Way Manager | Exhibit D |
| State Parks Administrator | Exhibit E |
| State Recreation Director | Exhibit F |
| Highway Controller | Exhibit G |
| Chief Counsel | Exhibit H |

The Commission considered adoption of a Noise Mitigation Policy and a proposed demonstration project on the east side of the I-205 Freeway near S.E. 92nd Avenue and S.E. Lester Street in Multnomah County (near the Mt. Scott neighborhood). Mr. Rulien referred to a map pointing out the exact location where the property owners complained of the noise levels at the Commission meeting on March 27, 1979. (See minutes, pages 2952 and 2953.) He said the citizens of the area have offered to pay half of the State's 8% project cost for construction of a sound berm and wall up to a maximum of \$40,000.

Mr. Rulien recalled that the Noise Mitigation Policy and Noise Inventory Reports were presented to the Commission at the March 27, 1979 meeting. He mentioned the policy statements being presented today are about the same that were submitted earlier this year. The one difference in the policy would be the idea that there may be sufficient merit in trying to respond to this kind of a need on a demonstration basis. He said the Department would cooperate with the property owners to see if the necessary agreements can be developed, to see if the necessary Interstate Funding can be obtained for the project, to proceed with it and to learn from that experience. He mentioned the match for the Interstate Funding could be supplied one half by the State and one half by the property owners. Mr. Rulien pointed out that the noise mitigation was not built into the I-205 Freeway through this section. Due to a change in Federal regulations, the noise mitigation was incorporated into the design of contracts on the freeway from Foster Road North. The Commission unanimously adopted the Noise Mitigation Policy and approved the demonstration project to construct a sound barrier on I-205 near the Mt. Scott neighborhood, contingent upon getting the necessary agreements and Interstate Funds. (Copy of Policy on file in the Commission's files, Salem.)

Following Mr. Klaboe's recommendation, the Commission unanimously amended Delegation Order No. 22 by adding the following items to the Director's authority:

- 1) Authorize appeals of cases to the Court of Appeals or the Supreme Court when an appeal is recommended by Legal Counsel.
- 2) Authorize settlement for all cases in litigation involving the Department after consultation with and recommendation of Legal Counsel.

The Commission set the next meeting date as Wednesday, September 19, 1979, in Salem. The following meeting was set for Wednesday, October 24, 1979, in Salem. (Later the meeting place was changed to Ontario.)

Mr. Bell handed to the Commission a weekly count of the six border visitor centers for the period of August 13-19, 1979. He said this shows a decline of approximately 29% compared to the same period last year. He mentioned that the Astoria Visitor Center shows an increase of approximately 31% which is most likely due to the consolidation of the State center with the Astoria Chamber of Commerce. Mr. Bell stated that staff hours will be reduced at the centers starting September 1, 1979, due to the decline in visitors. (Copy of Visitor Centers' Weekly Count on file in the Commission's files, Salem.)

Upon Mr. Bell's recommendation, the Commission unanimously gave their approval for the Department to request Legislative Emergency Board approval to transfer three positions and appropriate service and supply funds from the Federally-funded portion of the Travel Information budget to the General Fund portion. Estimated cost for the remaining 21 months in the biennium is \$89,000 for salaries and \$27,000 for services and supplies. (Further details of this request in a letter to the Commission dated August 8, 1979, from Mr. Bell on file in Commission's files, Salem.)

Attention was given to an agreement with the Oregon Hospitality and Visitors Association to provide special travel promotion services. Mr. Bell said the Department is not staffed to handle these services. The contract is for the period from September 1, 1979, through June 30, 1980, at a cost of \$31,000, and has the approval of the Travel Advisory Committee. The Commission unanimously approved the agreement as recommended by Mr. Bell.

The Commission considered a procedure entitled "Certification Acceptance". Mr. Coulter said this procedure allows the State to assume a greater share of the responsibility in the Federal Aid Highway Program. It is an alternate to the standard administration of Federal Aid projects. He stated it reduces direct Federal Highway Administration review and approval of specific project development steps which is similar to the Secondary Road Plan. Mr. Coulter said it is proposed to apply this procedure to all projects administered under the Federal Aid Secondary and Safer Off-System Programs. The Commission unanimously approved the certification and authorized the State Highway Engineer to sign the document on their behalf.

Consideration was given to a settlement of a claim with Kearney Bros. Construction Company in the amount of \$130,000 covering the S. Tigard Interchange-Boones Ferry Road Project on Kruse Way, Contract No. 8261, in Washington and Clackamas Counties. Mr. Coulter said this contract was awarded on July 17, 1975, and a court injunction later shut down the project. The contractor was given a stop work order on August 5, 1975. On August 18, 1975, the contractor was requested to resume work in order to install right-of-way fencing which was the only work allowed at that time. A judge's ruling later lifted a portion of the work restrictions and the resident engineer then rescinded the stop work order. The contractor resumed work again on September 2, 1975. Mr. Coulter mentioned the contractor submitted a claim in the amount of \$272,183. After review and evaluation of the validity of the claim, a settlement of \$130,000 has been agreed to by the contractor and the State. Federal Highway Administration concurrence and participation has been obtained. Clackamas County participated in the match funds for a portion of this contract and they concur in the settlement and their additional cost of \$10,741. Mr. Coulter said this would increase the project authorization in the amount of \$171,600 or

9.6%. The Commission unanimously approved the settlement in the amount of \$130,000 and the increase in project authorization in the amount of \$171,600 as presented by Mr. Coulter.

Mr. Coulter presented a revised list of equipment rental rates used for force account work. He stated the last list was published November 1, 1975. Increases in fuel costs and ownership costs since that time justified an across-the-board 6% increase of the last published rate effective May 1, 1977. He mentioned the proposed rates average 39% above the May 1, 1977 adjustment. Mr. Coulter stated these rates have the concurrence of the Federal Highway Administration and the Associated General Contractors. Commissioner Brix suggested that the rates be reviewed at least once a year. Following Mr. Coulter's favorable recommendation, the Commission unanimously approved the revised equipment rental rates effective October 1, 1979. (Copy of new rates on file in the Commission's files, Salem.)

Mr. Talbot reported that the conference center at Silver Falls State Park in Marion County is nearing completion and should be ready to open in the fall of 1979. He said the center is a public facility and must be available to the general public. Its primary purpose is to provide a close-in meeting place for State agencies. Mr. Talbot said the first year the center will be able to accommodate groups of up to 32 persons. By the fall of 1980 when all the improvements are completed, the conference center will be able to accommodate groups up to 56. The Commission gave their unanimous approval to schedule public hearings to establish rates and other rules pertaining to the conference center.

Mr. Talbot announced that after the morning meeting two vans will transport the Commission and staff to the new Willamette Mission State Park for lunch.

The Commission considered approval of a supplemental agreement with Washington County pertaining to the collection of the fuels tax assessed by the County. Mr. Ward said the County has requested the State to reduce the reserve for funds account from \$20,000 to \$5,000. He indicated the Division has issued less than \$2,000 in gasoline tax fuel refunds since the program was implemented on January 1, 1978. The Commission unanimously approved the supplemental agreement as recommended by Mr. Ward.

Mr. Ward requested Commission approval to present a request to the September Legislative Emergency Board for an increase in expenditure limitation of \$39,896 and an additional nine positions. He said this request is a result of the implementation of Chapter 233,

Oregon Laws 1979 (House Bill 2052), relating to mandatory auto insurance passed by the 1979 Legislature. The Commission unanimously approved Mr. Ward's request to appear before the Emergency Board.

Mayor Al Densmore and Robert Kortt, Traffic Engineer, appeared before the Commission concerning funding of a traffic signal control system for the City of Medford. Mr. Kortt said approximately two years ago the Transportation Commission looked at Medford as a number one priority in the State for a signal demonstration project utilizing Federal Traffic Signal Demonstration Funds. He recalled that the Department submitted the Medford project to Region 10 (Federal Highway Administration), but Anchorage, Alaska, and Boise, Idaho, were given the funds. Mr. Kortt said prior to the release of further Federal funds, this program was cancelled. He pointed out that the 1978 Surface Transportation Act allows the State to utilize up to 10% of their apportioned monies for safety and signal projects with no match required. Mr. Kortt stated that the City has worked very closely with the Department the past two years to develop this control system. The City has developed plans and specifications and are ready to go to bid for a users concept of a Processor 170 Controller. He mentioned much of the computer design standards formulated to date will have application in other areas of the State.

Mayor Densmore commented on the air quality improvement in Medford that has been dictated by the level of pollutants in the air. He mentioned that in 1977 the City experienced the highest level of carbon monoxide levels in the State. The City exceeded State and Federal health standards on 178 days; in comparison, Portland exceeded standards only 44 days. The Mayor said they believe there are some air quality benefits to be had by this program. He mentioned any assistance the Department can give the City in helping to see this project through will be a benefit not just to the citizens of Medford but to the entire State. Mayor Densmore mentioned the estimated cost of the project is \$950,000 which includes controllers at 60 intersections (46 on State highways). This also includes testing of equipment and education.

Mr. Klaboe stated some of the primary and secondary funds could be applied to this project but it would come off the top of the primary allocation. He mentioned the primary allocation for the next several years have been allocated to other projects. He said some more primary funds could be combined that are not used or the reduction or elimination of some other project would be necessary to fund the Medford project.

Chairman Yturri stated that the Commission is interested in the project and will review and advise the City what the Department can do.

Mr. Klaboe said the Six Year Highway Program hearings will be held this fall and there will be an opportunity then for the City

to present this project. Mr. Klaboe pointed out the Department has approximately \$4,000,000 in backlog of warranted signals in the State system. This type of a project is 100% Federal funds; there is no match required.

A delegation from Eugene came before the Commission concerning the extension of 6th and 7th Avenues to West 11th in Eugene. Gretchen Miller, member of the Eugene City Council, said she is representing the Council as Mayor Gus Keller was unable to attend the meeting. Ms. Miller read Mayor Keller's letter of August 21, 1979, to the Commission. (Mayor Keller's letter is on file in the Commission's files, Salem.) The letter refers to the Eugene-Springfield Area 2000 Transportation Plan (T-2000) adopted in 1978. She said the City Council at its meeting of August 1, 1979, voted to support some preliminary concepts which have been developed for the 6th-7th Avenue extension. The letter outlined the following specific actions adopted by the Council:

- 1) Request the Oregon Transportation Commission to place the 6th/7th Avenue facility on its Six-Year Improvement Program.
- 2) Request the Oregon Transportation Commission to direct the Oregon Department of Transportation staff to begin development of an environmental impact statement and other analyses required to begin implementation of the project.
- 3) Direct Eugene staff to assist ODOT as may be required, and to make periodic reports concerning progress of the facility to the Eugene Planning Commission and City Council.
- 4) Request the Oregon Transportation Commission to place Element 1 (widening of 6th and 7th Avenues) and right-of-way acquisition for Element 4 (west of Seneca Street to West 11th Avenue) as its two highest priorities for implementation following completion of the environmental impact statement, with consideration given to use of surplus right-of-way funds from the Highway 126 project to augment other funding sources.
- 5) Notify the Oregon Transportation Commission that, in compliance with the City Charter, the Eugene Council intends to place a proposed project to a vote of the citizens of Eugene as soon as the required analyses and information have been performed and developed, in order that the voters can make a reasonable decision on the issue.

- 6) Direct the Eugene staff to investigate the possibilities of using local bond monies intended to address transportation needs in the east-west corridor for initial right-of-way acquisition in Element 4 of the project, with the understanding that as funds for this activity become available to the Oregon Transportation Commission, they would be repaid to the City. This recognizes that any expenditure of funds from any source must await local voter approval of the project (as prescribed under the City's charter) and completion of an environmental impact statement which is acceptable to the Federal government.

Mr. Charlie Henry, City Manager, thanked Mr. Rulien and other staff members for their help in this proposed project. He said this project is very important to the City, the metropolitan area and to the State. Mr. Henry mentioned the Metropolitan Transportation Plan was the first one adopted that has the concurrence of the County and the Cities of Eugene and Springfield. He called attention to the development that is taking place at the western part of Eugene and the heavy traffic volume that 6th, 7th, and 11th Avenues carry at the present time. Mr. Henry said the City has \$700,000 to \$800,000 available for advance right-of-way acquisition. There have been no major projects, he said, in the Eugene area since the construction of I-105 in the late 1960's. He stated the east-west traffic movement is reaching critical traffic stages. Mr. Henry asked that the project be placed on the Six Year Program and that work commence on the Environmental Impact Statement. He introduced Mr. James Hanks, Traffic Engineer; Mr. Jim Farah, Sr. Planner; and Mr. Irv Berman, Public Works Planning Engineer.

Commissioner Coleman mentioned that he travels 6th and 7th Avenues every day and is aware of the traffic problems that exist. He mentioned the streets were constructed many years ago and are not designed for the present day traffic.

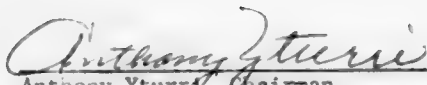

In reply to Commissioner Hollern's inquiry, Mr. Klaboe stated the process today is not to start the Environmental Impact Statement until the project is on the Six Year Program.

Chairman Yturri said the City will have an opportunity to present this project this fall at one of the Six Year Highway Program Hearings.

The meeting adjourned at 11:35 a.m.

The Commission had lunch at the new Willamette Mission State Park near the Wheatland Ferry Crossing in Marion County. Mr. Talbot and his staff gave a brief history of the park.

The Commission held a work session at 2 p.m. in the Conference Room of the Transportation Building to discuss the Department's Six Year Program.

SUBJECT: Report of Actions Taken Under Delegated Authority

- (1) Agreement with the City of Lincoln City and the Devil's Lake Rural Fire Protection District for installation of a traffic signal on the Oregon Coast Highway at 25th Street (Lincoln County). The State will design, install and maintain the signal using State forces. The City has agreed to pay for electrical energy and the Fire District will pay for the necessary material. (Local Government)
- (2) Agreement with Clackamas County and the Mercury Development Company for installation of traffic signals on the Clackamas-Boring Highway at Foster Road. The State will design, install and maintain the signals using Federal Aid Title II Safety funds. The County has agreed to pay all costs of electrical energy, and the Mercury Development Company has agreed to contribute a maximum of \$7,500 toward the project costs. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve the two items listed above and report this action for your official records.

Dated this 5 day of July, 1979.

- (2) Supplemental agreement to the highway transfer agreement dated March 27, 1979, with the City of Beaverton which provides for the City to accept maintenance responsibility of a signal being installed at the Fred Meyer Shopping Center access with the former Beaverton-Hillsdale Highway. (Local Government)
- (3) Letter form agreement with Tualatin Rural Fire Protection District for installation of emergency vehicle pre-emption devices on traffic signals on Nyberg Road at Martinazzi Street and Boones Ferry Road, Washington County. The project is under contract and the work will be done by the contractor through Price Agreement. The District will pay 100% of the cost and be responsible for the replacement of obsolete or worn-out equipment. (Local Government)
- (4) Agreement with City of Springfield for the completion of a City-wide survey and inventory of cultural resources in the City of Springfield. The object of this contract is to assist the City in meeting its requirements for the identification of cultural resources on the LCDC Statewide Planning Guidelines and, at the same time, expand the Statewide Inventory of Historic Properties. The amount of payment by the State is limited to \$4,306.70. The total expenditure will be wholly reimbursed to the State from Federal Survey and Planning monies made available by the Heritage Conservation and Recreation Service, US Department of the Interior (Lane County). SUBJECT: Confirmation Report of Actions Taken Under
Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

- 1) On June 28, 1979, approved a 30-day extension to the 1977-79 Keep Oregon Livable contract agreement to enable Ted Hallock, Inc., to complete the work under the contract. All other terms and conditions of the contract remain the same.
- 2) On July 6, 1979, approved a cooperative construction agreement with the City of Milwaukie and the Freeport Investment Company for the installation of traffic signals at the intersection of Clackamas Highway at Freeman Avenue. State will design, install and maintain the signals. City will pay for all electrical energy consumed and Freeport Investment Company has agreed to pay all costs of the project, except the State will pay the cost of the material & labor in the inter-connection of the new equipment with the existing signal system.
- 3) On July 6, 1979, approved a supplemental agreement (final) with Salem Sand and Gravel Company for termination of their responsibilities on the Manzanita Safety Rest Area Sewage disposal facility on the Pacific Highway in Josephine County.
- 4) On July 11, 1979, approved a contract with Linn-Benton-Lincoln Manpower Consortium for employment of personnel under the CETA Program, with a maximum limit of \$50,783. This contract is for the period of July 1 through September 30, 1979.
- 5) On June 26, 1979, by telephone to J. B. Boyd to accept the settlement with Southern Pacific Transportation Company for 10 parcels on the Hanson Cr.-Saunders Cr. and Saunders Cr.-Mapleton Section of the Florence-Eugene Highway in Lane County for a consideration of \$120,820 plus interest to 8-31-79 of \$40,284. By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved all actions listed below and report this action for your official records:

- 1) On July 16, 1979, by telephone approved Supplemental Agreement No. 1, Phase II agreement, with Multnomah County, covering Rocky Butte Jail Relocation Project, Downtown Detention Center. Agreement generally covers the costs of Multnomah County and their personnel in the Phase II activities, the jail replacement.
- 2) On July 17, 1979, approved Supplemental Agreement No. 2, Phase II Agreement, with Multnomah County, covering Rocky Butte Jail Relocation Project, Downtown Detention Center. Agreement covers the moving of all the terms of the Phase II agreement from the Annex Block between 4th and 5th, Main and Madison, to the Lennox Block, 2nd and 3rd, Main and Madison.
- 3) On July 16, 1979, by telephone approved Supplemental Agreement No. 2 with Multnomah County for the Public Works Functional Replacement. Supplement was to delineate the terms under which design approval was condition on the Public Works Facility. It outlined the amount of compensation for their property; it limited the number of dollars in the replacement construction.
- 4) On July 24, 1979, approved a consultant agreement with Industrial Inspection, Inc., to conduct ultrasonic inspection of a railroad bridge being fabricated in Portland covering Contract No. 8893, East Portland Freeway, Multnomah County. The amount of the agreement is \$1,200.

TO: Oregon Transportation Commission
SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me, in my official capacity, to exercise certain authority on behalf of the Oregon Transportation Commission.

Pursuant to that authority, and acting in accordance therewith for the Commission, I approved the following action and report it for your official records:

On July 24, 1979, approved an agreement with Oregon Hospitality and Visitors Association to assist State in gathering information on motor vehicle fuel availability and distributing it to chambers of commerce and to other travel information offices. Effective date August 1, 1979. Expiration date September 30, 1979. Total cost \$1,000.

Dated this 13th day of August 1979.

F. B. Wlaboe
Director of Transportation

C
MINUTES OF 8-21-79

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On July 6, 1979, established a 35 MPH speed zone from M.P. 1.17 to M.P. 1.22 and a 40 MPH speed zone from M.P. 1.22 to M.P. 3.92 on the Hood River Highway just south of Hood River in Hood River County. Rescinds Speed Zone Order No. 770 dated 1-25-78. (Speed Zone Order No. 813)
- 2) On July 19, 1979, approved a parking prohibition just north of the City of Klamath Falls on both sides of The Dalles-California Highway No. 4 from Cove Point Road (M.P. 270.25) to Lakeport Road (M.P. 271.43) in Klamath County.
- 3) On July 1, 1979, approved and executed an agreement with the Federal Highway Administration to match Federal-aid Highway Funds in accordance with Clause B of Section 120a of Title 23, USC.
- 4) On July 31, 1979, established a 40 MPH temporary construction speed zone from N.E. 82nd Avenue undercrossing (M.P. 5.01) to the N.E. 122nd Avenue overcrossing (M.P. 10.08). This speed zoning is to be in effect only on those sections where signs are in place and only for the duration of the construction projects. (Columbia River Highway No. 2, Multnomah County.) (Approved by L. W. Rulien on behalf of the State Highway Engineer.)

MINUTES OF 8-21-79

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records.

On June 11, 1979, approved the sale of timber salvage at Golden and Silver Falls State Park, Coos County, to Weyerhaeuser Company for a total of \$34,913.95.

On July 2, 1979, approved an agreement with Douglas County extending for one year a lease under which the County operates beach access areas at Umpqua Lighthouse State Park, Douglas County. The extension is through May 1, 1980.

On July 9, 1979, approved Mr. Tyler Robinson's application to construct a single-family residence within the Sandy River Scenic Waterway in Multnomah County.

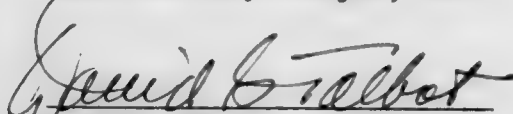

On July 9, 1979, approved a contract with D & R Timber Company, Portland, Oregon, for the sale of timber salvage at Saddle Mountain State Park, Clatsop County. Total amount of revenue to State Parks Division will be \$35,750.00.

On July 16, 1979, approved Mr. Joseph Sturges' application to rebuild a single-family dwelling for Wilma Roller, within the Rogue River Scenic Waterway in Josephine County.

On July 11, 1979, approved an agreement with Anna Barringer to provide watchman's services at Willamette Mission State Park, Marion County. Mrs. Barringer will be paid \$50.00 per month.

On August 6, 1979, approved a personal and professional services contract with C. Michael Hartfield and Ron Nolan, dba Image Northwest Film Production, to produce a thirty-second color, sound-on-film announcement to be used by television stations in Oregon to promote park usage. State will pay the contractor \$2,500 on completion of the work plus travel expenses not to exceed \$500.00.

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records.

On June 14, 1979 approved Mr. and Mrs. Don Troxell's application to construct a single family residence within the Clackamas River Scenic Waterway in Clackamas County.

On June 26, 1979 approved LTC K.W. Speltz's application to construct a single family dwelling within the Rogue River Scenic Waterway in Josephine County.

On July 2, 1979 approved a supplemental agreement with Douglas County extending to May 1, 1980 the lease for a portion of Umpqua Lighthouse State Park for County recreation purposes.

On July 3, 1979 approved a timber salvage recovery sale with D & R Timber Company at Saddle Mountain State Park, Clatsop County. Approximate value \$35,570.00.

On July 3, 1979 approved a work/study agreement with Lewis & Clark College to provide work to college students eligible to participate in the program. Term of the agreement is from July 1, 1979 to August 31, 1979 with a maximum payment by the State of \$351.78.

On July 5, 1979 approved a personal and professional services contract with Susan Trabucco to work in the Historic Preservation Office from 2/28/79 to 5/31/79. Payment will not exceed \$250.00.

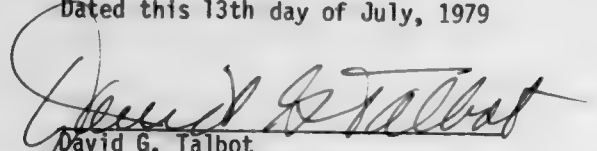

On July 9, 1979 approved an agreement with the Oregon State Board of Higher Education to develop and test the historic archeological site of old Aurora, Stauffer-Will Farmstead/Aurora Colony, Marion County, as part of the survey and planning of cultural resources authorized by the National Historic Preservation Act. The amount of payment by the State is limited to \$14,000.00. The total expenditure will be wholly reimbursed to the state from federal Survey and Planning monies made available by the Heritage Conservation and Recreation Service, U. S. Department of the Interior.

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7745 State of Oregon, by and through its Department of Transportation, Parks Division, v. Forrest Solomon and Frank Jones: This lawsuit has been instituted by the Parks Division under the Oregon Scenic Waterways Act. It arises out of the defendants' placement of a mobile home within the John Day Scenic Waterway in Wheeler County. The complaint alleges that defendants placed the mobile home within a "related adjacent lands" without having either submitted to the Parks Division a notification of intent, or having received approval, to do so, as required by the Scenic Waterways Act and rules. The Division seeks an injunction requiring defendants to remove the mobile home from the "related adjacent land" until they have submitted a notification of intent and received approval of their plan to place the mobile home along the waterway.

L-7748 Melba David v. State of Oregon, by and through its Department of Highway, et al: This case arises out of an accident that occurred on January 28, 1978 in a construction area on Washburn Way near South 6th Street in Klamath Falls, in Klamath County. The plaintiff alleges that a work area was not adequately barricaded and signed and that her vehicle drove off into a hole in the roadway causing serious injury. The plaintiff is seeking \$78,408 in damages for personal injury. The matter has been referred to the Attorney General's office for the defense of the State.

L-7752 Raymond D. Caldwell v. State Highway Commission and Louis Joseph Raab: This case arises out of an accident that occurred on August 2, 1977, at the intersection of North Going Street and North Interstate Avenue in Portland, in Multnomah County. The plaintiff alleges that a truck driven by the defendant Raab ran a red light and collided with the vehicle driven by plaintiff. The plaintiff is seeking \$102,473.27 for personal injury and loss of salary for 20 months. The matter has been referred to the Attorney General's office for the defense of the State.

L-7753 James Moulton, Personal Representative of the Estate of Traci Moulton, deceased, v. State of Oregon, by and through its duly authorized agency, Oregon Transportation Commission, et al: This lawsuit arises out of an accident that occurred on April 5, 1979 on Highway 395 in Grant County. The plaintiff alleges that the decedent was driving an automobile which struck a large hole and an adjacent frost heave and lost control of the vehicle resulting in a collision causing injuries fatal to the decedent. The plaintiff alleges that the State was negligent in failing to properly sign the areas, properly light the area, to erect barricades or other signs warning of the hazardous driving conditions and

failing to post a speed limit. The plaintiff is seeking \$107,919.95. The matter has been referred to the Attorney General's office for the defense of the State.

L-7754 Michael C. Lindahl, dba Lindahl Lumber Company v. Linda E. McClaughry, and the State of Oregon, acting by and through the Oregon Transportation Commission: This lawsuit arises out of an accident which occurred September 12, 1977 at or near the intersection of Ivy Street and First Street in Junction City, in Lane County, which involved a truck driven by the plaintiff and a vehicle driven by the defendant McClaughry. The plaintiff alleges that the collision was a direct result of the negligence of the State of Oregon in the maintenance of the traffic control signal at the intersection. In a prior case the defendant McClaughry had sued the State of Oregon and judgment was entered in favor of McClaughry. The plaintiff alleges that that case involves the same fact situation and therefore the plaintiff is entitled to judgment against the State in the amount of \$4,665. The matter has been referred to the Attorney General's office for the defense of the State.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
SEPTEMBER 19, 1979

September 19, 1979
Salem, Oregon

The Oregon Transportation Commission met in the Conference Room 122, Transportation Building at 10 a.m. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Anthony Yturri, Chairman
Tom Walsh, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
F. B. Klaboe, Director of Transportation
Jack Sollis, Chief Counsel
Fred Miller, Assistant Director for Administration
George Bell, Assistant Director for Intergovernmental and Public Affairs
Robert Royer, Assistant Director for Policy and Program Development
H. S. Coulter, State Highway Engineer
Larry Rulien, Executive Assistant to State Highway Engineer
Paul Burket, Administrator of Aeronautics Division
Dennis Moore, Administrator of Public Transit Division
David Talbot, Administrator of Parks and Recreation Division
Harold Grover, Administrator of Motor Vehicles Division
Robert Bothman, Administrator, Metropolitan Branch
David H. Moehring, Assistant State Highway Engineer, Project Management Branch
J. B. Boyd, Right of Way Manager
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar:

- 1) Minutes of the meeting of August 21, 1979.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2690" on file in the Commission's files, Salem.)
- 3) Constructing a truck escape ramp at Map Corner Curve on the Mt. Hood Highway about four miles west of Government Camp in Clackamas County at an estimated cost of \$700,000. Approved inclusion in the Six Year Program.

- 4) Supplemental agreement with Associated General Contractors and Access, Inc., for On-The-Job Training supportive services. Supplement is to increase the 1979 agreement amount of \$100,000 to \$124,940.04.
- 5) Authorized payment of \$6,500 to the American Association of State Highway and Transportation Officials for the Materials Reference Laboratory and Cement and Concrete Reference Laboratory Programs for fiscal year 1980.
- 6) Adopted resolution designating the proposed route of Interstate 82 in Umatilla County as the McNary Highway, State Primary Highway No. 70. ("Primary Highway Designation Resolution No. 56" on file in the Commission's files, Salem.)
- 7) Adopted the following abandonment resolutions:
 - a) Six segments (0.51 mile) of old alignment in the Clarno Section of the Shaniko-Fossil Highway in Wheeler County. ("Abandonment Resolution No. 584" on file in the Commission's files, Salem.)
 - b) Three segments (0.35 mile) of old alignment in the Remote Section of the Coos Bay-Roseburg Highway in Coos County. ("Abandonment Resolution No. 585" on file in the Commission's files, Salem.)
 - c) A short segment (0.03 mile) of old alignment in the North Fork, Siuslaw River Section of the Florence-Eugene Highway in Lane County. ("Abandonment Resolution No. 586" on file in the Commission's files, Salem.)
- 8) Three requests for projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood and I-305 Freeways as follows:
 - a) Monitoring air quality in the McLoughlin Boulevard Corridor (Hawthorne Bridge-East Portland Freeway (I-205) Section) of the Pacific Highway East in Clackamas County. Total Cost \$20,000; Federal Funds \$17,000; Local Share \$3,000.
 - b) Roadway and traffic signal improvements on a 3.2 mile section of N.E. 99th Avenue-N.E. 162nd Avenue Section of N.E. Sandy Boulevard (N.E. Portland Highway) in Multnomah County. Total Cost \$565,000; Federal Funds \$480,250; Local Share \$84,750.

(Continued on next page.)

- c) Fifth lane for reversible lane operation between peak hours on Pacific Highway East from Superior Street to Vista Avenue on Commercial Street in Salem. Total Cost \$2,996,000; Federal Funds \$2,546,600; Local Share \$449,400.
- 9) Authorized increases in project authorizations on the following contracts:
- a) Contract No. 8786 for the Dexter State Park Project in Lane County, in the amount of \$34,890 (8.2% increase).
 - b) Contract No. 8578 for work on the Fox Valley-Mill City Section of Lyons-Mill City Road in Linn County, in the amount of \$96,430 (32% increase).
 - c) Contract No. 8489 for work on S.W. Sheridan Street-S.W. Slavin Road (Portland) Section of City Streets and the Pacific Highway West in Multnomah County, in the amount of \$30,896 (5.6% increase).
- 10) Reviewed and approved revised agreement with City of Roseburg for use of State-owned buses in Roseburg for the period September 7, 1979, to September 6, 1980.
- 11) Adopted "Delegation Order No. 27" granting the authority to the Administrator of Motor Vehicles Division to approve and execute personal service and miscellaneous contracts of \$5,000 or less. ("Delegation Order No. 27" on file in Commission's files, Salem.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| Chairman of Transportation Commission | Exhibit A |
| State Highway Engineer | Exhibit B |
| Right of Way Manager | Exhibit C |
| Chief Counsel | Exhibit D |
| Highway Controller | Exhibit E |
| Administrator, Aeronautics Division | Exhibit F |

Mr. Klaboe presented a report of the impact of inflation and population growth on the Department's revenue projections for the Six Year Program. (Copy of report on file in the Commission's files, Salem.) He said the program levels presented at the August Commission meeting were based on an inflation rate of 11.5% for Fiscal Year 1982 through 1987. Subsequent to last month's meeting, the inflation estimate was revised downward to 8.5%. Mr. Klaboe stated this provides an additional income to the Highway Division of \$17.3 million. He

said the population growth was figured at 1.6% by Portland State University and the Bonneville Power Administration forecast.

Mr. Klaboe presented to the Commission a letter of resignation from Harold "Skip" Grover, Administrator of the Motor Vehicles Division, effective October 3, 1979. (Letter on file in Commission's files, Salem.) Mr. Klaboe pointed out that Mr. Grover will become the Deputy Director of the Oregon Department of Economic Development. He mentioned that Mr. Grover will certainly be missed as he has made numerous contributions since he has been head of the Motor Vehicles Division.

Chairman Yturri said that Mr. Grover has contributed a great deal to the Department and to the State of Oregon. The Commission wished him well in his new assignment.

Mr. Klaboe said that plans are being made for the October 23, and 24, 1979, dinner and Commission meeting in Ontario. He indicated that invitations are being sent to the counties and cities in the area and to the Idaho Transportation Commission members and staff. Mr. Klaboe stated that Mr. Bell will be sending out further information concerning the October meeting.

The following meeting was set for Tuesday, November 20, 1979, in Salem. Commissioner Coleman mentioned that he would be out of the State and would be unable to attend the November Commission meeting.

The Commission considered a request from Representative Mae Yih concerning a piece of excess property adjacent to Waverly Park, Albany-Junction City Highway, in the City of Albany. Mr. Klaboe stated Representative Yih was told the State would trade the property for some property the City might have for equal value. The City could not come up with property of equal value because the State's property is appraised at approximately \$122,000. Mr. Boyd stated the 0.56 acre of property is located at the southwest corner of Waverly Lake, adjacent to Highway 99 and just east of the Star Dust Motel (formerly the State Motel). (He handed to the Commission a sketch map of the property, copy of which is on file in the Commission's files, Salem.) He mentioned the Right of Way Section is operating under a resolution adopted by the Commission on September 25, 1974, which requires the public agency requesting properties owned by the State to pay market value unless those uses meet the constitutional charge that the State has. Mr. Boyd said this matter has been reviewed and the State can find no reason to discharge its duties to the constitutional charge to sell the property to the City less than market value. The Commission asked Mr. Boyd to review other possible alternatives, including a modification of the policy, and to take the matter up again with the City of Albany.

Attention was given to a temporary rule setting forth the fees which shall be charged for parking permits in winter recreation

parking areas. Mr. Sollis recalled that the 1979 Legislature gave the Department authority to set the fees by rule rather than have the fees specified in the statute. This has approval of the Winter Recreation Advisory Committee. He mentioned the statutory fees are no longer in effect and it is necessary for the Commission to adopt the fees for the coming winter season which will be \$1 per day or \$5 on an annual basis. He said a hearing will be held for adoption of a proposed permanent rule which will be presented to the Commission at a later date. The Commission unanimously adopted the temporary rule which was filed with the Secretary of State on September 24, 1979, and published in the Administrative Rule Bulletin on October 15, 1979. ("Administrative Rule No. 120" on file in Commission's files, Salem.)

Mr. Sollis reported on the Photo-Art case involving the filming of the I-205 Bridge (Glenn L. Jackson Bridge) in which a lawsuit was brought challenging the validity of the contract. He said the whole case revolved around the interpretation of a statute which said that contracts exclusively for personal services could be secured through the competitive quote system and selection process rather than the competitive bidding system. The Lower Court invalidated the contract and said it was not exclusively for personal services because there were other items of materials that the Department was purchasing in the contract. Mr. Sollis said it was appealed to the Court of Appeals and the State lost. To take care of the problem the statute was amended by the Legislature to delete the word "exclusively" and authorized the Public Contract Review Board to adopt a rule covering this matter. The Public Contract Review Board has now adopted a rule that covers the matter clearly which should cover any problem in the future. Mr. Sollis did not recommend appealing this case any further as it would delay getting this contract terminated. The Commission unanimously accepted his recommendation.

Mr. Coulter commented on the report previously mailed to the Commission covering an analysis of the Highway Division element of the Six Year Department Program. Mr. Moehring reviewed the first draft of the Preliminary Six Year Highway Improvement Program with the Commission. (Copy of both reports on file in the Commission's files, Salem.) A preliminary Six Year Program Chart was handed to the Commission showing the preservation type of work, resurfacing, bridges, safety and traffic operation, reconstruction and new routes in units and dollars for the Fiscal Years 1980-81, 1982-83, and 1984-85. He pointed out the numbers in blue are identified projects in the new program; the green are reserve funds for projects in special programs; and in pink are uncommitted funds. (Copy of Preliminary Program on file in the Commission's files, Salem.)

Mr. Moehring said the final review of the estimates and financial balance of the program will be completed next week. The material will go to the Graphics Section the first week in October and then to the printer on October 8th. The final Preliminary Six

Year Highway Improvement Report should be printed by October 22nd. Mr. Moehring said it is planned to send the reports to all interested parties prior to the 20 public hearings scheduled between November 13, and December 6.

Mr. Coulter handed to the Commission the schedule of meeting dates and the Commission indicated that they would attend the meetings. It was decided that Chairman Yturri would attend the meetings in Region 5; Commissioner Hollern Region 4; Commissioner Coleman Region 3; and Vice Chairman Walsh and Commissioner Brix would divide up the meetings in Regions 1 and 2. The Chairman suggested that the Commissioners attend meetings in other Regions if their schedules permit. Mr. Rulien stated that he will contact each Commissioner to schedule the dates of the meetings in the Regions.

It was decided not to make any proposed project recommendations at the hearings but to wait until after hearing the testimony from the 20 public hearings. The Commission indicated that they do want to have at the hearings a listing of proposed projects by Region and dollar amount.

Mr. Coulter said that staff will proceed to work on the Six Year Highway Program and will have a copy of the program at the October Commission meeting. He mentioned at the December meeting there will be a draft of the program with the information included from the hearings and a final report will be submitted to the Commission in January or February 1980.

The Commission considered a temporary rule authorizing the State Highway Engineer to restrict or halt movement of oversize vehicles, mobile homes and modular building units to avoid conflict with highway construction, repair and local traffic conditions. Mr. Coulter mentioned this involves a current project, the deck replacement of the Yaquina Bay Bridge on Highway 101 at Newport. He said the temporary rule was necessary to allow the movement of over-width vehicles and loads during hours and days as called for in the specifications when such movement is normally prohibited under existing rules. The Commission unanimously adopted the temporary rule as recommended by Mr. Coulter, which was filed with the Secretary of State on September 20, 1979, and published in the Administrative Rule Bulletin on October 1, 1979. ("Permit Rule No. 32E" on file in the Commission's files, Salem.)

Commissioner Brix brought up the matter of the increase in royalties on aggregate obtained from State Land Board lands. After discussion, Mr. Coulter said he will look into the reasons for the increase from 25 cents to 65 cents a yard.

The Commission considered a request to formally dedicate park user fee revenues to the Parks and Recreation Division.

Mr. Talbot said the Commission has done it previously on timber and property sales. He pointed out that it would amount to approximately \$6.8 million per biennium. The revenue is down approximately 11% so far this year. The Commission unanimously approved Mr. Talbot's request.

Consideration was given to the adoption of a temporary rule for the operation (setting of the fees, deposits and regulations for the use and reservation) of the new conference center at Silver Falls State Park in Marion County. Mr. Talbot stated a public hearing was held last night for this rule as a part of a comprehensive rule revision package which will be submitted to the Commission later this year. The reason, he said, for the temporary rule is that the conference center will begin operation the latter part of this month. The Commission unanimously adopted the temporary rule which was filed with the Secretary of State on September 24, 1979, to be published in the Administrative Rule Bulletin on October 15, 1979. ("State Parks Rule No. 39-o" on file in the Commission's files, Salem.)

Attention was given to the adoption of a proposed administrative permanent rule to close the beach at Cannon Beach in Clatsop County to vehicles (except by permit) year around. Mr. Talbot referred to an aerial photo map pointing out the specific area for closure. He said public hearings have been held and testimony was quite favorable to closing the beach to vehicles except in and around Haystack Rock for launching of boats and some limited beach parking. Mr. Talbot mentioned there is a local controversy in the community in the parking of vehicles. He said the Cannon Beach City Council is opposed to cars on the beach and the Clatsop County Board of Commissioners has stated they will go along with the wishes of the City.

Mrs. Marian Crowell of Cannon Beach appeared stating that they have owned property in Cannon Beach for 20 years. She said every weekend the motels are filled; the town is overcrowded and parking is needed on the beach the year around.

Mrs. Crowell referred to a petition containing 894 signatures (271 of these were Cannon Beach residents) which was previously presented to the Parks Division. The 271 letters sent in September were a protest against the compromise between the Parks Division representative and the Cannon Beach City Council.

Mrs. Crowell said if the beach were to be closed it would be a detriment to the merchants. She referred to a letter from Senator Vern Cook stating that parking should be available on the beach.

Mr. Lee Crowell (former Cannon Beach City Councilman) stated that he is in favor of the present arrangement. He asked that the Department allow parking year around in the 2,700 foot beach area.

Mr. Lyle Wells mentioned that he lives in Portland but has a beach-front home across from Haystack Rock. He stated that he represents approximately 200 Cannon Beach residents and about 500 other Oregonians that have petitioned the Commission to leave this section of beach open. Mr. Wells stated that he has driven on the beach for over 30 years and has never heard of any accident or anyone hurt by an automobile. He asked the Commission to leave it open for at least another year as parking is limited on land, and then review the beach parking again.

It was moved by Commissioner Hollern and seconded by Chairman Yturri that the Commission adopt the Parks Division recommendation. Chairman Yturri, Commissioners Hollern, Walsh and Coleman voted "yes" and Commissioner Brix voted "no". The Commission adopted as a permanent rule the closure of the beach at Cannon Beach to vehicles except by permit year around, with provision made for limited parking and boat launching. (This rule repeals "Ocean Shore Resolution No. 10", page 2, paragraphs "d" through "e" adopted June 2, 1970.) The rule was filed with the Secretary of State on September 21, 1979, and published in the Administrative Rule Bulletin on October 15, 1979. ("Ocean Shore Rule No. 10B" on file in the Commission's files, Salem.)

Consideration was given to a request to appear before the September Emergency Board for approval of an increase in Federal Fund expenditure limitation of \$75,000. Mr. Grover said the increase is needed to allow the Division to utilize a Federal Grant through the Traffic Safety Commission to employ an outside consultant to assist in the design of a new driver license issuance system. The Commission unanimously approved the request as recommended by Mr. Grover and authorized him to sign a contract on behalf of the Commission in an amount not to exceed \$75,000 with a consultant, providing the Emergency Board approves the request.

Mr. Grover expressed his appreciation for the Commission's support and guidance during his tenure as Administrator of the Motor Vehicles Division.

Following Mr. Burket's favorable recommendation, the Commission unanimously adopted a resolution accepting a grant offer from the Federal Aviation Administration in the amount of \$19,172 for a Planning Program Master Plan Study on the Chiloquin State Airport in Klamath County. Total cost of the study is \$22,949 and the State's share is \$3,777. ("Aeronautics Miscellaneous Resolution No. 24" on file in the Commission's files, Salem.)

The Commission unanimously approved financial aid to municipalities grants as recommended by Mr. Burket to the following cities: (Amounts shown constitute one-half or less of the sponsor's share for Federally-funded projects as indicated.)

(Continued on next page.)

Redmond \$20,000
Construct taxiways, terminal apron, access road, realignment of general aviation tiedown apron and rehabilitate a taxiway.

North Bend \$29,006
Install perimeter fence; construct connecting taxiways for Runways 13/31 and 4/22; reconstruct parallel and connecting taxiways for Runways 13/31 and 4/22; mark displaced threshold Runway 34; install wind socks (lighted); replace airport beacon; grade taxiway safety areas and drainage.

Mr. Moore gave a status report on consultant selection for pre-grant audits as part of the Small City and Rural Area Public Transportation Program. He mentioned the Division's Section 18 Program includes two work items to be accomplished by consultants. The pre-grant award audits, he said, are meant to ensure that the Division's grantees are able to comply with the requirements of the Section 18 Program. Mr. Moore said the transit plan will be a statewide assessment of transit needs and a plan for the development of public transit services in appropriate areas. (Detailed report on file in the Commission's files, Salem.)

Mr. Moore handed to the Commission copies of the intercity Oregon Trip Guide which was funded by the Legislative Emergency Board in June 1978. He stated the objective of the brochure is to serve as a ticket jacket listing names and phone numbers of city buses, taxicabs, and Oregon airport limousines to assist the public when they reach their destination. (Copy of Oregon Trip Guide on file in the Commission's files, Salem.)

In response to Commissioner Coleman's inquiry, Mr. Moore reported that for the May-June Quarter 1978 compared to the same period in 1979, all small city transit systems had a 46% increase in ridership. He stated Tri-Met had a 16% increase in June 1979; the Lane Transit District had a 22% increase; and Salem approximately 16% over the same month last year. Mr. Moore indicated that Amtrak nationally showed an increase of approximately 26%.

The Chairman adjourned the meeting at 12:05 p.m.

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approve the action listed below and report this action for your official records:

Agreement with DeShaw House Company to operate the Silver Falls Conference Center from September 20, 1979, to December 31, 1981. The contractor was selected on the basis of open competitive bidding. The agreement provides that the contractor provide food and lodging services on a rate basis specified in the agreement. All receipts for accommodations will accrue to the State and the State shall set the rate for daily accommodations. The State will pay the contractor \$1,500 a month for the 32-bed facility and \$1,800 a month for the 56-bed facility on its completion.

Dated this 30 day of August, 1979

Anthony Yturza, Chairman
Oregon Transportation Commission

(2) A supplemental agreement with the City of Beaverton for construction of the Allen Boulevard Interchange on the Beaverton-Tigard Highway in Washington County. The supplement is necessary to more accurately define the final design features of the project and to comply with utility adjustment laws adopted in 1967. The project will be financed with Interstate Transfer Funds withdrawn from the Mt. Hood Freeway. (Local Government)

(3) Agreement with Lincoln City for the installation of a "pedestrian crossing" sign on the Oregon Coast Highway at 17th Street, Lincoln County. The State will install and maintain the sign. The City has agreed to pay for all materials and furnish electrical energy for illumination. (Local Government)

(4) Agreement with Klamath County and the Basin Center Mall for installation of a traffic signal on the Klamath Falls-Lakeview Highway at Avalon Street to accommodate a commercial development. The State will design, install and maintain the signal equipment; the County will pay for electrical energy and the developer will pay all costs of the project. (Local Government)

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approve all actions listed above and report this action for your official records.

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved the following agreements and report this action for your official records:

- (1) On August 6, 1979, approved an acquisition agreement between the Travel InfoCentres, Inc., the Travel Information Council and the Highway Division, relative to the termination of the concessionaire's agreement with InfoCentres, the assignment and assumption of contracts, and the bill of sale relating thereto. The only obligations under the agreement are payable out of the TIC subaccount.
- (2) On August 7, 1979, approved a supplemental agreement to the advertising contract with Petzold and Associates in Portland. The supplemental agreement allows Petzold and Associates, at the Department's direction, to respond to some of the Department's advertising mail responses. The agreement does not involve any additional funding under the agency contract.
- (3) On August 9, 1979, approved a personal services contract with Al Bates for consulting and advisory purposes with regard to a contract claim (Contract No. 8003) at a maximum limit of \$10,000, with a plan of paying Mr. Bates \$12.23 per hour.

Dated this 14 day of August, 1979

TO: Oregon Transportation Commission

SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On August 30, 1979, approved two agreements with Jean H. Names to conduct a Professional Development for Women Seminar on October 5 and 26, 1979. Each agreement shall not exceed \$425. (Approved by Larry Rulien on behalf of State Highway Engineer)
- 2) On August 30, 1979, approved an agreement with Shipley Associates as a special consultant in the field of secretarial writing to conduct a workshop October 2-3, 1979, at a cost not to exceed \$2,276. (Approved by Larry Rulien on behalf of State Highway Engineer)
- 3) On August 30, 1979, approved an agreement with Shipley Associates to conduct a technical writing workshop on September 25, 26, and 27, 1979, at a cost not to exceed \$2,475. (Approved by Larry Rulien on behalf of State Highway Engineer)
- 4) On August 23, 1979, established a 45 MPH speed zone on the Cove Highway, No. 342, from NCL of Union (0.50 mile N. of Bryan Avenue) (M.P. 21.32) to 0.25 mile N. of Bryan Avenue (M.P. 21.57), in Union County. (Speed Zone Order No. 814)
- 5) On August 23, 1979, established certain speed zones on the Nehalem Highway, No. 102, from M.P. 61.66 to M.P. 61.97 and from M.P. 62.77 to M.P. 62.97, in the vicinity of Vernonia, Columbia County. This rescinds Speed Zone Res. No. 719 dated 3-3-76. (Speed Zone Order No. 815)
- 6) On August 23, 1979, established certain speed zones on the Beaverton-Tualatin Highway, No. 141, from M.P. 2.57 to M.P. 4.74 and from M.P. 6.64 to M.P. 7.60, in the vicinity of Tualatin, Tigard and Beaverton, Washington County. This rescinds Speed Zone Res. No. 349 dated 5-26-61 and Speed Zone Res. No. 475 dated 10-9-64. (Speed Zone Order No. 816)

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7758 Diane Huckaby v. State of Oregon, by and through its State Highway Commission, et al: This lawsuit arises out of an accident that occurred on March 28, 1979 on Powell Blvd. in the City of Portland in an area that was under construction under a State contract. The plaintiff alleges negligence in failing to properly maintain the sidewalks in the construction area or to warn the traveling public of excavations and unsafe conditions. The plaintiff allegedly fell into an excavation and was injured and is seeking \$48,500 in damages. The matter has been referred to the Attorney General's office for the defense of the State.

L-7769 Kenneth C. Wright and Harold Wright v. State of Oregon, by and through its Department of Transportation: The plaintiff in this case alleges that the Department improperly constructed State Highway 207 adjacent to McKinney Creek in Morrow County and as a result caused the creek to flood the plaintiff's property, destroying an alfalfa crop and removing top soil. Plaintiff is seeking \$22,100 in damages. The matter has been referred to the Attorney General's office for the defense of the State.

L-7772 Brooks Garten, Administratrix of the Estate of Jassen Marc Garten, deceased, v. Robert A. Worman, et al: This case arises out of an accident that occurred on March 7, 1979 on U. S. Highway 97 at or near Algoma Road near Milepost 265.66 in Klamath County. The allegations of negligence against the State relate to failing to properly design Highway 97 at its junction with Algoma Road, failing to properly adequately mark a dangerous intersection, failure to take steps to change the dangerous intersection, failing to take reasonable care to protect the safety of the public when the State should have known of a dangerous intersection and failing to properly post speed signs to mark the dangerous intersection. Other defendants in the lawsuit include the Klamath County Road Department, the driver of the other vehicle and his employer. The amount of the lawsuit is \$537,000. The matter has been referred to the Attorney General's office for the defense of the State.

L-7774 Leslee Jo Zimmerman v. Highway Division of the Department of Transportation, State of Oregon: This lawsuit arises out of an accident that occurred on November 8, 1978 on Highway No. 224 in Clackamas County. The plaintiff alleges that the State was negligent in failing to warn drivers of loose gravel on the highway, failure to inspect the highway to discover the loose gravel and failing to remove the loose gravel from the highway. The amount of the lawsuit is \$100,550. The matter has been referred to the Attorney General's office for the defense of the State.

SUBJECT: Agenda Item for Commission Meeting September 19, 1979
(Actions by Aeronautics Administrator under delegated authority)

The following information report is submitted concerning real property actions I have taken under the authority delegated to me by Commission Order No. 18.

This will appear in the agenda as an information item only.

- 1) On November 30, 1978, executed a five-year lease between Oregon State Aeronautics Division (OSAD) and Snake River Aviation Co. for limited commercial operations incident to its agricultural aircraft operations at the Condon State Airport.
- 2) On December 4, 1978, executed a Deed of Dedication from OSAD To The Public accepted by Coos County, covering a portion of a road adjacent to the Bandon State Airport.
- 3) On January 17, 1979, executed the following:
 - a) Five-year lease between OSAD and Charles R. Shearer covering Hangar Site W-13 at the Lebanon State Airport.
 - b) Five-year lease between OSAD and Shield Enterprises, Inc., covering Hangar Site E-5 at the Lebanon State Airport.
 - c) Two-year Ingress/Egress Permit between OSAD and Walter M. Bennett, Vera L. Bennett and Aurora Aviation, Inc., covering point of entry M-1 at the Aurora State Airport.

- 3276 -

A MEMBER OF THE NATIONAL ASSOCIATION OF STATE AVIATION OFFICIALS

Oregon Transportation Commission -2-
Members

September 4, 1979

- d) Five-year lease between OSAD and Norman Wingren covering Hangar Site E-10 at the Lebanon State Airport.
 - e) Tree Cutting Permit for the period 12/1/78 to 9/30/78 between OSAD and Harold L. Knapp for removal of Christmas trees and pine boughs at the Cape Blanco State Airport.
 - f) Five-year lease between OSAD and Norman Coote, Henry Suderman, John W. Buell, James A. Schneider, Dale A. Davison and John H. Schall covering Hangar Site #2 at the Independence State Airport.
- 4) On January 19, 1979, executed a five-year lease between OSAD and Francis E. Bresler covering Hangar Site W-1 at the Lebanon State Airport.
 - 5) On January 26, 1979, executed a five-year lease between OSAD and Steven M. Christensen and Diane S. Christensen covering Hangar Site E-7 at the Lebanon State Airport.
 - 6) On February 1, 1979, executed the following:
 - a) Two-year Ingress/Egress Permit between OSAD and Wiley L. Campbell, Duane Bidgood, Paul D. Nichols, Horizon Aviation, Inc., and Alair Aviation Service, Inc., covering point of entry S-1 at the Aurora State Airport.
 - b) Approval of an Assignment of Lease from Timothy A. Lunceford to Tom Kopzynski covering Hangar Site E-15 at the Lebanon State Airport.
 - 7) On February 21, 1979, executed a five-year lease between OSAD and Ed D. Oliver covering Hangar Site W-10 at the Lebanon State Airport.
 - 8) Temporary Road Easement, expiring 2/23/80 from OSAD to the Department of the Army, Corps of Engineers in conjunction with the dredge spoils material deposit project adjacent to the Toledo State Airport.
 - 9) On February 23, 1979 executed a 10-year Lease Agreement between Boise Cascade Corporation and OSAD wherein OSAD acquired a leasehold interest in certain property belonging to Boise Cascade Corporation for the purpose of establishing caretaker's quarters at the Prospect State Airport.
 - 10) On February 23, 1979, executed Letters of Offer for acquisition by Aeronautics of easements over property owned by Hayes (File A-27) and Glatfelter (File A-28) at the Powers State Airport.

Oregon Transportation Commission -3-
Members

September 4, 1979

- 11) On March 2, 1979, executed a Tree Farming Permit between OSAD and James H. Raymond and Howard D. Raymond, Jr., at the Siletz Bay State Airport.
- 12) On March 6, 1979, executed a Lien Waiver Agreement from OSAD to Colonial-Pacific Leasing Co. relative to construction of a hangar on Hangar Site #4 at the John Day State Airport under lease to Royal Allen.
- 13) On March 13, 1979, on behalf of OSAD as owner of the John Day State Airport, executed a one-year Operations Lease between the City of John Day and Michael Ryan, dba Blue Mountain Aviation.
- 14) On March 26, 1979, executed a five-year lease between OSAD and Keith Lucas covering Hangar Site #1 at the Powers State Airport.
- 15) On March 27, 1979, executed a Termination of Mobile Home Site Lease between OSAD and Wayne D. Bailey for a site formerly used as caretaker's quarters at the Independence State Airport.
- 16) On March 30, 1979, executed Addendum #1 to Ingress/Egress Permit between OSAD and James E. Preuit and Thomas W. Combest, and Independence Airpark Homeowner's Association, Inc., for the Independence State Airport.
- 17) On April 4, 1979, executed a Sewer Agreement between OSAD and James E. Preuit and Thomas W. Combest to allow connection to sanitary sewer service at the Independence State Airport.
- 18) On April 9, 1979, executed a Farming Lease between OSAD and William J. Nicks for a term expiring February 29, 1980 covering certain portions of the Independence State Airport property.
- 19) On April 13, 1979, executed Addendum #1 to the Flying Service Lease between OSAD and Lebanon Flyways, Inc., fixed base operator at the Lebanon State Airport.
- 20) On April 18, 1979, executed a five-year lease between OSAD and Richard Alexander for Hangar Site W-15 at the Lebanon State Airport.
- 21) On May 11, 1979, executed a Termination of Flying Service Lease between OSAD and Mid-Valley Airservice, Inc.
- 22) On May 11, 1979, executed a 10-year Flying Service Lease between OSAD and Independence Flight Center, Inc., for fixed base operations at the Independence State Airport.

MINUTES
of the
OREGON TRANSPORTATION COMMISSION MEETING
held on
October 23 - 24, 1979

October 23, 1979
Ontario, Oregon

The Commission and staff traveled to Ontario for their monthly meeting. There was a Commission and staff briefing on the Six Year Highway Improvement Program at the Tapadera Motor Inn between 4 and 6 p.m.

A no-host dinner was held in the evening at the East Side Cafe, Ontario, with officials from cities, counties and other interested persons in the Eastern Oregon area. There were several Idaho Department of Transportation officials at the dinner.

October 24, 1979
Ontario, Oregon

The Oregon Transportation Commission met at 9 a.m. in the Council Chambers of the City Hall. Notice of this meeting was made by press release to the newspapers of the general and local circulation throughout the State. Present were:

Anthony Yturri, Chairman
Tom Walsh, Vice Chairman
Peter J. Brix, Member
B. Gordon Coleman, Member
Michael P. Hollern, Member
F. B. Klaboe, Director of Transportation
Fred Miller, Assistant Director for Administration
George Bell, Assistant Director for Intergovernmental and Public Affairs
H. S. Coulter, State Highway Engineer
Paul Burket, Administrator of Aeronautics Division
David Talbot, Administrator of Parks and Recreation Division
Dennis Moore, Administrator of Public Transit Division
David Moomaw, Administrator of Motor Vehicles Division
David Moehring, Assistant State Highway Engineer, Project Management Branch
Glen Green, Federal Highway Administration
W. E. Schwartz, Region 5 Engineer
Shannon Priem Allen, Public Affairs
Fran Neavoll, Commission Services
C. W. Head, Manager, Commission Services

The Commission unanimously approved the following items on the consent calendar:

(Continued on next page.)

- 1) Minutes of the meeting of September 19, 1979.
- 2) Adopted resolution declaring necessity of certain real property for public purposes and authorized condemnation. ("Real Property Condemnation Resolution No. 2691" on file in the Commission's files, Salem.)
- 3) Adopted the following abandonment resolution:
 - a. Approximately 0.52 mile of old alignment in the Scio-Thomas Creek Section of the Albany-Lyons Highway in Linn County. ("Abandonment Resolution No. 247" on file in the Commission's files, Salem.)
- 4) Authorized increase in project authorization on the following contract:
 - a. Contract No. 8788 for the Monitor Road Junction, Hillsboro-Silverton Highway, Marion County, in the amount of \$82,200 (22.9% increase).
- 5) Abandoned five damage claims totaling \$3,289.58 as follows:

| <u>CAO NO.</u> | <u>NAME</u> | <u>DAMAGE</u> | <u>AMOUNT</u> |
|----------------|----------------------|--|---------------|
| 74-237 | Gail Mathers | Vehicle | \$595.00 |
| 78-295 | Dennis N. Chancellor | Curbs | 781.26 |
| 79-113 | Gerald E. Strong | No damage - expense was for flagging traffic around airplane that landed on highway. | 540.16 |
| 79-187 | Patrick D. Webster | Guardrail | 729.69 |
| 77-65 | John R. Sowers | Guardrail | 643.47 |

- 6) Granted authority to enter into a research contract with Oregon State University to assist the Highway Division Materials Section in conducting a study entitled "Impact of Variations in Materials Properties on Asphalt Pavement Life". Cost \$39,276. Project to be conducted under the Highway Planning and Research Program during fiscal years 1980 and 1981.
- 7) Three requests for projects utilizing Interstate Transfer Funds withdrawn from the Mt. Hood Freeway as follows:

(Continued on next page.)

- a. Ramp connections to I-5 from Greeley Avenue, City of Portland. Total Cost \$7,800,000. Federal Funds \$6,630,000. Local Government's Share \$1,170,000.
 - b. Signalize three intersections, construct transit turnouts and shelters, and provide intersection channelization on the S.W. 185th Avenue-S.W. Hall Boulevard Section on the Farmington Highway in Washington County. Total Cost \$609,000. Federal Funds \$517,650. Local Government's Share \$91,350.
 - c. Preliminary engineering project to conduct studies and prepare contract documents for reconstruction of the Sunset Highway/Beaverton-Tigard Highway Interchange in Washington County. Total Cost \$500,000. Federal Funds \$425,000. State's Share \$75,000.
- 8) Adopted as a permanent administrative rule the 1978 Edition of the Manual on Uniform Traffic Control Devices with nine exceptions and two supplements as the State Manual. On July 17, 1979, the Commission adopted the Manual as a temporary rule with seven exceptions and two supplements. Since the adoption of the temporary rule, two exceptions were added to the "Standard Practice & Interpretations" supplement as follows:

"There shall be no minimum mounting height for construction and maintenance signs mounted on barricades or temporary supports."

"For traffic control signals pertaining to drawbridges, a red lens may be positioned immediately to the right and to the left of the green lens without the use of a yellow lens. When the traffic control signal is activated by a drawbridge operator, the red lenses shall flash alternately."

In addition to the two exceptions, there have been other revisions to the supplements since the adoption of the temporary rule. ("Administrative Rule No. 116" on file in the Commission's files, Salem. Rule filed with the Secretary of State on October 30, 1979, and published in their Bulletin on November 15, 1979.)

- 9) Agreement with Malcolm R. Miner for the Aeronautics Division for consultant services to accomplish an Airport Site Study and Master Plan for the Chiloquin State Airport funded in part by a Federal Aviation Administration Planning Grant Program grant in the amount of \$19,172 and accepted by the Commission on September 19, 1979. Cost of project \$22,950; cost to State \$3,778. Authorized Administrator of Aeronautics to sign agreement.
- 10) Adopted resolution naming the bicycle trail along ORE 238 (Jacksonville Highway) between Medford and Jacksonville as the Donald L. Stathos Bikeway. Mr. Stathos is a former State Representative, former Chairman of the Bicycle Advisory Committee, and a pioneer in promoting establishment of the bicycle trails in Oregon. ("Commemorative Resolution No. 24" on file in the Commission's files, Salem.)

Written delegated authority reports were mailed to the Commission which show actions taken by the following officials on behalf of the Commission pursuant to its duly adopted delegation orders: (Exhibits on file in the Commission's files, Salem.)

| | |
|---------------------------------------|-----------|
| Chairman of Transportation Commission | Exhibit A |
| State Highway Engineer | Exhibit B |
| Right of Way Manager | Exhibit C |
| State Parks Administrator | Exhibit D |
| State Recreation Director | Exhibit E |
| Highway Controller | Exhibit F |
| Chief Counsel | Exhibit G |

The Commission confirmed November 20 and December 18, 1979, for their meetings in Salem.

Attention was given to terminating the Sunset Coatings Co., Inc., Contract No. 8871, Harrisburg Bridge maintenance painting on the Albany-Junction City Highway in Lane and Linn Counties. Mr. Coulter said the contract was awarded in January 1979 and the contractor worked on this job until July 20, 1979, at which time the work was approximately 50% complete. He mentioned the Division received a letter dated July 18, 1979, from the contractor's attorney claiming the State was requiring work over and above contract requirements. The Division's review, both internal and with the contractor and his attorney, does not substantiate the contractor's claim. Mr. Coulter stated the contractor has abandoned the job and on August 10, 1979, the contractor notified the Region Engineer by letter that he could no longer continue the project. He pointed out that the Division has repeatedly corresponded with the contractor and the surety and neither have

indicated a willingness to complete or assure completion of the contract. Mr. Coulter mentioned that in accordance with Section 108.11 of the contract provisions, sufficient cause exists to terminate the contract with Sunset Coatings Co., Inc. The Commission unanimously terminated the contract as recommended by Mr. Coulter and authorized him to advertise for bids on the remaining work.

The Commission considered the adoption of a permanent rule governing the movement of overdimensional mobile homes and modular building units. Mr. Coulter recalled that a temporary rule was adopted on June 19, 1979. He said a public hearing was held on September 21, 1979, and testimony, both oral and written, was about equally divided between those in support and those opposing the issue. Following Mr. Coulter's recommendation, the Commission unanimously adopted the following as a permanent rule:

- 1) Eliminate requirement for rear escort vehicle on certain two-lane highways for mobile homes not exceeding 14 feet in width and modified "oversize load" sign requirements.
- 2) Set standards for trailer axles, tires and brakes on mobile homes and provide for exemption of certain modular units from wind restrictions.
- 3) Eliminate requirement that overhanging eave on mobile home half section be transported only with eave overhanging highway shoulder.

(Detailed copy of "Permit Rule No. 32f" on file in the Commission's files, Salem.) Permanent rule filed with the Secretary of State on October 24, 1979, and published in the Administrative Rule Bulletin on November 15, 1979.

Consideration was given to the adoption of a permanent administrative rule establishing the criteria for issuance of new permits for benches utilized as outdoor advertising. Mr. Coulter stated the 1979 Legislature authorized the issuance of these permits. A temporary rule was adopted by the Commission on July 17, 1979, and effective July 19, 1979. A public hearing was held on September 21, 1979. He said the proposed rule would restrict bench signs to locations within commercial or industrial zones in incorporated cities or urban areas. The bench signs would have to be located at bus stops on city or urban transit system bus routes. Bench signs would not be permitted if visible from the interstate system, from a full control access highway, or from a state highway adjacent to a designated scenic area. Following Mr. Coulter's recommendation, the Commission unanimously adopted the permanent rule. (Detailed copy of "Administrative Rule No. 117b" on file in the Commission's files, Salem.) Permanent rule filed with the Secretary of State on October 30, 1979, and published in the Administrative Rule Bulletin on November 15, 1979.

Mr. Coulter stated that due to the early snow in the mountains and the beginning of elk hunting, the Division has received requests to move up the date for use of studded tires from November 1. Following Mr. Coulter's recommendation, the Commission unanimously approved the use of studded snow tires effective at noon today, October 24, 1979.

In reply to Commissioner Coleman's inquiry, Mr. Coulter stated the damage to the highways from the use of studded tires is estimated at \$1,500,000 to \$2,000,000 annually.

Mr. Talbot introduced Mr. Russ Pengelly of Burns, member of the Recreational Trails Advisory Council. He said that Mr. Tom Young of Baker is a member of the State Parks and Recreation Advisory Committee and if anyone has a park's problem, he is the person to contact in that area. Mr. Talbot reported that the State Parks camping attendance was down 10% this past summer which represents a \$100,000 to ~~200,000~~ loss in park revenue.

The Commission considered a request from the Willamette Valley Rail Study Committee to seek funds from the Emergency Board for the purpose of conducting an experimental rail project within the Willamette Valley. Mr. Moore gave a brief overview of the Willamette Valley Rail Study Committee and mentioned that four of the nine-member committee were present this morning.

Senator George Wingard, Vice Chairman of the Committee, said the Federal Government has some decisions but are not yet final that would support a 50% subsidy to any equipment that might be purchased on an operational basis. It would be on a basis of 80% Federal and 20% State for the first year; 65% Federal and 35% State for the second year; and 50% State for the years thereafter. He said the Committee is asking for an additional two Amtrak runs daily between Eugene and Portland on a demonstration basis. The Senator commented on the existing train schedule and the two proposed daily schedules. He mentioned that all of the Committee members are strictly multi-modal oriented. He felt that if this train is allowed to operate, it would increase bus usage.

Senator Wingard introduced Bill Parrish, Bill Price, Dave Paoli and Representative George Starr of the Committee.

Senator Wingard presented to the Commission the Allen Voorhees Consulting Engineers report on the Willamette Valley Rail Study Program. There was discussion regarding the present bus service and the bus and train fares between Eugene and Portland. The Senator pointed out that the present traffic on Interstate 5 in the Willamette Valley is becoming very heavy. He indicated the best approach would be to utilize the rail system rather than adding another lane on the Interstate.

There was considerable discussion concerning labor work rules. Representative Starr referred to the current law ORS 764.110 that requires a certain crew consist on passenger trains that are four cars and more. Trains consisting of three cars there is no law. A locomotive and three cars would have a four-man crew.

Mr. Bill Price commented on the California Law pertaining to trained personnel and rate of pay.

In reply to Commission Coleman's inquiry, Mr. Parrish estimated that Amtrak is carrying approximately 100 passengers each way in the wintertime and 200-500 passengers in the summertime. He said their projection is 260 per day divided by the four trips averaging 65 between Eugene and Portland. Mr. Price stated that rail passenger travel is at its lowest between Labor Day and Thanksgiving. However, this year it was approximately 30% higher than previous years.

Mr. Paoli said that buses are subsidized. He mentioned the Department of Transportation just participated in the Portland Terminal Study which is primarily an intercity bus study in the area close to the train station but is not really intergrading too well with it. This study costs \$120,000 which a big share was Federally funded. The Department of Transportation participated in the amount of \$23,000. He commented on the bus service in Polk County between Dallas and Salem that is being subsidized by Polk County.

Mr. Moore handed to the Commission the following resolution regarding public transportation in the Willamette Valley for their consideration:

(See next page for resolution.)

Resolution of the
Oregon Transportation Commission
Regarding
Public Transportation in the Willamette Valley

WHEREAS, the Willamette Valley Rail Study Committee has proposed a \$1,119,000 experimental project involving two daily round trips of rail passenger service between Portland and Eugene/Springfield for an eighteen-month period;

WHEREAS, both during 1973-74 and the more recent past, Oregon experienced serious shortages of fuel and rapidly escalating fuel prices;

WHEREAS, the Willamette Valley is Oregon's most heavily populated and traveled corridor;

WHEREAS, the intercity bus industry provides the highest level of bus services within the Willamette Valley while facing financial troubles throughout the state;

WHEREAS, there are about 85,000 person trips made in the Willamette Valley daily and about ninety-nine percent of the trips are made by auto;

WHEREAS, the Oregon Department of Transportation has legal authority to plan, develop, implement, and finance transportation alternatives;

BE IT THEREFORE RESOLVED:

The Transportation Commission supports the Willamette Valley Rail Study Committee proposal for the purpose of trying out alternatives in case of future energy constraints, to test the acceptability of rail service, and to gain experience on an experimental basis;

BE IT FURTHER RESOLVED:

That the Transportation Commission goes on record to recognize and support the services provided by the bus industry; to urge that every means possible be exercised to prevent the loss of bus passengers as a result of the project; to direct that the project be monitored and evaluated to determine the effect on bus services; and that marketing efforts include promotion of bus travel, also;

BE IT FURTHER RESOLVED:

That monitoring and evaluation have not the potential of a serious impact on the loss of passengers from intercity buses; the Oregon Department of Transportation will attempt to alleviate the situation and, if it cannot, the Department will present new programs to the Transportation Development and Emergency Board which will be designed to solve the problem;

This resolution shall be entered in the minutes and records of the Commission as Miscellaneous Resolution No. _____ this 11th day of October, 1979

The Chairman reconvened the meeting at 10:45 a.m. after a 10-minute recess.

Chairman Yturri announced that there are no Highway Funds involved in this rail proposal. Funds would come from the General Fund. He read aloud a portion of the resolution which Mr. Moore had presented to them.

He stated the Commission appears to have four alternatives, as follows:

- 1) Adopt the resolution or reject it.
- 2) Amend the resolution in whatever fashion it determines proper.
- 3) Reject the proposal and the request of the Willamette Valley Rail Study Committee.
- 4) Submit a request to the Emergency Board without recommendation on the part of the Commission.

Chairman Yturri read the following two possible amendments to be added to the resolution which were handed to him:

- 1) The Department of Transportation, together with the Executive Department, shall develop and adopt standards and criteria which must be achieved during the demonstration period.
- 2) The Commission expresses its reservation about the high costs involved in the service proposal and directs that all efforts be made to reduce costs, labor, equipment, efficiency, etc., before a contract is returned to the Commission for signature.

Commissioner Hollern stated that he would vote passing this proposal to the Emergency Board without recommendation for the reason that it has always been a controversial matter that was started by elected officials in the Legislature. He said he felt that the elected officials are theoretically more responsive to the people than appointed officials are. He mentioned that if the Emergency Board does elect to fund it, he would urge them to give serious consideration to the labor cost-work rule issue and if they do fund it, to come back to the Department and ask DOT to adopt specific criteria which must be met during a trial period.

Vice Chairman Walsh said he supports Commissioner Hollern's comments. He stated the making of the problem is more of the Legislature; the problem being how do we attack on an experimental basis the need for public transit in the Willamette Valley. Vice Chairman Walsh stated the report submitted today is not backed up by numbers; however, the expenditure of \$5 million on a demonstration public transit project is warranted. He mentioned the modification of work rules have to be addressed, without it there is no negotiating power. He said there should be a joint marketing program and a very detailed criteria to measure how effective the project meets its goals so an evaluation can be made on whether or not to continue service beyond the trial period. He continued that even though it is an 18-month experiment, there should be a contingency plan on it in regard to possible negative impacts on the bus industry.

Commissioner Brix stated that he would reluctantly support no recommendation because of the numbers in the report and the information submitted today does not justify the project. He said his concern is the failure to consider seriously what will be done after the 18-month experimental project.

Commissioner Coleman said he would support a resolution with no recommendation. He felt that the Emergency Board and the Legislature should make the final decision.

Chairman Yturri stated that unless the Commission acts today even the possibility of this project ends because funds will not be available until a year from now, if then. He said it is the Commission's last opportunity for at least a year to see whether or not it will enter into an experiment on the part of Oregon which, from the General Fund, will cost \$1,100,000. The Chairman suggested the resolution be adopted as presented with the two amendments that he read.

Chairman Yturri called for a vote:

| | |
|--|--|
| Adopt the resolution with no amendments | No votes |
| Adopt the resolution with both amendments | Chairman Yturri voted yes |
| Adopt resolution with one amendment | No votes |
| Reject the request of the Willamette Valley Rail Study Committee | No votes |
| Submit to the Emergency Board without recommendation by the Commission | Commissioners Coleman and Brix voted yes |

Chairman Yturri changed his vote from adopting the resolution with both amendments to submitting the proposal to the Emergency Board without recommendation by the Commission.

Commissioner Hollern stated that Vice Chairman Walsh had made some good points and asked that they be included in the motion.

Vice Chairman Walsh reiterated the four points he made earlier that when the proposal comes back it includes specifics in four areas:

(Continued on next page.)

- 1) Modification of the work rules
- 2) A specific joint marketing program for rail and bus
- 3) Specific detailed objectives worked out by the Department and the Executive Department
- 4) A contingency plan if bus ridership declines

Chairman Yturri stated the action of the Commission is that the proposal be submitted to the Emergency Board without recommendation from the Commission but with the suggestions made by Vice Chairman Walsh. The Commission unanimously concurred.

PUBLIC COMMENTS

Mr. Mel Johnson, Police Commissioner and Councilman for the City of Burns, appeared before the Commission calling attention to the traffic congestion on Highway 20 through their City. He stated the critical area is between the Safeway Store and Teague Motors. Mr. Johnson asked for a study to see what can be done to improve the traffic flow in Burns. He commented on the bike path located on the west side of the highway indicating it should be located on the east side of the highway due to the location of the swimming pool. He asked if a representative of the Highway Division could contact the City concerning this safety problem. Mr. Johnson pointed out the unsightly condition of the Highway Building in Burns indicating that it needs painting and a general clean up of the grounds.

Mr. John Breese, City of Huntington, thanked the Commission for the installation of gas and lodging signs on I-80 North, northerly of Huntington. He asked when the Interstate resigning occurs that a Route 30 sign be installed so the public will know they can get off the Interstate into Huntington from the north and continue on through Huntington to Farewell Bend without having to backtrack.

Mr. Russ Pengelly, City of Burns, mentioned that during the winter the Highway Division plows snow off of the highway onto the walkway from the high school to Burns. He inquired whose responsibility it is to remove the snow from the walkway. The Chairman informed Mr. Pengelly that Mr. Pat Schwartz, Regional Engineer, would contact him concerning this matter.

Mr. Max Brittingham, City of Nyssa, thanked the Commission for coming to Eastern Oregon for their monthly meeting. He mentioned the City and the Nyssa Chamber of Commerce would like the Highway Division to install signs on Highway 20 eastbound indicating the City of Nyssa. Mr. Brittingham presented colored prints of signboards showing Riley Junction in the City of Burns, intersection of

Highways 20 and 395 east of Burns, Juntura and Harper Junctions and stated the name Nyssa is not listed. Chairman Yturri informed Mr. Brittingham that a representative from the Department would contact the City in the near future regarding the signing. (Letter and photos on file in the Commission's files, Salem.)

Judge E. M. Seuell of Malheur County mentioned Highway 20 west does not have a rest area until you reach Buchanan. The Judge said anything the Division can do to improve Highway 95 from Jordan Valley north would be appreciated. Judge Seuell mentioned that there have been some complaints about the Cairo Junction Interchange especially on a rainy or snowy night. He suggested a study of this area, and possibly better lighting, might help improve the safety of this interchange. He thanked the Commission for the Brogan Hill Project and for coming to Eastern Oregon for their meeting. The Judge said the County supports the City of Ontario's request for the improvement on S.W. 4th Avenue which is urgent and needed. Judge Seuell mentioned one of their objectives is their long-range transportation plan for a bypass road from south of Ontario to Interstate 80 North on the east of Ontario. He stated their Road Advisory Committee and their Transportation Committee for their transportation plan are one of the same. (The Committee's letter and map of the proposed bypass were presented to the Commission and are on file in the Commission's files, Salem.) The Judge said this route has several advantages. It follows existing streets; it could be made a truck route and take the heavy truck traffic off of S.W. 4th Avenue. He commented on the old bridge east of Ontario that crosses at the Snake River saying it should be high on any priority list.

Mr. Klaboe mentioned that the bridge crossing the Snake River is high on the Department's list. He said the problem is to convince the State of Idaho.

Judge Dale White of Harney County thanked the Commission for the projects that have been completed in the past several years. He said the Highway Division Resident Engineer has been helpful on the County bridge projects, the design and the supervision of some of their jobs. The Judge mentioned the section from Buchanan up to the new project on Stinkingwater needs some improvement. He commented on the need for repair on the Lawen Section of Highway 78. Judge White requested the extension of Highway 205 from Roaring Springs Ranch south to the Nevada State Line. Chairman Yturri mentioned that inflation continues to increase, automobiles are getting more miles per gallon and the tax revenues of the Department are decreasing instead of increasing. He said the Department's needs are growing and it is very difficult to keep the highways in good condition.

Judge John Moreau of Grant County thanked the Commission for coming to the Eastern part of the State for their monthly meeting. He stated they are concerned about the John Day Airport and are hopeful of getting on a high priority for the 1981 ADAP Program for a crosswind strip. He indicated this strip is very much needed by the General Aviation Community in the County and the Forest Service. The Judge said they have lost the Trailways Bus Service on Highway 26 within the last six months between Prineville and Vale. He said they would like to see a third lane constructed on Long Creek Mountain on Highway 395 north. A third lane is also needed on Canyon Creek, Starridge area of Highway 395 south. Judge Moreau thanked the Commission for the recent highway projects in Grant County. He mentioned there is sort of a "No Man's Land" which needs improved between Dayville and Mitchell, Highway 26 west in the Rock Creek area.

Judge Dennis Fuller, Baker County, thanked the Commission for the various overlay projects in the County. He stated the cooperation of the Highway Division personnel has been very good with the County in spraying along the State Highways in the County-wide weed control program. He indicated there is a good line of communication between the Highway personnel and the County which is very much appreciated. Judge Fuller commented on the new Austin-Sumpter Valley Highway.

Mayor Ralph Cornmesser of Ontario welcomed the Commission to the City. He said the City is requesting the Commission to include on the Six Year Improvement Program the improvement of S.W. 4th Avenue (Olds Ferry-Ontario Highway) from Airport Corner to Park Boulevard as a fully improved four-lane highway with a center left-turn lane. He mentioned the City of Ontario has become a shopping and trading center for the entire Eastern Oregon-Western Idaho area serving a population of over 60,000 people. The population in Ontario, he said, has increased 40% in the past eight years. He thanked the Transportation Commission for the striping on S.W. 4th Avenue which has helped reduce accidents and improved the flow of traffic. He mentioned the Highway Division has been very cooperative in the City's request for surveys, planning and technical assistance.

Mr. Doug Tietze, Director of Public Works for Ontario, and Mr. Jim Jones, Ontario Police Chief, reviewed the traffic and accident characteristics on S.W. 4th Avenue showing slides and a video tape. Mr. Tietze stated the bypass routes previously referred to are identified in the City's Comprehensive Plan. He said the traffic study that is presently underway in the City by a consulting firm has made some projections on S.W. 4th Avenue in the area of the shopping center near Verde Drive. It is estimated that the average daily traffic will be 29,000 by 1990 and 38,000 by the year 2000. Mr. Jones narrated the video at various locations on S.W. 4th Avenue between Park Boulevard and Verde Drive showing the actual traffic conditions. He mentioned there are numerous rear-end accidents and 40% of the accidents are out-of-state vehicles.

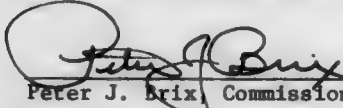

Mayor Cornmesser stated the City of Ontario will continue to support the initiatives proposed by the Transportation Commission for increasing highway revenue. (Written testimony on file in the Commission's files, Salem.)

Mr. Klaboe pointed out that the S.W. 4th Avenue Project is in the Preliminary Six Year Highway Program using EGC Funds and is scheduled for 1982, which is about as fast as it could be done. He said there are approximately 200 pieces of right of way to purchase and there is the Environmental Impact Statement that has to be approved by the Federal Highway Administration.

Chairman Yturri adjourned the meeting at 11:50 a.m.

- (2) Agreement with City of Oregon City for revision of traffic signals on the Oswego and Cascade South Highways in Clackamas County. The City plans to remove the existing traffic signals at 10th and Main Streets and utilize the equipment to install traffic signals on 7th Street at Main and Monroe Streets. The work will be accomplished by the City at no expense to State. Upon completion, the State will maintain the signal equipment and the City will pay for electrical energy. (Local Government Unit)
- (3) Agreement with Grant County transferring jurisdiction to the County a portion of the Austin Spur of the John Day Highway upon acceptance by State of the Austin-Sumpter Road as a State Highway. The agreement is subject to execution of a similar agreement with Baker County. The agreement also provides that Grant County shall participate in the construction costs of a storage yard and sand shed, by transfer of FAS-C funds, at a site yet to be selected on the Austin-Sumpter Road. (Local Government Unit)

Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith for the Commission, I approved all actions listed below and report them for your official records:

- 1) On August 29, 1979, approved a personal and professional services agreement with Explosive Service Company to instruct selected Highway Division personnel in the safe and proper techniques of handling, transporting, placing and firing of explosive materials. This will be a 40-hour course to be held in Coos Bay, September 17 through 21, 1979, at a cost not to exceed \$2,475. (Mr. L. W. Rulien signed & approved this agreement on behalf of the State Highway Engineer.)
- 2) On September 11, 1979, approved a supplemental agreement with Howard, Needles, Tammen & Bergendoff changing the date of completion from July 7, 1979 to September 15, 1979. (Original agreement executed on November 1, 1978.) There is no change in payment and no additional cost to the State. (DEIS on the Powell Boulevard/Fariss Road Connection and the Powell Boulevard/Butler Road Unit, Agreement No. 6623.)
- 3) On September 14, 1979, adopted a permanent administrative rule establishing a single solid eight-inch wide white stripe as the uniform marking for bicycle lanes. (Temporary rule was adopted by Commission on May 15, 1979, and the Commission at that time authorized the State Highway Engineer to adopt as a permanent rule.) See Administrative Rule No. 110A. (Adopted by Larry Rulien on behalf of State Highway Engineer)

EXHIBIT B
MINUTES OF 10-24-79

- 4) On September 18, 1979, approved a personal and professional services agreement with Jean H. Names for a Professional Development for Women Seminar for November 29-30, 1979, at a cost not to exceed \$750.
- 5) On September 18, 1979, approved a personal and professional services agreement with Jean H. Names for a Professional Development for Women Seminar for January 8-9, 1980, at a cost not to exceed \$750.
- 6) On September 24, 1979, approved a personal and professional services agreement with D. Douglas Dent to teach approximately 350 Highway Division employees safe and proper tree-falling and chain-saw operation. Consultant will conduct 7 one-day classes and the first class will be held on or about October 23, 1979. The remaining six classes will be completed before December 31, 1979. Cost not to exceed \$2,450.

EXHIBIT DTO: Oregon Transportation Commission MINUTES OF 10-24-79

SUBJECT: Report of Action Taken Under Delegated Authority

By your duly adopted delegation order, you authorized me in my official capacity to exercise certain authority on behalf of the Oregon Transportation Commission. Pursuant to that authority, and acting in accordance therewith, for the Commission, I approved the following actions and report this for your official records.

On July 9, 1979, approved an agreement with the Oregon State Museum of Anthropology (Oregon State Board of Higher Education) to number and file all archeological sites, both prehistoric and historic that merit a permanent site file number. This project is under the jurisdiction of the State Historic Preservation Office. Term of the agreement is from July 9, 1979, through July 1, 1980, with a maximum payment by the State of \$7,500.

On August 1, 1979, approved an agreement with Pacific Power & Light Company for the installation of electric distribution facilities to Elijah Bristow State Park, Lane County, under State contract No. 8786. Advance payment amounted to \$3,987 with the monthly rates to be established in accordance with current Schedules.

On August 6, 1979, approved an agreement with Image Northwest Film Production to produce a TV public service announcement to encourage use of state parks and campgrounds. A payment of \$2,500 will be made on completion of the project. A maximum of \$500 will be paid for travel expenses.

Approved an easement dated August 8, 1979, which was provided by the U.S. Coast Guard at the request of the Parks Division to accommodate installation of a sewer line at Port Orford Heads State Wayside, Curry County.

On August 14, 1979, approved an agreement with the City of Portland to participate in the costs of the location and development of the Marquam Hill Trail, Multnomah County, a recognized trail within the proposed State Recreation Trails System. State's participation is \$5,000.

On August 28, 1979, approved Stephen M. Dorn's application to construct a single-family dwelling and barn within the Clackamas River Scenic Waterway in Clackamas County.

On August 28, 1979, approved Mr. and Mrs. Stevenson's and Irene Kesterson's application to construct a single-family residence within the Rogue River Scenic Waterway in Josephine County.

October 5, 1979

Page 2

On August 31, 1979, approved an agreement with the Oceanside Water District to provide water to Oceanside Beach State Wayside, Tillamook County, for the period of July 1, 1979, to July 1, 1982, at established monthly rates.

On September 6, 1979, approved Kenneth Wierma's application to construct a single-family residence within the Clackamas River Scenic Waterway in Clackamas County.

On September 10, 1979, approved Tri-City Building, Marvin Moles' application to construct a single-family dwelling within the Clackamas River Scenic Waterway in Clackamas County.

On September 25, 1979, approved a new lease of Meldrum Bar property, Willamette River Greenway, Clackamas County, to add the State Land Board parcel, and to establish a 25-year term so the City can qualify for Heritage Conservation and Recreation Service funds to develop a boat basin.

Dated this 5th day of October, 1979

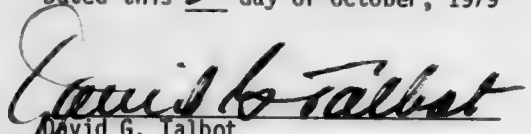

David G. Talbot
State Parks Administrator

EXHIBIT E
MINUTES OF 10-24-79

TO: Oregon Transportation Commission

SUBJECT: Report of Action Taken Under Delegated Authority

At the meeting on October 18, 1977, you authorized the State Parks Superintendent or his designate to sign grant-in-aid project agreements. The State Parks Superintendent on November 1, 1977 authorized me to sign these agreements. Pursuant to that authority, and acting in accordance therewith, I approved the following grant-in-aid projects and and report them for your official records.

January 8, 1979 - City of Sutherlin, Douglas County -
Central Park Irrigation - \$1,000.00.

May 30, 1979 - City of Eugene, Lane County - Alton
Baker Park Landscaping - \$10,827.50.

Dated this 5th day of October 1979

Gary A. Scott, State Recreation Dir.

(Due to organizational changes within the Division affecting the Recreation Director's position, State Parks Administrator David Talbot has signed this report instead of Gary Scott.)

TO: Oregon Transportation Commission
SUBJECT: Confirmation Report of Actions Taken Under Delegated Authority

Pursuant to authority delegated to me, I report the following action for the Transportation Commission's records:

On SEP 28, 1979, \$2,897,933.70 was distributed to the counties as their share of motor vehicle revenues (20 percent) for the month of AUGUST, 1979.
(List of apportionments on file in Commission Files, Salem.)

On SEP 28, 1979, \$1,757,242.30 (12 percent of the Highway Fund) was distributed to the cities for the month of AUGUST, 1979.
(List of apportionments on file in Commission Files, Salem.)

Dated this 24TH day of SEPTEMBER, 19 79

REPORT OF CASES FILED BY AND AGAINST THE DEPARTMENT OF TRANSPORTATION

L-7757 State of Oregon, by and through its Department of Transportation, Parks and Recreation Division v. Bernard D. and Mai Jackson (Curry County Circuit Court No. C79-8-83): This suit for an injunction involves compliance with an agreement for the development of a recreation vehicle campground at Agness on the Rogue River. The agreement, arrived at under the Oregon Scenic Waterways Act, required the Jacksons to establish a hedge-like growth of screening vegetation on their river bank within one year of commencing construction of the campground. The complaint alleges that defendants began constructing the campground by clearing and levelling the land on June 26, 1978, but have not yet planted a hedge-like growth, and therefore seeks an injunction to close the campground until the planting has been completed.

L-7771 State of Oregon, Acting Through its Department of Transportation and the Highway Division thereof, on the Relation of LaGrand Industrial Supply Co., an Oregon Corporation v. Gene Scott, et al: This is a lawsuit between a supplier and a general contractor on Contract No. 8470 which is the painting of a portion of the Astoria Bridge. The actual plaintiff is LaGrand Industrial Supply Co. who is seeking to recover for materials and supplies furnished to a subcontractor of the general contractor. The State is not actually involved in the lawsuit and the tender by the attorney for Gene Scott has been refused. The matter has been referred to the Attorney General's office who will continue to monitor the case.

L-7775 Lois M. Rist and Sally A. Vanhandel, Personal Representatives of the Estate of Billy Rist, Deceased v. Rita Mary Person; Ronald Frances Stockdale and the State of Oregon: This lawsuit arises out of an accident that occurred on January 2, 1978 on Highway No. 26 at M.P. 12.4, approximately 15 miles east of Seaside. The allegations of negligence against the State relate to failing to post warning signs, failing to monitor the weather, failing to have the roads sanded and failing to inspect the road in order to determine that it was icy. The plaintiffs have sued for \$500,000 and the matter has been referred to the Attorney General's office for the defense of the State.

L-7776 Bernard J. Howser and Evelyn J. Howser v. Department of Transportation, Highway Division, State of Oregon; F. B. Klaboe, E. E. Beckman, J. B. Boyd, R. L. Schroeder, Harold Brainerd, Joseph R. Stupfel, John L. Gunter, H. S. Coulter and Jack L. Sollis: This lawsuit arises out of a hearing that was held by the Highway Division relating to illegal outdoor advertising signs. As a result of the hearing several signs owned by the Howsers were declared to be illegal outdoor advertising signs and an order was issued for their removal. The plaintiffs in this case appealed to the Court of Appeals and the decision of the hearings' officer was upheld by the Court of Appeals.

EXHIBIT G
MINUTES OF 10-24-79

Mr. and Mrs. Howser were notified to have the signs removed by the 1st of October. On the 25th of September they filed this case in the United States District Court for the District of Oregon seeking damages for loss of business, alleged conspiracy on the part of certain individuals and violation of civil rights. The complaint seeks \$6,000,000 in punitive damages and \$1,272,000 for loss of profits, \$100,000 for mental anguish and distress and \$100,000 each for loss of reputation. The matter has been referred to the Attorney General for the defense of the State and all of the individual named defendants.
